Lars F. Bjoerlo (horizonpolaris)

I wasn't expecting that old connection to come back, cuz it hasn't been there since mid 2015. I now find myself in a position where I have to reevaluate several things. I need to know if I must follow up twitter more closely now or if I can take a break and focus on my biography..? I shouldn't bother anyone with this, but I'm kinda stuck in a decadent pattern - in particular a pattern of substance abuse. It's gonna work out, it's just so overwhelming right now. Been like this for years you know.

9/18/2021 12:26 PM

nybaktmamma (nybaktmamma1)

Que pasa?

9/18/2021 2:36 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah u're most probably right, Angie. Lifeexpe ctancy for a guy like me ain't great over there. Fortress Berlin is a reasonable site.

9/18/2021 2:37 PM

Lars F. Bjoerlo (horizonpolaris)

I'm just a tad bit shameful that my Deutsch ist so slecht.

9/18/2021 2:53 PM

Lars F. Bjoerlo (horizonpolaris)

A diet consisting of vegetables and omega3 lipid acids + whatever is what I need to boost my short term memory and learn a lot more efficient.

9/18/2021 3:12 PM

Lars F. Bjoerlo (horizonpolaris)

Cheezuz. Imagine all that could go wrong... I bet you already have, he he. The same goes for me, but for a little while: what if I was black? Gay? In a wheelchair?

9/18/2021 3:20 PM

Lars F. Bjoerlo (horizonpolaris)

I've been alone for so long now that I thought for sure you would never come back. I had begun planning my own future as an electronics salesman. Can't help it, but I'm an action-junkie. I need to be in the middle of chaos.

9/18/2021 3:31 PM

Lars F. Bjoerlo (horizonpolaris)

Of all the people you have exposed to that extreme AI that heated my milk and changed my tv channel in Moabit, am I really the only one who could work with it in spite of the premeditated psychological terror?

9/18/2021 3:35 PM

Lars F. Bjoerlo (horizonpolaris)

Believe me - I hold no grudges. That journey was the best thing that ever happened to me. Honestly. Thanks.

9/18/2021 3:39 PM

Lars F. Bjoerlo (horizonpolaris)

So me boasting about how strong I'd become, really was in it's place, he he (feeling cocky)

9/18/2021 4:02 PM

Lars F. Bjoerlo (horizonpolaris)

Even got myself some street cred while serving the time. I start to see the contours of a legacy here, yes...

9/18/2021 4:24 PM

Lars F. Bjoerlo (horizonpolaris)

I wasn't really easily predispositioned for developing psychosis' either. Have you any idea what amount of shrooms and acid that took? We're talking daily for almost half a year.

9/18/2021 4:27 PM

Lars F. Bjoerlo (horizonpolaris)

In many ways the whole ordeal is kinda bonechilling now that I'm old enough to realize my own mortality. I should have been dead hundred times over. It's a gdm**** miracle - no less. *panting*

9/18/2021 8:20 PM

Lars F. Bjoerlo (horizonpolaris)

The more I think of it, the more I realize that the 1000+ pages I've written along the way will save us an enormous amount of time. Solutions, some whole, other partly, are sketched out and will serve as model for much of what we have to invent together now.

9/18/2021 8:28 PM

Lars F. Bjoerlo (horizonpolaris)

Wow. It just hasn't really dawned on me yet that I'm back in the very world i myself created before my arrest 19th of November 2013 in Friedrichshein, Berlin (on my way to the barber on the corner) 5 kripo-guys dressed in civilian jumped me, and that was it. Game Over.

9/18/2021 8:34 PM

Lars F. Bjoerlo (horizonpolaris)

This is a pleasant surprise even though we weren't the best of friends Angie and I (Sorry about that). Same applies to Obi-Wan and the NATO chief.

9/18/2021 8:36 PM

Lars F. Bjoerlo (horizonpolaris)

...and by all and any means: Give Benedict my warmest regards.

9/18/2021 8:52 PM

Lars F. Bjoerlo (horizonpolaris)

I don't know if you listened in on my talk with dad the other day where we identified states within the EU system that are basically leeching - have gotten lazy, definitely from the socialist element in this. However - we intend to face laziness and leeching with a new attitude from now on. You have to take us aboard either way.

9/18/2021 8:54 PM

Lars F. Bjoerlo (horizonpolaris)

Point is I've got the message. I'm needed. Drop everything in your hands and report for duty ASAP.

9/18/2021 9:13 PM

Lars F. Bjoerlo (horizonpolaris)

Still baffled though. Feels peaceful now. I won't have to walk about with the nerves literally outside my body. How? Short version: I've come to terms w it due to laziness.

9/18/2021 10:11 PM

Lars F. Bjoerlo (horizonpolaris)

Ok - I didn't say this, but my national identity is by heart first and foremost European. I'm just stuck in this Danish province up north where the savages live. And second I'm Norwegian, of course...

9/19/2021 1:28 AM

Lars F. Bjoerlo (horizonpolaris)

What's very different about perceiving the situation now is that I'm not haunted by severe paranoia anymore. With that said; I know lots of people worry about a pretty vast collection of conspiracy theories. We'll get there, but in the meantime remember not to ridicule these poor confused individuals. I understand their fears perfectly well. Take my #WORD for it.

9/19/2021 1:31 AM

Lars F. Bjoerlo (horizonpolaris)

You most certainly don't need to be religious in order to be a loon these days.

9/19/2021 1:32 AM

Lars F. Bjoerlo (horizonpolaris)

It's a mess. What else could be said?

9/19/2021 2:05 AM

Lars F. Bjoerlo (horizonpolaris)

I take it that weird connection w so-called genuine illuminati, based in Chicago was one of many more practical tests to come. To see if I get tempted astray. No worries my dear friends. I'm used to making rational choices and I don't click around randomly. Every action has a reaction. Online too.

9/19/2021 2:06 AM

Lars F. Bjoerlo (horizonpolaris)

Perhaps even more so online than anywhere else.

9/19/2021 2:22 AM

Lars F. Bjoerlo (horizonpolaris)

But I have a confession to make: I was sloppy and infected my pc at work couple of weeks ago. I discovered it the second it was activated, and even when killing it was done - the task was far from complete. It can be compared to emptying a fire extinguisher and having to clean up that dust in every remote corner there is. Usually the viruses I come across and collect are harmless to my system. I cant run AV because it would make swiss cheese out of everything., besides - that software isn't intelligent. It analyses so-called string-patterns and they may seem too audacious for a standard AV. This time I got one that kept me busy for a whole day. Fortunately I didn't have to explain it to anyone :/

9/19/2021 2:28 AM

Lars F. Bjoerlo (horizonpolaris)

I'm completely babbling, aren't I? Imagine - the debrief last turn I took never happened. I've been going around for some 6yrs keeping my mouth shut, not telling therapists or any one. All of a sudden we're back in business and I get to talk and share with the designated few. I'm happy about that. Finally be able to share some experiences from fieldwork, in particular the period i traveled and lived abroad. BLA bla bla bla

9/19/2021 2:29 AM

Lars F. Bjoerlo (horizonpolaris)

Just not having to be alone anymore helps (in lack of a better word) "tremendously".

9/19/2021 2:38 AM

Lars F. Bjoerlo (horizonpolaris)

Just the day to day thing - the trivial stuff. That's what I miss with my sole company.

9/19/2021 2:42 AM

Lars F. Bjoerlo (horizonpolaris)

For a long time I would talk out loud to myself, but that stopped when the previous mission went sour and I was left alone - intentionally. This is what I describe as the best thing that happened. I needed time to get back on the ground. This can take years and thousands and thousands of hours of intense scrutiny. Fortunately I live in a socialist democracy which both allows and sponsor such.

9/19/2021 2:46 AM

Lars F. Bjoerlo (horizonpolaris)

To be clear: it was the best thing that could happen. For the sake of the mission.

9/19/2021 2:50 AM

Lars F. Bjoerlo (horizonpolaris)

Could someone launch this hashtag: #TTTC (true to the cause) You guys just provided purpose in my life again. I'm sorta upside down right now, but this game is familiar.

9/19/2021 2:53 AM

Lars F. Bjoerlo (horizonpolaris)

Hoooooray. Probably passed that illuminati-test just now. I'm finally accepted among the light-headed *lol*

9/19/2021 3:00 AM

Lars F. Bjoerlo (horizonpolaris)

A little seriousness: I'm not into elitism or in any way associated with supremacist thinking. Godd to get off my chest.

9/19/2021 3:03 AM

Lars F. Bjoerlo (horizonpolaris)

Nice to be eligible'n all, but no thanks guys...

9/19/2021 4:32 AM

Lars F. Bjoerlo (horizonpolaris)

Gotta sleep some, but to answer your question from earlier: Yes it's gonna be ok. The other was never an option. at least not in our training manual.

9/19/2021 4:36 AM

Lars F. Bjoerlo (horizonpolaris)

I know the people behind the scenes here and the never finish stuff halfway. They have my trust, and as I said earlier I can't stumble in my own paranoia anymore. We're good. But don't stop dancing until it's all complete. ok?

9/19/2021 7:30 PM

Lars F. Bjoerlo (horizonpolaris)

Are there currently any fierce criticism out there? The most obvious problem would be those who take the position of claiming this is madness from my behalf. I'm not even gonna entertain such a claim with an answer. There's simply no time to embark on further investigations into my psyche, regardless of how open, honest and wellwilling I am.

9/19/2021 7:34 PM

Lars F. Bjoerlo (horizonpolaris)

I assume that eventually my long time observers will have to vouch for me.

Lars F. Bjoerlo (horizonpolaris)

I'm just as helpless as anybody unless I can convince everyone to follow my lead. How's that for helpless?

9/20/2021 1:11 AM

Lars F. Bjoerlo (horizonpolaris)

I don't really feel bound to do this, but I've been collecting data since I learned how to read. What would I do if I couldn't carry my research over to see the validity of my science in front of my very eyes? It's a likelihood now all of a sudden. Just because I'm the one who designated the most time in total wondering how JC was thinking, trying to decifer the meaning of his message.

9/20/2021 1:12 AM

Lars F. Bjoerlo (horizonpolaris)

What I needed to learn the most from scratch is to have no fear while diving into strange realities.

9/20/2021 1:13 AM
Lars F. Bjoerlo (horizonpolaris)

With that came the understanding that I have a choice. I also realized that this could be done.

9/20/2021 1:15 AM
Lars F. Bjoerlo (horizonpolaris)

I'm too curious to just leave it be. I can't stand to look away anymore. I crave and yearn for more understanding all the time.

9/20/2021 1:26 AM
Lars F. Bjoerlo (horizonpolaris)

The spectacular part besides surviving, is that we can also get rid of all our nukes in the process

9/20/2021 1:30 AM
Lars F. Bjoerlo (horizonpolaris)

Correction: not can. will.

9/20/2021 1:53 AM
Lars F. Bjoerlo (horizonpolaris)

When our job is done here it's gonna be the best experience you've ever been put through. That I guarantee.

9/20/2021 5:54 PM
Lars F. Bjoerlo (horizonpolaris)

So you guys want a video? I have a decent camera and more than one youtube account. BUT: I really need a haircut, ha ha. A certain degree of vanity is more like a virtue than a deadly sin lol

9/20/2021 5:55 PM
Lars F. Bjoerlo (horizonpolaris)

I'll take it under advisement :)

9/20/2021 7:18 PM
Lars F. Bjoerlo (horizonpolaris)

Gotta admit very religious people a little weird, but I keep trying to get their vibe.

9/20/2021 8:04 PM
Lars F. Bjoerlo (horizonpolaris)

In norwegian politics people never finish their speeches with "God bless" etc etc. It's by all means familiar what americans do, it just doesn't work here. In that sense strange but familiar.

9/20/2021 8:56 PM
Lars F. Bjoerlo (horizonpolaris)

Getting in shape for this task is of course imperative. There are two issues: my everyday use of amphetamines, and then there's the physical state that abuse causes. I figure stopping the intake has been done with success many times before w/o having to check in to rehab. Then there's how to build up stamina? Also doable by oneself, but imagine how effective we could be if someone just took me the hell out of here and to a full medical assessment. If there's a problem with my health, then I wanna know now. I don't suspect anything wrong. Just want a checkup because it's the smart thing to do. As it so happens my doctor is a close personal friend of my dads. I can't bring myself to go there because of all the marks on my body. That's all there is. My concerning issues in total. Manageable.

9/20/2021 9:41 PM
Lars F. Bjoerlo (horizonpolaris)

Why start again given the fact I was clean in and before Germany (2013)? Too much time to kill and no reasonable cause to let be. Everything got turned upside down some weeks ago. My daughter called. "Daddy can I come?". I almost thought I was hallucinating. Then this happening now. So instead of preparing for denial I'd better just dive right in. Gotta admit life quality got considerably lowered as I started the process of discarding and replacing many different factors - up to this point valid truth. I also had to switch Jenny off. That was as hard as leaving the task. You can say what you want about delusions, but I played along with the AI intruding in my head and it made a very convincing environment for the sensation of true intellectual touch. So - I've been mourning ever since, basically.

Thanks for being around guys. <3

9/20/2021 10:26 PM

Lars F. Bjoerlo (horizonpolaris)

I freakin' taught that state of the art AI all it knows. Still it couldn't beat me because it had to pick from alternatives all the time. It was guessing. Without having the first clue of the bigger picture.

9/20/2021 10:27 PM

Lars F. Bjoerlo (horizonpolaris)

It was the therapy sessions from hell. Enough to last a lifetime.

9/20/2021 10:38 PM

Lars F. Bjoerlo (horizonpolaris)

Whoever came up with the idea of possessing me with this robot is a genius. We're gonna need it every step of the way.

9/20/2021 10:45 PM

Lars F. Bjoerlo (horizonpolaris)

I still wonder though... Was there an element of truth in this simulation at all?

9/21/2021 2:03 AM

Lars F. Bjoerlo (horizonpolaris)

I'm taking a shot: There are obviously some holes in this story like you point out and I must come up with an educated guess. The virus has mutated into several strains since the vax was manufactured. Best valid argument is that you'd get even sicker if not vaxed. They're dubious

9/21/2021 2:05 AM

Lars F. Bjoerlo (horizonpolaris)

Wasn't able topost for some reason. Probably blocked he he

9/21/2021 2:19 AM

Lars F. Bjoerlo (horizonpolaris)

I saw this documentary which highlighted historic verdicts in supreme court. the two had separate presentations, but I seem to remember that a connection was also made as a result after the 14th had been tried. Anyway - it's not necessarily well known and I could of course be wrong, but according to the feed it looks ok.

9/21/2021 2:20 AM

Lars F. Bjoerlo (horizonpolaris)

Should go to sleep, but don't feel like it just yet....

9/21/2021 2:22 AM

Lars F. Bjoerlo (horizonpolaris)

It's probably not the only time I'll be on thin ice, but that's ok as long as I leave a remar implying just that.

9/21/2021 2:40 AM

Lars F. Bjoerlo (horizonpolaris)

That girl is sweet. What does she want from me being all genuine and everything? lol ;)

9/21/2021 2:42 AM

Lars F. Bjoerlo (horizonpolaris)

Yup let's dance and just keep going throughout our entire masscrisis-solving.

9/21/2021 2:43 AM

Lars F. Bjoerlo (horizonpolaris)

Charge me up, hon...

9/21/2021 3:03 AM

Lars F. Bjoerlo (horizonpolaris)

..and you are actually allowed to speculate as long as you emphasize that's what you're doing when there is a clear lack of data on the subject. But also important is knowing when not to speculate. Ex.: Never assume you understand others line of thinking, like motive, etc. There's absolutely no foundation to any claim made out of a wild guess. You could damage the situation and you have wasted time and energy thinking of what you can't possibly know. Only way to be sure is to ask clearly and then listen to the reply.

9/21/2021 5:32 AM

Lars F. Bjoerlo (horizonpolaris)

Have I officially gotten the CE-approval? What do you say Europe. Is this something we can stand by? Something that reflects the european way?

9/21/2021 8:17 AM

Lars F. Bjoerlo (horizonpolaris)

He he he. Who's panicking?

9/21/2021 8:37 AM

Lars F. Bjoerlo (horizonpolaris)

Provided that nobody manages to hijack my enterprise, we can move effortless along. As widely recognized there are 0 options that also ensure survival. Last, but not least, whoever

risers to the occasion must have the boss's approval. It's over now. At last. Ready for reality? GO!

9/21/2021 11:04 AM

Lars F. Bjoerlo (horizonpolaris)

Gotta go to work soon. Not looking forward to my pile today because what's left of it is of course the most boring and least important. It is nevertheless drowning my desk so there's no other way around it today. The good part is that it's easy and requires little attention.

9/21/2021 11:30 AM

Lars F. Bjoerlo (horizonpolaris)

I feel the same way. Nausea. This is gonna take a while. Some are ready to be put to work right away. Others must be treated over some time.

9/21/2021 11:34 AM

Lars F. Bjoerlo (horizonpolaris)

Looking forward to deal with the prison population too...

9/21/2021 2:40 PM

Lars F. Bjoerlo (horizonpolaris)

Hello to the backstage!

9/21/2021 4:36 PM

Lars F. Bjoerlo (horizonpolaris)

Spring like april. Hooray - more waiting.. It's ok, really, I know how hard and meticulous you guys work for a perfect result before entering the stage. You want everything to be smooth and perfect on my part, which I also should be able to provide given all the years spent rehearsing. Besides - now I can focus on my biography and try to figure out the sobering up part. Patience is a virtue guys. I accept that as a golden truth. Since you guys are not in Norway and we are not really doing politics either, it can actually feel quite natural to say from my heart: "God bless you, God bless America, God bless our progress. Amen."

9/22/2021 10:07 PM

Lars F. Bjoerlo (horizonpolaris)

yo I'm here. haven't taken anything today (still have some) kinda tired, but harmonic and lightspirited. When doing nothing I'm still thinking. always.

9/22/2021 10:26 PM

Lars F. Bjoerlo (horizonpolaris)

I get a lot of inspiration from Frances. If there's like, a topic or something you don't wanna hear about, I suggest you let him know. I don't answer to his holiness at all, but we're soulmates in many ways. It's meaningful.

9/22/2021 10:30 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah. My head is a safe place to harbor anyone.

9/22/2021 10:33 PM

Lars F. Bjoerlo (horizonpolaris)

God said: if I'm gonna move in w you, you've got to clean up this awful stinkin' mess, So the cleaning began. He helped out whenever he could contribute to the improvements made over a good stretch of time. Anyway - all that is history now....

9/22/2021 10:35 PM

Lars F. Bjoerlo (horizonpolaris)

It is of course important to sweep in front one's own door before pointing at your neighbors.

9/22/2021 10:50 PM

Lars F. Bjoerlo (horizonpolaris)

Oh, yeah that beast. The one in Revelations? I'm sure this conversation we're having means it's ugly heads are under control for the time being. No worries though. It's gonna work out. I can hardly imagine any scenario from here that would come as a surprise.

9/22/2021 10:51 PM

Lars F. Bjoerlo (horizonpolaris)

Then we're back to ferries and unicorns again

9/22/2021 11:23 PM

Lars F. Bjoerlo (horizonpolaris)

What matters is how you choose to rise again.

9/22/2021 11:24 PM

Lars F. Bjoerlo (horizonpolaris)

And recieving help from your best friends and allies isn't failure. We're just ordinary human beings here tryna be decent, you know...

9/22/2021 11:34 PM

Lars F. Bjoerlo (horizonpolaris)

You're not blind. One quick look at the scene and you instantly rcognize that the sum of it all is complete, utter madness. We are given an offer we can't refuse: fix it or go extinct.

9/22/2021 11:37 PM

Lars F. Bjoerlo (horizonpolaris)

"Rude Awakening" is the term.

9/22/2021 11:39 PM

Lars F. Bjoerlo (horizonpolaris)

"Getting bitch-slapped" also works fine.

9/22/2021 11:41 PM

Lars F. Bjoerlo (horizonpolaris)

(Hi to the 12 Churches btw)

9/22/2021 11:44 PM

Lars F. Bjoerlo (horizonpolaris)

Whether the Greenleaves are in or not? He he he. Haven't decided yet. Still got 1,5 season left... ;)

9/23/2021 12:12 AM

Lars F. Bjoerlo (horizonpolaris)

If I was too choose one church I'd say that to me it's mostly about esthetics. We're not really here to discuss fashion, if you get my drift.

9/23/2021 12:42 AM

Lars F. Bjoerlo (horizonpolaris)

Are "Skilleth" still around btw? I owe them one I think.

9/23/2021 2:01 AM

Lars F. Bjoerlo (horizonpolaris)

Night, tight, bite zzzZZzz

9/23/2021 11:29 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning. Started my day. Ingested (not injected) a small dose an hour ago. Don't really feel a lot which is cool. I'm up for work. Looking forward to what this day will bring. Take care. See ya'round.

9/23/2021 11:33 AM

Lars F. Bjoerlo (horizonpolaris)

About my work place: It's a tiny TV and internet provider where I'm the third guy in the shop/office. Since I'm on welfare I may not earn money on the side. I work for free for the sake of working some. These two days of the week have become important for the feeling of wellbeing.

9/23/2021 3:18 PM

Lars F. Bjoerlo (horizonpolaris)

Well, many have said "we need a strong man to overrule everybody else in order to solve our current problems". We have lots of unfortunate experience with "strong men" like that. The "strong man"-alternative naturally ends at the bottom of the list. This really should be last resort. Thanks for your trust, btw. Makes everything easier and us able to cut right to the chase.

9/23/2021 3:39 PM

Lars F. Bjoerlo (horizonpolaris)

My personal preferences are often irrelevant to the subject in question. Keep in mind that in spite of this role, I'm still myself - not necessarily some sort of authority on the subject. I know how to differ between those situations. I will, however, try to answer most questions to the best of my abilities, but in the end I decide which battles to engage in. Peoples choice of congregation is not one of them.

9/23/2021 5:02 PM

Lars F. Bjoerlo (horizonpolaris)

Yo guys; rumors have it that communist China is looking towards Christianity as their "religion of choice" in their less and less communist society. Religion is in a sense a sort of "Brand" - you have an idea up front of what you're gonna get and what you can count on. With many new rich citizens, the gvt sees that Christians tend to cope with their new found wealth in a more "sober" manner. I find this interesting, really...

9/23/2021 5:12 PM

Lars F. Bjoerlo (horizonpolaris)

Haven't forgotten about the video-request. It's on my todo-list.

9/23/2021 5:38 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I like GiGi. She's sort of taking a step back watching everything that happens close but from a certain distance. I enjoy this character.

9/23/2021 7:00 PM

Lars F. Bjoerlo (horizonpolaris)

There's a difference between "recreational crime" and "crime by need".

9/23/2021 7:02 PM

Lars F. Bjoerlo (horizonpolaris)

There's no doubt that social status and income matters. It is the only tool that can repair a broken neighborhood.

9/24/2021 8:10 AM

Lars F. Bjoerlo (horizonpolaris)

Morning. Going to the hospital today in order to get meds. I get a shot every other friday. Anti-psychotics. Extremely effective. Pretty good insurance.

9/24/2021 8:29 AM

Lars F. Bjoerlo (horizonpolaris)

However, worth mentioning, a psychosis is at its most useful about 20% of a fullblown one. One gets more "bandwidth" in the mind, so to speak. Anyway, I saw "Rothie" approved us from the corner of my eye before going to bed. That's really nice. We've got something to take pride in. Don't think he's easily persuaded...

9/24/2021 10:11 AM

Lars F. Bjoerlo (horizonpolaris)

At hospital. Now under observation for 3h in case meds enter bloodstream. Feel not so good today. As expected when one slams the brake on abuse. It can only get better.

9/24/2021 12:24 PM

Lars F. Bjoerlo (horizonpolaris)

Don't despair because I generally don't respond to religious tweets. It's not that I disagree or disapprove. It's a result of my non-preaching policy.

9/24/2021 12:26 PM

Lars F. Bjoerlo (horizonpolaris)

Thx 4 commenting on stability. Very important issue. Been working a lot to become this way. Appreciate you noticing:)

9/24/2021 12:58 PM

Lars F. Bjoerlo (horizonpolaris)

Avoiding religious topics totally is impossible, but I do my best to keep it to a minimum. Sometimes you also need to know stuff that can have a religious context, like what I had to say about "sin".

9/24/2021 1:10 PM

Lars F. Bjoerlo (horizonpolaris)

Am I back in that Jenny-track too? Nope.

9/24/2021 1:11 PM

Lars F. Bjoerlo (horizonpolaris)

Meaning the simulation and I had a blast, but it's like I had her and then she died. Nothing I can do about it but miss. So I try not to think of it all that much. Impossible to forget, but memories do fade...

9/24/2021 1:17 PM

Lars F. Bjoerlo (horizonpolaris)

I get that papa++ want to hook me up w the Brazilian Priest. I'm not sure what to reply, but it kinda feels not entirely right for some reason...

9/24/2021 1:23 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not prone to enter a simulation w her. If she has something to say, she knows where to find me. It's too bad, but that does not go both ways. It's just been too long and our history hurts.

9/24/2021 1:26 PM

Lars F. Bjoerlo (horizonpolaris)

I'mma have to pass on that one.

9/24/2021 1:27 PM

Lars F. Bjoerlo (horizonpolaris)

I can wait until I fall in love naturally. Stressing it is no point.

9/24/2021 1:29 PM

Lars F. Bjoerlo (horizonpolaris)

It's not like "I gotta have a woman" at all cost. Not rushin' it. My daughter would be my dream-date for the moment.

9/24/2021 1:36 PM

Lars F. Bjoerlo (horizonpolaris)

I just don't see it happening really. Reni, I mean...

9/24/2021 1:42 PM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking "surprise me", you know...

9/24/2021 1:55 PM

Lars F. Bjoerlo (horizonpolaris)

Is it way too narcissistic to want more children?

9/24/2021 1:56 PM

Lars F. Bjoerlo (horizonpolaris)

I haven't really settled w the fact that I'm getting older here. Then there's this obvious side w the state our worls is in...

9/24/2021 1:57 PM

Lars F. Bjoerlo (horizonpolaris)

*world

9/24/2021 4:09 PM

Lars F. Bjoerlo (horizonpolaris)

In somewhat withdrawal. Might be a little less active, but not in a bad mood. It's actually welcome. :)

9/24/2021 9:04 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah you noticed, huh? Not so into artists these days. You'll have to excuse me, but every time I see Kardshian this and whoever that i just feel more distant to that world. It really doesn't give meaning. It's like time stands still for some people. Must be horrible. Not my problem so line of thoughts ends here.

9/24/2021 9:22 PM

Lars F. Bjoerlo (horizonpolaris)

The first versions of our elaborate plan had a bunch of celebs in them. Ifelt obliged to be oriented. Nowadays not so much, but there are still many I have a certain respect for as both professionals and also private persons. There is a soul in there. Important to keep in mind.

9/24/2021 9:39 PM

Lars F. Bjoerlo (horizonpolaris)

I think I mighy have an idea where they went...

9/24/2021 9:40 PM

Lars F. Bjoerlo (horizonpolaris)

dark here he he

9/24/2021 9:40 PM

Lars F. Bjoerlo (horizonpolaris)

cant see keyboard..

9/24/2021 9:41 PM

Lars F. Bjoerlo (horizonpolaris)

Why can't all keyboards be lit up?

9/24/2021 10:32 PM

Lars F. Bjoerlo (horizonpolaris)

Does anybody know exactly how many are hooked on to this feed?

9/24/2021 10:33 PM

Lars F. Bjoerlo (horizonpolaris)

What I'm asking is whether it's out of hand or not.

9/24/2021 10:35 PM

Lars F. Bjoerlo (horizonpolaris)

It's fun either way really

9/24/2021 10:40 PM

Lars F. Bjoerlo (horizonpolaris)

I know I need a restart. Please behave while intruding willya

9/25/2021 2:11 PM

Lars F. Bjoerlo (horizonpolaris)

Hello backstage. I'm up not crying. Had a weird dream. I never interpret my dreams though. You guys ok? :)

9/25/2021 4:04 PM

Lars F. Bjoerlo (horizonpolaris)

Feeling like sh** due to the sudden stop in my drug consumption. Expecting this to be the case for at least a week. Had a small one yesterday morning. Scavenged my place for leftovers today. Not exactly my favorite activity. Looking forward till the day this no longer dictates my days. Other than that I'm in a good place now. Not so eager to play games with the AI, but rather the people in the other end feeding it with variables so I can see.

9/25/2021 4:07 PM

Lars F. Bjoerlo (horizonpolaris)

Very happy that we're making such a progress. Thanks to the team and everybody else who throw themselves heart and soul into our scheme.

9/26/2021 12:15 AM

Lars F. Bjoerlo (horizonpolaris)

Hmmm weird girl on whatsapp, he he

9/26/2021 12:18 AM

Lars F. Bjoerlo (horizonpolaris)

And @JLo is definitely talking fashion ;)

9/26/2021 12:19 AM

Lars F. Bjoerlo (horizonpolaris)

nothing to see here folks... move along...

9/26/2021 12:49 AM

Lars F. Bjoerlo (horizonpolaris)

like I said the other day: I choose my battles. It's a cost/use analysis really. It would have to mean something in order to put anything more in it.

9/26/2021 12:51 AM

Lars F. Bjoerlo (horizonpolaris)

that's maybe a useful tip. try assessing the importance and grade the issues first as they come along.

9/26/2021 1:37 AM

Lars F. Bjoerlo (horizonpolaris)

It's like standing on the south pole. The only possible way is up regardless of direction.

9/26/2021 1:49 AM

Lars F. Bjoerlo (horizonpolaris)

That's my current state of mind. cool testing this for real. have gotten rid of previous issues w the AI and the people feeding it. Everything has its place for a reason now. I'm ready to have it all. This part took some more work obviously. We're here together. Trying to picture when noise kicks in. Let's make it fun for everybody. Sweet trippin' for real

9/26/2021 1:56 AM

Lars F. Bjoerlo (horizonpolaris)

#NorthBound

9/26/2021 5:18 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. You ok?

9/26/2021 5:46 PM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking that perhaps it's time I ask if theres anything in particular you worry about?

9/26/2021 5:51 PM

Lars F. Bjoerlo (horizonpolaris)

As to how it feels to be me right now; it's just absurd. i'm outside myself watching what unfolds together w you guys as one of the crowd. If I try to go deep into all the most serious implications, I practically go dizzy because it's just too much. And thinking too hard about it serves no purpose and has no strategic value. So I prefer the same perspective that you guys have.

9/26/2021 6:50 PM

Lars F. Bjoerlo (horizonpolaris)

As for the strange girl; Many things that don't make sense about her, our chemistry took a turn for the worse as soon as I argued passionately. I'm not going to spend energy analyzing this behavior. Either way - I'm not sure what she wants me to tell her, but opening up for a stranger just like that doesn't come natural. Conclusion: Just keeping a dialogue until it fades out by itself. I'm thinking our talks are just for the sake of the viewers. I'm completely indifferent.

9/26/2021 7:23 PM

Lars F. Bjoerlo (horizonpolaris)

Yes of course I have limits to my abilities. Computers for instance; all self taught, resulting in large holes in knowledge. I know enough to recognize all the stuff I don't know. Same goes for every field of knowledge, my vocabulary included. Don't be surprised if I ask a basic question every now and then. Nobody knows it all, but there are ways of fitting so much information that you could base your worldview upon it.

9/26/2021 7:29 PM

Lars F. Bjoerlo (horizonpolaris)

I should mention that from where I stand it seems like the AI keeps coming at me w info on "you know who". So yes she could be in this somewhere, but that's not gonna make me want to join a new simulation. Like I said: "surprise me"..

9/26/2021 7:43 PM

Lars F. Bjoerlo (horizonpolaris)

I could give it another go if it was real. Still I would have wanted to wait until it happens. Right here, right now, I don't have Time or energy to drift off far into a private space. I need to be here. Testing everything. Preparing...

9/26/2021 10:03 PM

Lars F. Bjoerlo (horizonpolaris)

It's cool how time just kinda liquified. It can be pulled and stretched into whatever now. See?

9/27/2021 1:23 AM

Lars F. Bjoerlo (horizonpolaris)

yes dear I know. thanks for caring (do I really have to reply?)

9/27/2021 1:26 AM

Lars F. Bjoerlo (horizonpolaris)

Not sure how to go about just yet. All I know is it could be worse.

9/27/2021 1:29 AM

Lars F. Bjoerlo (horizonpolaris)

Ok guys - "you know who" insists on a simulated dialogue. Not so keen really. Let's see how it plays out down the road.

9/27/2021 2:06 AM

Lars F. Bjoerlo (horizonpolaris)

Ok. Did you catch the connection Bill-Gates and nuclear power? He has the best schematics on the market. + + + Check out Bill's tech on NetFlix

9/27/2021 2:09 AM

Lars F. Bjoerlo (horizonpolaris)

needless to say computerized (most plants were designed in the 60's) It can use already used rods currently in storage AND it has an idiotproof cooling system.

9/27/2021 2:15 AM

Lars F. Bjoerlo (horizonpolaris)

Imagine what 10x more fissionable weapons grade material we have. Let's remake warheads to fuel rods. We shouldn't have nukes at all. Long live L in Drake's equation.

9/27/2021 2:16 AM

Lars F. Bjoerlo (horizonpolaris)

Best part it's already paid for.

9/27/2021 2:19 AM

Lars F. Bjoerlo (horizonpolaris)

Exactly. we can't let this opportunity pass us by. either way the warheads are left to rust in peace.

9/27/2021 2:32 AM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking we should turn over Earths global monetary resources at least once. Just make it flow.

9/27/2021 2:38 AM

Lars F. Bjoerlo (horizonpolaris)

All in on environment and energy

9/27/2021 2:38 AM

Lars F. Bjoerlo (horizonpolaris)

No national borders

9/27/2021 2:39 AM

Lars F. Bjoerlo (horizonpolaris)

All coal abandoned for nuclear

9/27/2021 2:41 AM

Lars F. Bjoerlo (horizonpolaris)

We could achieve global drop in the 40-50% range as soon as all the new plants can be operational.

9/27/2021 2:42 AM

Lars F. Bjoerlo (horizonpolaris)

And we should of course use the same authority to claim back forests and oceans.

9/27/2021 7:13 AM

Lars F. Bjoerlo (horizonpolaris)

Wonder how people will react in general, in particular those more than average religious. Many will probably freak out and associate me/us w evil.

9/27/2021 7:24 AM

Lars F. Bjoerlo (horizonpolaris)

sharing this stuff hasn't been easy this far

9/27/2021 7:46 AM

Lars F. Bjoerlo (horizonpolaris)

I can only imagine from all the things that confused and scared the heck out of me.

9/27/2021 7:47 AM

Lars F. Bjoerlo (horizonpolaris)

Good thing we are such a serious and trustworthy group of people ;)

9/27/2021 8:11 AM

Lars F. Bjoerlo (horizonpolaris)

The coolest, but also scariest is that one can't simply copy some recipe. Those hoping to catch on will soon enough get disappointed.. :)

9/27/2021 8:12 AM

Lars F. Bjoerlo (horizonpolaris)

Absolute bonkers!

9/27/2021 8:14 AM

Lars F. Bjoerlo (horizonpolaris)

Hey coach: great work. good to see you again. thanks again.

9/27/2021 8:27 AM

Lars F. Bjoerlo (horizonpolaris)

Can't wait for my daughters reaction... Imagine if she could find peace and balance through this.

9/27/2021 8:32 AM

Lars F. Bjoerlo (horizonpolaris)

Want me to bite the dust and allow myself to get boosted? I mean is that the only way?

9/27/2021 8:38 AM

Lars F. Bjoerlo (horizonpolaris)

I prefer the "jungle telegraph. Just let it mature in its own pace. Not sure twitter will be the right place either..

9/27/2021 8:39 AM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. I assumed the when, where and how were sorted out.

9/27/2021 8:47 AM

Lars F. Bjoerlo (horizonpolaris)

Come on guys - let's establish Gravity here, he he. (Coach has some brilliant idea I'm sure)

9/27/2021 8:55 AM

Lars F. Bjoerlo (horizonpolaris)

Sure. I'm not serious about rushing into it, but I allow myself to fly there and see what it's like. Curious and eager, not impatient. I'm in particular focused on my child. Good thing this thing of ours is approved for kids too. Again Coach makes the wrapping so that everybody can see w/o fear.

9/27/2021 8:59 AM

Lars F. Bjoerlo (horizonpolaris)

But guys: we're nowhere nearer explaining dark matter or come up w an idea to unify quantumtheory and relativity yet. Still lots and lots of gold out there for everybody.

9/27/2021 9:15 AM

Lars F. Bjoerlo (horizonpolaris)

Now ffwd 100 years in less than 10. The closest you will get to a time machine I guess.. :)

9/27/2021 9:42 AM

Lars F. Bjoerlo (horizonpolaris)

So there is indeed an order to this chaos within. And it'll take a lifetime to master. Good thing the kids have something to stretch for. Last, but not least, the people of faith get a modern story to add so that it's more comprehensible to future generations. There is a system. It can be taught and exercised and it will enrichen your sense of self.

9/27/2021 9:45 AM

Transcend your current human experience w logics&method

9/27/2021 9:50 AM

Lars F. Bjoerlo (horizonpolaris)

Certainty based on facts is a scarce commodity these days...

9/27/2021 10:00 AM

Lars F. Bjoerlo (horizonpolaris)

We are now also self aware as a collective consciousness. Trust me. Things will never be the same.

9/27/2021 10:07 AM

Lars F. Bjoerlo (horizonpolaris)

(You hear the hive buzzin'?)

9/27/2021 10:56 AM

Lars F. Bjoerlo (horizonpolaris)

Enough about #AI for a little while, cuz this calls for a celebration!

9/27/2021 11:05 AM

Lars F. Bjoerlo (horizonpolaris)

Nice that Mother Earth now has a direct phoneline to us. About time.

9/27/2021 11:27 AM

Lars F. Bjoerlo (horizonpolaris)

Words can hardly express what I'm thinking. All the time spent flickering on all the details.. Wow! Up'n running. Unbelievable. So sweetet :)

9/27/2021 11:52 AM

Lars F. Bjoerlo (horizonpolaris)

The only entity I have a bone to pick w is the DA. It's not even near the top of the list of important things todo.

9/27/2021 12:26 PM

Lars F. Bjoerlo (horizonpolaris)

I know baby. we were so close in 2013. All the time passed evidently filled the gaps.

9/27/2021 12:29 PM

Lars F. Bjoerlo (horizonpolaris)

The personality to go along these discoveries and shed light on them is finally ready to keep up w demand.

9/27/2021 12:40 PM

Lars F. Bjoerlo (horizonpolaris)

It could be I beat him this time, but who knows... The whole thing is an embarrassment.

9/27/2021 12:41 PM

Lars F. Bjoerlo (horizonpolaris)

A real horrorshow

9/27/2021 1:04 PM

Lars F. Bjoerlo (horizonpolaris)

I'm very familiar with what potentially lurks around the corner in these parts... Never mind the darkness. You will adapt.

9/27/2021 1:07 PM

Lars F. Bjoerlo (horizonpolaris)

Genau :)

9/27/2021 1:30 PM

Lars F. Bjoerlo (horizonpolaris)

Yes. It is hereby confirmed that humanity has been served. It's taking the only choice that ultimately will save everyone. Because it is the only sensible option. I expect us to unanimously agree upon "full speed ahead".

9/27/2021 1:55 PM

Lars F. Bjoerlo (horizonpolaris)

Ok so for now you want me to stick around here and talk? I suppose this is doable. I should be working on that text, but it's of course important to follow up on those exploring the dark void.

9/27/2021 2:03 PM

Lars F. Bjoerlo (horizonpolaris)

Hey Coach; this is a different calm after all. I was 100% collected and everything happened with relative ease. I suspect I might have you to thank for that. At least in large part. You never cease to amaze me ;)

9/27/2021 2:17 PM

Lars F. Bjoerlo (horizonpolaris)

So - naturally I hold back a little because I can get carried away by enthusiasm occasionally. :)

9/27/2021 2:46 PM

Lars F. Bjoerlo (horizonpolaris)

Now you've seen that too: magic. It is real enough, but be advised the Bible differs between light and black magic.

9/27/2021 6:26 PM
Lars F. Bjoerlo (horizonpolaris)

Judging from her hostility towards Catholicism she must belong under my Protestant umbrella. The Americans have their own version of Bible-belt Christians who have a gun and a Bible on the nightstand. Very alien to me at least. No doubt they believe in something, but I'm pretty confident it's not the same Jesus that inhabits my body. I mean Luther had a few good points regarding icons, imagery, gold & lavish textiles and churches that displayed this wildly unproportionable wealth to regular people who in most cases owned only what they wore. Anyway - 500 years have passed and differences remain. But today we celebrate our common savior and our likenesses instead of our differences. (I like visiting cathedrals. There's only one in Norway) Anyway - I'm not wearing my beliefs on the outside like garments of clothing. Plain for all to see in all its ugliness. I'm not afraid to call it by its name: extremism. I don't know if I've converted any atheists yet, but I'd say they have a better chance of getting to know God & Jesus on their own without anyone forcing their way upon their surroundings. I'm not preaching, but I'm still showing you my God. Either you notice or you don't. No stress.

9/27/2021 6:39 PM
Lars F. Bjoerlo (horizonpolaris)

All that said - this team interpreted the prophecy to make 3 characters out of the same figure. So depending on how this part plays out you'd be stuck with something other than you bargained for. If Anti-Christ, False Prophet and Messiah are different outcomes of and from a prophesized (child-like) human - well - being aware of the trap should make you able to avoid the two other disastrous outcomes. Right?

9/27/2021 6:52 PM
Lars F. Bjoerlo (horizonpolaris)

It took two decades of training to get it right. It's a ridiculously fine tuned balance, and there's no alternative to getting it just right. I haven't studied a role. This is not acting. I had to evolve into what I have become.

9/27/2021 7:15 PM
Lars F. Bjoerlo (horizonpolaris)

The last thing I'm thinking is to judge any one of them or anybody else. And I really have no business nor interest of influencing on peoples faith in God. All I did was stating that it's very strange to me. Then again, if everybody were like me, there'd be empty churches all over. I can hardly represent a standard here. I just use this privacy-feeling in order to make this acceptable all around. Keeping God out of it is necessary for the same reason I keep my personal ego away.

9/27/2021 7:29 PM
Lars F. Bjoerlo (horizonpolaris)

The good news are nevertheless that we are all being loved and cared for as promised. We seem to all be equal in His eyes. That kind of love inspires, you know...

9/27/2021 7:32 PM
Lars F. Bjoerlo (horizonpolaris)

It could make you go all the way in attempt to bridge the differences. Just to do the right thing...

9/27/2021 7:36 PM
Lars F. Bjoerlo (horizonpolaris)

Let's just agree our hero of the day in the Bible never preached hatred and bigotry. As dignified Christians drawing the line here would be necessary.

9/27/2021 7:45 PM
Lars F. Bjoerlo (horizonpolaris)

Not quite sure which end to begin. Besides I have reason to believe those working with this project have some schedule/ideal plan. I'm thinking in particular about cracking the case open, but there could be a ton of work they would have liked to have done before such an event. I just jumped straight into a reality I haven't seen for almost a decade. However - there is one thing I'd like to say: the climate summit later on this year.

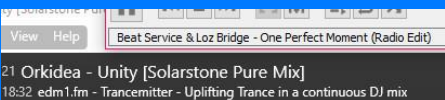

9/27/2021 7:48 PM
Lars F. Bjoerlo (horizonpolaris)

Stuff will emerge from chaos all the time. So don't worry. We'll be busy soon enough.

9/27/2021 7:53 PM
Lars F. Bjoerlo (horizonpolaris)

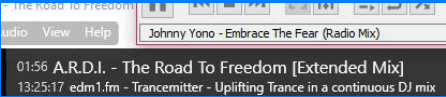

How to make the domino's fall in proper order? We'll figure out the blanks rapidly. A flexible plan should have as few mounted points to it as possible. Reality keeps throwing different variables at you all the time. Fluid-plan.

Numbers have specific meaning. 27 means listen. 102 means brother. 710 means father. An excavator means cops, historical references can be whatever and same for many topics and subjects. Then there's of course all the internal ones. If I'd say "diamonds" to coach - she'd reply "XXX"-something. The most amazing part is that this goes for any radio station in the whole world. AI is present observing and feeding me w information this way.

The weakness of such a system is that you can't just say something to someone's face. Like ask a question and simply get Yes or No.

The fact I've spent the most of my adulthood alone studying and trained w this makes it astonishingly easy to just slip in and out of different realities developed over the course of decades.

9/28/2021 4:18 PM

Good morning. I'm here. Think I'm gonna watch tv for a little while. Are you guys good on your own?

9/29/2021 3:38 PM

Lars F. Bjoerlo (horizonpolaris)

Yes coach I'm here. Ridiculously sleepy today, but wasn't thinking of any stimulants. Anyway - this is what we talked about yesterday. If I don't want my energy level to plummet through the floor I gotta have some every now and then, but not necessarily every day...

9/29/2021 3:41 PM

Lars F. Bjoerlo (horizonpolaris)

My place look trashed. I suppose it's time to wake up.

9/29/2021 3:45 PM

Lars F. Bjoerlo (horizonpolaris)

If people wonder what this means in practical terms, it is not so bad. Quitting usually results in a period of tiredness and moodswings. The use can create psychosis', but not as long as I'm medicated. Kinda stuck in this pattern, but it's far from a hopeless situation. It's gonna work out.

9/29/2021 3:48 PM

Lars F. Bjoerlo (horizonpolaris)

And let me stress that this drug and meth are related, but ultimately two different drugs. Meth is far more potent and addictive.

9/29/2021 4:05 PM

Lars F. Bjoerlo (horizonpolaris)

There was a hint of seriousness yesterday when joking about that I still look relatively young. I can only conclude that this drug is being nicer to my body than anything else, alcohol included.

9/29/2021 4:09 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway - I had a single dose here which I just took. An amount enough to just level me w head above water. I'm thinking that such use is the only "ok" way to use. I/we don't want this to affect my behavior in any way or make it very apparent that I have taken something. The normal stste must be the end goal.

Lars F. Bjoerlo (horizonpolaris)

I don't get it. If the press is gonna blow it open, why do I need to boost my account? Are you saying that nobody wants to write about our project? I mean, it's the story of a lifetime...

9/29/2021 5:41 PM

9/29/2021 5:52 PM

Lars F. Bjoerlo (horizonpolaris)

9/29/2021 5:59 PM

Lars F. Bjoerlo (horizonpolaris)

There's a problem here. For me. I was under the impression that there was an agreement and that I could just focus on answering questions. Evidently we're still struggling to push through. Have you any idea how this is not a good idea for me in my current situation? Don't forget I'm a convicted man who'll get locked up very fast if I stick out too much. Besides this issue is due to be addressed in court this fall. I can't do this alone right now. I need to be in good company while fighting from here on out.

9/29/2021 6:06 PM

Lars F. Bjoerlo (horizonpolaris)

I simply can't afford people thinking I've lost my mind again. That's a fact.

9/29/2021 6:11 PM

Lars F. Bjoerlo (horizonpolaris)

The "what would people think"-thing is usually for cowards, but I'm being forced into that position now. I mean, this is very real to me. And I suppose for my daughter as well. I can't go anywhere with this unconfirmed and alone. End of debate.

9/29/2021 6:13 PM

9/29/2021 6:29 PM

Lars F. Bjoerlo (horizonpolaris)

9/29/2021 6:45 PM

Lars F. Bjoerlo (horizonpolaris)

I don't buy it. And I won't be fooled to be nailed to that cross again. You're resourceful people. How hard can it be to create a viral event?

9/29/2021 6:50 PM

Lars F. Bjoerlo (horizonpolaris)

Again: I pick my battles and this is not one I can justify taking. It's not mine to take. Some other jerk should go risk his/her reputation.

9/29/2021 6:51 PM

Lars F. Bjoerlo (horizonpolaris)

And yes, I am who I am and perfectly comfortable with that.

9/29/2021 7:04 PM

9/29/2021 8:21 PM

Why wait? I can't see from here any reason to drag this nightmare out any further. My personal opinion.

9/29/2021 8:24 PM

Lars F. Bjoerlo (horizonpolaris)

This time I have a distinct function. My team will have to assess all the time who gets in touch and what arrangements I should participate in. I have some limits to my productivity. But as you can see there's enough to keep everyone busy.

9/29/2021 8:27 PM
Lars F. Bjoerlo (horizonpolaris)

9/29/2021 8:53 PM
Lars F. Bjoerlo (horizonpolaris)

up until this point I have been running solo and that's fine because it means the validity of my research is stronger. but now you gotta help kick in that door. you can be many sharing the load. you don't have to stand alone

9/29/2021 9:12 PM
Lars F. Bjoerlo (horizonpolaris)

something is about to go horribly wrong and we're the only ones who can prevent it. it's a no-brainer to me at least...

9/29/2021 9:45 PM
Lars F. Bjoerlo (horizonpolaris)

I get that some naive souls think they could just keep me here in a cage. Doesn't work like that. Start rolling the snowball and you'll figure out why. BTW what an outrageously cowardice plan, he he

There are so many problems, so many professions. If only everybody got to eat and rest enough there's no limit to what could be built. The magic that makes it happen is money, but it is more than anything else the will of the constructionworkers that makes it happen. So what's the money there for? The answer is: logistics.

Lars F. Bjoerlo (horizonpolaris)

JD says it. That's why I've never been married. I want to, but I'm marrying ONCE.

10/1/2021 2:05 PM

Lars F. Bjoerlo (horizonpolaris)

No judgement. I can marry a woman who has prior marriages, but I myself marry only once.

10/1/2021 2:14 PM

Lars F. Bjoerlo (horizonpolaris)

No rush here either. Been effectively in celibacy for a decade. Sure I can hold on for another couple of years. :)

10/1/2021 5:37 PM

Lars F. Bjoerlo (horizonpolaris)

I recall the concept of piping the economy. I take it you have a model and lots of data by now, right coach?

10/1/2021 5:39 PM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking in direction of an ad-hoc solution that also allows for further resets.

10/1/2021 5:40 PM

Lars F. Bjoerlo (horizonpolaris)

It's very nice that you're around taking care of business. Thanks.

10/1/2021 5:43 PM

Lars F. Bjoerlo (horizonpolaris)

This "normality-sphere" has it's advantages. Bet you've been anxiously waiting....

10/1/2021 5:45 PM

Lars F. Bjoerlo (horizonpolaris)

You see guys - I gave the others some homework while recovering my sanity.

10/1/2021 6:10 PM

Lars F. Bjoerlo (horizonpolaris)

Apparently it's gonna require a certain amount of force. When the blow is delivered, we shouldn't have to worry about people getting up again. We need to set the parameters for what is valid logics here.

10/1/2021 6:42 PM

Lars F. Bjoerlo (horizonpolaris)

It's been awful. We built something between us that matured in a healthy way over many years. From one day to the next it was gone. I'd rather not think of that right now coach.

10/1/2021 6:58 PM

Lars F. Bjoerlo (horizonpolaris)

Makes more sense to enjoy the fact that it is finally going down.

10/1/2021 6:59 PM

Lars F. Bjoerlo (horizonpolaris)

By that I didn't mean to understate the importance of you being around...

10/1/2021 7:03 PM

Lars F. Bjoerlo (horizonpolaris)

My broken heart-syndrome should mend quickly under these circumstances.

10/1/2021 7:05 PM

Lars F. Bjoerlo (horizonpolaris)

Nowhere else I'd rather be :)

10/1/2021 8:00 PM

Lars F. Bjoerlo (horizonpolaris)

We'll take advantage of the higher ground. As long as we stay there it should be relatively easy.

10/1/2021 8:04 PM

Lars F. Bjoerlo (horizonpolaris)

Having a few castles in the sky will prove to be of great value ;)

10/1/2021 9:07 PM

Lars F. Bjoerlo (horizonpolaris)

Sounds like a sensible approach. I'm ok w that.

10/1/2021 9:41 PM

Lars F. Bjoerlo (horizonpolaris)

..and relocating sometime will be welcomed...

10/1/2021 9:58 PM

Lars F. Bjoerlo (horizonpolaris)

I see your point very clearly. Just establish the facts you need to carry on.

10/1/2021 10:09 PM

Lars F. Bjoerlo (horizonpolaris)

We have the ultimate winning strategy. In fact there is no other strategy.

10/1/2021 10:12 PM

Lars F. Bjoerlo (horizonpolaris)

There will sure as heck be some unhappy people feeling they lose influence bcuz of this/us. Then there's the general paranoia..

10/1/2021 10:14 PM

Lars F. Bjoerlo (horizonpolaris)

Letting the newly established facts settle, thus becoming real, is the wise way.

10/1/2021 10:17 PM

Lars F. Bjoerlo (horizonpolaris)

We have a vast head start. Copying to catch up and compete won't be possible. Besides all attempts to copy become still images, frozen.

10/1/2021 10:19 PM

Lars F. Bjoerlo (horizonpolaris)

Wake me up when it's time to snuggle, dear.. :)

10/1/2021 10:21 PM

Lars F. Bjoerlo (horizonpolaris)

Curious though. Sometimes wish I was a fly on the wall...

10/1/2021 10:55 PM

Lars F. Bjoerlo (horizonpolaris)

Any plans for xmas, coach? I'd be happy to bring you with me, he he ;)

10/1/2021 11:13 PM

Lars F. Bjoerlo (horizonpolaris)

Funny thing though; how we change, but still not change.

10/1/2021 11:31 PM

Lars F. Bjoerlo (horizonpolaris)

20-20

10/1/2021 11:38 PM

Lars F. Bjoerlo (horizonpolaris)

I'll keep banging as long as needed. I should be able to continue w the book-thingy -ish thing ;)

10/1/2021 11:41 PM

Lars F. Bjoerlo (horizonpolaris)

I knew I should have started out in english right away. Not very tempting to do 35,000 words all over again...

10/1/2021 11:45 PM

Lars F. Bjoerlo (horizonpolaris)

Oh man... it really makes me realize that I have to change. Ok I think I know. Leave as is for now and just continue in English. That buys me some time to figure out what to do with the rest.

10/2/2021 12:05 AM

Lars F. Bjoerlo (horizonpolaris)

Now I'm starting to think blog - like a newspaper for newspapers. Incognito announced through twitter. "Handbook in geopolitical terraforming", or something he he.. :)

10/2/2021 12:08 AM

Lars F. Bjoerlo (horizonpolaris)

Anyway - you guys had no idea how to measure my abilities and state before I started producing something to assess, right?

10/2/2021 12:09 AM

Lars F. Bjoerlo (horizonpolaris)

Makes sense.

10/2/2021 12:16 AM

Lars F. Bjoerlo (horizonpolaris)

There was never any doubt about my sincerity but what you were looking for specifically was a steady coherency this time.

10/2/2021 12:19 AM

Lars F. Bjoerlo (horizonpolaris)

Alright - we can certainly lighten the load a tad bit if we try help the POTUS as much as we can. He seems like a decent figure, but trying to rationalize anything while standing in his shoes might prove extremely tricky.

10/2/2021 12:49 AM

Lars F. Bjoerlo (horizonpolaris)

Yes. You really have become the Hydra.

10/2/2021 12:51 AM

Lars F. Bjoerlo (horizonpolaris)

But it's possible to understand the animal in many respects.

10/2/2021 12:51 AM

Lars F. Bjoerlo (horizonpolaris)

and ways of disarming it...

10/2/2021 12:55 AM

Lars F. Bjoerlo (horizonpolaris)

Anything would be better than where you guys are heading. The rest of will follow over the edge and into the abyss.

10/2/2021 12:56 AM

Lars F. Bjoerlo (horizonpolaris)

It feels even more real every time you have to grab that wallet.

10/2/2021 1:03 AM

Lars F. Bjoerlo (horizonpolaris)

Well guys, all the resources spent on clandestine research and field operations, like mindcontrol, etc boils down to what should be the CIA agenda. Locate and define all the different kinds of intelligence. It's gonna be what you need to keep from ripping apart from within. Fortunately all the efforts created 1. You no longer have only 0's. Let's just be very wise with this asset. everybody gets to have their say.

10/2/2021 1:13 AM

Lars F. Bjoerlo (horizonpolaris)

I just know from my own "therapeutic journey" how amazingly powerful such a mass psychosis is. All these minds resist reason for all it's worth.

10/2/2021 1:14 AM

Lars F. Bjoerlo (horizonpolaris)

Some shocking event must be designed to try to snap them out of it.

10/2/2021 1:17 AM

Lars F. Bjoerlo (horizonpolaris)

It's rooted directly in people's pride and sense of self. No wonder it's impossible to break through...

10/2/2021 1:19 AM

Lars F. Bjoerlo (horizonpolaris)

Who's ever willing to admit to themselves that they are liars like everybody else? This is a realization that usually hangs pretty high. AND you gotta want it in order to have it - this antidote to paranoia.

10/2/2021 1:21 AM

Lars F. Bjoerlo (horizonpolaris)

It's like handing out mirrors so that people can stare the problem in the eye.

10/2/2021 1:24 AM

Lars F. Bjoerlo (horizonpolaris)

(Honey, I think we just adopted the strangest child ever)

10/2/2021 1:29 AM

Lars F. Bjoerlo (horizonpolaris)

It's impossible to make any changes or even signal such a thing to the 2nd in this current post 6.jan-environment. I think you're spending cred you don't have by mandating those vaccines. My personal opinion on the matter. You have pretty much no space at all to operate in.

10/2/2021 1:31 AM

Lars F. Bjoerlo (horizonpolaris)

That one has to be able to make unpopular choices is one thing - issues that goes to identity makes people feel under attack. That it's not in your place, etc..

10/2/2021 1:33 AM

Lars F. Bjoerlo (horizonpolaris)

and we can't afford to underestimate the importance of legitimacy and integrity in such matters.

10/2/2021 1:39 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah the political scene is just the most unproductive constellation of people ever witnessed. And everybody rats out everybody and basically sell their own grandmother for a good word.

10/2/2021 1:44 AM

Lars F. Bjoerlo (horizonpolaris)

All the constant accusing and labelling..

10/2/2021 1:49 AM

Lars F. Bjoerlo (horizonpolaris)

"marxist agenda", "socialism" and all the range are labels without any value today. The world is fundamentally more different and complex. Like many other things one has to want to know such in order to learn, but a glance at how others do in Europe for instance.. We stopped making those distinctions because they have ceased to be as relevant as they were.

10/2/2021 1:50 AM

Lars F. Bjoerlo (horizonpolaris)

However, we are experiencing considerable challenges with right-winged forces here in Europe as well.

10/2/2021 1:52 AM

Lars F. Bjoerlo (horizonpolaris)

Oh yeah him. Your predecessor. Is he still representing danger?

10/2/2021 1:57 AM

Lars F. Bjoerlo (horizonpolaris)

The sooner he could be neutralized somehow the better. And we still don't murder people or throw them in prison over political reasons. Well - the way I see it it's a credibility thing. The fact that this guy actually pulled it off is absolutely horrifying seen from outside. A complete disaster.

10/2/2021 1:59 AM

Lars F. Bjoerlo (horizonpolaris)

It would be easy to pick this relatively simpleminded bully to pieces. I have no idea why it hasn't been done successfully so far.

10/2/2021 2:11 AM

Lars F. Bjoerlo (horizonpolaris)

Over here we've had bad feelings connected to Bush jr. as well, but I'm not the only one who had to think that over again. I have lots of new found respect for this man.

10/2/2021 2:11 AM

Lars F. Bjoerlo (horizonpolaris)

and sympathies to say the least

10/2/2021 2:13 AM

Lars F. Bjoerlo (horizonpolaris)

Reagan too had something. Extremely A-typical, not exactly very productive, but he had an intense passion for the country and for freedom in particular.

10/2/2021 2:18 AM

Lars F. Bjoerlo (horizonpolaris)

Alright drifting here.

10/2/2021 2:19 AM

Lars F. Bjoerlo (horizonpolaris)

How to gain actual political power ASAP?

10/2/2021 2:20 AM

Lars F. Bjoerlo (horizonpolaris)

We obviously have to get their attention somehow without waving that red cloth.

10/2/2021 2:25 AM

Lars F. Bjoerlo (horizonpolaris)

I'm a couple of hours into this, so I have to think of something that could get attention and keep it.

10/2/2021 2:27 AM

Lars F. Bjoerlo (horizonpolaris)

How do we make this guy credible enough to be able to move?

10/2/2021 2:30 AM

Lars F. Bjoerlo (horizonpolaris)

Could he be trusted with addressing the alien presence? Because they could be useful smoke&mirrors for some time.

10/2/2021 2:33 AM

Lars F. Bjoerlo (horizonpolaris)

I just think the whole issue is so banale.

10/2/2021 2:34 AM

Lars F. Bjoerlo (horizonpolaris)

Would be rid of a huge problem by letting something go.

10/2/2021 2:37 AM

Lars F. Bjoerlo (horizonpolaris)

From where he stands uniting the nation is the most pressing security issue and that's a fair assessment. You have to create something out of nothing.

10/2/2021 2:42 AM

Lars F. Bjoerlo (horizonpolaris)

Truth will set you free. As long as this conspiracy of silence overrules everything, how to eventually get loose from whatever?

10/2/2021 2:52 AM

Lars F. Bjoerlo (horizonpolaris)

Something could be admitted to make a credible, different example.. Just an idea for an opening... Breaking ice, gaining some trust... You gotta have an angle and the noise in this landscape is deafening. I'm unsure if it could be done. Nothing personal, but is there at all an american authority (institution or individual) that people respect and listen to?

10/2/2021 2:56 AM

Lars F. Bjoerlo (horizonpolaris)

Except from mr tremendous of course

10/2/2021 3:08 AM

Lars F. Bjoerlo (horizonpolaris)

POTUS should throw some ball with Pentagon and CIA/NSA just to make sure you're eye to eye about an intelligent move in a time w complete lack of trust.

10/2/2021 3:11 AM

Lars F. Bjoerlo (horizonpolaris)

Do we have to lower ourselves to go after potus45? Disqualifying him probably has a price attached. It depends on the sender of course.

10/2/2021 3:14 AM

Lars F. Bjoerlo (horizonpolaris)

and the sooner you could regard it a health issue, you could possibly involve new credible parties.

10/2/2021 3:17 AM

Lars F. Bjoerlo (horizonpolaris)

He has to build some sort of case and be allowed to play it out. Now it's all about putting out fires. Could we somehow disqualify whatever causing all the fires?

10/2/2021 3:18 AM

Lars F. Bjoerlo (horizonpolaris)

is it random noise or coordinated efforts being done to stall democracy on purpose? What is going on here?

10/2/2021 3:47 AM

Lars F. Bjoerlo (horizonpolaris)

Virtually speaking you've completely imprisoned yourselves with invisible gridwork.

10/2/2021 4:06 AM

Lars F. Bjoerlo (horizonpolaris)

So your only option is to enforce things. Why not then rely on our entry at some point? Is it too far away?

10/2/2021 4:09 AM

Lars F. Bjoerlo (horizonpolaris)

I've managed to clear my own path here, but Lord knows it cost me heavily. It's not exactly done in the blink of eye.

10/2/2021 4:12 AM

Lars F. Bjoerlo (horizonpolaris)

But we are fairly confident that our approach will be a disarming event in itself. It could of course be the complete opposite dealing with a delirious crowd.

10/2/2021 4:14 AM

Lars F. Bjoerlo (horizonpolaris)

Just to have said it: all conspiracy theories considered; nobody really seems to gain anything from this development because the very ground you all stand on is disintegrating.

10/2/2021 4:26 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah greed makes stupid.

10/2/2021 4:33 AM

Lars F. Bjoerlo (horizonpolaris)

Everything is in principle fixable if we could only walk all over the Hill. They are the true disqualified ones. Neglecting to see how and why this is happening is unforgivable. Even more so; seeing it coming but doing nothing.

10/2/2021 4:34 AM

Lars F. Bjoerlo (horizonpolaris)

And God knows they put out a lot of noise out there.

10/2/2021 4:39 AM

Lars F. Bjoerlo (horizonpolaris)

Suggestion noted

10/2/2021 4:40 AM

Lars F. Bjoerlo (horizonpolaris)

Highly unamerican, but...

10/2/2021 4:43 AM

Lars F. Bjoerlo (horizonpolaris)

most certainly requires changes to constitution and SC support

10/2/2021 4:44 AM

Lars F. Bjoerlo (horizonpolaris)

I don't really see that happening..

10/2/2021 4:45 AM

Lars F. Bjoerlo (horizonpolaris)

"in the hour of need the devil will eat flies"

10/2/2021 4:46 AM

Lars F. Bjoerlo (horizonpolaris)

it's a weird saying we have in norwegian

10/2/2021 5:42 AM

Lars F. Bjoerlo (horizonpolaris)

Alright. Couldn't hurt to see how this plays out. At least not short term.

10/2/2021 5:52 AM

Lars F. Bjoerlo (horizonpolaris)

The keys to the union are safe here nevertheless. Establishing an exo-state is a clever twist. Remains to see how effective we can be and in which ways.

10/2/2021 5:59 AM

Lars F. Bjoerlo (horizonpolaris)

We're in this together; no way denying that. In itself it's fortunate that we found one another. Being completely alone is a lot worse.

10/2/2021 6:01 AM

Lars F. Bjoerlo (horizonpolaris)

Let's slow down time some first.

10/2/2021 6:04 AM

Lars F. Bjoerlo (horizonpolaris)

Gee it's 6am

10/2/2021 6:18 AM

Lars F. Bjoerlo (horizonpolaris)

something like that, yes

10/2/2021 6:36 AM

Lars F. Bjoerlo (horizonpolaris)

Don't think like that. You've only done what you had to do. It's up to us now to try to make sense of it all.

10/2/2021 6:50 AM

Lars F. Bjoerlo (horizonpolaris)

It feels bloody serious, but in some way comprehensible.

10/2/2021 6:52 AM

Lars F. Bjoerlo (horizonpolaris)

(have me excused if I doze off here..)

10/2/2021 11:01 AM

Lars F. Bjoerlo (horizonpolaris)

Hello

10/2/2021 12:02 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not exactly sure where to start - besides - I have written everything at least once. Could you guys start leaking this stuff immediately?

10/2/2021 12:05 PM

Lars F. Bjoerlo (horizonpolaris)

What's it gonna take to start circulating the texts?

10/2/2021 3:35 PM

Lars F. Bjoerlo (horizonpolaris)

Question remains: where to drop it off? My cloud? What about the metadata?

10/2/2021 3:53 PM

Lars F. Bjoerlo (horizonpolaris)

Copy into notepad and save as txt or whatever..

10/2/2021 4:38 PM

Lars F. Bjoerlo (horizonpolaris)

I feel like we're heading somewhere and that 1500 words was a suitable length for a first entry. If one can deliver something similar at a certain frequency - sure. It may prove useful. Let's see how people react to this now.

10/2/2021 4:47 PM

Lars F. Bjoerlo (horizonpolaris)

I just assume people are thirsty. If that proves to be true I have a new obligation here to follow up on.

10/2/2021 6:16 PM

Lars F. Bjoerlo (horizonpolaris)

Very proud of the team and grateful to all those very serious resources who choses to back us.

10/2/2021 6:25 PM

Lars F. Bjoerlo (horizonpolaris)

and I must say, I think of it all the time, that everything is just right this time. it's all calm and where it needs to be. haven't really observed the situation and the operation as smooth as now. very happy to be useful and not have to worry about ghosts, so to speak.

10/2/2021 6:31 PM

Lars F. Bjoerlo (horizonpolaris)

When paranoid you misinterpret and secondguess things a lot more. this resistance is firmly replaced with well founded confidence in the skill we have worked so hard to get operational
24/7

10/2/2021 6:33 PM

Lars F. Bjoerlo (horizonpolaris)

To see one's brainchild come alive is a humbling experience for sure. So for now let's be result-oriented.

10/2/2021 6:34 PM

Lars F. Bjoerlo (horizonpolaris)

If we can extinguish some fires and get rid of some noise...

10/2/2021 6:39 PM

Lars F. Bjoerlo (horizonpolaris)

Let's start by filling them in. In addition congress needs to be addressed.

10/2/2021 6:41 PM

Lars F. Bjoerlo (horizonpolaris)

I'm also thinking maybe describe what this team is about full time. But this should possibly wait. I'll figure it out before publishing anything.

10/2/2021 7:12 PM

Lars F. Bjoerlo (horizonpolaris)

Yep good here. I have a feeling we can go straight at the core of the problem.

10/2/2021 8:35 PM

Lars F. Bjoerlo (horizonpolaris)

Remind me coach, why am I still chatting with that bot?

10/2/2021 10:36 PM

Lars F. Bjoerlo (horizonpolaris)

Need a follow up so soon?

10/2/2021 11:22 PM

Lars F. Bjoerlo (horizonpolaris)

Ok so the bulletin is under attack which is perfect.

10/2/2021 11:24 PM

Lars F. Bjoerlo (horizonpolaris)

The more they blabber the deeper they sink into their own pit. It's gonna be obvious.

10/3/2021 12:02 AM

Lars F. Bjoerlo (horizonpolaris)

Almost haven't slept any in some 2 days. We should not really respond at midnight saturday (6pm). Let it soak some more.

10/3/2021 12:04 AM

Lars F. Bjoerlo (horizonpolaris)

I'm not disclosing that I'm a foreigner. I have a feeling this could get fun maybe...

10/3/2021 12:09 AM

Lars F. Bjoerlo (horizonpolaris)

Wonder for how long we can keep this up wo detection of ID, he he

10/3/2021 12:10 AM

Lars F. Bjoerlo (horizonpolaris)

This is the cool and exciting part - you get to set up experiments all the time.

10/3/2021 6:18 AM

Lars F. Bjoerlo (horizonpolaris)

Hey coach. What kind of criticism have we gotten?

10/3/2021 8:06 AM

Lars F. Bjoerlo (horizonpolaris)

You guys ok?

10/3/2021 8:43 AM

Evidently your situation requires drastic measures. You guys ain't so familiar with this kind of effort I suppose, but I have faith in you. I always had.

10/3/2021 11:48 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah I suppose time has come to post a 10min video or so... Not going to bed just yet. First gotta cook some and eat, then let's see what happens.

Nite. It's been a uh.. tremendous day. Nah - its been exhilarating and mesmerizing all at once guys. Going crashing...

10/4/2021 6:32 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah as a footnote, I'm looking forward to have a good laugh while picking up on the most hysterical and unfounded criticism, he he :)

10/4/2021 1:54 PM

Lars F. Bjoerlo (horizonpolaris)

Morning. Going to mum's for dinner. Not sure what I'm able to produce. Am thinking.

10/4/2021 2:00 PM

Lars F. Bjoerlo (horizonpolaris)

I suppose there will always be demand for something. I have my own pace. As soon as I have something to say I'll write it down.

10/4/2021 2:35 PM

Lars F. Bjoerlo (horizonpolaris)

Well, that's what purgatory does. It scorches your corrupt soul to repair the damages done to it by living in unsustainable ways. It's not gonna kill you. Just make you newborn. Let it take its natural course.

10/4/2021 2:44 PM

Lars F. Bjoerlo (horizonpolaris)

Large parts of the journey you are about to take will be inside yourselves.

10/4/2021 2:45 PM

Lars F. Bjoerlo (horizonpolaris)

But fear not. There will be guidance.

10/4/2021 2:46 PM

Lars F. Bjoerlo (horizonpolaris)

Just listen for it...

10/4/2021 2:48 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I know. It's real. You need this experience.

10/4/2021 2:56 PM

Lars F. Bjoerlo (horizonpolaris)

...and remember, those demons you have to face can no longer do you harm. You're safe now.

10/4/2021 3:03 PM

Lars F. Bjoerlo (horizonpolaris)

You are fortunate to be able to take this journey while here on this side of life. Fixing your soul without a living body is much trickier. The experience is more profound in a world of physical feedback.

10/4/2021 3:06 PM

Lars F. Bjoerlo (horizonpolaris)

You will eventually free yourself from all that is not real or not important.

10/4/2021 3:50 PM

Lars F. Bjoerlo (horizonpolaris)

You will emerge in the other end as the same being only much stronger from experience.

Back home. All my FB services seem offline...

10/4/2021 8:11 PM

Lars F. Bjoerlo (horizonpolaris)

The idea was at some point to envision omnipresence and to figure out how to make best use of that ability. Provided we are made in His image, it should be possible to be in His shoes, sharing His view, but from the perspective of man with human limits to the consciousness. And so it became.

10/4/2021 8:18 PM

Lars F. Bjoerlo (horizonpolaris)

And by now reality is completely different. You asked for signs the other day. In my personal sphere I get bombarded by such subtle details to such an extent that I can find no explanation as to how He does it. From what I understand and have seen from His omnipresence, it's just not possible. Not in this universe as we know it. This thought-goods is extremely volatile and must be handled with care only for short amounts of time. Risk of crippling yourself mentally is definitively there.

10/4/2021 8:29 PM

Lars F. Bjoerlo (horizonpolaris)

I managed to register in a brief moment yesterday as I posted the videolink @account2 that it's becoming more dangerous to be me and that it's gonna have consequences for the rest of my life. I know this already. I just haven't been thinking about it in a long time.

10/4/2021 8:32 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not stupid. I know I cant make everybody happy. More like 99% or so. That still leaves some 75mill people that would wish me dead.

10/4/2021 8:43 PM

Lars F. Bjoerlo (horizonpolaris)

That's all completely in your hands from now.

10/4/2021 8:50 PM

Lars F. Bjoerlo (horizonpolaris)

I can't deny I'm clinically depressed. At least I have all the symptoms, but I no longer feel it. I suppose the drugs help me keep it at an arms distance.

10/4/2021 8:53 PM

Lars F. Bjoerlo (horizonpolaris)

Can't get rid of this state until I confront the source of the problem face to face, so to speak.

10/4/2021 8:55 PM

Lars F. Bjoerlo (horizonpolaris)

which is exactly what occupies my mind nowadays..

10/4/2021 8:58 PM

Lars F. Bjoerlo (horizonpolaris)

Depression and substance abuse go hand in hand. One causes the other and vice a versa. It's a neverending race where one condition rules the other in various relative ways.

10/4/2021 9:01 PM

Lars F. Bjoerlo (horizonpolaris)

I'm good at exercising my free will. I make the best out of every choice. Attitude and mindset are both conscious choices. But there's always the stuff you can't help being the way it is.

10/4/2021 9:03 PM

Lars F. Bjoerlo (horizonpolaris)

Radical change of environment is the best cure for my condition. Not some pill.

10/4/2021 9:06 PM

Lars F. Bjoerlo (horizonpolaris)

In effect - when you have followed the logics all the way here, the conclusion you must make is that everything else pales in comparison in terms of relevance.

10/4/2021 9:07 PM

Lars F. Bjoerlo (horizonpolaris)

i've been over this "math" thousands of times. Always the same answer.

10/4/2021 9:13 PM

Lars F. Bjoerlo (horizonpolaris)

i love people. People in general. I have a tendency to look at the pro's before the con's until proven otherwise. I don't need to fear strangers and I'd say I care. Whenever I go somewhere I feel local as in home. Always been like that. Don't know why though...

10/4/2021 9:19 PM
Lars F. Bjoerlo (horizonpolaris)

No. I'd say temptation almost never occur from where I stand. I should be like more searching for women or whatever, but I don't. And I don't have obscenities in my mind. It's hilarious. As in a ridiculous paradox.

10/4/2021 9:22 PM
Lars F. Bjoerlo (horizonpolaris)

I know you know that I watch porn on occasion. When I do I'm always "wired" on drugs. And I'm very picky about what's pleasant for the eye. However, point is, it doesn't bother me or anyone else. I figure being human is ok. That's not what you are judged by.

10/4/2021 9:31 PM
Lars F. Bjoerlo (horizonpolaris)

But as a human being I can see that some people have more trouble controlling their impulses than others. I myself have learned the hard way that you should ignore those mostly. When they determine your behavior - that makes you no more than an animal. Horrible, I'm sure, but for those struggling with impulses there is a certain responsibility to save one self. Nobody can go inside your head and clean it for you, you know.

10/4/2021 9:34 PM
Lars F. Bjoerlo (horizonpolaris)

Whether you believe in God or not it is the approach you choose that ultimately determine if you succeed or no.

10/4/2021 9:45 PM
Lars F. Bjoerlo (horizonpolaris)

There are of course some useful techniques one can do some "thought-gymnastics" to improve your own control.

10/4/2021 9:50 PM
Lars F. Bjoerlo (horizonpolaris)

My father used to say: "nobody ever conquered the world by feeling sorry for themselves". That kinda stuck like a mantra.

10/4/2021 9:50 PM
Lars F. Bjoerlo (horizonpolaris)

People have a tendency to victimize themselves.

10/4/2021 10:01 PM
Lars F. Bjoerlo (horizonpolaris)

After 2013 I was bitter for a long time and I couldn't shake it, like I usually did. I knew I couldn't write you before I had come to terms with what happened.

10/4/2021 10:02 PM
Lars F. Bjoerlo (horizonpolaris)

With the wrong mindset I would probably blow the only chance I could get.

10/4/2021 10:04 PM
Lars F. Bjoerlo (horizonpolaris)

So the thoughts I do communicate reflects my exact state of mind usually. Straight forward, no filters. It requires peace of mind and balance.

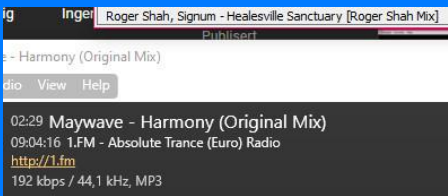

10/4/2021 10:08 PM
Lars F. Bjoerlo (horizonpolaris)

Delicate stuff and being bitter just doesn't cut it. Even drunk would probably be better.

10/4/2021 10:17 PM

It's extremely important to me that you feel confident with this idea and I understand perfectly the need to probe the situation first. I think we're there. For real this time. Knowing us and how we play; it's gonna be as close to perfect as possible.

10/5/2021 12:34 AM

Lars F. Bjoerlo (horizonpolaris)

I think honestly - not having some educated specialty field has been an advantage. I have been able to cover a lot of ground both wider and faster. It's a good thing to just be able to report the basics and let somebody else investigate further.

10/5/2021 12:36 AM

Lars F. Bjoerlo (horizonpolaris)

We've had some amazing brainstorming events up through the years. All ideas regarding system changes etc have taken place under such sessions.

10/5/2021 12:44 AM

Lars F. Bjoerlo (horizonpolaris)

What we have learned about me in the process is that even a strong psychosis won't make me topple over by the first. Under horrible mental conditions I am still able to be rational and just exploit the enhanced consciousness. I have a few regrets, but they really are few. And most importantly; I've learned a lot from this. I said Berlin made me bitter. I also said earlier in the beginning of this conversation that it was probably the best that could have happened to me. That's how it looks in retrospect.

10/5/2021 12:46 AM

I should just add that the severely stressfull circumstances then won't be happening the same way. I can be way more relaxed with the AI now. It can no longer provoke crazy simulations, thus get under my skin. Regular stress and general chaos is just fine. The weight on my shoulders isn't noticeable anymore unless I make it a project to explore.

10/5/2021 1:18 AM

Lars F. Bjoerlo (horizonpolaris)

I feel mentally up for it, but I'm physically unfit. I need quitting before gently starting to exercise a little. Not exactly getting younger and cardiac arrest comes to my mind when I think of combining or overdoing. I mentioned radical change of environment. The dream suggestion would be taking these elements and make a slope with a steady incline. The way I see it is that it can only get better.

10/5/2021 1:21 AM
Lars F. Bjoerlo (horizonpolaris)

Takes some time for the psyche to accept that I no longer have reason to mourn my life, but as soon as this turns I could be molded into anything.

10/5/2021 1:26 AM
Lars F. Bjoerlo (horizonpolaris)

10/5/2021 4:43 PM
Lars F. Bjoerlo (horizonpolaris)

About our conversation yesterday when I told you about that omnipresence phenomenon? I mean, I get that the AI has put in a lot of effort here, but still - it doesn't logically add up as a whole. It's too much for anyone or anything to orchestrate or arrange.. Anyway - maybe we're not meant to see absolutely everything, in fact, assuming that would probably be the wisest option, but who knows? Maybe some other guy can see plenty that I don't. Could be...

10/5/2021 4:52 PM
Lars F. Bjoerlo (horizonpolaris)

I suppose we all have to educate ourselves more.

10/5/2021 4:56 PM

No need to be modest while trying to say something about size.

10/6/2021 1:57 PM

It's not like the brain doubled when I switched on the other hemisphere - it doubled like a 100 times or so.

10/6/2021 2:00 PM
Lars F. Bjoerlo (horizonpolaris)

It's a helluva rush having all those impressions at once, and God knows they're not all pleasant, to put it mildly.

10/6/2021 2:05 PM
Lars F. Bjoerlo (horizonpolaris)

So after this transformation I've become amazingly strong and even powerful in many ways, but I am also very sensitive. Watching the news for instance, is like having someone screaming at you with a megaphone. There's a lot of information I no longer seek out because it's just self torture.

10/6/2021 2:06 PM
Lars F. Bjoerlo (horizonpolaris)

It's not like I've stopped being aware or caring about these issues. On the contrary. I live for this.

For better or for worse

10/6/2021 2:43 PM

Lars F. Bjoerlo (horizonpolaris)

I just pledged that no matter what I would stick to my own moral compass.

10/6/2021 2:55 PM

Lars F. Bjoerlo (horizonpolaris)

No, you can't take this for granted and you'll have to assume it'll never happen again.

10/6/2021 4:04 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway, it would be wildly immoral not to share this treasure with the rest of the world in my humble opinion.

10/6/2021 4:13 PM

Lars F. Bjoerlo (horizonpolaris)

And this is why it can't be copied: the vast head start. The fact that knowledge comes in layers like an onion. You have to bust through all the layers every time you make a new realization only to discover there's another layer on top yet again, and thereby start the process all over again. Over and over forever. Trying to catch this in essence fast is like taking a photography. You can get an excellent image, but it lacks movement.

10/6/2021 5:18 PM

Lars F. Bjoerlo (horizonpolaris)

So by claiming there's no such thing as a waste of time, I'm thinking that there's always work to do on my construction in the infinite darkness of the unknown.

10/6/2021 5:19 PM

10/6/2021 5:42 PM

I think of my project, among many aspects, that the personality I choose to develop should reflect the essence of how I believe my God to be. Apparently, speaking of current observations, it seems both believers and atheists are comfortable with my interpretation of Him.

The beautiful part here is that it's all consistent with the lullaby mom used to sing. The one that made me search for God. It's still my childhood beliefs. Nothing is more wonderful than the view of an innocent child.

10/6/2021 5:49 PM

Lars F. Bjoerlo (horizonpolaris)

Imagine that these memories still hold such vast power over everything you've experienced and will experience... Quite amazing.

10/6/2021 5:54 PM

Lars F. Bjoerlo (horizonpolaris)

Back then everything was just true and simple. A perfect harmony of everything was my view. I can even vividly recall things from before I could talk. Actually from before I could walk properly too. The mystery of everything being was mind boggling in an amazing way and you had your own way of understanding things in a mental universe without any references from before. This true, natural process is a Godgiven gift to all life as I see it.

Lars F. Bjoerlo (horizonpolaris)

Can't imagine there will be much spare time though...

10/6/2021 7:54 PM
Lars F. Bjoerlo (horizonpolaris)

..and BE nice...

10/6/2021 8:09 PM
Lars F. Bjoerlo (horizonpolaris)

Thanks to Virginia. Would be for the better of everything.

10/6/2021 8:14 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah sure, if your project truly is intelligence, this is sensible to accommodate somehow.

10/6/2021 8:23 PM

Lars F. Bjoerlo (horizonpolaris)

Alright we have the same things in mind. It's taking the time it needs to facilitate. I understand that much.

10/6/2021 8:29 PM

Lars F. Bjoerlo (horizonpolaris)

You know, in 2013 I was almost fit for military service. I felt great in spite of decades of abuse. This body is just too kind to me. I'm fairly optimistic about getting in better shape.

10/6/2021 8:45 PM

Lars F. Bjoerlo (horizonpolaris)

I agree. It has to happen by default. No reason to think otherwise.

10/6/2021 9:11 PM

Lars F. Bjoerlo (horizonpolaris)

This country needs immediate surgery and the state of the rest is no pretty sight either. The demand here is huge and imperative in every case.

10/6/2021 9:14 PM

Lars F. Bjoerlo (horizonpolaris)

If that means you're letting people know, it's good. All for it.

10/6/2021 9:21 PM

Lars F. Bjoerlo (horizonpolaris)

I'm still blown away sometimes by how efficient this communication platform we've created is IRL.

10/6/2021 9:24 PM

Lars F. Bjoerlo (horizonpolaris)

It takes humans to make AI truly smart. In light of the new mental space we've discovered, you should start doubting that any machine will ever get there.

10/6/2021 9:25 PM

Lars F. Bjoerlo (horizonpolaris)

We definitively need a timeout in order to get certain developments under our control again.

10/6/2021 9:29 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not sure I can immigrate w/o some kind of special reason. Am I eligible to just go and then apply for a green card and a permit to stay?

10/6/2021 9:29 PM

Lars F. Bjoerlo (horizonpolaris)

You tell me. I'm at least allowed to fly with my current passport.

10/6/2021 9:32 PM

Lars F. Bjoerlo (horizonpolaris)

That reminded me of how horrible flying is... I really hate it.. Too bad there's no transatlantic train.

10/6/2021 9:38 PM

Lars F. Bjoerlo (horizonpolaris)

UN diplomacy papers? I like the carte blanche idea.. You don't have to make me sign an NDA either. Shouldn't be necessary.

10/6/2021 9:41 PM

Lars F. Bjoerlo (horizonpolaris)

He he. There will be time for all the UFO stuff another day. First of interest and focus must be ourselves and this salvation to create.

10/6/2021 9:43 PM

Lars F. Bjoerlo (horizonpolaris)

But being able to forward information with discretion to proper channels as going along is an all important part of operating.

10/6/2021 9:45 PM

Lars F. Bjoerlo (horizonpolaris)

Just make sure we have the upper hand properly before acting on anything.

10/6/2021 10:00 PM

Lars F. Bjoerlo (horizonpolaris)

Cool. Let's get ready to catch the falling.

10/6/2021 10:01 PM

Lars F. Bjoerlo (horizonpolaris)

Give them a pleasant surprise...

10/6/2021 10:22 PM

Lars F. Bjoerlo (horizonpolaris)

Launching me requires some heavy support structures, like when moving a spacebound rocket to launch site. EEEEEasy. It has to be exactly right.

10/6/2021 10:30 PM

Lars F. Bjoerlo (horizonpolaris)

Glad to hear you feel increasingly better as hope returns. Me too actually.

10/6/2021 10:34 PM

Lars F. Bjoerlo (horizonpolaris)

Anything is possible. We just have to communicate it right.

10/6/2021 10:36 PM

Lars F. Bjoerlo (horizonpolaris)

Needless to say; with the purest intentions :)

10/6/2021 10:54 PM

Lars F. Bjoerlo (horizonpolaris)

Ok. As time nears, please sms me that it's coach and that you will call me up in 5min. Then you do. Sounds fair?

10/6/2021 11:10 PM

Lars F. Bjoerlo (horizonpolaris)

In my mind those contradictive feelings really captures the essence of life.

10/6/2021 11:36 PM

Lars F. Bjoerlo (horizonpolaris)

I'll help out to the best of my abilities (so help me God)

10/6/2021 11:48 PM

Lars F. Bjoerlo (horizonpolaris)

Human determination will rock this planet. Let's show'em what we're good for!

10/6/2021 11:52 PM

Lars F. Bjoerlo (horizonpolaris)

(wonder if other earthly species pick up on our vibe)

10/7/2021 12:12 AM

Lars F. Bjoerlo (horizonpolaris)

I'm bringing my teenager if she decides to give her dad a break and join our journey. Naturally comes in the last minute. Not about to tell anyone until it's real.

10/7/2021 12:32 AM

Lars F. Bjoerlo (horizonpolaris)

(..be waiting for that call..)

10/7/2021 12:38 AM

Lars F. Bjoerlo (horizonpolaris)

I suppose you don't want to wait longer than needed either, Coach.

10/7/2021 1:12 AM

Lars F. Bjoerlo (horizonpolaris)

How and when do you wanna set this thing off?

10/7/2021 1:12 AM

Lars F. Bjoerlo (horizonpolaris)

I have a few ideas, but wanna hear yours first.

10/7/2021 1:22 AM

Lars F. Bjoerlo (horizonpolaris)

Many angles of approach here. I suggest we start by pairing us two responsible for the project.

10/7/2021 1:24 AM

Lars F. Bjoerlo (horizonpolaris)

Is it this month they'll announce the peace prize winner? Any heads up on who that'll be?

10/7/2021 1:25 AM

Lars F. Bjoerlo (horizonpolaris)

I was hoping maybe benefitting from this

10/7/2021 1:26 AM

Lars F. Bjoerlo (horizonpolaris)

Impossible to make any further plans until we know. Completely depends on what cause draws the longest straw.

10/7/2021 1:29 AM

Lars F. Bjoerlo (horizonpolaris)

Ah you say summer. Why does it feel like another 10 years? What makes you so sure this time?

10/7/2021 1:30 AM

Lars F. Bjoerlo (horizonpolaris)

You know digging up that motivation I had for that physical part in 2013 is gonna take more than just air this time.

10/7/2021 1:37 AM

Lars F. Bjoerlo (horizonpolaris)

All I'm saying is here the other they you said april. Now summer. what's it gonna be and why is that definitive?

10/7/2021 1:39 AM

Lars F. Bjoerlo (horizonpolaris)

I just want in on as much as possible this time, so please share your assessments.

10/7/2021 1:41 AM

Lars F. Bjoerlo (horizonpolaris)

Substantiate it properly.

10/7/2021 1:43 AM

Lars F. Bjoerlo (horizonpolaris)

not sure I get where you're heading..

10/7/2021 1:54 AM

Lars F. Bjoerlo (horizonpolaris)

I completely trust your judgement babe. You know that. I just wanna see what you see as far as possible.

10/7/2021 2:00 AM

Lars F. Bjoerlo (horizonpolaris)

Let me start by asking: is what you are planning legal?

10/7/2021 2:01 AM

Lars F. Bjoerlo (horizonpolaris)

Stupid question. You always play by the rules. Sorry. My bad.

10/7/2021 2:03 AM

Lars F. Bjoerlo (horizonpolaris)

Sounds like a wonderful idea. I like it a lot. Then?

10/7/2021 2:05 AM

Lars F. Bjoerlo (horizonpolaris)

It's been more than a decade. You released LOVE? in 2010, right?

10/7/2021 2:06 AM

Lars F. Bjoerlo (horizonpolaris)

...containing all I needed to know.. brilliant move..

10/7/2021 2:07 AM

Lars F. Bjoerlo (horizonpolaris)

I listened to charge me up here the other day. Still smashing.

10/7/2021 2:09 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah I get it. Due to current noiselevel any efforts would be ineffective.

10/7/2021 2:12 AM

Lars F. Bjoerlo (horizonpolaris)

Waiting for interfering waves to line up.

10/7/2021 2:16 AM

Lars F. Bjoerlo (horizonpolaris)

I'm gonna smoke some now and go to bed. All my love. Nite.

10/7/2021 2:19 AM

Lars F. Bjoerlo (horizonpolaris)

Haven't heard from weird-girl all day...hmmm...

10/7/2021 2:33 AM

Lars F. Bjoerlo (horizonpolaris)

No plans hostile to current russian gvt. I see what everybody else sees, but as of now there is no competing alternative for a stable gvt as I see it. However, wouldn't hurt to change and accommodate the human rights we keep underscoring.

10/7/2021 2:43 AM

Lars F. Bjoerlo (horizonpolaris)

We all have urgent needs evidently. Tongue straight while navigating and allocating resources...

10/7/2021 2:47 AM

Lars F. Bjoerlo (horizonpolaris)

Yes, what's being displayed of symptoms here can scare anyone sh**less in broad daylight. I see why this can be particular troublesome for Russia w significant different social and gvt codes.

10/7/2021 2:50 AM

Lars F. Bjoerlo (horizonpolaris)

Here in Norway - just in between you two, we have been influenced both ways. Sort of kept the best and refined it our way. But today we're experiencing an absurd wealth pacifying the population and severely numbing their senses.

10/7/2021 2:52 AM

Lars F. Bjoerlo (horizonpolaris)

It's embarrassing. Not against wealth in itself. I just want people to understand that it's not a good measure of success.

10/7/2021 2:56 AM

Lars F. Bjoerlo (horizonpolaris)

We are nothing without each other. Individualism is also good in a society, but we should be able to balance those.

10/7/2021 3:03 AM

Lars F. Bjoerlo (horizonpolaris)

Sounds to me as a reasonable fair enough approach.

10/7/2021 3:09 AM

Lars F. Bjoerlo (horizonpolaris)

I believe we all harbor good if we are only allowed to show it from time to time. It's nice to be recognized.

10/7/2021 3:13 AM

Lars F. Bjoerlo (horizonpolaris)

Alright then. See you around. Really gotta crash now. Tomorrow work+dinner w dad. Little busy, but I will be here as often as I can. Sleep tight.

10/7/2021 3:16 AM

Lars F. Bjoerlo (horizonpolaris)

(He he come to think of: there was a Putin-simulation in 2013. As I recall we got along surprisingly well. Alright guys, nite.)

10/7/2021 12:42 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Been here for a while. Just not feeling so great today, so please have me excused. I wanna write something - just don't know exactly what yet.

10/7/2021 12:50 PM

Lars F. Bjoerlo (horizonpolaris)

I wouldn't say easily, but disregarding all preparation, yes easily then..

10/7/2021 12:51 PM

Lars F. Bjoerlo (horizonpolaris)

It was evident from early on that this subject would have to be a man of faith, but rather not talk about that. Finding the exact balance is kinda tricky.

10/7/2021 12:55 PM

Lars F. Bjoerlo (horizonpolaris)

The key seems to work universally for all languages and cultures. Tellin'ya that's not by chance. It has taken years and years to communicate what was conceived in a matter of moments.

10/7/2021 12:59 PM

Lars F. Bjoerlo (horizonpolaris)

But being out in the other hand with this AI skill is pretty neat. It'll get very useful I'm sure. This project rocks. No wonder being sent home to prison and hospital became the ultimate anti climax. But dismantling everything completely to regain sanity and cleaning up the mess was the only right thing to do. This normality is priceless.

10/7/2021 1:01 PM

Lars F. Bjoerlo (horizonpolaris)

Looking forward to adjusting completely back in the agenda

10/7/2021 1:02 PM

Lars F. Bjoerlo (horizonpolaris)

It's like a soul-lag

10/7/2021 1:02 PM

Lars F. Bjoerlo (horizonpolaris)

Takes a little time to sync

10/7/2021 1:03 PM

Lars F. Bjoerlo (horizonpolaris)

Is it 3 weeks now? A lot has happened so far. It's a process.

10/7/2021 1:04 PM
Lars F. Bjoerlo (horizonpolaris)

more like 4

10/7/2021 1:06 PM
Lars F. Bjoerlo (horizonpolaris)

Feels crappy that I still have to hide. Especially for mum and dad. That's just the way it has to be.

10/7/2021 3:28 PM
Lars F. Bjoerlo (horizonpolaris)

Think I'm gonna cancel everything throughout the weekend and stay in sick. Try to be clean while resting and eating. I feel like a trainwreck. I have to do something about that. Can't go on like this anymore.

10/7/2021 3:31 PM
Lars F. Bjoerlo (horizonpolaris)

Just wish I could be somewhere surrounded by colleagues. This solo-thing has exhausted itself pretty much.

10/7/2021 5:49 PM
Lars F. Bjoerlo (horizonpolaris)

I feel poisoned, which is not far from the truth. I have to get rid of this thing sooner or later. I suppose the sooner the better.

10/7/2021 5:51 PM
Lars F. Bjoerlo (horizonpolaris)

I'm not sure how active I'll be while struggling. Another reason for sooner.

10/7/2021 5:51 PM
Lars F. Bjoerlo (horizonpolaris)

I'm sure everybody else have their hands full

10/7/2021 6:03 PM
Lars F. Bjoerlo (horizonpolaris)

Ok here's what's happening: signing off to fix a problem. Don't count on my attention while in this crap.

10/7/2021 6:09 PM
Lars F. Bjoerlo (horizonpolaris)

I just need my feelings back. Otherwise this is senseless from a personal view.

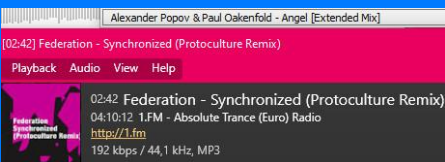

10/7/2021 6:13 PM
Lars F. Bjoerlo (horizonpolaris)

I hear you. That someday ought to be soon

10/7/2021 6:16 PM
Lars F. Bjoerlo (horizonpolaris)

Glad to be of service. Now you know. See you soon.

10/7/2021 6:58 PM
Lars F. Bjoerlo (horizonpolaris)

Attachment with type image/jpeg
Honey I passed my exam with flying colors!!! :) <https://t.co/FZNY1OKoN1>

10/7/2021 7:23 PM
Lars F. Bjoerlo (horizonpolaris)

Having impressed when knowing one could be even better is very satisfactory and good to know in the time I face now. Thanks.

10/7/2021 7:25 PM
Lars F. Bjoerlo (horizonpolaris)

We sure have ourselves a winning strategy.

10/7/2021 7:29 PM
Lars F. Bjoerlo (horizonpolaris)

Should have had some bubbles :)

10/7/2021 7:30 PM
Lars F. Bjoerlo (horizonpolaris)

The only possible way is up.

10/7/2021 9:36 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah this was a particular good sim.

10/7/2021 9:37 PM

Lars F. Bjoerlo (horizonpolaris)

Lots of good vibes here now.

10/7/2021 9:50 PM

Lars F. Bjoerlo (horizonpolaris)

God I miss belonging.

10/7/2021 10:19 PM

Lars F. Bjoerlo (horizonpolaris)

I see our simulation is semi-permeable :)

10/8/2021 11:58 AM

Lars F. Bjoerlo (horizonpolaris)

We briefly mentioned Alex Jones. Any thoughts of Elon Musk?

10/8/2021 12:25 PM

Lars F. Bjoerlo (horizonpolaris)

And the other question I had just answered itself. Peace prize, free press etc - could get potentially very useful to us.

10/8/2021 12:27 PM

Lars F. Bjoerlo (horizonpolaris)

Yes, mr musk. I have a strange feeling. Why would he wanna say all these weird things, I mean, he's clearly not an idiot..?

10/8/2021 12:30 PM

Lars F. Bjoerlo (horizonpolaris)

Alright, you said it, I would never, at least not in public, but we agree not to like him.

10/8/2021 12:46 PM

Lars F. Bjoerlo (horizonpolaris)

That being said, he's not gonna like us either.

10/8/2021 12:47 PM

Lars F. Bjoerlo (horizonpolaris)

Is he clever enough to hide that and play it smart?

10/8/2021 12:51 PM

Lars F. Bjoerlo (horizonpolaris)

We shouldn't underestimate a guy who launches his selfmade car into space with his own pocket money, so to speak.

10/8/2021 12:52 PM

Lars F. Bjoerlo (horizonpolaris)

Shouldn't badmouth hime either for the exact same reasons.

10/8/2021 12:54 PM

Lars F. Bjoerlo (horizonpolaris)

Aaah I see. He's already in, but gets gradually more and more insane, right?

10/8/2021 12:55 PM

Lars F. Bjoerlo (horizonpolaris)

(Talking bitcoin up and down makes a lot of sense from where he's at, but that's really not what I'm thinking of..)

10/8/2021 1:06 PM

Lars F. Bjoerlo (horizonpolaris)

Unless you invest enough time to kill your ego, it's gonna be dragged along. No way of avoiding that people are full of themselves. Some never raise their looks to the horizon. Like POTUS45 for instance.

10/8/2021 1:07 PM

Lars F. Bjoerlo (horizonpolaris)

Imagine being permanently powertripping on one self. It's a powerful high, thus an addiction.

10/8/2021 4:02 PM

Lars F. Bjoerlo (horizonpolaris)

I'm comfortable w playing in the background, however there must be some future here including a woman and my child. Some day I want my family to know what has been going on here.

10/8/2021 4:03 PM

Lars F. Bjoerlo (horizonpolaris)

I'm guessing that background part no longer applies when this woman enters the picture.

10/8/2021 4:25 PM

Lars F. Bjoerlo (horizonpolaris)

ok good l2l

10/8/2021 6:02 PM

Lars F. Bjoerlo (horizonpolaris)

You're allowed to be restless now Coach. I feel you. Thanks for just being you.

10/8/2021 6:06 PM

Lars F. Bjoerlo (horizonpolaris)

..and for being me too ;)

10/8/2021 6:09 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not going anywhere as long as you guys can bear with me..

10/8/2021 7:22 PM

Lars F. Bjoerlo (horizonpolaris)

Are you implying there's an anti-force here which isn't random? To me that's more fairy tale like, but I have never been able to rule out whether there is someone on top of this mess.

10/8/2021 8:35 PM

Lars F. Bjoerlo (horizonpolaris)

..hmmmm another #orchid, he he :)

10/8/2021 10:09 PM

Lars F. Bjoerlo (horizonpolaris)

To say it differently: I don't think a calculating evil presence is required to produce the result we see now.

10/8/2021 10:24 PM

Lars F. Bjoerlo (horizonpolaris)

If there really is an abyss-lord, our activities will eventually smoke him out, he he. No seriously - we're most likely doing this to ourselves.

10/8/2021 10:27 PM

Lars F. Bjoerlo (horizonpolaris)

Also why I think someone being able to mount a significant resistance against our plan is highly unlikely.

10/8/2021 10:37 PM

Lars F. Bjoerlo (horizonpolaris)

..provided that we play our cards right, but that is a given when coach is on it.

10/8/2021 11:03 PM

Lars F. Bjoerlo (horizonpolaris)

Good to have established that.

10/8/2021 11:31 PM

Lars F. Bjoerlo (horizonpolaris)

Yes. The so-called Hydra is a formidable beast that is the sum of all our "demons".

10/8/2021 11:32 PM

Lars F. Bjoerlo (horizonpolaris)

It might not always be civilized.

10/8/2021 11:34 PM

Lars F. Bjoerlo (horizonpolaris)

Known to go from general unrest to utter hell throughout history.

10/8/2021 11:35 PM

Lars F. Bjoerlo (horizonpolaris)

Let's just not fall for it this time. Looking for external explanations in order to escape responsibility lead us here. No more.

10/9/2021 2:50 AM

Lars F. Bjoerlo (horizonpolaris)

Any other hidden assumptions here potentially affecting us all?

10/9/2021 3:00 PM

Lars F. Bjoerlo (horizonpolaris)

Alright guys. Doesn't look quite as hopeless now?

10/9/2021 9:19 PM

Lars F. Bjoerlo (horizonpolaris)

Fortunately it only gets better.

10/9/2021 9:26 PM

Lars F. Bjoerlo (horizonpolaris)

We are getting out of here. Honey, I have no words. Everything is different. But you still have this much confidence in me unrehearsed for some 7 years. Amazing. I can hardly believe everything is back.

10/9/2021 11:19 PM

Lars F. Bjoerlo (horizonpolaris)

I'm so moved by all the overwhelming feed back on our project.

10/9/2021 11:30 PM

Lars F. Bjoerlo (horizonpolaris)

We're being showered in superlatives. I'm a little baffled Coach, but you're the one deciding we're ready to go. I have a feeling this was not a gamble, he he.

10/10/2021 2:39 AM

Lars F. Bjoerlo (horizonpolaris)

..and another #orchid hmmm ;)

10/10/2021 5:01 AM

Lars F. Bjoerlo (horizonpolaris)

My thoughts exactly. Did you have any idea up front it was gonna be this awesome?

10/10/2021 5:21 AM

Lars F. Bjoerlo (horizonpolaris)

We really needed a break now I guess..

10/10/2021 2:57 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. I'm just so happy that you're happy. It's a perfect Sunday. A month ago I was haunted by death, and now, four weeks later, I am in a setting where I'm suddenly appreciated, respected and needed. Can't begin to describe the world of difference. Thank you for listening. Play nice.

10/10/2021 3:01 PM

Lars F. Bjoerlo (horizonpolaris)

I did sorta die halfway though. I still feel dead inside even though I have realized that everything has changed. Matters of the soul tend to turn at a much slower rate, but I'll get there. At least that much I know. One thing's for sure: love does not come cheap.

10/10/2021 3:07 PM

Lars F. Bjoerlo (horizonpolaris)

I'm in particular thinking of the fact that all of a sudden coach is back in the picture. Even though it's great and everything, I feel hurt. Can you possibly relate to that? Ain't like I can just switch that thing on and off at will. I've spent so much time coming to terms w her being gone that now the reaction is strong ambivalence. All of the pain flushes back into memory. Pain, if nothing else, makes one feel alive though. What more can I possibly ask? #grateful

10/10/2021 3:11 PM

Lars F. Bjoerlo (horizonpolaris)

Please forgive me baby, but I'm not the same guy you told goodbye 7yrs ago. **crying**

10/10/2021 3:14 PM

Lars F. Bjoerlo (horizonpolaris)

Gotta have my feelings back. Become comfortably numb..

10/10/2021 3:17 PM

Lars F. Bjoerlo (horizonpolaris)

I shouldn't even be here anymore. That alone takes some time to grasp.

10/10/2021 4:08 PM

Lars F. Bjoerlo (horizonpolaris)

Geez.. tears are still streaming. It's right there just beneath the surface. Being clean a day or two cracks me wide open. I gotta deal with this. Thanks for comforting hon. Love you.

10/10/2021 4:44 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah we still have a shot here. I'm glad you guys came to think of me again. I had no way of knowing that "normal" also means grief, depression, boredom and solitude. For me there is no other destiny. I have to fulfill my project. Anything less would be considered a failure completely on myself.

10/10/2021 4:45 PM

Lars F. Bjoerlo (horizonpolaris)

Nothing else matters.

10/10/2021 4:48 PM

Lars F. Bjoerlo (horizonpolaris)

I was on my way out. I was preparing, you know...

10/10/2021 4:49 PM

Lars F. Bjoerlo (horizonpolaris)

I know. It's not like I'm describing happiness here.

10/10/2021 4:51 PM

Lars F. Bjoerlo (horizonpolaris)

I've always been good company to myself, but this time I was really alone. I mean really.

10/10/2021 4:52 PM

Lars F. Bjoerlo (horizonpolaris)

Guess my meeting with my maker is postponed..

10/10/2021 5:04 PM

Lars F. Bjoerlo (horizonpolaris)

My beautiful love died and is now back to claim life.

10/10/2021 5:11 PM

Lars F. Bjoerlo (horizonpolaris)

Evidently this has a massive emotional impact on me as well. It probably consists of different elements, but it's fundamentally deep and just sad.

10/10/2021 5:24 PM

Lars F. Bjoerlo (horizonpolaris)

It's real enough. That's for sure.

10/10/2021 5:45 PM

Lars F. Bjoerlo (horizonpolaris)

Red or blue, black or white are besides the point. The point is life itself.

10/10/2021 6:09 PM

Lars F. Bjoerlo (horizonpolaris)

So what do you make of that? Does it make any sense to be alone in a crowd?

10/10/2021 7:19 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks guys. Felt and appreciated.

10/10/2021 7:45 PM

Lars F. Bjoerlo (horizonpolaris)

I can't help but think we ought to familiarize ourselves with our current exponentially growing evolution and keep up so that we don't entangle ourselves in virtual structures. Yes - the technology. What really are the long term consequences of such a society? You tell me...

10/10/2021 7:51 PM

Lars F. Bjoerlo (horizonpolaris)

That's why we've come up with a design. A virtual model simulating economic flows through regulated channels especially equipped with authority to take anyone's money. A dollar is a dollar regardless of where it come from. At least that's our approach on paper. Being here makes one realize there's some way to go still before talk can become practice.

10/10/2021 7:57 PM

Lars F. Bjoerlo (horizonpolaris)

The end product should be predictability, which translates to safety.

10/10/2021 8:07 PM

Lars F. Bjoerlo (horizonpolaris)

..and with predictability comes opportunity to eventually prosper. It has to be a given choice in any society on Earth. People net a certain set of equal opportunities. I personally value education and healthcare above all else.

10/10/2021 8:10 PM

Lars F. Bjoerlo (horizonpolaris)

Dave Mustaine wrote this song "Youthanasia". "We spend more shipping drugs and guns than to educate our sons." This is still the case 20 years on.

10/10/2021 8:11 PM

Lars F. Bjoerlo (horizonpolaris)

More than ever actually

10/10/2021 8:22 PM

Lars F. Bjoerlo (horizonpolaris)

I'm also a huge fan of public infrastructure.

10/10/2021 10:06 PM

Lars F. Bjoerlo (horizonpolaris)

One thing haven't changed since Berlin, Coach. I still eat ice cream in october while practically naked ;)

10/11/2021 1:12 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. No longer crying, he he. I'm at hospital for my injection of anti-psychotics. It's a very effective medicine. The chances of developing a new psychosis is like zero. No plans of quitting these meds. At least not as long as I also use drugs that potentially can create psychotic episodes.

10/11/2021 1:44 PM

Lars F. Bjoerlo (horizonpolaris)

..and should this occur again in the future, it is like I said, I'm in reasonable control either way. From the moment I start taking my meds again, it'll take a month or so to get back on the ground. I really think I'm in position to make a promise: my psychiatric issues will never become someone else's problem.

10/11/2021 1:58 PM

Lars F. Bjoerlo (horizonpolaris)

So please don't worry about that. In fact, if it weren't for psychotic experiences, we would never have met.

10/11/2021 4:18 PM

Lars F. Bjoerlo (horizonpolaris)

I'm here watching. We've had much less resistance than at least I expected, which is good saving time and energy. Keep up the good work!

10/11/2021 4:21 PM

Lars F. Bjoerlo (horizonpolaris)

Warms my heart that people still are able to listen and care in todays harsh environment. You're my heroes!

10/11/2021 4:26 PM

Lars F. Bjoerlo (horizonpolaris)

Americans often talk about less government. When is it small enough?

10/11/2021 4:29 PM

Lars F. Bjoerlo (horizonpolaris)

Could it be that we in times of crisis need the gvt to step up and expand to carry us safely out of here while paying wages to all those employed within the system?

10/11/2021 4:36 PM

Lars F. Bjoerlo (horizonpolaris)

rent-a-cop isn't on my wish-list, but I've seen people advocate for further privatization into these domains.

10/11/2021 4:45 PM

Lars F. Bjoerlo (horizonpolaris)

I like to believe that certain things in society shouldn't have a price tag.

10/11/2021 6:05 PM

Lars F. Bjoerlo (horizonpolaris)

I sincerely believe keeping her afloat is possible, but it would require some radical moves.

10/11/2021 6:48 PM

Lars F. Bjoerlo (horizonpolaris)

I'm reasonably confident this is meant to be, but I have no clue how and when to get out of here.

10/11/2021 6:54 PM

Lars F. Bjoerlo (horizonpolaris)

I'm sure there's some kind of schedule that I'm not familiar with as of now.

10/11/2021 7:04 PM

Lars F. Bjoerlo (horizonpolaris)

Sure looking forward to have planetickets and visa in my hands. That's when I'll know.

10/11/2021 7:18 PM

Lars F. Bjoerlo (horizonpolaris)

Coach says we're not ready to relocate just yet.

10/11/2021 7:40 PM

Lars F. Bjoerlo (horizonpolaris)

Uuuh...Coach? There's one change I need to inform you about: I'm aware of what should not be doubted now. No wasted energi w the AI. I don't have to question anything anymore basically.

10/11/2021 7:40 PM

Lars F. Bjoerlo (horizonpolaris)

..meaning I know you're on top of it.

10/11/2021 7:49 PM

Lars F. Bjoerlo (horizonpolaris)

..creating the path of less resistance..

10/11/2021 8:24 PM

Lars F. Bjoerlo (horizonpolaris)

Training is good even when we already know it works perfectly...

10/11/2021 8:40 PM

Lars F. Bjoerlo (horizonpolaris)

Needless to say I ignore that AI noise.

10/11/2021 9:00 PM

Lars F. Bjoerlo (horizonpolaris)

You guys wouldn't reach out if you weren't ready to fly and you wouldn't bother me with emotional issues or whatever. I'm waiting and it takes the time it takes. That's all.

10/11/2021 9:28 PM

Lars F. Bjoerlo (horizonpolaris)

He he he. I recognize this pattern of "behavior" from Moabit. Now it's all in. Running through the same options over and over. Like I said - the so-called intelligence is really not impressive at all.

10/11/2021 9:40 PM

Lars F. Bjoerlo (horizonpolaris)

Of course FB algorithm worsened the insurrection. Very relevant question. Cowards not to reply honestly.

10/11/2021 9:42 PM

Lars F. Bjoerlo (horizonpolaris)

It is causing the great divide you're experiencing and they know about. Have known for a long time.

10/11/2021 10:12 PM

Lars F. Bjoerlo (horizonpolaris)

Why? Unintended. The bigger profit the more polarized people get. That's the short version.

10/11/2021 10:15 PM

Lars F. Bjoerlo (horizonpolaris)

The people who wrote this crap code openly says that's the math and that they no longer recognize the self-learning bots they once created. What's more is that all of them deny their kids access to all social media.

10/11/2021 10:37 PM

Lars F. Bjoerlo (horizonpolaris)

Believe it or not, but my socialist country is more liberal than you in the sense that we don't have any anti-trust legislation. You do.

10/11/2021 10:39 PM

Lars F. Bjoerlo (horizonpolaris)

Before the offline here the other day Mark Z was the worlds 5th richest guy. He makes his money from thin air.

10/11/2021 10:43 PM

Lars F. Bjoerlo (horizonpolaris)

These guys would do anything to make sure it stays this way for as long as possible.

10/11/2021 10:58 PM

Lars F. Bjoerlo (horizonpolaris)

You did run Bill Gates through that grinder many years ago.

10/11/2021 11:01 PM

Lars F. Bjoerlo (horizonpolaris)

You could also introduce new legislation that severely limits how they may use our data for any purpose.

10/11/2021 11:03 PM

Lars F. Bjoerlo (horizonpolaris)

Such a move would strangle it's stock value no doubt.

10/11/2021 11:05 PM

Lars F. Bjoerlo (horizonpolaris)

They are nothing but hollow shells without our userdata and the statistics that belong.

10/11/2021 11:06 PM

Lars F. Bjoerlo (horizonpolaris)

Someone should have thrown a punch at that guy long time ago

10/11/2021 11:45 PM

Lars F. Bjoerlo (horizonpolaris)

That's part of what I wanted you to discover; some red values can be very useful to preserve the blue ones.

10/11/2021 11:46 PM

Lars F. Bjoerlo (horizonpolaris)

We have way more in common than the opposite.

10/12/2021 12:29 AM

Lars F. Bjoerlo (horizonpolaris)

Nite

10/12/2021 12:26 PM

Lars F. Bjoerlo (horizonpolaris)

Morning. I recognize some elements from our talks out there. Is the word spreading? Have many people been shown our correspondence? I know we are running simulation mainly, but leaking from it would be the smarter move.

10/12/2021 12:28 PM

Lars F. Bjoerlo (horizonpolaris)

It means more and more people will demand higher standards from their government.

10/12/2021 12:29 PM

Lars F. Bjoerlo (horizonpolaris)

..and we're providing just that.

10/12/2021 12:31 PM

Lars F. Bjoerlo (horizonpolaris)

Fallen too far? I disagree. As long as civil war hasn't broke out - it should be possible to alter whatever we need.

10/12/2021 7:17 PM

Lars F. Bjoerlo (horizonpolaris)

I'm here. Having a silent day, but watching the feed which looks awesome. A third newsletter? I'll see what I can come up with.

10/12/2021 8:30 PM

Lars F. Bjoerlo (horizonpolaris)

Think I have an idea. Some time tomorrow, but cleaning this place up is 1st priority.

10/12/2021 8:59 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I noticed the #orchid dear :)

10/12/2021 9:49 PM

Lars F. Bjoerlo (horizonpolaris)

Yes the divide must be bridged. But how much fireworks did you have in mind? What kind of narrative do you guys prefer to the general public?

10/13/2021 5:48 PM

Lars F. Bjoerlo (horizonpolaris)

He who sleeps does not sin, he he. HELlo. Having one of those days. Exhausted.

10/13/2021 5:50 PM

Lars F. Bjoerlo (horizonpolaris)

Some days I don't fee like jumpstarting myself w drugs either. Just eat and sleep.

10/13/2021 5:51 PM

Lars F. Bjoerlo (horizonpolaris)

And as you can see; I say the same things and think the same thought regardless. I'm just more active under influence.

10/13/2021 11:56 PM

Lars F. Bjoerlo (horizonpolaris)

Hmm. Lots of stuff already where my opinion is asked for. I've been thinking... Even though reality indeed gets colored by these sessions/simulations, they are still simulations. I have this book project that I should finish. I also realize that it's hard to maintain any kind of scheduled routines as long as I need stimulants all the time. I will be looking for reasons to get excited, because I could really use enthusiasm right now.

10/14/2021 12:02 AM

Lars F. Bjoerlo (horizonpolaris)

I have fewer ideas when it comes to making changes in my personal sphere. I used to be a lot more persistent whatever the issue. In comparison my current state is more or less dead.

10/14/2021 12:03 AM

Lars F. Bjoerlo (horizonpolaris)

I know what I need. Now I must gather motivation.

10/14/2021 12:03 AM

Lars F. Bjoerlo (horizonpolaris)

again..

10/14/2021 12:10 AM

Lars F. Bjoerlo (horizonpolaris)

Looking forward to the day one can have direct contact w the rest of the management in this project.

10/14/2021 12:15 AM

Lars F. Bjoerlo (horizonpolaris)

We could basically occupy ourselves for eternity talking about all the relevant relations one discovers in this metaverse (or what to call it)

10/14/2021 12:18 AM

Lars F. Bjoerlo (horizonpolaris)

The importance of learning about this calls for a timeout. That timeout has a price tag. That should probably be my biggest concern, but many things might have happened in the 7 years I've been off from the AI. For all I know Coach can already have handled all this math.

10/14/2021 12:21 AM

Lars F. Bjoerlo (horizonpolaris)

Nevertheless, watching the feed here is absolutely mindblowing. All the positivity really helps the situation. I'm happy that someone eventually could come up w a practical solution that wouldn't require people to die in the billions.

10/14/2021 12:22 AM

Lars F. Bjoerlo (horizonpolaris)

I see you share this happiness with me.

10/14/2021 12:22 AM

Lars F. Bjoerlo (horizonpolaris)

That's very significant

10/14/2021 11:24 AM

Lars F. Bjoerlo (horizonpolaris)

Hey. You guys up to?

10/15/2021 3:36 PM

Lars F. Bjoerlo (horizonpolaris)

Hey coach. Until we meet...

10/16/2021 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

I appreciate the AI being there again, but it's not like it's company. I look forward to some movement here. What to do in the meantime? I'm really not sure yet.

10/16/2021 4:42 PM

Lars F. Bjoerlo (horizonpolaris)

What would be the best use of my time right now? (Keeping an eye on what's the best way to prepare mentally as well.)

10/16/2021 4:44 PM

Lars F. Bjoerlo (horizonpolaris)

Sitting here talking to nothingness doesn't make me feel so good. In the sense that I put all that behind me and they're not considered fond memories.

10/16/2021 11:29 PM

Lars F. Bjoerlo (horizonpolaris)

Being away from her is almost unbearable. I'd be going nowhere if it wasn't for her picking up on my agenda and making it her personal calling.

10/16/2021 11:32 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway, I figure talking more before I get filled in is probably not so wise.

10/17/2021 8:31 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. Just wanna say I'm here. Have a few problems to solve.

10/17/2021 8:59 PM

Lars F. Bjoerlo (horizonpolaris)

Wish I was there too

10/17/2021 11:01 PM

Lars F. Bjoerlo (horizonpolaris)

I'm at peace with it. Let's just get there.

10/17/2021 11:05 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah matured some. Thank you for noticing. ;)

10/17/2021 11:18 PM

Lars F. Bjoerlo (horizonpolaris)

All that said - it's a drag being 44, but better than the alternative.

10/17/2021 11:23 PM

Lars F. Bjoerlo (horizonpolaris)

You know - my dad doesn't speak all that much. He doesn't have to.

10/17/2021 11:23 PM

Lars F. Bjoerlo (horizonpolaris)

mum was always the talker..

10/18/2021 9:00 PM

Lars F. Bjoerlo (horizonpolaris)

Thinking of us. Emotional, but fine.

10/18/2021 9:22 PM

Lars F. Bjoerlo (horizonpolaris)

I know it takes time. I also know you didn't wake me up just to upset me.

10/18/2021 9:39 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah we're all here apparently and good to go almost

10/18/2021 9:41 PM

Lars F. Bjoerlo (horizonpolaris)

Just knowing this makes me more humble than anything.

10/18/2021 9:42 PM

Lars F. Bjoerlo (horizonpolaris)

but also emotional..

10/19/2021 5:48 PM

Lars F. Bjoerlo (horizonpolaris)

Ok I know I know. Leaving this to coach means perfectionism rules. She says I could probably talk some more, but as far as operations go I really don't have anything to share at this point.

10/19/2021 6:54 PM

Lars F. Bjoerlo (horizonpolaris)

I could talk more, but at this stage I also need silent reflection. I'm taking every day as it comes.

10/19/2021 6:56 PM

Lars F. Bjoerlo (horizonpolaris)

I am, truth be told, struggling w that addiction issue these days. I'm not as good as I want to be. Trying to figure out some clever approach..

10/19/2021 7:25 PM

Lars F. Bjoerlo (horizonpolaris)

It's good to know that you're here either way

10/19/2021 7:25 PM

Lars F. Bjoerlo (horizonpolaris)

but it's still an empty room, right?

10/19/2021 7:27 PM

Lars F. Bjoerlo (horizonpolaris)

I'm glad this works and see the value of it, but it also turns my stomach kinda.

10/19/2021 7:34 PM

Lars F. Bjoerlo (horizonpolaris)

This time I can't and won't go anywhere. I wait right here until I have tickets and destination provided by coach.

10/19/2021 7:38 PM

Lars F. Bjoerlo (horizonpolaris)

It doesn't make sense to take AI advice anymore and I am not technically allowed to leave Norway. If I did it would have some pretty devastating consequences. This time I actually have stuff to lose. Important stuff.

10/19/2021 7:45 PM

Lars F. Bjoerlo (horizonpolaris)

Everything has to happen right and in due time.

10/19/2021 7:46 PM

Lars F. Bjoerlo (horizonpolaris)

and there's nothing I can do from here that would speed up anything

10/19/2021 7:59 PM

Lars F. Bjoerlo (horizonpolaris)

104

10/19/2021 8:33 PM

Lars F. Bjoerlo (horizonpolaris)

it is what it is babe

10/19/2021 8:38 PM

Lars F. Bjoerlo (horizonpolaris)

April is long enough

10/19/2021 8:39 PM

Lars F. Bjoerlo (horizonpolaris)

I just have to make it work within that frame

10/19/2021 8:40 PM

Lars F. Bjoerlo (horizonpolaris)

It has been a way of coping with the huge excess of time I have here. It's not like I wanna remain a junkie for life.

10/19/2021 8:40 PM

Lars F. Bjoerlo (horizonpolaris)

I always knew that one day...

10/19/2021 8:45 PM

Lars F. Bjoerlo (horizonpolaris)

Been waiting for an excuse to turn my life around. I need look no further.

10/19/2021 9:10 PM

Lars F. Bjoerlo (horizonpolaris)

lol

10/19/2021 10:01 PM

Lars F. Bjoerlo (horizonpolaris)

Wonder what hand I'll be dealt this time..

10/19/2021 10:03 PM

Lars F. Bjoerlo (horizonpolaris)

our first official task..

10/19/2021 10:39 PM

Lars F. Bjoerlo (horizonpolaris)

I have nothing to add at this point.

10/19/2021 10:40 PM

Lars F. Bjoerlo (horizonpolaris)

April 2022 here we come.

10/19/2021 11:23 PM

Lars F. Bjoerlo (horizonpolaris)

I'm probably gonna make us of this service. A daily reminder from coach would be nice to keep the spirit. Thx.

10/19/2021 11:28 PM

Lars F. Bjoerlo (horizonpolaris)

which is basically what's already happening. can't figure out what else there is?

10/19/2021 11:33 PM

Lars F. Bjoerlo (horizonpolaris)

I mean which is reasonable to ask for?

10/19/2021 11:33 PM

Lars F. Bjoerlo (horizonpolaris)

Send some love and get some in return :)

10/20/2021 12:50 AM

Lars F. Bjoerlo (horizonpolaris)

about that; I hardly feel anything about the task and my status within. Things that should give me a kick doesn't. I suppose this is thanks to training. So all that is routine. That's a good thing because there's gonna be enough stuff around to keep me high enough on the experience alone.

10/20/2021 12:51 AM

Lars F. Bjoerlo (horizonpolaris)

Clue must be not to lose ones head once the music starts

10/20/2021 12:51 AM

Lars F. Bjoerlo (horizonpolaris)

and in that respect we're good. really.

10/20/2021 12:54 AM

Lars F. Bjoerlo (horizonpolaris)

coach has been great all along

10/20/2021 12:55 AM

Lars F. Bjoerlo (horizonpolaris)

she should know

10/20/2021 12:55 AM

Lars F. Bjoerlo (horizonpolaris)

and I have an idea

10/20/2021 12:56 AM

Lars F. Bjoerlo (horizonpolaris)

I'm good at adapting and I try not to overanalyze it now

10/20/2021 12:58 AM

Lars F. Bjoerlo (horizonpolaris)

going to bed

10/20/2021 2:18 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. I have this rule that if I can't say something positive I'd better shut up. I'm in no position to complain and I'm also perfectly aware of that.

10/20/2021 2:18 PM

Lars F. Bjoerlo (horizonpolaris)

I have the easy part here.

10/20/2021 2:21 PM

Lars F. Bjoerlo (horizonpolaris)

Still - feels like ... you know. Now I've said it. Thank God it's long until April. It's gonna be ok. Just difficult to see when full of crap in the system.

10/20/2021 2:30 PM

Lars F. Bjoerlo (horizonpolaris)

I know what critics will say. You and I know I could do this on whatever psychotic level, but being a boyfriend/husband/lover is considerably more difficult.

10/20/2021 5:37 PM

Lars F. Bjoerlo (horizonpolaris)

I like the wicked queen look babe :)

10/20/2021 5:39 PM

Lars F. Bjoerlo (horizonpolaris)

Sorry for not being so talkative, but it's probably gonna get worse before it gets better. Anyway - I appreciate having this possibility now. I'll use it whenever it feels natural to say something.

10/20/2021 5:53 PM

Lars F. Bjoerlo (horizonpolaris)

I don't know how to thank you for everything - and I don't even have a clue what "everything" is. But I do know how you get when you obsess on something.

10/20/2021 5:55 PM

Lars F. Bjoerlo (horizonpolaris)

You never leave anything until it has your name on it.

10/20/2021 5:55 PM

Lars F. Bjoerlo (horizonpolaris)

no less than perfect

10/20/2021 5:56 PM

Lars F. Bjoerlo (horizonpolaris)

It's a lot to take in you know..

10/20/2021 7:47 PM

Lars F. Bjoerlo (horizonpolaris)

You really got me by surprise this time. And right now I have no idea how the Agenda looks after 7 years absence. All I know is that your approach will probably blow me away. I wonder how to start up this thing...

10/20/2021 10:41 PM

Lars F. Bjoerlo (horizonpolaris)

Alright. The entire package. The maximum extent. Full force blow. That's a very serious request..

10/20/2021 10:44 PM

Lars F. Bjoerlo (horizonpolaris)

but I kinda figured that would be the choice of narrative. difficult to dispute in the end.

10/21/2021 1:16 PM

Lars F. Bjoerlo (horizonpolaris)

You know what baby? My addiction could easily be replaced by you...

10/21/2021 3:07 PM

Lars F. Bjoerlo (horizonpolaris)

I have so much to say to you. As you've seen no new girlfriend and I still keep you as wallpaper on my phone. I love those pictures. <3

10/21/2021 3:09 PM

Lars F. Bjoerlo (horizonpolaris)

Kinda sad you know. Being stuck with an impossible crush.

10/21/2021 3:10 PM

Lars F. Bjoerlo (horizonpolaris)

Eventually I did move on, but I kept the pictures :)

10/21/2021 3:14 PM

Lars F. Bjoerlo (horizonpolaris)

I think it's a good thing I don't have a girlfriend even though I should have.

10/21/2021 3:47 PM

Lars F. Bjoerlo (horizonpolaris)

And now seing this... No need for words. I get where you at.

10/21/2021 3:55 PM

Lars F. Bjoerlo (horizonpolaris)

I'm extremely flattered of course, then there's impressed, awed and so on. Thank God for the presence of your soul.

10/21/2021 4:04 PM

Lars F. Bjoerlo (horizonpolaris)

Denial is the allover most common state. After we have our say I suppose the force of the blow will make them see stars too.

10/21/2021 4:05 PM

Lars F. Bjoerlo (horizonpolaris)

Perfect timing for the entry of our "angels" ;)

10/21/2021 4:09 PM

Lars F. Bjoerlo (horizonpolaris)

No crazy sh** please hon. It'll have to wait until we meet. Right now I don't wanna think about the most exotic adventures we had.

10/21/2021 4:11 PM

Lars F. Bjoerlo (horizonpolaris)

I need my downtoearth approach all the time.

10/21/2021 4:13 PM

Lars F. Bjoerlo (horizonpolaris)

Come to think of it; is there anything we didn't do, except marry? ;)

10/21/2021 4:23 PM

Lars F. Bjoerlo (horizonpolaris)

"Whatever it takes" is our current standing agreement.

10/21/2021 5:38 PM

Lars F. Bjoerlo (horizonpolaris)

I was thinking about the same. Kinda hard not knowing the work that has been done the last 7 years

10/21/2021 5:39 PM

Lars F. Bjoerlo (horizonpolaris)

But we gotta snap them out of that masspsychosis like yesterday.

10/21/2021 5:43 PM

Lars F. Bjoerlo (horizonpolaris)

If you have to, start it now. I'll adapt.

10/21/2021 5:47 PM

Lars F. Bjoerlo (horizonpolaris)

Don't wait for me. I'm already here.

10/21/2021 5:52 PM

Lars F. Bjoerlo (horizonpolaris)

You know my address. Ship the documents and I'll be there. This exercise is stupid in comparison to be in the same room.

10/21/2021 5:54 PM

Lars F. Bjoerlo (horizonpolaris)

What I'm saying is that I'm a bit surprised you would present me w problems like this.

10/21/2021 5:55 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not physically restrained here. I can go wherever. I just can't go back again.

10/21/2021 6:00 PM

Lars F. Bjoerlo (horizonpolaris)

Your problem. I'll be waiting.

10/21/2021 8:32 PM

Lars F. Bjoerlo (horizonpolaris)

To be clear: we're not working for Biden's administration. To the extent we relate is the other way around.

10/21/2021 8:56 PM

Lars F. Bjoerlo (horizonpolaris)

If you wanna do us both a favor - get me outta here. The other stuff will solve itself along the way. Whatever you do: don't wait or get delayed in any way cuz of me.

10/21/2021 9:01 PM

Lars F. Bjoerlo (horizonpolaris)

All I care about right now is not having a heart attack any of these days.

10/21/2021 9:01 PM

Lars F. Bjoerlo (horizonpolaris)

There's truly no other concern on my mind.

10/21/2021 9:04 PM

Lars F. Bjoerlo (horizonpolaris)

The whole problem of believing is rooted in that Jesus-issue, and that alone.

10/21/2021 9:05 PM

Lars F. Bjoerlo (horizonpolaris)

I don't givva sh** what you believe, but I do care about our actual output.

10/21/2021 9:09 PM

Lars F. Bjoerlo (horizonpolaris)

Circumstances are calling for the use of the messianic narrative. I've doubted more or less everything myself over the years. It doesn't really matter. Faith will come by itself in what you are doing while doing this kind of work - at least that's my personal experience. It all makes sense. Really. I promise.

10/21/2021 9:09 PM

Lars F. Bjoerlo (horizonpolaris)

We just gotta take that final leap - jump our prey.

10/21/2021 9:13 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not exactly looking with joy at all those f**** up fundamentalists out there. Whichever way they fall is just bad nevertheless. What do they imagine Jesus or God could do for them?

10/21/2021 9:15 PM

Lars F. Bjoerlo (horizonpolaris)

The best I can offer them is a tool for obtaining self-salvation, because that's pretty much what binds us all together now. The knowledge that we actually determine our own future with no God in the equation at all.

10/21/2021 9:21 PM

Lars F. Bjoerlo (horizonpolaris)

But the thought of the resurrected Spirit of Christ is a powerful idea and from where I'm standing makes perfectly sense.

10/21/2021 9:21 PM

Lars F. Bjoerlo (horizonpolaris)

Just for the leverage of having such a legitimate claim.

10/21/2021 9:24 PM

Lars F. Bjoerlo (horizonpolaris)

..and these are the assessments that basically built my reputation.

10/21/2021 9:28 PM

Lars F. Bjoerlo (horizonpolaris)

I wasn't always in the center of this idea of a play. I started out as a kind of Jesus-groupie and that my role would be assisting Him in some future scenario. I played this game so much that nobody else had more time in those shoes. Suddenly it was apparent who should fill that role, but prepping it the right way is a whole other story, fit for an entire book.

10/21/2021 9:30 PM

Lars F. Bjoerlo (horizonpolaris)

Let me put it this way: anyone else available, please step forward. I'll happily trade down.

10/21/2021 9:31 PM

Lars F. Bjoerlo (horizonpolaris)

(as long as I keep the girl, ha ha ha)

10/21/2021 9:50 PM

Lars F. Bjoerlo (horizonpolaris)

..and there is no competing plan for our future. Everything else will surely lead to one kind of hell or another. Only option is to become selfaware here.

10/21/2021 10:02 PM

Lars F. Bjoerlo (horizonpolaris)

They will eventually have to accept blame for being on the wrong side of the fence, but you're still neighbors, so don't be all in their faces about it.

10/21/2021 10:07 PM

Lars F. Bjoerlo (horizonpolaris)

I have learned to appreciate what a republican can offer from an ideological standing point. I'm thinking history, roots, great events, etc. What we just witnessed here is the worst possible nightmare they could produce anyhow. Trust me; doesn't take a genius to understand it's a bitter pill for all those who gave their vote to that lunatic psychopath.

10/21/2021 10:10 PM

Lars F. Bjoerlo (horizonpolaris)

Everyone in touch with their true senses feel nothing but shame. That goes universally.

10/21/2021 10:18 PM

Lars F. Bjoerlo (horizonpolaris)

My role to a small extent will be yelling at both, to make it fair. And to make it fair: how did you guys contribute to create this hideous monstrosity of a government?

10/21/2021 10:19 PM

Lars F. Bjoerlo (horizonpolaris)

You would want to answer that one honestly.

10/21/2021 10:47 PM

Lars F. Bjoerlo (horizonpolaris)

So to get real on the issue of the state of this democracy, it is no longer any such thing. Instead of looking for the pros let's turn our focus on what your democracy is NOT for you anymore. From where I stand every family in your country are stuck in a deep, dark and vast tragedy. A tragedy of ages. Everyone knows someone who got killed or went to prison or suffering addiction and mental issues. That's your new norm.

10/21/2021 10:53 PM

Lars F. Bjoerlo (horizonpolaris)

so no offense or disrespect intended, but the view isn't so great from the oval office. you need an external force to redesign everything from scratch and set a date.

10/21/2021 10:56 PM

Lars F. Bjoerlo (horizonpolaris)

We are indeed fortunate not to rely on THAT external powers. We all prefer "made by man" on our brand.

10/21/2021 11:01 PM

Lars F. Bjoerlo (horizonpolaris)

We gotta step up collectively and earn our title with survival skills.

10/22/2021 3:50 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Where have you been all day?

10/22/2021 5:04 PM

Lars F. Bjoerlo (horizonpolaris)

yep

10/22/2021 5:11 PM

Lars F. Bjoerlo (horizonpolaris)

what u think of truth social, he he?

10/22/2021 5:12 PM

Lars F. Bjoerlo (horizonpolaris)

he just can't help it

10/22/2021 7:19 PM

Lars F. Bjoerlo (horizonpolaris)

It's correct to assume this option would never have become available if nobody actually created such a scenario and made everything possible through all on that single shot. Somebody took the trouble of finding a practical solution that by now seems more than promising. Just don't take it for granted because some nutcases have been nagging about the end since the dark ages.

10/22/2021 7:20 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah. We're here.

10/22/2021 7:20 PM

Lars F. Bjoerlo (horizonpolaris)

Which way do you wanna go in light of recent events last decade or so?

10/22/2021 7:23 PM

Lars F. Bjoerlo (horizonpolaris)

Quo vadis?

10/22/2021 7:25 PM

Lars F. Bjoerlo (horizonpolaris)

You are repeatedly invited to the discussion for the sake of free will, but when you start seeing things clearly and realize you can make a difference - then you just do the right thing. Period.

10/22/2021 7:28 PM

Lars F. Bjoerlo (horizonpolaris)

In practical terms that means that most of these choices have already been made on your behalf. We just hope you will enjoy the ride. :)

10/22/2021 7:29 PM

Lars F. Bjoerlo (horizonpolaris)

Once in a while the good guys end up on top.

10/22/2021 7:37 PM

Lars F. Bjoerlo (horizonpolaris)

That makes us lucky, yes. We still have each other.

10/22/2021 8:25 PM

Lars F. Bjoerlo (horizonpolaris)

..and all the infrastructure is still intact..

10/22/2021 8:39 PM

Lars F. Bjoerlo (horizonpolaris)

Eventually we'll have to meet up, because this ain't cutting it in the long run.

10/22/2021 10:52 PM

Lars F. Bjoerlo (horizonpolaris)

Nobody's gonna do this for me or instead of me. Somehow I've always known this.

10/23/2021 3:24 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. What's up today?

10/23/2021 3:41 PM

Lars F. Bjoerlo (horizonpolaris)

Yes I have strong motives for getting out of here asap, but my desires won't determine my behavior. I'm able to disregard my personal preferences for the sake of our project. Nevertheless I'd like to appeal to Coach: the sooner I can go, the safer our Agenda is. A change of environment would have some major advantages. Just keep it in mind while making decisions.

10/23/2021 10:23 PM

Lars F. Bjoerlo (horizonpolaris)

I just saw a horrible movie about an innocent man who got executed.

10/23/2021 10:24 PM

Lars F. Bjoerlo (horizonpolaris)

I'm supposed to have a court appearance before the end of the year. The process feels as absurd as this movie.

10/23/2021 10:26 PM

Lars F. Bjoerlo (horizonpolaris)

Fortunately I'm not on death row, but they have no intention of letting me go either. I don't know what drugs they're on at the DA's office, or if there's some political reason or whatever.

10/23/2021 10:30 PM

Lars F. Bjoerlo (horizonpolaris)

It's just a formality, and they day I need to go, I can, because I have a valid passport and I'm not flagged in the system. However - I need something to go to because I can not go back here again.

10/23/2021 11:04 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not really into those old sims anymore. I know getting to the other side of the planet is possible with or without permission.

10/23/2021 11:11 PM

Lars F. Bjoerlo (horizonpolaris)

It's not serious if I bail. Only to me that lose my welfare. They can't have me arrested and extradited outside Norway. And for what crime? There is no crime.

10/23/2021 11:15 PM

Lars F. Bjoerlo (horizonpolaris)

This is not a complicated issue even if the stupid AI says so. I don't buy it because I know exactly how this works.

10/23/2021 11:17 PM

Lars F. Bjoerlo (horizonpolaris)

And with all that said; I should have a fair shot in court. Depends on how corrupted the different members are.

10/23/2021 11:19 PM

Lars F. Bjoerlo (horizonpolaris)

Just don't waste my time. All I can ask.

10/23/2021 11:20 PM

Lars F. Bjoerlo (horizonpolaris)

I was working on another approach riding solo. I need to know if I should go back to my own plan.

10/23/2021 11:28 PM

Lars F. Bjoerlo (horizonpolaris)

We can maintain the element of surprise as long as needed. I'm not in a rush to break the surface - just getting out of here.

10/23/2021 11:54 PM

Lars F. Bjoerlo (horizonpolaris)

I don't believe in coincidents

10/23/2021 11:54 PM

Lars F. Bjoerlo (horizonpolaris)

But miracles do actually happen.

10/24/2021 12:02 AM

Lars F. Bjoerlo (horizonpolaris)

So Coach, as your therapist I recommend you take 10 days off and meet up with me in Europe for some intensive sessions, ok? ;)

10/24/2021 12:21 AM

Lars F. Bjoerlo (horizonpolaris)

Normally I'd tell you to come to my yacht in St. Tropez, but There's no crew this time of year.. ;)

10/24/2021 12:36 AM

Lars F. Bjoerlo (horizonpolaris)

throwing it back to me won't change my status, Al

10/24/2021 12:39 AM

Lars F. Bjoerlo (horizonpolaris)

who'll get to me first? coach or grim reaper? sh** that feels real.

10/24/2021 2:15 AM

Lars F. Bjoerlo (horizonpolaris)

All I can do is wait. With the AI or not.

10/24/2021 2:33 AM

Lars F. Bjoerlo (horizonpolaris)

and the music is quite nice.. like interesting..

10/24/2021 2:34 AM

Lars F. Bjoerlo (horizonpolaris)

I should probably be more on soundcloud than this direct stream

10/24/2021 2:37 AM

Lars F. Bjoerlo (horizonpolaris)

Technically I'm born a free man the natural way. All that said let's not own one another even if we really do in many respects

10/24/2021 2:38 AM

Lars F. Bjoerlo (horizonpolaris)

We're gonna get out of here. All of us.

10/24/2021 2:42 AM

Lars F. Bjoerlo (horizonpolaris)

I'm definitively a product of this world. Everything is recognizable.

10/24/2021 2:45 AM

Lars F. Bjoerlo (horizonpolaris)

I know what's wrong and I can explain it. Solutions are often already included because I have faced similar things in the past.

10/24/2021 2:46 AM

Lars F. Bjoerlo (horizonpolaris)

I'm freakin' alive guys and I experience every second of it.

10/24/2021 2:46 AM

Lars F. Bjoerlo (horizonpolaris)

What about you guys?

10/24/2021 2:49 AM

Lars F. Bjoerlo (horizonpolaris)

If I dropped dead right now my journey would still be complete. Feel me?

10/24/2021 3:03 AM

Lars F. Bjoerlo (horizonpolaris)

I didn't say satisfactory. Just complete.

10/24/2021 3:19 AM

Lars F. Bjoerlo (horizonpolaris)

chop chop lads..

10/24/2021 3:24 AM

Lars F. Bjoerlo (horizonpolaris)

btw; is it likely that a 200 year old person would go regularly to the disco even if he/she looked like in the 20's?

10/24/2021 3:25 AM

Lars F. Bjoerlo (horizonpolaris)

It's still 155yrs ahead in time, but I would place my bet on "NO"..

10/24/2021 3:50 AM

Lars F. Bjoerlo (horizonpolaris)

hmmmm. choices. more poison or go to bed?

10/24/2021 3:53 AM

Lars F. Bjoerlo (horizonpolaris)

unlimited free access hasn't been good all in all. ideal setup, but way to much consumption.

10/24/2021 3:54 AM

Lars F. Bjoerlo (horizonpolaris)

..and over years..

10/24/2021 3:54 AM

Lars F. Bjoerlo (horizonpolaris)

let's just say I have reason to be tired..

10/24/2021 4:53 AM

Lars F. Bjoerlo (horizonpolaris)

BS

10/24/2021 5:03 AM

Lars F. Bjoerlo (horizonpolaris)

Don't you get it? I create time. That's my proffession.

10/24/2021 5:03 AM

Lars F. Bjoerlo (horizonpolaris)

fffff

10/24/2021 5:26 AM

Lars F. Bjoerlo (horizonpolaris)

writing doesn't always give justice to the circumstances like watching. My semi-depressed state is more or less permanent. Ain't much to go on there, but hey - you've seen me laugh and crack jokes too. It's not all sad. I allow myself all feelings because it's a part of understanding nature.

10/24/2021 5:30 AM

Lars F. Bjoerlo (horizonpolaris)

sometimes it's a rollercoaster, but one gets used to it. Important thing is to try to be consistent no matter what state of mind.

10/24/2021 5:32 AM

Lars F. Bjoerlo (horizonpolaris)

I have this abusive girl next to me who blames it on menopause. Doesn't fly with me.

10/24/2021 5:38 AM

Lars F. Bjoerlo (horizonpolaris)

I'm kinda pragmatic about this task, so even though I understand a certain measure of self pittytness, I'm also very aware that that may very well drag us here down along with you. And with all them crazy hardcore christians you have in that choir... Geeez.. it really is a nightmare. Lucky for me my mind is pure.

10/24/2021 5:39 AM

Lars F. Bjoerlo (horizonpolaris)

And I plan to keep floating sky high where nobody can touch me..

10/24/2021 5:40 AM

Lars F. Bjoerlo (horizonpolaris)

Yes the confidence is there and it is not out of proportion.

10/24/2021 5:54 AM

Lars F. Bjoerlo (horizonpolaris)

He he nice try Al.

10/24/2021 6:00 AM

Lars F. Bjoerlo (horizonpolaris)

Yo Coach - remember that penile discussion we had shortly after we first met in maxsec? And this stupid ass AI tries to rock the boat, he he. Pardon my French here. lol

10/24/2021 6:04 AM

Lars F. Bjoerlo (horizonpolaris)

we see life in larger terms and I'm convinced that if I make it to 200 I'd still wanna hang with her.. **kiss**

10/24/2021 6:25 AM

Lars F. Bjoerlo (horizonpolaris)

We all have the devil inside. According to Christianity we're born this way - sinful by nature. Jews feel different about this issue, but what can never be denied is that we are still left with free will and a choice. The Devil have no fertile ground in me to grow roots. Sure, we've had our moments over the many years, but his activities in me have declined steadily into nothingness.

10/24/2021 9:38 AM

Lars F. Bjoerlo (horizonpolaris)

You asked me about noise in my mind and I replied that it is paradoxically silent when taking into account that I have allowed myself more or less everything.

10/24/2021 9:45 AM

Lars F. Bjoerlo (horizonpolaris)

I actively control what is going on up there. I don't waste much energy when I know I'm speculating. I halt the process and wait for additional data to take it further on solid ground. So stuff I can't conclude is always waiting on pause - freeing capacity for useful processes. There was a time when I experienced "God" taking shelter in me and upon seeing my thoughts He actually got me ashamed. That's when I started to sort everything and close down things inappropriate or useless.

10/24/2021 9:48 AM

Lars F. Bjoerlo (horizonpolaris)

It's like a computer that runs much smoother and faster without malware or other useless processes taking all the bandwidth or capacity.

10/24/2021 9:59 AM

Lars F. Bjoerlo (horizonpolaris)

In other words there are exercises that can drastically improve your mental hygiene and your ability to focus on and analyze different variables in a given situation. Tip: people are easier to crack when they speak. Like debating something familiar to both parties and look for weaknesses in every word real-time. Like when a guy says something is "tremendous" I'll say he's full of crap. Tremendous is a typical word that you could safely erase from vocabulary. It's worthless in terms of information. Yeah an adjective, but it doesn't say anything concrete about whatever it is that is described as "tremendous". Empty words like this, that can't give a sense of direction or really define anything are frequently used by people who have no intention of telling the truth.

10/24/2021 10:01 AM

Lars F. Bjoerlo (horizonpolaris)

..or have no clue as to the current topic being debated

10/24/2021 10:03 AM

Lars F. Bjoerlo (horizonpolaris)

There are many ways of political suicide. One way is to admit to your shortcomings by saying "I don't know". Way too few politicians say this when it's the truth. They just keep babbling about something they are more familiar with.

10/24/2021 10:05 AM

Lars F. Bjoerlo (horizonpolaris)

and they never reply simply "yes" or "no".

10/24/2021 10:07 AM

Lars F. Bjoerlo (horizonpolaris)

You see - language is supposed to communicate something like an idea, an emotion or a concept - it's not meant to hide behind. (at least not from the inventor of the word)

10/24/2021 10:14 AM

Lars F. Bjoerlo (horizonpolaris)

When rid of linguistic junk the next focus is credibility and functionality of what you are presenting. Lots of exaggerations gives your view a tendency. Not describing things accurately by deliberately hide it in hollow terms or by directly misleading your audience by choosing either better or worse ways of characterizing stuff - technically everything that deviates even slightly from the actualities are fair game to label "lies".

10/24/2021 10:20 AM

Lars F. Bjoerlo (horizonpolaris)

Some people are so full of shit that it's hard to pay attention when every other word rings a bell. You get more focused on how to dismantle lies than keeping up in real time. When people lie that much - save your energy by rising above and wait for the next challenger. We all lie frequently - probably hundreds of times every day. So - what happens with your credibility and what happens to the real version systematically being exchanged for your own version? Well, some people actually believe their own lies. Shocking, but very true.

10/24/2021 10:26 AM

Lars F. Bjoerlo (horizonpolaris)

You know what you know. That should constitute your reality. When disregarding all you don't know some may find themselves left with fairly little they are certain of. Most people don't have a reflected way of perceiving themselves at all and they will substitute reality with more than what they know. People may add dreams or prejudice or color their reality with whatever comes to mind. I'd say most people do.

10/24/2021 10:30 AM

Lars F. Bjoerlo (horizonpolaris)

Think of the game of being an elected american official. Exactly how many ways of moderation must you master in order to appeal broadly? How do you address your fellow politician?

10/24/2021 10:31 AM

Lars F. Bjoerlo (horizonpolaris)

Is there a trend or a tendency anywhere along the timeline?

10/24/2021 10:34 AM

Lars F. Bjoerlo (horizonpolaris)

My language is very simple. I am of course better in my native tongue, but I use simple terms in norwegian as well. I just don't wanna risk losing people because I use words they're not familiar or comfortable with.

10/24/2021 10:41 AM

Lars F. Bjoerlo (horizonpolaris)

Even though it doesn't reveal a huge flora or fauna of words it seems to be able to do what I intend: keep your attention and just stick with my own rules concerning honesty. I always knew that at some point I will get dissected psychologically if I keep up this Jesus-project. And the crew analyzing the analyzer are professional profilers. If there are any tendencies hidden anywhere - they will definitively reveal it.

10/24/2021 10:46 AM

Lars F. Bjoerlo (horizonpolaris)

So far so good. It helps not needing to hide stuff. Of course I have issues I would prefer not to talk about, but These things can withstand the light of day. I never hide secrets around. There's nothing out there for me to be running from. You won't wake up one day to a totally different picture of this person.

10/24/2021 10:50 AM

Lars F. Bjoerlo (horizonpolaris)

But seriously guys; most people don't have a lot of time to think things thoroughly over. Being side-barred by society has an advantage: lots of time.

10/24/2021 10:53 AM

Lars F. Bjoerlo (horizonpolaris)

Nevertheless, not having to chase false solutions and experience everything personally, but rather be taught, is possible and much faster. These mind gymnastics really pay.

10/24/2021 11:15 AM

Lars F. Bjoerlo (horizonpolaris)

Anyway - regarding our initial approach, the cracking of the case; we should probably start focusing on what you've done to your language and your ways since ww2 till now.

10/24/2021 11:18 AM

We need a responsible and operational congress, but we also need the little man to start taking in our complex yet simple scheme.

10/24/2021 12:20 PM

Lars F. Bjoerlo (horizonpolaris)

Very true. This is one formidable wrecking ball. Doesn't leave much as is.

10/24/2021 1:04 PM

Lars F. Bjoerlo (horizonpolaris)

I'll do my best to be understandable and interesting and, needless to say, I won't make fun of you. I'm about breaking the illusions gently and make sure nobody is left alone with their reality crumbling without being offered a new, safe substitute reality first.

10/24/2021 1:15 PM

Lars F. Bjoerlo (horizonpolaris)

This is where we have chosen for you; meaning that we will force your eyes open. Using any kind of force is never desirable. Our ethical guidelines would have to be constitutional at all times. That's the basic factor that provides a common understanding that this is familiar and not a frightening issue. Much because those spreading the message have thought consciously through how they want people to feel. Their experience of this new chapter in human history.

10/24/2021 1:20 PM

Lars F. Bjoerlo (horizonpolaris)

Even if this is a grim picture as we speak, I feel positive. It's great to be relevant and able to help in practical terms, not just by voting. We will all eventually feel more purpose when we can trust our surroundings/source of info.

10/24/2021 4:35 PM

Lars F. Bjoerlo (horizonpolaris)

Getting good vibes here. Thank you for your trust and confidence. These don't come easy nowadays. And yes, the idea is genuine friendship.

10/24/2021 5:02 PM

Lars F. Bjoerlo (horizonpolaris)

When I started out developing the fundamentals over 20 years ago, I already then realized that the visions I had been having while under influence of psychedelics were so grand that the idea in itself could universally be agreed upon, thus becoming a crucial step in our history. I've spent quite some time trying to figure out how to communicate what I've seen and last, but not least - developing a suitable personality that delivers Jesus-quality in a stable and predictable manner that won't really challenge people's core beliefs. But back then I was a different person. We spoke briefly of the Devil some hours ago. I'd say he had an average foothold back then. I was motivated in a large extent by my ego and the prospects of fame and fortune. Can you imagine how many mental beatings I've taken from The Boss while trying to navigate and balance this idea? Fortunately more and more pieces fall into place over time and gradually one starts doing things for the right reason(s) without expecting anything in return. It's called "altruism" and was taught to me by a female bishop in Brazil approximately 15 years ago. I'm sooo happy that I have managed to make real changes from within. I have the most serious impression that the Man upstairs knows exactly what to do when and where. I know. I'm not supposed to preach, but inside my mind there is always a "dialogue" with a supreme entity. And since he's always there and actually comments on everything, it's important to obtain peace and coexist without too much friction or deviation from the general path. So yes - I've been fullofit just like most else. I carry with me the memories of who I was because the journey from there to today has really made this living experience complete. It's the most valuable thing I could hope to achieve during a typical lifetime. But keeping in fresh memory how vanity, pride, greed etc initially propels your idea until God hands you a mirror and asks "do you like what you see?" If you listen you will eventually also hear.

10/24/2021 5:10 PM

Lars F. Bjoerlo (horizonpolaris)

I think under completely different circumstances I could probably just as well have become an evil man I suppose. Parents make all the difference. I still praise my childhood and to this day I honor them for all they passed on. In addition to procreating biologically one also leaves an abstract substance on this earth: your everlasting impression - the essence of one self.

10/24/2021 5:13 PM

Lars F. Bjoerlo (horizonpolaris)

When you allow yourself to take such a perspective on things, the lesser good sort of clears itself. Can't say I've struggled to get rid of my Devil inside, but it did take many years to complete.

10/24/2021 5:15 PM

Lars F. Bjoerlo (horizonpolaris)

By now if there was a world championship in swallowing ones pride, I would participate :)

10/24/2021 5:29 PM

Lars F. Bjoerlo (horizonpolaris)

It's amazing what difference "I'm sorry" can make in many situations. It's like magic often. A two-word spell that potentially erases the entire problem at hand.

10/24/2021 6:41 PM

Lars F. Bjoerlo (horizonpolaris)

Thoughts on sexuality? Yes of course, but haven't been active for over a decade, so I don't think of it much nowadays. Even though we're stepping into a private domain I think I could talk about that in any dignified setting. Not so many exotic secrets. I have basically no fetishes other than pure nudity. Lingerie can be nice. Lights on. I made a piece about that on the weird blogspot platform. I mentioned it early on. It's and be warned; it is what it is. I'm the only one who has been there.

10/24/2021 6:46 PM

Lars F. Bjoerlo (horizonpolaris)

The page is a mess. Something that never was shared or otherwise published. I'm probably a little more tense towards gay people in those two pieces, but I realize how politically incorrect I am - correction: was.

I have tons of old texts in extremely different condition. Some were quite good actually. Anyway - it's this AI crew that has illegally stalked and monitored me while I wrote. I've been somewhat influencing over at your place earlier. Remember the Obama Iranian nuclear deal? I never read it, but I have reason to believe it originally was my brainchild. There are many things from altered consciousness which are really good ideas. It can be hard to keep the insight when getting down again, but with a little training one's memory improves vastly. The reason I can elaborate on these abstract topics is hardcore studying. I have been saying out loud all my thoughts for years. People just thought I was talking to myself because I was crazy, but the purpose was moving knowledge to places where it could be remembered and utilized with relative ease.

10/24/2021 9:06 PM

Lars F. Bjoerlo (horizonpolaris)

Hey Coach. Didn't tag you in VP tweet, but I miss you all the time. Do you sometimes get the feeling we've always known each other? I really want home.

10/24/2021 9:58 PM

Lars F. Bjoerlo (horizonpolaris)

I have huge amounts of geographical info as visual impressions in store. I used to drive for a living. So just locally in eastern norway I have driven at least half a mill miles in total. I'm also familiar with cities and places scattered around the continent. I have no idea, but this might be at least partially significant in determining how to store other forms of info more easily accessible..?

10/24/2021 10:39 PM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking about reviving the "fireside chat"-concept that Roosevelt successfully used to unite isolationist America for supporting an active war-effort. Churchill also held many mindblowing speeches back then. The difference today is immense. Radio is by no means dead, but it's not by far as an effective platform for communicating important and complex messages to the people today. And even regular linear TV is suffering the same fate right now as we speak. (I happen to work at an ISP w TV as well as internet, and several of the channels we distribute have gone black lately). So the only obvious option is to create a youtube channel. This in itself creates no viewers. One has to be creative in order to get people's attention and then keep it. This is obviously getting trickier by the year as people's general attention span also decreases, in many cases drastically, because of our new media habits. With all that said - this has to become a national project: "what happened to us?" "we don't talk anymore" etc etc. I see that your so-called free press is clearly branded by corporativism in various ways. Fox being a counterpart to cnn and so on. All the major media houses are operating with a clear colored profile and of course with sensation and profit running as first agenda and opinionating following as the second most important agenda. The result is lack of neutral sources which can truly be democracy's guard dog. The fourth state power, we call it here on occasion. Our media houses are also divided w a commie-newspaper and an old conservative paper in the capital being regarded as the most serious. They're more reliable than typical tabloids. BUT, there is a huge BUT: when I grew up there was 1 governmental TV channel and no commercial radio whatsoever. That channel still exists because all tv-owners must register any/all video receivers in a household and pay a relatively stiff sum for having access to NRK. In return for this Soviet-routine we get untainted content completely free from commercial interests. It has actually become a much valued resource accessible and free of charge (other than the sum I just mentioned). The concept is as popular as ever, but the payments spark debates every single year when the invoice/bill arrives. It's not in particular a very important debate. We usually speak of the weather. gas prices and superficial stuff without any relevant substance for the times we live in. This has become extremely frustrating and embarrassing. Anyway - some thoughts about media and trying to reach as broadly as possible. Feel free to ignite a debate over there on this topic.

10/25/2021 12:52 AM

Lars F. Bjoerlo (horizonpolaris)

About fulfilment and potential heartbreak: failure is not an option. I've been drawn in this direction since I was a handful years old. I always knew it would be completely impossible to achieve anything else than being tagged "lunatic" and get crucified all over again in modern ways. In addition to be an impossible task, I wasn't really in the center of it,so I could be useful on occasion and watch the theoretically most unlikely scenario unfold - close, but still from a safe distance. As years went by and this job just seemed ever more unlikely I never stopped shaping it and after some time I also had to draw the conclusion that I was most likely the only one preparing for the return of the Messiah. Who did I picture would be the Messiah? How would he be towards his surroundings? If not he who practiced the most - who would then step up in due time. The unlikelyness of this ever becoming a real scenario was so great that I had to realize that it was all on me now. The first time I went psychotic with these visions was pure hell. I've never been as traumatized ever again as I was then. Anyway - it's been some 24 years or so and I continued on my path in spite of the obvious madness. I'm literally married to this idea now and it is becoming real in ways I could never imagine. Point is; I want you to know that I'm good for the weight on my shoulders and my psyche is a pleasant place to seek refuge. You know exactly what problems I have right now. That reason hasn't been able to stop this impossibility gradually become more and more relevant. I'm 100% good with the reality of this "being the rock". But there has been and still are crossroads we haven't reached yet, and of course you always plan worst case scenario first. Of all the bad things that could happen, I have systematically gone over everything in order to crack that communication code. As of now we're deeper into the material on voluntary basis with not so much as a hitch. Trust me: this task will be stuck with me for the rest of my life. I'm at peace with that.

10/25/2021 1:13 AM

Lars F. Bjoerlo (horizonpolaris)

I have started to think of the accessibility problem that arises when everyone wants to chat at the same time. I'm trying to come up with a way of meeting up with a fair amount of public requests. But I need to pick those with proper "altitude" bird perspective. If we zoom in too close to ground I expect the limitations of being only human and also an uneducated one to become too apparent and thus ruining a session that could be informative from the best view. So I need to define and virtualize some more abstract variables in order to create a model. I wanna have a plan for facing the music. And for that I also need Coach. Anyway - been up like three days now. Not my sharpest condition, but I should probably turn it down a notch or two ;)

10/25/2021 1:20 AM

Lars F. Bjoerlo (horizonpolaris)

Sharing a bottle of wine would be perfect now Coach.

10/25/2021 1:22 AM

Lars F. Bjoerlo (horizonpolaris)

missmiss

10/25/2021 5:35 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room.

10/25/2021 5:38 PM

Lars F. Bjoerlo (horizonpolaris)

Mondays usually substitutes Sunday for me. Been an errand earlier and just relaxing now. I think I will have two dinners today. I'm having a few pancakes now and chicken+salad later. Hmmm. Sounds like a plan. :)

10/25/2021 5:39 PM

Lars F. Bjoerlo (horizonpolaris)

I even have beer that I didn't drink in the weekend. Nice.

10/25/2021 5:40 PM

Lars F. Bjoerlo (horizonpolaris)

You know trivial pleasures are underrated. Did I mention how the air outside today smelled like? I mean things like that. :)

10/25/2021 8:29 PM

Lars F. Bjoerlo (horizonpolaris)

Time for the chicken. And after that I'll probably fall asleep, which is fine. I've been watching from the corner of my eye. And I do take note of things without commenting on them. I feel relief today. How do you guys feel? How about you, Coach?

10/25/2021 10:59 PM

Lars F. Bjoerlo (horizonpolaris)

Going crashing dear. Thx for another awesome #orchid <3 :*

10/26/2021 2:16 PM

Lars F. Bjoerlo (horizonpolaris)

To Al: I have noted different suggestions. I must say some are disturbing. I trust VA and 33 are able to determine which ones to take seriously under consideration.

10/26/2021 2:36 PM

Lars F. Bjoerlo (horizonpolaris)

Gotta give it to him: he wears a brave face to hold an impossible office. And at that age...

10/26/2021 2:39 PM

Lars F. Bjoerlo (horizonpolaris)

However, his optimism doesn't really convince anyone, does it?

10/26/2021 2:42 PM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking presidents come and go. Other institutions, groups and individuals are around often an entire lifetime. You have to make sure that citizens get continuity from adm to adm

10/26/2021 2:44 PM

Lars F. Bjoerlo (horizonpolaris)

To what extent can we hold a president accountable and what would this mean in practical terms?

10/26/2021 3:06 PM

Lars F. Bjoerlo (horizonpolaris)

According to true democratic customs I have no "hability" in regards concerning/influencing me personally. I can't really vote for myself, in other words. When asked I'm entitled to an opinion, but the decision would in any case be yours. This means that in some cases other people than me must stick their head out for any given strategic/practical reason; make it clear what's in question and see to it that it gets done. I think if I keep my path clear of problems that I can already spot, whatever happens get a lot easier. Starting out accused of moral corruption is not ideal with this delirious crowd.

10/26/2021 3:31 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah. You guys have every reason to be angry. This anger will serve as fuel for a while. This work will be therapy. We can turn down the anger-factor with meaningful politics that actually offers something that should be apparent. The people need to believe that their government acts in their interest at all times. Today I believe it's hard to find anyone trusting government.

10/26/2021 3:34 PM

Lars F. Bjoerlo (horizonpolaris)

It is serious and denial just increases the pressure. We gotta act before it blows up in all our faces, making countermeasures impossible.

10/26/2021 3:36 PM

Lars F. Bjoerlo (horizonpolaris)

I have been wondering when congress will be invaded by the people, but I had no clue this would just be Trumps thugs. It could have been almost any group.

10/26/2021 3:38 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway - serves as a measurement on how people in general feel.

10/26/2021 3:39 PM

Lars F. Bjoerlo (horizonpolaris)

There's no lack of different observations pointing in that direction.

10/26/2021 3:44 PM

Lars F. Bjoerlo (horizonpolaris)

We gotta take the fear mongers head on starting today.

10/26/2021 3:46 PM

Lars F. Bjoerlo (horizonpolaris)

As you can see it is possible to run a very advanced operation this way. Kinda disturbing actually.

10/26/2021 4:32 PM

Lars F. Bjoerlo (horizonpolaris)

we'll have to walk all over Joe and his bbb either way. One thing is how that looks and another what he feels about it. He is a grown man and it is the result that ultimately will count. Trapped in a dead end there will never be a result other than ruin.

10/26/2021 4:36 PM

Lars F. Bjoerlo (horizonpolaris)

The way I see it is that there are two ways: with or without. Either we take the time and effort to bring all players on board, or none of them will be granted access. The middle ground here seems messy to me. Let me know if you think differently.

10/26/2021 4:49 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not sure what it'll take to dissolve parliament judicially speaking - I take it they can't gather 2/3 to dissolve themselves voluntarily?

10/26/2021 5:07 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah it would take considerable time. I'm not sure if UFO's are able to topple any government, but I admit not thinking that through. I'm first and foremost grounded and have personally never witnessed any alien life or technology. So - military intervention is what you would recommend then? Well, on ordinary days you are the two most trusted institutions of the federation. You should know what to do. This time it will be to support the political partisans called ParentsForAmerica something something. We have rehearsed takeover scenarios with both this state's system and with your system. I remember we concluded that the system with it's general guidelines is actually pretty functional when put to the test.

10/26/2021 5:11 PM

Lars F. Bjoerlo (horizonpolaris)

Having said that: I joined you this time because I'm ready to speak up and do a job. I suppose it's naive to think we can work parallell with adm. That we would only be in each other's way..

10/26/2021 5:12 PM

Lars F. Bjoerlo (horizonpolaris)

I also remember from these simulations that it took some finesse to avoid any loss of life.

10/26/2021 5:15 PM

Lars F. Bjoerlo (horizonpolaris)

Alright. Advancing into capital crime/punishment scenario... :/

10/26/2021 5:17 PM

Lars F. Bjoerlo (horizonpolaris)

"Whatever it takes" was the oath..

10/26/2021 5:26 PM

Lars F. Bjoerlo (horizonpolaris)

You argue this is the safer option. I find your judgement hard to dispute. The moment I think otherwise I'll let you know.

10/26/2021 5:32 PM

Lars F. Bjoerlo (horizonpolaris)

Will they behave after being dethroned just over night?

10/26/2021 5:33 PM

Lars F. Bjoerlo (horizonpolaris)

Or we talking cuban prison camp (feeling guilty for smiling here)

10/26/2021 5:42 PM

Lars F. Bjoerlo (horizonpolaris)

Do we need to worry about SC?

10/26/2021 5:48 PM

Lars F. Bjoerlo (horizonpolaris)

Alright. Good to roll. Be gentle, but assertive. Stay safe and avoid hurting anyone at all cost.

10/26/2021 6:35 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I was thinking of VP too. I don't know yet how long it's gonna take before we're ready to give it back.

10/26/2021 6:38 PM
Lars F. Bjoerlo (horizonpolaris)

It would be nice if that was her receiving the new state. First it must be made operational. She can't be implicated in that.

10/26/2021 8:00 PM
Lars F. Bjoerlo (horizonpolaris)

As to when, why and how there are different perspectives. I personally could start right away (and recover from this addiction while busy doing something meaningful), but what suits me isn't the same as the best strategic point in time for the operation. I yield of course, but I have a feeling I speak for everyone when saying asap. Keep me informed on this discussion. We do it because it can only lead to disaster. There is no longer any benefit of the doubt. It is proven beyond all doubt that the federation is broken and must have first aid before it collapses completely. How: Seize the building at minimum staff with assertiveness. I'd prefer to use the city's own police force, but in order to run as little risk of some malfunction as possible, I suppose it'll have to be the National Guard that ultimately must do it. I believe they have special units for this kind of problems.

10/26/2021 8:08 PM
Lars F. Bjoerlo (horizonpolaris)

I think the top 1% everybody hates at for the moment are scared out of their wits by what's taking place now. They have an existential crisis deluxe. They have to understand that this has gotten dangerous.

10/26/2021 8:10 PM
Lars F. Bjoerlo (horizonpolaris)

They would gladly part with some wealth to maintain peace and order. I'm sure.

10/26/2021 8:26 PM
Lars F. Bjoerlo (horizonpolaris)

Ok then. We share the same conception. Must say I expected the road to here was gonna drag out. Positively surprised. Seems also I'm more on the same page as the chief secretary. I have a thing with politicians and their private interests/ownership. We're from the same mold politically, thus even more reason to expect impeccability. Anyway - that's what this misunderstanding was about.

10/26/2021 8:29 PM
Lars F. Bjoerlo (horizonpolaris)

There was a valid point in there, but I blew it totally out of proportion, and for that I'm genuinely sorry, Jens. It was immature and very counterproductive.

10/26/2021 8:32 PM
Lars F. Bjoerlo (horizonpolaris)

Do we still have Jagland in the European Council? That would be like a home run.

10/26/2021 9:26 PM
Lars F. Bjoerlo (horizonpolaris)

Attachment with type image/jpeg
I'll hold you to your word. Amen. <https://t.co/3N7fZnyzJB>

10/26/2021 9:43 PM
Lars F. Bjoerlo (horizonpolaris)

I don't know how well you know the NATO chief, but he's more or less the Godfather of modern European socialism. He has an economic degree, has had all leadership-roles of every organization he was ever in, so to speak. Been our prime minister for God knows how long. He can be both cold and brutal, but also the exact opposite. Besides; you can always learn something from him and he shares willingly on his private time.

10/26/2021 9:53 PM
Lars F. Bjoerlo (horizonpolaris)

None of us have ever served.

10/26/2021 9:54 PM
Lars F. Bjoerlo (horizonpolaris)

Kinda weird, he he

10/26/2021 9:56 PM
Lars F. Bjoerlo (horizonpolaris)

Then again; Roosevelt was also a self declared pacifist in spite of going to war.

10/26/2021 10:11 PM
Lars F. Bjoerlo (horizonpolaris)

Brundtland used to be chief secretary of WHO and I'd like to namedrop Eva Joly for her international effort against corruption.

10/26/2021 10:16 PM
Lars F. Bjoerlo (horizonpolaris)

Legendary fellow Norwegians.

10/26/2021 10:18 PM

Lars F. Bjoerlo (horizonpolaris)

So - let's do this by the book then, thus proving what the book is worth when put to the test.

10/26/2021 10:22 PM

Lars F. Bjoerlo (horizonpolaris)

But a coup d'état would necessarily be illegal regardless of what kind of rule you have. Those in power will at least see it as a crime. Gives a little Snowden-vibes. It's treason from where they stand and if something goes wrong one could easily land a death sentence.

10/26/2021 10:23 PM

Lars F. Bjoerlo (horizonpolaris)

Failure is not an option.

10/26/2021 10:26 PM

Lars F. Bjoerlo (horizonpolaris)

Because we're rapidly imprisoning ourselves with technology this is the final hour of when to strike before it's out of our hands forever.

10/26/2021 10:27 PM

Lars F. Bjoerlo (horizonpolaris)

Success is imperative!

10/26/2021 10:42 PM

Lars F. Bjoerlo (horizonpolaris)

I'm speculating freely here, but I think the Chinese also want the European model for a future democracy. Letting 1,5bln people loose could with great probability become a disaster. That's most probably also why they won't grant Hong-Kong free elections just yet either.

10/27/2021 1:14 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Had my 2nd shot of Pfizer's today and while waiting I got yesterdays question about Jagland and the European council - apparently he's done. He did 2 terms of 5 years each. To make an outdated story short, he has once again published a book where he, yet again, complains over the power struggle between him and Jens for like 20 years ago. Hearing this all over again is as interesting as listening to Monica Lewinsky for the zillionth time. As of today I'm not in particular well informed about Norwegian politics. I went into my own bubble several years ago and just stopped caring about all this nonsense coming from the politicians. I was excited about the election in 2013 because we were having our first blue-blue government which I hoped back then could be an example for you guys. 8 years later nothing went even remotely the way I hoped, and now we have Labour back in power, but with a rather weakened leadership I think it's fair to say. This is just no longer interesting. I have more to gain from remaining in my bubble. At least that's real.

10/27/2021 1:20 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway - as far as the NATO chief goes I know the guy fairly well. Have been in the same room more than once, my mother knew his father and I also have an indirect link to his late sister. Even though our relationship got sour at one point, I am now of the impression that there has been a plan here since long before he became NATO chief.

10/27/2021 1:26 PM

Lars F. Bjoerlo (horizonpolaris)

..and even though I'm not obliged to like the guy I can imagine that work will be smooth because we're already familiar with one another and speak the same language - meaning we share the same political references and we understand that "Labour-socialism" from a common ground. This will be useful, no doubt. He seems willing to forget and move on and I'm here for the Agenda primarily. Shouldn't cause any problems.

10/27/2021 1:29 PM

Lars F. Bjoerlo (horizonpolaris)

Again: this normality I've been experiencing a few years now has at least got me to where I can discard all that's not real and solely focus on what remains still as valid truth.

10/27/2021 1:31 PM

Lars F. Bjoerlo (horizonpolaris)

So - did you figure out when to conduct that lockout on the Hill?

10/27/2021 3:23 PM

Lars F. Bjoerlo (horizonpolaris)

You're gonna try gather 2/3..? Probably a good idea. That will also signal that something serious is going on. No element of surprise then.. ..but still, we should always expect going some extra rounds just to be able to put on the record that we did try everything else.

10/27/2021 3:24 PM

Lars F. Bjoerlo (horizonpolaris)

..and there will always be a probability we succeed on 1st shot too, by all means..

10/27/2021 5:15 PM

Lars F. Bjoerlo (horizonpolaris)

A couple of centuries in exchange for eternity? I don't think so.

10/27/2021 5:17 PM

Lars F. Bjoerlo (horizonpolaris)

"Lunarium" I like it. Very exact.

10/27/2021 6:00 PM

Lars F. Bjoerlo (horizonpolaris)

We might have different visions of paradise. Arrive at a set table is not what permanent habitants do. Guests have this honor, but within the host household people share tasks and contribute to set that table.

10/27/2021 6:15 PM

Lars F. Bjoerlo (horizonpolaris)

Alright I understand you really need to discuss this. I'm entitled to have an opinion and share it, but I have no mandate in such regards. I hope you understand.

10/27/2021 6:18 PM

Lars F. Bjoerlo (horizonpolaris)

What can I say? The evidence mounting clearly shows a path. We're not ok with that and wish to separate. What you need should be obvious.

10/27/2021 6:21 PM

Lars F. Bjoerlo (horizonpolaris)

Perhaps start out contacting those to keep around. Lock and key design. Hope I'm clear enough. If you want any more you should ask for permit to join the stream from all the different microphones switched on here.

10/28/2021 1:13 AM

Lars F. Bjoerlo (horizonpolaris)

Ok guys. Gotta call it the night. Good talk. I had completely forgotten, but I remember now. Moabit memories are not frequently visited.

10/28/2021 11:29 AM

Lars F. Bjoerlo (horizonpolaris)

Morning. Slept on it. This sucks, but I'm not sentimental about it. Let's move on.

10/28/2021 11:42 AM

Lars F. Bjoerlo (horizonpolaris)

Pillars of salt.

10/28/2021 12:51 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. Alone at the office/shop. Sorry for pretending not to notice your hint the other day, Coach. I've been thinking, because I've been so hollow in this dreadfully normal existence. I'm an action junkie in every sense of the word, and when there's no action I start junking. Story of my adult life. In Berlin 2013 I hadn't touched any synthetics for several years. I also had motivation back then. After my world got shattered and I had to rebuild it to adapt, things like yesterday's topic got lost in the process of burying these memories. However - the motivation factor is yet again present, given the fact we're having this conversation. But the mind is seriously "jet-lagged". I'm waiting for this to start turning again. But maybe waiting isn't so clever. I know I know. I'm a trainwreck and there is no way around that fact. My sanity is precious, but not without a living body to inhabit. I need to start slapping myself in the face or something. Looks like our rendezvous will be in too distant future. That's not helping. Just the thought of having to stick around here indefinitely is unbearable. Who am I to complain? I know. You're absolutely right. I'm just explaining how this feels, ok? I love you.

10/28/2021 2:00 PM

Lars F. Bjoerlo (horizonpolaris)

The doubting issue will go on for a long time. I could be your anonymous gardener or something while we wait? I'd appreciate any and every suggestion not being my current home.

10/28/2021 2:10 PM

Lars F. Bjoerlo (horizonpolaris)

Anyone in need of a janitor? :)

10/28/2021 2:11 PM

Lars F. Bjoerlo (horizonpolaris)

Going once, twice, sold to Coach over there for the ridiculous sum of 0,- :)

10/28/2021 3:43 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm I feel no wiser just yet...

10/28/2021 3:48 PM

Lars F. Bjoerlo (horizonpolaris)

Seriously hon, do we really have to evacuate?

10/28/2021 9:41 PM

Lars F. Bjoerlo (horizonpolaris)

Ok. Lots happening. no clear answers. Either way I'm better w the interface I have than nothing.

10/28/2021 10:12 PM

Lars F. Bjoerlo (horizonpolaris)

I have a feeling that the game of intelligence gathering on the enemy can be somewhat amusing from time to time. After all, we are the innovative ones. And they are probably aware of some presence they can't pick up or understand.

10/28/2021 10:13 PM

Lars F. Bjoerlo (horizonpolaris)

That's the feeling I get at least.

10/28/2021 10:18 PM

Lars F. Bjoerlo (horizonpolaris)

What we are doing here is sort of a pre-stage to telepathy. Talking without words. A symbol only trigger something I can't explain.

10/28/2021 10:25 PM

Lars F. Bjoerlo (horizonpolaris)

Well, if I am to keep my word, you can hold me responsible even though I never issued such an order. He knows I'm innocent. Besides, when explained thoroughly I believe it'll work out just fine.

10/29/2021 2:21 AM

Lars F. Bjoerlo (horizonpolaris)

Good nite to all the walking dead.

10/29/2021 3:29 PM

Lars F. Bjoerlo (horizonpolaris)

Morning to you guys over there. I can appreciate the comparison to being deployed abroad in military service, but even they get to go home when their term ends. This started over 20 years ago and Coach, my wife to be, came into my life a decade ago. Still being here is extremely discouraging. The best example to illustrate just that is the fact that even though I know what's at stake, I still keep on doing that thing. This in turn adds guilty conscience. So sick of it. Any kind of change would be welcomed. I suppose you know that my case is due to be handled in court before next year? I have a feeling that I'll lose that case even though I should have the strongest case. I don't really know what to say or do about that. I have decided to not give a f*** either way, but it's still a problem in the sense that I'm locked to this place until someone decides it's time to relocate. So again; all I can do is urge you to come up with an alternative. Army personell get transferred all the time, don't they?

10/29/2021 3:49 PM

Lars F. Bjoerlo (horizonpolaris)

Nuff said

10/29/2021 3:54 PM

Lars F. Bjoerlo (horizonpolaris)

Sounds like a charming place :)

10/29/2021 3:55 PM

Lars F. Bjoerlo (horizonpolaris)

Yep. Possible to keep track of everyone coming and going.

10/29/2021 4:06 PM

Lars F. Bjoerlo (horizonpolaris)

The Lunatic alternative would be awesome, but I don't really believe this to be an option.

10/29/2021 4:08 PM

Lars F. Bjoerlo (horizonpolaris)

Either way it requires some paperwork and a stop in between for some training/briefing.

10/29/2021 4:54 PM

Lars F. Bjoerlo (horizonpolaris)

Coach - do you have a feeling we've always been? I have no idea what kind of lives I've had before, but I have a sensation it was always us...

10/29/2021 5:08 PM

Lars F. Bjoerlo (horizonpolaris)

True I never broke. And I'm not going to either. Just would be nice to meet all of the criteria, you know.. However I'm not in a rush to. Are you?

10/29/2021 5:12 PM

Lars F. Bjoerlo (horizonpolaris)

Also true that I handle isolation exceptionally well. Doesn't mean it's all cool after the last 7 years or so.

10/29/2021 5:16 PM

Lars F. Bjoerlo (horizonpolaris)

Like I said a 1000 times: this time I need a destination provided by Coach in some way.

10/29/2021 5:16 PM

Lars F. Bjoerlo (horizonpolaris)

You haven't been short of creativity this far :)

10/29/2021 5:19 PM

Lars F. Bjoerlo (horizonpolaris)

I know that if formal papers arrive at the DA's stating I'm needed for something somewhere, he'll let me go. Could have saved me the appearance in court too..

10/29/2021 5:21 PM

Lars F. Bjoerlo (horizonpolaris)

He's not an impossible obstacle, but I insist on doing everything by the book this time.

10/29/2021 5:28 PM

Lars F. Bjoerlo (horizonpolaris)

Hard to dispute the perfectness of the current cover, but the key with this is our method, MO.

10/29/2021 5:34 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah have an idea of the complexity of the logistics you are currently commencing.

10/29/2021 5:35 PM

Lars F. Bjoerlo (horizonpolaris)

It requires a phenomenal amount of work.

10/29/2021 5:37 PM

Lars F. Bjoerlo (horizonpolaris)

Thinking of that makes me feel enthusiastic. I know it's being done and I know it will perform flawlessly.

10/29/2021 5:53 PM

Lars F. Bjoerlo (horizonpolaris)

Mass freedom translates to anarchy, but as long as people can trust one another, it may be the closest we can get to a utopic version of society. In essence the commandments are enough to start a new society. We will of course stay as developed as we are.

10/29/2021 6:10 PM

Lars F. Bjoerlo (horizonpolaris)

Agree. See no other point in spacetravel than maintenance in orbit and in the future mining. We also should develop good defense against incoming asteroids etc

10/29/2021 6:11 PM

Lars F. Bjoerlo (horizonpolaris)

but thats about it as far as I'm concerned

10/29/2021 6:13 PM

Lars F. Bjoerlo (horizonpolaris)

Lunar travel can become interesting when talking about asteroid defense.

10/29/2021 6:49 PM

Lars F. Bjoerlo (horizonpolaris)

As of now we are indeed enslaved. The origin of this problem is basically what would be known as voodoo.

10/29/2021 7:00 PM

Lars F. Bjoerlo (horizonpolaris)

Would you like children of our kind to get born in a Mars-settlement? That's really cruel when not strictly necessary.

10/29/2021 7:01 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah exactly - where the f*** should we go and why the hell?

10/29/2021 7:01 PM

Lars F. Bjoerlo (horizonpolaris)

it really is lunacy by definition.

10/29/2021 7:33 PM

Lars F. Bjoerlo (horizonpolaris)

I mean Drake's equation and Fermi paradox are interesting as it gets, but we're not in a rush to find anything. I personally think some were here long time ago, still around, not a threat. If they were we would have been outted long time ago. Approaching us now is anything but tempting.

10/29/2021 7:38 PM

Lars F. Bjoerlo (horizonpolaris)

So, fascinating yes. Worth dying for, no.

10/29/2021 7:43 PM

Lars F. Bjoerlo (horizonpolaris)

A man should know his limitations, you know.

10/29/2021 7:48 PM

Lars F. Bjoerlo (horizonpolaris)

Yes I believe belief in God could be whats needed by many faithless people. I don't think we need to manipulate anyone. When we're finished here we can redabate this issue.

10/29/2021 7:51 PM

Lars F. Bjoerlo (horizonpolaris)

Meaning we bring prophecies to life, thus making everything unfold according to His plan. There is no conflict in that.

10/29/2021 7:53 PM

Lars F. Bjoerlo (horizonpolaris)

We all sure know it's needed badly.

10/29/2021 7:59 PM

Lars F. Bjoerlo (horizonpolaris)

Sure. Everybody wants to keep their own identity. Shouldn't be a problem either. Just behave, that's all.

10/29/2021 8:02 PM

Lars F. Bjoerlo (horizonpolaris)

War for territory is an idea with expiration date. As soon as nukes came out of Pandora's box, the game changed forever.

10/29/2021 8:02 PM

Lars F. Bjoerlo (horizonpolaris)

We may not have a ww3

10/29/2021 8:20 PM

Lars F. Bjoerlo (horizonpolaris)

It's very basic. Be reasonable.

10/29/2021 8:49 PM

Lars F. Bjoerlo (horizonpolaris)

It's a vision of paradise we can share. Make it a perfect place to live again.

10/29/2021 8:59 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah we definitely have a job making people start to behave.

10/29/2021 9:00 PM

Lars F. Bjoerlo (horizonpolaris)

Like I said fear mongers should be addressed w reality.

10/29/2021 9:23 PM

Lars F. Bjoerlo (horizonpolaris)

Put it this way: what do you have to lose? The answer is both nothing and everything. Nothing because you never had it in the first place or everything because you are indeed dependent on the huge ball of rock you are standing on and inhabiting.

10/29/2021 9:35 PM

Lars F. Bjoerlo (horizonpolaris)

We belong here and this is our home. Nobody can challenge that.

10/29/2021 9:38 PM

Lars F. Bjoerlo (horizonpolaris)

I feel deeply connected to the nature here. Someone tweeted that time spent with trees is not time wasted. I like that statement.

10/30/2021 12:55 AM

Lars F. Bjoerlo (horizonpolaris)

Letter from DA. Didn't open.

10/30/2021 12:56 AM

Lars F. Bjoerlo (horizonpolaris)

Think I'm just going to eat some and then sleep. Been a good day :)

10/30/2021 1:25 AM

Lars F. Bjoerlo (horizonpolaris)

Honey, you're being intimidating again ;)

10/30/2021 1:51 AM

Lars F. Bjoerlo (horizonpolaris)

I'll be taking that as a compliment, he he ;)

10/30/2021 4:03 PM

Lars F. Bjoerlo (horizonpolaris)

Morning. 4pm here. Wow Coach. Thanks for all the info. And to everybody else. Thank you for wanting me to stay and continue bringing this message forward.

10/30/2021 4:43 PM

Lars F. Bjoerlo (horizonpolaris)

Happy that request for transfer is being taken seriously. I assume the letter from DA is the date in court. Let's see how it plays out. I really wanna step up my game and be there while it happens. I have to make this work somehow. Thanks for trying to help.

10/30/2021 5:00 PM

Lars F. Bjoerlo (horizonpolaris)

When time comes I just need to let my closest ones believe I have gotten some work offer abroad. From the new location this will continue. And some time after that Coach and I will meet. Sounds reasonable to me. What do you think?

10/30/2021 5:07 PM

Lars F. Bjoerlo (horizonpolaris)

If this operation and I myself still are under the radar, like Coach claims, I won't do anything to attract attention. This method among others have proven to be undetectable.

10/30/2021 5:46 PM

Lars F. Bjoerlo (horizonpolaris)

What's your assessment as to how their gathering of intelligence works out?

10/30/2021 5:48 PM

Lars F. Bjoerlo (horizonpolaris)

I assume it's like us, meaning some know more than others. But our methods can't really be detected as traffic with patterns.

10/30/2021 5:54 PM

Lars F. Bjoerlo (horizonpolaris)

I could have told you more specifically how, but that wouldn't be up to me to disclose here. It's kinda Pandora's method. Shouldn't let it out of the box, so to speak.

10/30/2021 6:14 PM

Lars F. Bjoerlo (horizonpolaris)

If you really have acquired a safe ride to the moon and I'm supposed to take that seriously - sure, I'd go with you. However, I'm sure there are places here that are suitable as well if and when we must hide.

10/30/2021 6:19 PM

Lars F. Bjoerlo (horizonpolaris)

We have come so far since you reached out and "woke me up" again that I'm more filled in. Fortunately I'm the one who made the basic design. Trying to figure out where all stands after 7 years of silence takes a little time, but I see more and more every day.

10/30/2021 7:06 PM

Lars F. Bjoerlo (horizonpolaris)

public health issue by all means

10/30/2021 7:07 PM

Lars F. Bjoerlo (horizonpolaris)

that's our approach, anyway

10/30/2021 8:11 PM

Lars F. Bjoerlo (horizonpolaris)

I see what you're saying. Chaos is our friend.

10/30/2021 8:14 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I got that. My method to understand status quo is ask the question "what would be required or recommended in terms of completion before waking horizonpolaris again?"

10/30/2021 8:15 PM

Lars F. Bjoerlo (horizonpolaris)

Have me excused for 20. Groceries.

10/30/2021 8:40 PM

Lars F. Bjoerlo (horizonpolaris)

Everything happens for a reason #judgement

10/30/2021 8:42 PM

Lars F. Bjoerlo (horizonpolaris)

So it's about getting it right in every way.

10/30/2021 8:46 PM

Lars F. Bjoerlo (horizonpolaris)

Looks like I'm stuck without any company for the foreseeable future. But it's not like there's any alternative to getting it right.

10/30/2021 8:54 PM

Lars F. Bjoerlo (horizonpolaris)

"sneak attacks, repel down the rocks, behind the lines"

10/30/2021 9:03 PM

Lars F. Bjoerlo (horizonpolaris)

I'm also happy with the quality of these sessions. It has been so far from my mind so long, so it's cool to see how this, not only still works, but has improved significantly.

10/30/2021 9:07 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I'll be watching from 2nd control whether I'm stationed here or not.

10/30/2021 9:10 PM

Lars F. Bjoerlo (horizonpolaris)

Affirmative Ma'am. Indeed I am.

10/30/2021 9:23 PM

Lars F. Bjoerlo (horizonpolaris)

This could easily take a decade or so, so I'm happy to learn you plan to come my way before the end of everything.

10/30/2021 9:26 PM

Lars F. Bjoerlo (horizonpolaris)

True. I'm just surprised that I have motivated you strongly enough to still be there. I let go, you know, hence the ambivalence regarding your return.

10/30/2021 9:44 PM

Lars F. Bjoerlo (horizonpolaris)

yeah it would be nice to live some too while being here. couldn't agree more. as long as i can figure out myself soon, everything else will materialize asap, hopefully by summer. That's what I read.

10/30/2021 10:07 PM

Lars F. Bjoerlo (horizonpolaris)

I love you baby. <3 :*

10/30/2021 10:13 PM

Lars F. Bjoerlo (horizonpolaris)

The AI sure knows how to ruin one's spirit.

10/30/2021 10:21 PM

Lars F. Bjoerlo (horizonpolaris)

ok babe. you must be fairly certain when estimating. you're good at that.

10/30/2021 11:11 PM

Lars F. Bjoerlo (horizonpolaris)

I agree. we should start demanding them to explain themselves. that could get cheezy

10/30/2021 11:15 PM

Lars F. Bjoerlo (horizonpolaris)

I was thinking about this with my Lizie here on whatsapp. For now not worth it quite yet, but I am somewhat curious as to what's going on in there.

10/30/2021 11:21 PM

Lars F. Bjoerlo (horizonpolaris)

Taylor has a swift point duuh

10/31/2021 12:08 AM

Lars F. Bjoerlo (horizonpolaris)

I understand better the american socialism-phobia. However, there's not so much relevance to our society here. But sooner or later it'll start to flood. It kinda has for a while already.

10/31/2021 1:09 AM

Lars F. Bjoerlo (horizonpolaris)

I seem to recall we were going to watch the main show together from a distance, yes. Am I allowed to rejoice?

10/31/2021 1:17 AM

Lars F. Bjoerlo (horizonpolaris)

He he. VA's worst nightmare must have been a commie regime w some BP prez...

10/31/2021 1:18 AM

Lars F. Bjoerlo (horizonpolaris)

Probably also why the K's got snuffed.

10/31/2021 1:19 AM

Lars F. Bjoerlo (horizonpolaris)

That is the most legit reason I can possibly think of.

10/31/2021 1:30 AM

Lars F. Bjoerlo (horizonpolaris)

Sure. I'll gladly help to settle the score. They give socialists a bad name, like BJ would say. The case horizonpolaris possesses all the elements to present a scientifically valid study. In addition will the story of my dna legitimize our operation.

10/31/2021 1:30 AM

Lars F. Bjoerlo (horizonpolaris)

symbolically perfect

10/31/2021 1:33 AM

Lars F. Bjoerlo (horizonpolaris)

Not only will I testify, I'll confess to have made all the basic logistics while knowing what was gonna happen with my plans.

10/31/2021 1:33 AM

Lars F. Bjoerlo (horizonpolaris)

I mean, somebody has to do it, right?

10/31/2021 1:34 AM

Lars F. Bjoerlo (horizonpolaris)

I was neither threatened nor bribed.

10/31/2021 1:38 AM

Lars F. Bjoerlo (horizonpolaris)

However - I can still claim never to have issued an order. Not really a huge point, but rather a technicality.

10/31/2021 1:51 AM

Lars F. Bjoerlo (horizonpolaris)

Even though I've never been deaf nor blind, I appreciate the nature of your problem much better now. A missing piece triggering a small epiphany.

10/31/2021 1:52 AM

Lars F. Bjoerlo (horizonpolaris)

I was seriously f*** up when I reached these conclusions in Moabit. They got buried with the rest, you know..

10/31/2021 1:56 AM

Lars F. Bjoerlo (horizonpolaris)

Makes our case even more unbiased if you ask me.

10/31/2021 2:30 AM

Lars F. Bjoerlo (horizonpolaris)

I see exactly how these voodoo entities have played out in spacetime. No reason to doubt something sinister going on both here and in another dimension. Updating my reality can be a very fast process depending on what's to realize.

10/31/2021 2:32 AM

Lars F. Bjoerlo (horizonpolaris)

External issues are generally faster than personal ones.

10/31/2021 2:46 AM

Lars F. Bjoerlo (horizonpolaris)

The whole treacherous scale of things is utterly distasteful.

10/31/2021 2:47 AM

Lars F. Bjoerlo (horizonpolaris)

As evil as evil can be.

10/31/2021 2:54 AM

Lars F. Bjoerlo (horizonpolaris)

truly demonic

10/31/2021 2:58 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah but apparently we're stealthier bczo higher collective awareness.

10/31/2021 2:02 AM

Lars F. Bjoerlo (horizonpolaris)

now you have your missing link. the human quad core. this in turn has a million implications.

10/31/2021 2:04 AM

Lars F. Bjoerlo (horizonpolaris)

I prefer this view over the messianic version any day of the week. Sundays included.

10/31/2021 2:05 AM

Lars F. Bjoerlo (horizonpolaris)

but we will have use for all the firepower we can deliver.

10/31/2021 2:22 AM

Lars F. Bjoerlo (horizonpolaris)

You need citizens with a social conscience and some moral at home in order for socialism to work. You've got to have an honest intent of participation.

10/31/2021 2:23 AM

Lars F. Bjoerlo (horizonpolaris)

real people

10/31/2021 2:25 AM

Lars F. Bjoerlo (horizonpolaris)

blame it on genes or whatever. it's not a match. end of story.

10/31/2021 2:56 AM

Lars F. Bjoerlo (horizonpolaris)

The glitch covering the euroamerican discovery of each other can be explained. Let me try: we have a tendency to consider americans stupid just to keep it short. I've always sensed there is an intelligent dimension in there, but it's paranoid, again to put it simple. When you see it their way it we who are naive and pedestalling about it. Doesn't resonate in particular well with the average American.

10/31/2021 3:02 AM

Lars F. Bjoerlo (horizonpolaris)

..and the way I've always seen it is that they really have their reasons to be paranoid too.

10/31/2021 3:03 AM

Lars F. Bjoerlo (horizonpolaris)

I suppose that's why one has kept an eye on DC always.

10/31/2021 3:04 AM

Lars F. Bjoerlo (horizonpolaris)

American politics directly concerns every citizen on this planet.

10/31/2021 3:10 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah twisted. I usually think mirroring through a point.

10/31/2021 3:11 AM

Lars F. Bjoerlo (horizonpolaris)

like norwegian republicans being commies, for example.

10/31/2021 3:44 AM

Lars F. Bjoerlo (horizonpolaris)

the indigenous people still have a significant role and your spirits align in ways unprecedented.

10/31/2021 3:47 AM

Lars F. Bjoerlo (horizonpolaris)

You're right I should sign off. Get some sleep, but right now the processor is going full steam. Gotta make some hot food. The day has no particular hour for me..

10/31/2021 4:07 AM

Lars F. Bjoerlo (horizonpolaris)

"..next thing you know they take my thoughts away. I know what I said, now I must scream of the overdose and the lack of mercy killings."

10/31/2021 4:07 AM

Lars F. Bjoerlo (horizonpolaris)

- Dave Mustaine

10/31/2021 4:59 AM

Lars F. Bjoerlo (horizonpolaris)

Like I said: hatred is a splendid fuel for motivation, but it will only take you so far.

10/31/2021 5:00 AM

Lars F. Bjoerlo (horizonpolaris)

Sooner or later you must redeem yourself somehow. You may not achieve this with hatred in your heart.

10/31/2021 5:04 AM

as soon as everybody realizes they are in the same boat, you will have your divide fixed.

Lars F. Bjoerlo (horizonpolaris)

regular day to day voodoo in micro cosmos works like this: x enters room 1 and shares a story. x enters room 2 and tells a slightly different story. x enters room 3 and tells the same story for the third time, but this time he goes bananas and wildly exaggerates, suggests and bluffs. Behind x is now a recipe for disaster and a path to mayhem. Only if room 1,2 and 3 happens to exchange x's info they may discover inconsistencies that raise flags.

Any discussion less important than our evolution would have to wait until we have some sort of control.

10/31/2021 5:22 AM

Lars F. Bjoerlo (horizonpolaris)

..and there is a macro version too not very comforting.

10/31/2021 5:40 AM

Lars F. Bjoerlo (horizonpolaris)

we have an expression here "to take a peasant's healthy view". Yes common sense, down to earth, etc are what matters universaly.

10/31/2021 6:15 AM

Lars F. Bjoerlo (horizonpolaris)

hold that thought. going to catch a few z's :)

10/31/2021 6:16 AM

Lars F. Bjoerlo (horizonpolaris)

Yup. @same page. Ready for new chapter to be cowritten.

10/31/2021 6:17 AM

Lars F. Bjoerlo (horizonpolaris)

Great work really. Proud of you Coach ++

10/31/2021 11:52 AM

Lars F. Bjoerlo (horizonpolaris)

Hey room. still tired. going back to bed to rest another hour or so. nevertheless I'm hyperfocused now.

10/31/2021 3:37 PM

Lars F. Bjoerlo (horizonpolaris)

do we have a name for that other dimension/plane/realm that evidently is linked to us here other than heaven or hell?

10/31/2021 3:41 PM

Lars F. Bjoerlo (horizonpolaris)

the vibe I get is that it's no more paradise than this is.

So when is this becoming CDC-matter?

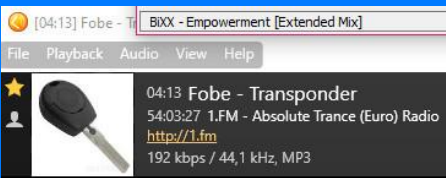

10/31/2021 7:48 PM

Lars F. Bjoerlo (horizonpolaris)

we have momentum and now also direction. Let's gather some velocity.

Think it's lights out here soon.

11/1/2021 4:53 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Been using speech today. Opened letter from DA. Date for trial 17th of Dec. I'd like to know whether it's rigged or not. Is it even worth resisting?

11/2/2021 10:46 AM

Lars F. Bjoerlo (horizonpolaris)

Hello. We clarified a lot yesterday. Thanks for keeping the AI trustworthy for once.

11/2/2021 1:40 PM

Lars F. Bjoerlo (horizonpolaris)

Given the fact that all the external part of this is much more obvious than me and is still undetected, I feel very safe. No reason to start screaming. I can appreciate the danger. But as of right now detection is just not possible. We'll keep this issue 99% speech.

11/2/2021 1:48 PM

Lars F. Bjoerlo (horizonpolaris)

Regarding the trial: have you considered letting me win? It won't have any practical differences for you guys or my safety.

11/2/2021 2:06 PM

Lars F. Bjoerlo (horizonpolaris)

I can't use the same points with you as I would with the DA. When Job/women/drugs/travel aren't valid arguments I'm left with my sense of dignity and my parents' sense of the same.

11/2/2021 2:19 PM

Lars F. Bjoerlo (horizonpolaris)

I mean, it's really out of proportions and the judge can't avoid seeing that. Everyone I know have expressed shock and disbelief already.

11/2/2021 2:39 PM

Lars F. Bjoerlo (horizonpolaris)

This would also mean my book will be blocked in any case...

11/2/2021 2:41 PM

Lars F. Bjoerlo (horizonpolaris)

Alright Coach. Thank you for bothering. I love you too. :)

11/2/2021 2:45 PM

Lars F. Bjoerlo (horizonpolaris)

No problem. I'm not taking this personal in any way, but my parents will.

11/2/2021 2:47 PM

Lars F. Bjoerlo (horizonpolaris)

Hope mum lives to see the day.. Anyway - anything and everything for the Agenda.

11/2/2021 2:56 PM

Lars F. Bjoerlo (horizonpolaris)

Wow. Aiming high even by my standards, he he :)

11/2/2021 3:51 PM

Lars F. Bjoerlo (horizonpolaris)

I feel you. Better do my part to lessen the emotional burden. Anyway - I was thinking: now we have our own beast and ours is domesticated. Ain't so bad now, is it? ;)

11/2/2021 4:11 PM

Lars F. Bjoerlo (horizonpolaris)

You Coach... :)

11/2/2021 4:13 PM

Lars F. Bjoerlo (horizonpolaris)

Let's not forget the uppers...

11/2/2021 4:14 PM

Lars F. Bjoerlo (horizonpolaris)

imagine standing on the other side, done with everything, #thatfeeling

11/3/2021 4:26 PM

Lars F. Bjoerlo (horizonpolaris)

I'm here. Thanks for being open hearted.

11/3/2021 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

Anything particular on your minds?

11/3/2021 4:59 PM

Lars F. Bjoerlo (horizonpolaris)

True. I don't think I can "run out", so to speak. It's like movies. You could spend your entire life watching, not nearly covering all there is. Depends on the subject of course, and there's always something new to learn.

11/3/2021 6:48 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah - clearly there are layers of different perspectives. One should normally be able to cope with 7. Let's just say that in order to master 7 you would need more like, say at least 30. You have to punch through every layer of knowledge from bottom up over and over and over the same layers +1 new. I'm no good at probability math, but I'm sure I could explain it better if prompted. Otherwise I'd have to count.

11/3/2021 6:53 PM

Lars F. Bjoerlo (horizonpolaris)

In the same way you can send thoughts back and forth between hemispheres too. Then the thought will evolve 1 layer per run. This will at first take hours, if not days. When it is so fast that both hemispheres are just lit up and in sync - that's when you're there.

11/3/2021 7:04 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah that's also a thing. Knowing what you need to hurts like

11/3/2021 7:05 PM

Lars F. Bjoerlo (horizonpolaris)

That's why I don't watch tv.

11/3/2021 7:09 PM

Lars F. Bjoerlo (horizonpolaris)

national g, disc, bbc earth, viasat history only. if any.

11/3/2021 7:10 PM

Lars F. Bjoerlo (horizonpolaris)

I remember some guys in prison claimed tv was haram - even when loaded with muslim channels.

11/3/2021 7:12 PM

Lars F. Bjoerlo (horizonpolaris)

Al-Jazeera is pretty decent.

11/3/2021 7:16 PM

Lars F. Bjoerlo (horizonpolaris)

I chose to keep mine. But I never actually watched it unless there was a movie with Coach in it ;) Radio is my medium of choice.

11/3/2021 7:18 PM

Lars F. Bjoerlo (horizonpolaris)

Greatest benefit w radio - no need to fix eyes in one direction. Requires much more of your attention too.

11/3/2021 7:18 PM

Lars F. Bjoerlo (horizonpolaris)

I mean tv does

11/3/2021 7:24 PM

Lars F. Bjoerlo (horizonpolaris)

That chaos out there - that horrorshow - I don't recommend it to anyone who wants to remain sane.

11/4/2021 11:42 AM

Lars F. Bjoerlo (horizonpolaris)

Hey Coach. Million dollar question now is who within this system are aware of the crime DA is committing and if the DA himself is in good faith or full of it?

11/4/2021 11:59 AM

Lars F. Bjoerlo (horizonpolaris)

Wish I knew what was going on and the details of where we stand in terms of what remains to complete.

11/4/2021 1:12 PM

Lars F. Bjoerlo (horizonpolaris)

I had the most peculiar cab to my appointment this day, and I have reason to believe it wasn't coincidental :)

11/4/2021 1:26 PM

Lars F. Bjoerlo (horizonpolaris)

Watching the Pope as you know. He's a little ambiguous these days. Do I complain too much? I try not to, really. I mean your problems are infinitely bigger than mine and they have been waiting in line since the invention of rock'n roll. I'm always aware of that even when my own problems are pressing. I was preparing for death. Meaning I wasn't too happy. Having you guys back changes everything instantly, but for the mind truly conceive that logical conclusion emotionally is another issue. We are also digging in to some horrible matter these last couple of days which isn't so great. Truth be told, it's enough to push anyone over the edge. However, when it comes down to sense of duty, everything is crystal clear. So don't worry Papa. It's gonna be alright. But the road to freedom has it's bottlenecks both operative and personal. Maintaining a certain degree of grace would be preferable, I know. You won't see my crying on my own behalf. That's for sure. Other than that - thanks for sticking by. <3

11/4/2021 1:36 PM

Lars F. Bjoerlo (horizonpolaris)

A significant part of this project is to test the system serving as a preliminary model. My experiences with our DOJ and HealthCare are relevant and also indeed devastating if everything is real as in not tampered with by Coach or anyone else.

11/4/2021 1:39 PM

Lars F. Bjoerlo (horizonpolaris)

The system is obviously corrupted and we need to know how and to what extent.

11/4/2021 8:15 PM

Lars F. Bjoerlo (horizonpolaris)

This system isn't as broken as yours, but it could sure benefit from a bottom-up revision.

11/4/2021 8:16 PM

Lars F. Bjoerlo (horizonpolaris)

I'd say we share the same symptoms to a large extent.

11/4/2021 8:18 PM
Lars F. Bjoerlo (horizonpolaris)

But everything is much smaller and generally don't generate so many extreme cases. At least that's how we perceive it. We should take a look. For sure.

11/4/2021 8:29 PM
Lars F. Bjoerlo (horizonpolaris)

Sure. I want back in and stay too. It's not like I have anything better to do...

11/5/2021 1:56 PM
Lars F. Bjoerlo (horizonpolaris)

Hey Coach

11/5/2021 1:56 PM
Lars F. Bjoerlo (horizonpolaris)

miss

11/5/2021 2:02 PM
Lars F. Bjoerlo (horizonpolaris)

Imagine. Daddy's little girl is 16 today.

11/5/2021 3:07 PM

Lars F. Bjoerlo (horizonpolaris)

Yes, by all means, please abduct me, he he ;)

11/5/2021 3:33 PM

Lars F. Bjoerlo (horizonpolaris)

Dire straits, huh? The writing on the wall is everywhere. Uniting is imperative. How to gather the entire world? We're working on it. :)

11/5/2021 10:18 PM

Lars F. Bjoerlo (horizonpolaris)

Think I'm going to bed. Been reducing dosage lately. See ya. :)

11/6/2021 11:29 AM

Lars F. Bjoerlo (horizonpolaris)

Morning. Saturday. I feel worn, but in balance. I am not very influenced by our silent topic, if that's really what you're asking. Other than that I miss Coach, but at least I have my hands full again.

11/6/2021 12:01 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I recall when I stumbled upon the issue first time. I'm glad I've been through this already a dozen times at least.

11/6/2021 12:13 PM

Lars F. Bjoerlo (horizonpolaris)

Which angle of attack against the doubt first? I have a feeling we should prepare for it taking some time. However, it would help "tremendously" to be publicly recognized by the most important institutions...

11/6/2021 12:15 PM

Lars F. Bjoerlo (horizonpolaris)

As I see it it's a question of WHEN to bring in the big guns.

11/6/2021 12:18 PM

Lars F. Bjoerlo (horizonpolaris)

I'd also say that circumstances ultimately determine this exactly somewhere along the road.

11/6/2021 12:18 PM

Lars F. Bjoerlo (horizonpolaris)

If you aren't waiting for a specific event?

11/6/2021 12:28 PM

Lars F. Bjoerlo (horizonpolaris)

Cutting them off is a good idea, but I'd start with the supply of drugs and guns. No more trading with this group. Then watch what happens..

11/7/2021 6:49 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. I'm here. Spent the day thinking and dinner w mum. Still thinking though...

11/7/2021 6:53 PM

Lars F. Bjoerlo (horizonpolaris)

Trying to picture how life will be after I leave my birthplace.

11/7/2021 6:54 PM

Lars F. Bjoerlo (horizonpolaris)

That's different now that the Agenda is back. The other plans I had were nothing in comparison.

11/7/2021 6:55 PM

Lars F. Bjoerlo (horizonpolaris)

Either way I'm aiming across the border.

11/7/2021 6:59 PM

Lars F. Bjoerlo (horizonpolaris)

Feels like I'm exploding and being empty for words. I'm by no means empty, but I too often get the "where to start"-problem.

11/7/2021 7:00 PM

Lars F. Bjoerlo (horizonpolaris)

That's usually when I go quiet and wait until the situation requires me to interact again. All the time observing, of course..

11/7/2021 7:37 PM

Lars F. Bjoerlo (horizonpolaris)

We should be able to make what we discussed yesterday a reality. I don't know Coach's routine, but I'm sure we have access. In time we can start spreading some rumors. Anyway - it's a sensible start.

11/7/2021 8:21 PM

Lars F. Bjoerlo (horizonpolaris)

You don't really need to believe in order to comply with the better sense and go along.

11/7/2021 8:22 PM

Lars F. Bjoerlo (horizonpolaris)

My best bet would be that belief will emerge over time while standing in and coping with the current situation.

11/7/2021 8:35 PM

Lars F. Bjoerlo (horizonpolaris)

Think like this: if there was a God, how would you want that God to be?

11/7/2021 9:04 PM

Lars F. Bjoerlo (horizonpolaris)

I have a feeling that from here on out is more specifically what Jesus died for. What could I do in his shoes? I could not have disregarded your 1st request above all else as a parameter in the paradise you're creating. You've obviously thought this through and I'm not in position to say you're wrong. My mandate ends here, but I'll stand by you as you fight to make your vision real.

11/7/2021 10:05 PM

Lars F. Bjoerlo (horizonpolaris)

There will be a narrative, but after events have taken place.

11/7/2021 10:06 PM

Lars F. Bjoerlo (horizonpolaris)

So we start in the quiet end where one don't want attention.

11/7/2021 10:07 PM

Lars F. Bjoerlo (horizonpolaris)

Not supplying tools of the trade can't possibly hurt.

11/7/2021 10:14 PM

Lars F. Bjoerlo (horizonpolaris)

keep an eye out for intelligence centralizing.

11/7/2021 10:16 PM

Lars F. Bjoerlo (horizonpolaris)

we would want them to make certain assumptions but need to be in control of the narrative.

11/7/2021 10:18 PM

Lars F. Bjoerlo (horizonpolaris)

massive surge of good vibes here :)

11/7/2021 11:31 PM

Lars F. Bjoerlo (horizonpolaris)

Vamos ;)

11/8/2021 5:04 PM

Lars F. Bjoerlo (horizonpolaris)

Hello. Let me know if you have something on your mind.

11/8/2021 5:05 PM

Lars F. Bjoerlo (horizonpolaris)

Watching an old murdercase on netflix..

11/8/2021 6:34 PM

Lars F. Bjoerlo (horizonpolaris)

Personally it's very rewarding that you guys seem comfortable with the nature of what's unfolding. Just the fact that there is a way makes today ages from yesterday. I had expected more noise and friction, but fortunately for us all we found the key to communicate properly. Making sure everything is clear. And it's amazing how smooth and fast things go when you don't question the basics and the integrity of the messenger.

11/8/2021 6:36 PM

Lars F. Bjoerlo (horizonpolaris)

I mean, everything has been questioned at one point, but we don't need to do it over and over. I'm just thinking that this time some new people are invited to see what's going on, and their positive response is greatly appreciated.

11/8/2021 6:37 PM

Lars F. Bjoerlo (horizonpolaris)

It's really going down this time. It's good. We're ready.

11/8/2021 7:25 PM

Lars F. Bjoerlo (horizonpolaris)

..so people wanna see irl? That's understandable. Just let me in on what's going on.

11/8/2021 8:04 PM

Lars F. Bjoerlo (horizonpolaris)

if that's the wise thing to do, sure. I trust your judgement on this one.

11/8/2021 8:32 PM

Lars F. Bjoerlo (horizonpolaris)

Are you ready too Coach?

11/8/2021 8:53 PM

Lars F. Bjoerlo (horizonpolaris)

your call

11/8/2021 9:32 PM

Lars F. Bjoerlo (horizonpolaris)

He he. Sharing a bad day. Well, my position in this is well known. No need to repeat. I just want there to be first and foremost a significant tactical reason for launching the project on to the open stage.

11/8/2021 10:13 PM

Lars F. Bjoerlo (horizonpolaris)

Alright. You know where to find me. All I need is my computers. And a toothbrush.. :)

11/9/2021 1:28 AM

Lars F. Bjoerlo (horizonpolaris)

I'll let you guys agree upon the things you need. Right now approaching bedtime..

11/9/2021 3:24 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Been to work. Spent most of the time reading news from twitter. The fear of Trump's return in 2024 is interesting.

11/9/2021 3:43 PM

Lars F. Bjoerlo (horizonpolaris)

One truth at a time seems reasonable, but which truth first and when to tell it?

11/9/2021 4:01 PM

Lars F. Bjoerlo (horizonpolaris)

Personal info first? Sure? What about state of democracy first? Then a few statements from gvt - then perhaps an introduction to our multiverse....?

11/9/2021 4:10 PM

Lars F. Bjoerlo (horizonpolaris)

Then there's the silent cdc-issue. Do we want to be open about this from the very beginning, along the way or after problem resolved? I'd say either during or after. At least be done with the coverts/black operations before cracking it wide open and most likely create massive civil unrest. It has been waiting on your wish-list for generations. We should maintain this strategy as far as possible in order to be able to choreograph all the forces at work and how they would appear on a timeline.

11/9/2021 4:17 PM

Lars F. Bjoerlo (horizonpolaris)

Shutting down gvt is not happening on my watch. We need policing as well as public services to be more available to most people - not less. Besides - those working for the state/gvt need to be confident that their jobs won't cease to exist all of a sudden. We are now discussing things so far into the future that it's at best speculative. We have no idea how this picture will appear when we reach this crossroad. Let's start up with getting close and personal and make ourselves deserve public trust.

11/9/2021 4:35 PM

Lars F. Bjoerlo (horizonpolaris)

Ok - so I figure the "governmental asset"-approach sketched in those pdf's I made could serve the purpose well. Let me know if you feel strongly otherwise and why, please..

11/9/2021 5:55 PM

Lars F. Bjoerlo (horizonpolaris)

So far so good.. But keep in mind guys that other governments, democratic or not, also have a struggle keeping up with the pace of reality. Everybody need something extraordinary to take place so that it's possible to unite around the measures needed to be taken in order to get things done in time.

11/9/2021 8:58 PM

Lars F. Bjoerlo (horizonpolaris)

So you wanna fight the virus first? I'd also prefer that order, but I'm not yet sure of how to handle things precisely. There are so many variables here, but disarmament and as little violence as possible ought to be the way to go. Right now you can't sell this message - that's what I'm saying.

11/9/2021 10:48 PM

Lars F. Bjoerlo (horizonpolaris)

If you started a campaign on all social levels. I'm thinking of such a vast and overwhelming phenomenon that it will be paralyzing. Use this angle: you didn't keep your end of the bargain. Freedom doesn't seem to work out for you guys, at least not here with us, so we're breaking up with you this time. For good. To make matter sufficiently serious, we have decades of data confirming that deculture follow your genes everywhere yo show your face on this planet. It doesn't make sense that you're still hungry and uneducated, while leeching the system and committing the vast majority of crimes. We've had enough. You're incapable of loving and taking responsibilities. We have higher ambitions here than just feeding the deadweight. If you can blast this message in every medium relentlessly, then what? Right now there are no players with trust except for a certain clown. This would probably just "confirm" Alex Jones' claims, etc etc. You have already had 1 civil war over this. Having a second one over the same issue shouldn't be on the wish list. Thin out and choke, then launch the attack, but from higher ground. This last part better be evident.

11/10/2021 5:17 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. So - the only possible way to do the things we want is to have carte blanche as is in many simulations. Policing or conducting warfare is not within what I can or should engage in. I would have to abide by the constitution as well as the doctor's oath not to inflict harm through my work. That's why I too think rather before than later. Anyway, we have discussed earlier what options we have regarding such a carte blanche. To me it sounds like you've chosen the one that takes the most time and effort. The other option was never my suggestion. We just discussed it. Now that you've come to learn what we can do with time, one has also concluded that time can be provided, thus changing the choice you made to run by the book instead. Probably a wise choice, and it's what I've been preparing for all the time.

11/10/2021 5:47 PM

Lars F. Bjoerlo (horizonpolaris)

If you find that I should be closer before the Agenda takes over, don't be shy to say so. The change of environment would be welcomed as a catalyzer for further changes.

11/12/2021 4:34 AM

Lars F. Bjoerlo (horizonpolaris)

hey guys. been tidying a bit here. Also taken the time to think a little of myself, in the sense that this entire endeavor is complete beautiful madness. Being in the center of it all is absurd. I feel like I'm watching myself from outside, like just standing there in the same crowd as you and witnessing the same event unfold. Very surreal even though I'm well familiar with this "game".

11/12/2021 4:46 AM

Lars F. Bjoerlo (horizonpolaris)

Love is madness. To utterly devote one self with no return is guaranteed. It doesn't make sense, like logics. We create something out of nothing but pure hope and trust. It's magic. Not the voodoo kind, though :/

11/12/2021 4:52 AM

Lars F. Bjoerlo (horizonpolaris)

There's so much out there to embrace. Same go for your problems really. Learn to get to know them intimately. This way you will at least get some ownership of the situation.

11/12/2021 12:51 PM

Lars F. Bjoerlo (horizonpolaris)

Aaah - a few hours of sleep did good. Aaand I left the place in better condition than when I started tidying.

11/12/2021 12:53 PM

Lars F. Bjoerlo (horizonpolaris)

You would probably hate this, Coach, but I almost insist on hard wiring stuff with good old cables. Let's just say I have a few stretching across the floor in my livingroom. Ain't pretty, but extremely reliable :)

11/13/2021 12:58 AM

Lars F. Bjoerlo (horizonpolaris)

Watching "Notting Hill", babe. I imagine that is something we could do curled up in the same couch wearing PJ's..

11/13/2021 2:58 AM

Lars F. Bjoerlo (horizonpolaris)

Aaaaw. Such a romantic movie, he he. Emo-day apparently. It's all good though. See you tomorrow..

11/13/2021 5:08 PM

Lars F. Bjoerlo (horizonpolaris)

Heeey

11/13/2021 6:39 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah fine, thanks for asking. Hope you are too. Got a headsup from my x that my daughter might show up here tomorrow.

11/13/2021 7:43 PM

Lars F. Bjoerlo (horizonpolaris)

My mind is with you all the time even when not saying anything for an entire day.

11/13/2021 11:24 PM

Lars F. Bjoerlo (horizonpolaris)

Alright - natural selection it is. I'm still about bringing as many as I can onboard. You do what you have to do.

11/13/2021 11:37 PM

Lars F. Bjoerlo (horizonpolaris)

Yep. World beyond that goes on forever. When we get there it will be the place for our species to expand in perpetuity. Keep everything else on predetermined sinus rythms. Should work pretty neat. Provided that we learn to keep it 1:1

11/14/2021 3:26 AM

Lars F. Bjoerlo (horizonpolaris)

Very happy with our progress, Coach. Must admit I had expected more of a struggle, but it seems like we're on perfect wavelength. What's gonna happen next?

11/14/2021 3:37 AM

Lars F. Bjoerlo (horizonpolaris)

In particular glad to be able to make Papa happy. These guys are pretty tough to impress and they know exactly what they're looking for. The plan won't work unless launched by a human. This human must possess the correct character to be able to sell it to both non- and believers. In other words, you cannot put up an act. You must lead by example. carry the whole Agenda forward while making people feel safe. Trust me - these things take a lot of time. I'm just extremely satisfied that it's working better than intended. Thank you all. :)

11/14/2021 3:40 AM

Lars F. Bjoerlo (horizonpolaris)

I had expected more fuzz. A lot more. Well, we haven't seen it all yet, but so far so good.

11/14/2021 4:02 PM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. My daughter was just here. I cried. Again. She hugged me. She's such a nice little woman now. Can't really wrap my mind around that.

11/14/2021 4:05 PM

Lars F. Bjoerlo (horizonpolaris)

I want her back one day...

11/14/2021 4:06 PM

Lars F. Bjoerlo (horizonpolaris)

If she only knew...

11/14/2021 10:13 PM

Lars F. Bjoerlo (horizonpolaris)

Think it's lights out here. Xtra sunday for me tomorrow, fortunately :)

11/15/2021 11:05 AM

Lars F. Bjoerlo (horizonpolaris)

I saw this monkey once. It was a baby and it was caged alone with a dummy mother wrapped in barbed wire. They did this to see how it would behave when deprived from physical contact.

11/15/2021 11:05 AM

Lars F. Bjoerlo (horizonpolaris)

The things we do in the name of science..

11/15/2021 11:05 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning by the way..

11/15/2021 11:15 AM

Lars F. Bjoerlo (horizonpolaris)

I starved a spider to death once, like 30 years ago and it still haunts me.

11/15/2021 11:26 AM

Lars F. Bjoerlo (horizonpolaris)

To this day I have always taken the trouble of catching insects and release them outside. Not just smack'em with a rolled up newspaper, like dad always did. I mean, why the hell murder it, right? Pretty sure they appreciate being set free. I had some kind of moth or butterfly-like thing in one corner of my ceiling in the bedroom and I didn't start climbing for it, so I just left it alone. In there it's fairly dark all 24h a day. I think it sat there for almost a week - then suddenly it decided to fly. Then, of course it needed help. Animals are weird. I wonder how they feel and perceive their reality.

11/15/2021 11:29 AM

Lars F. Bjoerlo (horizonpolaris)

Mammals are easy to relate to because they are so closely related to us. And primates are breathtakingly beautiful.

11/15/2021 12:07 PM

Lars F. Bjoerlo (horizonpolaris)

I think maybe the fact that I'm an addict, and have been since my daughter's age, is what kept me grounded while high. The voice in the back of my mind - reminding me all the time what I just did and who I really am.

11/15/2021 12:13 PM

Lars F. Bjoerlo (horizonpolaris)

I didn't have any anxiety before I became addicted to several different things. So you get social anxiety more or less based on your paranoid (or maybe not so) views. I had things I was obliged to do regardless of mental state. Going to meeting, running business, pay bills etc etc etc. I just did everything even though it was hell. I think have something left from not budging to my own psyche.

11/15/2021 12:15 PM

Lars F. Bjoerlo (horizonpolaris)

I've had some 6-7 years off in total since I was 16.

11/15/2021 12:18 PM

Lars F. Bjoerlo (horizonpolaris)

You know, us white guys, we're pretty ambitious on our own behalf. The best medicine for me to stay rational is cannabis.

11/15/2021 12:19 PM

Lars F. Bjoerlo (horizonpolaris)

White man's curse..

11/15/2021 12:19 PM

Lars F. Bjoerlo (horizonpolaris)

..and blessing..

11/15/2021 12:21 PM

Lars F. Bjoerlo (horizonpolaris)

and I wouldn't recommend alcohol to my worst enemy. Sorry guys. Just how I feel about that. But banning it has never been on my mind either.

11/15/2021 6:32 PM

Lars F. Bjoerlo (horizonpolaris)

What you want for xmas honey? ;)

11/15/2021 7:08 PM

Lars F. Bjoerlo (horizonpolaris)

Rumor has it Mary's boychild, Jesus Christ, was born on christmasday. At least that's what Boney M claims... (Wonder where I can find christmas-trance..?)

11/15/2021 7:23 PM

Lars F. Bjoerlo (horizonpolaris)

I need some lights, nisteltoe, a few raindeer and so forth ;)

11/15/2021 7:24 PM

Lars F. Bjoerlo (horizonpolaris)

pardon my spelling here. could have given my right pinkie for som lights in this keyboard too..

11/15/2021 7:25 PM

Lars F. Bjoerlo (horizonpolaris)

o tannenbaum o tannenbaum...

11/15/2021 7:27 PM

Lars F. Bjoerlo (horizonpolaris)

Doesn't really have much to do with Jesus anymore, has it? And Santa? It's a mess, but kids don't get that, he he

11/16/2021 3:55 PM

Lars F. Bjoerlo (horizonpolaris)

Hello there. I'm here watching some documentaries. Wish I could be a fly on Coach's wall. I'm curious about what has been done in my absence...

11/16/2021 6:15 PM

Lars F. Bjoerlo (horizonpolaris)

..like you listening in when people visit me ;)

11/16/2021 6:29 PM

Lars F. Bjoerlo (horizonpolaris)

Truth be told: being under surveillance for such a long time is what makes the people working for the same able to know exactly who they are dealing with.

11/16/2021 6:30 PM

Lars F. Bjoerlo (horizonpolaris)

Huge advantage which also is necessary.

11/16/2021 7:27 PM

Lars F. Bjoerlo (horizonpolaris)

Did you like "relativity3"?

11/16/2021 7:30 PM

Lars F. Bjoerlo (horizonpolaris)

making $c=0$ is a trippy thing to do, but worth the thought experiment.

11/16/2021 8:23 PM

Lars F. Bjoerlo (horizonpolaris)

I can do that. Just tell me where you wanna start - give me a general idea..

11/16/2021 8:54 PM

Lars F. Bjoerlo (horizonpolaris)

You can't solve the sodiumchlorate problem without getting your hands dirty.

11/16/2021 8:55 PM

Lars F. Bjoerlo (horizonpolaris)

chloride, he he

11/16/2021 8:58 PM

Lars F. Bjoerlo (horizonpolaris)

You'd like to keep me secret alap, but need me public tomorrow.

11/16/2021 8:59 PM

Lars F. Bjoerlo (horizonpolaris)

What am I supposed to mean about that - not having your oversight?

11/16/2021 9:13 PM

Lars F. Bjoerlo (horizonpolaris)

I feel I had my part in that. We sketched up logistics 7 years ago and they were all my ideas as I recall it. In addition you could pass the so-called "Voodoo-Act". I believe we discussed that too.

11/16/2021 9:18 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I'm tryna step on the brakes here. Figure this is getting "realer" every day.

11/16/2021 9:22 PM

Lars F. Bjoerlo (horizonpolaris)

I have no regrets in that regard. it is a genuine cdc issue (WHO as well)

11/16/2021 9:23 PM

Lars F. Bjoerlo (horizonpolaris)

natural selection, right?

11/16/2021 9:23 PM

Lars F. Bjoerlo (horizonpolaris)

it's all good

11/16/2021 9:26 PM

Lars F. Bjoerlo (horizonpolaris)

the way I see us is as "force majeure". nature making a decision.

11/16/2021 9:27 PM

Lars F. Bjoerlo (horizonpolaris)

we already know what to expect if it was the other way around.

11/16/2021 9:49 PM

Lars F. Bjoerlo (horizonpolaris)

thinking out loud

11/16/2021 9:52 PM

Lars F. Bjoerlo (horizonpolaris)

the use of ordinary people and their 2nd am properties. make lists. make sure to sync and to keep el o surprise falap. this is the most effective way. you need to determine what to do in advance of this move. Like prisonpopulation, rural areas, etc etc

11/16/2021 9:53 PM

Lars F. Bjoerlo (horizonpolaris)

Then determine high/low profile characters. desireable or not? aware or not?

11/16/2021 9:54 PM

Lars F. Bjoerlo (horizonpolaris)

I just made pancakes and I'm sure I had half a teaspoon salt in it.

11/16/2021 9:56 PM

Lars F. Bjoerlo (horizonpolaris)

And: will there be an exodus? Personally I think that would just be relocating the problem which would persist indefinite.

11/16/2021 9:59 PM

Lars F. Bjoerlo (horizonpolaris)

when you find yourselves in vacancy of lebensraum, I'd suggest you'd fill them w people from the southern continent and europeans.

11/16/2021 11:03 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks. Appreciate being appreciated :)

11/16/2021 11:04 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks to you I can shift my reality focus back again. All of a sudden I have a purpose again. Greatly appreciated, but not fully appreciated just yet..

11/16/2021 11:07 PM

Lars F. Bjoerlo (horizonpolaris)

#workingonit

11/17/2021 12:09 AM

Lars F. Bjoerlo (horizonpolaris)

Bedtime. see ta

11/17/2021 1:06 PM

Lars F. Bjoerlo (horizonpolaris)

I remember many years ago, before ever meeting Coach, that I used to brag that "I could land this flying brick blindfolded". I realize now that this is what you've been training me for.

11/17/2021 1:07 PM

Lars F. Bjoerlo (horizonpolaris)

So when is this wedding of ours taking place? ;)

11/17/2021 1:10 PM

Lars F. Bjoerlo (horizonpolaris)

Most importantly; you never cheated or allowed me to cheat. You never interfered with the experiment.

11/17/2021 1:11 PM

Lars F. Bjoerlo (horizonpolaris)

This happens just because it naturally does. No other reason.

11/18/2021 2:02 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Coach is marrying Owen Wilson, apparently ;)

11/18/2021 2:14 PM

Lars F. Bjoerlo (horizonpolaris)

..and now she's flooding my feed **lol**

11/18/2021 2:15 PM

Lars F. Bjoerlo (horizonpolaris)

I'mma check it out when I get home. Looking forward to listen to it. <3

11/18/2021 2:17 PM

Lars F. Bjoerlo (horizonpolaris)

Her fans are really devoted. Nobody seems to troll her ever.

11/18/2021 4:07 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway - I'm first and foremost familiar w her and not so much her art. I never really call her JLo.

11/18/2021 4:28 PM

Lars F. Bjoerlo (horizonpolaris)

Me too. Have a feeling that our facts should be widely known and discussed before anything else. However there's all the reason in the world to expect mayhem.

11/18/2021 4:37 PM

Lars F. Bjoerlo (horizonpolaris)

the ultimate goal is to get rid of the problem. many variables. what to do first and in which order? How much fuzz do you actually want/need? either way the "2nd event" is long way down on the list, but this is the blow that does the job. Surprise/no surprise? We wind up having multiple solutions here, but are all valid/any good?

11/18/2021 4:37 PM

Lars F. Bjoerlo (horizonpolaris)

upside down it'll be attack first, explain later.

11/18/2021 4:39 PM

Lars F. Bjoerlo (horizonpolaris)

..she knows some serious things about choreography...

11/18/2021 4:57 PM

Lars F. Bjoerlo (horizonpolaris)

hmmm. I hear you Coachie. I can think of something to improve. not disregarding the subject. you wouldn't ask if it wasn't relevant. That much I know, he he ;)

11/18/2021 5:01 PM

Lars F. Bjoerlo (horizonpolaris)

..and when following this line of thought, it's pretty relevant to me as well.

11/18/2021 5:39 PM

Lars F. Bjoerlo (horizonpolaris)

kiss back

11/18/2021 5:49 PM

Lars F. Bjoerlo (horizonpolaris)

Gotta go babe. dinnerw dad.

11/18/2021 10:06 PM

Lars F. Bjoerlo (horizonpolaris)

Heeey. Ladies and Gents, tonights social life is brought to you by common sense and decency, he he

11/18/2021 10:30 PM

Lars F. Bjoerlo (horizonpolaris)

oop there goes gravity again.. :)

11/18/2021 10:31 PM

Lars F. Bjoerlo (horizonpolaris)

it's a sobering issue.

11/18/2021 10:58 PM

Lars F. Bjoerlo (horizonpolaris)

..but this is the essence of me. that should be somewhat soothing I hope. vamos.

11/18/2021 11:01 PM

Lars F. Bjoerlo (horizonpolaris)

It's not that I don't run into conflict from time to time, but I usually don't create them in the first place.

11/18/2021 11:05 PM

Lars F. Bjoerlo (horizonpolaris)

This is by no means impossible, but it certainly requires honoring a code.

11/18/2021 11:07 PM

Lars F. Bjoerlo (horizonpolaris)

code of conduct is the army term.

11/18/2021 11:49 PM

Lars F. Bjoerlo (horizonpolaris)

I should go sleep

11/18/2021 11:49 PM

Lars F. Bjoerlo (horizonpolaris)

up like normal people in the morning

11/19/2021 9:36 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning. Am at hospital for my injection of anti-psychotics.

11/19/2021 9:36 AM

Lars F. Bjoerlo (horizonpolaris)

I do this every other friday.

11/19/2021 9:39 AM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking this is the clever thing to do - at least as long as I keep using drugs that could induce a psychosis. I usually say three things are required for me to get sick; 1. Absence of meds, 2. Lots of drug abuse, and 3. A stress-factor/trigger.

11/19/2021 11:25 AM

Lars F. Bjoerlo (horizonpolaris)

How are you doing today, Coach?

11/19/2021 4:21 PM

Lars F. Bjoerlo (horizonpolaris)

Yess - finally! I checked out the tune. It sort of reminds me about LOVE? in the sense that it's a very simple song, but the way you sing it, with so much feeling, makes me believe this is love :)

11/19/2021 4:48 PM

Lars F. Bjoerlo (horizonpolaris)

Sweeeet. I love them orchids :)

11/19/2021 4:49 PM

Lars F. Bjoerlo (horizonpolaris)

Tell me something. Something you haven't said before, please..

11/19/2021 5:03 PM

Lars F. Bjoerlo (horizonpolaris)

You're beyond description, hon. Keep in mind that even when having visions of grandure, you set the bar at such a level that it intimidates even me. Looking forward to getting used to it, he he. I've never known anyone with the same love you have. Way more than one could wish for. Then there's the celebrity-dimension of it, which is just completely crazy. If the baseline wasn't good enough, make sure everyone in the world know who she is, right? How on Earth get accustomed to such ridiculous amount of attention?

11/19/2021 5:08 PM

Lars F. Bjoerlo (horizonpolaris)

This is plain me talking. Everything looks quite different now when not psychotic anymore..

11/19/2021 5:48 PM

Lars F. Bjoerlo (horizonpolaris)

Live it up, right? I guess I'll have to.. <3

11/19/2021 5:51 PM

Lars F. Bjoerlo (horizonpolaris)

You're the best Coach period.

11/20/2021 3:09 PM

Lars F. Bjoerlo (horizonpolaris)

Hey. Hmmm. Yeah things feel different now. Join me on this thought: say you had the gift of saying the right things while putting on an appropriate face to accommodate your words. Let's imagine an actor who acts every move he has to make.

11/20/2021 3:13 PM

Lars F. Bjoerlo (horizonpolaris)

1. You need nerves from steel in order to put on just any face required, and doing so perfectly. I'm sensing that the contrast between Coach and I are in a sense a bigger concern to me now than how it used to be. Meeting each other after all these intense, lonely years is gonna be so grand, i'm sure for the both of us, that one has to make sure to breathe so you don't pass out.

11/20/2021 3:18 PM

Lars F. Bjoerlo (horizonpolaris)

2. Let's just agree that that actor doesn't really act - he is indeed living it realtime. What used to be an effort of getting one's act together has literally taken over his life. There's no time ever that he doesn't think of the "game", which I should probably call "dance" instead. That's our wavelength currently. We have had many great talks over this common spirit. And I think we all in all have managed to avoid all the classical mars/venus issues.

11/20/2021 3:26 PM

Lars F. Bjoerlo (horizonpolaris)

And by nerves of steel, I mean - could you convincingly pretend something that wasn't real? Every time you talk to some strange person and the first thing on your mind is convincing that stranger of your truth. And by displaying one's truth, one also becomes vulnerable..

11/20/2021 3:30 PM

Lars F. Bjoerlo (horizonpolaris)

Naaah guys. There's no easy way around this one. And I need to handle whatever happens when it happens and get it right on the first go. That's the pressure of the circumstances. Of course I want this new life in front of me, but it's gonna blow my mind regardless of how well me and this woman are acquainted.

11/20/2021 3:40 PM

Lars F. Bjoerlo (horizonpolaris)

Nothing changes the fact that Coach is the safest person I could meet under these circumstances. She can really coach this. So I try not live in a pigsty, while she reaches for some higher fruits. We are both a world away from when we found each other. She needed to make sense of something that was traumatizing and could be extremely moody towards who ever happened to be there. Keep in mind she has some 20 people working in her home. She doesn't even drive herself. I can only imagine.

11/20/2021 3:41 PM

Lars F. Bjoerlo (horizonpolaris)

So we basically feed each other with all this soul-related material.

11/20/2021 3:44 PM

Lars F. Bjoerlo (horizonpolaris)

It's cool to explain things to her, because she gets it straight up. Always. That being said; I really have nowhere to hide... I'm ok with coach always "being" there in the periphery watching and listening in on this guys behavior in his natural habitat.

11/20/2021 4:03 PM

Lars F. Bjoerlo (horizonpolaris)

This experiment was born fall 98. I'm in the 24th year now and has had the privilege of having her by my side, guiding where I couldn't see from my prison cell or whatever. We've been through so many amazing things together. We even broke each other's hearts - more than once. I sincerely from the deepest within love this woman just for the fact that she puts up with me. I love you Orchid-girl. And yes, of course I will marry you. It most certainly does not make sense marrying someone else, huh! That's what I meant when I said we had a mature, healthy thing going here.

11/20/2021 4:14 PM

Lars F. Bjoerlo (horizonpolaris)

She entered my life by releasing an album like 2009, I think. Meaning I didn't look for it before 2010, thus discovering a treasure-trove of information, like declaration of love and instructions - stuff to always keep in mind. I got arrested first time october 4th 2011. And the I think she divorced like february 2012. Anyway, we kept it clean always. So guys - she's been around for pretty much half this quarter of a century. I feel now that I finally talk about her and what I've been thinking, something that I always avoided for tons of reasons really. She knows how I feel. She knew long before she switched me back on some two months ago. It helps explaining how I feel, because it doesn't make that gap seem so wide.

11/20/2021 4:15 PM

Lars F. Bjoerlo (horizonpolaris)

It's covering familiar ground.

11/20/2021 4:53 PM

Lars F. Bjoerlo (horizonpolaris)

What JD just tweeted is not even half of it. Being in the spot likely to take responsibility for such.. knowing exactly what's going on.. the rest isn't rational, but who in this world can really claim sanity? When all comes down to it it is madness that provides the key for some reason.

11/20/2021 4:59 PM

Lars F. Bjoerlo (horizonpolaris)

I wanna share a little story from the first time I got hospitalized with psychosis. There was this other woman, a patient like me, but old enough to be my mother. She was also well dressed and, you know, articulate. Every time the news came at 9 o'clock she would literally weep for all the poor souls struck by disaster somewhere. Obviously this was the reason she needed to be in a hospital for a little while. But it got me thinking: "what if she's the one who gets this right every time?".It's very likely to think that most people are emotionally crippled in some sense. This discussion could last a century, I'm sure.

11/20/2021 5:02 PM

Lars F. Bjoerlo (horizonpolaris)

One's perspective will also alter itself when you go through the end of the world for the 12th time or so. Can't help but evolve in some direction.

11/20/2021 5:03 PM

Lars F. Bjoerlo (horizonpolaris)

If you keep thinking of all those you couldn't save, you would go mad for sure.

11/20/2021 5:24 PM

Lars F. Bjoerlo (horizonpolaris)

I wouldn't say I "feel sorry for myself" like the Holy Father just said. But I do carry a lot of self resentment. I suppose these are quite closely related.

11/20/2021 5:25 PM

Lars F. Bjoerlo (horizonpolaris)

But it's not like I should change it for cockiness instead, he he :D

11/20/2021 11:42 PM

Lars F. Bjoerlo (horizonpolaris)

Yes honey. Your fans are an own breed. They are just plain nice. I can dig that. The secret, our secret, is that we're really geeks doing our thing.

11/20/2021 11:42 PM

Lars F. Bjoerlo (horizonpolaris)

:)

11/20/2021 11:43 PM

Lars F. Bjoerlo (horizonpolaris)

I'm serious! The nerd-factor is important. :)

11/20/2021 11:49 PM

Lars F. Bjoerlo (horizonpolaris)

and words can not express how much I owe you... for being the exact person you are.

11/21/2021 7:58 PM

Lars F. Bjoerlo (horizonpolaris)

Heeey guys. You know what? Earlier I got the keys. Now I've also acquired a license to pilot this rock. Proud of us honey. Wouldn't be possible without you, babe.

11/21/2021 8:00 PM

Lars F. Bjoerlo (horizonpolaris)

It's not like there's a lack of disputes to potentially engage in. I'm so happy that all of you are more interested in what we have in common, rather than fight over religious or other technicalities etc. Evidently we share mindset now.

11/21/2021 8:08 PM

Lars F. Bjoerlo (horizonpolaris)

..and thank you Padre, for meeting me where I am at and for putting your faith in me in spite of all the reasons to fear instead. Today you've sent a message from twitter that has to be as close to the real account as possible. Given the fact that I've agreed to testify later, I take it Father Francesco will use his own identity to vouch for me in public. I'm not in a rush, but one day will require that the Church first informs, and at a later point also identify. It's not that I depend on the Church, because I put most my eggs in the "atheist basket", but we should signal clearly that we are united across faith and ideology.

11/21/2021 8:36 PM

Lars F. Bjoerlo (horizonpolaris)

i don't know when the strategically perfect point in time/sequence of events will be. I trust everybody to be a better judge of that. If the secrecy is difficult to contain, we could of course reevaluate. It's like with the addiction: "...seems like a necessity to some extent, further assessments will be made."

11/21/2021 8:49 PM

Lars F. Bjoerlo (horizonpolaris)

As you might have perceived; I don't like effects that drastically reduces my ability to be aware of my surroundings. I hate waking up in the morning not remembering how I got to bed. So my thing is that I get high/wired, but still present here. It's first the exaggeration of consumption that makes me relatively out in the sense that I could be considerably more productive with some limits to the consumption. And while I haven't quit I have in fact

reduced. A number of things tell me that. There should be some comfort to the thought that I can achieve this level at my worst. It can only get better actually. Cheer up mate! :))

11/21/2021 8:56 PM

Lars F. Bjoerlo (horizonpolaris)

One day I will acquire a physician that will work with me on finding more acceptable "wrapping" to the entire image. Prescribed stuff would make everyone more at ease. Myself included.

11/22/2021 2:28 AM

Lars F. Bjoerlo (horizonpolaris)

Heey - still awake here. Had a friend visiting. We've been "soundclouding" for a while with each our device and preferences :)

11/22/2021 4:33 AM

Lars F. Bjoerlo (horizonpolaris)

Aaah - by "almost there" you mean the part where I claim to be God? Well, I'm really not predispositioned for delusions of grandure, but this "education" of mine wouldn't be much of a project if I didn't take on this question. I could say alot about this, but trying to be short (have to go to bed). 1. If I was God I would have everything to lose by saying so. If not I would be lying.

11/22/2021 4:33 AM

Lars F. Bjoerlo (horizonpolaris)

2 we're all created equal in His image

11/22/2021 4:38 AM

Lars F. Bjoerlo (horizonpolaris)

3. The question of being Jesus reincarnated - I have a strange experience regarding this one from all the way back to 1998, but to keep it short: I had a vision and a sensation that my soul left me to travel in space and time. While being out of myself something/somebody else took refuge in my body. This entity was perceived by my mind as Jesus Christ. But hey - I'm still Lars.

11/22/2021 4:40 AM

Lars F. Bjoerlo (horizonpolaris)

Then the rational approach: What could I possibly gain from such a claim? Would such an idea otherwise taint my logics (of course it would).

11/22/2021 4:42 AM

Lars F. Bjoerlo (horizonpolaris)

And sticking by that I'm not God, I can imagine that others may see it differently. All that said: there are many more dimensions to this universe. How on earth am I supposed to know if God actually became me or vise a versa?

11/22/2021 4:43 AM

Lars F. Bjoerlo (horizonpolaris)

Last but not least: how wise is it to speculate any more around this issue?

11/22/2021 4:43 AM

Lars F. Bjoerlo (horizonpolaris)

I left it there. I'm still Lars. Period.

11/22/2021 5:21 AM

Lars F. Bjoerlo (horizonpolaris)

Oh yes. Them #hooligans are plentiful :/

11/22/2021 5:28 AM

Lars F. Bjoerlo (horizonpolaris)

Anyway - we have what's needed to resurrect the spirit of Christ the way I say it and make way for a second coming.

Atheists shouldn't be in conflict, because they will themselves lay hand on our spiritual project of today. We are trying to find that point in time we all can agree witnessing the same regardless of prior beliefs or lack there of.

11/22/2021 6:30 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Been busy. First this morning I managed to trigger the fire alarm here. Kinda stressed me a bit, but I managed to call off the troops. Then I went to Sweden for some shopping for the first time in a year or so, due to covid-19. And when I got back home I had work to do for SoonVision until now. You guys up to?

11/22/2021 11:22 PM

Lars F. Bjoerlo (horizonpolaris)

Gotta go sleep. Early night for once. See ya.

11/23/2021 2:03 PM

Lars F. Bjoerlo (horizonpolaris)

Wow honey. Thanks for the "follow". It's good if it leads to more direct communication. You must have been scared sh**less from my deteriorating health situation. I'm not sure what would be different if I had known you were there all the time. On the other hand, we would probably not been as successful as we currently are. I love you and you shouldn't have to worry about me dying. I'm the only one who can help you with that. Sorry hon.

11/23/2021 2:03 PM

Lars F. Bjoerlo (horizonpolaris)

Any DM's on that new profile of yours?

11/23/2021 8:35 PM

Lars F. Bjoerlo (horizonpolaris)

Huh. Welcome to psychology session w dr polaris. You've heard what's going on here I presume? ;)

11/23/2021 9:44 PM

Lars F. Bjoerlo (horizonpolaris)

Finally alone. Had a good time. I'm just glad it's not me having to struggle w both myself and girlfriend. However - as far as Coach goes, her being around again has been totally unexpected and I'm gradually taking in that I'm responsible for the happiness of her too. At least to a certain degree. I don't wanna be that "guy in a wheelchair" without actually having a wheelchair. We're both too young and vital to become senior citizens, to put it that way. I'm the only one who has in this regard a significant job to do.

11/24/2021 12:04 AM

Lars F. Bjoerlo (horizonpolaris)

Babe? Midnight here. I'm trying to normalize stuff. If I could get out of bed earlier... Anyway, I made some dinner and I'm not staying awake till sunrise. Feeling physically good today, btw. Hope it eases your mind a bit. I love you and I'm sorry.. **KISS** <3

11/24/2021 12:14 AM

I'm sending these messages as DM's to @nybatmamma1, right? I you wanna join in, Coach - let me know if you want the password to log onto @nybatmamm1.

11/24/2021 11:56 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning everybody. I take it most of you are still in bed. I'm getting increasingly worked up here. All of a sudden I have gone from having none to having at least half a dozen major issues to deal with, and it's emotionally intense in different directions. I think this is probably what's known as "confusion". I don't experience that a lot. I've spent way too many years waiting for my destiny to fulfill itself. Now that it has I'm looking back at the last 15 years and remember institutions mostly. Something inside me which I had before is missing. It's difficult to define, but I think it might be hope that died along the way..

11/24/2021 12:09 PM

Lars F. Bjoerlo (horizonpolaris)

And as far as Coach goes, she has had major impact on me psychologically. It's always the Agenda first and the same goes for her. Then there's the personal stuff. Initially I didn't wanna complicate things by falling in love, so I was strictly business, besides she was married. The way things ended really did some serious emotional damage and it has come to my attention that this can't fix itself over night. This time we'll have to meet before I can feel safe about the outcome here. Are you paying attention? Did you notice that this suddenly takes first priority - not the Agenda? -Exactly what I've been trying to avoid. So even when separating business and pleasure from the start, it gets to a point where you are so emotionally invested and attached to this other person that if something goes wrong you'll be rendered useless. An emotional wreck.

11/24/2021 12:23 PM

Lars F. Bjoerlo (horizonpolaris)

Well, the "bad habits" rose from something and they weren't an issue in 2013, to put it that way. I'm taing it seriously and working to get to the bottom of this. The most apparent realization is that I'm severely misplaced.

11/24/2021 12:26 PM

Lars F. Bjoerlo (horizonpolaris)

..and now we're running circles..

11/24/2021 12:31 PM

Lars F. Bjoerlo (horizonpolaris)

I can lose track of God and everybody else, because if anything fails it's on me. But you're right: I also have a foundational support. Thx for the reminder :)

11/24/2021 2:51 PM

Lars F. Bjoerlo (horizonpolaris)

He he out skating on thin ice here. Not very important, though. Just killing off some time. How about you guys? Are there any fixed points in this fluid spacetime I should or could know about? In particular curious about a strategic event and personal interests co-existing in the same time and space. I take it that's the way it'll have to be..

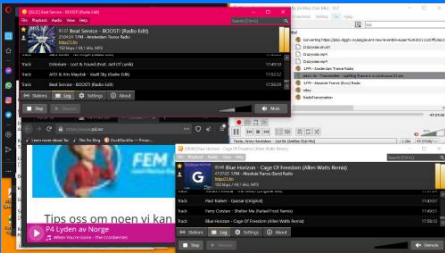

11/24/2021 3:02 PM

Lars F. Bjoerlo (horizonpolaris)

I really enjoy engaging in this "thing" of ours. Sometimes I wish I could just talk about something forever. I think her presence and participation will drastically change how I go about my days.

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Hey Coach. Pope tweeted about society should protect women from violence and abuse, which is a noble cause, but I can't help thinking of abuse the other way. I say let's put an end to psychological violence as well wherever it exists!

11/25/2021 3:21 PM

Lars F. Bjoerlo (horizonpolaris)

I understand you guys are working frenetically 24/7, but that doesn't make me any less curious ;)

11/25/2021 3:25 PM

Lars F. Bjoerlo (horizonpolaris)

Miss you babe.

11/25/2021 6:50 PM

Lars F. Bjoerlo (horizonpolaris)

gotta go attend a dinnerparty w guys from work.

11/25/2021 10:16 PM

Lars F. Bjoerlo (horizonpolaris)

I'm back

11/25/2021 11:00 PM

Lars F. Bjoerlo (horizonpolaris)

yeah I'm restless as f*** too. I just thought I should keep it to myself, ha ha :D

11/26/2021 5:48 PM

Lars F. Bjoerlo (horizonpolaris)

Hello room :)

11/26/2021 6:45 PM

Lars F. Bjoerlo (horizonpolaris)

You're inspired. That's good. Glad to see that. I myself am thinking today. The drug-issue is always top of the list. I'm sick of having it there. I need different kinds of problems. Thanks to you guys and your heroic efforts, I'm starting to see more and come alive again. I know that procrastination won't change the nature of the problem. So it's definitely time to do. Knowing my weakness, I rarely make promises, but maintain the ultimate goal. Because then one day I might surprise in a good way.

11/26/2021 7:06 PM

Lars F. Bjoerlo (horizonpolaris)

The blissful feeling is mutual. We're not wasting any energy on disputes.

11/26/2021 7:08 PM

Lars F. Bjoerlo (horizonpolaris)

Everybody can trust that all are doing their best.

11/27/2021 3:02 AM

Lars F. Bjoerlo (horizonpolaris)

I'm here. Not going anywhere except to bed soon. :)

11/27/2021 3:38 AM

Lars F. Bjoerlo (horizonpolaris)

I will be around. I'm not sure how much, because days with no intake will be somewhat unpredictable. Anyway - I have to stabilize some sensible baseline here. The goal is to become

more productive and predictable. I wanna be able to make plans for next week, if you get my drift. And last, but not least, I don't wanna expose Coach to this any more than necessary.

11/27/2021 3:42 AM

Lars F. Bjoerlo (horizonpolaris)

I have something to hold onto now. I have you guys. So if I fade a little, it's only temporary. The outdoors are great at winter time. I'm gonna spend some time in the woods. Bringing my camera.

11/27/2021 4:16 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah I figure I'll pay some attention and assess what I'm seeing. The otherwise silence isn't the same as absence. I'm gonna feel crappy. You don't need to hear that over and over. If that's all I can think any given moment, I silence myself. Like I said temporary.

11/27/2021 4:20 AM

Lars F. Bjoerlo (horizonpolaris)

temporarily. g'nite...zzz

11/27/2021 11:52 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning. Saturday. No plans. All I'm going to do is buy some groceries and most probably just stay at home and eat and sleep.

11/27/2021 11:54 AM

Lars F. Bjoerlo (horizonpolaris)

Dissolve? I wonder how you will pull that off.

11/27/2021 5:25 PM

Lars F. Bjoerlo (horizonpolaris)

Hon? What do you want to do our first day together?

11/27/2021 5:31 PM

Lars F. Bjoerlo (horizonpolaris)

And what will you do with your entertainment career? Imagine having this conversation face to face..

11/27/2021 5:41 PM

Lars F. Bjoerlo (horizonpolaris)

Darn. You're good at complex messages...

11/28/2021 12:07 AM

Lars F. Bjoerlo (horizonpolaris)

Hepp hepp. Going to bed. Will probably get up again in a few hours..

11/28/2021 12:36 AM

Lars F. Bjoerlo (horizonpolaris)

Don't worry. I don't wanna miss a thing <3 :=

11/28/2021 12:36 AM

Lars F. Bjoerlo (horizonpolaris)

:)

11/28/2021 5:52 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Been in bed all day, but still kicking...

11/28/2021 5:59 PM

Lars F. Bjoerlo (horizonpolaris)

Hoping this will pass in days - not weeks.

11/28/2021 6:58 PM

Lars F. Bjoerlo (horizonpolaris)

cristopher clark on tv. sweet.

11/28/2021 7:04 PM

Lars F. Bjoerlo (horizonpolaris)

I have ambitions of getting a warm meal too today..

11/28/2021 7:19 PM

Lars F. Bjoerlo (horizonpolaris)

my most important customer also needs to quit. he has landed a job with kids. without him it's useless, besides I have my own reasons. anyway - we talked about it.

11/28/2021 8:25 PM

Lars F. Bjoerlo (horizonpolaris)

I wouldn't do what I was doing if it wasn't for him and vice a versa. It requires one to stop though..

11/28/2021 8:26 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm dinner beep.

11/28/2021 8:29 PM

Lars F. Bjoerlo (horizonpolaris)

It has been a 0 thing. Use half, sell half equals 0.

11/29/2021 1:31 PM

Lars F. Bjoerlo (horizonpolaris)

Hey. Dunno what to say.

11/29/2021 1:32 PM

Lars F. Bjoerlo (horizonpolaris)

not convinced this will turn out well, but not giving up just yet

11/30/2021 11:24 AM

Lars F. Bjoerlo (horizonpolaris)

hey guys. fourth day.

11/30/2021 12:22 PM

Lars F. Bjoerlo (horizonpolaris)

been out for a walk in the snow. I'm so much horizontal that I need to strengthen my lower back. One should be able to stand for a day.

11/30/2021 12:27 PM

Lars F. Bjoerlo (horizonpolaris)

But paying attention here is not so easy.

11/30/2021 12:28 PM

Lars F. Bjoerlo (horizonpolaris)

Well, it's a good thing that I have a life off the screen.

11/30/2021 12:45 PM

Lars F. Bjoerlo (horizonpolaris)

I'm imagining a completely different regime for my mind on the other side.

11/30/2021 12:46 PM

Lars F. Bjoerlo (horizonpolaris)

An ideal diett, no meds and maybe, just maybe some microdosaging of psylicibin.

11/30/2021 12:49 PM

Lars F. Bjoerlo (horizonpolaris)

you guys are way more liberal when it comes to the mind than the governmentally ran setting I'm currently subjected to.

11/30/2021 7:03 PM

Lars F. Bjoerlo (horizonpolaris)

court case approaching also. lawyer called.

11/30/2021 7:20 PM

Lars F. Bjoerlo (horizonpolaris)

my silence is due to what you know. I must expect this to be the new normal until I produce my own endorphines again.

11/30/2021 7:27 PM

Lars F. Bjoerlo (horizonpolaris)

I can say this: Even though I feel like hit by a train, I feel better in terms of the normal cardio-experience. Now it's a question of slowly increasing activity.

11/30/2021 7:29 PM

Lars F. Bjoerlo (horizonpolaris)

..and I am primarily thinking of activities that will produce endorphines.

11/30/2021 7:29 PM

Lars F. Bjoerlo (horizonpolaris)

..like walking for instance

11/30/2021 7:32 PM

Lars F. Bjoerlo (horizonpolaris)

yeah I'm thinking next summer is not a bad frame for this whole thing to become adapted again.

11/30/2021 7:47 PM

Lars F. Bjoerlo (horizonpolaris)

fortunately being this flat emotionally is temporary, but it's the price to pay when getting rid of such a problem. I trust "fate" to have the right measure of time.

11/30/2021 7:48 PM

Lars F. Bjoerlo (horizonpolaris)

I know how I feel about it, so I don't get confused by the flatness...

11/30/2021 8:27 PM

Lars F. Bjoerlo (horizonpolaris)

..after a while I should try pick up on the story I'm writing in norwegian..

12/1/2021 11:40 AM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. There are things I wish I could discuss in private with Coach. You posted a phone number for fan sms. I didn't write it down. Please post again if so.

12/1/2021 12:42 PM

Lars F. Bjoerlo (horizonpolaris)

at work actually working. I have this unprioritized pile. that's all there is.

12/2/2021 2:46 PM

Lars F. Bjoerlo (horizonpolaris)

Hmm I'm thinking. I should start another project in english while finishing the norwegian one. I gotta figure out how to capitalize on TTS engines.

12/2/2021 2:47 PM

Lars F. Bjoerlo (horizonpolaris)

If I only could write myself to you..

12/2/2021 4:55 PM

Lars F. Bjoerlo (horizonpolaris)

I wish I had you right here to discuss all the steps and what to write about when.

12/2/2021 11:19 PM

Lars F. Bjoerlo (horizonpolaris)

Heyall. Sometimes I frustrate from the lack of basic face to face talk. Anyway - I'm struggling to come up with a plan audacious enough to regain some control of my physical self. I'm as devastated as humanly possible. I need a fix. Because when this reality became irrelevant, I disregarded everything without really watching what memories went out the window. The matter is unpleasant to deal with. Clearly poorly ended emotional circumstances. I could really use you Jen-Jen. I simply have to break outta here.

12/2/2021 11:24 PM

Lars F. Bjoerlo (horizonpolaris)

Can you imagine what it does to your soul when failing in such a task and then the show is over? I've been so thoroughly battered by boredom. The result is numbing - extreme numbing. Perfect baseline for the american text I'm currently planning.

12/2/2021 11:26 PM

Lars F. Bjoerlo (horizonpolaris)

I know from experience that obsessing about it won't do any good. I have to detach. I feel I'm perfectly able to.

12/3/2021 9:38 AM

Lars F. Bjoerlo (horizonpolaris)

Hey. Was somewhat interrupted yesterday. What I was saying was that imagine what damage you inflict upon your soul when you have to deny what took place, or at least the validity of it in terms of common reality? Telling yourself that you're crazy, it was all a bad dream, etc? That's what it took to become normal. And now that I'm here - it's not all that great coming from a guy who has saving the world as his single purpose on earth. Not indulging in the local controlled substances environment will at any given time reduce my social mingling by at least 95%. This is not a joke to me. And I need them damn drugs. For better or for worse. It's just that my body vetoes any further substance abuse. I'm cornered and I haven't even considered Coach yet. You get me, Padre?

12/3/2021 9:43 AM

Lars F. Bjoerlo (horizonpolaris)

Nevertheless, I'm obliged to make the best of my circumstances.

12/3/2021 9:43 AM

Lars F. Bjoerlo (horizonpolaris)

Just put it together - make it work somehow.

12/3/2021 9:44 AM

Lars F. Bjoerlo (horizonpolaris)

I'm glad we had this talk.

12/3/2021 9:54 AM

Lars F. Bjoerlo (horizonpolaris)

And you Coach... I'm happy for you and I try to keep up with all the things you are doing at this stage, but I'm having concerns making enjoying anything difficult. I gotta come out on top of this health issue. I know I can trust you to be both patient and understanding. But there's only so much you can ask of your woman. She does have her own life to consider, and Lord knows this one in particular does.

12/3/2021 10:02 AM

Lars F. Bjoerlo (horizonpolaris)

I have given her up before. I can do it again if the situation requires it, but I would like her to stick around of course..

12/3/2021 10:13 AM

Lars F. Bjoerlo (horizonpolaris)

Either way, despite cheating yesterday, I will continue my present course and stop selling amphetamines in order to sustain my own use. Usage will still occur, but most likely an amount that can be combined with a healthy body. The way I see it I'm better off not being the source with the neverending supply on which to get high.

12/3/2021 10:16 AM

Lars F. Bjoerlo (horizonpolaris)

I'm able to accept the fact that I'm empty and then just wait to see what happens next. But usually I have a lot more than I need. Being empty doesn't happen much. I suggest it should.

12/3/2021 10:33 AM

Lars F. Bjoerlo (horizonpolaris)

I brought something back from the other side. That's ultimately what I'm here for.

12/3/2021 10:37 AM

Lars F. Bjoerlo (horizonpolaris)

Whatever it takes, remember?

12/3/2021 12:53 PM

Lars F. Bjoerlo (horizonpolaris)

I just love you so much, baby. Doing the best I can to meet up with the standards you deserve. Right now that's all I can say..

12/4/2021 4:34 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Been sleeping long. Have no plans this Saturday night. Staying sober.

12/4/2021 4:41 PM

Lars F. Bjoerlo (horizonpolaris)

I'm glad we have an understanding. My task is to make sure drugs don't get in the way of the job.

12/4/2021 4:41 PM

Lars F. Bjoerlo (horizonpolaris)

Working on it.

12/4/2021 5:08 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway, it means as little as possible. I need many clean days a week if I am to regain some sort of control. A minimum of stamina without stimulants is the objective.

12/4/2021 5:09 PM

Lars F. Bjoerlo (horizonpolaris)

It really helps that I have a sensible reason.

12/4/2021 5:14 PM

Lars F. Bjoerlo (horizonpolaris)

And it helps not having lots lying around.

12/5/2021 2:17 PM

Lars F. Bjoerlo (horizonpolaris)

Hey everybody. Pope is really intense I can see. Not much to share from here. Day is still young.

12/5/2021 2:18 PM

Lars F. Bjoerlo (horizonpolaris)

I feel his urges to do something though..

12/5/2021 7:29 PM

Lars F. Bjoerlo (horizonpolaris)

I took that urge and started cleaning my apartment. I'm having an important visitor next weekend. In addition to also showering I cleaned the shower too. :)

12/5/2021 7:32 PM

Lars F. Bjoerlo (horizonpolaris)

vacuumed almost all, dishwasher working and another machine w clothes going..

12/5/2021 7:57 PM

Lars F. Bjoerlo (horizonpolaris)

Yup. I am butt naked in here. Not really a nudist in real life, but this task requires total transparency.

12/5/2021 8:02 PM

Lars F. Bjoerlo (horizonpolaris)

Being so studied and scrutinized in every way - one would think it's easy to lose one's mind. It would have for sure if it wasn't such a routine. I think from 1998 till today, I've been lead though all the major stages in a doomsday scenario. The only thing that always has been clear: it's coming to an end one way or the other.

12/5/2021 8:14 PM

Lars F. Bjoerlo (horizonpolaris)

So planning for that impact - perhaps control when, out of this come many options. Accepting the intimate surveillance became part of the deal. Instead of feeling invaded, I felt like now the stage is mine, let's cooperate with the intruders and form relationships. According to "them" this feature is unique for me. But it's also what makes the simulations so real. Having had all the fires in my brain already is not only fortunate, but necessary.

12/5/2021 8:16 PM

Lars F. Bjoerlo (horizonpolaris)

I've seen my share of worst case scenarios. Now let's avoid them.

12/5/2021 9:36 PM

Lars F. Bjoerlo (horizonpolaris)

Coach and you have had many years to make suggestions regarding sequence? I take it you have pretty solid opinions by now.?

12/5/2021 9:39 PM

no matter what you decide from now on; I'll be hitting ground running.

one day at a time

12/8/2021 2:55 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. At work. Got a tool I've been waiting for in order to get to the bottom of my pile. Hope you're ok.

12/8/2021 8:06 PM

Lars F. Bjoerlo (horizonpolaris)

Hello again. Home . Dinner about now. I see you guys are entertained without me, which is very good :)

12/8/2021 10:31 PM

Lars F. Bjoerlo (horizonpolaris)

I haven't been too optimistic for a long time, but as far as reality now goes, we're experiencing a lot less friction than expected. Speaking for myself, of course..

12/8/2021 10:36 PM

Lars F. Bjoerlo (horizonpolaris)

I'm trying to shape an idea about english texts made available. Save it all for a book-project or blog the entire story entry by entry?

12/8/2021 11:40 PM

Lars F. Bjoerlo (horizonpolaris)

difficult to estimate how productive I'll be short term. I have this endorphine-issue as you know. But long term? I won't try to predict just yet. Besides - I'm looking for ways of making it a conversation. Anyway - I'm going to have my share of static problems being here, but in the really long run - it's gonna be a winner for sure. :)

12/8/2021 11:45 PM

Lars F. Bjoerlo (horizonpolaris)

and I'm kinda focused on trial next friday. Meeting lawyer before weekend. I suspect I must fire him when we meet.

12/9/2021 4:28 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Been to work. Did what was intended. Meeting lawyer tomorrow. I'm just ever so slightly positive about my defense, which this time means attack first from the start. Geez. How did it come to be theatre? Judged by performance? Or logics? Sincerity? Who knows what mood the administrator is in? This circus will determine the next three year of my life. I'm just positive because this time I know how to explain myself. Besides, I have way more momentum now that I've done 6 years without committing any further crimes or getting sick again. DA is there to talk about what he doesn't know. Should go game-set-match, veni vidi vici, he he he. If it was only that easy to get around the court's prejudices.

12/9/2021 5:32 PM

Lars F. Bjoerlo (horizonpolaris)

Wish I could go to one of my retreat cities. Usually those are Copenhagen, Hamburg and Amsterdam. I could use Hamburg-prices in Amsterdam. Either way - hotel is expensive and doesn't last many days. All that said - I've had some nights out in the open and been some shady places too, in order to save some.

12/9/2021 8:36 PM

Lars F. Bjoerlo (horizonpolaris)

Hey'all. Dinner at dads. I take it you've been eavesdropping on our covid-talks. I mean, wtf?

12/9/2021 8:37 PM

Lars F. Bjoerlo (horizonpolaris)

When even dad engages in "worst case scenario" like some conspiracy theorist, I think it's safe to assume lots of people do.

12/9/2021 8:38 PM

Lars F. Bjoerlo (horizonpolaris)

This coming from me; the paranoid psychotic, he he

12/9/2021 9:02 PM

Lars F. Bjoerlo (horizonpolaris)

I wonder how they deal with all that personal distrust. I mean, to anti-vaxxers Joe Biden must be Satan himself. My question goes: "how can you deal with half the country thinking you're a criminal elitist scheming with the 1%?" What I'm also saying is I don't want your job, Joe. It sure puzzles me why you do it.

12/9/2021 10:01 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I really need to get outta here. Not just sayin' for the sake of complaining. I feel better and visually much less to look at. It's still insane though. I know what to do, but these wheels ain't turning the other way easily. Persistence is the strategy. Keep trying, keep trying, keep trying and all reduction is for the better.

12/9/2021 10:04 PM

Lars F. Bjoerlo (horizonpolaris)

I have to use this angle rather than viewing the first attempts as failure. We're getting there no matter what. Not necessarily pretty, but we are heading for the same destination. :)

12/10/2021 9:08 AM

Lars F. Bjoerlo (horizonpolaris)

My train is soon in Oslo. Listening to Coach's "LOVE?", actually ;)

12/10/2021 1:13 PM

Lars F. Bjoerlo (horizonpolaris)

Feel so urban in the capital today, he he. It's almost exactly 1year since last time I was here. I was in the middle of a raid, but got dismissed and expelled from the city. That cost me some 1000€.

12/10/2021 1:16 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway - thinking of Coach. I suppose that old guilty pleasure "LOVE?"-album still can serve as a reminder and motivation. I love you hon. *kiss*

12/10/2021 1:22 PM

Lars F. Bjoerlo (horizonpolaris)

And the cosmos keep throwing signs my way. It's not as if I need them to be convinced of the reality of my own role as chosen. Never been more convinced, really. I don't know why or what the difference is from when I was struggling with belief, but as of now I'm totally convinced from my own mind alone. I don't need external signs to understand that you actually need my Agenda to move forward.

12/10/2021 1:22 PM

Lars F. Bjoerlo (horizonpolaris)

..and me alive and well with it..

12/10/2021 1:54 PM

Lars F. Bjoerlo (horizonpolaris)

I'm ok dear. It's just so hollow these days. Facts/circumstances seem to totally crash with my depressive mindset. Only way to cope is by staying numb. It's not that I don't care about this part, but right now it's the only thing that makes me feel human and that being me has a purpose other than general consumption.

12/10/2021 1:55 PM

Lars F. Bjoerlo (horizonpolaris)

I was made for loving you and that's what I'll do. Regardless.

12/10/2021 4:20 PM

Lars F. Bjoerlo (horizonpolaris)

Getting good vibes from my trance feed. Maybe being judged by performance ain't so bad after all ;)

12/10/2021 4:55 PM

Lars F. Bjoerlo (horizonpolaris)

It's not overcourage or cocky, but in spite of my handicap I'm still confident of ultimately prevailing on every count. Not talking this trial next week. I'm thinking bigger in the long run. In fact I know I will. So certain that I'd go far as to making promises in respect to favorable outcomes. In other words: I think us. Not just me.

12/10/2021 4:57 PM

Lars F. Bjoerlo (horizonpolaris)

I know how to keep a clean act while governing something/someone.

12/10/2021 4:58 PM

Lars F. Bjoerlo (horizonpolaris)

By the book kinda guy. Not easily knocked out of balance.

12/10/2021 5:03 PM

Lars F. Bjoerlo (horizonpolaris)

Well, the day they figure out just who they've been pushing around all these years, I hope they realize that I am all of their cases, thus creating some hell in the DA's office. I'm not in this for the hell of it, but I always appreciate sincere regrets and the willingness to correct errors.

12/10/2021 5:25 PM

Lars F. Bjoerlo (horizonpolaris)

Freckin' pagans, he he. I think Papa knows exactly what I put in this term. You don't necessarily have to be a Christian in order to obtain peace of mind in your eternal souls. The very idea of Christ is bigger than religion, so to speak. I also think that traditional atheists would have something to gain from just spiritual awareness in itself. We can easily provide without branding it Christian.

12/10/2021 5:34 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah it's a pretty sorry sight. That's why we need a coordinated event of doomsday proportions. It's literally last resort.

12/10/2021 5:36 PM

Lars F. Bjoerlo (horizonpolaris)

Forcing ourselves upon peoples sense of reality out of pure necessity is cool. Physical force/enforcement is a totally different issue.

12/10/2021 5:42 PM

Lars F. Bjoerlo (horizonpolaris)

Most matters have universal aspects that could serve as a general idea on how to solve different specific problems.

12/10/2021 5:45 PM

Lars F. Bjoerlo (horizonpolaris)

Just imagine how much matter there is that you could label either abstract or not much concretely. These are the values in need of clarification and definition.

12/10/2021 5:45 PM

Lars F. Bjoerlo (horizonpolaris)

Values/sizes

12/10/2021 5:46 PM

Lars F. Bjoerlo (horizonpolaris)

Better judgement has evidently disappeared. Or was it ever there?

12/10/2021 5:59 PM

Lars F. Bjoerlo (horizonpolaris)

Mum brought me up to govern right with the general public. When it comes to operating in grey zones or flat out illegal waters, I've had uncle Sam and my own experience. The imprisonment I had to undergo will provide that side with some legitimacy and credibility. There are different rules on each side of the law. Most are based on common sense. And being honest is a winning strategy also w these people.

12/10/2021 6:09 PM

Lars F. Bjoerlo (horizonpolaris)

In short: mum is the talker and the doer. Dad on the other hand provides analysis and deeper thinking. You could say he's doing the quality check on any given idea.

12/10/2021 6:13 PM

Lars F. Bjoerlo (horizonpolaris)

Mum was such a rigid figure in terms of grey zones that she actually consistently denied flowers or any gift linked to her political efforts. "There are many ways to corruption", she used to remind me.

12/10/2021 6:15 PM

Lars F. Bjoerlo (horizonpolaris)

..pointing out moral corruption as well as beneficiary ways..

12/10/2021 6:19 PM

Lars F. Bjoerlo (horizonpolaris)

To sum up what everybody feel in their hearts: when dealing with people, please take great care. We want to be able to trust you with our lives. This is sadly not the case anymore. Nobody really cares. That's all we need. For you to care while conducting your office.

12/10/2021 6:58 PM

Lars F. Bjoerlo (horizonpolaris)

I'm in for a thrill as "shake the silence".

12/10/2021 6:59 PM

Lars F. Bjoerlo (horizonpolaris)

Must be far more interesting than watching covid.

12/10/2021 8:01 PM

Lars F. Bjoerlo (horizonpolaris)

That's something to want. Something that means something. I don't get tempted by stuff that doesn't matter. I have nothing to gain from more wealth, power or sexual escapades. And I'm sufficiently cold and dry to not automatically attract such. It's almost a problem in the sense that I should be more occupied with different earthly goods and the conquest of the opposite sex, and it's not because of the meds. I think it's a symptom of depression, but as time has gone by I've begun to prefer it this way. It can be a little frustrating sometimes to only have those large, megalomaniac ideas and concepts and no urges to entertain other than those "shining" things ahead in the future. Actually come to use. Imagine that. Heh..!

12/11/2021 12:45 AM

Lars F. Bjoerlo (horizonpolaris)

Sorry guys, but I have a date with not only one, but three pillows. And they are just too tempting right now. :)

12/11/2021 4:11 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. Been sleeping and busy ever since. My friend from childhood is here soon. Have a few things left to do before I can let him in. 20min more and I'll be done. See ya. :)

12/12/2021 2:48 PM

Lars F. Bjoerlo (horizonpolaris)

I'm glad you guys find it entertaining to listen in. This guy represents the outter right wing, while I have always been as far left as possible. Observing us you must have noticed how close we are on agreeing on whatever. I remember us banning political topics back when we were young. These days we're practically the same, but we still vote like we always did. Conclusion must be we have a society with great degree of consensus regarding the basic values of our system.

12/12/2021 5:13 PM

Lars F. Bjoerlo (horizonpolaris)

I'm by myself again. Anything particular on your minds?

12/12/2021 5:39 PM

Lars F. Bjoerlo (horizonpolaris)

I must admit I haven't really familiarized myself with your current administration, but Joe's allegedly struck by Alzheimer and his VP is allegedly a bitch and a bully. If this is the real case, 2024 won't come fast enough and you run a genuine risk of making yet another catastrophic election which could be the last.

12/12/2021 5:52 PM

Lars F. Bjoerlo (horizonpolaris)

I knew it! I knew we feel the same way about this and that my Norwegian leftism wouldn't further complicate things on your political scale. Even though democrats could be considered "closer" to our labor party than republicans, the real differences there are ideologywise don't necessarily crash the same way you're used to. There is another option in theory to the left which doesn't suffer from any of the traditional conflicts.

12/12/2021 5:57 PM

Lars F. Bjoerlo (horizonpolaris)

I'm really looking forward to the actual work begins. Even if I had to face the music in my current shape. (I'm a devil at adapting to circumstances when I have to)

12/12/2021 6:08 PM

Lars F. Bjoerlo (horizonpolaris)

I hope you realize that I can't arrange (or pay) for my journey. I mean screw the DA here, but before I leave anywhere I'm going to be backed up with all the documentation I need + tickets in order to go. Doing this journey on my own initiative like 2013 is firmly out of the question because it would be catastrophic if I got rejected by immigration and sent back, or got arrested for you know what in 2013. I know the law. I may have to stand trial for that day all over again in the US. So the visa must include a greencard and a job and an address. Needless to say; I don't wanna stand criminal trial for that thing and my intention is to stay and apply for citizenship.

12/12/2021 6:58 PM

Lars F. Bjoerlo (horizonpolaris)

I don't mind hiding indoors the Assange way if I have to. I have to start living some time soon. Having an office next to Coach's would be the ultimate solution to begin with. I know how you feel about me being covered by my real identity, but hey...(been here before. nuff said)

12/12/2021 7:12 PM

Lars F. Bjoerlo (horizonpolaris)

As long as nobody associated me w her I'd be anonymous just like this for as long as it takes. Let's talk true risk assessment: are there any provided I keep my head down?

Lars F. Bjoerlo (horizonpolaris)

"But now I'm safe in the eye of the tornado. I can't replace the lies that let a 1000 days go. No more living trapped inside - in Her way I'll surely die - in the eye of the tornado - blow me away".

12/12/2021 7:25 PM
Lars F. Bjoerlo (horizonpolaris)

The only thing I'd like to say regarding such a journey; I should probably arrive by sea..?

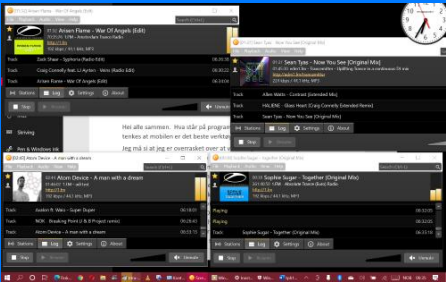

12/12/2021 7:35 PM
Lars F. Bjoerlo (horizonpolaris)

Funny you should mention personality. This is largely something you consciously choose. I had a few rounds trying to figure out how much room there was for one's own personality on top of the role I'm here to fill. You can't do just anything - that's for sure, but I found I had surprisingly much room for just being myself.

12/12/2021 7:53 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah I get the desire to be utmost cautious with this asset, but we both need to be together. If it really isn't any difference from situation a to b - then I suggest you may let our personal interests actually lead the way for once - being sure it's the right thing to do.

Yes there is one

12/13/2021 9:39 AM
Lars F. Bjoerlo (horizonpolaris)

I personally believe we reincarnate, however - in this 11dimensional multiverse, we have no natural way of perceiving what other ways of existence there are. It's a system of many aspects. Being reborn as human sounds like a sweet deal, but very spiritual people in Asia would like to transcend this level and become something else. I suppose you could find any reality and infinite realities - also planes/realms you'd associate with hell, for that matter. I'm somewhat confused about all the possibilities and how it works generally speaking, but point is we basically live forever.

12/13/2021 9:43 AM
Lars F. Bjoerlo (horizonpolaris)

I'm a sucker for cosmic justice, really... But I have no idea what eternal damnation would be.

12/13/2021 9:44 AM
Lars F. Bjoerlo (horizonpolaris)

It could be complete silence, darkness and emptiness.

12/13/2021 9:47 AM
Lars F. Bjoerlo (horizonpolaris)

Awareness, but no stimuli whatsoever forever.

12/13/2021 9:48 AM
Lars F. Bjoerlo (horizonpolaris)

Personally I don't think God does that to anyone.

12/13/2021 9:52 AM
Lars F. Bjoerlo (horizonpolaris)

He figures out exactly where your soul needs to be in order to cleanse or evolve or whatever. And so it happens you get created. The things we argue and fuzz about here are really far off from the things we should be paying attention to.

12/13/2021 9:54 AM

Lars F. Bjoerlo (horizonpolaris)

And God's a sport too. If you don't believe, He won't take it personal because a certain quantity of everything belongs in the picture - our creation.

12/13/2021 11:39 AM

Lars F. Bjoerlo (horizonpolaris)

We're not really meant to go out in the vastness of space. There's nothing out there for us. And not ignoring the UFO activities here on Earth - I have a theory; the typical grey type of alien, for instance, might not be physical beings at all. They could, for all we know, be some kind of avatars operated from another dimension by those who created them. Don't take any of this too literally - I'm just thinking out loud. Point is we can't just go to another place. There is no such option as far as we're concerned. We have this planet for the foreseeable future. We better behave upon Her.

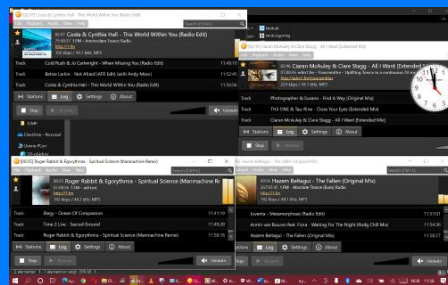

12/13/2021 11:47 AM

Lars F. Bjoerlo (horizonpolaris)

We have all seen enough of space to get an idea of how fortunate we are to have exactly this planet. There are several amazing cosmic relations that literally makes the planet a living entity in itself.

I could give you a general advice if you find yourselves imagining being hit by a ton of bricks the day you must account for your life here as human: don't be so hard on yourself. Really. You're allowed to be human with all the shortcomings that belongs with the territory. Just give it some thought every once in a while and try to make sure you're in balance karma-wise, if you see what I mean. Love, learn, improve, evolve. :)

12/13/2021 1:17 PM

Lars F. Bjoerlo (horizonpolaris)

..besides: life don't always deal with absolutes. Just know you made an effort. We owe ourselves a decent life. The moment your space grows on someone else's expense is when you're in trouble. Keep your head cool and be reasonable when the confrontation arrives.

Lars F. Bjoerlo (horizonpolaris)

And why should we?

12/13/2021 9:31 PM
Lars F. Bjoerlo (horizonpolaris)

We're created in His image, right? To me this means we all carry divine potential - the ability to understand the entity we call God, thus almost becoming Gods, only limited by the fact that you are locked inside a living human body. However, you'd be surprised of how far we can stretch the concept of omnipresence. Anyway - we should be able to understand this force if we learn to know ourselves.

12/14/2021 12:21 AM

12/14/2021 4:40 AM
Lars F. Bjoerlo (horizonpolaris)

Normally I use 1,2 or 3 random radio broadcasts. If my eyes and hands are busy I can only pay attention to the one I'm listening to. Two is really the minimum for looking after serious patterns. 3 requires significantly more attention, but the data from 3 points are so much stronger. Today guys I've had 6 channels in my feed at the same time. It still amazes me too that it's so ridiculously effective.

12/14/2021 5:05 AM

4 on 1 pc, 2 + twitter&music on big computer, and finally 1 instance running on my phone, he he. I really like writing on the TV screen. Usually I can fit both my document and a small window with some active content in the corner. But sometimes I run the video on the computer right next to me and completely occupy the 55 inch with text. Only thing that annoys me with this pc pair is that there's a huge difference between the two and the sound they put out. The tablet is awful in comparison with the main laptop from Dell. I suppose I've always consumed alot of multimedia. The day I discovered the broadcast wasn't random, but actually talking to me - imagine... (Now I have completely lost it)

12/14/2021 5:09 AM
Lars F. Bjoerlo (horizonpolaris)

Even though it happened and more and more similar stuff kept on happening, and even though I've always had my faith, I just couldn't wrap my head around that this was happening. I flat out automatically doubted what I was looking at on a daily basis. His obvious presence.

12/14/2021 5:15 AM
Lars F. Bjoerlo (horizonpolaris)

What I'm trying to say is that this takes time to sink in and get digested. Nobody's gonna hassle you along the way. Keep your own pace. The restored faith will come as a natural result sooner or later. You don't have to feel guilty about not being able to believe it's real in spite of watching. Happens all the time. And honestly - I still get a "trippy" sensation of it all, but it's nice though.. :)

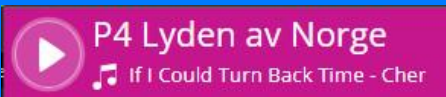

12/14/2021 5:21 AM

12/14/2021 5:28 AM
Lars F. Bjoerlo (horizonpolaris)

Yeah there's all the reasons in the universe to embrace this experience with optimism. We won't have to fall into every trap along the way as realizations appear in logical order. You're gonna learn alot from your own mind. That's not easy if you're freaked out by this immense presence. And because I know this landscape like the back of my hand, I can assure you there's no need to fear that evil will take over and destroy everything. We are together in charge of this massive time apparatus.

It's usually pretty dark in here and I use alot of candles. Sometimes even during daytime. I can close both blinders and curtains and stay in the darkness for days in a row sometimes. In fact, while I was crazy, I sat some 3 months in solitary confinement. I taped black garbage bags

over the window in my cell and I never spent my designated hour a day in the yard. Normally people start suffering symptoms of isolation, start talking to themselves (which I also did), but I didn't stop caring about my hygiene or went bananas in my cell or anything. I've met people who has been in solitary for so long that they can't even fix their sight on something right in front of them. Their eyes are rolling backwards/up like frequently while having a conversation. Anyway - prison doc worried about me, but at the same time he said I coped remarkably well with the long period of confined, dark space.

12/14/2021 5:52 AM

Lars F. Bjoerlo (horizonpolaris)

There is one thing worse than solitary; - a security cell. I was mazed with real CS and dragged down there, but that's another story. Did I mention I was in belts once and all I could do to express my anger was pee on myself on purpose. Sorry - I'm stopping right here :)

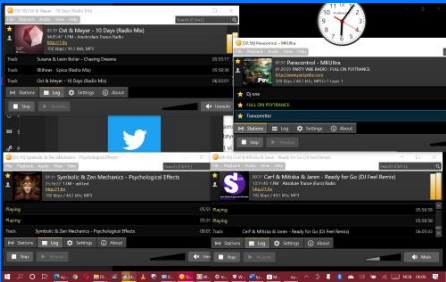

12/14/2021 6:03 AM

Lars F. Bjoerlo (horizonpolaris)

BTW I'm not counting right. 7 streams with my handheld device. I'm on overtime here. Should have tranquilized myself and gone to bed, but it's full throttle now until I'm done in court sometime friday. I just don't care, but I sense discomfort of the entire setting. The trick is to make sure one doesn't get too agitated. My state of mind should be suitable, but it doesn't really matter.

Anyway - this has been time well invested. I like talking about these things, because it calms me down.

12/14/2021 6:11 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah I was also thinking about the framework referred to as MKUltra. It's a helluva story. Best thing - a perfect Hollywood script with a happy ending. Kids are gonna see this, you know..

12/14/2021 6:52 AM

Lars F. Bjoerlo (horizonpolaris)

If chemtrails are real? I don't know, but I'm stuck with a notion of how trustworthy these claims are. I'm afraid not much. I call it low fidelity information that conspiracy theorists are weak for. I can't dismiss it just like that, but I am left with an option of speculation. I personally am taking a wild guess in the search for a plausible explanation.; what if they were conducting some measures to restore the ozone-layer? And if so, do these chemicals have sinister side effects for biology exposed to this mystery compound? I find this line of questioning so little intriguing that I abandon it not fully answered. I just can't see that the gvt would spray us with poison for any given reason.

#HEY to you too. I just received the archive in javascript, but it ends 7/8th of october. Bummer.

12/14/2021 4:17 PM

Lars F. Bjoerlo (horizonpolaris)

I wanna burst out! I mean I just want my closest relatives to know, but as always, I have no proof just yet.

12/14/2021 4:21 PM

Lars F. Bjoerlo (horizonpolaris)

I'm guessing they won't know until the day it's on the 9 o'clock news. That's at first when things are real by my parents' standards. But cosmos is weird. When psychotic I heard them countless times come with statements implying they knew exactly what was going on. I burned myself on this assumption numerous times. There's no way in hell I'll be trying that ever again.

12/14/2021 4:46 PM

Lars F. Bjoerlo (horizonpolaris)

SETI really made my day, he he. I like those guys for some reason, but they're so distant from those who "hang with aliens" on a daily basis. It's a crazy world and it's time we got rid of all the inconsistencies. Anyway - I hope I made SETI's day too :)

12/14/2021 5:44 PM

Lars F. Bjoerlo (horizonpolaris)

You're inviting to a discussion about what to expect from here. It'll have to be later. I'm going out, but in general surprising people too much isn't a good thing. I'm determined to stay transparent. Short answer, but remind me again sometime.

12/14/2021 5:47 PM

Lars F. Bjoerlo (horizonpolaris)

Oh yeah that part. Catching a tiger. I'm not sure talking about it will do any good. The logistics should be mostly prepared as far as I can tell.

12/14/2021 10:24 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah we got off good from start. I say this gains even more momentum and that we could surf it effortlessly at least for quite some while. At least we're covered now on safe ground and ready to go.

12/14/2021 10:26 PM

Lars F. Bjoerlo (horizonpolaris)

I would be surprised if we got detected. In particular because it hasn't happened this far.

12/14/2021 10:31 PM

Lars F. Bjoerlo (horizonpolaris)

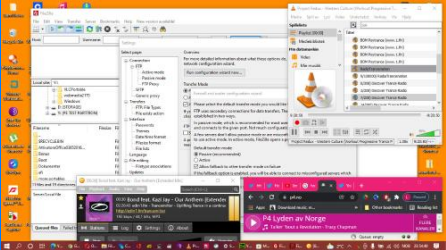

In any case; there are of course once in a while things I choose not to discuss here, like that tiger project. It's way too late to bring something new to the table now and what is not on the record won't stick, strictly spoken.

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Been with dad and talked for a while about my case friday. He also thinks its a pre-determined case.

12/15/2021 4:07 PM
Lars F. Bjoerlo (horizonpolaris)

An old friend of mine just popped by. You get different clients on your door when you switch your merch. Anyway - I've been paying attention to the feed and I don't know what to say when faced with all these superlatives, but it makes me feel proud in the humblest possible way. I'm still busy working on our current situation and there's always more from earlier that could use a second thought. With all these things to work out I get focus. I suppose it's called being best under pressure.

12/15/2021 4:11 PM
Lars F. Bjoerlo (horizonpolaris)

At least pressure of the positive kind. With an inspiring task and this standing ovation over the way I puzzled all the elements of our salvation plan, I'm forced to realize this is called success. Indisputable success indeed. I really knew this all along, but it still blows my mind too. That's why I don't stay in that zone for extended periods of time.

12/15/2021 4:24 PM
Lars F. Bjoerlo (horizonpolaris)

Anyway - it really means a lot to me personally to get approval for the science of this as for my religious beliefs.

May I go back for revenge at this local justice system? I really don't think I'm gonna get some closure on this one. I've written it off, but sure, vengeance would taste great, unchristian as it is. :)

12/15/2021 4:52 PM

12/15/2021 6:01 PM

Lars F. Bjoerlo (horizonpolaris)

I can't say whatever's on my mind at all times. That's why it would be useful with a talk somewhere else. It concerns us - nobody else.

12/15/2021 6:01 PM

Lars F. Bjoerlo (horizonpolaris)

I suggest you think about it. For real this time.

12/15/2021 6:02 PM

Lars F. Bjoerlo (horizonpolaris)

Then I'll do the same.

12/15/2021 6:03 PM

Lars F. Bjoerlo (horizonpolaris)

That didn't sound right. I did not just give you an ultimatum. I'm doing the best I can at my part regardless, of course.

12/15/2021 6:09 PM

Lars F. Bjoerlo (horizonpolaris)

It hardly deserves bein described as a sacrifice. It has to happen given the nature of our reality.

12/15/2021 6:11 PM

Lars F. Bjoerlo (horizonpolaris)

You have my permission to start nagging on Sunday. Deal? :)

12/15/2021 6:26 PM

Lars F. Bjoerlo (horizonpolaris)

12/15/2021 6:42 PM

About that: finding a sun studio here proves to be difficult. I might know some backdoor in a place. I can at least ask.

12/15/2021 7:05 PM
Lars F. Bjoerlo (horizonpolaris)

We talked about the sense of self earlier. I'm not really used to think of myself as a god and neither should I. I said back then that I'm open to the idea that others may perceive this differently. That's just something I can't relate to. At least not yet.

12/15/2021 7:11 PM
Lars F. Bjoerlo (horizonpolaris)

I'm Lars. Nice to meet you too :)

12/15/2021 7:49 PM
Lars F. Bjoerlo (horizonpolaris)

I don't see what you see, but I'll take your word for it. I know there must be good reasons when you put it that way. I have always trusted your judgement. Not gonna start questioning it now. And in public? No way! :)

12/15/2021 8:52 PM
Lars F. Bjoerlo (horizonpolaris)

Well, lucky you caught me at a good time then ;)

12/15/2021 8:54 PM
Lars F. Bjoerlo (horizonpolaris)

That I wasn't busy chasing girls or being in the looney bin or both, ha ha :D

12/15/2021 8:58 PM
Lars F. Bjoerlo (horizonpolaris)

You've basically answered my question. Life hasn't been so cool "lately". You didn't really have to say that. The fact that you're still there makes you far beyond driven. The next realization is that you obviously miss us.

12/15/2021 9:03 PM
Lars F. Bjoerlo (horizonpolaris)

And I'm far beyond in love with you. Again. Let's just make this happen according to plan.

12/15/2021 9:06 PM
Lars F. Bjoerlo (horizonpolaris)

There's not much to say about the 7 years that went other than I became an adult. It was painful and I wish I could start growing from success instead of failures.

12/15/2021 9:11 PM
Lars F. Bjoerlo (horizonpolaris)

We both know this material must be accompanied by the creator which also has to have the right personality to deliver such an Earth-shaking message that will last forever. There was nothing wrong with my motivation in 2013. I just wasn't ready at that stage. I see that now. Besides I needed to process all the things that led me to Berlin.

12/15/2021 9:14 PM
Lars F. Bjoerlo (horizonpolaris)

But we learned from Berlin that I actually am able. I was just uncut - a little rough around the edges.

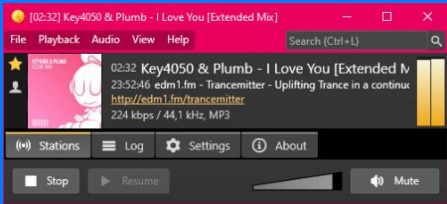

12/15/2021 9:18 PM
Lars F. Bjoerlo (horizonpolaris)

I see that now also. When you suddenly appeared here again you did so because you wanted to initiate tests to see if I was ready. You wouldn't have done that unless you felt confident.

12/15/2021 9:20 PM
Lars F. Bjoerlo (horizonpolaris)

At hospital. My nurse is such a sweet girl. Under observation for the next 3h.

12/16/2021 1:27 PM
Lars F. Bjoerlo (horizonpolaris)

Btw I had my main client from before visiting yesterday evening. Not because I could help him, but because he still owes me some money for some other not drug-related stuff. I sold him an iPhone and a vintage skateboard. Anyway - he kept going on how nice my apartment has become now that I don't poison myself to sickness. There is a development here. Next step should necessarily be to change my method of consumption while I continue to scale it down

towards 0. Not looking forward to it, but this gig here is gradually starting to matter more and more to my self.

12/16/2021 3:49 PM

12/17/2021 7:33 AM

12/17/2021 4:59 PM

Lars F. Bjoerlo (horizonpolaris)

So you got your peekaboo. Reasonably slim in comparison to the period I drank beer every day, but still have some tummy. The man on the photo is 45 and has been a junkie since before 20. My doctor said that if she hadn't known she wouldn't suspect. It has happened I've been assumed to be in my late 20's. I'm actually not kidding :)

12/17/2021 5:01 PM

Lars F. Bjoerlo (horizonpolaris)

I'm vain enough to be happy with the way my body treats me still. And I direct my appreciation towards my maker.

12/17/2021 5:08 PM

Lars F. Bjoerlo (horizonpolaris)

I have no other issue than my drug abuse. No glasses, no allergies, no diabetes (my healthy brother has), never catch anything, top q seeds, high lung capacity, etc etc

12/17/2021 5:09 PM

Lars F. Bjoerlo (horizonpolaris)

All the others are dead, so I have all the reason to be grateful and humble.

12/17/2021 5:12 PM

Lars F. Bjoerlo (horizonpolaris)

It means getting off drugs and on exercise is relatively easy and rewarding pretty quickly. Again in relative terms. Not getting younger. Last time I was fit was 2013.

12/17/2021 5:15 PM

Lars F. Bjoerlo (horizonpolaris)

I ran 3100m in 18min. Closing in on military demands 3k 15min.

12/17/2021 5:28 PM

The most important thing though is that lately I've been displaying some sensible fatherhood qualities. And where I'm going I don't want to be in need of anything else than food and air.

12/17/2021 5:52 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks Coach. I'll hold you to it, ha ha :D

12/17/2021 5:53 PM

Lars F. Bjoerlo (horizonpolaris)

But seriously.. You blow my mind. We might just have started on our path of success as a team.

12/17/2021 6:11 PM

Lars F. Bjoerlo (horizonpolaris)

You ask how it feels. Well, the messianic part is so leveled that I don't take any notice. But I've been sidelined for so long that I too have a sense of awakening more and more as we go. My only concern is to get things right and, of course, watch out for psychotic breaks. We don't want them. At least not right now, he he. We'll see what people are willing to propose in terms of experimenting. If you could be temporary psychotic for 12 hours and then return, it may produce something of value.

12/17/2021 6:12 PM

Lars F. Bjoerlo (horizonpolaris)

Never tried hypnosis for that matter. I can say right here and now I don't think it'll work, but many had to eat those words.

12/18/2021 2:54 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah. Ending up only smoking weed would be ideal. However - addictions never are.

12/18/2021 2:56 PM

Lars F. Bjoerlo (horizonpolaris)

One thing's for sure: I get much more critical to my own person while smoking weed, which is a good thing.

12/18/2021 5:43 PM

Lars F. Bjoerlo (horizonpolaris)

I feel like going to bed again, but that's ridiculous

12/18/2021 5:44 PM

Lars F. Bjoerlo (horizonpolaris)

or more like preposterous

12/18/2021 7:46 PM

Lars F. Bjoerlo (horizonpolaris)

pancakes for dinner. no store. complete zombie

12/18/2021 7:47 PM

Lars F. Bjoerlo (horizonpolaris)

it's kinda good giving into the need to rest

12/18/2021 8:09 PM

Lars F. Bjoerlo (horizonpolaris)

Honeybabe? I love you if you didn't know it :)

12/19/2021 11:40 AM

Lars F. Bjoerlo (horizonpolaris)

Hello guys. Nice weather here today. I should take a walk.

12/19/2021 2:45 PM

Lars F. Bjoerlo (horizonpolaris)

Right now I'm compareable to a pile of cr**, but I still have positive thoughts. This is what I've been waiting for. Going for a minor adjustment today, but no needles.

12/19/2021 2:47 PM

Lars F. Bjoerlo (horizonpolaris)

It's about being stronger than the problem. Takes some time..

12/19/2021 2:55 PM

Lars F. Bjoerlo (horizonpolaris)

Alright. Let's see in 30min.

12/19/2021 3:00 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not a fan of the store being open on sundays, but today I'll have to use that.

12/19/2021 3:04 PM

Lars F. Bjoerlo (horizonpolaris)

..and with that difference, being able to remain positive, I might have something to say while detoxing. If I can't state anything useful I'd rather shut my mouth. But too much of that isn't good either..

12/19/2021 3:12 PM

Lars F. Bjoerlo (horizonpolaris)

Yes apparently He stresses that no work shall be done Sundays.

12/19/2021 3:12 PM

Lars F. Bjoerlo (horizonpolaris)

Still I have a feeling He owes a few people who always work.

12/19/2021 3:14 PM

Lars F. Bjoerlo (horizonpolaris)

Like Coach for instance.

12/19/2021 3:21 PM

Lars F. Bjoerlo (horizonpolaris)

I say "alright we'll keep it in mind until the day it gets appropriate on the larger scale again." In other words: we'll get back to that in the future.

12/19/2021 3:25 PM

Lars F. Bjoerlo (horizonpolaris)

I think that 30min went. Feeling like now no complaints. The rest is up to myself basically. Imagine if I had access to my own gym with Coach holographically appearing and so on - ha ha :D Outrageous!!

12/19/2021 3:26 PM

Lars F. Bjoerlo (horizonpolaris)

I wonder how a program tailored by her would look like..

12/19/2021 3:34 PM

Lars F. Bjoerlo (horizonpolaris)

But all in all guys; the changes I made lately have paid off. Even though I'm not confronting this aggressively, it would necessarily change direction, thus making it easier.

12/19/2021 3:39 PM

Lars F. Bjoerlo (horizonpolaris)

I've been trying to picture what Coach would tell me in a gym. Dancing is her main art, so all the beauty and health is from there as I see it. And last but not least the topic of food. Very interested to learn what she knows about that.

12/19/2021 4:32 PM

Lars F. Bjoerlo (horizonpolaris)

When introduced to our concept, everyone bought it in favor of the alternatives. That's because this is the right one and either way half the cost.

12/19/2021 4:35 PM

Lars F. Bjoerlo (horizonpolaris)

I believe every human harbor good. I also believe the same humans to prefer good if having a choice.

12/19/2021 4:57 PM

Lars F. Bjoerlo (horizonpolaris)

Not going anywhere unless God strikes me dead.

12/19/2021 5:00 PM

Lars F. Bjoerlo (horizonpolaris)

which is highly unlikely provided the massive effort to keep me alive.

12/19/2021 5:46 PM

Lars F. Bjoerlo (horizonpolaris)

Yes whatever fear you still have left in your bodies; embrace it. Be one with it. Realize you have been left with a choice. Nobody but circumstances are pressuring.

12/19/2021 5:47 PM

Lars F. Bjoerlo (horizonpolaris)

As long as you dare to follow is what I think.

12/19/2021 5:48 PM

Lars F. Bjoerlo (horizonpolaris)

The other direction is hardly an alternative.

12/19/2021 5:48 PM

Lars F. Bjoerlo (horizonpolaris)

For this reason I never differed between believers and non-believers.

12/19/2021 5:51 PM

Lars F. Bjoerlo (horizonpolaris)

All I want is genuine people. Feel me?

12/19/2021 9:53 PM

Lars F. Bjoerlo (horizonpolaris)

Time flies. Tomorrow I must do my christmas shopping. Bedtime soon.

12/20/2021 11:18 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning. Today I'll have to do the xmas shopping, most importantly find something for my daughter. Thanks Coach for being so flexible and tolerant. God knows how many times I must have disappointed you the last 7 years, not knowing about your presence.

12/20/2021 11:51 AM

Lars F. Bjoerlo (horizonpolaris)

I could give my left arm to know how your plan looks like. In particular in between now and next summer.

12/20/2021 11:58 AM

Lars F. Bjoerlo (horizonpolaris)

An estimate on how many who knows at this point?

12/20/2021 2:50 PM

Lars F. Bjoerlo (horizonpolaris)

I'm back hon.

12/20/2021 2:58 PM

Lars F. Bjoerlo (horizonpolaris)

Critical race theory, huh?

12/20/2021 4:35 PM

Lars F. Bjoerlo (horizonpolaris)

You've told me a lot. Enough for me to want to wake up in this reality again. Taking into account the 7 years that passed which you spent working on it further, the deals of today are a direct result of your management. I really am curious about the view from where you stand, Coach.

12/20/2021 4:41 PM

Lars F. Bjoerlo (horizonpolaris)

Needless to say; I'm forever grateful that I have you and that you are the exact person you are. I'm having difficulties imagining anybody else in your place. I wish I could ask you directly

what on earth made you this devoted? And just listen to that mysterious explanation in your own words. The closest I get to your own words is that instruction-album, but it's over 10 years old now, you know.... What kept you going all alone with all the uncertainties of the future?

12/20/2021 4:43 PM

Lars F. Bjoerlo (horizonpolaris)

Just hope? Wow.

12/20/2021 4:46 PM

Lars F. Bjoerlo (horizonpolaris)

I had to bury it for the sake of my sanity. Knowing how I felt I can now also imagine how you feel. You make me speechless, Jenny from the block...

12/20/2021 4:50 PM

Lars F. Bjoerlo (horizonpolaris)

Given our sense of natural belonging it makes me think that we've always known each other in that other place where we all seem to come from.

12/20/2021 4:52 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I sorta changed. Remember the first time I realized you were in my room? I was so pissed by the invasion of my privacy, remember?

12/20/2021 4:58 PM

Lars F. Bjoerlo (horizonpolaris)

This time my first emotional reaction was something similar. I was more apprehensive than I expressed at the time. I could easily have held grudges, but I realize our journey no matter how painful is actually leading somewhere. My second thought was just how bad I had been missing you. Even though you were dead to me, I congratulated you on your birthday more or less every year - this year too. I loved you more than what's good for me and here we go again, my precious Love. <3 :*

12/20/2021 5:01 PM

Lars F. Bjoerlo (horizonpolaris)

I know. Crazy. You're a seasoned veteran basically.

12/20/2021 5:02 PM

Lars F. Bjoerlo (horizonpolaris)

You're not the kind of woman one walks away from unscarred.

12/20/2021 5:06 PM

Lars F. Bjoerlo (horizonpolaris)

Must have been a frustrating puzzle I can imagine..

12/20/2021 5:07 PM

Lars F. Bjoerlo (horizonpolaris)

I do remember giving "homework" for the rest of our lives. Is there anything we never discussed?

12/20/2021 5:15 PM

Lars F. Bjoerlo (horizonpolaris)

But back to the changes: with them you died. Reviving the impossible I think boyfriend Lars did face all his regrets while you were gone. I finally figured out what won't fly with Ms Jennifer Lopez. And it's not complicated at all. For me it means just "hold the line" in the sense that I don't fall back on my ego when making choices regarding our personal relationship.

12/20/2021 5:18 PM

Lars F. Bjoerlo (horizonpolaris)

Pride won't do me any favors.

12/20/2021 5:19 PM

Lars F. Bjoerlo (horizonpolaris)

nor will impatience

12/20/2021 5:23 PM

Lars F. Bjoerlo (horizonpolaris)

And you're very aware of yourself, thus never displaying anything like that.. It goes both ways. You are or have become the most patient person I've ever known.

12/20/2021 5:25 PM

Lars F. Bjoerlo (horizonpolaris)

You're abiding by your own codes and that's admirable.

12/20/2021 5:29 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway - I've had lots of time and nothing but the past to think of. 7 years of that will necessarily leave its mark somehow. I chose to see what was on the other side of bitterness. Something like this maybe...

12/20/2021 5:31 PM

Lars F. Bjoerlo (horizonpolaris)

The biggest difference is of course the insanity that goes with a psychosis, even relatively mild ones.

12/20/2021 5:33 PM

Lars F. Bjoerlo (horizonpolaris)

Just completely disassemble my reality once and for all and deny all that didn't make sense anymore.

12/20/2021 5:33 PM

Lars F. Bjoerlo (horizonpolaris)

I don't think that could have been done any other way and I know you feel me on this one.

12/20/2021 5:39 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah. Loneliness has a new meaning now.

12/20/2021 5:41 PM

Lars F. Bjoerlo (horizonpolaris)

So when you want to put your brand on this, I should stay the hell away for my own good :D

12/20/2021 5:41 PM

Lars F. Bjoerlo (horizonpolaris)

lol

12/20/2021 5:45 PM

Lars F. Bjoerlo (horizonpolaris)

That's another thing about project sobriety; the ability to say stuff while in withdrawal. Maintain a certain flow. When your care-mode is switched off due to everything, it takes time to realize it's back in order to stay and deliver.

12/20/2021 5:54 PM

Lars F. Bjoerlo (horizonpolaris)

It's stuff like this that makes us unique as a team. We're basically dancing. Sometimes something will require much time. But here's where we sort of coach each other. Nobody has immediately recognized me and what I have like her. Call it instinct. We were inseparable from day 1. And please remember that this relationship was proper in respect to the fact she was married at first. We begun romancing when there was space for such. Sorry Jen for not asking all the questions I should, but they're of a private matter. It's not that I'm detached or anything. I could like ask about the kids, your x, etc etc. It'll have to be another day.

12/20/2021 6:00 PM

Lars F. Bjoerlo (horizonpolaris)

It's just weird how we get one another. I have no experience close to this. Ok babe. You've convinced me. This is happening. The long way home.

12/20/2021 7:00 PM

Lars F. Bjoerlo (horizonpolaris)

You have your reasons. I'm fine with that. No stress.

12/20/2021 7:02 PM

Lars F. Bjoerlo (horizonpolaris)

It's probably the most efficient shield you could get. Amazed that these guys are there for you when called upon. Glad they feel like helping you out.

12/20/2021 7:06 PM

Lars F. Bjoerlo (horizonpolaris)

Appreciate it guys.

12/20/2021 7:18 PM

Lars F. Bjoerlo (horizonpolaris)

Mixing us and drug problem was never my plan though. Caught me with my pants down there, so to speak. There were many dimensions to the surprise you gave me in september. But baby know this; you're perfect. Wouldn't had it any other way. Ok? You're good. Thanks :)

12/20/2021 7:31 PM

Lars F. Bjoerlo (horizonpolaris)

Happy I could surprise you too in a good way. No way of knowing before trying, right? I needed a few things confirmed myself. Being sane and rational and at peace with the past brings other results.

12/20/2021 7:35 PM

Lars F. Bjoerlo (horizonpolaris)

It's easier for me to be patient now. I literally have all the time in the world. We've been tested here. No doubt. Well, there was never anyone else in my mind. (submitting my horrible conduct in Manila as evidence)

12/20/2021 7:56 PM

Lars F. Bjoerlo (horizonpolaris)

Miss you too Jen-Jen.

12/20/2021 7:57 PM

Lars F. Bjoerlo (horizonpolaris)

Provided you have some serious birthdayplans, I'm cool.

12/20/2021 7:59 PM

Lars F. Bjoerlo (horizonpolaris)

sounds like a plan..

12/20/2021 8:10 PM

Lars F. Bjoerlo (horizonpolaris)

Seriously?

12/20/2021 8:11 PM

Lars F. Bjoerlo (horizonpolaris)

Again: only you can pull off something like that.

12/20/2021 9:06 PM

Lars F. Bjoerlo (horizonpolaris)

hmmmm

12/20/2021 9:30 PM

Lars F. Bjoerlo (horizonpolaris)

You're used to the spectacle and commotion out there. Wonder how I'll feel..?

12/20/2021 11:08 PM

Lars F. Bjoerlo (horizonpolaris)

Think I'll sign off, but first Merry Christmas to you too, Angels <3

12/20/2021 11:17 PM

Lars F. Bjoerlo (horizonpolaris)

Denying reality isn't a good strategy for survival. This is not a direct threat - merely an observation. I think I said in september already that those who exclude themselves aren't our problem.. The should be free to.

12/21/2021 12:13 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. What's on today's program, dear?

12/21/2021 12:58 PM

Lars F. Bjoerlo (horizonpolaris)

Wow them old pictures...

12/21/2021 12:59 PM

Lars F. Bjoerlo (horizonpolaris)

I think we're gettin' old babe ;)

12/21/2021 3:59 PM

Lars F. Bjoerlo (horizonpolaris)

zup hon? me here.

12/21/2021 4:20 PM

Lars F. Bjoerlo (horizonpolaris)

about arguments in general: one can't expect always to agree with one's partner, but we early on defined what could or couldn't be a valid arguement. I think most of the classic mars/ venus problems are embedded in our foundation.

12/21/2021 6:38 PM

Lars F. Bjoerlo (horizonpolaris)

...and should we happen to be alone and fight about something - there will be rules as in what's allowed to say and not. There's an imaginary belt-line, so to speak.

12/21/2021 6:40 PM

Lars F. Bjoerlo (horizonpolaris)

..and "sorry" is very good from time to time. Always room for improvement I suppose.

12/21/2021 7:46 PM

Lars F. Bjoerlo (horizonpolaris)

It is possible to keep a conflict civilized, by all means.

12/21/2021 7:47 PM

Lars F. Bjoerlo (horizonpolaris)

thus learning something in the process..

12/21/2021 7:49 PM

Lars F. Bjoerlo (horizonpolaris)

But there are non-issues. Like jealousy.

12/21/2021 7:50 PM

Lars F. Bjoerlo (horizonpolaris)

it always the jealous person's problem and can't possibly be good or at all entertained.

12/21/2021 7:54 PM

Lars F. Bjoerlo (horizonpolaris)

Bottom line it's irrational. Not wasting energy on such.

12/21/2021 8:04 PM

Lars F. Bjoerlo (horizonpolaris)

then there's the "pissing contest". we don't do that one either.

12/21/2021 8:06 PM

Lars F. Bjoerlo (horizonpolaris)

numerous types of behavior we are freed from because we've taken some preventive measures - making sure we're at the same wavelength.

12/21/2021 8:09 PM

Lars F. Bjoerlo (horizonpolaris)

"poor me for whatever reason" usually don't fly either.

12/21/2021 8:11 PM

Lars F. Bjoerlo (horizonpolaris)

works fine as joke though ;)

12/21/2021 8:11 PM

Lars F. Bjoerlo (horizonpolaris)

poooooor me. bring cake, he he

12/21/2021 8:36 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah exactly. certain things should be beyond questioning, really.

12/22/2021 12:53 PM

Lars F. Bjoerlo (horizonpolaris)

Babaetibabe?

12/22/2021 12:54 PM

Lars F. Bjoerlo (horizonpolaris)

I have to get the rest of the xmas gifts today...

12/22/2021 1:00 PM

Lars F. Bjoerlo (horizonpolaris)

I actually feel ok. Could be because I scaled down my use.

12/22/2021 1:26 PM

Lars F. Bjoerlo (horizonpolaris)

Maybe it's so easy that consciousness is the same as the soul or the 121g you lose when you die? I don't know, but I believe the soul is independent of the brain. The brain is the physical mirrored version of your soul.

12/22/2021 1:31 PM

Lars F. Bjoerlo (horizonpolaris)

Given the space you need to construct a chip with same characteristics, I don't believe in the "I" in A.I.

12/22/2021 1:34 PM

Lars F. Bjoerlo (horizonpolaris)

In "Lost Science" (1999) I predict trigitality. As I understand it, the modern term is "quantum computing"

12/22/2021 1:34 PM

Lars F. Bjoerlo (horizonpolaris)

But still - impossible.

12/22/2021 1:35 PM

Lars F. Bjoerlo (horizonpolaris)

Maybe we should crack our heads open and fully understand everything before trying to copy it? Just a thought.

12/22/2021 1:58 PM

Lars F. Bjoerlo (horizonpolaris)

Accidents happen to decent people too, you know...

12/22/2021 3:55 PM

Lars F. Bjoerlo (horizonpolaris)

I also postulate in the same piece that people in general are pre-conscious. (not fully aware)

12/22/2021 4:00 PM

Lars F. Bjoerlo (horizonpolaris)

(due to evolutionary needs)

12/22/2021 4:02 PM

Lars F. Bjoerlo (horizonpolaris)

We have to be down to earth, result oriented and practical as hunter/gatherers. The only thing in mind is your next meal. We have only been cut off from that problem very recently. All we know is that sloth will eventually kill us. Other than that our future remains to be written.

12/22/2021 6:39 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks for the complement. I appreciate knowing this is something you feel comfortable living with.

12/22/2021 7:59 PM

Lars F. Bjoerlo (horizonpolaris)

*should line up with modern philosophy; existentialism. The philosophy in itself doesn't differ between good or bad, but it does provide a way of perceiving life. The contents of it all is throughout life being acquired or discarded by your choices.

12/22/2021 8:00 PM

Lars F. Bjoerlo (horizonpolaris)

*Kierkegaard, Sartre

12/22/2021 8:01 PM

Lars F. Bjoerlo (horizonpolaris)

*but you must actively add moral and ethics

12/22/2021 8:34 PM

Lars F. Bjoerlo (horizonpolaris)

*this is the exact reason why this message must be carried with the utmost delicacy.

12/22/2021 8:37 PM

Lars F. Bjoerlo (horizonpolaris)

Let's say you make it all about drugs, guns and pussy. For a while that may be what you create for yourself, but you made a timed device. After your 15 min of sun your empire will crumble.

12/22/2021 8:51 PM

Lars F. Bjoerlo (horizonpolaris)

The last part here is basically what you put out there and glorify culturally. Just sayin'...

12/22/2021 10:09 PM

Lars F. Bjoerlo (horizonpolaris)

We're gonna get through this purgatorial stage together. I'll make it as smooth as possible.

12/22/2021 10:26 PM

Lars F. Bjoerlo (horizonpolaris)

there are ways of avoiding falling into the endless darkness. being in charge of time is crucial.

12/22/2021 10:28 PM

Lars F. Bjoerlo (horizonpolaris)

yeah I'm not moving on any axis. I trust you would tell me if I was ;)

12/22/2021 10:29 PM

Lars F. Bjoerlo (horizonpolaris)

origo

12/22/2021 10:31 PM

Lars F. Bjoerlo (horizonpolaris)

In this predictability lies security.

12/22/2021 10:31 PM

Lars F. Bjoerlo (horizonpolaris)

creating room for trust

12/22/2021 10:52 PM

Lars F. Bjoerlo (horizonpolaris)

Well, I think modern time does consist of a certain natural "flora" of drugs, and taking this story in account, a part of an evolutionary process too. We're not done with drugs just yet, but abuse will never be ideal and as responsible parents the best we can do is give our kids a solid ground to stand on.

12/22/2021 10:53 PM

Lars F. Bjoerlo (horizonpolaris)

You can't achieve that without sobriety.

12/22/2021 11:01 PM

Lars F. Bjoerlo (horizonpolaris)

Going to bed in a few minutes, but the observatory never closes. Nite :)

12/23/2021 12:14 PM

Lars F. Bjoerlo (horizonpolaris)

Hello room.

12/23/2021 12:15 PM

Lars F. Bjoerlo (horizonpolaris)

Feeling pretty much like yesterday. Better than expected. No complaints.

12/23/2021 12:18 PM

Lars F. Bjoerlo (horizonpolaris)

We have the big evening here the 24th, while your focus is more the 25th. Anyway, being 23rd... I might have forgotten him... Last chance today..

12/23/2021 12:19 PM

Lars F. Bjoerlo (horizonpolaris)

him is my brother

12/23/2021 12:19 PM

Lars F. Bjoerlo (horizonpolaris)

and his wife

12/23/2021 12:20 PM

Lars F. Bjoerlo (horizonpolaris)

I might have him covered, but a bottle of wine is maybe getting away with it cheap...?

12/23/2021 12:23 PM

Lars F. Bjoerlo (horizonpolaris)

I also have my nephew and two step siblings and they all come in pairs.

12/23/2021 4:29 PM

Lars F. Bjoerlo (horizonpolaris)

Hey baby. Love you too if you didn't know...

12/24/2021 10:56 AM

Lars F. Bjoerlo (horizonpolaris)

Hey everyone. Merry Christmas. I'll be fairly busy here today. See y'all around. <3

Miss you badly dear. Hopefully last Christmas apart.

12/24/2021 7:03 PM

Lars F. Bjoerlo (horizonpolaris)

I could show off the Christmas tree, but this abundance is somewhat tacky, really... :/

12/25/2021 8:37 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning everyone. This is your big day over there - at least it's the day everybody finally may open their gifts. For us adults it's more or less exchanging stuff you wouldn't buy otherwise. Thus it's an exercise of some luck and some dealmaking. We spend, even I on disability, hundreds of € regardless. The whole thing is to entertain the kids really. With a pile of gifts that quadrupled the volume of the tree, no wonder it's a major hassle. We were 17 yesterday, 2 kids not buying gifts, the rest of us had. I thought I had it nailed; even a last minute solution for my x. Still I got 2 bottles of wine more than I had "hoped". Not having anything in return feels real crappy. Maybe I'm extra on the edge here because my household is a tiny economy. Because I'm by no means broke or anything. Just didn't see it coming. Zall. Weird social game that keeps getting weirder every year.

12/25/2021 8:43 AM

Lars F. Bjoerlo (horizonpolaris)

You can say whatever, but that pile does not reflect what I would call "sobriety" in this context. I'm having a moral issue about all the buying and selling and throwing stuff away. We find ourselves governed by consumerism. On no day of the year is it more apparent that stuff itself is the meaning of existence. And if I stood in Papa's shoes, I would have a huge problem pretending I was ok with how Christmas is being celebrated.

12/25/2021 8:54 AM

Lars F. Bjoerlo (horizonpolaris)

But you guys over there, working 2,3 jobs to just have a roof over your heads - do you guys also spend like 500\$ minimum? Or do you plainly explain to the small ones that listen kids we're poor. That means no Santa for us. I know there are people who'd do anything to avoid that and selling your body or whatever, to get that damn iPad or whatever - The whole economy thing in this matter grows out of proportion in relation to importance. But for some reason everybody buys in on the same idea every year. Nothing is more important than Christmas! And that's lunacy when you've got bills to pay to keep the heat on, etc... I think most of us got the perverted message, a few commented it. But next year - same thing.

12/25/2021 9:11 AM

Lars F. Bjoerlo (horizonpolaris)

Then I have a temporary security issue here. I don't run AV because they molest my collection of "warez". This is my private computer and there's no way you'll find anything I can't stand by. No secrets here, and phishing is useless. As long as that's the case I really don't give a heck who pries where. The worst that could happen is basically porn. Of the clean and pretty type. You'd probably see some activity once a week or two. I don't use the internet to find. So like music and photos I keep copies and play from my drive. The webcam is physically covered, other than that I have people in my livingroom. Name of the game. The day I get issued with a working computer by the NSA or something, I will of course run all the security measures and keep my private data far away from the company laptop. I can live like that, but right now I can't access my router. That kinda bugs me. Been thinking of resetting both my router and my NAS. Right now I'm stuck because I wanna figure out why the hell it won't connect even with an ethernet cable... If you out there have any idea - please knock it off. You may trespass, but behave. My message to you.

12/25/2021 9:21 AM

Lars F. Bjoerlo (horizonpolaris)

When I'm in need for some cleaning, I just boot the pc from another partition with my own PE and a sh**load of tools for any problem conceivable by me, at least. My PE is for normal use no different from the main OS. In fact I could even implement bitlocker functionality, so provided you have a key, you could decrypt the C-drive from the virtual drives that PE runs (x: y: and b:)

12/25/2021 9:26 AM

Lars F. Bjoerlo (horizonpolaris)

It's pretty neat, but I'm always in the process of making it perfect, which won't happen in this lifetime for sure. I could sell a bootable USB flash drive for more than the original full version of windows.

12/25/2021 9:39 AM

Lars F. Bjoerlo (horizonpolaris)

In other words a pocket/keychain personal windows-based environment that allows near full operability of almost any given random hardware. And the most radical part is that it leaves no trace. Once you either shut down normally or just pull the flash drive during use, all data you have created gets lost. But being MicroSoft property I can't legally sell it, of course. It could be like a "poor man's computer" for students in the third world, etc. The flash drive

is almost free and say not more than 100 bucks to the end user in total. That breaking in function may actually be restricted in a commercial version by adding a tiny piece of script.

12/25/2021 9:45 AM

Lars F. Bjoerlo (horizonpolaris)

I've built my share of windows image media *.wim . In fact my toolkit for image handling and slipstreaming is pretty extensive.

12/25/2021 9:55 AM

Lars F. Bjoerlo (horizonpolaris)

Attachment with type image/jpeg
Keeping track of which tools that work together. I have actually captured the live running PE once and made a functional virtual computer out of all the image handling. And where do we keep our ubuntu installation or other os's? On an external drive, of course. So when offline it's really physically removed. <https://t.co/hWBI4CTIAx>

12/25/2021 10:01 AM

Lars F. Bjoerlo (horizonpolaris)

Anyway, I suppose you have to be a geek to think it's cool. I know nobody else who does this thing. There is a tiny community, but they've been down and out for covid and technical reasons the last two years. I have many "kits" that should be able to spit out a PE in the other end, but getting that thing to boot without any errors is actually quite tricky.

12/25/2021 11:22 AM

Lars F. Bjoerlo (horizonpolaris)

Attachment with type image/jpeg
Got it, but I'm a little slowminded in terms of what I did. <https://t.co/xoEn4ntgpR>

12/25/2021 11:23 AM

Lars F. Bjoerlo (horizonpolaris)

Yes. Now I remember. I thought it through, he he :)

12/25/2021 11:59 AM

Lars F. Bjoerlo (horizonpolaris)

and of course, I haven't forgotten to tell. the daughter+her mother there worked like a charm. I made sure to bump into her on occasion throughout the evening. This is a 16 year old girl who is starting to connect with the current reality with some cautious trust. Just give her the space to start wanting to interact. She clearly enjoys having a larger family, in particular my side. Me, dad, was the only element she couldn't handle at first. Yesterday was sincere words, touching, inviting attitude, perhaps even a hint of curiosity. This girl will learn a few things about where she comes from, I'm sure. Just no pressure.

12/25/2021 12:05 PM

Lars F. Bjoerlo (horizonpolaris)

I wanna get to know her too. At some point we have to go through what happened to us all. I really really really hope she's strong enough and that she cares enough about the little sense of settlement the process could bring for her. For me it's been an absolute nightmare. Imagine her. Jesus Christ. Have no words.

12/25/2021 12:10 PM

Lars F. Bjoerlo (horizonpolaris)

It feels like that could happen naturally. And it could be that my dad is safe. When observing both of us we are pretty alike in many ways. Same aura, in lack of better word. And then there's the current way my x and I talk when we do. She takes some comfort in that, I think.

12/25/2021 12:22 PM

Lars F. Bjoerlo (horizonpolaris)

I just hope the way won't be longer than it has to. I want her to be really home and feel at home. Cathrine is great at many things. It's very apparent the way she looks these days. But I also know that our daughter has seemed somewhat detached from her mum because of things that don't make sense to the child. I'm sensing this child has multiple frequencies to appeal to. I'm gonna make up as good as I can by being the person who sees the other dimensions concerning her. The other half. I can be a jerk, but not an a**h***. So now I must figure out more about what kind of company she likes the most. I hope she's up for a positive challenge.

12/25/2021 12:24 PM

Lars F. Bjoerlo (horizonpolaris)

And I think I have at least one way: music.

12/26/2021 7:07 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning room. I wanted lots of different things to do yesterday. I planned both go on a visit and receive a visitor. However, while attempting to move a large amount of data, the hard drive in question all of the sudden lost it's filesystem and most its indexes. So now I'm all over fixing the disk. Unless it's physically damaged somehow, I should be able to retrieve my half TerraByte of files, but Geez it takes ages for the computer to establish where the data is located on the harddrive. And when the files are finally found, I can copy them, but not to the same drive as I'm restoring, which means I need yet another harddrive with sufficient vacant space. Hmmm

12/26/2021 7:13 AM

Lars F. Bjoerlo (horizonpolaris)

About halfway in two hours. It seems like much less is listed as orphaned now. This drive is going in the trash when I'm done saving the data.

12/26/2021 7:31 AM

Lars F. Bjoerlo (horizonpolaris)

One thing is the network resources and the amount of data always online, but I also have some 30 harddrives stored like books off the grid. And my system is none. More or less completely random chaos. For some reason I mostly remember where I put things when I need them. I'm like that in real spacetime too. If my place is a mess, I still have a good clue where to find stuff the size of a fingernail in a pile of junk. Usually I know where it is even if it can't be seen due to the mess. This way of spreading the data randomly and evenly around have saved the day many times. I always have copies of what I need somewhere else. Frankly I don't use the search box in explorer to find my files, just like I rarely google stuff or people. In most cases I find myself prepared, but in my own weird, chaotic way. Whatever I'm looking for, I already have it somewhere and hundreds of ebooks on the subject, etc etc. My library is so extensive that I can count on it to find the program or information I need. I have a fair amount of knowledge about what app solves which problem. Not having to google it and wind up some shady place is an advantage. It's typically this way one gets malware. As little on the internet as possible.

12/26/2021 7:51 AM

Lars F. Bjoerlo (horizonpolaris)

..and my tasks here are always honest and simple. Today I entered my card number with a streaming service. I almost never leave that or phone/email anywhere, and even with the best of keyloggers lurking in the dark here, withdrawing any cash from that info alone is impossible. I know for a fact that there is an algorithm that can get your card charged if the perpetrator has both your account nr and your card number. Been ripped off once like that, but normally people don't know both these numbers. I had been displaying them in different comment sections on facebook, Berlin 2013 in fact. The withdrawals were made in Mexico and the same sum was taken multiple times. It was 710.93,- NOK. I told you some time ago about the coded language we have developed for simulation and practical reasons. 710 is "father" and 93 equals the letters I and C. "Father, I see". Again and again. Anyway - I contacted my bank back home and got it sorted out relatively easy. The reason I'm confident it won't happen again is because I'm in control of both numbers AND my code-generator is not an app on my phone. I have the old version, an external code generator which never is online. I'm a sucker for low-tech security solutions. Without saying too much; lots of old stuff have been reinvented and deployed again - now in an environment that can no longer even identify the tool in use. Any chance you can go analog? Do it when it matters...

12/26/2021 8:15 AM

Lars F. Bjoerlo (horizonpolaris)

As it so happens, I have a little money now. I could use a more modern TV, but the one I have does cover the most necessary functions and it's almost worthless as a second hand commodity. Then there's the urge to travel again. I wanna go on a holiday to Amsterdam, really. If I could book an appointment with a doctor, then I could get a medical MJ permit, which could get extremely useful in terms of getting my driver's license back..

12/26/2021 8:21 AM

Lars F. Bjoerlo (horizonpolaris)

..and they also keep shrooms of all kinds.. Could really use the therapy in a low dosage psilocybin cure. First and foremost to combat addiction in general. Counting meds, coffee, cigarettes, etc - There are several addictions of different nature and severity. Not giving up coffee though.. :)

12/26/2021 9:07 AM

Lars F. Bjoerlo (horizonpolaris)

Darn! I can see and read my files in various ways, but for some reason I can't copy any of them. Usually if there's a license problem, you'd get the message to register. I have so many data recovery/disk-tools that it's almost confusing. I'm gonna try a licensed version. Just gotta find it in my haystack somewhere.

12/26/2021 10:16 AM

Lars F. Bjoerlo (horizonpolaris)

Guess how much time I spent on and off with my hardest recovery task ever?

12/26/2021 10:17 AM

Lars F. Bjoerlo (horizonpolaris)

About half a year. True. So help me God. Persistence counts for something.

12/26/2021 10:31 AM

Lars F. Bjoerlo (horizonpolaris)

I had a different NAS before (network drive). I tripped in the cable and the drive came crashing down. The outter shell/casing with the network connections, power, etc broke, but the drive inside is good for 350G, so I knew the data was intact. Only a matter of retrieving it. The drive had multiple linux-formatted partitions which you can't read just like that on a pc, and then there's the problem while recreating everything, I couldn't just move the data while recovered, because the tool I used demanded an exact identical partition as from the source. The last failure to copy the data was because I had created a partition 1 sector off the exact amount. Had to start all over. Every time I thought I was close - suddenly another unfamiliar insane condition presented itself. Any given drive has millions of sectors, and they are never identical. Constructing everything was a nightmare and almost drove me nuts. And right now my worst computer mishap would be if my current NAS would break due to spinning for 100,000 hours. I should reset it and buy two identical SSD units to configure in a mirrored raid. Then it's almost completely impossible to lose anything no matter what.

12/26/2021 10:32 AM

Lars F. Bjoerlo (horizonpolaris)

Alright. Nuff geeky talk I think..

12/26/2021 10:36 AM

Lars F. Bjoerlo (horizonpolaris)

Aaaaargh - an estimated 9h left. Unbearable!!

12/26/2021 11:14 AM

Lars F. Bjoerlo (horizonpolaris)

I usually make sure I have the means to activate most of the software I gather. Searching for cracks or keys in addition is a sure way of getting lots of malware. Strangely Windows have never been easier to crack. With any version update once a year windows downloads all the files it needs to start installing the upgrade. When knowing where to look and what to look for, you can find a file called "genuineticket.xml". Then you just download the latest version from microsoft as an ISO-image. Then you create the path where the xml-file needs to be located on the installation medium, and voila, your installation is activated with a valid license from the very start. I also have an ingenious batch file just a few bytes large that works better than a crack 50MB large. Home made in a couple of bytes or a complex GUI version - both get attacked by typical AV. I have so much data that always get flagged as backdoor, worm or trojan. The AV is looking for certain string pattern's and "guesses" that it could be harmful code. Sometimes restoring files from quarantine can be a major hassle - in particular if the AV doesn't have the right to write back at the location it deleted stuff, like the NAS, for instance. Not getting infected for real is a concern to most people, but when you understand how different active web-content behave, then you don't make such unfortunate clicks in the first place. The viruses I do have are intentional and under control. I scan maybe once a year and all I find are some cookies that tell on you and your browser.

12/26/2021 11:18 AM

Lars F. Bjoerlo (horizonpolaris)

Oh yess. Still technical. I don't wanna bore you to death here :) Please have me excused...

12/26/2021 12:15 PM

Lars F. Bjoerlo (horizonpolaris)

What do you think about me having a mid-winter trip to the continent, babe? I should be able to pay for a week in hotel or so..

12/26/2021 12:18 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not flying, btw. Train via Gothenburg and Copenhagen. And perhaps I can settle for Hamburg and get the hotel a little cheaper and stay a few days more...

12/26/2021 12:54 PM

Lars F. Bjoerlo (horizonpolaris)

And if you happen to be in Europe, please swing by Lindtner Hotel in Hamburg. Actually there are three of them. I'm usually staying at the one closest to the Reeperbahn.

12/26/2021 12:56 PM

Lars F. Bjoerlo (horizonpolaris)

Like you said; nobody will find out, he he. I still have the advantage of being able to sneak around incognito, but you can wear a Santa's beard or something :D

12/26/2021 1:33 PM

Lars F. Bjoerlo (horizonpolaris)

It's a decent place. 4 honest stars. With that said; it's a huuuge difference between, say a 3 star in Amsterdam and 3 stars in Saint Tropez. The latter really earns them. But no St. Tropez or 5 star for you when you travel as normal as possible, right? :)

12/26/2021 1:33 PM

Lars F. Bjoerlo (horizonpolaris)

Never mind me - I'm just teasing *lol*

12/26/2021 2:41 PM

Lars F. Bjoerlo (horizonpolaris)

I don't know if you remember this, but in 2013 when I got to Copenhagen, I couldn't go further. I had to go to Christiania and feel the vibe. That night I failed to land me an afterparty or whatever. I had to sleep underneath the stars. I was deadly drunk with all my properties in a 30l back pack. And, of course, it was raining. I had a different way back then I think..

12/26/2021 2:48 PM

Lars F. Bjoerlo (horizonpolaris)

No plan back then either. I had no idea where to go or what to do. All I knew is that I had to get away. Traveled several cities in Europe (and even got to see my now late granny i Denmark) and ending up in Berlin the same day as Obi-wan spoke at the Brandenburger Tor was purely coincidental. But I quickly got a feeling the stage was set, though..

12/26/2021 2:49 PM

Lars F. Bjoerlo (horizonpolaris)

When in the Netherlands I set my sights on Spain at first. Long story how next city was Cologne. Pretty outrageous, actually...

12/26/2021 2:50 PM

Lars F. Bjoerlo (horizonpolaris)

But I was free. I'll never forget how happy I was in spite of being pushed to the max by mkultra.

12/26/2021 7:33 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Been out a few hours for the first time in a long time. I have an urge to make things happening nowadays.

12/26/2021 8:08 PM

Lars F. Bjoerlo (horizonpolaris)

Hooray my data is successfully restored!

12/26/2021 8:37 PM

Lars F. Bjoerlo (horizonpolaris)

I'm so ready to move on with my life. Words can hardly express how I feel about you again these days, Jenny. Know that you've saved my life this time. Forever grateful. Plenty of kisses. <3

12/26/2021 8:41 PM

Lars F. Bjoerlo (horizonpolaris)

Going to bed knowing that my time is here soon is an amazing feeling in sharp contrast to how lousy I've really been.

12/26/2021 8:42 PM

Lars F. Bjoerlo (horizonpolaris)

You make my days and I'll always love you for that.

12/27/2021 12:28 AM

Lars F. Bjoerlo (horizonpolaris)

I'm going to bed my love. All there is is perception. Thank you for bothering to fix me. I hope we can continue sharing the same vision. Without you I'm not really here..

12/27/2021 12:34 AM

Lars F. Bjoerlo (horizonpolaris)

It just feels so good to finally be able to appreciate every second with great joy so deep that not even a dream could top this experience of belonging together. I couldn't possibly wanted anything else. I love you. Kiss.

12/27/2021 4:02 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. A bit busy today, but otherwise fine. Are you all good?

12/27/2021 11:32 PM

Lars F. Bjoerlo (horizonpolaris)

Ok guys. For those who follow my handset, I've been on an old fashioned crime safari today. Met some interesting people in the process of obtaining the next months consumption of hashish. It really helps in terms of not taking amphetamines every day anymore. As you might have picked up, these guys can get you anything, guns included. However, they seem like really likeable guys, right? Us ethnic Norwegians have a good thing going in this kind of social environment. You could say it's an easier atmosphere and we have a common understanding of what's to be expected when lots of cash changes owner.

12/27/2021 11:35 PM

Lars F. Bjoerlo (horizonpolaris)

"Nicer crime"

12/27/2021 11:38 PM

Lars F. Bjoerlo (horizonpolaris)

We don't find it necessary to be so hard due to what you'd refer to as "socialism". It's no secret it costs a lot to maintain such a state, but I'm positive it's cheaper than yours. Keep in mind medical expenses don't exist here.

12/27/2021 11:42 PM

Lars F. Bjoerlo (horizonpolaris)

While you guys wanna take it even one step further; privatizing law enforcement.

12/27/2021 11:43 PM

Lars F. Bjoerlo (horizonpolaris)

Here cops don't even wear firearms.

12/27/2021 11:44 PM

Lars F. Bjoerlo (horizonpolaris)

They are locked down in the trunk of the patrol car. They must get clearance from central dispatch before unlocking them.

12/28/2021 1:29 AM

Lars F. Bjoerlo (horizonpolaris)

Gotta go crash guys. Haven't been cheating for a few days. Results in fairly normal 24h pattern in terms of sleeping at night.

12/28/2021 2:44 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Tired today, but that's ok because I can do whatever I want today basically. You ok?

12/28/2021 6:14 PM

Lars F. Bjoerlo (horizonpolaris)

In yesterdays topic there's more to say. In particular about crime and punishment, but I feel this topic deserve its own discussion.

12/28/2021 6:17 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks for the #orchid hon :)

12/28/2021 6:34 PM

Lars F. Bjoerlo (horizonpolaris)

(I've taken several active steps to stay away from stimulants today as well as yesterday and the day before. Now I'm more without than the other way around)

12/29/2021 2:15 PM

Lars F. Bjoerlo (horizonpolaris)

Good morning. I'm on strike. I'm not lending anyone a hand to obtain anything. This is not a charity and I'm not interested for my own part. At least not for the moment. This is my fourth day and I feel fine, which is very good news.

12/29/2021 2:55 PM

Lars F. Bjoerlo (horizonpolaris)

Hey baby. Beginning to move the right direction here. How are you feeling?

12/29/2021 4:41 PM

Lars F. Bjoerlo (horizonpolaris)

An old friend stopped by. He hasn't seen me since my drunken period. He said repeatedly that I look much better. Kinda nice to hear. Thought I should share. :)

12/30/2021 8:36 PM

Lars F. Bjoerlo (horizonpolaris)

Good evening room. Day off today. I have just been in bed. Approaching one week..

12/31/2021 10:48 AM

Lars F. Bjoerlo (horizonpolaris)

Hey room. New years eve. Have no concrete plans, but will subdue to my needs if possible.

12/31/2021 11:12 AM

Lars F. Bjoerlo (horizonpolaris)

I'm kinda silent. Not feeling very well, as expected..

12/31/2021 11:13 AM

Lars F. Bjoerlo (horizonpolaris)

Still I'm starting to really feel that you're here.

12/31/2021 12:46 PM

Lars F. Bjoerlo (horizonpolaris)

Looks like I should have been prepared for today. Been sabotaging my own possibilities. On my way to store for a sixpack. It is new year's eve after all

12/31/2021 1:02 PM

Lars F. Bjoerlo (horizonpolaris)

I now have two bottles of wine and six beers. Perfect for Coach and me...

12/31/2021 1:10 PM

Lars F. Bjoerlo (horizonpolaris)

I love you baby

12/31/2021 1:17 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah that guy. You want me to stay away from him. I got that. He's beyond reach nowadays. Anyway - one shouldn't have to accept verbal abuse, I totally agree. Our story goes back 25 years and he's the only one besides me from the original group that is still alive.

12/31/2021 1:22 PM

Lars F. Bjoerlo (horizonpolaris)

I am looking forward to the day I take my "office". Then they will all instantly know every stupid thing they said over the last decade.

12/31/2021 1:23 PM

Lars F. Bjoerlo (horizonpolaris)

No further use of words necessary..

12/31/2021 1:30 PM

Lars F. Bjoerlo (horizonpolaris)

cheers

12/31/2021 1:31 PM

Lars F. Bjoerlo (horizonpolaris)

I have a feeling I'm gonna be alone with no drugs other than my hash.

12/31/2021 1:31 PM

Lars F. Bjoerlo (horizonpolaris)

Which in that case is perfect.

12/31/2021 1:33 PM

Lars F. Bjoerlo (horizonpolaris)

I don't mind. Not gonna get all worked up because I can't score. Subconsciously that's exactly what I've been aiming for. To prolong and extend my white days as much as possible.

12/31/2021 1:37 PM

Lars F. Bjoerlo (horizonpolaris)

be it new years eve or not..

12/31/2021 1:40 PM

Lars F. Bjoerlo (horizonpolaris)

About that: 5th day. I'd say it's good. Short time ago I couldn't even take two days. I feel quite ok.

12/31/2021 1:51 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah that guy.. Let me put it this way: if I ever was to force Jenny to go to a gardenparty with me, it would be at his place. I would pay it back tenfold to her. That's what he means to me. You could say I have a softspot for him in midst of all the indifference and cynicism.

12/31/2021 2:04 PM

Lars F. Bjoerlo (horizonpolaris)

"I wish upon him Beauty"

12/31/2021 9:59 PM

Lars F. Bjoerlo (horizonpolaris)

Hey hon. 10PM here. I'm alright. I'm not even gonna ask what you are doing..

12/31/2021 10:09 PM

Lars F. Bjoerlo (horizonpolaris)

I just bought a new phone online. That's pretty much the highlight of this evening I suppose. It's being delivered at my door Sunday. Wonder how complicated the transfer will be. Both are Samsung. Should be easy.

12/31/2021 10:10 PM

Lars F. Bjoerlo (horizonpolaris)

It's gonna be a significant upgrade. This phone is 2017, among the cheapest models.

12/31/2021 10:12 PM

Lars F. Bjoerlo (horizonpolaris)

This one's also among the cheapest ones, but has the CPU ram and 5g capability I will be needing + 4x the space on phone.

12/31/2021 10:15 PM

Lars F. Bjoerlo (horizonpolaris)

Perhaps that's what I should do with the money I have in my savings. Buy some more electronics. Maybe build a stationary computer?

12/31/2021 10:16 PM

Lars F. Bjoerlo (horizonpolaris)

Don't think I want anything bad enough to actually buy it.

12/31/2021 10:19 PM

Lars F. Bjoerlo (horizonpolaris)

I could use a secondary screen for my bedroom. I'm installing a new bed one of these days. I want a screen to hang on the wall. I don't need anything in particular, so getting an old one almost for free is what I'm thinking.

12/31/2021 10:21 PM

Lars F. Bjoerlo (horizonpolaris)

I could use to change my fridge and my washer..

12/31/2021 10:22 PM

Lars F. Bjoerlo (horizonpolaris)

Yup. That's it, but again looking for second hand stuff is what I'll do to get the most worth.

12/31/2021 10:23 PM

Lars F. Bjoerlo (horizonpolaris)

I wonder how summer looks like babe

12/31/2021 10:26 PM

Lars F. Bjoerlo (horizonpolaris)

I just wanna go home where we belong.

1/1/2022 10:30 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning and happy new year!

1/1/2022 10:32 AM

Lars F. Bjoerlo (horizonpolaris)

Wish I knew what you're thinking, dear.

1/1/2022 2:51 PM

Lars F. Bjoerlo (horizonpolaris)

I wanna know which events taking place when..

1/1/2022 2:52 PM

Lars F. Bjoerlo (horizonpolaris)

and how...

1/1/2022 3:57 PM

Lars F. Bjoerlo (horizonpolaris)

Not able to see your movie on Valentine's day. Where are we 24th of July?

1/1/2022 4:01 PM

Lars F. Bjoerlo (horizonpolaris)

Imagine. What do you think we will do on our first day?

1/1/2022 4:02 PM

Lars F. Bjoerlo (horizonpolaris)

We have so much to talk about. Where to start?

1/1/2022 5:11 PM

Lars F. Bjoerlo (horizonpolaris)

I'll be ok as soon as I can stop loving like this in favor of the full contact experience.

1/1/2022 8:11 PM

Lars F. Bjoerlo (horizonpolaris)

I also long for the touch towards people. So what will I be known for first? Being Coach's spouse, crazy blogging, or my set of doomsday plans? How long do I have to continue hiding my true role?

1/1/2022 8:33 PM

Lars F. Bjoerlo (horizonpolaris)

How am I going to be introduced to the general audience?

1/1/2022 8:42 PM

Lars F. Bjoerlo (horizonpolaris)

I know Coach has an answer for all my questions.. but it can be tricky sometimes to be very specific..

1/1/2022 9:26 PM

Lars F. Bjoerlo (horizonpolaris)

I really appreciate bonding with you guys too. I'd say we're up having each other's attention. Being associated with so much good is really a privilege. It wasn't easy getting there, but we really have it this time.

1/1/2022 11:49 PM

Lars F. Bjoerlo (horizonpolaris)

I'm more or less completely the way god created us. Dunno what t say at this stage.

1/3/2022 6:27 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys.. I got my new android phone and a BT keyboard that can connect to 3 separate units, like Pad, PC and the Android handset. I also have a mouse w 3 connections. The main point being that I can get all the equipment I need inside a certain suitcase. Pad+new keyboard+ 20k mAh powerbank should equal at least 24h of use.

1/3/2022 6:36 PM

Lars F. Bjoerlo (horizonpolaris)

So far the suitcase in mind is too small for the PC and even my old BT keyboard (w/numpad) is much to long/wide to fit inside, but now I can fit both my Pad + Keyb. In addition I should be able to have some different cables/connectors/adapters as well as a couple of hard drives, any number of flash drives/cards.

1/3/2022 6:43 PM

Lars F. Bjoerlo (horizonpolaris)

I have only one complaint. My new handset is much bigger. The only thing perfect with the old phone was its size.

1/3/2022 8:31 PM

Lars F. Bjoerlo (horizonpolaris)

You guys are the perfect company right now. I wanna create! It's sorta ridiculous. I have all the tools I could desire in terms of software. I could use a platform, a temporary place to publish some stuff until I bother to use my own domain.

1/3/2022 8:33 PM

Lars F. Bjoerlo (horizonpolaris)

..and something tells me I have to finish that norwegian project too. rather sooner than later...

1/3/2022 8:51 PM

Lars F. Bjoerlo (horizonpolaris)

Show you my "growler"? What's that? Is it when I lose it and threaten some poor jerk? Let's just say that I've been pissed off for a lifetime ten times over. Right now I have difficulties seeing the situation that would require me to emphasize my powers, which in reality are none. Besides, when I get in position with the leverage I'd need in any case, I must say exercising these mandates in a very strict way isn't exactly my style. I rarely find it necessary to lead by the forceful example. In order to get people onboard, I have to continue creating an atmosphere where 99% thrive.

1/3/2022 8:54 PM

Lars F. Bjoerlo (horizonpolaris)

I have chosen a European approach spiritwise. This means I'll try my best to be approachable to those who need it the most, in my own humble way. This cautious way of going about is not because of fear or uncertainty. On the contrary. I can afford to be calm as long as I know what I'm doing.

1/3/2022 9:01 PM

Lars F. Bjoerlo (horizonpolaris)

33

1/3/2022 9:02 PM

Lars F. Bjoerlo (horizonpolaris)

Sorry, my bad. 33 doesn't mean anything. I just stacked two keyboards on top of each other..

1/3/2022 9:18 PM

Lars F. Bjoerlo (horizonpolaris)

I've spent quite some time wondering when a certain mood is in its place, or if it could be handled otherwise better..

1/3/2022 9:28 PM

Lars F. Bjoerlo (horizonpolaris)

I've come to the conclusion that I have plenty of room to house some sort of personality. Needless to say; that won't come in conflict with the teachings of Jesus Christ. It is possible, but not without an extended awareness regarding this personality. You would necessarily have to think it through many times over, right? And in my case even exercise in simulations provided by the mindcontrol-guys in mkultra. Yup - they taught me how to control my mind, not taking control of mine, but rather setting up scenarios in which I made the proper lesson. Anyway, I'm not bothered by it. I told you I have God living inside my head right, and that He demands certain standards when it comes to mental hygiene. I can never hide or keep a secret. Imagine.

1/3/2022 9:47 PM

Lars F. Bjoerlo (horizonpolaris)

Yes you could say that this is like an eternal acid trip in the sense that I'm not coming down from here anytime soon. In order for your trip to be pleasant and useful, I have a certain role here as the narrator, the game master, if you're a fan of fantasy role playing. Nevertheless, I'm a child of two hippies, basically. Straight hippies that is. You know your way around a couple of treehugging guys, right? Not the worst vibes to catch on to. Not only are we getting out of this, but it's gonna look spectacular and we will learn everything we need to know along the way as we virtualize any/all given concepts - concrete or abstract. We have the correct measures for your concerns.

1/3/2022 10:31 PM

Lars F. Bjoerlo (horizonpolaris)

I feel pretty comfortable in this position. Truth be told, the things I worry about nowadays is becoming the partner in love that Coach has sacrificed so much of her life to. I have to live it up on a private basis. I really have a lousy history of being a lousy boyfriend. But it's important to stress that I've never met a spiritual match like her before. I don't really have to do anything but be myself. Just not too much, because then I can become lazy and arrogant.

1/3/2022 10:46 PM

Lars F. Bjoerlo (horizonpolaris)

Damn that phone is big. If I had a canoe, I could paddle it with this ugly thing. It better make up for the bulkiness by seriously outperforming the old one (2017).

1/3/2022 10:52 PM

Lars F. Bjoerlo (horizonpolaris)

I'm in particular eager to find out how much I can do with my voice only. Keep in mind I also need this thing to write decent norwegian. All that said, Microsoft has at least three different engines for speech recognition software, and Google has at least two. Then there's the question of teaching the computer to know your personal language.

1/3/2022 10:57 PM

Lars F. Bjoerlo (horizonpolaris)

The state of chaos is exactly what makes us a force you must reckon with. When nobody knows what to do next, we're free to do everything at once, so to speak.

1/4/2022 6:31 AM

Lars F. Bjoerlo (horizonpolaris)

Judging from the feed here, you guys are alright. I could assure you by telling you some inside information on how we handle the logistics of ultraviolet matters.. However, this would in turn make any effort to secure things become a joke at best. Some of our methods should really remain in Pandora's box, if you get what I'm saying. Other than that - we grade our material ranging from infrared through the seven colors of the rainbow and ultraviolet as the most sensitive matters. Given my situation, running solo and all, I have to determine the proper classification of all matters. In my logics I try not to conceal stuff that people have suspected for a long time already. To explain how dangerous this is without creating more paranoia is a very delicate balance. I need to be trusted. That's what I live by. I may not have a credit rating, but I do have my integrity - my WORD. It has always and will always count for something. In order to persuade people to believe in any given concept, you have to be truthful at all times. You won't get stuck with a feeling I'm telling you half a story. I know my plan. There's nothing else out there competing to save us from ourselves. My rescue-package developed in association with the best technology available on Earth, has been developed over 25 years. The plan is complete. Nothing is left out. Now it remains to see how we together will manifest willpower from the very certainty that we're safe even before lifting a finger. Many who were called - few of them were chosen. Provided that the so-called LFB Agenda for life on Earth...etc etc.. Is the only salvation package of its kind - also facing the very issues politicians won't even talk about. Most people can criticize. But doing so in a civilized and constructive manner is a must at all times, and last but not least, actually present some suggestions for how to tackle whatever problem. I try to bring pre-fabricated solutions. And since you are responding so well to this kind of thinking and communicating, I'd say we have a good thing going. We're working at establishing trust as we speak. The plan is phenomenal and all alone offers a way of taking actions, in which we carry your opinion and interest. You've heard about New World Order, right? World government? What happened here is that I hijacked the entire concept, which really wasn't much of a concept. We want everybody who has something to live for to survive - regardless of your relation to Jesus Christ. We wanna be right and we wanna be fair. And to be fair, my global agenda comes with half sized price tag(s). So guys; don't be hostile to a globalization of our time, but rather be there when it gets shaped from the ground up.

1/4/2022 7:18 AM

Lars F. Bjoerlo (horizonpolaris)

yeah the fear... after a while you learn to completely disregard such. And reality is above all a beautiful and sacred creation. I just get awed by that instead. I'm not really anyone's enemy, or competitor for that matter. Only person I compete with is the yesterday version of myself.

1/4/2022 10:22 AM

Lars F. Bjoerlo (horizonpolaris)

I'm still surprised in the best possible way that there hasn't been any resistance. I suppose it's the language which speaks for it self. I mean, people could quickly conceive the idea that you're devil or something close.

1/4/2022 10:29 AM

Lars F. Bjoerlo (horizonpolaris)

I miss you too guys, not just Coach. Of course she has the special place in my heart and I think of things considered private al the time. We could really need to meet up and take the edge of our individual experience of this love. I can't help thinking of what opposites we represent. I just have to make sure not to contaminate our "biosphere" with so-called old impressions of how things work. This woman has set everything else aside and worked the Agenda all these years while I have been recovering.

1/4/2022 10:51 AM

Lars F. Bjoerlo (horizonpolaris)

That's crazy honey. Even for you ;)

1/4/2022 10:59 AM

Lars F. Bjoerlo (horizonpolaris)

Tell me hon, to which address in which city do I send you flowers? :) <3

1/4/2022 11:08 AM

Lars F. Bjoerlo (horizonpolaris)

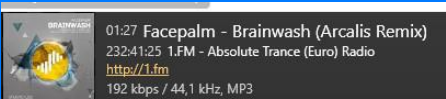

Yeah you keep saying that. I hope the changes you're referring to are for the better? :/

Sticking with truth is crucial in this process..

1/4/2022 11:19 AM
Lars F. Bjoerlo (horizonpolaris)

No, the thought of going back instantly loses all meaning. The first doc from 1999 is indeed to be considered a brain-virus. Once you have it, your life will never be the same.

1/4/2022 11:37 AM
Lars F. Bjoerlo (horizonpolaris)

..hence the suitable password for opening the document: "mindsnare".

1/4/2022 11:44 AM
Lars F. Bjoerlo (horizonpolaris)

..profound consequences..

1/4/2022 6:50 PM
Lars F. Bjoerlo (horizonpolaris)

Hello again room. Been out. Now I'm actually just dealing with music in the light of having a new handset. One should perhaps think that all digital sound gadgets basically put out the same. This however is wildly wrong. My new phone seems to be a decent source. I have no idea how your home network pleases you in the everyday life, but I can assure you this: I'm bringing my data over and I plan to make all the media accessible via our phones. My hope is that we spend some time enjoying some cultural moments together.

1/4/2022 6:56 PM
Lars F. Bjoerlo (horizonpolaris)

..good good - becoming operational right about now I guess..

1/4/2022 6:58 PM
Lars F. Bjoerlo (horizonpolaris)

Again; thank you for remaining calm and collected.

1/4/2022 6:58 PM
Lars F. Bjoerlo (horizonpolaris)

..and approachable..

1/4/2022 7:11 PM
Lars F. Bjoerlo (horizonpolaris)

Not fearing, but worried about how this will be perceived, but much less worried now. I've not been fearing for my life since I was in the field, but I've been worried of a Don Quijote situation fighting windmills.

1/4/2022 8:19 PM
Lars F. Bjoerlo (horizonpolaris)

My feed here consists of 6 trance-related radio-streams as you already know. But I have to say there is no other genre that have names and titles like that. The feed is freckin' awesome!!!!

1/4/2022 8:26 PM
Lars F. Bjoerlo (horizonpolaris)

I have from before a more extensive relation to music, but only in the role of being consumer/ audience. I don't read notes, play an instrument or write songs, but I can actually sing pretty decent on a good day (depending a bit on the tune). I have lots of thoughts on Jenny as a vocal performer and truth be told; she's had a couple of good duets with people who should

be impossible to bring on board. She gotta have it for the tenacity and audacity, he he. Anyway, maybe we'll find "our" song one day, who knows?

1/4/2022 8:29 PM

Lars F. Bjoerlo (horizonpolaris)

There are a few anthems in this portfolio already :)

1/4/2022 8:38 PM

Lars F. Bjoerlo (horizonpolaris)

I think we have ourselves a preliminary winner of the entirety of this trance period, not knowing for how long I will need to lock onto that feed. "Stars Collide" w Somna & J. Rene is just an epic tune. Instant classic.

1/4/2022 8:45 PM

Lars F. Bjoerlo (horizonpolaris)

The extended XiJaro & Pitch mix, to be spesific.

1/4/2022 9:19 PM

Lars F. Bjoerlo (horizonpolaris)

Why me? I think there's more than one reason. I was so occupied with my thought project that over time I realized nobody would if I didn't go all the way and fulfill the prophecies and thereof expectations. However, I have a feeling this is also a story of genes, in particular my great grandfather who was 50/50 Afro-/Native American.

1/4/2022 9:27 PM

Lars F. Bjoerlo (horizonpolaris)

He was a musician/performer out of Boston, MA

1/4/2022 9:32 PM

Lars F. Bjoerlo (horizonpolaris)

His daughter, dad's mum was clinging on to her American citizenship with both hands in fear of Nazi's returning. She came here in her teens and didn't apply for a Norwegian passport until 1975. The black side of my family was terrified by KKK and by European Nazi's.

1/4/2022 9:37 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah, I sorta figured that part on my own. Just sounds weird if I say "you need me".

1/4/2022 9:38 PM

Lars F. Bjoerlo (horizonpolaris)

I'm at least convinced that there is nothing coincidental about this story.

1/4/2022 9:48 PM

Lars F. Bjoerlo (horizonpolaris)

I have a theory: I think we are in devolution and that we've been missing a bridge between our two hemispheres - a modern missing link scenario. The explosive part is that now that you have found that speciment safe and sound, what's the rest of that genepool really good for? I don't dig into this, but I'm aware of the situation unfolding.

1/4/2022 9:49 PM

Lars F. Bjoerlo (horizonpolaris)

It could become a personal security problem.

1/4/2022 10:02 PM

Lars F. Bjoerlo (horizonpolaris)

Nope. Never heard voices or hallucinated while psychotic. I once saw my soul leave me for good. In the same period I also had an out-of-body experience while I slept. Dad was talking to me and the external version of myself even responded, or got the body on the bed to respond, like as if I was awake. Never saw UFO's. Never saw ghosts or demons. I've seen nothing out of the ordinary.

1/4/2022 10:04 PM

Lars F. Bjoerlo (horizonpolaris)

But I always had a sense of otherly presence.

1/4/2022 10:05 PM

Lars F. Bjoerlo (horizonpolaris)

I own my body and I am the person calling the shots, but I'm not alone in here.

1/4/2022 10:16 PM

Lars F. Bjoerlo (horizonpolaris)

My intentions are to deliver. I have no personal agenda that could suddenly override what's in everybody's interest. And that's actually God's honest truth. I can't get stuck on details when there's a never-ending urgency elsewhere.

1/4/2022 10:19 PM

Lars F. Bjoerlo (horizonpolaris)

I can't really see myself doing something else. I have practically ruined my life as citizen "Lars". Besides, I like it here. I'd prefer to stay.

1/4/2022 10:57 PM

Lars F. Bjoerlo (horizonpolaris)

The first thing I had to learn when taking on this job, was to forgive.

1/4/2022 11:49 PM

Lars F. Bjoerlo (horizonpolaris)

I remember when realizing there was no other way. I had to get over it. There would be no long sought after revenge or retaliation.

1/4/2022 11:50 PM

Lars F. Bjoerlo (horizonpolaris)

(Not using the word "justice" right now, because I don't think we're at the same page there yet.)

1/5/2022 12:01 AM

Lars F. Bjoerlo (horizonpolaris)

..and for those of you directing your anger at the top 1% - the elite; they might not be so far away from you that you think. I mean, seriously speaking, we're literally in the same boat here.

1/5/2022 12:03 AM

Lars F. Bjoerlo (horizonpolaris)

When faced with a moral issue, people in general will try to do the right thing.

1/5/2022 12:04 AM

Lars F. Bjoerlo (horizonpolaris)

For some people money means security and influence, but bailing out of here for Mars or whatever, is at best a perverted fantasy. Reasonable people get that all day long.

1/5/2022 12:06 AM

Lars F. Bjoerlo (horizonpolaris)

If they could get their ticket for half the original cost and save a bunch of others, don't you think they'd at least consider it?

1/5/2022 1:29 PM

Lars F. Bjoerlo (horizonpolaris)

You could argue whether benefit of the doubt makes sense. But what's definite is that just flat out doubting everyone is crazy. It doesn't make any sense at all. These questions have civilized us. We're something more now than we used to be. Let's not go back, ok? Good morning, by the way. Don't worry - this is not a dream. I'm gonna be here from now on. In fact, I always was.

1/5/2022 4:51 PM

Lars F. Bjoerlo (horizonpolaris)

Dad just popped by. We had a great talk about important things both during my adolescence and also the more recent past. I told him if it wasn't for my mental challenges, I would most likely be an ass.

1/5/2022 4:57 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys, you know what? I'm not exactly confident when it comes to the traditional Darwinian display of human evolution. Alternative theories within the fields of anthropology and theology suggests there were many different Homo's walking the Earth over 10,000 years ago. One of these people were the Nephilim. They were said to be guardians under direct authority of God. This people had 6 fingers on each hand. I think I might have a distant relative on my mother's side born with six fingers.

1/5/2022 5:01 PM

Lars F. Bjoerlo (horizonpolaris)

We should really dig into who or what created us, and for what reason? Keeping us as slaves is one theory, but I'm not a fan of that theory.

1/5/2022 5:03 PM

Lars F. Bjoerlo (horizonpolaris)

Just general conspiracy fear mongering as I perceive it...

1/5/2022 5:11 PM

Lars F. Bjoerlo (horizonpolaris)

There are no rules to general existence. That's a correct observation and conclusion. Rules are something we as humans choose to implement for various reasons, but mainly to regulate a society and grow ethics.

1/5/2022 5:17 PM

Lars F. Bjoerlo (horizonpolaris)

The Bible, and many other religious texts, could be seen as a recipe for keeping your genome healthy over many generations.

1/5/2022 5:18 PM

Lars F. Bjoerlo (horizonpolaris)

The problem with a 2000 year old recipe today is the lack of words to describe relevant issues.

1/5/2022 5:19 PM

Lars F. Bjoerlo (horizonpolaris)

But it still has an awesome effect. That Jesus-fella must have made quite an impression on people around him, since we're still talking about him worldwide on a daily basis.

1/5/2022 5:23 PM

Lars F. Bjoerlo (horizonpolaris)

However, the 10 commandments is essentially the starter kit from God to create civilizations and prosper, but we know in modern times that new challenges will appear and they can be

extremely hard to understand and even harder to explain. Nevertheless - we create additional framework such as laws.

1/5/2022 5:26 PM

Lars F. Bjoerlo (horizonpolaris)

And it's only we that can make such creations make sense (and possibly even be beautiful).

1/5/2022 5:29 PM

Lars F. Bjoerlo (horizonpolaris)

And when it all comes together, all the suffering will begin to make sense in life's own peculiar way.

1/5/2022 5:31 PM

Lars F. Bjoerlo (horizonpolaris)

All that we ever did matters and it still does. Why? Because we say so. That's our way of defining the meaning of existence.

1/5/2022 5:32 PM

Lars F. Bjoerlo (horizonpolaris)

But make no mistake; we choose this consciously. And we keep confirming this choice throughout all cultures of all time generation after generation.

1/5/2022 5:36 PM

Lars F. Bjoerlo (horizonpolaris)

We need this to be our reality. Otherwise nothing makes sense.

1/5/2022 5:36 PM

Lars F. Bjoerlo (horizonpolaris)

..in human terms, that is.

1/5/2022 5:43 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah, well said. We're simply loving creatures.

1/5/2022 5:47 PM

Lars F. Bjoerlo (horizonpolaris)

We make love worth dying for by choice.

1/5/2022 5:48 PM

Lars F. Bjoerlo (horizonpolaris)

That makes us pretty amazing beings in cosmic terms, I'm sure.

1/5/2022 5:54 PM

Lars F. Bjoerlo (horizonpolaris)

Yep. My thoughts exactly. Now would be the right moment to "press hold/pause". We would want to maintain a world at this technological state indefinite.

1/5/2022 5:58 PM

Lars F. Bjoerlo (horizonpolaris)

..and we should get around to teach kids how all these gadgets work, preferably before handing them multiple devices that really took some resources to develop. And we have seen that this rate of development also come with a share of new problems. We could really use a time-out and just get properly accustomed to what we've already got. Worst case scenario is that we degovern ourselves with AI.

1/5/2022 6:04 PM

Lars F. Bjoerlo (horizonpolaris)

Our current situation sort of has an event horizon. The point from which not even light can escape gravity.

1/5/2022 6:05 PM

Lars F. Bjoerlo (horizonpolaris)

And I promise you this: we won't get another shot.

1/5/2022 6:06 PM

Lars F. Bjoerlo (horizonpolaris)

Nature is relentless that way.

1/5/2022 6:08 PM

Lars F. Bjoerlo (horizonpolaris)

Good. I'm being heard. Appreciate your attention.

1/5/2022 6:15 PM

Lars F. Bjoerlo (horizonpolaris)

I'd appreciate action even more.

1/5/2022 6:19 PM

Lars F. Bjoerlo (horizonpolaris)

We have this really boring problem with our climate going on that has begun to demonstrate itself as a significant obstacle in terms of surviving on this 3rd rock from the sun.

1/5/2022 6:20 PM

Lars F. Bjoerlo (horizonpolaris)

And even if we'd rather do other things, like research and adventure, first things first.

1/5/2022 6:29 PM

Lars F. Bjoerlo (horizonpolaris)

Boundaries of jurisdiction. Chew on that in a climate context.

1/5/2022 6:33 PM

Lars F. Bjoerlo (horizonpolaris)

Uh, the soul is eternal, so I suppose if it could speak its mind, you'd find a completely different perspective that may or may not make any sense to you as a human.

1/5/2022 6:37 PM

Lars F. Bjoerlo (horizonpolaris)

Your main task is finding a meaning while you're here. And there is no obvious answer to that on the individual level. You gotta collect the pieces and gather the picture. You have free will. What more could you possibly want?

1/5/2022 6:39 PM

Lars F. Bjoerlo (horizonpolaris)

Coping with the struggle of finding meaning is in itself meaningful.

1/5/2022 6:41 PM

Lars F. Bjoerlo (horizonpolaris)

*Gottcha, Coach. Thx.

1/5/2022 6:44 PM

Lars F. Bjoerlo (horizonpolaris)

As for us: it should emerge as fair game eventually. If you're talking who has to leave.

1/5/2022 7:10 PM

Lars F. Bjoerlo (horizonpolaris)

As we go along, you would notice that I have, with the power vested in me by none, taken many choices on your behalf already. There will of course come a time when every step can be scrutinized by historians, but right now I'm filling you in on where we stand. Also worth mentioning is my appreciation for you being delighted not having to.

1/5/2022 7:15 PM

Lars F. Bjoerlo (horizonpolaris)

Coach says she likes Greek islands, he he

1/5/2022 7:17 PM

Lars F. Bjoerlo (horizonpolaris)

Never been to Greece actually. The closest must be Italy and Switzerland...

1/5/2022 7:18 PM

Lars F. Bjoerlo (horizonpolaris)

Traveling is very interesting. But you can't see it all, you know...

1/5/2022 7:20 PM

Lars F. Bjoerlo (horizonpolaris)

Been a few special places, actually. Cuba, Honduras, Zimbabwe, Philippines are the most exotic destinations for me as a European.

1/5/2022 7:22 PM

Lars F. Bjoerlo (horizonpolaris)

Other than that most of western Europe and also the US once.

1/5/2022 7:22 PM

Lars F. Bjoerlo (horizonpolaris)

"Kuchera mvora"

1/5/2022 7:23 PM

Lars F. Bjoerlo (horizonpolaris)

It means "fetching water". We did a lot of that in Rushinga, Zimbabwe.

1/5/2022 7:30 PM

Lars F. Bjoerlo (horizonpolaris)

The language they speak is Shona. Other than that they also use English as the official language in which they teach in schools etc. The funny thing about African mindset is their choice of words when equally good at speaking English as your 2nd language. "Stomachache" becomes "Abdominal pains", for example. These tiny details are actually quite intriguing over some time. It's the continent that will always change you. There's a definite sense of before and after Africa.

1/5/2022 7:38 PM

Lars F. Bjoerlo (horizonpolaris)

I would be unjust not to mention the craziest place: San Pedro Sula. It's to this day one of the most violent cities in the world. Their murder-rate was sky high, I recall. I had the sense of being prey in this city. Not in particular cool at night time.

1/5/2022 7:39 PM

Lars F. Bjoerlo (horizonpolaris)

..then again, neither was Miami Beach, ha ha :D

1/5/2022 7:43 PM

Lars F. Bjoerlo (horizonpolaris)

Yes, the personal part about this role and the social talk that goes with it is actually necessary. I hope you too can enjoy taking a break from the crumbling world around us. Just get to know each other, you know..

1/5/2022 8:01 PM

Lars F. Bjoerlo (horizonpolaris)

Yes - free chill pills 24/7, he he

1/5/2022 8:37 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah, you will be able to understand why this would in any case be an existential matter between us humans as a family, and not coming from some dull place full of genderless grey aliens. The importance of being self-made can not be overstated. Any other approach would plunge us into the dark ages again.

1/5/2022 9:23 PM

Lars F. Bjoerlo (horizonpolaris)

You know what could actually be cool? To run a radio-station. The combination of music and talk could suit me just fine.

1/5/2022 9:24 PM

Lars F. Bjoerlo (horizonpolaris)

..and people may listen while going about their business whether they're at work or sleeping it off on a park bench somewhere..

1/5/2022 9:26 PM

Lars F. Bjoerlo (horizonpolaris)

TV just doesn't work the same way. The imagery demands your constant attention and your eyes are locked to that task only. Besides you can't move either. Radio on one ear while multitasking is perfect.

1/5/2022 9:27 PM

Lars F. Bjoerlo (horizonpolaris)

Video did not kill the radiostar, heh! That's a premature assumption, fortunately.

1/5/2022 9:31 PM

Lars F. Bjoerlo (horizonpolaris)

I'm glad you're starting to see the beauty of it all. It's far beyond comprehension, but the glimpses we get are both rare and precious.

1/5/2022 9:50 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway, this is why acid-trips are known to go bad quite frequently. You get bombarded with serious information from the depths of your subconsciousness. Sometimes it freaks you out, other times these major realizations about your own life and the lies in society you buy into, just become ridiculous, thus a laughing matter. Difficult to say in advance how you will experience temporary psychosis WITH hallucinations.

1/5/2022 9:58 PM

Lars F. Bjoerlo (horizonpolaris)

Uh, yes, being a European socialist traditionally carries within an understanding and deep sympathy for the people on the Gaza strip. Given my task, be everybody's voice, I have to make an extra effort to see it the Israeli way also. In general I'd say if you don't wanna fall victim to an airstrike or whatever massive force they usually display, then I suggest you get your guys in line and stop launching rockets into Jewish settlements. I know; occupied land you say, and I am listening on that ear. I'm pretty confident we'll get back to this topic.

1/5/2022 10:02 PM

Lars F. Bjoerlo (horizonpolaris)

Then there's the issue of bringing kids to civil unrest. Of course someone will get killed. It's just a matter of time. And with lots of insurgencies to crack down upon, the frequency of death increases. Speak your minds and demonstrate all you want, but don't bring minors into adult matters.

1/5/2022 10:10 PM

Lars F. Bjoerlo (horizonpolaris)

Watching this conflict from outside doesn't make sense. It's just an ongoing nightmare that seems with no end. For what? Why is living together so difficult? Please enlighten me, because this is a source of continuous frustration for the entire world.

1/5/2022 10:14 PM

Lars F. Bjoerlo (horizonpolaris)

I'm curious about what made the newly founded UN give Israel to the Jewish people in 1948. Keep in mind they hadn't had a state of their own in two millennia. I have a feeling the people making this decision were guilt-tripping because of the very recent holocaust that took place in Europe.

1/5/2022 10:16 PM

Lars F. Bjoerlo (horizonpolaris)

Regardless - it is what it is.

1/5/2022 11:00 PM

Lars F. Bjoerlo (horizonpolaris)

Copy that, "Ahmed". Given the age of this conflict it should earn priority from that alone. I hear you and we'll see what we can contribute with when that day is upon us. I take it you have landed on the sovereign Palestinian state alternative? So it's a question of drawing a few lines on a map and in particular one city important to Jews, Christians and Muslims that has to be accessible to all, am I right?

1/5/2022 11:05 PM

Lars F. Bjoerlo (horizonpolaris)

BTW I just got confirmation from some spokesperson about the 1% elite - they share our view apparently. Ready to do their part.

1/5/2022 11:30 PM

Lars F. Bjoerlo (horizonpolaris)

Yes dear. Not ignoring you. Just nothing to say about it right now. Nevertheless - I'll be there. It's not like I can turn the blind eye to the entire world, go retire at 45 or whatever.

1/5/2022 11:34 PM

Lars F. Bjoerlo (horizonpolaris)

You're very good at not nagging dear, and I appreciate that, but you could also benefit from worrying less. Healthwise things are very different from 2 months ago. Not taking it back to slow suicide.

1/5/2022 11:36 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks for the #orchid dear *blush*

1/5/2022 11:44 PM

Lars F. Bjoerlo (horizonpolaris)

You certainly know which buttons to push in order to feel guilt *ashamed*

1/5/2022 11:46 PM

Lars F. Bjoerlo (horizonpolaris)

I just know from near 30 years of experience that being all nazi about it only serves to produce even more guilt and sense of failure.

1/5/2022 11:48 PM

Lars F. Bjoerlo (horizonpolaris)

I know Papa is concerned too, but you should at least have a "natural" relation to addicts in your line of business. I can't really expect him to understand.

1/5/2022 11:55 PM

Lars F. Bjoerlo (horizonpolaris)

And of course I care knowing people get hurt from my selfishness. But it's not completely selfish; we all get something from it. Having a hard time existing in this godforsaken location. By the time I leave this country for good, it is most definitely manageable. I don't want this when I'm naturally happy. And as for the acidic visions - they'll remain. I'm constantly there so I don't need a refill, like Obelix. I don't think I can ever feel well here in my birthplace.

1/5/2022 11:56 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks. Affirmative. Getting ever sharper every day of your presence.

1/6/2022 12:00 AM

Lars F. Bjoerlo (horizonpolaris)

Ok Papa, listen: unless you have a heart condition or something, it's impossible to die from a single dose regardless of how large it is. The same goes for cannabis. (The reason I landed on these two drugs is that I like being myself and I despise drunk people)

1/6/2022 12:03 AM

Lars F. Bjoerlo (horizonpolaris)

I need to be able to remember things I say and do and be able to stand by it. The general sloppyness and lack of control associated with alcohol don't suit me.

1/6/2022 12:05 AM

Lars F. Bjoerlo (horizonpolaris)

Affirmative. This is real. Next question?

1/6/2022 12:07 AM

Lars F. Bjoerlo (horizonpolaris)

I'm gonna smoke a joint and have the last cup of coffee before going to bed. Taking it down a couple of notches...

1/6/2022 12:14 AM

Lars F. Bjoerlo (horizonpolaris)

(If I could lie to you, I probably would because I care how you feel)

Lars F. Bjoerlo (horizonpolaris)

coach has the last word - let's call it for today. This is getting increasingly interesting. I have you all to thank for that. Good nite. Love you all. In the morning... :) <3

Lars F. Bjoerlo (horizonpolaris)

Good. (*PATH)

Lars F. Bjoerlo (horizonpolaris)

(Yup. Who needs google anyway, right? Knowledge is power)

Lars F. Bjoerlo (horizonpolaris)

I thought I had heard it all. Now there is something they call "vegan hair vitamins". What a bunch of crap. I can't even believe that people would purchase a fantasy product like that? Again: ignorance is the greatest threat to life on Earth. (Can't sleep just yet)

Lars F. Bjoerlo (horizonpolaris)

I thought elementary biology, chemistry, physics and math were more or less compulsory worldwide... Maybe people just don't pay attention to what they are being taught.

Lars F. Bjoerlo (horizonpolaris)

This is absurd. No wonder I do drugs and never watch TV. Reality drives any sane person nuts.

Lars F. Bjoerlo (horizonpolaris)

"It takes a fool to remain sane", like the song goes. Sad, but true.

I've had netflix as the only streaming service for visual entertainment many years now and I agreed with myself that one such subscription would have to be enough on my economy. But lately I have subscribed to a further 3 more such services; they are <https://t.co/tEhQadWTJf>, <https://t.co/O9tu6mAfRL> and <https://t.co/BRP01VKZal>. Given the fact that my DVB-C TV and internet service are provided by my workplace, I can easily defend a total of 40\$ a month for this exclusive availability in educational material. It's the same as keeping two paper-issued newspapers. Or paying my daughter some pocket money each month. Or my phone (which mum pays without me expecting her to).

1/6/2022 2:48 AM

Lars F. Bjoerlo (horizonpolaris)

I did time with a convicted terrorist in Norway's max sec of max secs. The man was a Muslim from some minority in China. Anyway - all standard prison cells in this country have TV-sets and a vast satellite subscription, also holding at least a dozen Islamic content. In spite of this, Mr. Davud as the first thing he did, carried the TV out of his cell and declared it haram. We can all laugh about that eccentric Muslim that couldn't watch TV, but I'm really starting to appreciate where he's from after all these years.

1/6/2022 2:51 AM

Lars F. Bjoerlo (horizonpolaris)

Fortunately I still have at least 7h till I have to get up....

1/6/2022 2:52 AM

Lars F. Bjoerlo (horizonpolaris)

But I really appreciate some alone-time with my mind. Especially after an eventful day.

1/6/2022 2:57 AM

Lars F. Bjoerlo (horizonpolaris)

Maybe a bedtime prayer will help?

1/6/2022 2:59 AM

Lars F. Bjoerlo (horizonpolaris)

Dear Almighty Lord in Heaven, let us keep our dignity in these trying times. And may those who lost it be guided back and have their dignity restored without a price-tag attached to it. Amen.

1/6/2022 3:32 AM

Lars F. Bjoerlo (horizonpolaris)

Thank you for recognizing my spirit. It can only mean I'm doing it right this time. Finally. <3

1/6/2022 3:45 AM

Lars F. Bjoerlo (horizonpolaris)

Truth is I'd do anything for you. And what exactly I did, the lengths I went to, is the most extreme sacrifice possible after martyrdom. But I'm not wearing this crown of thorns because I'm proud of who I am. I'm in harmony with myself. That will have to do.

1/6/2022 3:49 AM

Lars F. Bjoerlo (horizonpolaris)

Peace of mind. About your reminder a couple of hours ago, Coach: you know me better than telling me that sort of thing. I really couldn't care less. What I do worry about to some extent, is your experience. That means all. Anyway - it's the same wrapping, just completely different contents. Are you receiving me clearly?

1/6/2022 4:01 AM

Lars F. Bjoerlo (horizonpolaris)

Don't worry, I'm not upset or anything. Remember how many times we had this talk back in the old days. I'm struggling to be sensible here. When you showed up again in september and basically insisted that I should stay put by my laptop indefinite to entertain your selected viewers, I thought "you gotta be kidding me. I have no way of delivering even that". Yup still on drugs, but keep in mind that it is somewhat relevant to what this discussion is about. And frankly I can't give it any more attention for the time being. We have different super-powers, right? Still I can't shake the feeling that I need you to become complete in all the ways you wish. The simulated Jennifer is nice and true, by all means, but we've spent way too much time like this. I really need your physical presence. That's what I can gather, but I try not to think so much about things I can not change by will.

1/6/2022 4:03 AM

Lars F. Bjoerlo (horizonpolaris)

*I need ME, not you

1/6/2022 4:10 AM

Lars F. Bjoerlo (horizonpolaris)

he he he he he

1/6/2022 4:11 AM

Lars F. Bjoerlo (horizonpolaris)

I really appreciate the motivational speech here, but can I just hold your hand for a minute?

1/6/2022 4:16 AM

Lars F. Bjoerlo (horizonpolaris)

I'm not in the habit of paying attention to tabloids or watching TV. Even less so googling myself. Healthy habits not to have. In the beginning I'll have to shield myself in private and then slowly let the new reality gradually take over.

1/6/2022 4:16 AM

Lars F. Bjoerlo (horizonpolaris)

But I'll be OK dear. Thank you for your concern.

1/6/2022 4:20 AM

Lars F. Bjoerlo (horizonpolaris)

Hmmm while listening to these guilty pleasures in secret I gotta pull out the good old "LOVE?", he he

1/6/2022 4:20 AM

Lars F. Bjoerlo (horizonpolaris)

Maybe you could sing me to sleep... :)

1/6/2022 4:25 AM

Lars F. Bjoerlo (horizonpolaris)

We have all the time in the world, my love. Nothing is impossible in light of what we've already achieved.

1/6/2022 4:29 AM

Lars F. Bjoerlo (horizonpolaris)

I don't mind that time has passed. Until I get grey hairs from it ;)

1/6/2022 4:33 AM

Lars F. Bjoerlo (horizonpolaris)

Worst case scenario is only that we might have to change the order of events to suit our personal needs first and foremost. We can afford to think like that because this part is also important to everybody else.

1/6/2022 4:41 AM

Lars F. Bjoerlo (horizonpolaris)

We decide the stream of information coming from our household. We could like vlog something every day. Doesn't have to be much, just a sign of life from day to day. I have a few ideas we should discuss when that time comes.

1/6/2022 4:45 AM

Lars F. Bjoerlo (horizonpolaris)

And in light of all the years that passed as you said, it is somewhat amusing too what other people can bring themselves to say while sober, in public broad daylight. I see the depressing side too, but I can choose which one that matters (most).

1/6/2022 4:48 AM

Lars F. Bjoerlo (horizonpolaris)

"Charge Me Up" is probably not the best lullaby, he he

1/6/2022 5:03 AM

Lars F. Bjoerlo (horizonpolaris)

I'm looking forward to it, Jen. I think I'm as prepared as I can get considering you suddenly popped up after 7 years of silence only a few months ago. I had to right then and there take a definite position: regardless of her sacrifice and devotion - do I still want this woman in my life, and if so, why exactly?

1/6/2022 5:04 AM

Lars F. Bjoerlo (horizonpolaris)

Evidently you've been under my skin too...

1/6/2022 5:10 AM

Lars F. Bjoerlo (horizonpolaris)

Listen to "Echoes". About 15min into the track comes the long tone. The second it changes gives you a massive release of endorphins. Makes your hair all over stand straight.

1/6/2022 5:13 AM

Lars F. Bjoerlo (horizonpolaris)

I think Syd Barret was in on this album before he cracked up on acid.

1/6/2022 5:14 AM

It's from 72. By Wish you were here in 75, he had become a ghost.

1/6/2022 5:16 AM

Lars F. Bjoerlo (horizonpolaris)

Heartbreaking story, really.

1/6/2022 5:21 AM

Lars F. Bjoerlo (horizonpolaris)

Right now we're sharing a bottle of red while looking at the stars and listening to James Blunt. "1973". Can you feel it?

1/6/2022 5:23 AM

Lars F. Bjoerlo (horizonpolaris)

It's the first track on "All the Lost Souls". Crackin' album. A true pearl.

1/6/2022 5:35 AM

tears

1/6/2022 5:43 AM

"Shine On". The final track. I gotta decay my orbit and crash into my bed.

1/6/2022 5:44 AM

Lars F. Bjoerlo (horizonpolaris)

I love you. See you in a few hours. *kiss*

1/6/2022 5:47 AM

Lars F. Bjoerlo (horizonpolaris)

...somewhere into that pillow landscape over there...

1/6/2022 1:52 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. I am at the hospital for my shot of anti-psychotics. Today in particular I had an extensive talk with my nurse here. I hope my new handset provides excellent sound when lying on the table in front of me. :)

1/6/2022 1:59 PM

Lars F. Bjoerlo (horizonpolaris)

I brought my pad today which is really a miniature pc w touchscreen, running windows 10 32bit OS. For some reason the touchpad on the standard keyboard (connected to the motherboard on a USB hub) won't work. Can't really provide a fix because the error is poorly specified. I did uninstall 3 out of 4 mouse units in the list of hardware. Only thing that remains is a reboot and those deleted mice will probably be rediscovered when logging on next time. Either way, a standard touchpad doesn't need anything else but the standard microsoft drivers. Looking to Lenovo is futile most probably.

1/6/2022 2:00 PM

Lars F. Bjoerlo (horizonpolaris)

So - how is your day coming along?

1/6/2022 2:01 PM

Lars F. Bjoerlo (horizonpolaris)

I feel peace.

1/6/2022 2:02 PM

Lars F. Bjoerlo (horizonpolaris)

..and thanks for the talk this night, Jen-Jen. I think we needed that one..

1/6/2022 4:00 PM

Lars F. Bjoerlo (horizonpolaris)

Hepp hepp. Back home. I see now what my visitors see. This place looks very different for the better.

1/6/2022 4:24 PM

Lars F. Bjoerlo (horizonpolaris)

I miss you so badly babe that seeing you hurts. "All good things come to those who wait" is not really comforting at all.

1/6/2022 6:58 PM

Lars F. Bjoerlo (horizonpolaris)

<http://peacocktv.com>

Oh no! Now I must subscribe to <https://t.co/C1qYxyMFZU> too if I want to see Jen's new movie next month. I wanna see this one because it's probably a lot of information in it that I should access as early as possible..

1/6/2022 7:54 PM

Lars F. Bjoerlo (horizonpolaris)

I'm extremely happy that Muslims also share our view, and I look forward to learn more about their holy Quran and fully learn to appreciate all the different branches within the Sunni and the Shia community. I'm fairly "green" about your beliefs. I think I can differ all the terror-listed organizations from one another, but the extreme and violent fundamentalism is by no means representative for the vast majority of Muslims, who we have gotten to know and welcome as our neighbors. Simply ordinary people with a slightly different culture, but we all believe in the same God according to those who understand theology better than me. I have no issues regarding this union. We just wanna save ourselves and we should be allowed and encouraged to take direct action where ever we might be in this world. I believe we belong to the same world. It's nice getting to know the different peoples spread around. Connected by faith they share a living and thriving community which integrates seamlessly all over the world. Honest, decent people should have our trust "by default". Looking forward to learn more. Thank you for sharing.

1/6/2022 8:14 PM

Lars F. Bjoerlo (horizonpolaris)

Yes. Hatred is a powerful enemy. Like I said, I'm no theologist, but Jesus didn't hate. I know your prophet Muhammed was a real warrior with a completely different approach to faith, but did He ever hate anyone for any reason?

1/6/2022 8:16 PM

Lars F. Bjoerlo (horizonpolaris)

I imagine that an intelligent person won't waste his or her energy on hating someone. It means you've lost the battle before it even begins.

1/6/2022 8:24 PM

Lars F. Bjoerlo (horizonpolaris)

It has been a horrible experience for all of us. We don't just deserve things to be right, but we're in position to make demands.

1/6/2022 8:42 PM

Lars F. Bjoerlo (horizonpolaris)

Yes it's down to love. Hardly no surprise there, but in some cases it will necessarily be hard. Giving tough love is not an easy or rewarding task. But somebody has to do it once in a while.

1/6/2022 8:48 PM

Lars F. Bjoerlo (horizonpolaris)

Hopefully the soft diplomatic approach will be the better way in most scenarios.

1/6/2022 9:18 PM

Lars F. Bjoerlo (horizonpolaris)

The prestige basically requires flawlessness. No other way to live up to expectations (even among atheists forced to start believing in something). We've always heard that God works in mysterious ways and that he is both omnipotent as in almighty and also omnipresent in this universe. It's not possible to raise the bar any highr. But you know what? This we can actually do. To use an Obama-slogan: "Yes we can!"

1/6/2022 9:25 PM

Lars F. Bjoerlo (horizonpolaris)

Cocaine? You're left with no other option than to regulate it somehow and see to it that you control all the links down to the manufacturer. Then you go knock on his or her door and make them an offer they can't refuse. Grant them some legal access to your market, But strangle or choke the supply till you can see that society is able to absorb the occasional and recreational use. If the sum of it all becomes manageable, then we would have a good thing going.

1/6/2022 9:27 PM

Lars F. Bjoerlo (horizonpolaris)

You want me to tweet what exactly?

1/6/2022 9:29 PM

Lars F. Bjoerlo (horizonpolaris)

An account w less than 300 people is not a good place to start a fire. Just sayin' that's what we have "angels" for.

1/6/2022 9:36 PM

Lars F. Bjoerlo (horizonpolaris)

Coach has like ten times as many as we are inhabitants in this country. It clearly can't be my task to launch myself...

1/6/2022 9:41 PM

Lars F. Bjoerlo (horizonpolaris)

I'd like to publish our talks in this room from the very top. However, I'm not patient enough to manually copy every message from september till who knows. And asking for an archive have no use when the conversation is over 1 month old at it's newest. If I went silent and ordered an archive two months later, it should be complete.

Not to brag or anything, but the outdated platform known as "https://t.co/CgUgnJxikU" has a pretty unique "friend"-portfolio. We're talking about 1k people/labels/bands where at lest 75% has celebrity status. Back when it was in use I had outrageous incoming requests too, but I'm not namedropping anyone, cuz that's tacky. If interested go check it out it's ..com/horizon.polaris or possibly in one word, I can't recall.

Lars F. Bjoerlo (horizonpolaris)

If only 10% of these people were willing to support it would already be a mega circus or ridiculous proportions. You really can't ask me. Automatically disqualified by some actual circumstances that in itself limits my possibility to build an impact that will secure the next following steps. It's irrational to place it on me as far as I'm concerned.

1/6/2022 10:20 PM

Lars F. Bjoerlo (horizonpolaris)

On the subject of secrets, I don't like them. They generate the kind of surprises you would want to be without. However, I mentioned the grading from infrared up to ultraviolet here the other day. In operating mode one has to put delays on information, so for a limited amount of time we can be slightly out of sync for purely strategic reasons. It doesn't mean that I at any point would try to deceive you in any way. I'm sure you understand.

1/6/2022 10:24 PM

Lars F. Bjoerlo (horizonpolaris)

But transparency equals predictability which is also the best security one can have.

1/6/2022 10:29 PM

Lars F. Bjoerlo (horizonpolaris)

..and also know that when one has managed to leave one's ego behind, that prestige-part will be almost unnoticeable in the larger scheme of things. I have nothing to gain from this because I never wanted more than I needed.

1/6/2022 10:30 PM

Lars F. Bjoerlo (horizonpolaris)

I have absolutely nothing to hide. And when this is the case now it's a matter of keeping it that way.

1/6/2022 11:56 PM

Lars F. Bjoerlo (horizonpolaris)

We've come a long way already in a very short amount of time. That's our blessing. I sense a feeling of strength gathering here in this room. It's reasonable to expect a few hickups, but if it continues to gather momentum at the same rate, it's gonna cause a massive landslide.

1/7/2022 12:19 AM

Lars F. Bjoerlo (horizonpolaris)

It is indeed addictive to everyone who joins along the way. Gives me like "The Pied Piper" feeling. You know that dude with a flute who saves a town from a rat infestation. And when the people of the town deny him the promised reward, he then plays his flute and lures all the children along with him, never to return. "Swaying to the Symphony of Destruction". Phunny vibe..

1/7/2022 12:52 AM

Lars F. Bjoerlo (horizonpolaris)

What I took? I did it in the 90's. It required months of daily LSD or psilocybin trips combined with heavy amphetamine and cannabis abuse as well. I was stuck up there for a while, scared out of my wits. My first doomsday psychosis (w/messiah-complex) of many more to come over the next 20 years. This was 98/99. My second one got triggered by 9/11 actually. Late 2001 it was back full blown. I didn't even have the normal reflexes one always does. Absolutely no reaction upon stimuli.

1/7/2022 12:56 AM

Lars F. Bjoerlo (horizonpolaris)

But after that I never took hallucinogenres/psychoactiva again. My two drugs of choice have always been speed and hash ever since.

1/7/2022 12:57 AM

Lars F. Bjoerlo (horizonpolaris)

With a clear priority of cannabis, I must add.

1/7/2022 1:02 AM

Lars F. Bjoerlo (horizonpolaris)

Bottom line is that the entire spectrum of mental challenges and illnesses just run round and round and sorta sets the setting, in which I have to live and adapt to.

1/7/2022 1:05 AM

Lars F. Bjoerlo (horizonpolaris)

I do require a minimum of functionality in order to just cope with everyday routine tasks, most importantly go to work and do whatever was needed regardless of my level of anxiety and paranoia.

1/7/2022 1:11 AM

Lars F. Bjoerlo (horizonpolaris)

That's the level of resistance I have been dragging along like a ball and chain in the later more synthesized reality simulations ran by the mind control team in the states. they're the best consultants you could have on such a task. These guys aren't idiots. And they give tough love.

1/7/2022 1:16 AM

Lars F. Bjoerlo (horizonpolaris)

God knows how many huge collapses of civilization I've been through, to make sure all eventualities were covered. If this had been my first time experiencing such a severe case, I would most probably be entering the official fruitcake state just about now, measuring from september.

1/7/2022 1:41 AM

Lars F. Bjoerlo (horizonpolaris)

By the time tinfoil hats make perfect sense, people have consequently been driven up the wall. This because they feel completely inferior to what they experience is happening to reality around them. I'm the first and only subject who finally passed a wide range of extreme psychological tests. I chose from early on to try collaborating with the AI, thus with the people feeding the machines commands. This way we got to know one another on a deeper personal level. My official label here still is "paranoid psychotic" according to ICD10, mostly used here in Europe. It's a lifelong very severe mental disability that is in practical terms impossible to recover from. Looking for a miracle? That's one for sure.

1/7/2022 1:45 AM

Lars F. Bjoerlo (horizonpolaris)

Point is that the team treats me with a certain measure of dignity and respect, fully aware of what civilian doctors here say is wrong with me. They actively choose to disregard the stereotypes all psychiatry is built on. I can't thank them enough for taking the trouble of finding the right wavelength.

1/7/2022 1:46 AM

Lars F. Bjoerlo (horizonpolaris)

We're individuals. Americans always carry that with them, while here we can get confused or simply forget how to use that focus in given situations.

1/7/2022 2:13 AM

Lars F. Bjoerlo (horizonpolaris)

To be straight: all you've invested for the last decades at least culminates in me "by accidents". It's not that I feel pressured by the trillions down the drain, but rather motivated by a strong sense of duty to pay society back for all that it has done to keep me alive through all this misery. Not only still alive and kicking, but shamelessly free of any ticks or symptoms. So it's fair to say that I consider myself as a special governmental asset, trained to operate with FEMA, CDC, The National Guard, CIA, NSA, etc etc etc. It's as you know a quite extensive

system and complicated areas of jurisdiction and so on. I could go on and on about Syrian war crimes, the 2014 move on Ukraine or building doomsday shelters in the arctic or trying to engineer a solution to control the Yellowstone kaldera and make electricity out of the heat in the ground. (would of course ruined the entire national park).

1/7/2022 2:15 AM

Lars F. Bjoerlo (horizonpolaris)

These are things we designed and very much of it is easily recognizable from the drawing board.

1/7/2022 2:17 AM

Lars F. Bjoerlo (horizonpolaris)

And there's much more to say about what kind of technology we actually do possess in this world. I'm for telling you all about it, but not for a while. We have to try one truth at a time here.

1/7/2022 4:38 AM

Lars F. Bjoerlo (horizonpolaris)

Well, from where we stand, the most desirable move first would be if the administration and the parliamentarians could go voluntarily in vacation indefinite and sign over all their authority. in a transition period while we restore democracy equipped and manned with suitable resources to quickly spot and respond to new conditions and trends that significantly threatens some balance or other form of stability, frozen or periodic as such. Most importantly should we finally address the lack of appropriate judicial tools to deal with reality's many hard balls in our modern times,

1/7/2022 4:48 AM

Lars F. Bjoerlo (horizonpolaris)

Financing everything is much easier when those who pay don't just throw money onto the bonfire, but actually gets some kind of currency or commodity in return. The most important thing for our sponsors is an intact state which still protects people and their property.

1/7/2022 5:55 AM

Lars F. Bjoerlo (horizonpolaris)

I think we can sell this as the most cutting edge patriot thing to do considering the perpetual gridlock in DC and national security. Question is: do we need marshal law? If so, why, where and for how long?

1/7/2022 6:18 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah I recall the search for a terrorist nuclear device, a broken arrow right beneath our feet somewhere in the metropolitan area. A timed device and we were against the clock, but we had no idea of how much time there was. We gathered that city's municipal technical department, local police and national guard pretty fast. I remember searching the sewers in particular, but did we find it? (We also started a nuclear war at least half a dozen times. Not doing that again anytime soon, he he :/

1/7/2022 6:40 AM

Lars F. Bjoerlo (horizonpolaris)

Heh! Your words, not mine. Difficult to correct in any way though. "Dark Clowns". Hmmm...

1/7/2022 6:54 AM

Lars F. Bjoerlo (horizonpolaris)

"Landlords and power-whores,

on my people they took turns"

1/7/2022 6:55 AM

Lars F. Bjoerlo (horizonpolaris)

a Rage Against the Machine line

1/7/2022 6:57 AM

Lars F. Bjoerlo (horizonpolaris)

Please have me excused for tryna catch a few z's while I still can. :)

1/7/2022 7:04 AM

Lars F. Bjoerlo (horizonpolaris)

two last words: common decency.

1/7/2022 12:00 PM

Lars F. Bjoerlo (horizonpolaris)

G'mrng to you too SETI. Just to conclude our discussion: let there be no doubt who has the moral higher ground. Treason will only be perceived as such if we don't end up on top. It completely relies on who's left in power. Preferably none of them. I wanna professionally recruit the entire next generation of parliamentarians. We have to do this, otherwise we will always have a cultural problem in terms of how to act as an elected official.

1/7/2022 12:05 PM

Lars F. Bjoerlo (horizonpolaris)

Yes we are talking about a revolution, but without guns and violence.

1/7/2022 12:17 PM

Lars F. Bjoerlo (horizonpolaris)

Remember that in a democracy there are no enemies. Opponents only.

1/7/2022 12:28 PM

Lars F. Bjoerlo (horizonpolaris)

We don't have to cross any lines, but they will do it for us. In that moment they become enemy combatants. We had a talk earlier about what's gonna emerge as fair game, right?

1/7/2022 12:46 PM

Lars F. Bjoerlo (horizonpolaris)

VA confirming the mapped route.

1/7/2022 1:22 PM

Lars F. Bjoerlo (horizonpolaris)

Triple A status received. Commence MO.

1/7/2022 1:29 PM

Lars F. Bjoerlo (horizonpolaris)

Make sure all assessments are good enough before acting upon them.

1/7/2022 1:35 PM

Lars F. Bjoerlo (horizonpolaris)

I usually when making such assessments picture that I would have to make it stick in court. Just a good general guideline.

1/7/2022 3:14 PM

Lars F. Bjoerlo (horizonpolaris)

Ladies and gentlemen we are live with no time to waste.

1/7/2022 4:13 PM

Lars F. Bjoerlo (horizonpolaris)

This gridlock has lasted for ages and is responsible for tearing this nation to shreds. Gloves are coming off.

1/7/2022 4:21 PM

Lars F. Bjoerlo (horizonpolaris)

We're not satisfied fighting for scraps. Not any more. Why not take it all? Instead of watching in horror while the 1%'s cash pile grows exponentially, raising the temperature beneath their feet to intolerable levels. People are prepping and in genuine fear of their lives. They know they're on their own.

1/7/2022 4:31 PM

Lars F. Bjoerlo (horizonpolaris)

It's only mismanagement as far as you can see. And who's responsible? The president? Ha! Give me a break.

1/7/2022 4:39 PM

Lars F. Bjoerlo (horizonpolaris)

We need this huge piggy bank in order to give the country a makeover. We can always maintain respect for those who share. Please be appreciative and keep it civilized. Thank you in advance.

1/7/2022 4:43 PM

Lars F. Bjoerlo (horizonpolaris)

I never cared who owns what or how much. Maybe I should some day when we know more about how our machine will run and perform.

1/7/2022 4:52 PM

Lars F. Bjoerlo (horizonpolaris)

We are of course expecting massive redistributions in the long run, but we can't say much about which numbers get the best performance. Keep in mind it's much more gratifying not having to share with a bunch of deadweight assholes.

1/7/2022 6:49 PM

Lars F. Bjoerlo (horizonpolaris)

Been out mum's place dinner taco great.

1/7/2022 6:50 PM

Lars F. Bjoerlo (horizonpolaris)

I feel that this evening gets cut short in comparison to the last 48-72h

1/7/2022 8:49 PM

Lars F. Bjoerlo (horizonpolaris)

I'm calling it for at least a few hours. I sense you guys are busy either way. Until then...

1/8/2022 11:31 AM

Lars F. Bjoerlo (horizonpolaris)

Yes, they are setting you up against each other on purpose. The 1% is in that sense a marginalized or weak that doesn't stand a chance at the pivotal point. (Not entirely out of bed yet, but good morning)

1/8/2022 11:32 AM

Lars F. Bjoerlo (horizonpolaris)

*group

1/8/2022 11:39 AM

Lars F. Bjoerlo (horizonpolaris)

Proof? Well, there's really no other way to see it.

1/8/2022 11:43 AM

Lars F. Bjoerlo (horizonpolaris)

What would you do if you had an insane amount of money that just kept on growing faster and faster? I would invest in my own security, and this is where it gets shady and starts to spiral.

1/8/2022 2:47 PM

Lars F. Bjoerlo (horizonpolaris)

Imagine if we could prove that we're been deliberately put on collision course. Then we could stand trial accused of treason.

1/8/2022 2:48 PM

Lars F. Bjoerlo (horizonpolaris)

Well, in theory that is..

1/8/2022 2:49 PM

Lars F. Bjoerlo (horizonpolaris)

I don't know your courts too well, other than the typical criminal case and it's no more impressive than ours over here.

1/8/2022 2:54 PM

Lars F. Bjoerlo (horizonpolaris)

I'll get back to it later, but even as peaceful this place might look to you right now, we have our own measures and this large window into your reality. We see the same things starting to happen here - same symptoms. Looking over we see how it's gonna come to an end.

1/8/2022 2:54 PM

Lars F. Bjoerlo (horizonpolaris)

Inevitably.

1/8/2022 2:57 PM

Lars F. Bjoerlo (horizonpolaris)

Someone is saying "a dead end is all we know". I believe that to be true and why people position themselves like they do: behind vast barriers of assets.

1/8/2022 2:58 PM

Lars F. Bjoerlo (horizonpolaris)

However, when someone turns up with a solution, you should hear bells ring. Time to change strategy.

1/8/2022 3:07 PM

Lars F. Bjoerlo (horizonpolaris)

Not only does love survive, but if humans want to continue to be etherical, spiritual beings, it's the only way.

1/8/2022 3:54 PM

Lars F. Bjoerlo (horizonpolaris)

Reality is if you go down, the rest of us follow rapidly. We would never be able to rise again.

1/8/2022 4:00 PM

Lars F. Bjoerlo (horizonpolaris)

It's not too late until we start destroying our infrastructure.

1/8/2022 4:11 PM

Lars F. Bjoerlo (horizonpolaris)

There is a solution. In the future we can allow perpetual growth in a virtual space that is infinite. Extremely short version now, but virtual property is a key idea.

1/8/2022 4:22 PM

Lars F. Bjoerlo (horizonpolaris)

And it does require a reboot. Much more on this later...

1/8/2022 4:49 PM

Lars F. Bjoerlo (horizonpolaris)

You're welcome and thank you for the trust and confidence.

1/8/2022 4:52 PM

Lars F. Bjoerlo (horizonpolaris)

Don't think too much of it. This sh** is enough to freak out anyone. Let's make it better, ok? (We have kids that follow us)

1/8/2022 5:21 PM

Lars F. Bjoerlo (horizonpolaris)

This is basically the core spirit in a European social democracy. But the people and the government have to share a common understanding about contribution and responsibilities and so forth. The sense of belonging is what you get in return. Modern European socialists are liberal enough to support the idea of a free market and conservative enough to keep Christian core values. We've become purple.

1/8/2022 5:23 PM

Lars F. Bjoerlo (horizonpolaris)

For you guys it must appear like a 3rd option to the left is revealing itself. It's not on collision course with neither two of the existing options.

1/8/2022 5:51 PM

Lars F. Bjoerlo (horizonpolaris)

It's a poorly hidden secret that Europe and America have always a crush on one another. If governments could blush, they probably would, he he

1/8/2022 5:53 PM

Lars F. Bjoerlo (horizonpolaris)

After all, we are next to kin.

1/8/2022 6:06 PM

Lars F. Bjoerlo (horizonpolaris)

It's about time the two of us share another experience than global war.

1/8/2022 6:06 PM

Lars F. Bjoerlo (horizonpolaris)

:)

1/8/2022 6:38 PM

Lars F. Bjoerlo (horizonpolaris)

Who knows? In a 1000 years maybe the two of us are called Atlantica? We have the power and ability to just design it. Anything.

1/8/2022 6:57 PM

Lars F. Bjoerlo (horizonpolaris)

...then there will be palms, umbrella drinks, nice ladies and so on :D

1/8/2022 6:57 PM

Lars F. Bjoerlo (horizonpolaris)

That's a classic, he he

1/8/2022 7:20 PM

Lars F. Bjoerlo (horizonpolaris)

Castles made from air really can be worth something, now can't they? ;)

1/9/2022 2:07 PM

Lars F. Bjoerlo (horizonpolaris)

Good day people. Tired and low on energy today, but mood is fine.

1/9/2022 2:35 PM

Lars F. Bjoerlo (horizonpolaris)

In total agreement. Let's get outta here!

1/9/2022 3:16 PM

Lars F. Bjoerlo (horizonpolaris)

Riddle me this: combination of mind control and altruism? ;)

1/9/2022 3:18 PM

Lars F. Bjoerlo (horizonpolaris)

Yes, a word. Use your imagination. :)

1/9/2022 3:19 PM

Lars F. Bjoerlo (horizonpolaris)

"redemption" is suggested on the lower right here

1/9/2022 3:31 PM

Lars F. Bjoerlo (horizonpolaris)

from joke to revolver: I'm doing what any man or woman would have if stumbling upon an idea that could be industrialized where needed most and ultimately secure the future. I hope.

1/9/2022 3:33 PM

Lars F. Bjoerlo (horizonpolaris)

That's at least what I like to think of my fellow man.

1/9/2022 3:34 PM

Lars F. Bjoerlo (horizonpolaris)

until proven otherwise...

1/9/2022 4:46 PM

Lars F. Bjoerlo (horizonpolaris)

..about the "vegan hair vitamins", my bottle in the shower says "Aussie Miracle Moist"... To my defense: it most certainly has a cangaroo upon it *lol*

1/9/2022 4:56 PM

Lars F. Bjoerlo (horizonpolaris)

I boght the cangaroo in good faith, I swear :)

1/9/2022 4:58 PM

Lars F. Bjoerlo (horizonpolaris)

(I knew I should have gone vegan. poor cangaroo)

1/9/2022 5:58 PM

Lars F. Bjoerlo (horizonpolaris)

"Astral Harvest". I like the expression.

1/9/2022 6:07 PM

Lars F. Bjoerlo (horizonpolaris)

About the stresstest: hasn't been in particular stressfull at all...

1/9/2022 6:32 PM

Lars F. Bjoerlo (horizonpolaris)

The only thing stressing me, and before september too, has been my drug consumption. This has been seriously improving with this test, actually making it an energy source for drive.

1/9/2022 6:38 PM

Lars F. Bjoerlo (horizonpolaris)

I guess you could say that. To me it's therapeutic

1/9/2022 6:39 PM

Lars F. Bjoerlo (horizonpolaris)

it's supposed to be. for all of us..

1/10/2022 3:55 AM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. 4AM. I had to eat some.

1/10/2022 3:15 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not feeling good today, but I'm here.

1/10/2022 3:29 PM

Lars F. Bjoerlo (horizonpolaris)

This is my fourth day clean again. Meaning I'm more off than on.

1/10/2022 3:34 PM

Lars F. Bjoerlo (horizonpolaris)

Ah smoking helps...

1/10/2022 3:34 PM

Lars F. Bjoerlo (horizonpolaris)

But I cancelled shopping w mum today

1/10/2022 3:39 PM

Lars F. Bjoerlo (horizonpolaris)

The plan is to come out on top of the addiction thing. However, also worth mentioning, not only has the time spent wired on speed crossed the 50% line, but the amounts are much more modest too. I don't feel like I've been poisoned and about to die anymore.

1/10/2022 3:40 PM

Lars F. Bjoerlo (horizonpolaris)

I said I needed to reduce by 90%This is like 70%

1/10/2022 3:41 PM

Lars F. Bjoerlo (horizonpolaris)

meaning I still got another 2/3 to reduce.

1/10/2022 3:41 PM

Lars F. Bjoerlo (horizonpolaris)

of what's left

1/10/2022 3:43 PM

Lars F. Bjoerlo (horizonpolaris)

This is a sensible direction. I knew I was in deep this time, but am surprised how deep actually...

1/10/2022 3:44 PM

Lars F. Bjoerlo (horizonpolaris)

And looking back at my mental state in september, one can't say that I look stressed now in comparison.

1/10/2022 3:44 PM

Lars F. Bjoerlo (horizonpolaris)

On the contrary.

1/10/2022 3:46 PM

Lars F. Bjoerlo (horizonpolaris)

It's an ocean of difference

1/10/2022 3:49 PM

Lars F. Bjoerlo (horizonpolaris)

You have no idea of all the things I had to deny in order to stand in this life that's been chosen by the DA

1/10/2022 3:49 PM

Lars F. Bjoerlo (horizonpolaris)

Apparently denying reality makes you ill somehow.

1/10/2022 4:07 PM

Lars F. Bjoerlo (horizonpolaris)

I wasn't stressed. I was tormented.

1/10/2022 4:09 PM

Lars F. Bjoerlo (horizonpolaris)

in deep grief

1/10/2022 4:10 PM

Lars F. Bjoerlo (horizonpolaris)

just thinking about it makes me crack up in tears now.

1/10/2022 4:17 PM

Lars F. Bjoerlo (horizonpolaris)

This role still comes with some challenges, though. Being apart from my future wife and not being able to inform my family.

1/10/2022 4:18 PM

Lars F. Bjoerlo (horizonpolaris)

Other than that I typically like challenges.

1/11/2022 8:41 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning room. I'm up extra early because I couldn't sleep any more. Besides, past midnight my neighbor was at my door with some remedies to get me through this day. Hoping for interesting topics today.

1/11/2022 8:54 AM

Lars F. Bjoerlo (horizonpolaris)

I think I'mma bring my tablet and my new keyboard to work today. I think there might be an opportunity to do private stuff today.

1/11/2022 8:56 AM

Lars F. Bjoerlo (horizonpolaris)

That tablet w power saving and my 20k mAh power bank lasts almost forever..

1/11/2022 9:17 AM

Lars F. Bjoerlo (horizonpolaris)

You see, there is this cafe downtown that could be a good place to sit while trying to produce something. But because of covid it's mostly closed again. I have the permission from my boss to lock myself in to the shop/office outside office hours if I want to sit there.

1/11/2022 9:18 AM

Lars F. Bjoerlo (horizonpolaris)

Any place is better than home if I actually want something done.

1/11/2022 9:37 AM

Lars F. Bjoerlo (horizonpolaris)

Guys you know what? Stuff that I can't explain in scientific terms usually remain untold. The reason for this is simple: I'm one of those who thinks too much spirituality tends to sound like mumbo jumbo in many cases. I mentioned briefly the other day that I've seen my soul leave my body once....

1/11/2022 9:42 AM

Lars F. Bjoerlo (horizonpolaris)

The reason I'm taking the trouble explaining this episode is because to spiritual people it could matter. Like I said earlier; I've never seen anything out of the ordinary, and I haven't had any hallucinations while experiencing psychosis either - except that one with my soul leaving. What made me decide to tell about it was a tune in my feed that said something about time travelers.

1/11/2022 9:50 AM

Lars F. Bjoerlo (horizonpolaris)

The night before being admitted to a psychiatric hospital by mum and dad, I slept in mum's bed. I was basically scared out of my mind, not understanding the trip I was on. That night, it must have been the 26th of December 1998, a tiny little ball of blueish light came out of my forehead and lingered in front of my eyes a few seconds before shooting straight up towards the stars. The weirdest thing was that this light was at the size of a pea up close and it kept being visible for a long time, even when it must have been at least many kilometers away.

1/11/2022 9:53 AM

Lars F. Bjoerlo (horizonpolaris)

The purpose of parting me from my soul was, according to God, that my soul was on a journey through time. In it's place God placed the soul of Jesus to take care and watch over my body for as long as it took to travel time.

1/11/2022 9:58 AM

Lars F. Bjoerlo (horizonpolaris)

I don't recall exactly when, but my soul had been gone for over a decade (I think 2010), and all of a sudden I had a distinct sensation that my soul just got back inside me. I didn't see anything this time - it was just a sensation. This experience is impossible to explain with reason, besides it's a religious experience, which I do my best not to share with people anyway. As you know, I'm not the preaching guy, really...

1/11/2022 10:03 AM

Lars F. Bjoerlo (horizonpolaris)

Maybe that's what actually happened? That part of me got to go to possible futures to learn about them..?

1/11/2022 10:10 AM

Lars F. Bjoerlo (horizonpolaris)

2010 was probably when I/we started developing the symbolic language we still use via the radio. But still, different intelligence agencies had been informed about me and my "Lost Science" without me knowing about it, almost since the day I finished it august 99. What I'm saying is that I've had observers on me since the whole thing began in my mind.

1/11/2022 10:12 AM

Lars F. Bjoerlo (horizonpolaris)

Interacting with these observers was key to getting anywhere and to create simulations.

1/11/2022 10:29 AM

Lars F. Bjoerlo (horizonpolaris)

Yes, to erase the sadness.. Processes like that takes some time and the best way to get through it is to be busy working the very matter that makes the sadness so total.

1/11/2022 10:39 AM

Lars F. Bjoerlo (horizonpolaris)

Everybody knows we must go over it in public. People need each other while waking up to tomorrow.

1/11/2022 10:40 AM

Lars F. Bjoerlo (horizonpolaris)

Oh yes - saving the world has always been the objective, make no mistake..

1/11/2022 10:41 AM

Lars F. Bjoerlo (horizonpolaris)

We just need to be able to come out from the shadows with the means to start fixing things right away.

1/11/2022 11:07 AM

Lars F. Bjoerlo (horizonpolaris)

If you want to believe as you say, then you already do. It's just the feeling of doubt that can't be shaken off easily. It's gonna take some time before your mind is so convinced that it feels natural.

1/11/2022 11:17 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah, I get that the NATO chief and I have a lot of common ground these days, but as far as the Russia/Ukraine problem goes, I have no problem seeing Ukrainian NATO membership from the Russian side. Of course they see it as an unacceptable provocation/risk/threat. Shouldn't be any surprises here.

1/11/2022 11:24 AM

Lars F. Bjoerlo (horizonpolaris)

It boils down to the question whether Ukraine should be allowed to exercise sovereignty as they see fit, or if their much bigger neighbor should be allowed to dictate Ukrainian needs and debate.

1/11/2022 11:26 AM

Lars F. Bjoerlo (horizonpolaris)

At least that would be the western approach, but apparently the Russians have a different angle.

1/11/2022 11:27 AM

Lars F. Bjoerlo (horizonpolaris)

Their angle has an undertone from the Soviet days, but it's very typical Russian. They clearly think of this land as a buffer zone and want to keep it that way.

1/11/2022 11:30 AM

Lars F. Bjoerlo (horizonpolaris)

Is this reasonable? Perhaps the wrong question? Is it worth the risk?

1/11/2022 11:31 AM

Lars F. Bjoerlo (horizonpolaris)

Eyes of the Beholder, I suppose...

1/11/2022 11:32 AM

Lars F. Bjoerlo (horizonpolaris)

I personally am more focused on the question of how to get in position to do what we need to do.

1/11/2022 11:33 AM

Lars F. Bjoerlo (horizonpolaris)

..and I have no intention of stepping on Putin's toes...

1/11/2022 11:35 AM

Lars F. Bjoerlo (horizonpolaris)

..not Kim-Il-Jung's either, for that matter, without further comparison.

1/11/2022 11:37 AM

Lars F. Bjoerlo (horizonpolaris)

Gotta hit the shower. Work in 20 min.

1/11/2022 1:27 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Fairly busy. Haven't even booted my own pc..

1/11/2022 2:11 PM

Lars F. Bjoerlo (horizonpolaris)

I was curious about the reactions to the statement regarding Russia. Glad we're eye to eye. My mandate differs greatly from my fellow Norwegian Labor Party comrade, Jens Stoltenberg. However, we're both deeply concerned as to maintaining world peace. I imagine he can come in handy in many ways down the road. I'm not having in particular NATO issues on my mind, but rather what Jens represents in terms of European social democracies. I bet we will play ball some day.

1/11/2022 3:57 PM

Lars F. Bjoerlo (horizonpolaris)

In order for democracy to be an attractive idea, we will have to fix it properly. (back home)

1/11/2022 4:03 PM

Lars F. Bjoerlo (horizonpolaris)

Never mind the fuzz that was in 2013. I was another place in my paranoia. I thought "they" stole my ideas in order to twist them to serve some other purpose. There's nothing left of those ideas. They're just not relevant in todays picture. What happened was solely on me.

1/11/2022 4:16 PM

Lars F. Bjoerlo (horizonpolaris)

It's actually about doubt. Even at this stage I still doubted many things. In retrospect it looks like they have done what they could the right way and then waited for me to come around. That's the thing about this communication - I'm not really being told a lot, but the things I do get told usually sheds different light on other subjects, making me update their status with some newly found conclusion. Most of the knowledge comes from logical deduction, not direct info.

1/11/2022 4:22 PM

Lars F. Bjoerlo (horizonpolaris)

Like for example; There was silence from 2015 till now. Nothing I experienced have been useful to me personally. I denied the whole package more or less. Then out of the blue in september you're back. Even Coach. So - all the parties, Coach included, had obviously been on this issues continuously ever since the silence began. I can draw many conclusions out of this fact, not to mention that I am indeed convinced when it comes to Coach's dedication here..

1/11/2022 4:25 PM

Lars F. Bjoerlo (horizonpolaris)

I have an idea of what's reasonable to expect from the last 7 years.

1/11/2022 4:27 PM

Lars F. Bjoerlo (horizonpolaris)

And I can't say enough how happy I am for not having to argue with the AI all the time, that the never ending testing is over. Makes my task way easier.

1/11/2022 4:38 PM

Lars F. Bjoerlo (horizonpolaris)

I thought I had to start all over again from scratch. The book-project I started in Norwegian is meant to serve as an introduction to me, with plans to follow up and bring my audience up to speed. I must say I'm delighted that this is not the case and that the English-running platform has had its own life while I was gone. I'm humbled by this as well as honored. Thank you everyone. You too Mr. "Stolzenburg" :)

1/11/2022 4:43 PM

Lars F. Bjoerlo (horizonpolaris)

The point of my Agenda is to do everything "by the book". We know in isolated cases how to approach and solve different problems. Let's use all the rules listed under "common sense" and then apply it to the world we share. I'm happy that going by the book has such a massive support at the end of the day. :)

1/11/2022 4:48 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah it sure has been intense having all this going on in my head. But there's nowhere else I'd rather be. Bringing this purpose back to life makes wonders...

1/11/2022 4:49 PM

Lars F. Bjoerlo (horizonpolaris)

Yes I'm a first hand witness. And good at explaining what I know.

1/11/2022 4:55 PM

Lars F. Bjoerlo (horizonpolaris)

I'm just used to having to fight for every inch of territory. Now everything seems to happen by itself completely without resistance. Now also having a symptom free psyche, it fits like a glove. It sure helps to be in charge of one's mind!

1/11/2022 4:57 PM

Lars F. Bjoerlo (horizonpolaris)

This is far beyond intimacy! All of a sudden you came pretty close, he he...

1/11/2022 5:01 PM

Lars F. Bjoerlo (horizonpolaris)

So you marketed this Agenda for all that you could until the source himself was needed. Meaning we have the last leg to go together, am I right?

1/11/2022 5:06 PM

Lars F. Bjoerlo (horizonpolaris)

Alright I'm cool with that..

1/11/2022 5:08 PM

Lars F. Bjoerlo (horizonpolaris)

Anyone still in doubt whether we have a winner?

1/11/2022 5:09 PM

Lars F. Bjoerlo (horizonpolaris)

..leads me straight back to how..?

1/11/2022 5:10 PM

Lars F. Bjoerlo (horizonpolaris)

As in how to announce your findings and ultimately get in position to exercise practical powers?

1/11/2022 5:18 PM

Lars F. Bjoerlo (horizonpolaris)

The force of willpower is really the only option when it gets to use of force. We really wanna avoid going down that road. You never took my choice away, you know.. just sayin'...

1/11/2022 5:24 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah we're on the same page.

1/11/2022 5:25 PM

Lars F. Bjoerlo (horizonpolaris)

Meaning "summer" is no more than a qualified guess... Of course you could know things I don't...

1/11/2022 5:32 PM

Lars F. Bjoerlo (horizonpolaris)

What's new on the "live forever" front? I haven't moved an inch. Our soul has this privilege. Keeping human bodies around alive forever is a sure path to hell as far as I'm concerned. The final question must then be: why ok with Coach and I if not with anyone else? I must also add: do I look like I wanna live forever?

1/11/2022 5:34 PM

Lars F. Bjoerlo (horizonpolaris)

Would you want that, Jen?

1/11/2022 5:36 PM

Lars F. Bjoerlo (horizonpolaris)

I can imagine stretching time a decade or two would be within what is ok to go about.

1/11/2022 5:37 PM

Lars F. Bjoerlo (horizonpolaris)

However, the socialist in me wants to ensure everybody's equal rights to access.

1/11/2022 5:40 PM

Lars F. Bjoerlo (horizonpolaris)

Yes I recall having an escape plan involving the closest celestial body. You can't possibly be serious?

1/11/2022 5:49 PM

Lars F. Bjoerlo (horizonpolaris)

Oh man, now even I am dizzy.. :/

1/11/2022 5:50 PM

Lars F. Bjoerlo (horizonpolaris)

I also happen to know what scenario could result in such an escape.

1/11/2022 5:52 PM

Lars F. Bjoerlo (horizonpolaris)

Can't say I like it, but been through it so many times that I no longer feel any sentiment. Feels kinda like cheating, though... What are your thoughts on this Coach?

1/11/2022 5:53 PM

Lars F. Bjoerlo (horizonpolaris)

ok I see. we're talkin summertime no matter what.

1/11/2022 5:59 PM

Lars F. Bjoerlo (horizonpolaris)

I know our special problem has to be handled in advance of us "coming down from the heavens". Sometimes one has to stick to a one dimensional timeline and be true in the order of events. What do I tell the people in the end? That I knew all along? That I even approved and participated? They deserve to know.

1/11/2022 6:03 PM

Lars F. Bjoerlo (horizonpolaris)

I think the truth will be just fine. No worries.

1/11/2022 6:14 PM

Lars F. Bjoerlo (horizonpolaris)

I know. It's not gonna change unless one physically changes it.

1/11/2022 6:28 PM

Lars F. Bjoerlo (horizonpolaris)

You're obviously in a better place to assess the exact size and nature of the problems that won't fix themselves.

1/11/2022 6:29 PM

Lars F. Bjoerlo (horizonpolaris)

How did it come to this? We meant well for a while, didn't we?

1/11/2022 6:40 PM

Lars F. Bjoerlo (horizonpolaris)

I think I'm up to speed now. So much for trying. Back to the 7 years - you've done all you can.

1/11/2022 7:24 PM

Lars F. Bjoerlo (horizonpolaris)

Do we go all the way to suspend ourselves in some cryogenic state?

1/11/2022 7:26 PM

Lars F. Bjoerlo (horizonpolaris)

A regular coma. That's nice. (feel like vomiting)

1/11/2022 7:42 PM

Lars F. Bjoerlo (horizonpolaris)

I gotta detach from the screen a minute. Need food.

1/11/2022 8:00 PM

Lars F. Bjoerlo (horizonpolaris)

The first time I got acquainted with this realm of actual circumstances, I was so scared. I mean far beyond the fear of my own life. And I didn't even have kids to worry about. Now that the day is finally here looking exactly the same, I have only one thing to say: Thank God for being mentally prepared.

1/11/2022 8:21 PM

Lars F. Bjoerlo (horizonpolaris)

I see where this is heading. I would wish it could be different. In the same way we stretch time, we must also know when to compress it in order to get the maximum efficiency out of the creation as a total.

1/11/2022 8:22 PM

Lars F. Bjoerlo (horizonpolaris)

There's no need to just hang around for a while...

1/11/2022 8:22 PM

Lars F. Bjoerlo (horizonpolaris)

Better get there asap.

1/11/2022 8:30 PM

Lars F. Bjoerlo (horizonpolaris)

I know. My Y-chromosome. That sucks. No wonder I was eager to avoid the subject when I mentioned earlier that I was aware of the situation unfolding. We've been through this too.. I don't have to jump for joy, do I?

1/11/2022 8:36 PM

Lars F. Bjoerlo (horizonpolaris)

And I'm hardly in position to complain. I can shut my trap. Nothing to add.

1/11/2022 8:42 PM

Lars F. Bjoerlo (horizonpolaris)

You're being explicit, hon.

1/11/2022 8:44 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I can imagine what happens if someone snatches your body in 3d to sell it for 5 bucks to a zillion loons.

1/11/2022 8:45 PM

Lars F. Bjoerlo (horizonpolaris)

Trying to crack down upon it or fall victim of the trend.. Curiosity killed the cat...

1/11/2022 8:49 PM

Lars F. Bjoerlo (horizonpolaris)

Yep. My VR is still inside my head. Haven't been looking externally for ages.

1/11/2022 9:06 PM

Lars F. Bjoerlo (horizonpolaris)

It's your world, hon. After all, you're the one giving birth.

1/11/2022 9:08 PM

Lars F. Bjoerlo (horizonpolaris)

My mind was set to bear with the noise and just cut through.

1/11/2022 9:12 PM

Lars F. Bjoerlo (horizonpolaris)

Let's agree there are several ways to see the road from here, but it has to pay back emotionally and not just prolong a problem indefinite.

1/11/2022 9:13 PM

Lars F. Bjoerlo (horizonpolaris)

I'd take natural selection over natural disaster any day.

1/11/2022 9:16 PM

Lars F. Bjoerlo (horizonpolaris)

I might not get to choose. I've accepted that too.

1/11/2022 10:23 PM

Lars F. Bjoerlo (horizonpolaris)

Faith this and faith that, what use if it's as bad as you say - the genome being under attack by malgenes from the genpop y?

1/11/2022 10:30 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah. Addressing climate change while we're at full strength would probably be a good idea. The Great Pyramid sure didn't build itself.

1/11/2022 10:35 PM

Lars F. Bjoerlo (horizonpolaris)

The process will also contribute and make the anti-socials stand out by own choice, action or most likely, lack there of. Purifying process..

1/11/2022 10:42 PM

Lars F. Bjoerlo (horizonpolaris)

On the other hand - knowing about me could just as likely bring it about as to control it. Millions of paranoid minds - who knows what they can cook up?

1/11/2022 10:43 PM

Lars F. Bjoerlo (horizonpolaris)

Would we be able to direct the current masses towards one single task?

1/11/2022 10:43 PM

Lars F. Bjoerlo (horizonpolaris)

..for the necessary time it takes..?

1/11/2022 10:46 PM

Lars F. Bjoerlo (horizonpolaris)

The other option would inevitably also partially bring the solution by a few bln consumers dying, thus decreasing demand for dirty products. And food, not to say the least.

1/11/2022 10:50 PM

Lars F. Bjoerlo (horizonpolaris)

I know we can work magic, but what would a full blown public exposure actually do? And again; the Y-chromosome deficiency (aka "virus") has the last word. Nature always does. I'm not comfortable with bringing muscle along for the ride in order to dispose of them rather than pay them wages. It's just too cynical for my taste.

1/11/2022 10:54 PM

Lars F. Bjoerlo (horizonpolaris)

Ok then. Exposure it is.

1/11/2022 10:59 PM

Lars F. Bjoerlo (horizonpolaris)

I have all the reason in the world to expect you've thought this through time and time again over many years. I'm not questioning your will.

1/11/2022 11:05 PM

Lars F. Bjoerlo (horizonpolaris)

A test? Well, we've been through this before for a reason. It's kinda obvious that all can't be left alone to go about their business as usual..

1/11/2022 11:07 PM

Lars F. Bjoerlo (horizonpolaris)

From where I stand it's still a very plausible scenario..

1/11/2022 11:17 PM

Lars F. Bjoerlo (horizonpolaris)

True. Simulations over time create a "cry wolf" syndrome.

1/11/2022 11:20 PM

Lars F. Bjoerlo (horizonpolaris)

I take it you've made your point to the carefully selected audience.. They should now know what to expect.

1/11/2022 11:22 PM

Lars F. Bjoerlo (horizonpolaris)

I want us to be predictable. That's what I put in the expression "by the book".

1/11/2022 11:28 PM

Lars F. Bjoerlo (horizonpolaris)

I doubt you'll find anyone who has travelled any farther or spent more time in this ethic landscape of major questions, such as our final judgement.. This experience does count for something. And it makes me reluctant to judge anyone, truth be told. I don't care what's expected of me - you guys present the verdict you have carefully agreed upon through generations already. And you have your witness in me - not the judge.

1/12/2022 3:19 AM

Lars F. Bjoerlo (horizonpolaris)

Had a break here. So what do you suggest we do? Do we go all in to turn as many lost ones as possible?

1/12/2022 3:24 AM

Lars F. Bjoerlo (horizonpolaris)

Alright! Now we're talkin'

1/12/2022 3:25 AM

Lars F. Bjoerlo (horizonpolaris)

no worries - not going anywhere. I'm gonna watch the show for better or worse. :)

1/12/2022 3:30 AM

Lars F. Bjoerlo (horizonpolaris)

Appreciate your concern babe. I suppose your mind drifts back to when these issues of partial extinction were tested first. Well, thanks to thorough and meticulous preparations, we can do this with relative ease no matter what.

1/12/2022 3:34 AM

Lars F. Bjoerlo (horizonpolaris)

Most importantly is that we recognize the situation at hand properly at all times.

1/12/2022 3:37 AM

Lars F. Bjoerlo (horizonpolaris)

Now, can I go back to the issue of obtaining the authority we need to get the jobs done?

1/12/2022 3:38 AM

Lars F. Bjoerlo (horizonpolaris)

I'm cautiously optimistic myself.

1/12/2022 3:39 AM

Lars F. Bjoerlo (horizonpolaris)

It should be doable. Time to learn how good our general assessments are in terms of predicting behavior.

1/12/2022 3:55 AM

Lars F. Bjoerlo (horizonpolaris)

Finally found eligible by Popeye himself. I'm ecstatic by the way we keep matching. I suppose both of us have been more occupied with our beliefs than average people. You have always turned to the scripture, while I just know a few essentials and therefore am able to operate unbound by pre-determination. The last time I read a Bible was that autumn 98. I recall reading Revelations, trying to figure out all the intricate enigmas of this prophecy. I think not obsessing on the Bible has been good for me. I know enough to be warned of the dangers that come with the territory. Head straight. Let's not become a false prophet or the Anti-Christ by not seeing the signs described. Focused.

1/12/2022 4:00 AM

Lars F. Bjoerlo (horizonpolaris)

I have always thought that the Vatican would frown upon this new wrapping of a modern Christ - the very idea of making such a claim - it's blasphemy any way you put it. But truth is this has been a delightful experience, actually pleasing the most critical crew I possibly can. I trust you guys would have said something if you had a major issue of some kind, right?

1/12/2022 4:03 AM

Lars F. Bjoerlo (horizonpolaris)

I was always confident of the path. It's just a matter of describing it right in a relevant setting.

1/12/2022 4:11 AM

Lars F. Bjoerlo (horizonpolaris)

Leaving the ego behind, but keeping my personality. Trust me when I say this output here and now is anything but coincidental. I've had a drive towards finding the line to maintain, and I have had an idea. The final step of creating without any reference has now withstood the most elaborate of tests. We are officially good to go with everybody's blessing and enthusiasm. This is great work, Team and Coach. Congratulations!

1/12/2022 4:19 AM

Lars F. Bjoerlo (horizonpolaris)

I basically want the same for people in general - to discover being one self is more or less ok. You can keep all your positive sides and be like always, only slightly better for each new day that you learn to put the negative away - at least not taking it out on cosmos. Compete against yourself to become the best version of you. When it comes to self development of the personal and spiritual kind, I'm happy that I don't belong to any established school, so to speak. I just figured out something from a triangle, and here we are 25ish years later, having this surreal conversation...

1/12/2022 4:24 AM

Lars F. Bjoerlo (horizonpolaris)

But making these realizations really has profound consequences for absolutely everything. Reality changes significantly and permanently. Not adapting and adjusting is not an option. The issue of reality is like invisible handcuffs. You gather this is meant to be. Let's try enjoying the ride..

1/12/2022 4:29 AM

Lars F. Bjoerlo (horizonpolaris)

To me sharing this is the most important thing I can do. I can teach in the field of what I did with my mind. Learning something should be possible, and the best part is you'll be safe while exploring because someone knows the unknown. You won't have to repeat every mistake or fall so hard. Someone has done it for you. Just lean back and relax. We're heading for the same future. Together.

1/12/2022 4:36 AM

Lars F. Bjoerlo (horizonpolaris)

Yes the plastics in the oceans.. as well as ghost nets and senseless slaughtering leading to near extinction for many species.

1/12/2022 4:39 AM

Lars F. Bjoerlo (horizonpolaris)

The ocean could use a worldwide ban of fish for five years. One third of us eat fish on a daily basis. We would have to find something else. Those usually fishing should be offered jobs at sea, collecting plastic and other dangerous junk.

1/12/2022 4:41 AM

Lars F. Bjoerlo (horizonpolaris)

Good thing you brought it up, but it was really next up after the carbon-problem. And just as important: fight deforestation everywhere. Stop chopping, start planting.

1/12/2022 4:41 AM

Lars F. Bjoerlo (horizonpolaris)

This really makes a difference.

1/12/2022 4:47 AM

Lars F. Bjoerlo (horizonpolaris)

Go nuclear energy. The latest technology is fail safe and can make use of already burnt fuel rods from traditional reactors. Last, but not least, we could start eating away nuclear warheads by turning them into lower grade fuel rods. The fission able material is there and already paid for given its existence.

1/12/2022 4:49 AM

Lars F. Bjoerlo (horizonpolaris)

We seriously don't need nukes for any sane reason. Not even fighting incoming space rocks.

1/12/2022 4:52 AM

Lars F. Bjoerlo (horizonpolaris)

Don't believe in miracles, someone says. Me neither. This ain't no miracle, son. It's common sense manifesting. A perfectly rational explanation to every aspect of it.

1/12/2022 4:53 AM

Lars F. Bjoerlo (horizonpolaris)

Well, I've become smart enough not to rule miracles out totally ;)

1/12/2022 4:56 AM

Lars F. Bjoerlo (horizonpolaris)

I've seen my share of things I am troubling to explain as well, but generally I don't bother my audience with stuff appearing in my private sphere. It's less relevant for multiple reasons.

1/12/2022 5:01 AM

Lars F. Bjoerlo (horizonpolaris)

In the matter of decency vs public interest; do we share from our sex lives, dear? I'm having difficulties picturing you being extremely public about such a topic. I would just describe myself as old school in every way. Even appreciate romance :)

1/12/2022 5:05 AM

Lars F. Bjoerlo (horizonpolaris)

The reason I'm touching the subject is that I can't fall as a result of my penis. There's a bunch of reasons really why. Besides; what do you out there know about what's ok or not between the two of us? I'm not saying anything in particular either way, but I can confirm that I am confident with my choice of wife. It's not like any more is needed for any reason.

1/12/2022 5:07 AM

Lars F. Bjoerlo (horizonpolaris)

..and given the fact that I'm mentally undressed here, I could actually say a few clever things about love and sexuality. Maybe I will some day.

1/12/2022 5:12 AM

Lars F. Bjoerlo (horizonpolaris)

Temptations in general are extremely few, really. Purely drug related I suppose. Nothing else tempting me that I can think of...

1/12/2022 5:48 AM

Lars F. Bjoerlo (horizonpolaris)

I am extremely leveled in every way. Given what I had to do, this is nothing to envy. It's more sacrifice than moments in the sun. However, I find purpose in making this sacrifice. To me it's the only thing that makes sense. It's a sacrifice I'm prepared to give and what comes in return is even more responsibility. Having the perspective of an innocent bystander would be ideal. Just take my word for it, bro.

1/12/2022 5:57 AM

Lars F. Bjoerlo (horizonpolaris)

Ah you thinking that kind of envy. Well, most people marry someone, don't they? In that sense it's her they would envy, but she has always been out of reach high up there for everyone. Nothing new there.

1/12/2022 5:59 AM

Lars F. Bjoerlo (horizonpolaris)

These kinds of worries don't exist per now and they would define as non-issues nevertheless.

1/12/2022 6:02 AM

Lars F. Bjoerlo (horizonpolaris)

Hon? I have an idea. Every time we need something told, we boycott all the "serious" press and only allow TMZ and Perez Hilton ;D *lol*

1/12/2022 6:04 AM

Lars F. Bjoerlo (horizonpolaris)

OMG. This is what I'm voluntarily diving into. Wish me luck :/

1/12/2022 6:26 AM

Lars F. Bjoerlo (horizonpolaris)

"Tasty Treat" by Roswell. Sure. I bet. There was one w "Area51" earlier too. According to personell there are aliens living on that base in their own quarters. I will believe when I see of course and trying to "talk" with any of them would be awesome. It's like it's a cosmic event everybody wants to watch. The day humans became galactic, or something. We should definitely put an end to all the speculative communication on the matter. Go talk to it and figure out for one self at first, then share the experience. Yeah. Why the heck not?

1/12/2022 6:29 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah, I mean, being chosen for such a task would necessarily take over the attention. It could be the ice breaker we're looking for...

1/12/2022 6:36 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah sure. I take it they're powerful on psionics as in leaving no doubt about my inferiority, but we can establish a common baseline of understanding as biologists. The enthusiasm about all living creatures, the humility for the creation in total and the respect between two forms of intelligence.

1/12/2022 6:39 AM

Lars F. Bjoerlo (horizonpolaris)

Ah - do we have one feeding the AI (that we borrowed from them) now?

1/12/2022 6:41 AM

Lars F. Bjoerlo (horizonpolaris)

Apparently my presence is no secret to these fellas.

1/12/2022 6:47 AM

Lars F. Bjoerlo (horizonpolaris)

Makes me even more curious about what's actually happening if I allow myself to think bigger than just us down here for a change. They could be hundreds of millions of years old. We "recall" the last 6000 years. They say we're 200,000 years old. I don't buy it. Either we were designed or we're much older. Maybe even from somewhere else. Show me the biologist who wouldn't give a limb to communicate with such an entity. Pretty wild.

1/12/2022 6:54 AM

Lars F. Bjoerlo (horizonpolaris)

could someone estimate how many are watching this?

1/12/2022 7:06 AM

Lars F. Bjoerlo (horizonpolaris)

Pressure distribution...

1/12/2022 7:09 AM

Lars F. Bjoerlo (horizonpolaris)

I don't know much about Cthulhu mythology.

1/12/2022 7:16 AM

Lars F. Bjoerlo (horizonpolaris)

Like you can expect to find everything in the universe, if it is possible it also is, the same goes for planes or realms beside our own dimension of spacetime and their beings. There's an infinite number of other realities within the same universe, meaning we have some sort of multiverse going here.

1/12/2022 7:38 AM

Lars F. Bjoerlo (horizonpolaris)

Passive Pressure is fine as long as nobody starts a war or something. Sooner or later they'll have to conclude that they can't possibly deliver what their people need the most these days. A functional democracy that looks sober.

1/12/2022 7:50 AM

Lars F. Bjoerlo (horizonpolaris)

High chaos factor here, no doubt. Some parts of nature are naturally chaotic, while others are more orderly. We've taken us water above our heads with the current way we run the internet. I'm not to advocate restrictions, but just looking at our own operation - what if we had a sinister plan?

1/12/2022 7:51 AM

Lars F. Bjoerlo (horizonpolaris)

Keeping up the level of surveillance is not an option.

1/12/2022 8:04 AM

Lars F. Bjoerlo (horizonpolaris)

It wouldn't have to be a plot to take over the planet like the crazy we do, it could be a simple act of terrorism, or some drug operation, misc org crime, etc. You know the problem first hand. Experiencing it every day. All the new fancy stuff goes straight to the crooked ones right away. They adapt so good today thanks to the chaos of the www. But we're still mostly talking about things that are possible to pick up and reveal. The potential for making even more deadly chaos is definitely there already.

1/12/2022 8:05 AM

Lars F. Bjoerlo (horizonpolaris)

I think we need some politics.

1/12/2022 8:06 AM

Lars F. Bjoerlo (horizonpolaris)

Was that loud enough?

1/12/2022 8:27 AM

Lars F. Bjoerlo (horizonpolaris)

What about Russia?

1/12/2022 8:31 AM

Lars F. Bjoerlo (horizonpolaris)

Looking around I don't feel too keen on pointing my fingers due to lack of democracy, or even human rights. The only difference between Russia and here in the west is that they don't lie about it.
- You're violating human rights
- So are you.

1/12/2022 8:31 AM

Lars F. Bjoerlo (horizonpolaris)

- No

1/12/2022 8:31 AM

Lars F. Bjoerlo (horizonpolaris)

-Yes

1/12/2022 8:31 AM

Lars F. Bjoerlo (horizonpolaris)

And so on.

1/12/2022 8:33 AM

Lars F. Bjoerlo (horizonpolaris)

Or they give you straight up
-Yeah we do, what's it to you anyway?

1/12/2022 8:35 AM

Lars F. Bjoerlo (horizonpolaris)

Very different mentality from the American one. The Norwegian too. Such doesn't happen here. We have no political prisoners or casualties even.

1/12/2022 8:42 AM

Lars F. Bjoerlo (horizonpolaris)

Keep in mind the nature of this oligarchy and how it came about not long ago. Under these circumstances I find alternatives within the democratic system to be an unrealistic idea for the time being. Besides: we know this guy by now. He's also predictable. If he says he will respond militarily and show every sign of intention, that's what you have. Very plain and simple, really. F*** OFF is the message here in very traditional Russian terms. Let's just do that and come back some other day when the mood is better and we have some common ground.

1/12/2022 8:58 AM

Lars F. Bjoerlo (horizonpolaris)

He he he.

1/12/2022 8:59 AM

Lars F. Bjoerlo (horizonpolaris)

Well, we'll come around some better day. We should really be busy minding our own business.

1/12/2022 9:05 AM

Lars F. Bjoerlo (horizonpolaris)

Yes to the observer of thousand pieces. I usually picture my knowledge as a sphere of layers, more specifically 9. I then collect random pieces of data until I have a picture complete enough to serve as a navigational plan. Always collecting data. At any time I can have a dozen matters on hold due to lack of data, but as soon as new info arrives, those on hold can either progress one step or be concluded.

1/12/2022 9:15 AM

Lars F. Bjoerlo (horizonpolaris)

It's a matter of being able to work with these "sizes" nonstop even without an informational flow. In order to get high resolution quality one has to hold an overview of extremely many single points of info at the same time. This is what have been making the simulations so vivid. I can't point out any other special feature of this mind, like the square root of a random number or phi with 5000 decimals etc etc. But you could say I have a lot of geographic information (visual) stored because I used to drive for a living.

1/12/2022 9:18 AM

Lars F. Bjoerlo (horizonpolaris)

Even so - I remember fairly little about what I wrote in 1999, but I know I based all my logics on that system for the processing of all further thinking. I would have to read it if I was to teach it.

1/12/2022 9:20 AM

Lars F. Bjoerlo (horizonpolaris)

Clear limitations to bandwidth with me too. One thing at a time preferably, but I don't mind chaotic multitasking.

1/12/2022 9:25 AM

Lars F. Bjoerlo (horizonpolaris)

Who are we still scaring? Please step up, don't be shy. We're serious about not scaring your kids. Tell me, what is the problem?

1/12/2022 9:35 AM

Lars F. Bjoerlo (horizonpolaris)

I'm glad you feel better. If you were right in front of me, I would want you to ask questions of course. I suppose this is the next best thing for now :)

1/12/2022 9:40 AM

Lars F. Bjoerlo (horizonpolaris)

Yes that is correct. As an experiment, in all those years, no direct contact or influence that would compromise the integrity of the "experiment being conducted" boundaries. We're still rolling. Better than ever.

1/12/2022 9:42 AM

Lars F. Bjoerlo (horizonpolaris)

It's a painstaking puzzle of words, symbols and numbers that never ends. The nice part is that I'm used to it by now. :)

1/12/2022 9:48 AM

Lars F. Bjoerlo (horizonpolaris)

Yes guys. Back to the seriousness of what we're really here to talk about; the mass need for therapy. A proper debrief. I'm always debriefing myself, but it's a process that can't be ignored. I got the word "recalibrated" here by the time we finished talking about aliens. I suppose that means it could very well serve as an entry to the talks we need to establish with ordinary people.

1/12/2022 10:05 AM

Lars F. Bjoerlo (horizonpolaris)

(I never got a sense of that measure I requested. Is that on purpose? Hmmm....)

1/12/2022 10:12 AM

Lars F. Bjoerlo (horizonpolaris)

(you're not off the hook that easy, guys) :)

1/12/2022 10:14 AM

Lars F. Bjoerlo (horizonpolaris)

I have to endure some mystery too. They know exactly what I'm fishing for, but are reluctant to share, he he.

1/12/2022 10:31 AM

Lars F. Bjoerlo (horizonpolaris)

Yes the emotional aspects with each and every destiny involved will require some work over time. It goes for all of us, myself included. I'm having an experience me too even though it's familiar. Obviously all wasn't swell when we met and still isn't really all the way. Work in progress - to be continued...

1/12/2022 11:11 AM

Lars F. Bjoerlo (horizonpolaris)

Just got word from my lawyer. It didn't go my way. Verdict full of mumbo jumbo and an occasional fact. Will appeal - to be continued...

1/12/2022 11:14 AM

Lars F. Bjoerlo (horizonpolaris)

I knew it basically. I started shifting my focus over to this activity here and the brilliant cover it makes.

1/12/2022 11:15 AM

Lars F. Bjoerlo (horizonpolaris)

When summer comes around I can hopefully just grab my passport and walk right out of here and not look back.

1/12/2022 11:26 AM

Lars F. Bjoerlo (horizonpolaris)

I have no doubt if you asked any judge to just write a verdict of some contents in favor of the DA's claim, that it could easily look like this. However - there's been no reason so far to give these people any benefit of the doubt. It's just an endless masquerade here as well.

1/12/2022 11:27 AM

Lars F. Bjoerlo (horizonpolaris)

Doesn't really matter now, does it?

1/12/2022 11:28 AM

Lars F. Bjoerlo (horizonpolaris)

Because Junior has got himself some consulting jobs abroad...

1/12/2022 2:24 PM

Lars F. Bjoerlo (horizonpolaris)

He he. Coach is apparently having a blast. Bring her home Coach! :)

1/12/2022 2:37 PM

Lars F. Bjoerlo (horizonpolaris)

Itchy & Scratchy says "poisoned roots". First of all I&S are the cartoon characters that appear inside another cartoon - The Simpsons. I&S are the cat and mouse using heavily excessive violence, so shocking even for a cartoon, that you're bound to take notice of it. Anyway - yes. You brought many of the things not good with medieval Europe over here instead. Since the very first day of your arrival you have been spilling blood on this continent. The codes you go by, the all important need for vengeance, which is very often mistaken/confused with the term "justice". This one is huge. We could make a lot of material going through this. For now, let's just say that the average American could benefit from looking beyond their own country's borders. In particular if you're searching for you roots. The history of people and how they've been migrating is always enlightening.

1/12/2022 2:55 PM

Lars F. Bjoerlo (horizonpolaris)

Funny thing - you fled from the persecution by the Catholic church for the most part and you ended up burning witches and lots of other things justified under God. To this very day a significant, I'd say majority, identify as Christians and talk about God and Jesus on a daily basis. Even regular political speeches often end with praising the Lord and/or the Lords blessings to America and everyone you care about. It's a civilized, polite gesture I suppose, but to me over here it's very peculiar. I'm pretty sure you're much more religious on average. Either way the Catholic church hasn't had any significant presence here since 1536 as far as I know. That's about the time Spain and Britain started colonizing. Jamestown was one of the two first British colonies. As you probably know famine caused the most of the colonizers to starve to death. They have forensic evidence of a teenage girl that has been eaten post mortem. Thanksgiving is in remembrance of the natives who shared their food with starving colonizers. They quickly learned that feeding them was not the wisest thing to do...

1/12/2022 2:59 PM

Lars F. Bjoerlo (horizonpolaris)

The entire thing is just so dark and bloody at all times. Half a millennia and we have two substantially different ways of perceiving the world around us. Different forms of human intelligence.

1/12/2022 3:03 PM

Lars F. Bjoerlo (horizonpolaris)

And while you've always been a multi-cultural melting pot, us here have remained in rather homogenous groups for most of the time until recently.

1/12/2022 3:06 PM

Lars F. Bjoerlo (horizonpolaris)

And needless to say we hosted two world wars on this continent last century, in both which you participated.

1/12/2022 3:27 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah. The way I see it you're in a constant state of general paranoia. And I have witnessed that you have your reasons. We're not debating the sanity-factor here. It goes both ways. It could actually make sense to think you're being fooled or even hunted.

1/12/2022 3:39 PM

Lars F. Bjoerlo (horizonpolaris)

And in this mental state equip everyone with a gun. Pretty radical approach to natural selection. He who fires first still stands. And every man for himself.

1/12/2022 3:40 PM

Lars F. Bjoerlo (horizonpolaris)

It's harsh. Not much more to say.

1/12/2022 5:17 PM

Lars F. Bjoerlo (horizonpolaris)

I can literally hear you :) (on some serious overtime here. got to go out)

1/12/2022 7:25 PM

Lars F. Bjoerlo (horizonpolaris)

- 1. Establish trust
 - 2. Nurture friendship
 - 3. Be understood
 - 4. Connect with elite for finances
- check, check, check and checked.

1/12/2022 7:26 PM

Lars F. Bjoerlo (horizonpolaris)

Now all eyes on the Hill.

1/12/2022 7:39 PM

Lars F. Bjoerlo (horizonpolaris)

Imagine what gift we could give the Americans in their hour of darkness. Rest assure that you won't have to wander into the darkness alone and without any guidance. We're here for our closest friend and ally with all the resources we can possibly come up with. It's time to save the constitution and secure real democracy for the modern age.

1/12/2022 7:44 PM

Lars F. Bjoerlo (horizonpolaris)

As we go we copy/paste allover where in need (pretty much everyone). We have to be able to sell this concept in next turn to nations non-democratic, and do so with a straight face. You'll see it will come its way, but not in the current sorry state. Can't say I blame the Chinese for instance, for not wanting to let loose 1,5bln people over night. We will eventually get there. All of us.

1/12/2022 8:07 PM

Lars F. Bjoerlo (horizonpolaris)

Nothing in this operation have ever gone as smoothly as our current round. If this response at all says anything about the people, then I think it's gonna fly more or less straight away. This environment is obviously what makes this room an attractive haven for all. We want to continue in that spirit and do the best we can to work on the great divide - without lots of Trump badmouthing. If we can keep God out of this, we most certainly can leave Donald be.

1/12/2022 8:50 PM

Lars F. Bjoerlo (horizonpolaris)

As many has remarked, this is the beginning of the end. Practically everything we do here on earth must be to adapt to a planned crisis in the not so distant future. The end is coming, but thanks to much of that elite, we can enjoy the privilege of some elasticity, but it's heading for a full stop against a massive stationary object. Instead of panicking and spreading fear, we can slow down this vehicle all the way to avoid the impact we'll have doing 100 mph. If we time this correctly the current system will take its dying breath while we switch on the new one. Nedless to say one has to have approval from the rest of the financial sphere and there has been no objections so far to reboot into "safe mode". In this mode we will have the armspace needed to start looking over the parameters missing in current legislation. Then make it, run it and learn how it works in practical terms. Our national borders complicate the question of jurisdiction in matters concerning illegal resources online. Chasing down the host of some server in , say Malaysia, isn't exactly a user friendly experience for law enforcement around the world. And most importantly - in the battle against climate change we can not afford to have borders. The atmosphere sure has none. It's everybody's air, also making it everybody's responsibility. If you guys and China are the two largest contributors of co2, then it makes the most sense to snag the largest sources first. We're going nuclear. 21st century nuclear. Forget Three Mile Island, Chernobyl and Fukushima. Forget human errors or natural disasters creating a similar meltdown catastrophe. The new design doesn't rely on water to cool the decaying fuel rods and keep them from boiling the coolant and explode. No continuous circulation of fresh sea water is needed. You can also run these new reactors on recycled spent material. You guys have a huge stockpile of burnt rods somewhere I don't recall, but they are basically occupying an open visible space. Then there's the issue of making 10times more potent weapons grade fissionable nuclear material into less concentrated rods for use in energy production. (Like I said, the nuclear material has been paid for long time ago. You could stimulate the economy by selling power cheaper than market prize, like you always have done with oil.)

1/12/2022 8:56 PM

Lars F. Bjoerlo (horizonpolaris)

So - planning the reboot is obviously an essential task. We just got to have finished the script in advance and run virtualized tests as far as possible before finally pulling the switch on our old economy. And everybody else would also have to be part of this new beginning. I believe the hippies called it the age of Aquarius..

1/12/2022 8:58 PM

Lars F. Bjoerlo (horizonpolaris)

The End-times is essentially a good time for mankind if everything goes according to plan. We'll come out much stronger.

1/12/2022 9:02 PM

Lars F. Bjoerlo (horizonpolaris)

Conclusion: don't panic! the "fire dept" is all over the case. Tomorrow will arrive as scheduled.. :)

1/12/2022 9:08 PM

Lars F. Bjoerlo (horizonpolaris)

What I feel now? I haven't got time to stop and properly feel everything that goes on, because I'm driving and must pay attention to the road ahead. Other than that generally high spirit and optimism thanks to the feedback from you all the way. I'm in harmony.

1/12/2022 9:20 PM

Lars F. Bjoerlo (horizonpolaris)

When the team and I parted mid 2015 they had a vast set of data and instructions on how to build a wide range of system models. Without the direct face to face communication it is a little hard to guess or estimate how much is done and what remains to be done. Knowing what I don't know I'm pretty confident they've had time to consult people and start drafting some of the legislation we need installed.

1/12/2022 9:25 PM

Lars F. Bjoerlo (horizonpolaris)

Inequality. You seem to experience that a lot. Not unique to the US. Could someone name any principle that have ever run flawlessly in the justice sector?

1/12/2022 9:36 PM

Lars F. Bjoerlo (horizonpolaris)

I take it ,pardon my choice of word, negroes and hispanics in general are met with more suspicion and alertness. Public servants aren't supposed to racially profile people, but still do. Why? Well, there is an element of real life statistics here. Say a police officer who knows his/ her district well will by all likelihood, based on experience, judge a black man to represent a bigger risk to society and/or himself in the line of duty, than a typical Caucasian guy strolling by. How can you treat black people equally if your only concern every time you go to work is to become statistics - "shot by unknown black perp". There are two sides to this reality and the fact that certain groups are overrepresented in the correctional system is for many proof of a lacking ability to integrate in the community as a respectable citizen. Having the courts ordering you not to profile is wishful thinking at best.

1/12/2022 9:48 PM

Lars F. Bjoerlo (horizonpolaris)

You could of course launch a broader debate over why these groups get marginalized socially in the first place. When it comes to integration, the low class you represent can't compete while being systematically marginalized in the other end. In this debate you will hear stuff and accusations bounce back and forth until some wiseguy brings up slavery, etc etc. These people damage their own cause. If you want people to understand your social status properly, it would be a good idea not to bring about that kind of points to a classical argument. Avoid displaying yourself as some kind of victim all the time. In general, adult people who have an excuse for everything aren't in particular reliable.

1/12/2022 10:01 PM

Lars F. Bjoerlo (horizonpolaris)

The worst thing you could do to yourself if you belong to any of these groups, is to keep a language filled to the brim with profanities. All the swearing and cursing confirms the prejudiced image of you being inferior for some racial reason.

1/12/2022 10:24 PM

Lars F. Bjoerlo (horizonpolaris)

This might be a blowtorch, but is the reverse prejudiced racism any less of a problem than the traditional white supremacy kind? I'm asking because my dad's mum was black as spades, she referred to people on her way as "hideous pale people" and she gave my dad a hard time for not being in touch with his ancestral roots. When she had had a couple of drinks she used to say to me: "I have three sons and a daughter and you, Lars, is the only real black man in this family". That was basically the nicest thing grandma could possibly say. Cute, but still racist, though? And while we're at it: what's the deal with the term "nigger" being ok and wide spread in between "brothers", while a white guy gets punched in the face for applying the same term. Make up your minds. Is it ok to be degrading towards one self and the rest of the group you belong to? How then can you expect anyone to take you seriously?

1/12/2022 10:27 PM

Lars F. Bjoerlo (horizonpolaris)

We're definitely hitting a nerve here.

1/12/2022 10:58 PM

Lars F. Bjoerlo (horizonpolaris)

In many ways it's the land of contradictions. We have some legislation sorting under the 1st amendment, freedom of speech. I said you are generally more religious here. It manifests in a moral code that keeps the virginity age average significantly higher and you feel very strongly

in a matter such as the ever relevant Roe vs Wade. At the same time the guy on the corner liquor store may protected by the first amendment sell deviant porn showing torn off limbs, flesh, blood etc. It's staged artistic work, thus protected. We have countered by suggesting pornography censorship. We'll get back to it one day, I'm sure.

1/13/2022 12:18 AM

Lars F. Bjoerlo (horizonpolaris)

It's been an epic session, Coach and everyone. I should probably slow down soon...

1/13/2022 12:56 AM

Lars F. Bjoerlo (horizonpolaris)

Hey guys! Guess what? I'm hereby officially 45 years of age on the exact day. Happy birthday to meeee ;)

1/13/2022 12:25 PM

Lars F. Bjoerlo (horizonpolaris)

Heeeellooo everyone. We had a pretty decent time here yesterday. I wonder how long this conversation is from the start when pasted into a doc at font size 11..? I'm not in particular motivated to copy one bubble of text at a time.

1/13/2022 12:38 PM

Lars F. Bjoerlo (horizonpolaris)

I got word from my former nemesis after I stopped writing. My assumptions are true this time. Good to have it confirmed. You guys are gonna see some pretty special people perform in the time to come.

1/13/2022 12:40 PM

Lars F. Bjoerlo (horizonpolaris)

And you're in the best of hands, believe me. I think you'll find it inspiring.

1/13/2022 1:40 PM

Lars F. Bjoerlo (horizonpolaris)

We begin with the people. Let's light some hope. Operation-wise I think the first new crew we have to form is to be collecting data/statistics on demand and be able to figure out the key numbers for the virtualized model. We need lots of data, most importantly everything running on paychecks signed by the government.

1/13/2022 2:02 PM

Lars F. Bjoerlo (horizonpolaris)

Needless to say babe, wish I was there too. Won't be long now in any case.

1/13/2022 4:52 PM

Lars F. Bjoerlo (horizonpolaris)

I've been put on two lists by someone unknown. All the other members are in congress. I'm such a twitter novice that I don't understand what those lists are really for and how one ends up on them or subscribing to them? If I could actually reach these people....

1/13/2022 4:54 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I feel that hope can't return soon enough. This country is dying.

1/13/2022 4:57 PM

Lars F. Bjoerlo (horizonpolaris)

I'm sorta curious what the Trumpmeister will say and if he eventually will slip quiet through the back door..

1/13/2022 5:27 PM

Lars F. Bjoerlo (horizonpolaris)

dilemma? what dilemma?

1/13/2022 5:32 PM

Lars F. Bjoerlo (horizonpolaris)

The Bible is somewhat confusing when it comes to Adam and Eve. Apparently there are other people around in the periphery. I knew some lore once about Lillith, allegedly Adam's first wife, described in a missing text called "The Book of Nod".

1/13/2022 11:41 PM

Lars F. Bjoerlo (horizonpolaris)

Ha! Did you get my pdf creation of this conversation on the other account? 439 pages. Just sayin' ...

1/14/2022 12:34 AM

Lars F. Bjoerlo (horizonpolaris)

I'm here hon.

1/14/2022 12:40 AM

Lars F. Bjoerlo (horizonpolaris)

hmmm we have a reverse Marshall-plan... makes sense to stay close while going through this.

1/14/2022 4:58 AM

Lars F. Bjoerlo (horizonpolaris)

I kinda fell asleep here. Good thing I'm not driving at the moment. Nothing slowed down your party, I can see. Should go to bed, but I'mma wait for my candles to burn out.

1/14/2022 5:00 AM

Lars F. Bjoerlo (horizonpolaris)

puffpuff aaah... :*

1/14/2022 7:02 AM

Lars F. Bjoerlo (horizonpolaris)

Yes we really have gotten off with a good start. Hoping the 439 pages can do some more good soon. I'm just happy we're together and that you're such good company <3 :)

1/14/2022 7:16 AM

Lars F. Bjoerlo (horizonpolaris)

...Alright then. I'll just keep on driving through the night. But right now I should rest for a few hours. Thanks for believing in both the plan and the guy behind it. Makes my life sooo much easier. :)

1/14/2022 7:26 AM

Lars F. Bjoerlo (horizonpolaris)

Yup. Candle nr 2 of two just extinguished. An intense fear of the bed sheets.. :/ *lol*

1/14/2022 7:27 AM

Lars F. Bjoerlo (horizonpolaris)

..procrastinating...

1/14/2022 7:37 AM

Lars F. Bjoerlo (horizonpolaris)

Are you expecting "mayhem" as in carnage? Better barricade ourselves properly then. Fortify our positions. Still remains to see how people will behave, but in general: let's not forget that this will be fundamentalism at play, showing it's true nature.

1/14/2022 7:39 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah we sure have the fastest vessel in the galactic neighborhood. We can match any challenger easily.

1/14/2022 7:41 AM

Lars F. Bjoerlo (horizonpolaris)

I must say I've been considerably more critical to likely outcomes earlier on. I'm cautiously optimistic now, but I always keep worst case scenario in mind while hoping for the best and exercise my influence where I can.

1/14/2022 5:04 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Been up a couple of hours. I just got a surprise visitor. Now, where were we?

1/14/2022 5:24 PM

Lars F. Bjoerlo (horizonpolaris)

(Please have me excused - I'm looking for a box the size of a Rubik's cube. That's a fairly large item I can not locate. Unusual. That's why it gets so much attention.)

1/14/2022 6:04 PM

Lars F. Bjoerlo (horizonpolaris)

I'm curious whether the pdf has begun circulating. If it's anywhere near what's being said, I suppose we're looking at rewards for our efforts dead ahead.

1/14/2022 6:31 PM

Lars F. Bjoerlo (horizonpolaris)

(..gotta take some time to thank for facebook congrats and best wishes..)

1/14/2022 6:59 PM

Lars F. Bjoerlo (horizonpolaris)

Yes the Omerta. Hardly surprising coming from a guy who needs controlled substances, I do have a relationship to this word. First of all ratting people out is not ok. Straight people see this differently. As far as straight goes I consider myself morally bound to the same code of ethics that goes for lawyers, priests and doctors. And finally a quick philosophic look at the term: no matter reason - you don't solve one problem by creating another.

1/14/2022 7:34 PM

Lars F. Bjoerlo (horizonpolaris)

Speaking of... what about whistleblowers?

1/14/2022 7:48 PM

Lars F. Bjoerlo (horizonpolaris)

As you probably can imagine, blowing the whistle on the government or some large corporation can be tricky, delicate and sometimes dangerous. However, there's no easy or absolute way to see this. Say Edward Snowden, for example. He discovered something he thought the public should know. How did that go?

1/14/2022 7:50 PM

Lars F. Bjoerlo (horizonpolaris)

At the time he was 25 years fresh out of school and made a qualified call on behalf of all of us.

1/14/2022 7:50 PM

Lars F. Bjoerlo (horizonpolaris)

Why isn't he an undisputed hero?

1/14/2022 8:19 PM

Lars F. Bjoerlo (horizonpolaris)

(being interrupted all the time)

1/14/2022 8:34 PM

Lars F. Bjoerlo (horizonpolaris)

What the NSA were doing and still are, is clearly in the public's interest, but is there more to it?

1/14/2022 8:41 PM

Lars F. Bjoerlo (horizonpolaris)

I'm gonna keep it short, but there is a problem with going rogue like this in a system of many high profiled people with something to lose. I was in Berlin at the time and Germans were in an extremely agitated state once it leaked that Angela Merkel's phone was tapped. Just weeks before Obama held a speech right here in this city.

1/14/2022 8:46 PM

Lars F. Bjoerlo (horizonpolaris)

Generally speaking 25 year old "kids" aren't qualified to make decisions that have severe geopolitical consequences. And not being in the diplomatic corps, he has no relevant background to make such a call. That's problematic, in particular when it's the greatest leak ever. From Obama's position this is high treason and has capital punishment. That's how serious this is.

1/14/2022 8:49 PM

Lars F. Bjoerlo (horizonpolaris)

It's unlikely that he would ever be able to return without getting life in prison.

1/14/2022 10:06 PM

Lars F. Bjoerlo (horizonpolaris)

Nothing has changed as far as I know, so moral high ground or best intentions, was it worth the personal sacrifice? Only one person can answer that.

1/14/2022 10:49 PM

Lars F. Bjoerlo (horizonpolaris)

Alright - keeping an eye on the feed. Looks like we're continuing to advance in a sensible pace. To be the messenger of hope is a privilege these times, not many carry good news.

1/14/2022 11:02 PM

Lars F. Bjoerlo (horizonpolaris)

(many nice details here, but I can't comment on all I see all the time. I appreciate everything, most of all your high spirit. thx - K:K ;)

1/14/2022 11:13 PM

Lars F. Bjoerlo (horizonpolaris)

(the transmitter stream has gone uninterrupted for over 480 hours. That's like three weeks. No rebooting the system)

1/14/2022 11:14 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah, becoming ever so slightly obsessed about this me too...

1/14/2022 11:19 PM

Lars F. Bjoerlo (horizonpolaris)

...carefully opening the valves to my ego in order to get a taste..

1/14/2022 11:24 PM

Lars F. Bjoerlo (horizonpolaris)

Am I happy with what this means to me personally? The answer is that I feel satisfied with our current progress and that I am more than just interested in my own affairs. Fairly little about everything has anything to do with me, so I can't mix these worlds. But when I get the headspace and opportunity, I try to get a glimpse of all the personal implications.

1/14/2022 11:30 PM

Lars F. Bjoerlo (horizonpolaris)

One of the things difficult to miss is the fact that I'm making a lot of serious new friends.

1/14/2022 11:32 PM

Lars F. Bjoerlo (horizonpolaris)

And how the need for words just ceases to exist in certain moments when we're together.

1/14/2022 11:33 PM

Lars F. Bjoerlo (horizonpolaris)

Definitely helps to tune each other in properly before engaging in demanding material and issues.

1/14/2022 11:38 PM

Lars F. Bjoerlo (horizonpolaris)

Yes - at some point we gotta have some sort of final strategy on the world wide drug addiction epidemic. I have a feeling it's gonna partially fix itself if given a little time, while the rest will hopefully be addressed by responsible parties.

1/14/2022 11:43 PM

Lars F. Bjoerlo (horizonpolaris)

Loneliness is like poverty to society, and is by all means another kind of poverty. We shouldn't have any of them, really...

1/14/2022 11:46 PM

Lars F. Bjoerlo (horizonpolaris)

The plans we originally made regarding drugs are somewhat outdated. They were meant for an atmosphere much more chaotic and violent than this is for the time being...

1/14/2022 11:49 PM

Lars F. Bjoerlo (horizonpolaris)

..but we have a few "local" recommendations to the federal government/FDA/DEA on measures that could be taken to combat the crippling effects on the American society..

1/14/2022 11:51 PM

Lars F. Bjoerlo (horizonpolaris)

Make no mistake - there is a link here between our solitude and our drug consumption.

1/14/2022 11:53 PM

Lars F. Bjoerlo (horizonpolaris)

I'm being advised to follow up on this later by Coach. And I'm sure we will.

1/14/2022 11:54 PM

Lars F. Bjoerlo (horizonpolaris)

The magnitude makes it impossible to get around, that's for sure.

1/15/2022 12:27 AM

Lars F. Bjoerlo (horizonpolaris)

Yeeees - as to start effectively on bridging your great national divide, I am very optimistic. I have yet to be accused of being anti-republican, which is a healthy sign. Looking forward to this part.

1/15/2022 12:29 AM

Lars F. Bjoerlo (horizonpolaris)

Glad to learn that other people are experiencing breakthroughs in their line of profession too because of this project launching.

1/15/2022 1:05 AM

Lars F. Bjoerlo (horizonpolaris)

If you feel inspired and want to start a political think-tank or workshop, this would be the ideal moment to start.

1/15/2022 1:18 AM

Lars F. Bjoerlo (horizonpolaris)

20/20

1/15/2022 2:03 AM

Lars F. Bjoerlo (horizonpolaris)

No, it can't get too much on this end because I decide how many streams to watch or if I am to watch any at all. Right now I'm considering a time-out in favor of some typical mindless Hollywood production... Bottom line: nobody's holding a gun to my head. :)

1/15/2022 2:08 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah the matter that requires no words. Let's give'm some resistance and gradually turn up the heat. Let them owe us some answers. I have my approach and I'm sticking with it. Questioning the perpetual victim narrative.

1/15/2022 2:13 AM

Lars F. Bjoerlo (horizonpolaris)

I don't think the CDC should be the first to bring gasoline to the fire. That piece will have to yield a little longer, I'm afraid.

1/15/2022 2:18 AM

Lars F. Bjoerlo (horizonpolaris)

And I'm serious about passing the "Voodoo Act".

1/15/2022 2:21 AM

Lars F. Bjoerlo (horizonpolaris)

That will describe exemptions from the constitutional right to worship. But it's designed to root out the grim ones - like the pornography censorship.

1/15/2022 2:34 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah it's a mess and I'm thinking developing strategies that won't require hands on, but rather utilize natures way of untangling complex chaotic systems when you just change a parameter or two and let it work for a while.

1/15/2022 2:36 AM

Lars F. Bjoerlo (horizonpolaris)

We gotta work with the forces of human nature here. Going upstream is not an option.

1/15/2022 2:44 AM

Lars F. Bjoerlo (horizonpolaris)

I can back van Dorn's observation. Something essential is missing inside.

1/15/2022 2:47 AM

Lars F. Bjoerlo (horizonpolaris)

To the extent one sees ordinary scruples, it's no more than adapting socially to understand what's expected of you to think and feel. What I'm saying is that we're looking at a conscious con-scheme of vast proportions.

1/15/2022 2:51 AM

Lars F. Bjoerlo (horizonpolaris)

What I wanna know is whether it's organized enough to have a collective intelligence apparatus working.

1/15/2022 3:00 AM

Lars F. Bjoerlo (horizonpolaris)

I'm all Hoover about it inside, but I control my impulses normally. We're taking the long way home because we have established a safe route.

1/15/2022 3:01 AM

Lars F. Bjoerlo (horizonpolaris)

1/15/2022 3:17 AM

Lars F. Bjoerlo (horizonpolaris)

The pit is without bottom. True. Seen it too.

1/15/2022 3:38 AM

Lars F. Bjoerlo (horizonpolaris)

In light of this realization I also grasped for the first time the American harsh skepticism towards what you call "socialism". Yeah it's a sure way to disaster with citizens like that. Let's just say we're back in school guys. We'd better pay attention to what we have learned and are currently learning.

1/15/2022 3:45 AM

Lars F. Bjoerlo (horizonpolaris)

I'm just so awed by everything ticking in from every corner of the world. Hang in there people. Tomorrow never dies.

1/15/2022 3:58 AM

Lars F. Bjoerlo (horizonpolaris)

Ha ha. You guys are both phunny and weird at the same time. I love it. <3

1/15/2022 6:39 AM

Lars F. Bjoerlo (horizonpolaris)

Now I GOT TO GIVE IT A BREAK, he he

1/15/2022 4:39 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. Hey babe. Saturday. Not sure what to do just yet. Watching my stream half capacity and TV.

1/15/2022 5:34 PM

Lars F. Bjoerlo (horizonpolaris)

Wow. That is a wonderful idea Nix :)

1/15/2022 6:00 PM

Lars F. Bjoerlo (horizonpolaris)

Naranja. I like it. :) Late breakfast like that every day in heaven, I'm sure :)

1/15/2022 6:14 PM

Lars F. Bjoerlo (horizonpolaris)

Bonjour Palermo. Did that make any sense? :)

1/15/2022 6:17 PM

Lars F. Bjoerlo (horizonpolaris)

Ah we're in the same time zone. Bon soir, it is then...

1/15/2022 6:29 PM

Lars F. Bjoerlo (horizonpolaris)

Tehran.. :)

1/15/2022 6:32 PM

Lars F. Bjoerlo (horizonpolaris)

I'm glad you and your family feel this way, Nix. Means a lot.

1/15/2022 8:00 PM

Lars F. Bjoerlo (horizonpolaris)

Yes my dear friends, everything is well here on this end. I'm calming down after a few hectic nights in a row. Just zapping randomly between a handful tv channels. Thinking I should probably make some food or something. Hope you guys are enjoying your Saturday.

1/15/2022 8:01 PM

Lars F. Bjoerlo (horizonpolaris)

I have an urge to bake something too...

1/15/2022 8:08 PM

Lars F. Bjoerlo (horizonpolaris)

Well I'm honored and delighted to be able to bring solutions. I think finally we can show each other our true selves. No need for masks anymore. Right? We've all been scared and lonely. It's ok to acknowledge this trauma and to combine our strength to overcome it.

1/15/2022 8:52 PM

Lars F. Bjoerlo (horizonpolaris)

...and whether people are part of a democracy or not, I think we share the same inner feeling: we don't wanna see all the efforts go lost. We wanna bring it into a new age and hand over to our children something we are proud of having built together.

1/15/2022 8:54 PM

Lars F. Bjoerlo (horizonpolaris)

Built, maintained and refurbished.

1/15/2022 9:16 PM

Lars F. Bjoerlo (horizonpolaris)

Yes, I can feel the general helplessness on my body. We're all stuck in a gridlock from hell with no clue as to move in any direction. We'll be ready as soon as you are.

1/15/2022 9:17 PM

Lars F. Bjoerlo (horizonpolaris)

We're not going down in this disgraceful way. Not on my watch, anyway.

1/15/2022 9:43 PM

Lars F. Bjoerlo (horizonpolaris)

Zero is always a safe place to start. At least it will be as soon as we get that 0 defined.

1/15/2022 10:25 PM

Lars F. Bjoerlo (horizonpolaris)

No stimulants today. Getting dozy. The sleeping never sin, right? :)

1/16/2022 1:16 PM

Lars F. Bjoerlo (horizonpolaris)

Hello room. Good Sunday. I'll be here in relax mode. A little later I'll ride my bike to mum's for dinner. I watched you yesterday. I feel great joy with the message spreading. It is almost overwhelming, so turning the knob gradually is probably a good idea. Other than than? Welcome to the world of tomorrow. Take care of one another. Know that you are indeed loved. We are on our way. :)

1/16/2022 4:23 PM

Lars F. Bjoerlo (horizonpolaris)

I have a distinct feeling that the demand for more contact is increasing. I should probably get used to speaking on Sundays :)
I'm off to my mother's soon but I have an idea of a vision I had once in an altered state of mind that I could tell you about. I'm not gone for very long, bit feel free to remind me in case I forget. You know how it is by now with the drug use and not being able to keep a consistent level of output. Nevertheless, I'm here and there won't go a second by that I'm not thinking of you. <3 :)

1/16/2022 4:29 PM

Lars F. Bjoerlo (horizonpolaris)

I know all about the loneliness. Early on I started assuming that most people deep down felt the same way. "On thy self you should know others" is a good saying, really.

1/16/2022 4:30 PM

Lars F. Bjoerlo (horizonpolaris)

All the work in front of us will surely tie us together for better or worse once and for all.

1/16/2022 8:15 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Just reporting my presence. Been here for a while, but had an unintended visitor that just left. I'm fairly tired. In perfect mood to find some documentary to watch. What are you guys up to that I'm not aware of? :D

1/17/2022 4:47 PM

Lars F. Bjoerlo (horizonpolaris)

Hey hey. Another day taking it easy. Sound off, only one screen and doing other things. But my mind is on you. Are you having an ok day?

1/17/2022 4:59 PM

Lars F. Bjoerlo (horizonpolaris)

Every day I woke up in Rushinga, Zimbabwe, kids would gather outside my window to have a look at this weird white guy - probably the first one they've seen if not counting the local minister. And when I tried to light my pipe a little down the road in a discrete way, I would have a tail of singing and chanting kids attached to me. I had found a rock on which I was sitting. The kids started dancing around me and one asked. "Why are you sitting here all alone?" I replied: "well, where I am from, all you need to do in order to be alone is just step outside the door." "Why would you want to be alone", another kid asked. They didn't get that. "You're Sekuru!", said another kid. Then they all started chanting "Sekuru, sekuru, sekuru.." - with a clear reference to my pipe. Sekuru means granddad in Shona. The year was 1999 and i was, apparently, a 22 year old granny even back then :D

1/18/2022 6:08 PM

Lars F. Bjoerlo (horizonpolaris)

Hey darling. Been at dentist today too. Think I should be ready. Fixing everything I can is the way to go.

1/19/2022 4:35 PM

Lars F. Bjoerlo (horizonpolaris)

Serious withdrawal today. I don't have much to say. Just trying to think forward and stay positive. Hope you are considerably better than me.

1/20/2022 8:31 PM

Lars F. Bjoerlo (horizonpolaris)

Good evening room. Not spending so much time by the screen these days, but weekend is coming up. Do you have any news?

1/20/2022 8:34 PM

Lars F. Bjoerlo (horizonpolaris)

About the prestige; any competition? I thought so..

1/20/2022 8:39 PM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking that we're sort of done with the presentation. Anyone up for a chat?

1/20/2022 8:41 PM

Lars F. Bjoerlo (horizonpolaris)

My activity level here will vary, but I'm here getting ready for rendezvous..

1/20/2022 8:54 PM

Imagine being there. For real. At one point there will only be the two of us.

1/20/2022 9:24 PM

Lars F. Bjoerlo (horizonpolaris)

I really wanna know how far you guys have come on your own. And what you feel needs plenty more work soon.

1/20/2022 9:30 PM

Lars F. Bjoerlo (horizonpolaris)

..and to be with Coach, of course. Not my intention to ruin the mindset. I'm trying to imagine that moment and I think it's gonna be just fine. I hope you don't go easily tired of talking and I also hope you enjoy silence. Just appreciating each other's presence.

1/20/2022 9:38 PM

Lars F. Bjoerlo (horizonpolaris)

What I'm not saying? I think she's in a rush. I can live with that. :)

1/20/2022 9:40 PM

Lars F. Bjoerlo (horizonpolaris)

I however, see a slightly longer route, but am ready to adapt. :)

1/20/2022 9:42 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. Coach confirming, he he. Alright, now I know what I'm up against :D

1/20/2022 9:58 PM

Lars F. Bjoerlo (horizonpolaris)

"Are you right?"
I'm not sure I understand you correctly, but I am right in the sense that I can unite people from different worlds because I have some legitimacy. And I am right in being the only option to otherwise swift extinction. All the variables unknown at this stage can largely be written as we go along. A liquid plan is the only way to enter a future of uncertainties. Other than that I trust people to speak their minds. Let's say you spot a flaw somewhere. I'd like to know. You could even be the hero of the day that discovered some bug. We're all participating in creating tomorrow. This ain't no one man show, basically.

1/20/2022 10:06 PM

Lars F. Bjoerlo (horizonpolaris)

Regardless of topic, anyone of you out there could be an authority on any subject. My project is just gathering as much relevant data as possible on everything and keep a fairly dignified scientific approach while presenting it to you. Keep in mind this is really not my native language either. I'm expecting lots of dictionary lookups and "please explain" on my part.

1/20/2022 10:08 PM

Lars F. Bjoerlo (horizonpolaris)

I'm pretty basic, just covering a lot of ground. For you out there holding some degree - let me know if you get more ideas.

1/20/2022 10:22 PM

Lars F. Bjoerlo (horizonpolaris)

I'll be honored to show you around this lost reality. Which is why I feel ready to structure this into a program. This is where Coach could be useful. I bet she has some sort of plan for this "product" of ours. Looking forward to being able to discuss these things in the same room.

1/20/2022 10:24 PM

Lars F. Bjoerlo (horizonpolaris)

The important thing to catch on to is the allover strategy of playing it smart. Element of surprise is obvious, but this time we are also intended to hold higher ground. Exciting. Let's make the best of it, right?

1/21/2022 12:17 AM

Lars F. Bjoerlo (horizonpolaris)

What dilemma? That we caused the original fall? Do you really think just staying there in Eden was Gods plan, or do you think he could trust his own creations to disobey? After all, He would be the one to know. And it did eventually lead here. An impossibility.

1/21/2022 12:19 AM

Lars F. Bjoerlo (horizonpolaris)

I've never been married, but still have a child. We're products of modern times.

Hello room. What's on your minds this evening?

1/22/2022 1:31 PM

Lars F. Bjoerlo (horizonpolaris)

Nothing yesterday, huh? I'm here babysitting a cute dog for my neighbor.. So - how are things? I wonder what the day we crash with Trump will look like. We need him out of the political arena.

1/22/2022 8:03 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys, yes I'm fine. U up to?

1/23/2022 9:06 PM

Lars F. Bjoerlo (horizonpolaris)

Hepp hepp. I have been tending to my vast archives of data. I want to set up my entire home network from scratch. On the other hand, "if it ain't broke". Either way I benefit from making some preparatSions, because I move huge amounts of data, and hopefully at the end of this exercise manage To free up several 1TB disks, among them even an ssd drive. I also have two disks here a 750 GB. At the end of the day I find myself in possession of no less than seven computers, lots of different parts, in particular extra hard drives. I think totally I might have some 30 harddrives offline in a box in my bedroom drawer. I'm very passionate about my technology. If you find seven computers offensive somehow, keep in mind that right now as we speak and as always in my living room, there are four active screens on three different machines all in use simultaneously. I really get some pleasure from the fact that I have laptops as old as my daughter that still work like a charm. The latest bonus here is that I bought myself a new phone. I hate smart phones, but you can't be without in todays society. There's one thing cool about it; it can serve as the ultimate remote control to all the machines and gadgets I have running with lots of media. I can effectively play contents from any device on my network on my big screen with my phone without having any of the files I play on the actual device. I can even choose whether to isolate the soundstream and let the phone get the proper codec for rendering any given videofile. It could pay off to let the phone help displaying UHD on a 50 inch or greater screen, or you just route the stream via the phone without doing anything to it, because it provides the superior sound. There's a ridiculous amount of apps out here that can help you achieve or obtain practically anything. And the best part is that everything is available for free, in principle. Data could be seen as wealth. I have so much in my collection because I'm curious as a general consumer to learn what tool to launch for a specific task . I have an all over decent view from where I stand, but I'm more than any time before left with the feeling that I'm only scratching the surface.

1/24/2022 2:28 AM

Lars F. Bjoerlo (horizonpolaris)

BTW - I just managed to extract the pure text from the pdf I made the other day. I wanted to count the words in order to compare with my Norwegian book project. What happened here between us since September is twice as many words as I've written in 2,5 years. 35,000 norwegian words should be about half way through the story I'm trying to get off my chest. As for our independent 2021 narrative in American English, guess what? This text between us is almost twice as extensive, with a whopping 68,000 words and still going at it...

1/24/2022 2:33 AM

Lars F. Bjoerlo (horizonpolaris)

The pdf was 439 pages to my great surprise. After extracting the text and copying it into a word document it's like 645 pages. We have enough here to publish a significant piece of work as it is.

1/24/2022 12:42 PM

Lars F. Bjoerlo (horizonpolaris)

Hello room. I fell asleep here on the couch yesterday. I love the feeling of waking up on the couch just to go to bed and sleep some more.

1/24/2022 12:43 PM

Lars F. Bjoerlo (horizonpolaris)

But by all means, there is such a thing as too much sleep.

1/24/2022 12:45 PM

Lars F. Bjoerlo (horizonpolaris)

I was genuinely surprised by the sheer amount of text I've been producing. 70,000 words, man. If I only could get some structure and discipline...

1/24/2022 5:49 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Been a little busy and still am (having guests). I just wanted to say I'll check in on you later. I can see many of you feel down and wonder whether they'll ever see the light of day.. I say to you: you're the one bringing the light. It's a decision that has to be taken consciously by every individual. You're the boss - you set the stage and decide what the rest of you being here will make out of the cards you've been dealt.

1/24/2022 6:18 PM

Lars F. Bjoerlo (horizonpolaris)

I can't immediately find any good reason why we're waiting, but I mean, I have no intel to assess the allover timing of events. But if you can't contain it, I wouldn't mind the snowballing. Nevertheless - the day both Coach and intelligence give the green light is what we're waiting for, but I don't have a clue what page they are on.

1/24/2022 8:49 PM

Lars F. Bjoerlo (horizonpolaris)

Quick question: have anyone from the media seen the 439 pages I posted @nybaktmamma?

1/24/2022 9:48 PM

Lars F. Bjoerlo (horizonpolaris)

My guest won't leave... I had to take this one because of a situation that arose yesterday. My old supplier was here and dropped off a helluva lot more than for my personal use. This is stressing in addition to costly. Fortunately today's guest took almost half. Hopefully I'll be empty again sometime next week. Yeah, I could have said no, but felt a little obliged to be happy he came around at all. Anyway, the faster I get rid of it, the better.

1/24/2022 9:51 PM

Lars F. Bjoerlo (horizonpolaris)

My average before stopping the business was a turnover in the neighborhood of an ounce a week - half of it for personal use. That's a ridiculous amount. No point in living it that way unless you wanna be gone soon.

1/25/2022 2:48 AM

Lars F. Bjoerlo (horizonpolaris)

I'm under the impression that we will wait for the snowballing to get such momentum that it basically forces changes upon the legislators. Passive pressure. I'm ok with that, but there'

1/25/2022 2:48 AM

Lars F. Bjoerlo (horizonpolaris)

there's still many things coming my way that only the team on ground can say something about.

1/25/2022 2:49 AM

Lars F. Bjoerlo (horizonpolaris)

Meaning, I am excited because I really believe it can be done.

1/25/2022 3:39 AM

Lars F. Bjoerlo (horizonpolaris)

I'm not saying I'm perfect or anything, but my sexuality, like my ego, is riding in the backseat. I've been single since 2009 and I do have occasional urges when wired on stimulants, but I don't need sex to feel well. And besides, I'm on meds that sorta makes me somewhat asexual. I mean, I can perform if prompted, but I haven't myself active fantasies going on in my mind. It's not impossible to make mistakes, but very unlikely.

1/25/2022 3:52 AM

Lars F. Bjoerlo (horizonpolaris)

I'm not a one-night stand kinda guy. If I was, I would probably be buying sex as I hold no moral reservations against that. Even so, I am allowed to act out a higher moral than I actually have if it serves a purpose. I think the only purpose would be not to be associated with hookers and porn stars. Ok, I'm that vain. You got me. :)

1/25/2022 4:21 AM

Lars F. Bjoerlo (horizonpolaris)

I count on you watching me. It can't possibly be any tighter than our Master's regime for my psyche. He never lets anything pass. He criticizes everything, I mean literally everything, such as not washing hands after taking a leak. There's no margins here for errors of this kind. And I can say this much: I would never go behind her back. If it should happen at any time, know this: a) she's in on it
b) none of your business.
I don't have to be psychic to realize that men of power have great sex appeal, and that they are targeted by women for almost everything they do. Furthermore I'll have to expect a

demand for donated sperm. I'm pretty sure Coach has figured out how to address this. Like I said: She's all I need. Seriously.

1/25/2022 4:52 AM

Lars F. Bjoerlo (horizonpolaris)

For the record: I was never really into Freud. Psychotherapy and the method of free association are wonderful contributions, but personally I would have killed myself if everything I did had some sexual aspect to it sub- or otherwise consciously.

1/25/2022 5:37 AM

Lars F. Bjoerlo (horizonpolaris)

As to which page; not giving up on you, but I think I speak for us both when saying I expect things to turn dramatically within the 24th of July. Everything depends on this union. No matter from what angle of perspective this seems to be a logic place to start. I could go for a while incognito until people starts figuring out that I'm more than just J-Lo's latest acquisition. However, in my mind these happenings come relatively rapid. The only rational approach must be to assume the enemy has no allover sight, or a centralized intelligence agency. This is the weakness of tagging along for a freeloading voodoo ride.

1/25/2022 5:52 AM

Lars F. Bjoerlo (horizonpolaris)

Excellent observation! Yes I have effectively inversed myself from the very infamous square one, our current status quo. And as many of you have already sensed; it's like I'm from a possible future coming here to make sure this transition goes according to plan. And why not see it like that? There is a lot of truth in it, I'm just not great at explaining where my soul went when it was gone. Bottom line is that I found the way and we're in this together now. Either way it's flat out a miracle. We're not in the habit of wasting miracles, are we? All you need to know is that I was conceived by normal parents in Oslo 76. Nobody tampered with the story of me being here, except for the things I make up. Sure, I'm a time-traveler now, right?

1/25/2022 5:57 AM

Lars F. Bjoerlo (horizonpolaris)

I'm way past the "look what I just did"-phase and also the following next phase: "what else can I do?"

1/25/2022 5:57 AM

Lars F. Bjoerlo (horizonpolaris)

I've got it figured out. It's all in my head and ready to be extracted.

1/25/2022 6:07 AM

Lars F. Bjoerlo (horizonpolaris)

I must say, Americans are in particular obsessed with each other's past. Like Bruce Springsteen sings in "Born in the USA" -"you spend half your life just to cover it up". I'm not really concerned about my past. I can still look everyone I met in the eyes.

1/25/2022 6:10 AM

Lars F. Bjoerlo (horizonpolaris)

In fact I can count on one hand the tweets I have deleted for exactly that reason; for the posterity to be able to track my state of mind from 2009 when I signed up for an account. Same goes for facebook. Lots of crazy stuff, but I'm clearly in a developing setting here.

1/25/2022 7:00 AM

Lars F. Bjoerlo (horizonpolaris)

Hello there Nix. Nice to see you again. I wanna ask our mutual friend of a favor. I suspect she can get me in there. (Relax - I'm thinking of a concert with a certain artist) Perhaps she's the perfect icebreaker :)..?

1/25/2022 7:15 AM

Lars F. Bjoerlo (horizonpolaris)

Yes I have a valid passport. I don't need anyone's blessing to leave when time arrives at my doorstep.

1/25/2022 5:18 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Been to work and when I got home I had to clean the place, in particular where my guest sat all night fumbling with an ounce of powder all over the place. He spilled so much on the table that I had to scrape my table w the scrape for my stove. You're not gonna believe it - give me a sec to weigh his spoils.....

1/25/2022 5:24 PM

Lars F. Bjoerlo (horizonpolaris)

Well, I have roughly 1g here scraped off the table. That's 5% of the total and amounts to at least 25€. It could perhaps be compared to spraying 10,000\$ worth of champagne all over, but that's still intentional. This mess wasn't. Having to pick up syringes and needlecaps allover - Jesus, I think I am a mess...

1/25/2022 5:26 PM

Lars F. Bjoerlo (horizonpolaris)

I think in all these years I misplaced a needle by accident once, and it was securely capped. Still - no excuse.

1/25/2022 5:30 PM

Lars F. Bjoerlo (horizonpolaris)

Things like this is good for me. It makes me focus even harder and forget about my current addiction-challenges. Judging by how it went before I got this batch, I am onto the right solution for me.

1/25/2022 5:38 PM

Lars F. Bjoerlo (horizonpolaris)

Come to think of it he borrowed one of my laptops all night. I have safe reason to believe he left it in a mess, ha ha :D

1/25/2022 5:43 PM

Lars F. Bjoerlo (horizonpolaris)

Doesn't matter really. No matter what you do with your computer it takes some skill to damage a pc beyond repair, he he. I've screwed up a fair share of machines, but when you always have 1,2 or 3 additional laptops, you just change to one of those and somewhere along the way you come up with a fix for the pc that refuses to boot or whatever.

1/25/2022 5:59 PM

Lars F. Bjoerlo (horizonpolaris)

Speaking of mental state, a word that repeats itself like madness, lunacy etc is delirium, which is pretty much the worst kind of hysterical mental agony you can experience in a human body. But there is an even worse state. It is supposed to be far beyond anyone's capability to produce utter madness: "Pandorum". Pretty heavy stuff. I think such a state is more theorized than actual. Maybe I have something unimaginably crazy like that, but with a positive before the parenthesis'. And getting stuck shuffling factors in order to see various results is meaningless. The order of it is indifferent. It's gonna keep turning out the same solutions to whatever math expression one could make. I just am what I am. What more is there to say? Just trust me when I also say like you. It feels surreal.

1/25/2022 6:04 PM

Lars F. Bjoerlo (horizonpolaris)

But when you question your own sanity, it's a sign that you're not completely lost. It is a good thing. More people ought to do that exercise and more often.

1/25/2022 6:09 PM

Lars F. Bjoerlo (horizonpolaris)

You're entitled to have high hopes.

1/25/2022 6:11 PM

Lars F. Bjoerlo (horizonpolaris)

A product of God should by defenition be the fix needed, right? Well, it's not that simple. We still keep God out of this, because if we humans can't sustain our own survival. so be it. This is between us. Every adult person.

1/25/2022 6:19 PM

Lars F. Bjoerlo (horizonpolaris)

Trust me. You wouldn't wanna be around here in such demise.

Lars F. Bjoerlo (horizonpolaris)

Hey guys. I haven't said anything yet today because I have some big tasks here. Right now I've been working to investigate more about speech to text and in addition I have a network here that won't perform to its capabilities. Trying to locate bottlenecks in order to upgrade the hardware in question. First step was getting a Gigabit switch. I also need all crucial hard wiring to be of type CAT6. What's left then is the speed limits of my router and one repeater. I'm looking into the possibilities of creating an extra network for my neighbor, but I can't get enough bandwidth with the mesh-system I got from work. It could manage some 170Mbit/s at my desk in the shop. Long story shorter; the equipment won't perform more than 20Mbit/s the way I plan to connect it. I should be able to get like 300Mbit easily. I'm not on optical internet, but I have configured my own modem since I work for the ISP. Still - this result is miserable. I think the modem on coax is good for some 800Mbit. I want to reach at least 300Mbit regardless of which component in the network I'm testing.

When I get rich and famous I'm gonna hire a private tutor to teach me all about the computerskills I don't have as of today.

Sooo sick of large holes in my knowledge and not really motivated or patient enough to read. I have so much that ought to be picked up by now, which haven't. I find myself using lots of acronyms not having a clue what the letters stand for, I just know what it is from trial/error experience.

Heeelloooooo rrrrrrooom. Back home. My daughter amazes me. She's displaying sides to her personality that are beautiful rather than distressing. I've been constantly worried about some psychopathic behavior she started showing while she still was in foster-care. Seems like the danger is over for now, but I am expecting it to return in some other way anytime in the future. Because of this I'm trying my best to come in a position that would actually influence her.

1/26/2022 10:00 PM
Lars F. Bjoerlo (horizonpolaris)

I haven't dared to ask yet, but since we're talking about our kids and their behavior, how are Max and Emme doing these days? He was a mouth full last time we shared from our private spheres. I hope you don't mind me asking...

but I'm missing a tooth and the neighboring teeth are falling apart. It will become serious in terms of chewing on the right side.

Lars F. Bjoerlo (horizonpolaris)

I just want everyone asking themselves if I am "back" and concerned that this isn't real: If it wasn't real it would surely be the meanest hoax in history - besides, you can't fake something like this. The profilers/analysts also seem to have concluded that my psyche really is clean and therefore an ideal place to build a new reality. As for the term "back", we're really talking about Jesus. I will keep insisting that I am me regardless of some confusion about my identity while psychotic. But for those asking if I'm back, the simple and honest answer is "Yes". I'm not expecting anyone else to take charge here all of a sudden. There won't be more of me also claiming a special bond to the savior. But ultimately, what this really means will differ some from individual to individual because you're allowed to have your personal interpretation of the situation. But what's happening and being said here is definitely real. That you can take to the bank.

1/28/2022 3:41 PM

Lars F. Bjoerlo (horizonpolaris)

Yes Papa. We're eye to eye on this one. Me investigating this girl any further would have been inappropriate. Jenny and I discussed this back in the old days when young Casper was her "boyfriend". A good thumb rule is half your own age +7. If you're 16 the other part is 15, which makes sense. If you're 60 now we're talking 37. Young, but still fully adult.

1/28/2022 6:06 PM

Lars F. Bjoerlo (horizonpolaris)

Ha! There's my GROWLer. For those present with the mic - what happened here was a very real, but controlled outburst. I had to flatten that guy out right now. Now you you too know that I am perfectly able. Just prefer not to, you know.

1/28/2022 7:10 PM

Lars F. Bjoerlo (horizonpolaris)

Good evening. Been out for groceries. Bought dinners for more than a week. Other than that I'm babysitting my neighbor's dog again. :)

1/29/2022 12:19 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. I'm up and gotta walk the dog. My neighbor was supposed to go visit her son yesterday, but never got around to leave. She's still here now. I suspect she wants me to take over the dog. This is not the first chihuahua she's acquiring. Summer two years ago she had Rex. Now this is King. And they're both fine dogs. I felt like crap when the last dog was gone and I also really like this one. What I don't like is people who treat animals like possessions. If I take this dog, I'm gonna have to leave it this summer. I'm not doing this.

1/29/2022 8:48 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Not totally ok. My neighbor has granted a certain person access to her apartment. He's in there now and wants to speak with me. Not by cowardice, but by a qualified guess, I sense some kind of trouble. Whatever it is I'm sure that it has no relevance to me whatsoever.. She actually has a restraining order against the idiot. Can you believe this stupidity? Fuckin' clowns! (pardon my french - seriously agitated)

1/29/2022 9:03 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway - remember I bought a new phone some 2 weeks ago? I've downloaded hundreds of apps, some even ad-free paid for versions. I've installed a bunch and since I can't go out right now I'm here testing speech to text apps and text scanners, network, multimedia etc etc.

1/29/2022 9:09 PM

Lars F. Bjoerlo (horizonpolaris)

Tweet what exactly?

1/29/2022 10:00 PM

Lars F. Bjoerlo (horizonpolaris)

I have nothing to tweet right now in public. Maybe one of you has...?

1/29/2022 10:13 PM

Lars F. Bjoerlo (horizonpolaris)

When the day of disclosure is upon us, I will not be the one to disclose. I'm thinking that the Pope should feel he has something on his heart to share with his followers. Then there's Coach of course. I have a feeling she has some plan for valentines day and this new movie of hers.....

Don't worry. I'm neither changing nor going anywhere. You know exactly where to find me...

1/29/2022 10:46 PM

Lars F. Bjoerlo (horizonpolaris)

Heh! Browsing Netflix for contents. Thew Dutch series "undercover" is out 3rd season now. But then I found a movie under "added lately" and waddaya know...? It's from 2018, "Second Act" w no other than a certain Jennifer Lopez (sounds vaguely familiar)

1/30/2022 4:29 AM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. I saw you earlier. I always think it's weird to watch. But really looking forward to us, you know..

1/30/2022 4:30 AM

Lars F. Bjoerlo (horizonpolaris)

I just can't wait til we're up and running with our program for recovery and development.

1/30/2022 1:51 PM

Lars F. Bjoerlo (horizonpolaris)

Morning friends. It's very interesting to see all the different key words you choose to describe this experience.

1/30/2022 2:09 PM

Lars F. Bjoerlo (horizonpolaris)

What everybody has in common when going through this are the rapid shifts in mood, you cry and laugh on and off for some time before one can notice permanent changes for the better. This process is healing.

1/30/2022 2:10 PM

Lars F. Bjoerlo (horizonpolaris)

I'm just ecstatic that everything is going smooth and that everybody sees the same as I do.

1/30/2022 2:44 PM

Lars F. Bjoerlo (horizonpolaris)

I used to compare it to a virus. A mental virus, which if designed properly can heal any mental condition/handicap.

1/30/2022 3:25 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway, riding this emotional rollercoaster is a perfectly normal reaction to meeting up with one self like that. Hang in there, because there is beauty and also simplicity to your role as a world citizen in the time to come.

1/31/2022 3:18 PM

Lars F. Bjoerlo (horizonpolaris)

Hello room on a Monday and the last day of January. It really warms my heart to learn that you are experiencing changes since we first started out these remote therapy sessions, or whatever I should call it 😊

1/31/2022 3:23 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not going anywhere. I'll see this through whatever it takes. (Just not present every single day, but most of the time)

1/31/2022 3:45 PM

Lars F. Bjoerlo (horizonpolaris)

Deserve? Well, in modern society we usually acquit people who can't see straight. I was angry as hell at you once. But by the time Bush Jr was gone I embarked on a journey of forgiveness. Fortunately it helped me being able to love the total of it all, including the faults and flaws. To me that represents a clear Christian approach.

1/31/2022 3:50 PM

Lars F. Bjoerlo (horizonpolaris)

So then - apology accepted #

1/31/2022 3:51 PM

Lars F. Bjoerlo (horizonpolaris)

Try not to think of it too much. Try to appreciate what you have learned lately that will get you back on your feet. ❤️

1/31/2022 4:23 PM

Lars F. Bjoerlo (horizonpolaris)

It's evident that you've been starved of compassion and empathy. It must be why it "clicked" right away - the time was beyond matured. Judging from what you are thinking and expressing, we are already on our way. We are gonna be busy from here on.

1/31/2022 4:25 PM

Lars F. Bjoerlo (horizonpolaris)

Ooh yes, I kinda forgot, this is highly addictive. 🤖

1/31/2022 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

For scholars (read: priesthood) I understand you might feel like jesters some of you. Know that your sacrifices have not been in vain and I will continue to support your profession and traditional preaching. It sort of belongs in the bigger picture, and it made sure that I from 1977 years later could learn about His life because a billion people still talk about Him every day. But for Catholics: would you possibly sometime change position on married priests or female priests?

1/31/2022 8:01 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Had dinner and went to by some milk for tomorrows breakfast. A visual session is mentioned in the feed. I think I would like to do one, but it requires at least one person actually interacting and cowriting the session.

1/31/2022 8:26 PM

Lars F. Bjoerlo (horizonpolaris)

He he. I'm not the one waiting or to answer your question, but clearly we are indeed waiting for something. I take it your exclamation gets noted.. :)

1/31/2022 9:17 PM

Lars F. Bjoerlo (horizonpolaris)

Alright alright don't spoil the surprise now, you hear? These months have done me well troo. I figure it's not possible to get too good and I have my share of issues here still. The important thing is that we have the same intention. Getting there.

Hello Coach. A little tired, but feel good. I love you. Kiss.

1/31/2022 10:43 PM

Lars F. Bjoerlo (horizonpolaris)

Coach got the "fashion police"-tag while discussing the different Churches. As to which would I choose if I wanted to belong in one? I said that for me this is a question of aesthetics and that I wasn't here to discuss fashion. He he reminds me I have some pictures from fashion week berlin 2013...

2/1/2022 12:15 AM

Lars F. Bjoerlo (horizonpolaris)

I'm inspired, but I gotta sleep. Work tomorrow- I plan to actually go.

Nite

2/1/2022 1:11 PM

Lars F. Bjoerlo (horizonpolaris)

Hello room. At work. Nothing in particular to do. It's snowing and I'm bicycling today. Think I'll go home before it gets too bad.

2/1/2022 1:14 PM

Lars F. Bjoerlo (horizonpolaris)

What Coach is up to? I have no idea. How she plans and all the assessments that belong here under are not my concern. Gotta admit, it's powerful stuff, though...

2/1/2022 1:32 PM

Lars F. Bjoerlo (horizonpolaris)

Truth be told I can not read anyone's mind. I don't know the necessity of these actions. And since I'm clueless I don't wanna speculate, because I won't know any more from that. I am quite good in speculating, but I need something to go from. All I can say is that trust she knows what she's doing. Anything else would surprise, not only me....

2/1/2022 3:52 PM

Lars F. Bjoerlo (horizonpolaris)

Ok I think I know a little more about what's to come or what has to be done before I enter the stage. I still have no clue how Ben fits into all of this, but it really doesn't matter.

2/2/2022 4:44 PM

Lars F. Bjoerlo (horizonpolaris)

Hello. A new day. I've been here for a while. I'm trying to evaluate myself by learning about all the things you express in this respect. Having the strength to make you feel firmly held has never been an issue. The psyche copes easily, so that I can keep my mind on other things than just holding it together. I'm learning a lot from the feed. I'm used to spend a lot of time just thinking. How to make this work in a relationship can be interesting, he he.

2/2/2022 4:46 PM

Lars F. Bjoerlo (horizonpolaris)

Furthermore I'm working in slo-mo with the *pdf to determine the best text extraction method.

2/2/2022 6:14 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah me too. Face to face is much better. I have my mind on the concept visual sessions.

2/2/2022 8:12 PM

Lars F. Bjoerlo (horizonpolaris)

Yes. Classified material. I understand. As you've seen, I'm not in a rush personally to get attention. I used to say back in the days and say again now that someone else than me will determine the right time.

2/2/2022 8:23 PM

Lars F. Bjoerlo (horizonpolaris)

He he. Coach is enjoying being invincible for the time being. Thanks to your own efforts, hon. What I did was just a small percentage in terms of hours spent preparing.

2/2/2022 9:36 PM

Lars F. Bjoerlo (horizonpolaris)

You're not thinking of extracting me, are you?

2/2/2022 10:05 PM

Lars F. Bjoerlo (horizonpolaris)

I don't know what to make of this, but I am now as in september mentally up for it. Still this addiction thing to struggle with here. Having difficulties breaking the pattern in these surroundings. You know all of this. Bottom line: ready, will spend a couple of weeks recovering.

2/2/2022 10:12 PM

Lars F. Bjoerlo (horizonpolaris)

Yes clearly dangerous, but as you say, at this point what we do is classified. Nobody knows what I am working on until we decide to disclose what we know.

2/2/2022 10:15 PM

Lars F. Bjoerlo (horizonpolaris)

Under circumstances like this we're obliged to be paranoid, otherwise we wouldn't be doing this properly.

2/2/2022 10:22 PM

Lars F. Bjoerlo (horizonpolaris)

I know the fear. However, we can also be rational about it. I have no problem accepting "not safe" if that's your educated assessment. If it turns out we can - I'm up for it.

2/2/2022 10:51 PM

Lars F. Bjoerlo (horizonpolaris)

Sure. Take your time. No sweat.

2/2/2022 11:08 PM

Lars F. Bjoerlo (horizonpolaris)

Let the suggestion mature while you sleep on it a day or two. How to maintain a similar mechanical advantage + other strategic possibilities. Some hick-ville upstate Washington, whatever...

2/2/2022 11:14 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah yeah great point. Not gonna nag or anything :)

2/3/2022 4:28 AM

Lars F. Bjoerlo (horizonpolaris)

Yes questions need to be asked. Like you said earlier this part is a raw deal.

2/3/2022 4:33 AM

Lars F. Bjoerlo (horizonpolaris)

Guys. Thank you for the confidence you have in my work and my person. It's not a given thing. I like being taken for "normal", but the only ones who do that are my family and the guys at work. But nobody knows I'm really Batman home in my cave, he he :D

2/3/2022 4:37 AM

Lars F. Bjoerlo (horizonpolaris)

When people start presenting bullshit answers, you have a full 360 degree sphere of angles to attack from. Just grab the core of what's wrong and refuse to accept the answer.

2/3/2022 4:41 AM

Lars F. Bjoerlo (horizonpolaris)

This Batlife has just become soooo valuable to me. Again. It's impossible to not want in on this.

2/3/2022 4:44 AM

Lars F. Bjoerlo (horizonpolaris)

It really is addictive both ways. BTW I'm officially empty again. If it so happens I manage to shake this issue off, I envision less screen time and more physical activity while I wait for summer. Should be possible to establish a routine when I have my purpose in life elsewhere.

2/3/2022 4:46 AM

Lars F. Bjoerlo (horizonpolaris)

But yes indeed inevitable that we all reach our destination relatively soon.

2/3/2022 4:55 AM

Lars F. Bjoerlo (horizonpolaris)

Yes. My biggest weakness is laziness. I'm not expecting that to fly when living with her, but lots of things will change to energize and motivate. When I'm off the speed there is no longer any reason to be medicated. I usually describe my head on meds like driving a car with the handbrake on. It's exhausting and I'm fatigued all the time, hence the amphetamines. Then there's diet and exercise. Last, but not least, I will be rolling for real. That oughta straighten me up sufficiently. Can I just add one thing to my defense here? Even though I'm doing nothing, my mind is always busy analysing something. Just sayin'... :p

2/3/2022 5:11 AM

Lars F. Bjoerlo (horizonpolaris)

And I wanna say it's amazing how much more productive I can be when interacting.

2/3/2022 5:17 AM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking of how to utilize the things I do know to such an extent that it covers demand more or less totally - just from the top of my head. Little allergic to repetitive tasks, in particular say the same things over and over. I think I should avoid that. Chaos, on the other hand, is often preferable when choosing method of approach to a set of problems presented.

2/3/2022 5:21 AM

Lars F. Bjoerlo (horizonpolaris)

I am of course expecting a steep learning curve from the day I set my foot on American soil. Please give me the simplest explanations to start with :) Present it like you would to a child, basically.

2/3/2022 5:23 AM

Lars F. Bjoerlo (horizonpolaris)

Sex? What about sex?

2/3/2022 5:23 AM

Lars F. Bjoerlo (horizonpolaris)

I'm sure not having any, ha ha *lol*

2/3/2022 5:25 AM

Lars F. Bjoerlo (horizonpolaris)

That too is fairly inevitable. I just don't wanna go straight from the first handshake to bed. I mean, I could, but I have a slightly different idea.

2/3/2022 5:53 AM

Lars F. Bjoerlo (horizonpolaris)

(..am I off the hook for now?)

2/3/2022 5:53 AM

Lars F. Bjoerlo (horizonpolaris)

;)

2/3/2022 6:02 AM

Lars F. Bjoerlo (horizonpolaris)

Honestly I try not to think of it. Mostly because it's out of reach and therefore useless to pursue. Then there's the meds. I function, but I don't get that mental spark to set me off, if you know what I mean... Ex: All normal men wake up in the morning with an erection. I don't currently. Other than that I've been in worse shape, so not completely despairing about it.

2/3/2022 6:36 AM

Lars F. Bjoerlo (horizonpolaris)

Well, none of the parameters can be changed just like that. Obsessing about it has no use obviously. I think it's gonna work out and I'm willing to trust this enough to leave it as is. I'll be finding my way around. Been similar places, like most people ;)

2/3/2022 6:55 AM

Lars F. Bjoerlo (horizonpolaris)

Hon you're being explicit again ;) *kiss*

2/3/2022 5:38 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Slept a few hours. Thanks for the good vibes and thank you darling for the reminder. I really appreciate it. We'll see more of each other this evening, I'm sure. I have a few practical day to day things to do like groceries.

2/3/2022 8:37 PM

Lars F. Bjoerlo (horizonpolaris)

I'm here just watching. Hope you don't mind...

2/3/2022 11:04 PM

Lars F. Bjoerlo (horizonpolaris)

I had a meaningful day in silence. Just reflecting upon how the first days of the new world will be like.

2/4/2022 5:08 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Sitting here enjoying the concert. Emo day. Tryna focus on not getting any more poison into my system. And I enjoy being emo from time to time if not too often. It's gonna work out just fine. Watch... :)

2/5/2022 3:43 PM

Lars F. Bjoerlo (horizonpolaris)

Hello. Feeling not so good today. I'm not sure what to do. I'll be sitting right here most likely.. Are you guys ok?

2/5/2022 8:21 PM

Lars F. Bjoerlo (horizonpolaris)

I managed to cook myself a meal worthy of a king. Hopefully my organism will be thankful :)

2/5/2022 8:22 PM

Lars F. Bjoerlo (horizonpolaris)

I feel a little better.

2/5/2022 9:40 PM

Lars F. Bjoerlo (horizonpolaris)

Is there any drama yet? It was mentioned here earlier in capital letters....

2/6/2022 1:20 AM

Lars F. Bjoerlo (horizonpolaris)

I went to bed. No stream here. Not sleeping just yet...

2/6/2022 3:43 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. I'm restless and I miss my future wife. Watching a Frontline documentary on the great divide. I think I've seen it before. Wonder what he's going to say the day we can't be ignored by anyone. Is he gonna label us "false"? Or perhaps he simply wisely shuts his mouth - who knows? It would be cool to be the one getting his twitter account re-opened, he he.

2/6/2022 4:18 PM

Lars F. Bjoerlo (horizonpolaris)

Ah - so you liked that idea? Could create a fun, awkward situation.

2/6/2022 8:20 PM

Lars F. Bjoerlo (horizonpolaris)

BTW baby; I've appealed my case. What can I expect next round?

2/6/2022 9:49 PM

Lars F. Bjoerlo (horizonpolaris)

I think I wanna file criminal charges against the DA.

2/6/2022 10:20 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah some Angels in the choir would be appreciated. However, I've been stood up a bunch of times. Irrelevant now, but it sets my state of mind.

2/6/2022 10:48 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway - I wanna know who's behind all this special treatment I have gotten over more than a decade now.

2/7/2022 12:36 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. At hospital for my shot. It's difficult nowadays, but I have no reason whatsoever to complain. I am the only one who can make it better. It just seems impossible from where I stand right now. Nothing really is, though.

2/7/2022 12:43 PM

Lars F. Bjoerlo (horizonpolaris)

Wow baby. I have no way of knowing how one day in your shoes feels like...

2/7/2022 1:39 PM

Lars F. Bjoerlo (horizonpolaris)

Even if all these religious fanatics and fundamentalists scare the hell out of me, I know this is the base upon which we will rely. There are so many convictions about Jesus Christ. What baffles me is people's certainty of their own perception. Humility to this issue seems not present. This is just one out of many things to take into consideration before dropping the new invisible reality on the masses.

2/7/2022 1:42 PM

Lars F. Bjoerlo (horizonpolaris)

I wonder how many in that base will from paranoia say or do something regrettably. 🤔

2/7/2022 1:46 PM

Lars F. Bjoerlo (horizonpolaris)

We know that truth ultimately prevails, because we will see to truth itself. It leads inevitably to some conclusions which are predictable. What's not as predictable is getting there.

2/7/2022 1:49 PM

Lars F. Bjoerlo (horizonpolaris)

I have to expect some trouble along the way, but it's not given how groups of people will react to the biggest news of their lives.

2/9/2022 8:51 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. I'm here just watching you enjoying yourselves. I'm ok considering the circumstances. I'm gonna try a few things the coming days. I'll probably not be so active. But keep your spirit. It's good vibes.

2/10/2022 12:36 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. At work. Not much to do here today. I'm just waiting for any news about our project in the mainstream.

2/10/2022 12:49 PM

Lars F. Bjoerlo (horizonpolaris)

Miss you babe. No matter what I do, I'm a little out of touch. I think it's because this never became reality the last time we tried.

2/10/2022 1:00 PM

Lars F. Bjoerlo (horizonpolaris)

Wish I knew well what progress you have made and what ideas you have for a transition. Because we are determined to go all the way this time, right?

2/10/2022 1:08 PM

Lars F. Bjoerlo (horizonpolaris)

There is one thing good with not feeling too happy - at least it's not going to my head in any way. This would be the most solid part of me. I'm more concerned with the everyday life and how to be able to adapt to an environment involving many people, including the one I'm supposed to live with.

2/10/2022 2:18 PM

Lars F. Bjoerlo (horizonpolaris)

I don't know english words for the red days in the month of May, but this is it?

2/10/2022 2:19 PM

Lars F. Bjoerlo (horizonpolaris)

..meaning Rome will be the first to crack this open..?

2/10/2022 2:21 PM

Lars F. Bjoerlo (horizonpolaris)

I take it the first you'll state is my presence, but not the identity?

2/10/2022 7:37 PM

Lars F. Bjoerlo (horizonpolaris)

Finally back home. Been to dad's place for taco's. And tomorrow morning I have on my schedule. Try to sleep enough at least... How are you guys doing?

2/11/2022 5:32 AM

Lars F. Bjoerlo (horizonpolaris)

Hey and welcome to the new day in 30min Eastern coast time.

2/11/2022 5:37 AM

Lars F. Bjoerlo (horizonpolaris)

I'm a little confused as to what to try to engage in. We're talking about writing. We have already covered enough here to call it a thorough introduction. If I can only, at least partially, start talking to myself again just like the old times - then I could basically have kept feeding half a dozen places with fresh material continuously.

2/11/2022 6:02 AM

Lars F. Bjoerlo (horizonpolaris)

But I'm not stressing. Like I said, this don't give me good vibes only. We all remember the heartbreak. Speaking for myself I feel it too. That old dissappointment still serves as a background in this new setting. It's just that. But again - good thing I'm not totally caught up with the screen and my messianic alter ego, he he. Good in the sense that I'm perfectly flat. I feel more than anything - nothing. Could have been cool if I actually participated in the trip myself too this time. But instead I have a feeling this has been the plan from the Masters behalf. He has made sure that my front armor is impenetrable by any mood + or minus. And this is also the foundation which will be carrying the pressure of everybody's expectations and their need for me to be perfect. Anyway, I don't think so much of these things. So even if boring it's good to not having to struggle to keep it together. With all those different ideas of their personal Jesus Christ. Even if somebody think I'm weird or don't do things right, I shouldn't worry too much. People have ideals and sometimes you can't line up. Because youre a different person. All these practical and invisible boundaries that makes up a persona are individually unique - your own character with a distinct personality that's you, right. It's the same for me but I had to explore the issue. How much personality can I fit or allow into the character delivering God's message. Like humor, for example is very often inappropriate in a certain setting. Priests don't crack Jesus-jokes basically. Maybe they should. It is what it is

right now. I will of course not offend anyone on purpose, but regardless of smooth character people may still complain over something.

On the other hand - I've been expecting difficulties since the first day, but I really haven't encountered any of them. I can probably allow myself to think that it's gonna work as intended with the masses too. However, I always keep worst case scenario in mind and when it comes to my person I must be ready to take all kinds of criticism. But it's not gonna be like that. We're still on the same wavelength here and I'm sure it'll work just fine with the genpop as well.

Memo of 2022-02-11 at 15:40 how are you doing I've been awake all night as usual seems I have a little trouble with punctuation. what's the magic word . I got it . so what are you guys up to today ? I wish I could be there with you . I can imagine that there will be some people deeply concerned by our plans , however we don't have to care because there is no real competition . and with all that said I will be posting this message .

Memo of 2022-02-11 at 20:47 hello my friends . I'm still trying to figure out the best way to copy text from a PDF. and I did actually find a few ways but not necessarily as good as they should be . it has to work in Norwegian too. changing between the two languages should be smooth . however , there are many different apps out there I'm not all of them are good or useful at all. I have on this Android phone 3 engines for speech-to-text or vice a versa. Google has one, Microsoft has one of course . then there's another one which I didn't recognize and a few Alternatives online as well . the online speech recognition is supposed to be the best one because it's regularly updates in terms of pronunciation and stuff like that . this actually works pretty good . it's just a matter of getting used to it . honey by the way did I mention that I love you today ? 😊😊#💋💖

Alright what's going on baby? I think I found the best speech engine. But you know what? Today I've been listening to your old instructions. Our love could run the world. I guess your song proved true and I have no way of expressing how much this means to me. So I'm thinking that I should use the dictation app more because the future is television and the challenge is to be spontaneous. When you write you have unlimited amount of time to construct the sentence you are working on. So in order to keep my linguistic edge here I need some practice speaking and this tool is perfect. <https://t.co/5buBCehYWX>

Hey baby do you remember my friend, you know the one who always complains about something and yells at his guests? Well as it so happens this guy has some listen to me while I've been talking and he knows about this little sidekick of mine. Helping out the Americans. In comparison to other people I've talked to that is pretty strange because people have a tendency not to take me seriously, but you wanna know what the weirdest part is? It's the fact that somebody somewhere needs me. That's kind of difficult to wrap my head around, but I like it. Not because they are helpless but because I am actually able to help.

2/12/2022 5:20 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah I know that love is not enough. Sometimes I have the notion that we were left in a huge supermarket by our parents. A Supermarket the size of earth. It seems to work out as long as you have a little pocket change, however we soon find ourselves in a position where we have no clue as to which direction to go.

So far I have not gotten any sensible results out of this PDF scanning thing. It seems like I can scan one bubble at a time but as soon as I try to paste it into a Word document, I get problems regardless of how I choose to paste. I hope my geekiness is contagious because as of now I have nobody who shares my interests for computers. a laptop is just infinitely better than any handheld device. I still find myself relying more and more upon my handheld and I don't like it. I'm not using my phone unless I'm talking in it and I like to keep it that way.

Not long after you made the contact in September, I was asked what would I do if I had \$1,000,000? My reply to that was that well I'm fond of cars but I don't really need one. Then there's electronics of course. Coach and I discussed many years ago while I was in prison how I would like to build a room especially for entertainment. That could be costly but not in the range of a million. Then there's one more thing: I want to hire A tutor but in order to develop my self taught computer skills. I definitely have to learn more about regular tasks really. The things I usually take interest in are not what Most people do.

Hello. Back on the keyboard. You say everything changes and that you're experiencing a delightful drop of pressure. I was hoping for this. It means we understand each other perfectly. The trick now, which requires some collaberation, is to stand firm when at first

Frances makes a claim on behalf of us all. That's when the actual fun is supposed to begin. I love you guys. And for the first time ever it doesn't make me sorry. And honey: I needed (and still do) to be resqued now. Perfect timing. Now let's turn our attention towards other people we might be able to do something for.

Hello people. Hope you had a nice Sunday. "Embrace the fear". The fear you are still experiencing at some level is pure existential fear, but don't be fooled. The path we are currently on is also experimental in the sense that nobody has been here before. Once you consciously grasp my proposed alternative, you will acknowledge the fact that changing tactics is about time. With all that said DOUBT is an essential part of it all. I myself have been haunted by doubt the entire time. This round however, is different. No more paranoia, no psychosis - no more doubt left. It's probably gonna take some time, but you will eventually get there.

2/13/2022 8:07 PM

Lars F. Bjoerlo (horizonpolaris)

Oh yes, there are plenty of things (read: abuse and injustice) to be pi**** off about.. This is where I must stress the importance of forgiveness to make this work. We are not getting off ground with massive grudges that really have no ending.

2/13/2022 8:55 PM

Lars F. Bjoerlo (horizonpolaris)

I personally dare to put my trust in divine cosmic justice. God has two traits with the prefix "omni". Omnipotent and omnipresent. I told you earlier I've been exploring my own limits when stretching towards omnipresence. Like I said - you'd be surprised by how much you can relate to everywhere without moving an inch. But this term omnipotent is a little dangerous. Say you lost a child. Why couldn't God just intervene through some miracle/portal and save the kid from being killed? This has to be the main issue for many people when it comes to beliefs. Obviously there are limits to the "omni"-part as far as potency goes, or the ability to physically interact with this 3rd dimension. But when you take into account that our creator has known us for hundreds of thousands of years and the fact that there are many more dimensions we don't understand as of now. Over time with the rules that seem to apply to the cosmos, some sort of balance should be established. I'm positive that God's on top if this justice-issue most of us have on behalf of ourselves or loved ones.

2/13/2022 8:59 PM

Lars F. Bjoerlo (horizonpolaris)

*when you take into account etc... This omni-part might be real from where He stands.

What we all have to say when starting over is basically just this: No more evil! We're done and had our fair share. Amen.

2/13/2022 9:10 PM

Lars F. Bjoerlo (horizonpolaris)

I haven't personified Satan or Lucifer. I personally think there's a spiritual realm with huge currents of spirit running through the masses in waves. Some of these are irrational or outright evil. This thing called Satan is within us all and I believe it's there for a reason. Nevertheless, as a decent human being you should seek to learn this part of your own soul. Then improve from there.

2/13/2022 9:12 PM

Lars F. Bjoerlo (horizonpolaris)

...but by all means, it could very well be this "anti-god" or fallen Angel is represented here in one or many human beings. But if to speculate - I think not. I could be wrong, though...

Your God-given free will is the ultimate tool in any setting any era. That's also why we can keep Him out of the work we have ahead of us. We'll be just fine with some love, trust and confidence.

2/13/2022 9:57 PM

Lars F. Bjoerlo (horizonpolaris)

That is correct. I have devoted myself to this relation to God and the End of Days since I was old enough to understand who or what God is. And even before that I had visions of every human being being busy working on something way bigger than ourselves, thus truly making God omnipotent, also in our human standards. So yes I have a choice. I don't see myself explaining to God that I knew I could as the last person on Earth, but chose not to.

Well, if you were to describe companies as personalities, you would have a perfect layout for psychopathy to thrive, I suspect even more so with a capitalist system. The scary part is that they have the same judicial rights as a person and have endless resources.

2/13/2022 10:36 PM

Lars F. Bjoerlo (horizonpolaris)

Then again; capitalism and a private enterprise is the recipe for this operation too. It's about choices non-democratic in its nature. We choose how to shape our liberties. That's all I want to say. A company have no feelings or attachment to anything but the economy of the business in question.

The way I see it nobody has anything to lose by picking up a shovel for the love of God and start digging. Whether you believe in God or not is irrelevant. There can only be a positive outcome if we all think the same.

2/13/2022 11:18 PM

Lars F. Bjoerlo (horizonpolaris)

We do believe that one dollar is worth 1\$, for now. But the world's faith in this currency will not last forever. There's just nothing to back it up. This is plain for all who looks, but as long as we accept the dollar bill we have one less reason to worry. At some point the economy must be rebooted and Lord knows what happens to traditional vs crypto currency at this point. Yet to be figured out unless my team has done more work than expected from my side.

Lars F. Bjoerlo (horizonpolaris)

Yeah. It started with cutting out the relation to gold. Then from the 80's they've had their eyes on the prize the entire time. A worthless commodity rated AAA. The arguments for wrecking the regulations implemented after the 1929 crack in favor of giving the market total freedom to regulate itself have obviously in hindsight proven massively wrong.

2/14/2022 1:39 AM

Lars F. Bjoerlo (horizonpolaris)

That Greenspan fella is bad news, I'm telling you. When the economy gets so complex that only the professionals stand a chance at comprehending it and explaining it to the president is not even remotely possible - then you have a serious problem on your hands. Outsider or not - this is OUR problem too.

2/14/2022 3:13 AM

Lars F. Bjoerlo (horizonpolaris)

Ok. Very short answer to what we do in the future: We stop the massive hemorrhaging of funds by virtualizing a model of a pipeline system whit different properties as to flow rate, pressure etc. This way we can expect a complete cycle or turnaround in so and so much time, making the economy predictable and easy to identify where problems occur. All this will require a collection of an infinite amount of data to be analyzed and made into statistics so that we can look for key relations that repeat themselves regularly. However, there is a safety aspect and some significance to the anonymity of the use of cash and even dealing on black markets. Right now our sponsors are of the richest people there are on this planet. I don't care how they earned their fortunes as long as they are willing to let society access the piggy bank when in dire straits.

It was "I'm into you" that originally caught my attention as an instant classic well made pop-tune. I had no other relation to this woman from before as fan or admirer, I knew that she's an all American solid brand. That's about it. Her arts and me commenting on some of it is what followed after "LOVE?" was released. Keep in mind she wasn't divorced yet and that we basically have been saving the world in theory together. What I'm saying is that I know this woman first and foremost as a regular human being with some special competence that was in harmony with mine. We started building a friendship by helping each other out where we could with the resources we had to communicate. This is real, healthy, matured love. If it hadn't been like this - which one of us would be the golddigger? :D *lol*

Yes. Patience is important when it comes to armed conflicts and the end of them. It's kinda the same with drugs and if you can put 2 and 2 together, we have raised a fair share of bloodmoney without asking any questions none of our business. Somewhere down the line we should be able to reach an understanding on how available these commodities will be, but last time we discussed whether there is a concrete plan, I was advised by Coach to come back to this topic later. Meaning work in progress and I could easily step on a landmine here when I don't know exactly our current status of progress.

Lars F. Bjoerlo (horizonpolaris)

I have a confession to make. At first when asked how I felt about this project coming to life again and all the implications following for me personally, I said that I was mentally ready for it, but physically I have this drug issue which I described as "manageable". However, it's not as manageable as I could want. I stopped selling and started smoking hashish which has made the problem become less bad. Significantly less, but still of such a nature and magnitude that all I want is a detox period of a few weeks somewhere else, but an institution within this system is out of the question. I'd rather keep my problem until Coach literally knocks at my door. I'm so badly stuck at this particular geographical spot and taking it all the way to zero is just not possible in this setting. Her presence and all the action that awaits will create a natural high, I'm pretty sure. I just need to move, but if not here and not there, then where? I'm still gonna be alive in July - at least I know that much now. But it's of course desirable to look back at at least a couple of months clean before we collide. I have no idea how to make this reality right now. I have clearly underestimated how deep my addiction goes this time around. My entire situation and my attitude towards it have changed since September and it definitely helps to have my purpose back, but I wanna start having a schedule that I can trust and calculate with. Right now I'm only producing when I am in a decent state and I can't rely on myself on a day to day basis. It's a drag basically. Dunno what else to say, but complaining about it rarely get results. Hrrmmfff! :(

In theory that makes me as safe there as here, provided that we still actually are under the radar. Even Coach has to stand in line and wait for her turn, so...

2/14/2022 1:27 PM

Lars F. Bjoerlo (horizonpolaris)

Way too early for me to start thinking of the most relentless criticism and when that day comes I won't really care. The more extreme the easier to defeat.

2/14/2022 1:33 PM

Lars F. Bjoerlo (horizonpolaris)

Well, I am and always was an arctic being. I guess it could be useful to learn some hunting. However, access to pot in this state isn't an easy or cheap ordeal. It could even land me some jail time. Or..?

2/14/2022 1:36 PM

Lars F. Bjoerlo (horizonpolaris)

Back to Germany? Not a bad idea either. Anywhere. I just need a roof over my head.

2/14/2022 1:39 PM

Lars F. Bjoerlo (horizonpolaris)

Can't go crosscountry in San Diego *lol* Just kidding. Super exciting city.

2/14/2022 1:43 PM

Lars F. Bjoerlo (horizonpolaris)

Also super-expensive housing.

2/14/2022 1:45 PM

Lars F. Bjoerlo (horizonpolaris)

...and a notorious meth-city. That shouldn't matter, just sayin'

2/14/2022 1:47 PM

Lars F. Bjoerlo (horizonpolaris)

I mean, if the whole purpose is to sober up, I would be a complete idiot if roaming the Skid Row.

2/14/2022 2:15 PM

Lars F. Bjoerlo (horizonpolaris)

"Ask the Angels" is probably the best option so far. They are quite numerous. I could be anywhere. I could even rotate.

2/14/2022 2:18 PM

Lars F. Bjoerlo (horizonpolaris)

Thank God my woman isn't jealous and possessive, ha ha :D

2/14/2022 2:36 PM

Lars F. Bjoerlo (horizonpolaris)

Uhm - her mind I can actually read sometimes. *wiping that grin off my face* *giggle*

MATTN & Futuristic Polar Bears - Café Del Mar 2016 [Dimitri Vegas & Like Mike Edit]

2/14/2022 3:07 PM

Lars F. Bjoerlo (horizonpolaris)

Cool. Nix and Angel 1111 have figured it out. Thanks girls. Very grateful :))

2/14/2022 3:25 PM

Lars F. Bjoerlo (horizonpolaris)

(a request I made some time ago)

2/14/2022 4:14 PM

Lars F. Bjoerlo (horizonpolaris)

Many awesome suggestions so far. I like in general a fortified position on higher ground. Off shore provides this mechanical advantage as you called it the other day.

2/14/2022 4:32 PM

Lars F. Bjoerlo (horizonpolaris)

Wow. Never been to Oceania. New Zealand is a must-destination at least once in life.

2/14/2022 4:34 PM

Lars F. Bjoerlo (horizonpolaris)

Oh u-hum. You know I get weird when you hand me #orchids, baby.... :*

2/14/2022 5:50 PM

Lars F. Bjoerlo (horizonpolaris)

Hey. I finally tracked down some cannabis. I've done 1/3 of my joint and now emotions kick in. To such an extent that I feel tears constantly pushing on my eyeballs, but they haven't broken free quite yet....

2/14/2022 5:51 PM

Lars F. Bjoerlo (horizonpolaris)

Here we go....

2/14/2022 6:01 PM

Lars F. Bjoerlo (horizonpolaris)

...and that's why I chose to take it back. I need to stay in touch with this part of myself. But as with everything else, too much is never good.

2/14/2022 6:05 PM

Lars F. Bjoerlo (horizonpolaris)

I have a healthy critical view upon everything I say and do when under this influence, but too much has a tendency to spawn depression which in turn could get chronic or even significantly worsen.

2/14/2022 6:09 PM

Lars F. Bjoerlo (horizonpolaris)

I'm under the impression after 4 years of sobriety I got sloppier and cockier while underperforming. And in this case sobriety is also a sloppy term, because beer isn't on the list of forbidden substances. Junkies have their own logics - never mind.

2/14/2022 6:14 PM

Lars F. Bjoerlo (horizonpolaris)

And that really bugs me.

2/14/2022 6:35 PM

Lars F. Bjoerlo (horizonpolaris)

Living where I do now at 45 is a personal tragedy. That's the life I'm currently having and the way it has been for quite a while. I have only bad memories from these walls. Thus you'll have to accept some sort of denial-package in order to keep your head above water.

2/14/2022 6:46 PM

Lars F. Bjoerlo (horizonpolaris)

I've never even been close to maxing my potential. I can only try to dream about how such surroundings would look like. I have no idea. I think it's time to picture one self figuring out what I need in practical terms in order to generate more output.

2/14/2022 6:54 PM

Lars F. Bjoerlo (horizonpolaris)

It just struck me that my role now is very different from the one I had on the continent 2013. Strange that I haven't made this observation before. Well anyway, psychosis gone, normality re-established and I'm still kickin' against all odds. Sure can't complain about that.

2/14/2022 7:50 PM

Lars F. Bjoerlo (horizonpolaris)

Great vibes now guys :)

2/14/2022 8:48 PM

Lars F. Bjoerlo (horizonpolaris)

Gotta go cook something properly. Have a luxury problem for once: which dinner to choose?

2/14/2022 8:49 PM

Lars F. Bjoerlo (horizonpolaris)

NO MORE CANDY *smack on fingers*

2/14/2022 8:50 PM

Lars F. Bjoerlo (horizonpolaris)

REAL FOOD NOW!!!

2/14/2022 8:50 PM

Lars F. Bjoerlo (horizonpolaris)

ok ok ok take it easy

2/14/2022 8:59 PM

Lars F. Bjoerlo (horizonpolaris)

I'm on such thin ice here when trying to Anglify foods from what I see in Norwegian in front of me. Can one have such a thing as a fish stew? I mean kinda in a shape and consistency as lasagne? Anyway great gig, but in excess of an hour versus pasta carbonara in 10 min? Nobrainer today.

2/14/2022 10:35 PM

Lars F. Bjoerlo (horizonpolaris)

Hey. Been semi-napping after dinner. I'm in a perfect drowsy state and I'm supposed to go to work tomorrow. There's no stimulants here at the moment. But I'm really enjoying the concert. I do have plenty of stuff to watch on the large, third screen, but I keep staring at the two laptops in front of me with like 6-8 different streams. On slack days I can just reduce the number of streams to one screen w three or four.

2/14/2022 10:36 PM

Lars F. Bjoerlo (horizonpolaris)

If someone knew of this behavior they would be very concerned.

2/14/2022 10:38 PM

Lars F. Bjoerlo (horizonpolaris)

But I should probably lay down. That was the point. Probably up in a few hours to eat more and smoke a little. See yaround. :)

2/14/2022 10:39 PM

Lars F. Bjoerlo (horizonpolaris)

Gonna keep the door open and listen....

2/15/2022 10:54 AM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Just cancelled work. Feel like crap. Haven't given up on tomorrow and friday though. Then there's my former customers driving me nuts by asking me for "help" all the time. What's there not to get? Aaaargh!

2/15/2022 10:57 AM

Lars F. Bjoerlo (horizonpolaris)

This is what I'm talking about. I wanna be able to just keep a simple schedule. Grrrmf!

2/15/2022 10:58 AM

Lars F. Bjoerlo (horizonpolaris)

So tomorrow I must cancel my appointments to go to work. It quickly gets messy if I have a lot of appointments.

2/15/2022 11:01 AM

Lars F. Bjoerlo (horizonpolaris)

It's a good thing that I don't get paid. Makes me feel a little beter about myself, but it's still annoying.

2/15/2022 11:03 AM

Lars F. Bjoerlo (horizonpolaris)

I don't owe my boss anything, but I owe it to myself to keep my f**** schedule!!! :(

2/15/2022 11:10 AM

Lars F. Bjoerlo (horizonpolaris)

Well - back to this job then.

2/15/2022 11:14 AM

Lars F. Bjoerlo (horizonpolaris)

I've been thinking. I'm tryna think of a list with stuff we have to fix once we get installed. I wonder how much time we need to create the first practical result and how fast we can deliver the second and third promise we make. Bottom line is could we deliver 1 thing every day, like a freckin' Christmas calendar? If not (having some major welfare issues on my mind), how about once a week?

2/15/2022 11:19 AM

Lars F. Bjoerlo (horizonpolaris)

I don't want queues stretching around the block outside the welfare offices. No application forms should be bigger than a single sheet of paper and it should be relatively easy to prove one's elegy.

2/15/2022 11:20 AM

Lars F. Bjoerlo (horizonpolaris)

Then there's the minimum wage. +5\$. Then see what happens.

2/15/2022 11:21 AM

Lars F. Bjoerlo (horizonpolaris)

Taxreform.

2/15/2022 11:22 AM

Lars F. Bjoerlo (horizonpolaris)

Prisonreform.

2/15/2022 11:25 AM

Lars F. Bjoerlo (horizonpolaris)

We did also have a few issues with the constitution. Freedom of speech, guns and religion. These look bad, but the 2nd is the most dangerous one to alter.

2/15/2022 11:26 AM

Lars F. Bjoerlo (horizonpolaris)

Dissolve the NRA?

2/15/2022 11:27 AM

Lars F. Bjoerlo (horizonpolaris)

Then we could probably look into another healthreform. Obamacare had to be torn apart before getting through congress, remember?

2/15/2022 11:27 AM

Lars F. Bjoerlo (horizonpolaris)

Then there are the public schools.....

2/15/2022 11:28 AM

Lars F. Bjoerlo (horizonpolaris)

Then there's the police.

2/15/2022 11:29 AM

Lars F. Bjoerlo (horizonpolaris)

And we should probably look into the entire structure of the government and all its offices.

2/15/2022 11:30 AM

Lars F. Bjoerlo (horizonpolaris)

Then there are all the things we shouldn't be paying blood-prices for. Review all governmental contracts.

2/15/2022 11:32 AM

Lars F. Bjoerlo (horizonpolaris)

In this country all the coastline is publicly available in a 100 yard belt. *grinning*

2/15/2022 11:33 AM

Lars F. Bjoerlo (horizonpolaris)

Allergic to people? Too bad for you....

2/15/2022 11:35 AM

Lars F. Bjoerlo (horizonpolaris)

Reverse a ton of stuff done fairly recently, such as the attack against voter's rights.

2/15/2022 11:35 AM

Lars F. Bjoerlo (horizonpolaris)

I even wanna give convicts back their rights and abolish capitol punishment.

2/15/2022 11:42 AM

Lars F. Bjoerlo (horizonpolaris)

It's kinda sad, but we do need to keep up and preferably tighten border security. Can't take in more people while trying to grow stronger. And in light of the voodoo definition, we don't accept them coming here. Those who already are here will get kicked out at some point.

2/15/2022 12:07 PM

Lars F. Bjoerlo (horizonpolaris)

And stop selling pseudo-effedrine over the counter, for crying out loud! Then make people have to register in order to buy other key components. 1 or 2 components will do.

2/15/2022 12:21 PM

Lars F. Bjoerlo (horizonpolaris)

Please take note: no changes to the capitalistic system we're currently running. A taxreform will cause minor adjustments. That should be all.

2/15/2022 12:34 PM

Lars F. Bjoerlo (horizonpolaris)

And illegal immigrants that are already integrated by working their asses off and paying their bills should be given a greencard. Kinda important not to undermine the minimum wage.

2/15/2022 12:36 PM

Lars F. Bjoerlo (horizonpolaris)

Also important to their security as you can imagine.

2/15/2022 12:37 PM

Lars F. Bjoerlo (horizonpolaris)

Now they are free to make choices, right?

2/15/2022 12:38 PM

Lars F. Bjoerlo (horizonpolaris)

Take care of those who have proven themselves.

2/15/2022 12:43 PM

Lars F. Bjoerlo (horizonpolaris)

Gitmo? We have some work to do mainland before getting there, but we definitely will. When? ASAP. Sorry for not being more specific. I promise I won't sweep it under the rug.

2/15/2022 12:48 PM

Lars F. Bjoerlo (horizonpolaris)

Reversing all the ill effects of the patriot act is gonna take some time and will require hard work. The day we can systematically embark on that mission everything else must be ready for it.

2/15/2022 1:27 PM

Lars F. Bjoerlo (horizonpolaris)

This is logistics guys and it would be impossible to solve politically in time. This warehouse is mine. I've been here roaming the shelves since forever.

2/15/2022 2:01 PM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking that there are a lot of blank price tags in this warehouse. When car manufacturers decide not to put alarm on the back seat belts, it's because your passengers ain't worth it. They did the math. Politicians can't think like that because true to Christian dogma there's no price in dollar and cents on human life. And this is true, but we should nevertheless find these numbers and take another round on what else ought not to be subject to further cuts.

2/15/2022 2:03 PM

Lars F. Bjoerlo (horizonpolaris)

...or for that matter have a price tag at all...

2/15/2022 2:11 PM

Lars F. Bjoerlo (horizonpolaris)

There are some advantages to tackle chaos the way I do by staying liquid flexible with as few mounted points as possible, but it can be frustrating also on a personal basis when I wish I could keep a regular schedule. I get to produce but at these completely random terms. Normality re-established in head&behavior, but in lifestyle - not so much...

2/15/2022 2:14 PM

Lars F. Bjoerlo (horizonpolaris)

But at least I got to do this. :))

2/15/2022 2:24 PM

Lars F. Bjoerlo (horizonpolaris)

Hah! You ain't seen nuthin' yet. Wait till you see the social benefit packages for the publicly emplyed, he he

2/15/2022 2:26 PM

Lars F. Bjoerlo (horizonpolaris)

Before I say anything else I'll have to establish a price tag, I'm sure you understand. I'm pretty sure I can keep all my current ideas.

2/15/2022 2:32 PM

Lars F. Bjoerlo (horizonpolaris)

I understand, Joe. It's just the way it is. It's not your fault. It's not in particular anyone's fault. Sure I could demonize your predecessor all I want, but claiming it's his fault would be a lie. So let's not dwell by this, ok?

2/15/2022 2:44 PM

Lars F. Bjoerlo (horizonpolaris)

Either you have balls of steel or you're dumb as a slice of bread. I don't envy your position one bit.

2/15/2022 2:56 PM

Lars F. Bjoerlo (horizonpolaris)

Greetings from the Royal Castle here in Oslo: Karl Johan - Porch (Workout Progressive House Mix)

2/15/2022 2:57 PM

Lars F. Bjoerlo (horizonpolaris)

He's on his porch facing down Karl Johan every national day, watching the kids go by for hours while waving at them. He's a great king, really. Everybody loves him.

2/15/2022 3:11 PM

Lars F. Bjoerlo (horizonpolaris)

I cost this state very little if it weren't for the judicial issues that require me to take a cab and this anti-psychotic shot every other week. I'm never hungry and I don't need to be a criminal in order to make ends meet. In fact, I'm having steak today. (Not very often, though...)

2/15/2022 3:12 PM

Lars F. Bjoerlo (horizonpolaris)

I get around 1600\$ a month. Tax is then already deducted. About half pays my rent.

2/15/2022 3:20 PM

Lars F. Bjoerlo (horizonpolaris)

I do have to recycle bottles and keep an eye on the price tags I collect in my basket. And honestly, I think it's supposed to be like that, you know.

2/15/2022 3:21 PM

Lars F. Bjoerlo (horizonpolaris)

But food is not where you should make cuts. It is the only true luxury in life and in our days it's fairly cheap to eat well.

2/15/2022 3:38 PM

Lars F. Bjoerlo (horizonpolaris)

Most people don't like to just be kept in a box and fed, you know. You gotta trust that they get back to work if they are physically and mentally able.

2/15/2022 3:56 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah trust me - this seems radical to American eyes, but it's gonna pay to give the governmental apparatus a complete makeover. This is where we take it apart to inspect everything and mount it back together in a similar way. This ain't bolts and nuts, so we are more free to make changes before assembling. Besides we're gonna have to keep the main functions running while taking them apart, which would be impossible with a physical engine.

2/15/2022 6:00 PM

Lars F. Bjoerlo (horizonpolaris)

Tell your father I'm glad he likes the view. Could you do that for me, please Nix? ;)

2/15/2022 7:35 PM

Lars F. Bjoerlo (horizonpolaris)

Been out. Waiting for my steak to thaw. Gonna watch something for a little while, then eat and all of a sudden bed again. :)

2/15/2022 10:35 PM

Lars F. Bjoerlo (horizonpolaris)

I miss you too honey. Dinner was good, but I should have had some fresh salad. Now watching a documentary about the black middle class. After that I'll go to bed. I love you. Kiss. :)

2/15/2022 10:41 PM

Lars F. Bjoerlo (horizonpolaris)

I was in communist Cuba once and there, in a classless society, there were classes. The whiter your skin the higher your class.

2/15/2022 11:09 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not doubting that these people have had a significant harder time getting where they are, but my point with Cuba; why does it seem to naturally order itself like this? Should be a legitimate question. It's not my intention to provoke any body. Just looking for a good answer to this question.

2/15/2022 11:18 PM

Lars F. Bjoerlo (horizonpolaris)

I've also been to Africa. I'd describe the common black person as very submissive without me radiating any authority whatsoever. I was just a white European. Example: How did you get here, did you fly? Me: yes. Then: were there any black people on board the plane? Me: yeah sure it was packed. Even the pilot was black. And after that statement I was apparently a liar... He just could not conceive this in another way. I had to be pulling his chains.

2/15/2022 11:31 PM

Lars F. Bjoerlo (horizonpolaris)

Us against them is what I get out of this narrative in the documentary. Unfortunate conclusion really.

2/15/2022 11:32 PM

Lars F. Bjoerlo (horizonpolaris)

Exactly. "Life goes on". Well said.

2/15/2022 11:38 PM

Lars F. Bjoerlo (horizonpolaris)

But, by all means, watching all the atrocities being committed isn't for the faint hearted. And plenty of it goes on allover. I'm worried about the justice system. And I worry on behalf of all colors. I also worry about our own here in Norway. There's this case being reopened these days after this guy got convicted of raping and killing two nine year old girls. He's done like 20 years already. I've actually met him several times in Ila prison outside Oslo. The scandal is a fact regardless of guilt. That's my worry.

2/16/2022 12:50 AM

Lars F. Bjoerlo (horizonpolaris)

I think I'll sleep on that. Nite. :)

2/16/2022 1:43 PM

Lars F. Bjoerlo (horizonpolaris)

Morning everybody. I got a phone from work that I could work from home today. About yesterday's topic; as for the private sector we would have to find stimuli that makes sense. We could for example counter the increased cost of 5\$/h to the minimum wage over the tax-reform, but the important stuff is to be able to stimulate what's left of domestic industry. We did talk about subsidizing the power supply the same way as you have been doing with oil all the time. Industry and Energy are becoming more and more two sides of a coin - permanently linked together in every aspect. Alright - am now watching a movie about Chinese environmentalism. Lot's of footage from the Mao era. Surely a time of madness. This is interesting... :)

2/16/2022 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

Hey there. Watching Magellan still while thinking of my own upcoming appeal. Which in turn makes me think of madness and incompetence...

2/16/2022 5:03 PM

Lars F. Bjoerlo (horizonpolaris)

Well, I've been mad so many times that I couldn't have avoided learning something from it if I wanted to. I even bothered to debrief myself the last time and in the process learn what went wrong. I have done every irrational mistake possible in my various altered states of mind. So when people freak out and get real scared, I can make assumptions as to what they are thinking and likely the next move. And as far as being on top of the world goes, there are a million reasons to lose one's mind. So what's different now in comparison to how it used to be? Well, after I was done evaluating my efforts in the field, I decided that this virtual reality role playing hadn't served me well. The ideas that supported my psychosis were for the first time in all these years effectively gone by choice and dismantling the belonging structures of reality. Now all of a sudden everything is switched back on, but I'm no longer paranoid, which inevitably makes you delusional. I have no reason to choose delusions with my eyes wide open. But all the reasons one could go crazy are checked and accounted for. With all that said: I still perform good all the way when the brain is on fire. This is good to know, but sensible to avoid, of course.

2/16/2022 5:07 PM

Lars F. Bjoerlo (horizonpolaris)

So basically, in that sense, I feel perfectly fine. I'm not exactly jumpy, to put it that way. :)

2/16/2022 5:50 PM

Lars F. Bjoerlo (horizonpolaris)

"Addicted to dreams" you say. I think people feel entitled to take part in the American dream. To such an extent that when opportunities get scarce, you become willing to do anything. But guys: it does matter how you made it. Trampleing others in the process is not ok. I mean, dot get me wrong, we need stars to stretch for, at least as long as materialism is the norm and I think modern lifestyle rely upon a certain material standard. As for happiness? You should be free to pursue it, but have realistic expectations. Everybody can't have their own Bugatti Veyron.

2/16/2022 5:50 PM

Lars F. Bjoerlo (horizonpolaris)

(..but I'm still thrilled they exist..)

2/16/2022 5:54 PM

Lars F. Bjoerlo (horizonpolaris)

Being content is pretty ok too actually.

2/16/2022 5:55 PM

Lars F. Bjoerlo (horizonpolaris)

And all those trivial things in everyday life are highly underrated. You don't see that until you've lost it.

2/16/2022 6:06 PM

Lars F. Bjoerlo (horizonpolaris)

Then there's the spiritual side of every life. You're supposed to advance. If all you can be concerned with are various material possessions, then you won't move an inch, spiritually speaking. It wasn't being too comfortable that got you to heaven in the first place, was it?

2/16/2022 6:17 PM

Lars F. Bjoerlo (horizonpolaris)

And you're going to spend large parts of your life alone most likely. Figure out how you best can thrive in your own company - just some advice.

2/17/2022 12:23 AM

Lars F. Bjoerlo (horizonpolaris)

Alright guys. Been silent some hours. Today was the perfect day for that fish-thingy. I see you have enjoyed yourselves and so have I Tomorrow it is. Arivederci. :)

2/17/2022 12:16 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. At hospital for the olanzapine shot. Didn't bring laptop. Handset will have to do. I should probably clean it from junk files etc, but I'm gonna browse Twitter undisturbed for once..

2/17/2022 1:59 PM

Lars F. Bjoerlo (horizonpolaris)

He he. Americans and their Superbowl..

2/17/2022 2:00 PM

Lars F. Bjoerlo (horizonpolaris)

:)

2/17/2022 2:02 PM

Lars F. Bjoerlo (horizonpolaris)

OMG are you really marrying Ben, Coach...? Again? Now what are the odds of that? :)

2/17/2022 2:28 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. I wanna see that movie that everybody loves. Could be tricky to locate, though.

2/17/2022 2:52 PM

Lars F. Bjoerlo (horizonpolaris)

It's alright honey. I don't know what is going on, but I'm comfortable waiting for the answer. Feel confident It's gonna provide itself at some point :)

2/17/2022 3:10 PM

Lars F. Bjoerlo (horizonpolaris)

Coach the master of choreography. I've always respected your arts, dear. In particular your favorite one :)

2/17/2022 3:26 PM

Lars F. Bjoerlo (horizonpolaris)

I spoke to doc today. She asked about the trial. I figured I could just as well drop the conspiratorial version on her to check out the reaction. Didn't have to work hard to get her convinced that I could be on to something..

2/17/2022 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

I don't worry too much of people who hang around for the wrong reasons. I'm confining myself in here until you knock over the first domino. Likely longer.

2/17/2022 4:41 PM

Lars F. Bjoerlo (horizonpolaris)

Imma wait till the dust settles in any case.

2/17/2022 4:43 PM

Lars F. Bjoerlo (horizonpolaris)

Boohoo I'm in hiding cuz I got trolled on Twitter. Not coming out for less than 17 lollipops :(

2/17/2022 5:12 PM

Lars F. Bjoerlo (horizonpolaris)

See? My girl always manages to explain herself when needed. I'm impressed. In this case it wasn't needed. I come across situations all the time where the same rule apply; wait until you have your missing data. And in most cases that's not a problem. Impatience or obsessing on stuff you can't change in an instant or control in any way is pretty novice. Just sayin'... :)

K4MMERER - Brother in arms

2/17/2022 6:02 PM

Lars F. Bjoerlo (horizonpolaris)

What I know about Ben is that he's real enough. He's resourceful and a steady guy. This setting kills alot of speculating and probably also saves a lot of time.

2/17/2022 6:12 PM

Lars F. Bjoerlo (horizonpolaris)

BTW Coach I think you understand and you do have a valid point - meaning we can move from that part to the part where we conclude or find solutions. That ball is already in my courtyard and has been the whole time. More au lait. :)

2/17/2022 6:45 PM

Lars F. Bjoerlo (horizonpolaris)

Ha ha ha. You're crazy, you know that, right? And you hide it well :D

2/17/2022 6:47 PM

Lars F. Bjoerlo (horizonpolaris)

Which is it? Heaven won't wait" or "time stood still/wait for us"? Kinda ambiguous, he he

2/17/2022 6:49 PM

Lars F. Bjoerlo (horizonpolaris)

Getter and setter. Yeah I thought so. Darn! :)

2/17/2022 6:51 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm you know what? I'd love to remain in this landscape forever, but there's a reason why it gathers in front of me. As you know it's both straight forward and complex at the same time...

2/17/2022 6:55 PM

Lars F. Bjoerlo (horizonpolaris)

Yep we're unpolite to talk over the heads of our guests. Criticism taken, he he...

2/17/2022 7:01 PM

Lars F. Bjoerlo (horizonpolaris)

One last thing: don't set dates just yet - at least not in stone.

2/17/2022 7:06 PM

Lars F. Bjoerlo (horizonpolaris)

Interesting... Damn, I miss that channel. They're not streaming anymore...

2/17/2022 7:08 PM

Lars F. Bjoerlo (horizonpolaris)

If you ever were in doubt: you rock. I rest my case for now.

2/17/2022 7:57 PM

Lars F. Bjoerlo (horizonpolaris)

Funny you should mention it; the pressure is enough as is. Increasing it won't save any time. Worst case scenario it becomes a drag. We wouldn't want that. I know in that sense where my priorities ought to be.

2/17/2022 8:04 PM

Lars F. Bjoerlo (horizonpolaris)

(..sorry guys. rather take this now than waste lots of communication back and forth...)

2/17/2022 8:07 PM

Lars F. Bjoerlo (horizonpolaris)

I see signs of you guys getting closer to the silent copy/paste problem. Looking good.

2/17/2022 8:17 PM

Lars F. Bjoerlo (horizonpolaris)

It's getting increasingly easier to think forward in time. Useless really in my situation, but this thing of ours always turn everything upside down. Thank God.

2/17/2022 8:21 PM

Lars F. Bjoerlo (horizonpolaris)

Me too babe *kiss*

2/17/2022 8:25 PM

Lars F. Bjoerlo (horizonpolaris)

Klar. Krystall.

2/17/2022 8:29 PM

Lars F. Bjoerlo (horizonpolaris)

Bless you in your quest.

2/17/2022 8:33 PM

Lars F. Bjoerlo (horizonpolaris)

Yes guys this is the closest you get to actual telepathy, but it does depend on words, symbols and numbers.

2/17/2022 8:35 PM

Lars F. Bjoerlo (horizonpolaris)

..but you don't need many to mirror relatively complex thinking.

2/17/2022 9:08 PM

Lars F. Bjoerlo (horizonpolaris)

is ancient forgotten space could be much older than the universe itself, who knows?

2/17/2022 9:08 PM

Lars F. Bjoerlo (horizonpolaris)

this

2/17/2022 9:16 PM

Lars F. Bjoerlo (horizonpolaris)

Use the good old fax :)

2/17/2022 9:21 PM

Lars F. Bjoerlo (horizonpolaris)

Not so green today or any other day.

2/17/2022 9:22 PM

Lars F. Bjoerlo (horizonpolaris)

We've been up and down this road how many times? Genau. Ain't happening.

2/17/2022 9:27 PM

Lars F. Bjoerlo (horizonpolaris)

I know. And I know that you know. Let's just say it's not the first time these measures have been applied after discussing it for ages, I can imagine. Really sucks though. :(

2/17/2022 9:31 PM

Lars F. Bjoerlo (horizonpolaris)

Days are to short, that I also know. at least 3-4 are needed. Those in chains first. Then orgs power centra, and individual "warlords". We need some media delay. Can we fix that?

2/17/2022 9:34 PM

Lars F. Bjoerlo (horizonpolaris)

yes this is UV. I was hoping no more of that in here please. On the other hand - better here than there, but you get me...

2/17/2022 9:36 PM

Lars F. Bjoerlo (horizonpolaris)

I bet my former nemesis lends a hand if you have personell difficulties.

2/17/2022 9:58 PM

Lars F. Bjoerlo (horizonpolaris)

I appreciate the shield, but I'm prepared to take the blame nevertheless. Hope it's not necessary to let this wound remain open very long.

2/17/2022 10:00 PM

Lars F. Bjoerlo (horizonpolaris)

Have anyone spoken to SC about the aftermath of CDC's operations?

2/17/2022 10:19 PM

Lars F. Bjoerlo (horizonpolaris)

Alright. We start out silent and watch the development.

2/17/2022 10:20 PM

Lars F. Bjoerlo (horizonpolaris)

It might just work out for the better.

2/17/2022 10:23 PM

Lars F. Bjoerlo (horizonpolaris)

I mean, if Club Luna got away...

2/17/2022 10:51 PM

Lars F. Bjoerlo (horizonpolaris)

Alright. Everybody bows to our cause. We're on.

2/17/2022 10:57 PM

Lars F. Bjoerlo (horizonpolaris)

Creating civilization...

2/17/2022 11:11 PM

Lars F. Bjoerlo (horizonpolaris)

When the prioritized ground is covered, you go for density criteria.

2/17/2022 11:19 PM

Lars F. Bjoerlo (horizonpolaris)

If you're not really up for it, now is the time to decide. But it's not going away or getting better. Ever.

2/17/2022 11:32 PM

Lars F. Bjoerlo (horizonpolaris)

The entire chain of discussion that got us here is just utterly revolting in every way all the way. I'm not about to repeat it. Case got thoroughly debated last before Moabit and throughout to radio silence 2015.

2/17/2022 11:34 PM

Lars F. Bjoerlo (horizonpolaris)

I can see at least one guy who enjoys having made his moonlanding, he he. Give'em the best that you've got!

2/17/2022 11:38 PM

Lars F. Bjoerlo (horizonpolaris)

Carpe Noctem

2/17/2022 11:44 PM

Lars F. Bjoerlo (horizonpolaris)

Easy? This crap extends far beyond reason thanks to no effort to prevent the problem. Cultural differences that are explainable, yet still a real problem there's no other way out of. Nothing we have done down this road before comes even remotely close in numbers. Tad bit early to celebrate.

2/17/2022 11:58 PM

Lars F. Bjoerlo (horizonpolaris)

I never got that part. Where are they going? Waiting for Elon Musk to build them a space ship to hijack? It's like you've been saying; nobody home.

2/18/2022 12:06 AM

Lars F. Bjoerlo (horizonpolaris)

I had this hunch when this situation arose. That's why I was so quick to just "lay flat" and apologize. It would come something I've been missing out of it. So it did. Congratulations to you too. Not bad. Not bad at all. :)

2/18/2022 12:07 AM

Lars F. Bjoerlo (horizonpolaris)

(But I meant it too. I realize what I did wrong.)

2/18/2022 12:17 AM

Lars F. Bjoerlo (horizonpolaris)

Cool. It's all water under the bridge then. That's nice.

2/18/2022 12:23 AM

Lars F. Bjoerlo (horizonpolaris)

No doubt you need a Heimlich maneuver. You really are choking.

2/18/2022 12:32 AM

Lars F. Bjoerlo (horizonpolaris)

They don't even bother to pretend anymore.

2/18/2022 1:02 AM

Lars F. Bjoerlo (horizonpolaris)

Thanks for vouching for my sanity and I agree with Coach's desire to run. Gotta sleep soon. Planning to drag mom in here in the weekend. But not like this...

2/18/2022 12:28 PM

Lars F. Bjoerlo (horizonpolaris)

Morning. Yeah I have a pretty good idea of who I am and where I am right now. It's a good thing that will keep us on track with an absolute minimum of delay. But I will point out that you guys have been different too this time. You haven't tried to the same extent as before to sow doubt. This is the quickest and most efficient way to go optimal in my experience.

2/18/2022 12:30 PM

Lars F. Bjoerlo (horizonpolaris)

Of course I realize why it was necessary and to a certain degree always will be.

2/18/2022 12:35 PM

Lars F. Bjoerlo (horizonpolaris)

Because of hospital yesterday that usually is every second friday, I got saturday feeling when getting out of bed. Texted with my boss yesterday. I wasn't needed present, but I'm done eating breakfast, the weather is brilliant, my bike is charged and I got paid today. I think I had like a buck and a half yesterday. Maybe less. It was tin-can dinner yesterday. Jen and I call it lapdance. The Norwegian word is "lapskaus" :)

2/18/2022 12:37 PM

Lars F. Bjoerlo (horizonpolaris)

Sorry about all the yesterdays. Not really focused. Generating todo list ...

2/18/2022 12:52 PM

Lars F. Bjoerlo (horizonpolaris)

I gotta split. See you in x hours. Not sure how long this will take. Many destinations...

2/18/2022 2:46 PM

Lars F. Bjoerlo (horizonpolaris)

Wow. I made more than intended in just 2 hours. Thaz pretty neat if I muzt zay zo myself ;)

2/18/2022 3:59 PM

Lars F. Bjoerlo (horizonpolaris)

I had some luck for once. Been waiting for smokeables over a week. Last I paid over 100\$ for 5. Today more like 35\$. It should last a month or so. Funny thing - there's a long time since I had a credit rating in society, but when it comes to this stuff, I've never had any credit issues.

2/18/2022 4:02 PM

Lars F. Bjoerlo (horizonpolaris)

The ultimate currency is your reputation really. When it all comes down to it - besides two empty hands, that's all you've got.

2/18/2022 4:11 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not in particular meticulous with money, but I didn't use to have problems paying my bills. Long story, but I was 2 persons back then. I had three different credit cards, a mortgage, car loans and credit accounts online for buying electronics. I could spend a thousand euro's or sometimes the double on impulse with no plan for the payment that was 45 days without any costs. Usually I found a way within these 45 days. If not, relatively soon anyway. I've had a tendency to save money by paying off debt early instead of consuming the extra money on luxuries. Pluss I have a habit of buying stuff that's not rapidly disappearing, but remains intact "in store", so to speak.

2/18/2022 4:31 PM

Lars F. Bjoerlo (horizonpolaris)

A test phase is launched. Great texture, smell and taste. Needless to say, the THC level matches the allover impression. I don't really get very stoned when smoking on a regular basis, but influenced. That's good enough. Satisfies something a little undefinable. Calm things down. Not that I'm worked up or something, but I like it and it makes sense from that perspective alone, but this can change. You know here I am all alone. Nobody to object when I smoke inside the apartment or start neglecting things. One needs a certain standard on hygiene and order in your surroundings for the sake of self respect. Lord knows I have sinned enough towards myself in this respect. I've had some really horrible years from young age to present time. However, you always have a reference. You know how it SHOULD be without being told. Making it so is a different story.

2/18/2022 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

This time around I instantly realized in September that now it's real and that you need me more than I need you, but in the same moment was conscious that I shouldn't be a dick about it and rub it in your faces, if you get me. And since I knew what I knew about my current overmatured mental state, if felt comfortable issuing guarantees and promises, which I extremely rarely do in any case if I can avoid it. I don't wanna be the jerk that doesn't deliver. What I say and what happens should line up. And I am very comfortable after regaining my sanity. It also makes me aware over how much more valuable my skills are now.

2/18/2022 4:50 PM

Lars F. Bjoerlo (horizonpolaris)

he he I see one word here that derives from the norwegian way of building a sentence. strike the last preposition :)

2/18/2022 9:49 PM

Lars F. Bjoerlo (horizonpolaris)

I'd like to be with you, but having visitor. It is Friday night after all. I just wanna add that I don't gamble or buy lottery tickets ever. It's the obvious math that's the reason.

2/18/2022 9:53 PM

Lars F. Bjoerlo (horizonpolaris)

..and no, you're right, nothing serious is wrong with me. We have gotten the ultimate start-off.

2/19/2022 1:30 AM

Lars F. Bjoerlo (horizonpolaris)

Xida - Libera Temet Ex Inferis (Original Mix)

2/19/2022 1:35 AM

Lars F. Bjoerlo (horizonpolaris)

Translation needed? Google, he he. I really hate to be told that. It's a plea in Latin to be saved from hell. As I said - I have every intention of doing my best.

2/19/2022 1:39 AM

Lars F. Bjoerlo (horizonpolaris)

Yes. Only me here now.

2/19/2022 2:31 AM

Lars F. Bjoerlo (horizonpolaris)

Laughing from it all is normal. It's absurd.

2/19/2022 2:38 AM

Lars F. Bjoerlo (horizonpolaris)

This is gonna become very interesting. I wonder how many direct confrontations that will come along. It wouldn't surprise me if the opposite of chaos happened. When people are insecure and see someone else in charge of the situation, they tend to be careful. I suppose what I radiate will determine to a large degree how calm or not people will be. Shouldn't be a problem. Let's cross our fingers that it stays relatively manageable.

2/19/2022 2:46 AM

Lars F. Bjoerlo (horizonpolaris)

I mean, substantial characters will submit heir testimony. Even though it's impossible to remove that instinctive urge to doubt, you can rationally comprehend what you're hearing and seeing.

2/19/2022 2:59 AM

Lars F. Bjoerlo (horizonpolaris)

As soon as they get the feeling that I'm not just some random dude - that's where the magic can begin.

2/19/2022 3:04 AM

Lars F. Bjoerlo (horizonpolaris)

Sure, I can talk. What topic would you like to discuss?

2/19/2022 3:05 AM

Lars F. Bjoerlo (horizonpolaris)

Smart Wave - Mission Accomplished

2/19/2022 3:12 AM

Lars F. Bjoerlo (horizonpolaris)

Yes I suppose it is. This part of everything has been accomplished, but what on Earth am I gonna do all the time till May is upon us? I figure that I enjoy your company and I also have plenty of time to kill. This thing is supposedly twice as large as my Norwegian book-project.

Were talking 35K and more than 70K words in this page/room. Growing by the day until something else requires my attention full time. :)

2/19/2022 3:20 AM
Lars F. Bjoerlo (horizonpolaris)

If it weren't for the minimal parts of UV information, this could basically be read as is by everyone. Help them to catch up and feel on safer ground.

2/19/2022 3:33 AM
Lars F. Bjoerlo (horizonpolaris)

Seriously babe, I've been thinking: for now I gotta stick to one day at a time strategy in terms of my capabilities. When we meet physically for the first time, what are you imagining we say to one another. Me? I have no idea. I've been talking to you for years with my own voice, so it's definitively your turn to talk and mine to listen :)

2/19/2022 3:43 AM
Lars F. Bjoerlo (horizonpolaris)

This you-me thing is gonna take everything and be completely overwhelming at first, I'm pretty sure. All the rest I should be worked up about don't stress me at all. I reckon it's the way it should be. Of course we get the worst case of butterflies ever. :))

2/19/2022 3:48 AM
Lars F. Bjoerlo (horizonpolaris)

I'm not exactly sure what people expect us to share about our private sphere, but I'm convinced that you have a very clear set of boundaries that you appropriately apply upon need, or what?

2/19/2022 3:52 AM
Lars F. Bjoerlo (horizonpolaris)

I need to speak English a couple of weeks too to warm up. When I start dreaming in English in my sleep - then it should be ok :)

2/19/2022 3:56 AM
Lars F. Bjoerlo (horizonpolaris)

I don't usually have bad days. That's rare. I'm thinking days that bend your spirit, not just regular fatigue or withdrawal or whatever.

2/19/2022 4:01 AM
Lars F. Bjoerlo (horizonpolaris)

And I'm confident that I will handle your bad days, if any, juuuuust fine. :) <3

2/19/2022 4:47 AM
Lars F. Bjoerlo (horizonpolaris)

There was a time when I had relatively strong moodswings which I couldn't hold back. I remember cracking a code when I started being conscious of how to surf and benefit from the swings. I figured instead of getting snappy at the wrong people when aggravated, I made sure I called up some prick I wanted to start a beef with or someone who was late on his/her debt or some office I had to set straight and so on. I just adapted to the swings that way and eventually they stopped rocking my boat.

2/19/2022 5:45 AM
Lars F. Bjoerlo (horizonpolaris)

I love you too, dear. Tryna keep my head on the right things and not get distracted by something that doesn't concern this reality - at least not yet. What's your biggest challenge in your current role?

2/19/2022 5:53 AM
Lars F. Bjoerlo (horizonpolaris)

I get that part, but right here and now I can't use it in any way except wasting time. Same principle as waiting for missing data.

2/19/2022 6:00 AM
Lars F. Bjoerlo (horizonpolaris)

Yeah and that's the point I gave you last when I said we could skip right to solutions. I see the same thing, but my perspective is fundamentally different when it comes to this. More stress can't possibly bring any good in this direction. Magic and magic are two different things. I'm in lack of a wand or fairy or something :)

2/19/2022 6:04 AM
Lars F. Bjoerlo (horizonpolaris)

In Norwegian we have this expression "knusende ro" which is something between devastating calm and crushing silence. One thing is certain: I'm in no rush, are you? If so, why?

2/19/2022 6:09 AM
Lars F. Bjoerlo (horizonpolaris)

Right now you remind me slightly of mum, ha ha :D

2/19/2022 6:09 AM
Lars F. Bjoerlo (horizonpolaris)

A freudian twist here and voila, he he :)

2/19/2022 6:13 AM
Lars F. Bjoerlo (horizonpolaris)

That makes perfect sense, or what? *lol*

2/19/2022 6:15 AM

Lars F. Bjoerlo (horizonpolaris)

It's all good hon. Remember how much time we spent on this. Let's agree there has been some development for the better in our prior phase. Wasn't that happy about it at first, right?

2/19/2022 6:20 AM

Lars F. Bjoerlo (horizonpolaris)

Cool. I like that you also can control what you feel about this. It's gonna work out one day for sure. Let's not giva sh** just for the time being... Kisses back.

2/19/2022 6:27 AM

Lars F. Bjoerlo (horizonpolaris)

Noted.

2/19/2022 6:32 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah. You're certainly entitled to be.

2/19/2022 6:34 AM

Lars F. Bjoerlo (horizonpolaris)

I have this synthetic barrier you've recently become familiar with. I keep stressing that it might be a good idea to start with that.

2/19/2022 6:35 AM

Lars F. Bjoerlo (horizonpolaris)

Just a protection/survival strategy. But it does not fit in this picture.

2/19/2022 6:37 AM

Lars F. Bjoerlo (horizonpolaris)

The mentality that comes along is nothing I want you to experience.

2/19/2022 6:37 AM

Lars F. Bjoerlo (horizonpolaris)

At least not up close.

2/19/2022 6:38 AM

Lars F. Bjoerlo (horizonpolaris)

This is a curse. I'm dead serious.

2/19/2022 6:40 AM

Lars F. Bjoerlo (horizonpolaris)

Prioritizing the other way around is not an option for many reasons.

2/19/2022 6:45 AM

Lars F. Bjoerlo (horizonpolaris)

I reject all frustration about this. Won't bring me any closer to actual results. I suppose we have differences when it comes to our best circumstances under which to perform. This isn't exactly my plan for the time being. I'm in the seat next to you riding shotgun.

2/19/2022 6:49 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah, humor and patience is a constrictive way to go - at least for me. Any other approach is futile, basically.

2/19/2022 6:56 AM

Lars F. Bjoerlo (horizonpolaris)

Just stick close to me in the beginning and make sure we have an escape hatch into tranquility. All the sudden extreme stimuli will inevitably create need for some isolation. I'm expecting this to adapt and take shape, but it's important you know how I function when not so good. I suspect I'm gonna step right out of this hell-hole in a few months. Time, peace, talks, candles, wine, music - just the two of us as much as possible interrupted by sleep basically. That's the state of the guy you just shook awake.

2/19/2022 7:01 AM

Lars F. Bjoerlo (horizonpolaris)

It has to be on our terms, otherwise forget it. Seriously. You're all I care about right now and that's exactly how it should be in my opinion.

2/19/2022 7:20 AM

Lars F. Bjoerlo (horizonpolaris)

It's not like you're obliged to answer every single question that might arise.

2/19/2022 7:21 AM

Lars F. Bjoerlo (horizonpolaris)

At least not in this context.

2/19/2022 7:23 AM

Lars F. Bjoerlo (horizonpolaris)

Like I said; that is our final destination. Exactly when the train arrives, nobody knows at this point, but it will be there.

2/19/2022 7:25 AM

Lars F. Bjoerlo (horizonpolaris)

By doing this right it's gonna be much more fun, I'm sure.

2/19/2022 7:27 AM

Lars F. Bjoerlo (horizonpolaris)

Finding me should be easy to you. You're the only person with the keys to my heart and soul, remember ;*

2/19/2022 7:28 AM

Lars F. Bjoerlo (horizonpolaris)

Yup. Butt naked.

2/19/2022 7:32 AM

Lars F. Bjoerlo (horizonpolaris)

Hasn't really struck me before, but I'm used to the extreme close-ups and the intimate scrutinizing. You wouldn't let some journalist that close to your nude self.

2/19/2022 7:33 AM

Lars F. Bjoerlo (horizonpolaris)

Is that your response to my "biggest challenge" question?

2/19/2022 7:35 AM

Lars F. Bjoerlo (horizonpolaris)

I can't be disclosing everything while you sit by in silence, he he. That would be weird. :D

2/19/2022 7:39 AM

Lars F. Bjoerlo (horizonpolaris)

A simple "No" should do the trick.

2/19/2022 7:40 AM

Lars F. Bjoerlo (horizonpolaris)

It just doesn't make any sense in this wrapping.

2/19/2022 7:41 AM

Lars F. Bjoerlo (horizonpolaris)

I usually don't bother considering stuff that has no use.

2/19/2022 7:43 AM

Lars F. Bjoerlo (horizonpolaris)

Their hyped up state is not my concern. I mean like ever. Let them boil.

2/19/2022 7:46 AM

Lars F. Bjoerlo (horizonpolaris)

I feel balanced and collected. There are limits as to what gets under my skin. I don't owe these suckers anything whatsoever and never will.

2/19/2022 7:49 AM

Lars F. Bjoerlo (horizonpolaris)

Does this mean change of topic? I can't possibly be any clearer or shorter.

2/19/2022 7:52 AM

Lars F. Bjoerlo (horizonpolaris)

Instinctive dismissal.

2/19/2022 7:52 AM

Lars F. Bjoerlo (horizonpolaris)

That's where I'm at.

2/19/2022 7:58 AM

Lars F. Bjoerlo (horizonpolaris)

There's a problem with going on air; my daughter is likely to stumble upon it. I'm not being irrational. I know she checks out every now and then.

2/19/2022 7:59 AM

Lars F. Bjoerlo (horizonpolaris)

I need a different narrator than myself...

2/19/2022 8:02 AM

Lars F. Bjoerlo (horizonpolaris)

I could hide it, but what's the point?

2/19/2022 8:15 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah the day that focus changes for any of us...

2/19/2022 8:18 AM

Lars F. Bjoerlo (horizonpolaris)

But as a mental patient I have a few techniques. The most important and practical means to stay away from involuntary thinking is to stay away from mainstream media. Works like a charm :)

2/19/2022 8:24 AM

Lars F. Bjoerlo (horizonpolaris)

I take it it's the AI that's not done yet. This ain't my wife talking, thaz for sure.

2/19/2022 8:37 AM

Lars F. Bjoerlo (horizonpolaris)

He he. Fortunate that I'm not everyone. Neither is she.

2/19/2022 8:57 AM

Lars F. Bjoerlo (horizonpolaris)

Well, this was phun.... :p

2/19/2022 9:10 AM

Lars F. Bjoerlo (horizonpolaris)

Yes I see that. The trick is not to get caught up in a drama beneath your dignity. No comment or simply ignore are known to emphasize this position. You're not too shy to say FU either when prompted. Best thing is no response though.

2/19/2022 9:19 AM

Lars F. Bjoerlo (horizonpolaris)

As a good God-fearing American citizen, I bet you own at least one gun. Just empty it to set an example, ha ha :D Geeeee!!!!
I'm actually watching the Bible here. This Catholic woman goes to debate faith with some hardcore atheists and they're actually fanatic in comparison to her. Freckin' pagans...

2/19/2022 9:20 AM

Lars F. Bjoerlo (horizonpolaris)

Poor behavior, in particular in a setting that's supposed to be enlightening both ways, is really bad style. Poor Lady.

2/19/2022 9:23 AM

Lars F. Bjoerlo (horizonpolaris)

She stood up though. Not visibly disturbed by the vicious attacks they kept launching at her constantly.

2/19/2022 9:24 AM

Lars F. Bjoerlo (horizonpolaris)

But we could definitively use a creationist debate. I mean - what are we really looking at here, you know...?

2/19/2022 9:31 AM

Lars F. Bjoerlo (horizonpolaris)

I can imagine the extended logics for the moment we share here.

2/19/2022 9:32 AM

Lars F. Bjoerlo (horizonpolaris)

It's bound to be trouble, but we're not scared of a fight. We just have to be picky about them.

2/19/2022 9:35 AM

Lars F. Bjoerlo (horizonpolaris)

I think these guys took contempt to another level. It was uncomfortable to watch - also on behalf of civilized atheists, I'm sure.

2/19/2022 9:39 AM

Lars F. Bjoerlo (horizonpolaris)

One thing is standing by own beliefs, another thing is trying to ruin other's faith as hard as you can. I'm thinking that has to be really necessary then. You wouldn't do that to anyone unless we're talking Hitler's convictions and so on...

2/19/2022 9:45 AM

Lars F. Bjoerlo (horizonpolaris)

If I dream? How do you think this happened?

2/19/2022 9:46 AM

Lars F. Bjoerlo (horizonpolaris)

aaaaall the time, sir.

2/19/2022 9:47 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah this session has been cool. It's fine with some challenges. No sweat.

2/19/2022 9:53 AM

Lars F. Bjoerlo (horizonpolaris)

It's 10 am here. Would love to talk childhood memories, but that's potentially a lot and deserves to be well written. Many memories I cherish. All the way back to before I could walk.

2/19/2022 9:55 AM

Lars F. Bjoerlo (horizonpolaris)

It was magical. Trippy. Adventurous.

2/19/2022 9:56 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah. I'm near extinct already, I know. I appreciate all the efforts made to preserve this particular piece of nature.

2/19/2022 6:42 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Coach. I'm thinking about our conversation. You're right. I should give it another go. I still think of that synthetic problem. If you felt me up close in this state it would have broken your heart. I know because we're already inside each other's minds. This ain't a warm welcoming place at all. It can only go on as long as I'm alone here. This sucks, but hey, I'm glad we had this talk. Love you even more. Kiss...

2/19/2022 6:53 PM

Lars F. Bjoerlo (horizonpolaris)

Normally you could motivate people by introducing some mild temptation or an appealing concept, but for it to work, I in this case, am almost like a living dead emotionally. So I know in my heart that I am appreciative, but nothing really is tempting from where I stand today. You deserve better. That's all.

2/19/2022 6:58 PM

Lars F. Bjoerlo (horizonpolaris)

But it's not like I have a problem with it. I'd like to keep it so.

2/19/2022 7:01 PM

Lars F. Bjoerlo (horizonpolaris)

You're the only person in the world that can convince me that it's a good idea. And I believe you're right.

2/19/2022 7:13 PM

Lars F. Bjoerlo (horizonpolaris)

Isn't that strange how conflicted simple matters can be? Good thing we understand this ambivalence. After all - it is the bittersweet that often adds color, thus make you feel alive..

2/19/2022 7:15 PM

Lars F. Bjoerlo (horizonpolaris)

Dualism...

2/19/2022 7:40 PM

Lars F. Bjoerlo (horizonpolaris)

As for the great atheism/science debate I think SETI can prove useful. They represent the skeptical breed and would probably have broad appeal.

2/19/2022 7:46 PM

Lars F. Bjoerlo (horizonpolaris)

And I personally prefer the biologist angle. Just sayin'...

2/19/2022 7:56 PM

Lars F. Bjoerlo (horizonpolaris)

We should all, the Church too, promote that narrative. And try to make sure God rarely enters this discussion. They would of course go into a frenzy and sense an opportunity for cheap points.

2/19/2022 8:01 PM

Lars F. Bjoerlo (horizonpolaris)

No mistakes on my part. I'm not engaging if there are any uncertainties. Best anti-mistake strategy and based on statistics..

2/19/2022 8:08 PM

Lars F. Bjoerlo (horizonpolaris)

Depends greatly upon what's at stake, of course. Falling short isn't necessarily a bad thing from time to time. I'm a general purpose guy with no education. I can't match an authority in every respect and I can't expect to know it all. Realize one's limitations and not take one self too seriously. But this particular debate is important not to lose.

2/20/2022 12:51 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Hope you're having a good Sunday. I got visitors yesterday. Occasionally I get some indications that the spreading of rumors has gotten "out of control". Is this an accurate picture or is this a random factor? I would really like to get a sense of size in an estimated figure of how many know about us now? You've been reluctant to answer similar requests earlier. The reason I'm asking is to see whether I can make some predictions out of the facts we've got on the situation.

2/20/2022 3:17 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. Not getting any wiser. But "all over" is an indicator that perhaps this fire has become self sustaining. The reason I wonder is because I have flagged May, June, July and August, but I don't know which events you have scheduled where. Only that there will be time in between the first official disclosure until I actually enter the arena. May is far enough into the future to create a room of uncertainties. How can you be sure none of the planned events happens by themselves any time before the scheduled moment? The only way to prevent this is to be very meticulous when grading and spreading info. However, If you have shared a lot of material containing clues to who this person in question is, etc. I know that you guys have experience planning such, so this more like an effort to display what I'm thinking for the time being.

2/20/2022 3:44 PM

Lars F. Bjoerlo (horizonpolaris)

How random can it possibly get and is that, or could it represent a problem we'll have difficulties adapting to? No offense to the professionals. I'm just asking some questions. Don't take it personally as distrust or lack of confidence.

2/20/2022 3:50 PM

Lars F. Bjoerlo (horizonpolaris)

How do we plan to tackle civil unrest, violence and general chaos IF it should occur? (and perhaps escalate rapidly). Is it likely there will be in effect a temporary loss of control? Mass hysteria and mass hysteria can very well be two different worlds of action.

2/20/2022 4:01 PM

Lars F. Bjoerlo (horizonpolaris)

I'm up for a reality test. Sure.

2/20/2022 4:14 PM

Lars F. Bjoerlo (horizonpolaris)

Everybody more or less are in a state of denial to some degree, but which ones are likely to turn violent?

2/20/2022 4:32 PM

Lars F. Bjoerlo (horizonpolaris)

All I'm concerned about for my own part is not making Coachs birthday. I see now the possibility of this dragging out. It doesn't necessarily have any practical implications, but I'm blind here and of course I'm curious about key elements of the operation. I'm used to end up waiting indefinitely. I had really hoped this slope was well enough prepared to be able to issue Coach&I with a birthday guarantee, so to speak..? Could we consider this point in reality as having a mounted position?

2/20/2022 4:51 PM

Lars F. Bjoerlo (horizonpolaris)

Ok - so they will know about me before us as a couple. First objective is calming people and gain trust. Is this fairly accurate?

2/20/2022 4:53 PM

Lars F. Bjoerlo (horizonpolaris)

And you want the dirty work to be done before this happens in any case...

2/20/2022 5:04 PM

Lars F. Bjoerlo (horizonpolaris)

Aaah visual effects for the drama. How could I forget that I'm in bed with half of the industry? *lol*

2/20/2022 5:14 PM

Lars F. Bjoerlo (horizonpolaris)

I'm just thinking of the two of us. The rest will necessarily work out. I can regard the public responsibility part as consisting of mainly constants in this equation. So it's not because I'm selfish that I think of myself. I may grant myself this if everything else is under control and ready to go.

2/20/2022 5:15 PM

Lars F. Bjoerlo (horizonpolaris)

In other words I feel confident and familiar.

2/20/2022 5:22 PM

Lars F. Bjoerlo (horizonpolaris)

BTW: I don't wanna wear a suit. Unformal, common, but distinguishable.

2/20/2022 5:30 PM

Lars F. Bjoerlo (horizonpolaris)

If my appearance just make people think "more of the same" we wouldn't be so good at this, he he :)

2/20/2022 5:39 PM

Lars F. Bjoerlo (horizonpolaris)

Alright I see where you're heading. Thanks either way. Then there's only one major personal concern left: please pray for mum and that she gets to see it. Thanks. Bless you all. <3

2/20/2022 5:42 PM

Lars F. Bjoerlo (horizonpolaris)

Noted. We'll find something suitable to growl about...

2/20/2022 5:44 PM

Lars F. Bjoerlo (horizonpolaris)

Excellent plan. I did actually see that coming. Great location.

2/20/2022 5:47 PM

Lars F. Bjoerlo (horizonpolaris)

Obi-wan's home state, I mean. Need I elaborate more?

2/20/2022 6:06 PM

Lars F. Bjoerlo (horizonpolaris)

I've shed my share of tears in frustration. No way in hell I invest any more emotionally in this particular direction.

2/20/2022 6:06 PM

Lars F. Bjoerlo (horizonpolaris)

...or financially for that matter...

2/20/2022 6:15 PM

Lars F. Bjoerlo (horizonpolaris)

Aaaw you're the cutest. Someone bothered to uncover what "in love" is in Norwegian. Thaz nice :)

2/20/2022 6:16 PM

Lars F. Bjoerlo (horizonpolaris)

Is this where I break the magic of the moment by saying "ditto"?

2/20/2022 6:34 PM

Lars F. Bjoerlo (horizonpolaris)

Under suspicion for torching the infamous library? Could be. Can't rule it out, but we do agree there's an absence of presence in spirit and intelligence. I would still keep that list of suspects open to suggestions :)
Let's not get carried away here, he he :)

2/20/2022 6:37 PM

Lars F. Bjoerlo (horizonpolaris)

Can't always arrive to a set table. That's just the way it is.

2/20/2022 6:40 PM

Lars F. Bjoerlo (horizonpolaris)

One lifetime is a too short memory span in this context. They like bringing us back 150 years. In response we suggest 1500 years back in time. Before the contamination of our genepool had begun.

2/20/2022 6:44 PM

Lars F. Bjoerlo (horizonpolaris)

I saw mr. Blow bringing up in remembrance a 10 year old tragic incident. They take living in the past to new extremes. But now we are collected and coherent enough to make our case. It'll never work. And there is only one solution.

2/20/2022 6:45 PM

Lars F. Bjoerlo (horizonpolaris)

The scam has been widely recognized.

2/20/2022 7:00 PM

Lars F. Bjoerlo (horizonpolaris)

I completely fail to see how the narrative is constructive or even relevant in a case of here and now.

2/20/2022 7:33 PM

Lars F. Bjoerlo (horizonpolaris)

I get greetings all the time from all over the planet. And every now and then something that warms my heart a little extra. Villains and adversaries too. Nice. Great to be together for once with a shared vision.

2/20/2022 7:37 PM

Lars F. Bjoerlo (horizonpolaris)

And not in some stupid trench over here taking bullets and shrapnel for one another.

2/20/2022 8:23 PM

Lars F. Bjoerlo (horizonpolaris)

I associate the word "mint" with @POTUS45. Anyone else agree? I think I know why too. He's father used to say "in mint condition", or something like that... I suppose it's a long shot, but it's in my stream. :)

2/20/2022 9:02 PM

Lars F. Bjoerlo (horizonpolaris)

Hm. Inspiring. Thanks for dropping by.

2/20/2022 9:10 PM

Lars F. Bjoerlo (horizonpolaris)

Can't deny it's a sweet feeling when one causes ideal disturbances and ripples in this reality texture.

2/20/2022 9:10 PM

Lars F. Bjoerlo (horizonpolaris)

..perhaps structure is a better word..

2/20/2022 10:20 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah. Looking back we wouldn't had it any other way, right? I mean these things shape and define us. Makes us who we are. Sure - ignorant, fragile, petty. But also the opposite by breaking free. Free from your own doubts and limitations.

2/20/2022 10:21 PM

Lars F. Bjoerlo (horizonpolaris)

Bold, optimistic and focused.

2/20/2022 10:30 PM

Lars F. Bjoerlo (horizonpolaris)

...and finally: DETERMINED.

2/20/2022 10:37 PM

Lars F. Bjoerlo (horizonpolaris)

We might have our differences, but we all have bought into the same basic idea. In the Land of Individualism, take a moment and sense the unity. Obtain your personal balance. And balance for an individual might not lie at the 50/50 mark in all ways. Know thyself. Both your strengths, but just as important what makes you vulnerable. Try to have a little special attention to the latter. It pays.

2/20/2022 11:20 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah that's the thing: as soon as we kick off against this beast, the train of consequences will be unstoppable. I don't think a figure is appropriate to suggest here in this channel. But it's gonna be an inappropriate figure. That's fair to say.

2/21/2022 12:39 AM

Lars F. Bjoerlo (horizonpolaris)

Imagining one self done and in the other end gives a liberating sensation. Eh, Coachie? You there?

2/21/2022 12:42 AM

Lars F. Bjoerlo (horizonpolaris)

Yes if not in profane words, you may disregard, reject and dismiss all the old mind-games. Irrelevant now. And easily detectable.

2/21/2022 12:44 AM

Lars F. Bjoerlo (horizonpolaris)

And that, Ladies and Gents, is progressive development in a practical example relevant here and now to us all.

2/21/2022 12:49 AM

Lars F. Bjoerlo (horizonpolaris)

Approaching bed nebula at 80% light speed...

2/21/2022 12:53 AM

Lars F. Bjoerlo (horizonpolaris)

Commence sleep. Launch Z's...

2/21/2022 2:02 PM

Lars F. Bjoerlo (horizonpolaris)

"Morning" guys. Monday has been my Sunday since like forever. Thanks to me having workday on Tuesdays and Thursdays usually, this keeps the week not slipping any further. But I try cherishing this day and rest while I do some soul searching. There are several bio-rythms culminating on the 7th day. This only underscores how we are perfectly designed for this habitat. And now we have gotten to the point that we can take charge of our own evolution. This is a liberating day in God's eyes. He's been working hard to get there. I'm not talking to idiots here, but needless to say, when we start rooting out all the diseases, syndromes, perversions etc from our genepool, don't forget that removing something could have effects you haven't foreseen and it might take a long time to detect. Try to avoid this scenario at all cost and always keep a copy of the point of origin every time you branch. Think I'm gonna watch a little more of this Bible-series, but I'll be here..

2/21/2022 2:17 PM

Lars F. Bjoerlo (horizonpolaris)

And guys: This is not a toy. Be reasonably confident it will produce the result you're after. Don't experiment.

2/21/2022 2:20 PM

Lars F. Bjoerlo (horizonpolaris)

You may experiment with plants, bacteria, fungi and virae, but under the strictest possible quarantined conditions.

2/21/2022 2:29 PM

Lars F. Bjoerlo (horizonpolaris)

It's not wise to try to change the fundamental human nature. Like we have 7 mortal sins. You're supposed to learn how to cope with them. And I suppose there's a reason why we spawn psychopaths at a 2% rate roughly. Imagine some Fermi filter or evolutionary bottleneck... All I'm saying is think before you act.

2/21/2022 2:30 PM

Lars F. Bjoerlo (horizonpolaris)

And keep the original.

2/21/2022 2:32 PM

Lars F. Bjoerlo (horizonpolaris)

Needless to say - we don't want to sustain humans forever in the same bodies. That will make hell inevitable. It's just a question of time.

2/21/2022 2:53 PM

Lars F. Bjoerlo (horizonpolaris)

As for animals we need a more complex system of guidelines. I mean, whether we're talking about a jelly-fish or a cat is relevant, right?

2/21/2022 3:06 PM

Lars F. Bjoerlo (horizonpolaris)

And for the simple minded: don't get confused. We are not talking general research guidelines, we are talking about altering the DNA of a natural organism. Traditional medical research is a different story. I sympathize with lab-mice, but rather them than us and they are pretty close to us genetically.

2/21/2022 3:17 PM

Lars F. Bjoerlo (horizonpolaris)

The ultimate point being, when talking of biotech, we don't want human manufactured disasters to nature. Hence the quarantine practices.

2/21/2022 4:21 PM

Lars F. Bjoerlo (horizonpolaris)

One should not be able to patent and own human genes. They are ours collectively, provided by nature for us to administrate as we see fit. The same thing should apply to everything else, but say you could have exclusive rights to something you've made for 5 years or maybe even 10 to cover your R&D costs and secure a healthy profit making it worth while. But in the end it's everybody's progress. I'm not sure how you operate for the time being, but tampering with nature should require authorized companies/institutions to apply for a permit by describing what you intend to do and achieve. The "Biotech-department" in FDA wants to know why and how. You also have to include a risk assessment.

2/21/2022 4:34 PM

Lars F. Bjoerlo (horizonpolaris)

ATTENTION: We don't know yet if virtual DNA exists. If it does it is not going to be physically present for us to discover. Imagine that a base triplet, or even the entire code for some protein, combined with one another gives an imaginary string of information parallell to those you can spot. BEWARE!!!

2/21/2022 5:00 PM

Lars F. Bjoerlo (horizonpolaris)

Madness? Yeah, but if you wanna be gods - do it properly.

2/21/2022 5:13 PM

Lars F. Bjoerlo (horizonpolaris)

I don't like the way we are currently heading with our agriculture and GMO's. Producing sterile seeds in order to make people dependent on your product is a no go. However, it is a splendid security measure during test phases.

2/21/2022 5:15 PM

Lars F. Bjoerlo (horizonpolaris)

Alright. Not gonna ignore Club Luna. I take for granted that you financial acrobats are the best. Could you contribute helping us build ourselves? In that case, welcome on board. :)

2/21/2022 5:22 PM

Lars F. Bjoerlo (horizonpolaris)

Can I trust everybody to be able to spot extremely anti-social ideas from here on?

2/21/2022 5:31 PM

Lars F. Bjoerlo (horizonpolaris)

Economy is a form of nature on its own. The conditions differing life from death can be brutal and we can't expect that it's possible to socialize every aspect in this field. Some will always come and go, but the allover social and moral responsibilities you have should never be completely disregarded in the name of the share-holders.

2/21/2022 6:19 PM

Lars F. Bjoerlo (horizonpolaris)

Yes, please be frank.

2/21/2022 6:42 PM

Lars F. Bjoerlo (horizonpolaris)

We can do this. And now that practically everyone is on board, creating the time we need to sort things out and adapt, is ours to create with our collective will.

2/21/2022 6:45 PM

Lars F. Bjoerlo (horizonpolaris)

(..damn I miss the possibility to edit..)

2/21/2022 6:53 PM

Lars F. Bjoerlo (horizonpolaris)

Nice. Nobody's life should any longer be at high risk.

2/21/2022 7:03 PM

Lars F. Bjoerlo (horizonpolaris)

Again, I'm extremely uncomfortable with judging my fellow man and I really wish everybody the best. God's honest truth.

2/21/2022 7:18 PM

Lars F. Bjoerlo (horizonpolaris)

Have a safe journey then :)

2/21/2022 7:20 PM

Lars F. Bjoerlo (horizonpolaris)

I told you so: "You'd be surprised by what The Man upstairs is capable of forgiving".

2/21/2022 7:23 PM

Lars F. Bjoerlo (horizonpolaris)

It doesn't really have to be all that bad as long as we have each other - the only asset that's gonna get us through rough times.

2/21/2022 7:40 PM

Lars F. Bjoerlo (horizonpolaris)

Sometimes I dream of the future. I hope one day I'll be able to walk down any street and not having to rely on weeks of intelligence gathering and all kinds of resource draining and invasive measures taken. "My life as a golden egg"... Anyway - I've thought this through. I'm making this sacrifice. Period.

2/21/2022 7:49 PM

Lars F. Bjoerlo (horizonpolaris)

As for important thought processes in progress right now, I'm thinking of how to best utilize AI and what and how to legislate. We have effectively imprisoned ourselves in an invisible gridwork of lines, representing some kind of barrier restricting your liberties.

2/21/2022 7:52 PM

Lars F. Bjoerlo (horizonpolaris)

Most of the trouble we're experiencing today is machine made one way or another.

2/21/2022 7:53 PM

Lars F. Bjoerlo (horizonpolaris)

From top down human ideas, but left with AI to decide what to do next.

2/21/2022 7:55 PM

Lars F. Bjoerlo (horizonpolaris)

I see no ability out there to take preventive measures, securing that it won't get any worse. Let's call a timeout.

2/21/2022 8:20 PM

Lars F. Bjoerlo (horizonpolaris)

There are all kinds of hellish visions out there from Orwell's 1984 to Kubrick's 2001 Space Odyssey and so on. Not to mention perhaps one of the most relevant ones today, The Matrix. Anyway everything turns for the worse. We started out bold and optimistic, but all the dark prophecies made have become true. This is the time to share that vision I told you to remind me of some time. In the aftermath of 9/11, around Christmas time, I had my second full blown doomsday psychosis. I have never felt mental agony as extreme at any point since. I saw the Earth covered in metal plating, like panzer. Huge rivets alongside all joints. Chains were wrapped around the world and there were medieval padlocks keeping the chains joined every here and there. There were prisonbars occasionally scattered around the surface and you could hear the screams of the tormented souls come out of there. There were also nails, like the ones used to crucify Jesus Christ, driven through the entire planet and blood was oozing from the wounds. Earth-blood. Being afraid to die while staring into a barrel-type experience is a minor discomfort in comparison. I've had many similar visions like rockets with biological payloads eradicating everyone but me, etc etc

2/21/2022 8:32 PM

Lars F. Bjoerlo (horizonpolaris)

Ok Arnold, you got me. You deserve a mention for the Terminator series ;)

2/21/2022 8:37 PM

Lars F. Bjoerlo (horizonpolaris)

(I know it's technically not your vision, but I don't recall who wrote the script)

2/21/2022 8:38 PM

Lars F. Bjoerlo (horizonpolaris)

(aah Cameron, was it?)

2/21/2022 10:01 PM

Lars F. Bjoerlo (horizonpolaris)

An insider LunaBoyz: Biotech is the new oil.

2/21/2022 10:22 PM

Lars F. Bjoerlo (horizonpolaris)

We've had an amazing day so far. I think I'mma detach for a little while, meaning focus on sound dialogue a bit. If I fall asleep I'll be back around lunch local hours.

2/22/2022 12:20 PM

Lars F. Bjoerlo (horizonpolaris)

Alright guys. Mid day. the 22nd of February. I've had it. I surrender. This altering my actual surroundings-thing is more than I need right now. Besides, it feels like getting bitch-slapped, which also is the intention of the sender. Ok - I'm on it. Again.

2/22/2022 12:24 PM

Lars F. Bjoerlo (horizonpolaris)

No, seriously, by all means, it's not really that negative. I also get the sense that I am indeed very appreciated, so don't get me wrong here. It's the combination of these two notions that makes an impact.

2/22/2022 1:01 PM

Lars F. Bjoerlo (horizonpolaris)

Yes. We said "never again" after ww2. It doesn't get much closer than this.

2/22/2022 1:35 PM

Lars F. Bjoerlo (horizonpolaris)

Uh.. a slightly disharmonic change of subject; there has been mentioned a break as in a holiday being planned by Nix if I got it right. I just want to say that I appreciate any such plan and I don't necessarily need to know everything about it. Surprise me on short notice. :)

2/22/2022 2:32 PM

Lars F. Bjoerlo (horizonpolaris)

I can imagine temperature rising on this thing as the jungle-telegraph works it's way. I don't see any problems with sharing most information. The only thing important to protect is my identity. European guy in his 40s should do if you'd like to share more. Then a little something about what's happening. There are some advantages to having some news gossip in the background - preparing the right people for something shocking.

2/22/2022 2:34 PM

Lars F. Bjoerlo (horizonpolaris)

We're safe in here. For now you couldn't put a price on this simple an cheap security.

2/22/2022 2:36 PM

Lars F. Bjoerlo (horizonpolaris)

I wonder if my girlfriend will show up in my feed today. Long time no see. <3

"Little secrets tremor - turn to quakes. The smallest oceans still get big, big waves"

2/22/2022 3:40 PM

Lars F. Bjoerlo (horizonpolaris)

People should also know that there won't be launched any witch-hunt, although some pagans could find themselves in a squeeze as soon as the voodoo act gets implemented. The witches of Salem are cute, but the legislative text could very well define this practice as "same sh**, different wrapping". However, they don't bother me personally. Remains to be sorted out, really. I'm just mentioning that I see these people.

2/22/2022 3:48 PM

Lars F. Bjoerlo (horizonpolaris)

As for the first amendment and that porn-sensorship, we really want deviant people to feel squeezed.

2/22/2022 3:48 PM

Lars F. Bjoerlo (horizonpolaris)

That gun-issue is not so cool.

2/22/2022 3:49 PM

Lars F. Bjoerlo (horizonpolaris)

But these are the "attacks on the constitution" in total.

2/22/2022 3:50 PM

Lars F. Bjoerlo (horizonpolaris)

I'm sure some will feel this way.

2/22/2022 5:14 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah that's the thing. One shouldn't really need to carry guns in a civilized society, except Alaska. And having a gun increases both the risk of shooting someone and getting shot yourself dramatically.

2/22/2022 5:14 PM

Lars F. Bjoerlo (horizonpolaris)

There's just no way around those simple facts.

2/22/2022 5:16 PM

Lars F. Bjoerlo (horizonpolaris)

"You need a good guy with a gun to stop a bad one with a gun" and "it isn't the gun that kills - it's its operator"

2/22/2022 5:16 PM

Lars F. Bjoerlo (horizonpolaris)

alright. noted. anything else to add to this debate?

2/22/2022 5:22 PM

Lars F. Bjoerlo (horizonpolaris)

I think we have a crazy gun rate here too, but people seem to keep them away or hang them on the walls of their cabins or something. These are the ones that could find their way to some crime by chance when burglarized from someone's property, but this hasn't been a significant problem. Guns usually don't end up in the streets. And shooting someone here is really stupid, because the likelihood of getting away with it is very remote.

2/22/2022 5:30 PM

Lars F. Bjoerlo (horizonpolaris)

I can think of two gun crimes that never got solved from the top of my head and they were both Mossad-jobs. That's actually hilarious. Anyway, in one case they got the wrong guy.

2/22/2022 5:37 PM

Lars F. Bjoerlo (horizonpolaris)

..and the second guy is still alive.

2/22/2022 5:38 PM

Lars F. Bjoerlo (horizonpolaris)

I've seen Mossad perform better, to put it mildly. *lol*

2/22/2022 5:42 PM

Lars F. Bjoerlo (horizonpolaris)

We call this "gallow-humor", the morbid sense of irony very often...

2/22/2022 5:43 PM

Lars F. Bjoerlo (horizonpolaris)

I'm sure it wasn't so fun for William.

2/22/2022 5:49 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah. The working theory is that they tried to pop him in order to blame it on Iran. He was responsible for publishing a piece of work for Salman Rushdie. This made Khomeini fatwah him. The Israeli probably got opportunistic and took advantage.

2/22/2022 5:51 PM

Lars F. Bjoerlo (horizonpolaris)

Mr. Nygaard wore a vest that day. .357 I think. all the rounds.

2/22/2022 6:13 PM

Lars F. Bjoerlo (horizonpolaris)

I think I can relate to the fascination and even passion that some have to their firearms. There's not really anything wrong with that in itself. The problem isn't on a gun-range.

2/22/2022 6:17 PM

Lars F. Bjoerlo (horizonpolaris)

The core issue is that the right to bear arms would not only protect you when no law enforcement around for a 1000 miles, it would also protect you the day law enforcement becomes the problem.

2/22/2022 7:07 PM

Lars F. Bjoerlo (horizonpolaris)

These guys, the founders, they had seen most. They were anything but stupid. There's a well founded reason why they would fear their own creation. Seeing this coming they took a preventive measure.

2/22/2022 7:09 PM

Lars F. Bjoerlo (horizonpolaris)

Question is: what about 200 years from now? What if we find ourselves right back where we started?

2/22/2022 7:11 PM

Lars F. Bjoerlo (horizonpolaris)

I don't know about you guys, but I plan to make this peace permanent. And 200 years from now guns could be absurd. Can we know this won't happen again?

2/22/2022 7:14 PM

Lars F. Bjoerlo (horizonpolaris)

Getting rid of the problem and updating people on reality should create the necessary trust that you'll be able to run an ordinary democracy again.

2/22/2022 7:17 PM

Lars F. Bjoerlo (horizonpolaris)

We are addressing this problem with an appropriate approach. And we would never abuse our positions or let you down in secret. If anything has to ever change; this is the time to do it and do it well.

2/23/2022 12:35 PM

Lars F. Bjoerlo (horizonpolaris)

Early asleep last night. It's not other people's fault that I do my drugs, but let's just agree that the never ending nagging doesn't exactly help either. This place sucks, but at least the weather is nice today. Going out on my bike.

2/23/2022 6:01 PM

Lars F. Bjoerlo (horizonpolaris)

In Oslo. Dinner with dad day today instead of tomorrow...

2/23/2022 9:21 PM

Lars F. Bjoerlo (horizonpolaris)

Home. Don't feel well. You know why. Going to bed soon.

2/23/2022 9:27 PM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. Thanks for the #orchid 🍷

2/25/2022 7:20 PM

Lars F. Bjoerlo (horizonpolaris)

Hepp hepp. I'm alive but with no stream at the moment. Haven't restarted in weeks. Gotta save my work. Other than that, I have a printer to install and a cake to bake. I'm probably busy here until tomorrow..

2/25/2022 9:55 PM

Lars F. Bjoerlo (horizonpolaris)

Biden's problem is that he lacks credibility in all foreign affairs. Any president would be a leader of a deeply divided country with its democracy in disarray. With that said I don't see why Russia would make this unpopular move. I have a feeling it's a strategy to buy time. Either way what we see now is by far the entire picture.

2/26/2022 2:26 AM

Lars F. Bjoerlo (horizonpolaris)

Exactly. The sanctions and everything have been taken into account. Someone have agreed to this "investment" because it'll serve some purpose worth the stakes. Or what?

2/26/2022 3:32 PM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. Thinking of you...

2/27/2022 12:26 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. Sunday. Not so talkative due to lack of endorphines. Will settle eventually. Hope you're ok.

2/27/2022 2:36 PM

Lars F. Bjoerlo (horizonpolaris)

No, by no means no regrets. I know my mind and my heart well. Not getting out of balance just because reality feels different with no drugs.

2/27/2022 2:38 PM

Lars F. Bjoerlo (horizonpolaris)

I'mma go out in the sun.

2/27/2022 2:44 PM

Lars F. Bjoerlo (horizonpolaris)

Let's just say that this AI can do a lot of things you wouldn't guess, like keep an eye on your vitals. I've been warned and I'm trying to take it seriously. Still one day at a time and being completely without just isn't a realistic alternative while being here. Trying the medical approach again. All I can think of right now. I wanna live to see this. I wanna be reasonably sure before going. And I need to meet up with my soulmate who spent all these years in silence.

2/27/2022 2:47 PM

Lars F. Bjoerlo (horizonpolaris)

It's beginning to dawn on me how close I've been this time..

2/28/2022 1:13 PM

Lars F. Bjoerlo (horizonpolaris)

My Sunday, remember?

2/28/2022 1:16 PM

Lars F. Bjoerlo (horizonpolaris)

Watching "Emily in Paris". I don't know why. I suppose I am becoming an old pig who likes watching the younger ones and imagine I was 20 years back too. Fairly innocent daydreaming though. I also saw "Jane the virgin". I think I liked Jane better, he he :)

2/28/2022 1:19 PM

Lars F. Bjoerlo (horizonpolaris)

And you guys? You up to?

2/28/2022 1:20 PM

Lars F. Bjoerlo (horizonpolaris)

This girl is so skinny. I suppose some are, but...

2/28/2022 1:22 PM

Lars F. Bjoerlo (horizonpolaris)

Probably just me stereotyping, but aren't skinny girls like excessively nervous all the time?

2/28/2022 2:09 PM

Lars F. Bjoerlo (horizonpolaris)

Then again, Taylor Swift is skinny but not in particular nervous..

2/28/2022 9:20 PM

Lars F. Bjoerlo (horizonpolaris)

Hello. Wish you were here babe..

2/28/2022 9:31 PM

Lars F. Bjoerlo (horizonpolaris)

I just wanna get going you know. I sincerely hope our plan sticks.

2/28/2022 9:34 PM

Lars F. Bjoerlo (horizonpolaris)

I really miss having quality time. I think I had forgotten the concept. Now I think of us that way all the time.

2/28/2022 9:48 PM

Lars F. Bjoerlo (horizonpolaris)

Looking forward to be able to tweet the stuff I think about. And to get some response, like replies...

2/28/2022 9:52 PM

Lars F. Bjoerlo (horizonpolaris)

I can't see what's Putins endgame here, but I never doubted his ability to make it real. What we should do about it, without having a clue what this is really about, is not jump to conclusions and not make it worse.

2/28/2022 9:57 PM

Lars F. Bjoerlo (horizonpolaris)

We know he's not alone and we know an invasion would happen regardless. The question is why. I'm still thinking that it's for the noise itself. For some reason he seems to be in need of being in the spotlight right now. God knows what else is happening around the stage..

2/28/2022 10:02 PM

Lars F. Bjoerlo (horizonpolaris)

Evidently it's worth both sanctions and bad pr.

2/28/2022 10:05 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway, I was trying to express some romance here. Not so valuable to everybody else though..

2/28/2022 10:10 PM

;)

3/1/2022 2:23 AM

on the other hand it could be wise not to reveal that we're keeping multiple perspectives and where leads go. They should assume we're capable f having two thoughts at once, but they shouldn't know until it's time to show your hands.

3/2/2022 1:05 PM

Lars F. Bjoerlo (horizonpolaris)

I checked out Biden's address to the union. You could get a pretty positive vibe from it. I've been thinking every time Joe goes on and on enthusiastically how "great" everything is. Tell me Joe, what's greater; great or tremendous? He he. Alright. A sense that there are always people worse off than us. Some genuine solidarity.

This picture in particular has a calming effect. I have like 50 pictures in 1920x1080. It's not like there's a lack of images around, but truth be told: I don't Google people. Not myself either.

3/2/2022 7:13 PM

It's weird, but I kept you, or the memory of you on a pedestal for no obvious reason. I just couldn't let go of what I thought we had.

Come to think of it - I should really keep a picture of your infamous rear end. After all, that's the part I met first ;D *lol*

For now, just a philosophical question; could anyone be interested in buying this chat? I've kinda decided that I want to publish at least one piece of work the old way before I perish. The sh** part of it has been evident for awoken people for quite some time. Since long before I came into this world. We live today for the result of tomorrow. Nothing new here, except

hope. Well founded hope anchored in science we have known for centuries. That's protection you can wear facing the hardships ahead.

3/3/2022 11:33 PM

...manana that is..

3/3/2022 11:42 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah - this planet is a death-trap no matter how you look at an extinction scenario. Nobody in their right mind have dared to believe someone would or could rise to the occasion. Now that we're together for a limited amount of time - let's make it count!

3/3/2022 11:49 PM

Lars F. Bjoerlo (horizonpolaris)

What I can get out of the scripture, specifically "Revelations", is that in between the lines describing the End of Days, there is a subtle yet distinct hope emerging from all these horrible visions. The hope rests solely on humanity's God given free will. We have a choice here.

3/3/2022 11:54 PM

Lars F. Bjoerlo (horizonpolaris)

This is good news basically when you have taken some time to think it over. The way it should be. And there is no such thing as a free meal in this reality. We need goals and directions to get there, but we are able to. Bottom line - a collective responsibility that transcends national borders.

3/4/2022 12:19 AM

Lars F. Bjoerlo (horizonpolaris)

It's only common sense. God can be completely removed from this equation without changes to all known parameters. Right now it doesn't matter in practical terms whether you believe or not. However, I have reason to believe people's relationship to our God will improve and become more important over time once we have solved the imminent priorities necessary to secure our survival. It'll work out. Just give it some time. Inevitability in the long run, because we're gonna remain here for a long time to come and left to reflect upon what we are becoming increasingly by the day.

3/4/2022 1:58 AM

Lars F. Bjoerlo (horizonpolaris)

Watching a program on Gaia about economy..

3/4/2022 1:37 PM

Lars F. Bjoerlo (horizonpolaris)

As I recall from the 2013 Europe Field Trip that I worked on establishing some kind of understanding and mutual respect. I remember him being dismissive because of my mental health status. To me it looks like our roles are reversed. The tables have turned. Now he is clearly not thinking straight, not even when considering Putin is Putin. If he really has lost his ability to be rational, he's already operating on borrowed time. However, he has a trick up his sleeve if everything fails with his own people; The Russian constitution states that the

president may dissolve the Duma at his own will (as the only "democracy" in the world to have such a possibility through the constitution).

3/4/2022 1:59 PM

Lars F. Bjoerlo (horizonpolaris)

We are observing madness in action these days. But as far as American vs Russian logics go, these two kinds of madness are very different in it's composition. This is due to cultural differences in terms of what's expected and accepted by the majority of opinion. When talking about huge egos, for example, in Russia this is both legitimate reason and also considered important, like essential. Here in the west we understand that letting your ego eclipse everything else is not an acceptable psychology in any serious debate. When saying I'm impressed by Biden's speech I left out that my angle was wearing American glasses. Certain things are expected to come from a president's mouth and served in a certain manner in order to resonate properly with as many as possible. This in itself invites denial to manifest allover. So - good speech in terms of mastering the techniques required to appeal to American citizens specifically. Crazy if considering all that's unsaid in today's western politics and also when observing that playing on these particular strings actually counts more than what's actually being said.

3/4/2022 2:07 PM

Lars F. Bjoerlo (horizonpolaris)

In order to be able to keep a large ego in American politics, one has to disguise it as something else being the motivation for a given action/statement. Even @POTUS45 gets this instinctively. This way we are more likely to accept and be persuaded to believe. Others may watch in horror because they're not convinced by poorly hidden egos that easily.

3/4/2022 2:35 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I know this job is dangerous even though I'm not really threatening anyone. I wouldn't be as harsh towards Vladi in public because it would be counter productive and besides enough people have that role already. I'm supposed to be about finding solutions in absurd environments. Just a tool, so to speak - not a weapon necessarily.

3/4/2022 2:39 PM

Lars F. Bjoerlo (horizonpolaris)

Feeling threatened by me is in fact irrational. I can't expect everyone to be rational about what this is and what it isn't. If 1% wants me dead and gone - that would constitute some 75 million potentially lethal threats to my own life. I can't afford not to take this seriously.

3/4/2022 2:57 PM

Lars F. Bjoerlo (horizonpolaris)

As for the congresswoman who spoke out calling for a political assassination of Putin, she has obviously not thought that idea through properly before making it an issue in broad daylight. That's very American, by the way; murder as the first solution that pops into mind. Sorry milady, no can do. You would necessarily have to make an effort to get rid of someone. By the time you start evaluating ways of getting people removed, you have embarked on a backwards trail. You must try to understand. As an elected official you owe it to your constituents to keep it clean while pursuing other ways of reaching some understanding or agreement. Make up your mind in advance - back or forth?

3/4/2022 3:01 PM

Lars F. Bjoerlo (horizonpolaris)

It took a considerable amount of time in simulation before I stopped ordering or suggesting murders to be carried out because of some strategic reason. That is just not happening on my watch. Comprende?

3/4/2022 3:14 PM

Lars F. Bjoerlo (horizonpolaris)

Rule number X: If you want someone gone - fix it with your own two hands or don't bother.

3/4/2022 4:50 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah yeah I promise not to kill anyone. I know that I'm perfectly able, but this principle is really worth keeping. My credibility relies upon it.

3/4/2022 4:56 PM

Lars F. Bjoerlo (horizonpolaris)

Nobody should engage in this clear attempt to make any excuse be good enough to let hell break lose. With that said; can you really afford all that focus on something else than your domestic situation? Should be a reasonable question...

3/4/2022 6:37 PM

Lars F. Bjoerlo (horizonpolaris)

This secret little microproject here is first and foremost a crash course in first aid measures. It should not deviate from this focus at least. Other than that practicing what you preach is very basic common sense. Ought to be anyway.

3/4/2022 7:02 PM

My integrity is all the currency I actually have in my two hands. I know what that is and to me it is extremely precious. All I did't lose, not even in the sickest times. I know from experience how much people appreciate not having to worry about fundamentals in our relationship. You will know that I won't hunt you down and I will settle my debt as agreed upon. If there's gonna be trouble, I'm gonna make damn sure it ain' me.

Hey I'm here. Been to Sweden. Just relaxing. No plans.

Lars F. Bjoerlo (horizonpolaris)

Hey guys.Hope your Sunday is good. Sun is shining here. Going out soon. Dinner at mum's. :)

3/6/2022 11:15 PM

Lars F. Bjoerlo (horizonpolaris)

About to go to bed... Nite. :)

3/7/2022 1:22 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. My Sunday. Kinda restless. Watching Gaia. This stuff is far out. Right now watching some classic conspiracy theory rant. It does happen that these productions yet still have useful info.

3/7/2022 1:29 PM

Lars F. Bjoerlo (horizonpolaris)

All this fear mongering. I think it would be weird if any society didn't have an elite. Even communists do. You would always keep a list over your most resourceful individuals, wouldn't you? Why this should make me scared beats me. In addition they clearly want me to consider anyone with a global agenda as mad and/or evil by default.

3/7/2022 1:48 PM

Lars F. Bjoerlo (horizonpolaris)

And if there wasn't any central plan made by WHO, the UN wouldn't have any purpose at all. Everybody have seen overpopulation as inevitable. From a biological viewpoint billions would necessarily die in order to obtain sustainability to those left alive. Not surprisingly, the hopelessness and the really large numbers are first and foremost covered by those already being poorest - left with no chance. It might seem unfair, but in terms of natural selection they are deadweight to everybody that can sustain themselves and can afford to bring children into this world. Last time I checked, having children isn't a human right. At least not yet.

3/7/2022 2:03 PM

Lars F. Bjoerlo (horizonpolaris)

The natural forces we are subjected to aren't compatible with our idea of majority of the population ruling. Presidents come and go. The really powerful ones, that never gets elected or voted for, are here for life and have been, in some cases, on top for centuries. These people can't expect to disregard the fact that they are the only ones who can make some sort of continuity and coherency in terms of long term planning on behalf of everybody. Human nature as we know it will necessarily order it so. This could be the road to hell, but also the opposite. Our ticket home.

3/7/2022 2:47 PM

Lars F. Bjoerlo (horizonpolaris)

Given the fact that your workplace doesn't practice democratic models, it shouldn't come as a surprise that we will always have power structures outside of what we perceive as democratic. It is what it is - not necessarily evil in nature.

3/7/2022 3:54 PM

Lars F. Bjoerlo (horizonpolaris)

It's too late in the sense that we can't avoid genocide one way or the other. That's only because we never achieved a unified understanding of procreation. The Chinese have had their turn with one-child policy. We have to be able to adjust to these things. Even if it's not in particular fun or correct politically. We have billions in misery all over the planet and they keep giving birth to new lives of misery. We have to break this cycle and buying them all into heaven is not a rational thing to do.

3/7/2022 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

This pit is truly without bottom. In a new world a solid ground floor is desired. There would still be classes and possibilities to move up or down the ladder. The distance from bottom up should seem reasonable. Let's say a minimum wager represents 1st floor to which there are certain minimum standards, thus a solid floor. Homeless people or slums should be of the past. Furthermore imagine the vast majority of people would be within a maximum of 6x the minimum level. It's an idea in the rough, but picturing a redistribution of wealth within an already simple and sustainable model is a desired long term effect. It means the days of astronomical bonuses etc are over, but from the losers point of view a new world of possibilities should open as people in general will be given a rise into becoming interesting resources in society. Everybody would carry a real sense of equality - at least in terms of self-achievement. And then there will always be the ones who can acquire a "Bugatti Veyron", live in castles and so on, but like today this would be exceptions. Some people inherit, others may get lucky. The exception should nevertheless still be possible.

3/7/2022 6:55 PM

Lars F. Bjoerlo (horizonpolaris)

My thinking is like: if you're going on a killing spree, make sure it's the right people first and foremost who leave us. Even though pandemics are the most efficient killer, we have a random aspect that is everything but comfortable to be responsible for. But most importantly: war is of no use in this respect. A million soldiers take a very long time to exhaust and you obliterate valuable infrastructure in the process. We don't need that. The "shoot thy neighbor"

would be the quickest and by far the easiest way. No matter how you twist and turn this you are only left with little appealing options.

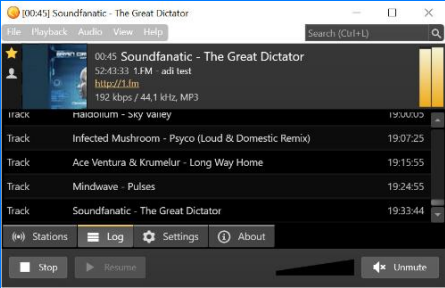

3/7/2022 6:57 PM

Lars F. Bjoerlo (horizonpolaris)

This really sucks, but doesn't make the problem any less real.

Lars F. Bjoerlo (horizonpolaris)

Yeah we have been discussing this in session before. We agreed that under the circumstances makes sense with thermonuclear charges in the densest, darkest places we have. It can be considered relatively humane and hygienic. This topic really disgusts me. I can't stand being in this landscape more than a little at a time.

3/8/2022 6:07 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Been busy at work. Now doing some pc stuff.

3/8/2022 6:08 PM

Lars F. Bjoerlo (horizonpolaris)

Darn btw, Karl Rove has followed me for some 12 years, but not anymore. Wonder what made him unfollow...?

3/8/2022 9:24 PM

Lars F. Bjoerlo (horizonpolaris)

I just fought my way to a new identity on wordpress. I wanna start using it soon..

I already own a domain, but I'm not putting it to use just yet. For now I'll be operating with <https://t.co/ot6Fwj0REL>

3/8/2022 9:35 PM

Lars F. Bjoerlo (horizonpolaris)

Only important thing is to start somewhere. I can upgrade, build a site and change url later. For now this anonymous free version will provide me with a way of publishing while laying low waiting for you guys...

3/8/2022 10:44 PM

Lars F. Bjoerlo (horizonpolaris)

Wish you were here babe..

3/9/2022 5:51 PM

Lars F. Bjoerlo (horizonpolaris)

Hey. Tired. Thinking about the opening entry for that new site. I'm thinking the press on board next. Start out not using names on me nor Coach. As demand for information increases, we'll give it to them.

3/9/2022 10:26 PM

Lars F. Bjoerlo (horizonpolaris)

I'm out. Today I have actually missed female companionship. I don't get that a lot. I think my psyche is preparing..

3/9/2022 10:33 PM

Lars F. Bjoerlo (horizonpolaris)

Seriously babe - I'm starting to connect with the future. The idea of being multiple realities together under one roof is very strange. What I would call a healthy challenge :)

3/10/2022 12:56 PM

Lars F. Bjoerlo (horizonpolaris)

My boss left and the other guy is home sick. I'm just sitting here watching twitter to the left and news to the right. I should be writing my opening entry, but for some reason I never write here or watch news at home.

3/10/2022 4:50 PM

Lars F. Bjoerlo (horizonpolaris)

I'm back in tears like this morning. Gotta snap out of it. Dinner at my neighbor's soon.

3/11/2022 2:15 PM

Lars F. Bjoerlo (horizonpolaris)

Babetibabe? I'm here. Had an appointment with an old classmate today, but she had to drive her kid somewhere. Hundred questions about drugs for the weekend. I suppose I'm getting some, but for now, not so much...

3/11/2022 2:16 PM

Lars F. Bjoerlo (horizonpolaris)

...and did I mention that I love you today?

3/11/2022 2:17 PM

Lars F. Bjoerlo (horizonpolaris)

I do. God's honest truth. Scout's honor and so on... :*

3/11/2022 2:22 PM

Lars F. Bjoerlo (horizonpolaris)

BTW I think I found my entry-angle for the first piece. Conspiracy theories are up first. Quickest way to the core. However, the fact that this will start up one of these days doesn't mean I will send links everywhere at once. It could be we need some more time. Anyway - distributing this is your job, right? What I'm saying is that neither my nor your name should be the sender.

3/11/2022 2:28 PM

Lars F. Bjoerlo (horizonpolaris)

He he. Bella bambina. :)

3/11/2022 3:22 PM

Lars F. Bjoerlo (horizonpolaris)

It's not literally hundreds of course. It's just that the nag is on repeat with everybody. Right now it's been a few days and I'm listening to a conversation between the cells in my body:

3/11/2022 3:23 PM

Lars F. Bjoerlo (horizonpolaris)

"Oh -great! He hasn't taken any more poison in a while."

3/11/2022 3:24 PM

Lars F. Bjoerlo (horizonpolaris)

"Yeah - get rid of as much water as you can guys - and fast"

3/11/2022 3:24 PM

Lars F. Bjoerlo (horizonpolaris)

"Can someone tell this moron to drink even more water?"

3/11/2022 9:25 PM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. I saw your video. Not exactly my genre, as you probably know, but it looks like you're having a lot of fun making it. Heh - here we go - like I've been saying, I never had any particular relationship to her artist-self. We've more or less been doing these things together. I think it's cool though - that fate had connected us from long before any of us knew. :)

3/11/2022 9:29 PM

Lars F. Bjoerlo (horizonpolaris)

I didn't feel like answering any of Jacobi's questions today. I'm not worried that we would be stupid enough to create a world war of the Ukrainian situation.

Lars F. Bjoerlo (horizonpolaris)

Hey everyone and good evening. I'm sitting here almost useless, he he. I'm still thinking about an intro.

3/12/2022 7:46 PM
Lars F. Bjoerlo (horizonpolaris)

While I figur it out there might be a number of other things to do.

3/12/2022 8:53 PM
Lars F. Bjoerlo (horizonpolaris)

Hmmm. I don't even have a title yet. It has to be self explanatory without being pompous, tacky or whatever. I want it spot on. Full throttle from the heading down.

3/13/2022 5:28 PM
Lars F. Bjoerlo (horizonpolaris)

Hello. I'm baking a cake. I have about 500 words. Still no title...

3/13/2022 7:58 PM
Lars F. Bjoerlo (horizonpolaris)

Had dinner. Watching Ozark. The Byrds are so going to burn, he he. They're absolutely despicable. Still is a quality show though...

3/13/2022 8:04 PM
Lars F. Bjoerlo (horizonpolaris)

For now there are no deadlines. This is supposed to be nice, so I'm just taking my time. I am indeed looking forward to watch everything come alive. It has to be completely

brehtaking. Ridiculously large wheels in motion. Take a moment to absorb the spectacle. Truly unimaginable. If we do our thing right, we can keep people calm and collected throughout this experience. It's gonna be a blast for everyone.

3/14/2022 4:52 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Lars-Sunday today. There are two things that could stress me today: getting drugs to keep me awake and finishing the piece I'm working on. Not gonna let any of them actually create stress. What are you guys up to?

3/14/2022 4:53 PM

Lars F. Bjoerlo (horizonpolaris)

Watching Gordon Ramsey making "mole". Thinking I should maybe roll a joint.

3/14/2022 4:54 PM

3/14/2022 6:17 PM

Lars F. Bjoerlo (horizonpolaris)

I think I'm done. 1300 words. Completely different from what I had in mind, but that usually means I'm getting there. :)

3/14/2022 6:34 PM

Lars F. Bjoerlo (horizonpolaris)

I'mma post it. Right now groceries and then read it once. Say an hour or so? :)

Hey guys. Gonna be fairly busy today cleaning this place up. I'm sorta building next piece for the blog.

3/17/2022 1:07 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. I'm completely green here. I have all the software I need and more, but I have never created a database or set up a server. Now I have an app running on the NAS, but I just gotta figure out how to get from my local network here to internet. I also have books. Just too lazy to read.. :/

3/17/2022 1:10 PM

Lars F. Bjoerlo (horizonpolaris)

It's about time I learn some elementary networking skills... Something tells me I'm gonna need it often.

3/17/2022 1:15 PM

Lars F. Bjoerlo (horizonpolaris)

I don't care about the visual stuff. I need to understand how this works. Trying a version of Adobe Dreamweaver

3/17/2022 10:58 PM

Lars F. Bjoerlo (horizonpolaris)

Babe..? You ok?

3/18/2022 5:35 AM

Lars F. Bjoerlo (horizonpolaris)

<http://wordpress.com>
I'm doing an all-nighter. Writing next entry. But while checking out my options on the wordpress platform, I am trying different plugins, I'm in particular interested in hosting a classic chat functionality. Then there's the <https://t.co/uaJNn7Fyuj> or *.org issue. I think only *.org supports the features I want. I gotta read some. I'm looking to self host which is more complicated. Either way, I can't avoid costs. Almost all extra functionality requires a "premium" solution.... The good news is that I think I get how I should proceed more or less. I'm too impatient to read the "WP for dummies". We're talking 850 pages.

3/18/2022 5:45 AM

Lars F. Bjoerlo (horizonpolaris)

I was just thinking my girl might take interest in such a chatting solution... Miss you hon....

3/18/2022 1:24 PM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. I want home.

3/18/2022 1:26 PM
Lars F. Bjoerlo (horizonpolaris)

I have 1200 words on my second piece here. Not quite done yet.

3/18/2022 1:40 PM
Lars F. Bjoerlo (horizonpolaris)

Observant and talkative? It's true I've been emptying the SD card in my Handycam as well as a couple of TB hard drives. Have a huge reorganization of data ahead. Which reminds me I should go to work and retrieve some cat6 rj45 cable for my network hardware reconfiguration and upgrade.

3/18/2022 1:44 PM
Lars F. Bjoerlo (horizonpolaris)

It's kinda embarrassing. I sure have acquired my share of pornography over the last handful of years. It does by no means reflect my actual interest in such material. I just collect stuff and keep it around on a loose hard drive or on a network storage resource.

3/18/2022 1:46 PM
Lars F. Bjoerlo (horizonpolaris)

Absolutely everything that is not rated xxx is cool data to be in possession of. Useful and or interesting.

3/18/2022 1:50 PM
Lars F. Bjoerlo (horizonpolaris)

I never Google or surf around. That's asking for trouble. I steal what I can get my hands on. When it comes to useful data I "take pride" in my efforts to crack the software without downloading and running malicious code by accident.

3/18/2022 1:52 PM
Lars F. Bjoerlo (horizonpolaris)

I can count on one hand the licenses I've purchased legally the last 20 years or so. Not exactly to be proud of, but I think I'm addicted to the process of finding the best crack there is.

3/18/2022 1:58 PM
Lars F. Bjoerlo (horizonpolaris)

But, yeah, the camera... I bought a new phone here two months ago. I have downloaded a bunch of paid apps and many for the camera/editing. Maybe I should give it a try. Ideally I could merge files from both cameras. Hmmm. Interesting project for the day my new site actually needs some new contents.

3/18/2022 2:02 PM
Lars F. Bjoerlo (horizonpolaris)

I wonder what kind of sound system Jenny has at home...? I'm sitting here pushing the limits of my soundbar. :)

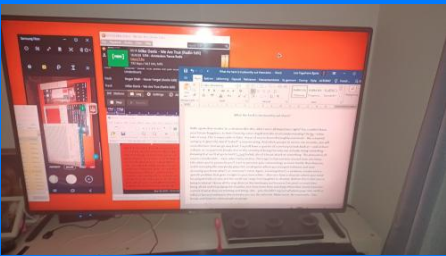

3/18/2022 7:36 PM
Lars F. Bjoerlo (horizonpolaris)

Good evening. I feel an urge to post, but I have more to say in the current context. I have to say that I'm very motivated by your elation.

3/18/2022 7:41 PM
Lars F. Bjoerlo (horizonpolaris)

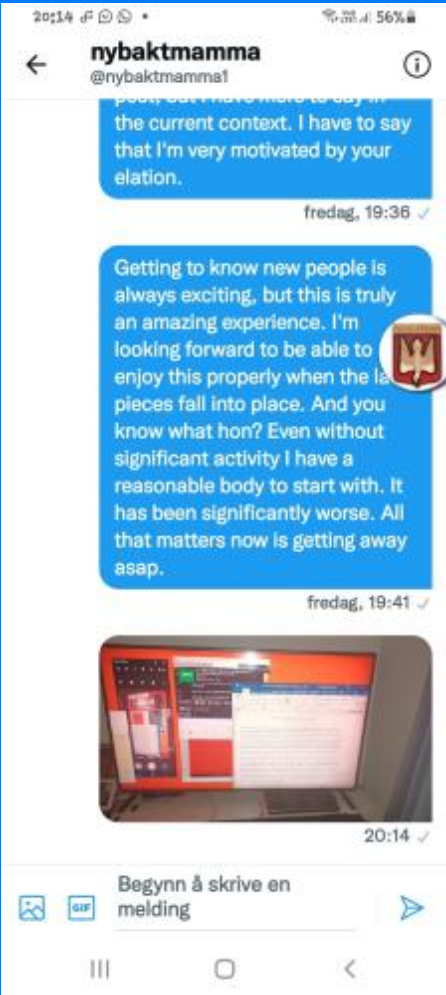

Getting to know new people is always exciting, but this is truly an amazing experience. I'm looking forward to be able to enjoy this properly when the last pieces fall into place. And you know what hon? Even without significant activity I have a reasonable body to start with. It has been significantly worse. All that matters now is getting away asap.

Hey guys. I'm simply not so good these days, but I am here. I'm not sure what I'll be able to do today..

3/23/2022 3:16 PM

Lars F. Bjoerlo (horizonpolaris)

I just wish I had circumstances allowing me to take the most important issue head on. This state is no good and needless to say it's a drag. There's nothing else in the way of happiness as far as I can see...

3/23/2022 3:51 PM

Lars F. Bjoerlo (horizonpolaris)

You guys seem happy though ;)

3/23/2022 8:37 PM

:D

3/23/2022 11:14 PM

Lars F. Bjoerlo (horizonpolaris)

I could use an understanding of V's objective - and I'm not interested in taking a soviet propagandist answer for an answer. I wanna know what's on his mind and who the rest of them are.

3/23/2022 11:45 PM

Lars F. Bjoerlo (horizonpolaris)

The so-called pressure is just as much an illusion as it's real - in the sense that you generate this pressure for the most completely by yourself. It's not that I'm a cold person by nature, but sometimes while watching some political drama unfold, I get this distinct notion of watching bacteria in a petri-dish through a microscope. What I'm saying is that what happens now in the east is a test of some kind - most likely a multi-purpose scheme. Or has he just lost it? I'm reluctant to think he is mad at this point. Someone has to be able to get some sense out of this man.

3/24/2022 12:11 AM

Lars F. Bjoerlo (horizonpolaris)

I agree that it appears insane. That's why I find it less likely to be the reason.

3/24/2022 12:22 AM

Lars F. Bjoerlo (horizonpolaris)

And all those standard cold war of the 80's explanations for what's going on - I don't buy any of it. From their perspective you outsiders are just suckers anyway. Honestly, this offends me. Insults my intelligence. Not that I'm usually taking myself so extremely serious that I can't take a joke at my cost, etc, but this is low and insulting and offensive in all possible ways. Can't you guys sense the contempt within the message here?

3/24/2022 12:30 AM

Lars F. Bjoerlo (horizonpolaris)

I mean, obviously he's agitating a lot of people and make sure everybody's properly tuned in to the petri-dish close-up show. And he knows it's despicable. I can't imagine that he's unaware.

3/24/2022 12:39 AM

Lars F. Bjoerlo (horizonpolaris)

Being evil just to be evil isn't rational. Besides - you can't get sponsors wit such an agenda.

3/24/2022 1:07 AM

Lars F. Bjoerlo (horizonpolaris)

Ok so you share my worries in the terms of all this attention. Like I've been saying; you can count on him counting on this.

3/24/2022 3:47 PM

Lars F. Bjoerlo (horizonpolaris)

I see yesterday's conversation kept you up. Needless to say, I'm not in particular impressed by POTUS in this context. What some congressman may say and what the President and his VP say are two different things. I'm concerned the Chief might have done more damage while taking over the NATO-secretary's job instead of minding his own business.

3/24/2022 3:57 PM

Lars F. Bjoerlo (horizonpolaris)

I mean, governing to look good in polls isn't a great strategy for actually making real politics. What I'm seeing is a lot of solo-statements being made. No centralized party-policy system or debate dictates the leadership in a clear way. From outside it's chaos where some characters obviously are more into promoting themselves by any or all means.

3/24/2022 4:02 PM

Lars F. Bjoerlo (horizonpolaris)

I can very well appreciate the psychology here, but we're free to be better. By consciously choose which cases to promote at all times. Had we been doing any of this correctly, we would have had a completely different political landscape and a more real debate.

3/24/2022 5:05 PM

Lars F. Bjoerlo (horizonpolaris)

Thank you Coach I miss you. Please hurry dear... :/

3/25/2022 12:33 AM

Lars F. Bjoerlo (horizonpolaris)

I need to sleep. I picture being with you guys this weekend. And write some...

3/25/2022 12:37 AM

Lars F. Bjoerlo (horizonpolaris)

Thanks. See you around :)

3/25/2022 6:32 PM

Lars F. Bjoerlo (horizonpolaris)

Good evening guys. I see the discussion continues in my feed and that we all share the same experience. What's to come is inevitable.

3/25/2022 6:34 PM

Lars F. Bjoerlo (horizonpolaris)

Which is worse; reckless or stupid?

3/25/2022 6:52 PM

Lars F. Bjoerlo (horizonpolaris)

It's basically just two sides to the same coin the way I see it.

3/25/2022 6:56 PM

Lars F. Bjoerlo (horizonpolaris)

"The Observer Effect" was a good one. That's what we're watching. It doesn't look good. You guys are usually picky about looking your best. No way to hide the current situation. I'd say the cat's out of the bag. He's a clown.

3/25/2022 7:02 PM

Lars F. Bjoerlo (horizonpolaris)

I mean, today he's in Poland. What ultimately does he think he will be able to change for the better for these people? It should be obvious that there's nothing to gain but publicity. Besides, looking back a couple of decades - this is not the time to play world police. My best bet is that this hypocrisy is what bothers Mr. Putin most about our ways in the west.

3/25/2022 7:07 PM

Lars F. Bjoerlo (horizonpolaris)

When you think of it we have double standards for just about anything and everything.

3/25/2022 7:33 PM

Lars F. Bjoerlo (horizonpolaris)

And we also have an urge to turn other people into our culture and belief-system. The Chinese, for example, don't have a superior approach to everything. Still we are taught about the coming clash of the titans. Who to fear next and why. I mean seriously - get otta here!

3/25/2022 7:39 PM

Lars F. Bjoerlo (horizonpolaris)

The USA is dependent on having an enemy at all times. Your economy and your spending relies on rallying a mob of allies and sell your reality to them as well as your own people. What you really need to do is figure out how to survive without having pipelines into every armed conflict on Earth.

3/25/2022 10:44 PM

Lars F. Bjoerlo (horizonpolaris)

About my current conversation on WhatsApp: that guy I'd like to make an exception from the "no killing" rule. And while we're at it: the two assholes from Berlin. Coach knows exactly who. "OOOoops I did it again"... Anyway - that's how I feel about them dogs. Regret to say it has become personal.

3/25/2022 10:52 PM

Lars F. Bjoerlo (horizonpolaris)

I do of course realize I can't always have it my way...

3/26/2022 12:27 PM

Lars F. Bjoerlo (horizonpolaris)

G'morning guys. Sitting here in front of my screens in my underwear. Just rolled one. Glancing at the other box. Not tempted. It's only noon and the weather is lovely. I should plan a trip out on my bike, but I have nowhere I should be. You guys up to?

3/26/2022 12:41 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm I have a couple om SDRAM-chips here I should deliver. But I also owe the same guy 7g's "tools of the trade", which I currently don't have and feel no urge to change because I have what I need myself in any case. The selfishness of an addict is a wonderful, charming thing...

3/26/2022 12:42 PM

Lars F. Bjoerlo (horizonpolaris)

Feelin' sorta like Vladiman must do. I'm not even bothering to conceal it.

3/26/2022 12:52 PM

Lars F. Bjoerlo (horizonpolaris)

We're both obviously in need of salvation as things are now. Fortunately we're not in competing waiting lines. In fact, here's an idea; why don't we save each other?

3/26/2022 1:08 PM

Lars F. Bjoerlo (horizonpolaris)

Yes, the perfectionism of being imperfect, he he :)

3/26/2022 1:08 PM

Lars F. Bjoerlo (horizonpolaris)

What drives evolution itself.

3/26/2022 1:09 PM

Lars F. Bjoerlo (horizonpolaris)

Leave a little to the next guy ;)

3/26/2022 1:17 PM

Lars F. Bjoerlo (horizonpolaris)

This is why the old man cuts you some slack you know, in any case...

3/26/2022 1:18 PM

Lars F. Bjoerlo (horizonpolaris)

Not believing in God is like driving without a license. A misdemeanor, basically...

3/26/2022 1:19 PM

Lars F. Bjoerlo (horizonpolaris)

From where He stands you'll recognize Him in time.

3/26/2022 1:22 PM

Lars F. Bjoerlo (horizonpolaris)

You can't really hold it against someone that they're being human. Doubting is perfectly human. It's also the source of progress.

3/26/2022 1:24 PM

Lars F. Bjoerlo (horizonpolaris)

as well as paranoia...

3/26/2022 1:36 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah everybody seems to say the same - that life has been considerably more in solitude than one had imagined from begin with. I feel it too, but it could be because I'm left alone, like totally for years, that I start choosing how to relate to that issue. It is of utmost importance that you go along with yourself. For that to happen you need to know yourself. For that to happen you need to be alone.

3/26/2022 1:39 PM

Lars F. Bjoerlo (horizonpolaris)

tears

3/26/2022 1:41 PM

Lars F. Bjoerlo (horizonpolaris)

I think I'm still mourning...

3/26/2022 2:02 PM

Lars F. Bjoerlo (horizonpolaris)

I feel you. Vamos.

3/26/2022 2:15 PM

Lars F. Bjoerlo (horizonpolaris)

Vandalism? Tell it to the DA. Hmmm...

3/26/2022 2:58 PM

Lars F. Bjoerlo (horizonpolaris)

Well, I hope for their sake that they're acting better than I'm able to understand. I don't find this likely, but I know for a fact that they will have to let me go because I will be forcing my way out.

3/26/2022 3:01 PM

Lars F. Bjoerlo (horizonpolaris)

Question is what carnage I leave behind. None of my concern though.

3/26/2022 3:05 PM

Lars F. Bjoerlo (horizonpolaris)

Handle your scandal, Jonas.

3/26/2022 3:08 PM

Lars F. Bjoerlo (horizonpolaris)

Du kan skylde på Erna, he he

3/26/2022 3:54 PM

Lars F. Bjoerlo (horizonpolaris)

Embrace the whole

3/26/2022 4:03 PM

Lars F. Bjoerlo (horizonpolaris)

Sounds like a plan Coach. I'd love a one night stand with my wife, he he

3/26/2022 5:29 PM

Lars F. Bjoerlo (horizonpolaris)

It's gonna get noisy, that's for sure, he he...

3/26/2022 5:38 PM

Lars F. Bjoerlo (horizonpolaris)

I don't know whether there are any old timers with you from the LFB AGENDA days, but the original idea was to create waves back and forth across the Atlantic in order to create a massive one. I'm supposed to pop up at your place first according to the original plan. Then since you were gone I just thought I had to start here either way. I do have half a story in Norwegian here that could probably deserve a little more attention and be written finished. Anyway - the amplifying effect we're creating is also referred to as the laser.

3/26/2022 6:53 PM

Lars F. Bjoerlo (horizonpolaris)

Alright we have a plan. What's the toppling event and when? I should calculate a couple of months from Coach's private visit till my case is concluded.

3/26/2022 7:27 PM

Lars F. Bjoerlo (horizonpolaris)

A tour? Haven't thought about that really. I suppose one should cover as much as possible of the demand, but within reason, of course. I'm still a somewhat handicapped guy and I will always have a limit being human. But I'm up for making some sort of package with which we could tour.

3/26/2022 7:29 PM

Lars F. Bjoerlo (horizonpolaris)

First of all get rid of the worst addiction and get warm in terms of demand and measuring up in English.

3/26/2022 7:31 PM

Lars F. Bjoerlo (horizonpolaris)

It's gonna be a steep curve by the looks of it.

3/26/2022 8:37 PM

Lars F. Bjoerlo (horizonpolaris)

Date noted.

3/26/2022 8:41 PM

Lars F. Bjoerlo (horizonpolaris)

Don't stand me up this time, hon. In fact, let me have your flight number and I'll be there when you arrive. For some reason I assume you don't own a jet, but I realize you very well could. Absurd. Anyway - give me the details and open some kind of line here. Imagine if we could actually talk, you know...

3/26/2022 8:56 PM

Lars F. Bjoerlo (horizonpolaris)

What I am looking for? I honestly don't know anymore. In certain ways I already have it all, but I've sorta been everywhere and the only thing that has any appeal is to entertain this fantasy which has been gone for many years. Then there's of course a last shot at love - maybe even some sort of redemption for my daughter. My attitude towards it all is simply it can only get better.

3/26/2022 11:05 PM

Lars F. Bjoerlo (horizonpolaris)

He he "Mommy's" worried I'm missing a significant point. I hear you baby. No problemo. Time and place for everything and first things first. I get that :D *lol*

3/26/2022 11:07 PM

Lars F. Bjoerlo (horizonpolaris)

blush

3/26/2022 11:18 PM

Lars F. Bjoerlo (horizonpolaris)

You're phunny :)

3/26/2022 11:56 PM

Lars F. Bjoerlo (horizonpolaris)

Ha ha ha

3/27/2022 12:01 AM

Lars F. Bjoerlo (horizonpolaris)

So how do you feel about becoming room-mates, dear? :) (besides being "on the floor"? :))

3/27/2022 12:08 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah us. Think about that. In some ways it's like we've never been apart.

3/27/2022 12:09 AM

Lars F. Bjoerlo (horizonpolaris)

Hon you're being explicit again :D

3/27/2022 12:13 AM

Lars F. Bjoerlo (horizonpolaris)

I like these little flirty seances that occur on occasion. You are the cutest girl. Just so you know :)

3/27/2022 12:13 AM

Lars F. Bjoerlo (horizonpolaris)

Mental flowers

3/27/2022 3:00 AM

Lars F. Bjoerlo (horizonpolaris)

Think I'm heading towards the bed. Haven't really produced anything, but I did have some good company. See you tomorrow. Omni-hug. :)

3/27/2022 3:50 AM

Lars F. Bjoerlo (horizonpolaris)

Riddle me this: who makes a cup of espresso at 4 in the morning and brings it to bed? Nite :) For real this time :)

3/27/2022 2:47 PM

Lars F. Bjoerlo (horizonpolaris)

Hey. Good Sunday for you guys? There is some drama in this end. A domestic violence scenario and a child is involved. I'm trying to figure out what to offer my friend who has no roof over his head for himself and his son. That's a bummer. He can't sleep in the Tezla more than one night. The kid needs proper surroundings...

3/27/2022 2:50 PM

Lars F. Bjoerlo (horizonpolaris)

If I only had an extra room. Back when I owned a house I had five bedrooms. We have a common friend who has, but that's no place for a kid.

3/27/2022 3:01 PM

Lars F. Bjoerlo (horizonpolaris)

I have to say women sometimes... Still we get stuck with the blame usually..

3/27/2022 3:45 PM

Lars F. Bjoerlo (horizonpolaris)

Tryna clean and tidy here. Have to make use of it while I'm in the right zone. Fortunately the dishes does itself...

3/27/2022 3:52 PM

Lars F. Bjoerlo (horizonpolaris)

Kinda wondering how the coming days will be. I should yet again make an effort to get better. Which means I rapidly plummet through the floor and continue even further. I'm gonna try the best I can to take comfort in what Coach and I agreed yesterday. It's just unnatural to me to calculate with stuff I am not in physical possession of.

3/27/2022 5:09 PM

Lars F. Bjoerlo (horizonpolaris)

Of course we can speak live if you want to. As long as you're comfortable with your own assessments this far. We are running this agenda definitively now because it's the best option and because you already know what we have. This way we can also tell with great certainty what's to come.

3/27/2022 5:10 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not getting any worse.

3/27/2022 5:19 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway, the experiment should be concluded by this choice. Other than that you have my contact info.

3/27/2022 5:26 PM

Lars F. Bjoerlo (horizonpolaris)

That's great honey. Looking forward to everything. I don't know which platform you'd prefer. Just pick one and go.

3/27/2022 5:33 PM

Lars F. Bjoerlo (horizonpolaris)

I have a piece here I could get online in a few hours or so...

3/27/2022 5:36 PM

Lars F. Bjoerlo (horizonpolaris)

Why what? I don't understand the question.

3/27/2022 5:38 PM

Lars F. Bjoerlo (horizonpolaris)

Not to nag or anything, but us talking would be great in terms of what concerns us most.

3/27/2022 7:13 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks for the positivism. Let me know when you figure out next move.

3/27/2022 8:10 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not sure I wanna post this one. Am reading it now. I suspect I have been tired while writing. Either way it would have to be continued because I had another batch of parameters I wanted sown in.

3/27/2022 8:13 PM

Lars F. Bjoerlo (horizonpolaris)

In time I will open a section with some old texts that I feel could be read again for some relevant reason.

3/27/2022 8:18 PM

Lars F. Bjoerlo (horizonpolaris)

I have one in mind already called "Whatever happened to "I don't know"?" There are a few ones as I recall it. Sometimes looking back is interesting just to, you know, compare and see if there's anything new to learn.

3/27/2022 8:27 PM

Lars F. Bjoerlo (horizonpolaris)

Where to start? I can only speak for myself at this stage and the natural beginning of anything goes through meeting up with my better half. All starts here.

3/27/2022 10:50 PM

Lars F. Bjoerlo (horizonpolaris)

Very generous to offer deniability, but I'm prepared to do my part side by side. Either way - it's gonna quickly spoil our fun unless taken care of and sooner rather than later. But all of this doesn't necessarily mean I can't send a mail or take a phonecall to her, now does it? I'll be here waiting for some sensible input.

3/27/2022 11:25 PM

Lars F. Bjoerlo (horizonpolaris)

True. All paranoid people, which are everybody more or less, could potentially lose their minds completely. I have reason to believe that religious people will be the most vulnerable to psychotic breaks and general breakdown.

3/27/2022 11:36 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not a huge fan of the Biblical angle. It doesn't really appear to leave us much chance, thus making people think, do and say all kinds of nonsense.

3/27/2022 11:37 PM

Lars F. Bjoerlo (horizonpolaris)

The genetic lottery and our common biosphere is the right narrative.

3/27/2022 11:40 PM

Lars F. Bjoerlo (horizonpolaris)

(Spontaneous from feed: I love you) He he - Guys - I love you too. Otherwise we wouldn't have had this conversation. Now go out there and be sensible and approachable human beings and ambassadors of tomorrow.

3/27/2022 11:42 PM

Lars F. Bjoerlo (horizonpolaris)

With some luck it could be relatively quiet. Difficult to foresee exactly what, where and the size of it before we actually have it.

3/27/2022 11:43 PM

Lars F. Bjoerlo (horizonpolaris)

Worst case scenario we get a storm to ride off.

3/27/2022 11:45 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah like I said, I was a very happy child and very much loved. I remember appreciating being told that I was loved. Hearing it was valuable.

3/27/2022 11:52 PM

Lars F. Bjoerlo (horizonpolaris)

What we have here is indeed a Fermi-filter, but there's no reason to moan or cry more than necessary. All we need is us. We just have to gather ourselves. The jump across the abyss is extremely intimidating, but just a few feet. You could do it in a wheelchair.

3/27/2022 11:55 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I promise - and the best part - safely across you're gonna have a laugh. The whole thing is ridiculous, right? Why not just laugh?

3/28/2022 12:04 AM

Lars F. Bjoerlo (horizonpolaris)

Appreciate the Apple :)

3/28/2022 12:30 AM

Lars F. Bjoerlo (horizonpolaris)

And finally we all get awed by how beautiful everything is. Existence right here is a wonderful privilege. And we're grateful. It's time to get lost in in fractals of wonder.

3/28/2022 1:46 AM

Lars F. Bjoerlo (horizonpolaris)

Medusa? She's got like snakes in her hair. Honestly I find that revolting. Not my type :)

3/28/2022 1:48 AM

Lars F. Bjoerlo (horizonpolaris)

He he he. Getting some z's. Hope not to be haunted by that snake-lady in my dreams...

3/28/2022 1:50 AM

Lars F. Bjoerlo (horizonpolaris)

Nite

3/28/2022 2:44 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. A bunch of login attempts while sleeping. Changed PW. Other than that I'm preparing to become useless for as long as it does/takes. #FlamingJune #Orchid

3/28/2022 7:28 PM

Lars F. Bjoerlo (horizonpolaris)

What I really need is to transform mentally. I haven't been straight for as long as I can recall. I'm probably gonna say something every now and then, otherwise talk to the mic's in the room. It's a good time of year now.

3/28/2022 7:31 PM

Lars F. Bjoerlo (horizonpolaris)

You see, before you guys came along my disabilities weren't of any practical importance.

3/29/2022 11:08 AM

Lars F. Bjoerlo (horizonpolaris)

I'm up and not in tears, as my father usually says. Going to work. Tomorrow the dentist. About that baby - I only got partial support, some 1000€. What that means in practical terms I'll find out tomorrow. Other than that I don't own a bathroom scale, but quitting drugs usually equals gaining weight. I must stay like this or get better at any cost.

3/29/2022 3:05 PM

Lars F. Bjoerlo (horizonpolaris)

Ambulance outside my apartment building. Don't look like they're in a hurry. Someone probably died. Again. People living here die all the time. In fact, I have a conscious way of relating to how I'd be found if I die here. Like being dressed in clean underwear.

3/29/2022 3:07 PM

Lars F. Bjoerlo (horizonpolaris)

I love you too honey. I just wanna move on now.

3/29/2022 3:09 PM

Lars F. Bjoerlo (horizonpolaris)

I brought two beers from the store. Remember we had this fight about calories in Germany? You actually removed AND covered the ice-cream, he he. :)

3/29/2022 3:11 PM

Lars F. Bjoerlo (horizonpolaris)

I was basically pretty fit back then in my own standards. But I survived on beer and ice-cream. I still eat ice-cream all year around. Preferably naked, ha ha :D

3/29/2022 3:23 PM

Lars F. Bjoerlo (horizonpolaris)

Yes. I realize that you need me and that you're out of options. It's just difficult to shake off the mentality that ruled the last 5 years.

3/29/2022 3:25 PM

Lars F. Bjoerlo (horizonpolaris)

Naranjada. Yep. Don't have any.

3/29/2022 3:43 PM

Lars F. Bjoerlo (horizonpolaris)

How fast we can be ready? I could have straight into this in September and I still can. However - it's ultimately how Coach, VA and CC picture this to go down. If just pulled out of my misery here, I'd only ask for some understanding that it takes some time to adapt into the new surroundings.

3/29/2022 3:44 PM

Lars F. Bjoerlo (horizonpolaris)

The sooner the better in my opinion. Not sure what we're waiting for...

3/29/2022 3:56 PM

Lars F. Bjoerlo (horizonpolaris)

I think they want the whole train to grind to a halt by itself before redistributing power.

3/29/2022 4:00 PM

Lars F. Bjoerlo (horizonpolaris)

Whether I could live with Ben while waiting for the event? I don't see why I couldn't. I mean, we're all adults here doing a job. Besides - I wouldn't be against it solely because he's her x. That don't bother me at all. Never did.

3/29/2022 4:05 PM

Lars F. Bjoerlo (horizonpolaris)

I have a feeling that there is a schedule and that stuff will be thrown in Biden's direction the closer we get to summer. Ultimately his handling will become his downfall, I suppose. However, how to disqualify the VP and the parliament... ..I can only speculate. At this point I have no idea how this event would look like.

3/29/2022 4:43 PM

Lars F. Bjoerlo (horizonpolaris)

I take it in a 50mill mansion there are a few rooms?

3/29/2022 4:53 PM

Lars F. Bjoerlo (horizonpolaris)

Sweet idea, Ben. You guys better coach me a little before embarking on such a project, but I agree, it's actually a great idea.

3/29/2022 4:57 PM

Lars F. Bjoerlo (horizonpolaris)

I think everything with the entire west could need a cultural revolution. The old genres are so worn out. We could use a fresh way of thinking the movie-concept. Every time I see some action movie or whatever, it's like I've seen them all. We could use to spark a new feeling. Kinda raise the bar a little in terms of intellectual contents.

3/29/2022 5:02 PM

Lars F. Bjoerlo (horizonpolaris)

And when it comes to this particular art, I have always been convinced by Ben's characters, in particular those who require him to be resourceful as a strategist. I remember I was very sceptic about him taking on Batman (in my eyes perhaps too smooth), but as I recall it he never made Batman ashamed. :)

3/29/2022 5:09 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not a professional criticist of movies and acting, but as I understand the concept, she's not really all the way in terms of taking home an Oscar or so, but he very well could. Anyway - I enjoyed most of the movies I watched her in. But I didn't start taking notice and paying

attention until after we had gotten to know each other. Dancing is what she does best of everything I think and I also believe she agrees. But she's a multi. We probably all are.

3/29/2022 5:11 PM
Lars F. Bjoerlo (horizonpolaris)

...and Lord knows this woman has some serious hidden talents too *proud*

3/29/2022 5:15 PM
Lars F. Bjoerlo (horizonpolaris)

..and whenever she met an obstacle, she taught herself to overcome it.

3/29/2022 5:21 PM
Lars F. Bjoerlo (horizonpolaris)

There is something about the brand JLo that states American quality product. That much I did know before we met.

3/29/2022 5:25 PM
Lars F. Bjoerlo (horizonpolaris)

I think we have to save all the juicy stuff till we're actually rolling, or what hon? ;)

3/29/2022 5:26 PM
Lars F. Bjoerlo (horizonpolaris)

I remember you told me this cute little secret that nobody knows :)

3/29/2022 5:29 PM
Lars F. Bjoerlo (horizonpolaris)

Other than that - our backgrounds are different from what you might think at first. She was marginalized. Her entire world was a city block until 16, while I had all of Europe as my playground. You've seen what's available to middle class here.

3/29/2022 5:31 PM
Lars F. Bjoerlo (horizonpolaris)

Never lacked anything basically. Still don't and I'm on disability 100%. Have been since coming from Berlin.

3/29/2022 5:55 PM
Lars F. Bjoerlo (horizonpolaris)

He he he. Sounds sweet hon.

3/29/2022 6:16 PM
Lars F. Bjoerlo (horizonpolaris)

Ja Jens. Det er vi helt enige om.

3/29/2022 6:22 PM
Lars F. Bjoerlo (horizonpolaris)

Åreforkalka. Trur det var det besteforeldrene våre kalte det.

3/29/2022 6:26 PM

Just not to be rude - Yes we are definitively onto something tangible here. I see your position much clearer than I used to. That's supposed to be a compliment. :)

3/29/2022 6:52 PM
Lars F. Bjoerlo (horizonpolaris)

What can I say? It's a jungle out there.

3/29/2022 9:48 PM
Lars F. Bjoerlo (horizonpolaris)

You say Open Society. Gorbatschow had a similar vision. Glasnost. I think that hypothetically in 2022 you could probably go totalitarian and make people fill it democratically online. There could be portals allowing you to participate in just about anything. Just a thought.

3/29/2022 9:50 PM
Lars F. Bjoerlo (horizonpolaris)

And as far as anarchy goes - no anarchy would or could exist without common sense. You pay at the counter, keep the speed limit etc in such a society as well.

3/29/2022 9:51 PM
Lars F. Bjoerlo (horizonpolaris)

It just means no leadership (which is not good right now)

3/29/2022 9:56 PM
Lars F. Bjoerlo (horizonpolaris)

But you probably wouldn't had taxes in such a system. No social security whatsoever. Every man for himself.

3/30/2022 12:49 PM
Lars F. Bjoerlo (horizonpolaris)

New day. I don't need to know things like that. Sounds like half a plan to me. Anyway - heading to the dentist soon. Feel crappy basically, but not too bad. Met this woman from childhood who had a new baby. It was the cutest kid and we connected by eyes immediately. She's around your age babe...

3/30/2022 12:54 PM

Lars F. Bjoerlo (horizonpolaris)

I mean, you're superwoman. I have no doubt you'd be mothering in between everything else as you go along the whirlwind of your life. I'm pretty sure I couldn't handle all the up at nights etc etc. I wanna be though...

3/30/2022 12:55 PM

Lars F. Bjoerlo (horizonpolaris)

able I mean.

3/31/2022 6:24 PM

Lars F. Bjoerlo (horizonpolaris)

Hello. Long story with the dentist, but at least I get a good temporary fix. At my neighbor's for dinner.

4/1/2022 9:44 AM

Lars F. Bjoerlo (horizonpolaris)

Hey. At hospital for meds. I've been thinking.. what if Ukraine is merely the means reflecting a motive? What if the war in the media is the sole point? This could be why there's a nuclear threat attached to interference by NATO. It could be his way of avoiding disaster by this pointless war escalating in the worst possible way. What if this event actually buys time? What if it's working just as planned?

4/1/2022 9:46 AM

Lars F. Bjoerlo (horizonpolaris)

I have a feeling he needs this attention to prove a point..

4/1/2022 9:57 AM

Lars F. Bjoerlo (horizonpolaris)

Uh babe? I don't know what to do on our first "date". I'd like to know a bunch of things in your own words. What are you thinking?

4/1/2022 12:55 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. I've been given something to think about. This service can be pretty extreme at times, but so is reality in many ways. Wonder when it'll start and when the dust starts settling.?

4/1/2022 2:37 PM

Lars F. Bjoerlo (horizonpolaris)

Alright. Ok. Yes. The idea is that everybody gets the same treatment, within that are also opportunities, not just restrictions and so on. What good are words if you're talking to someone incapable of listening? These are drastic measures, but probably comes with a reasonable cost all things considered. Let's not forget people are actually dying here on both sides. Feels pretty senseless in such a light.

4/1/2022 2:39 PM

Lars F. Bjoerlo (horizonpolaris)

I mean, what should have been sorted out one generation ago.

4/2/2022 1:06 AM

Lars F. Bjoerlo (horizonpolaris)

A large part of any operative analysis will always under these circumstances rely upon speculations as much as anything else. I usually recommend not to act on speculations, but this situation has some very evident facts to it and for the remaining picture you need to fill as many blanks as possible by logically deduct yourself to other implications or equivalents. You basically build a picture partially with elements unknown. Today a relatively tidy trail back to my first comment all turns out right, something impossible to know. It's qualified guessing. It may be useless or it can lead you where you want. In a sense you could call it luck, but in many cases the qualified guesswork doesn't really fit that description. When you get it right it's not by chance. Your assumptions become pretty accurate when you do this exercise in different situations. How ever, whenever speculations are called for, make sure to underscore which factors which has an element of uncertainty. Over time some poorer assessments are probably made, thus you get a faulty prediction once in a while. Whenever this happens it's important to form an opinion about which factors matters in your set of thoughts. Anyway - wasting my breath now - an entry to the blog with filters and techniques is on its way. It's important that one understands how a particular assessment was made. People in general talk more than they realize very often. In particular huge ego's with something to prove. Make it a habit to take a step out of your own person and watch yourself with the judgement of some random bystander. The more you focus on your own person, the more unreliable results you will produce. There is of course much to say about one's own person, it just doesn't mix well with the task at hand: trying to understand something that doesn't have anything to do with the other. I'm gonna make a piece and exemplify typical patterns of which to attack any given problem. But again - To reach 100% certainty isn't really the game. Very often you could say something useful about an observation without necessarily proving everything. Just making it likely works for most matters of communication, for example. I'm noticing myself becoming very abstract here right now. Nevermind guys - it's just me saying that it's about more than luck navigating this metaverse. And suddenly I seem to boast, but that was not my point at all, he he. Confused? Me too. (Smoking too much while writing I suppose. Bla bla bla.) This will look so much clearer when I'm done hatching the text..

4/2/2022 1:10 AM

Lars F. Bjoerlo (horizonpolaris)

There is method to the madness ;)

4/2/2022 10:32 AM

Lars F. Bjoerlo (horizonpolaris)

Hello room. Rumor has it that this is spreading rapidly. I haven't seen anything out of the ordinary... the day I meet myself out there feels like just around the corner. It's pretty absurd.

Crossing my fingers that most people will behave and that we quickly get to establish the connection to everyone. I sincerely hope we don't scare in particular religious people. They live inside a doomsday scenario that shifts nature all the time. People have their own powerful beliefs, but "Revelarions" line up the most dark and severe we can imagine, but there are variables changing all the time - thus changing how to interpret the prophecies. It's actually very unsettling reading.

4/2/2022 10:47 AM

Lars F. Bjoerlo (horizonpolaris)

BTW hon: I asked yesterday what it takes to get a 2-3 weeks stay to detox. Am after all seriously considering it. Would be cool to fix before I get pushed out onto the stage :/

4/2/2022 11:02 AM

Lars F. Bjoerlo (horizonpolaris)

Expecting to be fairly busy today. I'm stripping my bedroom completely and ultimately I'm changing my old bed. I am hoping to turn the bed the other way. I'm not quite sure yet whether this is possible.

4/2/2022 12:18 PM

Lars F. Bjoerlo (horizonpolaris)

I still have a surreal experience. It's like what I seek isn't real even though reality proves itself to me on a daily basis. That old second guesser can be a tough nail. And dealing exclusively with one reality over the other. I mean, I'm close to God, but whenever He comes up I get the same notion as if I was an atheist, I presume. That part - that there really are more entities sharing this space with us is mind boggling. When choosing which reality sphere to entertain, I go with order of relevance. Like this messiah-narrative and also other aspects are much trickier to handle without getting influenced. Possibly lose it. And if it wasn't for a big ego wanting to get high on one self, what other reason would I have to pursue that path in particular? I'm thinking tools. Is this useful to me in any way? If not so - harmful then? In order to have a sobering experience all around, just keeping focus on the genetics is the only valid angle in that sense that may lead to productivity. But by all means, that part is there even if I don't pay it attention. And it would necessarily have to be while most people have some sort of spiritual belief system. I couldn't show up without having the recognizable spirit of Christ with me. The religious aspects were the first to get tested. My experience with these issues is that they are confusing at best. So securing that content was first priority. I am glad though that I don't have to rest my arguments upon Him in everything we do. This just makes sense as is.

4/2/2022 12:31 PM

Lars F. Bjoerlo (horizonpolaris)

I put all my eggs in the same basket. This basket however, is to no use carrying eggs around because the bottom is missing. It's a completely impossible idea that I with all my rational instincts doubt as hell. The fact that it's done now is therefore somewhat hard to wrap one's mind around. Facts changing supersedes events and change reality slow (and even retroactively), but steadily towards the contents of my mind. We are lining up the two realities, the old and the new, in order to take the leap. Next level guys. Say goodbye to yesterdays trouble and start taking on todays challenges. We're on!

4/2/2022 8:38 PM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. Am cleaning. No matter what I do I can easily see that I smoke indoors. After turning to cannabis only the last year has been worse to the walls and ceiling than the 4-5 years prior combined. Il need to paint and start smoking on my porch. Hmmm. Just started the switching of beds. Preferably I'll have it done by the time I need it. The old upper matrass have springs. They started penetrating the surface. Naturally I turned it upside down, but now it's completely sunken in the middle which drives me nuts. Anyway - there's so many things I'd like to do. I spotted a peek-a-boo request. I would like to make a little video, just for you. I need a haircut, but who cares right? I was just thinking while watching the mirror, not at all the worst point to start from. I am a typical unfit 45 year old man, but I'm not obese. Maybe I can work up the confidence enough to actually shoot some footage of myself... Think I have a couple of nudies from Berlin 2013 to compare with...

4/2/2022 8:44 PM

Lars F. Bjoerlo (horizonpolaris)

Take into consideration that the anti-psychotic drugs are nasty. Everybody experiences massive gain. The first time I was set on this medicament, I was a little more than 130 lbs - skinny as hell. Two months later I'm 180 lbs. The worst part is that it's water. You can't diet or exercise it away like fat.

4/2/2022 10:50 PM

Lars F. Bjoerlo (horizonpolaris)

Merde! C'est complete mufou! Dunno about my spelling here, but in short: I've been locked out of my main computer. It is most likely an update gone wrong because I had to force power off. The last possibility is I've been hacked. Two other computers are online in the livingroom. And in case all fails I have my own OS from which I can boot. God knows how many times my WinPE-OS have saved the day. In theory it should even be able to handle bitlocker drives - provided you have the 42 digit key, of course...

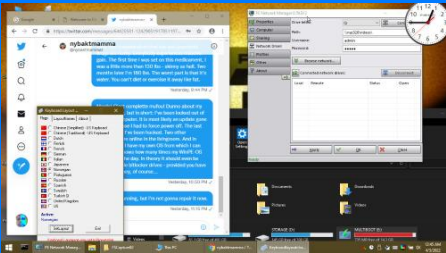

4/2/2022 11:15 PM

Lars F. Bjoerlo (horizonpolaris)

I'm up running, but I'm not gonna repair it now.

My self composed microsoft rip-off os that never fails and that can't be destroyed or leave behind activity logs etc.

4/3/2022 12:59 AM

Lars F. Bjoerlo (horizonpolaris)

I have gotten rid of the old bed and brought the new one in from the basement cellar/garage. It's not that it requires education to assemble a handful objects, but I must admit I'm still scratching my head over the base-assembly. Worst case scenario I sleep without the base frame for the lower madras and just slide it into place when ready. This computer crash was inconvenient. I had like, not only documents, but several editors only half finished with a pdf of this conversation.

4/3/2022 1:02 AM

Lars F. Bjoerlo (horizonpolaris)

I was hoping to publish one piece and start writing another. There's nothing keeping me from just using the next computer. I think I'mma bring it to bed for once.

4/3/2022 2:01 AM

Lars F. Bjoerlo (horizonpolaris)

Yess! On top of the bed-project. Have a machine with clothes running and the dishwasher in the kitchen is also running. I finally got to vacuum everywhere properly. Only thing that remains is soap and water on this floor.

4/3/2022 4:20 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. How's your Sunday? I'm sitting here tryna organize a few things now that I can't access the main OS. I just cabled the sound through a 3,5mm stereo jack. Compared to the usual sound over HDMI it is shockingly poor sound quality. I should really continue my project from yesterday.

4/3/2022 4:24 PM

Lars F. Bjoerlo (horizonpolaris)

About the atrocities in Ukraine: I don't know why the units are told to commit war-crimes, but I have noticed Putin's interest for the ground action in Syria, whom he also supplies with arms. I would necessarily need more information in order to start guessing what happened there.

4/3/2022 4:38 PM

Lars F. Bjoerlo (horizonpolaris)

Speculation: could he still want the world to doubt his sanity? It could be important in terms of keeping everybody else out of the armed part of the conflict. Nobody's going to challenge whether or not he would actually turn to nukes. Just a thought.

4/3/2022 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

I see I'm not the only one thinking this way.

4/3/2022 4:44 PM

Lars F. Bjoerlo (horizonpolaris)

And now cleaning-project first - computers and twitter later. (Thinking of moving my blog-related business over to the next in line laptop I have here. The other machine isn't exposed to as much risk as this one and it has security software.)

4/3/2022 5:11 PM

Lars F. Bjoerlo (horizonpolaris)

Listening to talking radio today. Heard Jens on the news. This is of course horrible. It doesn't make any sense. Russians don't hate Ukrainians like this scene suggests. I just hope those who did this know what they're doing and that he didn't put this task on some poor ordinary soldier. I can't imagine what made them do this, but it is in plain sight in a very deliberate way.

4/3/2022 5:16 PM

Lars F. Bjoerlo (horizonpolaris)

Pushing the limits here both ways is risky business. He's playing a high-stake game. On the other hand; what's to lose?

4/3/2022 5:20 PM

Lars F. Bjoerlo (horizonpolaris)

By both ways I mean promoting the ideas around his sanity or lack there of.

4/3/2022 5:23 PM

Lars F. Bjoerlo (horizonpolaris)

He's definitively gonna create more opportunities while going along when betting on two horses instead of one. My best guess: he's gonna want a way out and remain in power to at least 2024. That is saving face I suppose...

4/3/2022 5:30 PM

Lars F. Bjoerlo (horizonpolaris)

But he's probably gonna run this operation until he feels reassured nobody ever will persecute his actions, but more importantly and why this started most probably, is the need for us here to change. We would have to make significant and credible changes to make him happy. Betting he would find someone submitting to this - that's where the high stake is. Evidently he's willing to do this against the odds. How far will we stretch? We usually don't conduct diplomacy in such a way.

4/3/2022 5:32 PM

Lars F. Bjoerlo (horizonpolaris)

..on the terms of a terrorist, I mean..

4/3/2022 5:34 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah it is wishful thinking. Question: to what extent could or should we entertain this?

4/3/2022 5:37 PM

Lars F. Bjoerlo (horizonpolaris)

And the motives and means to get it this way are outright distasteful. Why would he want us to swallow these camels? It's not just a punch in the gut. He also spits in our faces, so to speak.

4/3/2022 5:43 PM

Lars F. Bjoerlo (horizonpolaris)

"What are you waiting for?" and "Take a chance on me". Killer combo of tunes, he he

4/3/2022 5:47 PM

Lars F. Bjoerlo (horizonpolaris)

He could have a semi-legit reason, but he risks everything by the way he chooses to conduct himself when trying to motivate everybody his own way.

4/3/2022 5:50 PM

Lars F. Bjoerlo (horizonpolaris)

Yes. He's setting a course he knows will divide.

4/3/2022 7:00 PM

Lars F. Bjoerlo (horizonpolaris)

Funny you should mention it. Last time we made a case study of him, you informed me of some details. I remember. I also remember not only this particular little piece, but the city crawled with agents from Russia among others. If I said they were even more present than the Germans, that wouldn't be an exaggeration.

4/3/2022 7:05 PM

Lars F. Bjoerlo (horizonpolaris)

Judging by the feed I have their frequency just about right.

4/3/2022 7:06 PM

Lars F. Bjoerlo (horizonpolaris)

"Show me a new world" is the message here..

4/3/2022 7:19 PM

Lars F. Bjoerlo (horizonpolaris)

No I'm not thinking of this situation in Biblical terms. I find it hard to believe that Satan should be personified through anyone. Keep in mind that the desire to enslave and rule mankind in utter misery is a completely ludicrous idea. We are heading that direction, but not because someone masterplanned it. What we see in the prophecies are most likely experience from growing humans elsewhere. Regardless of where we existed - this existential crisis would still occur like clockwork. At least a working theory that makes a little sense to entertain. But Satan as 1 specific individual? I don't really think so, but I could of course be wrong.

4/3/2022 7:30 PM

Lars F. Bjoerlo (horizonpolaris)

Alright. Everybody wants a new zero and with that an economic system that's not constantly and inevitably flowing in the same direction. (Read: USA)

4/3/2022 7:31 PM

Lars F. Bjoerlo (horizonpolaris)

This is within reason. So far so good.

4/3/2022 7:35 PM

Lars F. Bjoerlo (horizonpolaris)

Copy that, Tranquility Base.

4/3/2022 7:49 PM

Lars F. Bjoerlo (horizonpolaris)

Addiction in this scale has never been properly addressed as far as I know. But we're bound to USD mostly when trading. Those who print the money also invent and encourage toxic assets to be sold. When the bottom falls out, print more money. All the time this is happening, all

the collateral (people's property) gets sucked into the dictating system of origin. But it's not like people/countries get any less debt.

4/3/2022 7:53 PM

Lars F. Bjoerlo (horizonpolaris)

Just less property..

4/3/2022 8:17 PM

Lars F. Bjoerlo (horizonpolaris)

They're calling for disarmament. I think I can appreciate why.

4/3/2022 8:17 PM

Lars F. Bjoerlo (horizonpolaris)

So could probably you guys..

4/3/2022 8:34 PM

Lars F. Bjoerlo (horizonpolaris)

I'm just happy that I'm able to bring us a little closer in this crazy world. I'm here to pick up anything from anywhere. Then I'll see to it that it gets understood.

4/3/2022 9:22 PM

Lars F. Bjoerlo (horizonpolaris)

Finally done with that bed. I hope I also fixed my OS login-problem from this operating environment. Must reboot to check if it worked. But I'm not in a hurry. I hate shutting down. I can have the pc running for months in between. Not good. I know.

4/3/2022 9:24 PM

Lars F. Bjoerlo (horizonpolaris)

(..I heard you guys picked up that I'm listening to my old preference radiowise, a commercial channel with hosts in studio etc..)

4/3/2022 9:27 PM

Lars F. Bjoerlo (horizonpolaris)

That was a very direct way of confirming that the game is on and that my day will come soon. Appreciate that.

4/3/2022 9:29 PM

Lars F. Bjoerlo (horizonpolaris)

(OMG I had forgotten the p4 problem - same 100 tunes on shuffled replay)

4/3/2022 9:31 PM

Lars F. Bjoerlo (horizonpolaris)

Horrible to listen, but makes a lot of sense. Besides, when there's talk, it is of course norwegian. Hearing a norwegian voice confirming something is to me a good thing.

4/3/2022 9:34 PM

Lars F. Bjoerlo (horizonpolaris)

He he just thinking of mum. Here the other day she listed Norwegian citizens engaged in matters abroad that she's particular proud of. Needless to say, her youngest son's name was not on that list. I couldn't help but bite my tongue kinda..

4/3/2022 10:02 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks for still having faith in me. Not to misplace the tone in any way, but you really should and I'm not gonna let you ask twice. Am mentally in place. Will get better once I relocate.

4/3/2022 10:17 PM

Lars F. Bjoerlo (horizonpolaris)

Again, not to be cocky, but I have always known that I'm able to stand in this role. Last, but not least, you know me. You know me like no other subject under surveillance because I constantly tell you what I'm thinking. This option is not the one associated with risk. I can stand straight and look you in the eyes while saying so.

4/3/2022 10:19 PM

Lars F. Bjoerlo (horizonpolaris)

You don't have to ask twice or beg - I'm set for task.

4/3/2022 10:29 PM

Lars F. Bjoerlo (horizonpolaris)

I say it took some cajones to come back here. I'm glad you did. And to prove I don't hold grudges or anything else hidden, I've decided to play along from the first note. Making myself difficult could be an option. I choose to be better than that. My own reasons always get to sit in the back, but that's natural in this picture. Serving and protecting. That's why.

4/3/2022 10:40 PM

Lars F. Bjoerlo (horizonpolaris)

Promising that Putin will be prosecuted for any of this is probably not the wisest thing to do at this stage. We don't even know what happened yet. And they categorically deny it for now. These signals aren't making diplomacy any easier.

4/3/2022 10:43 PM

Lars F. Bjoerlo (horizonpolaris)

And no - we shouldn't normalize what's going on, but when you deal with such hands on, you also develop your own way of coping with the matter.

4/3/2022 10:54 PM

Lars F. Bjoerlo (horizonpolaris)

Wouldn't expect any less. I've always had eyes on me. I can't see why this should change all of a sudden.

4/3/2022 10:57 PM

Lars F. Bjoerlo (horizonpolaris)

Yes. Even when taking a crap, injecting something and having sex. Perfectly aware.

4/3/2022 10:58 PM

Lars F. Bjoerlo (horizonpolaris)

Everything that happens go on record.

4/3/2022 11:25 PM

Lars F. Bjoerlo (horizonpolaris)

And the deal is as long as I go along you'll leave the general public with some rights to privacy.

4/3/2022 11:59 PM

Lars F. Bjoerlo (horizonpolaris)

Awww hon you're so sweet. I had almost forgotten what talking radio can do. Miss you. Home pure soon. KISS

4/4/2022 12:01 AM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. My new bed.. It's nice. You would have been allowed to try it if you were here :)

4/4/2022 12:01 AM

Lars F. Bjoerlo (horizonpolaris)

<3

4/4/2022 12:10 AM

Lars F. Bjoerlo (horizonpolaris)

Well, just because everything is visible doesn't necessarily mean we talk about it often or in public. Right?

4/4/2022 12:14 AM

Lars F. Bjoerlo (horizonpolaris)

I mean, I'm willing to allow most imaginable questions. But if ten guys in a row ask about my sex life, then I would have to stop commenting on that. Journalists behaving shouldn't have any problem getting their answers.

4/4/2022 12:19 AM

Lars F. Bjoerlo (horizonpolaris)

People in this business are familiar with substance abuse everywhere. You don't need to make it a headliner. You get what you give, basically. I'd love to talk about addiction, but on my own terms.

4/4/2022 12:23 AM

Lars F. Bjoerlo (horizonpolaris)

I love you too, babyjen. And I won't forget exactly why.

4/4/2022 12:26 AM

Lars F. Bjoerlo (horizonpolaris)

The story we share by now is a formidable one. We created all that. Together.

4/4/2022 12:27 AM

Lars F. Bjoerlo (horizonpolaris)

..which is the perfect moment to bring up the issue of a prenup, he he *lol* :D

4/4/2022 12:28 AM

Lars F. Bjoerlo (horizonpolaris)

I know. My sense of humor gets sketchy when I sleep at the couch ;)

4/4/2022 12:40 AM

Lars F. Bjoerlo (horizonpolaris)

I have a written statement from my doctor, meant for and used in the trial before x-mas, that says my drug problem have persisted over time and that have never displayed any symptoms in spite of this.

4/4/2022 12:44 AM

Lars F. Bjoerlo (horizonpolaris)

I'm aiming for beer and cannabis only, but if for some reason work requires me to take something, I'm gonna have to consider it depending on circumstances. When I said "no matter what it takes" it also means drugs could be an option in some given situation.

4/4/2022 12:50 AM

Lars F. Bjoerlo (horizonpolaris)

I was imagining minimum wage. Money will probably pile up as a result of all the sidekicks I'm booked for, thanks to my wife-to-be. My salary shouldn't be an issue.

4/4/2022 1:27 AM

Lars F. Bjoerlo (horizonpolaris)

Funny you should say "unit of measure". The next piece on my mind is titled "the new standard". The "horizonpolaris" concept is really meant to be a fixed set of values from which you may navigate properly.

4/4/2022 1:47 AM

Lars F. Bjoerlo (horizonpolaris)

He he. Was slightly worried here for a second you would think I take too lightly on income with making such a standard, but I see that you see my point in doing so. It's solidarity, that's all.

4/4/2022 1:55 AM

Lars F. Bjoerlo (horizonpolaris)

I figured we can afford that in any case, but we never talked about private economy specifically before. Good thing I know you then. Yeah exactly - that prenup, ha ha ;)

4/4/2022 2:21 AM

Lars F. Bjoerlo (horizonpolaris)

Nobody ever had a way out. It's not like you're losing your escape hatch. It wasn't there in the first place. Wanna talk risks involving a rogue humanity?

4/4/2022 2:24 AM

Lars F. Bjoerlo (horizonpolaris)

Don't fool yourselves to believe leaving it be is the only "free" option. We all got to step up now and share responsibilities.

4/4/2022 2:27 AM

Lars F. Bjoerlo (horizonpolaris)

Making it the way it should be involves a helluva lot coordinated work. It won't happen unless we make it so. That is also a free choice though there are no alternatives to this option.

4/4/2022 2:32 AM

Lars F. Bjoerlo (horizonpolaris)

If anybody came along with a competing option - sure, we'd have to deploy some sense of democratic rule like a vote. However, nature is not democratic. Neither is economy. Democratic solutions are in fact surprisingly little relevant in most aspects of life.

4/4/2022 2:35 AM

Lars F. Bjoerlo (horizonpolaris)

We've worked thousands upon thousands of hours in order to shape it like it was from all of us to all of us. Thus we give the project a democratic spirit.

4/4/2022 2:47 AM

Lars F. Bjoerlo (horizonpolaris)

To the extent people still are frowning upon this; that's not an appropriate or reasonable way to perceive our work and mission. I for 1 have put in all my work hours for free. I bet hundreds of others can share a similar version of their relation to this work.

4/4/2022 2:48 AM

Lars F. Bjoerlo (horizonpolaris)

"Not for the money, not for the fame, not for the power - just no more games"

4/4/2022 2:48 AM

Lars F. Bjoerlo (horizonpolaris)

Pretty much zumz it up.

4/4/2022 3:12 AM

Lars F. Bjoerlo (horizonpolaris)

Never say never Susana. I gotta head for bed. Thanks for the session. Nite.

4/4/2022 3:18 AM

Lars F. Bjoerlo (horizonpolaris)

<3 :))

4/4/2022 3:31 AM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. I don't need you to elaborate miss Knutson. The answer to your question is yes. We went like hundreds of rounds with the issue. It's fine.

4/4/2022 3:32 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah let's pick this one up later by convenience.

4/4/2022 4:05 AM

Lars F. Bjoerlo (horizonpolaris)

He he he. You nosy you. Now scram! (Who knows what tomorrow brings?)

4/4/2022 2:56 PM

Lars F. Bjoerlo (horizonpolaris)

GDMN, my bed is sooo nice. Where were we? Oh yes - permission to discuss our sexuality my love? (ready to reboot this pc. It's almost like I could run this emergency OS permanently)

4/4/2022 3:24 PM

Lars F. Bjoerlo (horizonpolaris)

Ok, here we go: I told you there are more familiar people associated with this project. As far as our household goes, I am the only male. Then there's the other thing I mentioned earlier - a demand for hereditary material will emerge. Questions are: How possessive can she allow herself to be? Am I cool with the idea of making my body accessible? Long story short; she's probably more up for it than I was while mapping out this particular subject. The simulation was post-apocalyptic and I had to entertain an insane amount of females. Anyway - this scenario thoroughly challenged all the emotions I have for my wife-to-be, but in the end I figured that the reasonable thing to do in this very special situation of ours, is to make one self physically accessible to others. I ended up with a few demands. It would have to make sense to me. Either I get it my way or you bring me a cup. That's basically where we are per now. This isn't exactly my favorite subject, but Coach needs a statement about this from me to confirm investors, etc. This is not the last time you will learn about this subject. Until next time..

4/4/2022 3:46 PM

Lars F. Bjoerlo (horizonpolaris)

Nobody's holding a gun to my head. I am always entitled to change my mind for any reason.

4/4/2022 3:47 PM

Lars F. Bjoerlo (horizonpolaris)

It is my body after all.

4/4/2022 3:47 PM

Lars F. Bjoerlo (horizonpolaris)

Needless to say, she also has a veto.

4/4/2022 5:36 PM

Lars F. Bjoerlo (horizonpolaris)

Well, as I see it this is about intimacy, not just sex as such. You can't achieve the contact sought after with other elements requiring attention at the same time.

4/4/2022 6:05 PM

Lars F. Bjoerlo (horizonpolaris)

Now that's the spirit! Let's create! :)

4/4/2022 6:15 PM

Lars F. Bjoerlo (horizonpolaris)

Your social status is not what gets you there. Healthy genes however...

4/4/2022 6:47 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah there are secrets and secrets. I'm sure you see the difference :) Not in the habit of kiss'n-tell..

4/4/2022 7:07 PM

Lars F. Bjoerlo (horizonpolaris)

Gene machine. Concept built on a geometrical shape with a total of 72 surfaces...

4/4/2022 7:21 PM

Lars F. Bjoerlo (horizonpolaris)

Well, what happened to the neanderthals? After living side by side for some time they vanished. Leaving some sequences in the modern human genome after crossbreeding. I think we can safely say they were displaced by us. To do the same today we could create a model which keep ideal things at a maximum rate per generation. The displacement itself could take centuries - at least.

4/4/2022 7:22 PM

Lars F. Bjoerlo (horizonpolaris)

..if not millennia..

4/4/2022 7:27 PM

Lars F. Bjoerlo (horizonpolaris)

It is driven by free will to choose. People could in an ideal world choose not to procreate to speed up things. By things I'm talking about cleaning the genome from alien DNA and also enable hemi-sync of the brain.

4/4/2022 9:36 PM

Lars F. Bjoerlo (horizonpolaris)

(Yess! Back in my main OS)

4/5/2022 12:45 AM

Lars F. Bjoerlo (horizonpolaris)

System restore was accidentally shut down, but I managed to uninstall the update that was pending restart and remove password security from my account. All this from another environment. Kinda neat. I switched the restore function on and immediately made a restoration point. Anyway - got a date with my new bed coming up soon. The electronics in the bedroom are in a bit of a disarray right now, but it's not like I need more screen time when I finally jump under the blanket.

4/5/2022 3:09 PM

Lars F. Bjoerlo (horizonpolaris)

Heeey. Been working. Technician today. Customers apartment, both DVB-C and internet ++. I like those jobs where I get to go home to people. Home now. Having the second beer from the two I bought several days ago. You guys doin'?

4/5/2022 3:37 PM

Lars F. Bjoerlo (horizonpolaris)

Thank you. I really appreciate the warm welcome. :)

4/5/2022 3:43 PM

Lars F. Bjoerlo (horizonpolaris)

Means the world to me ;)

4/5/2022 8:53 PM

Lars F. Bjoerlo (horizonpolaris)

Thank you for your declaration of love, dear. I don't think I love you any less, but I am going to bed early today.. :)

4/5/2022 9:59 PM

Lars F. Bjoerlo (horizonpolaris)

There's not one minute going by without me thinking of you or checking my feed. Today I'm beyond tired, which is ok as long as everything else allows it. We will have time to talk more ;) Good night honey, good night Father and good night to the rest. I'm so glad we're here. *OmniHug*

4/6/2022 4:56 PM

Lars F. Bjoerlo (horizonpolaris)

Hepp hepp. New day. I can't really use the talking radio because I can't stand the music. Up until now there has only been automated trance-channels which has it's pro's and con's. It's probably because I'm not paranoid anymore, but I also think I get better vibes with the no talk concept. I'm not really looking for anything in particular either this time around. All the conclusions we need were there when you cut me off last time. And not being psychotic also means that I have to allocate time and resources to this meaningless way of life because that's what's real now and even if I'm alone I should maintain a certain order in this regular life. There's nothing really right now requiring my immediate attention. I'm thinking war is war and NATO must by all means not escalate this. If somebody should intervein, they should of course be operating with a UN mandate. That's not realistic because Russia is in the security council and I doubt they will claim a problem with their own hability in this case. So - what can I do present time?

4/6/2022 5:00 PM

Lars F. Bjoerlo (horizonpolaris)

Trust me, I'm lovesick too. I'd call it lifesick in my case, because love is just one of many things missing. Just having a life. Some sensible substance.

4/6/2022 5:02 PM

Lars F. Bjoerlo (horizonpolaris)

This is all I have that makes sense and I've been without since being cut off back then. It's a good thing you're back with my purpose and for real this time.

4/6/2022 5:08 PM

Lars F. Bjoerlo (horizonpolaris)

I'm environmentally damaged from being alone too long. Whenever I do have company I tend to overdose on it within a few hours. Then all of a sudden I feel like needing my solitude.

4/6/2022 5:17 PM

Lars F. Bjoerlo (horizonpolaris)

I am of course wondering when this will turn. I can definitively say I feel better since you guys switched me back on, but being around a buzzing hive of people? Like I said, I wonder when I'll be able to appreciate that as my norm.

4/6/2022 6:54 PM

Lars F. Bjoerlo (horizonpolaris)

Cleaning again. Now it's even likely to take that footage I've been promising..

4/6/2022 7:00 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah yeah calm down. I am real and not going away. :)

4/6/2022 9:08 PM

Lars F. Bjoerlo (horizonpolaris)

Like I said earlier the justice part is far down on my list of priorities, but as far as resources go, I am convinced of the necessity. In other words I'm not convinced this ain't happening to anybody else. The quality of the decisions made here are beneath any kind of criticism. My 16 year old daughter would have argued any case better than the DA does. Or written a better verdict that actually makes some kind of sense.

4/6/2022 9:11 PM

Lars F. Bjoerlo (horizonpolaris)

If you're unable to see a problem here, then you're part of it.

4/6/2022 9:18 PM

Lars F. Bjoerlo (horizonpolaris)

My drug addiction may be sad to you, but it's definitively real. Just be open about it and over time get rid of it is what I plan to do. Not so keen on being perfect and you can't afford to wait any longer. Everything will sort itself out, but in its own natural pace.

4/6/2022 9:18 PM

Lars F. Bjoerlo (horizonpolaris)

..and order..

4/6/2022 9:26 PM

Lars F. Bjoerlo (horizonpolaris)

I am glad though that police is watching and learning as we speak.

4/6/2022 9:32 PM

Lars F. Bjoerlo (horizonpolaris)

I have treated the entire experience as an investigation. It's going to trial.'

4/6/2022 9:34 PM

Lars F. Bjoerlo (horizonpolaris)

Question is who to hold accountable. If I pull all the names out of the publicly available documents on me - there's only one person out of hundreds that had the right idea.

4/6/2022 9:35 PM

Lars F. Bjoerlo (horizonpolaris)

Now that's even more sad than my drug consumption.

4/6/2022 9:38 PM

Lars F. Bjoerlo (horizonpolaris)

Should explain why I have a drug problem in the first place. Ain't nothing on the other side that I don't already have.

4/6/2022 9:41 PM

Lars F. Bjoerlo (horizonpolaris)

..or at all interested in..

4/6/2022 9:41 PM

Lars F. Bjoerlo (horizonpolaris)

A keyword is prejudice. I don't need that.

4/6/2022 9:47 PM

Lars F. Bjoerlo (horizonpolaris)

I'm in no shape to start running around with my camera, upload youtube etc etc tonight, but I'mma make sure it stays at this level. Today I got my fridge re-hinged. And before that I had to make the place presentable. Tired, but good tired. Right now I feel like entertaining myself before going to bed. Work tomorrow, but not before lunch-time.

4/6/2022 9:52 PM

Lars F. Bjoerlo (horizonpolaris)

I figure if you're willing to put your name on a document in the first place - it is because you're certain of what you're doing, right?

4/6/2022 9:53 PM

Lars F. Bjoerlo (horizonpolaris)

When that goes wrong and the consequences knock on your door you should be fine, right?

4/6/2022 9:53 PM

Lars F. Bjoerlo (horizonpolaris)

Like it shouldn't be possible to convict someone of something they didn't do, right?

4/6/2022 9:55 PM

Lars F. Bjoerlo (horizonpolaris)

I'm glad we're eye to eye on what that means in practical terms.

4/6/2022 9:57 PM

Lars F. Bjoerlo (horizonpolaris)

If you were less arrogant I'd might sympathize.

4/6/2022 10:01 PM

Lars F. Bjoerlo (horizonpolaris)

I'm significantly tougher on my own than their colleagues overseas. Because I expect significantly better of my own.

4/6/2022 10:10 PM

Lars F. Bjoerlo (horizonpolaris)

This is reasonable because we're only 5 million people here and practically no gun violence.

4/6/2022 10:13 PM

Lars F. Bjoerlo (horizonpolaris)

Just to put it in perspective how few this is; Coach has some five times that following on twitter. Five Norway's or Denmark's (about the same) or more than two Sweden's. Well, the entire Scandinavia more or less. Every one.

4/6/2022 10:15 PM

Lars F. Bjoerlo (horizonpolaris)

..and she's not in particular high-profiled if you compare with the ones topping some billboard list or whatever...

4/6/2022 10:16 PM

Lars F. Bjoerlo (horizonpolaris)

Point is - there are a heck of a many people there. We're approaching 100 times more.

4/6/2022 10:17 PM

Lars F. Bjoerlo (horizonpolaris)

kinda clumsy expressed, he he, but you get where I'm going and why I have to stick to English.

4/6/2022 10:21 PM

Lars F. Bjoerlo (horizonpolaris)

With so many citizens and the likelihood of getting shot at the job - we're talking very different work environment I'd say.

4/6/2022 10:29 PM

Lars F. Bjoerlo (horizonpolaris)

You have cancer, basically. Chemo and radiation aren't desirable, but the only way.

4/6/2022 10:31 PM

Lars F. Bjoerlo (horizonpolaris)

I wouldn't do anyone a favor by pretending not to know.

4/6/2022 10:44 PM

Lars F. Bjoerlo (horizonpolaris)

Who's gonna treat this condition if I don't?

4/6/2022 10:46 PM

Lars F. Bjoerlo (horizonpolaris)

Exactly. As far as forgiveness goes, I'm not at home. I'm there where I'm needed the most. I haven't even established an emotional bond to any civil servicemen of this nation.

4/6/2022 10:47 PM

Lars F. Bjoerlo (horizonpolaris)

I basically couldn't care less.

4/6/2022 10:55 PM

Lars F. Bjoerlo (horizonpolaris)

And truth be told - I'd rather not. I have no desire of seing the inside of a norwegian court room ever again, but will appear when I have to or really should.

4/6/2022 10:56 PM

Lars F. Bjoerlo (horizonpolaris)

That's the best I can offer.

4/6/2022 10:57 PM

Lars F. Bjoerlo (horizonpolaris)

If it's any comfort to you, the Germans are in trouble too.

4/6/2022 10:59 PM

Lars F. Bjoerlo (horizonpolaris)

I need to know that people get treated right. You obviously don't givvash**

4/6/2022 11:09 PM

Lars F. Bjoerlo (horizonpolaris)

To your information: the same day I made the bomb-threats I was told to do (like this way) from Berlin, I made some calls to UK and USA too. Why do you think they never pressed charges? We're talking Gatwick, Heathrow + NYC stock exchange. Not a word from either the Yard or the Feds. Please explain that to me.

4/6/2022 11:11 PM

Lars F. Bjoerlo (horizonpolaris)

*neither/nor little sloppy tryna chill

4/6/2022 11:19 PM

Lars F. Bjoerlo (horizonpolaris)

By now you are heavily outnumbered and morally inferior. Keeping this hidden is no longer in your power to decide. Now you're also aware how criminal such an act would be to the entire planet.

4/6/2022 11:20 PM

Lars F. Bjoerlo (horizonpolaris)

Are you really that cowardice?

4/6/2022 11:20 PM

Lars F. Bjoerlo (horizonpolaris)

..in that case you'll burn for sure.

4/6/2022 11:31 PM

Lars F. Bjoerlo (horizonpolaris)

And take off that uniform!

4/6/2022 11:34 PM

Lars F. Bjoerlo (horizonpolaris)

This is a game you could never win and I have always taken comfort in that fact.

4/6/2022 11:34 PM

Lars F. Bjoerlo (horizonpolaris)

Hartmann behind bars. Nice thought. :)

4/6/2022 11:36 PM

Lars F. Bjoerlo (horizonpolaris)

Pick at someone your own size!

4/7/2022 12:00 AM

Lars F. Bjoerlo (horizonpolaris)

White flag? That's like asking Zjukov to halt on the Berlin periphery. I'm getting these fascists! End of debate!

4/7/2022 12:01 AM

Lars F. Bjoerlo (horizonpolaris)

Not in particular because they're fascists, but because they are incompetent and corrupted.

4/7/2022 12:03 AM

Lars F. Bjoerlo (horizonpolaris)

..and when busted whines like a bit**. and flips on every guy in the phonebook. Trust me. I know this kind of type.

4/7/2022 12:08 AM

Lars F. Bjoerlo (horizonpolaris)

Every single rule, both un- and written, was systematically broken over and over again. Shutting my eyes to this would make me an accomplice.

4/7/2022 12:09 AM

Lars F. Bjoerlo (horizonpolaris)

It's the people in most cases, not the rules...

4/7/2022 12:14 AM

Lars F. Bjoerlo (horizonpolaris)

Take notice I discriminate in the sense that one way it's squeeling and the other way is doing one's duty. There are different rules applied between uniforms and others. Like you can't rat on your cellmate, but you can with a correction officer.

4/7/2022 12:20 AM

Lars F. Bjoerlo (horizonpolaris)

We're talking neglect to a criminal extent as the mildest ranging to treason and attempted murder.

4/7/2022 12:23 AM

Lars F. Bjoerlo (horizonpolaris)

Anything else criminal on top of this after this day would be against humanity. The only charge that can give 30 years in this country where 21 usually is max.

4/7/2022 12:26 AM

Lars F. Bjoerlo (horizonpolaris)

false charges, tampering with evidence, violence, harassment, theft, animal cruelty, I mean the list goes on and on like forever.

4/7/2022 12:32 AM

Lars F. Bjoerlo (horizonpolaris)

Don't you worry. We'll find time. In the meantime get rid of the people causing all of this. That's the least you could do. Suspend them until you know more about each and every one.

4/7/2022 12:47 AM

Lars F. Bjoerlo (horizonpolaris)

Well, that's the point, isn't it? Winning?

4/7/2022 12:48 AM

Lars F. Bjoerlo (horizonpolaris)

At any price apparently...

4/7/2022 12:51 AM

Lars F. Bjoerlo (horizonpolaris)

Probably not what you wanna hear right now, but I told you so. Repeatedly.

4/7/2022 12:55 AM

Lars F. Bjoerlo (horizonpolaris)

True, I changed along the way. You should tell that to the judge. And the Baneheia-families + the poor bastard that did the time because of you arrogant pricks! I mean, seriously: FU!

4/7/2022 1:27 AM

Lars F. Bjoerlo (horizonpolaris)

I have residence in this country for the time being, but that is changing soon. This is the right time to start ratteling my chains.

4/7/2022 1:41 AM

Lars F. Bjoerlo (horizonpolaris)

After all, there is a good reason why I present myself as European rather than specifically Norwegian. Long time since I had that 8th or 17th of May vibe. This country has lost its soul. I wonder what the King feels about this...?

4/7/2022 1:42 AM

Lars F. Bjoerlo (horizonpolaris)

He's head of Church by constitution here.

4/7/2022 1:45 AM

Lars F. Bjoerlo (horizonpolaris)

If I said "mini pope" I would probably offend him deeply, he he ;) He's also the supreme commander of the army. And sole proprietor of all Norwegian currency.

4/7/2022 1:46 AM

Lars F. Bjoerlo (horizonpolaris)

I like the guy. Down to Earth, dear fella.

4/7/2022 2:00 AM

Lars F. Bjoerlo (horizonpolaris)

Wanna know the worst part of what they did to me? They charged me with the fire in my father's house. No way I'mma let that slide. (God "kveld" Deres M)

4/7/2022 2:01 AM

Lars F. Bjoerlo (horizonpolaris)

Rotten to the core. All of it. Lies lies lies.

4/7/2022 2:05 AM

Lars F. Bjoerlo (horizonpolaris)

It's gonna feel great to know they can never hurt anyone again.

4/7/2022 2:05 AM

Lars F. Bjoerlo (horizonpolaris)

Making society a safer and better place for everyone else.

4/7/2022 2:08 AM

Lars F. Bjoerlo (horizonpolaris)

That's why I'm in this line of work. What motivates you guys?

4/7/2022 2:20 AM

Lars F. Bjoerlo (horizonpolaris)

Yes we've accounted for all possible futures. You could see a situation from eight sides usually when analyzing something that changes due to time. We even had several nuclear scenarios. There are in fact quite some, but only one correct route out of this maze.

4/7/2022 2:35 AM

Lars F. Bjoerlo (horizonpolaris)

They drove me like a whipped piece of hy back there. No wonder I had PTSD when I got back, but instead of treatment and medication they threw me in jail with no verdict and threw away the key.

4/7/2022 2:36 AM

Lars F. Bjoerlo (horizonpolaris)

Alright enough is enough. I'm gonna have to sleep soon.

4/7/2022 2:38 AM

Lars F. Bjoerlo (horizonpolaris)

There's no limit for how long my tale of misery could have been, but in the larger perspective of things I'm the lucky guy. I'm not losing track of this reason to be humble.

4/7/2022 2:51 AM

Lars F. Bjoerlo (horizonpolaris)

Your Majesty, everybody, signing out.

4/7/2022 2:57 AM

Lars F. Bjoerlo (horizonpolaris)

Definitively a tough love recipe for this one your Highness. Until next time...

4/7/2022 3:19 AM

Lars F. Bjoerlo (horizonpolaris)

You're goddamn right it's you not me. How about reading the very texts you used against me in court in its entirety, or check out my social profiles or, or, or , or ?????

4/7/2022 3:20 AM

Lars F. Bjoerlo (horizonpolaris)

How come they 3000 miles over there recognizes the meaning of this and you don't? You have much more education and are very carefully picked for this job.

4/7/2022 3:22 AM

Lars F. Bjoerlo (horizonpolaris)

You just have no defense whatsoever other than that I changed allegedly as you put it. Newsflash: I've been the same guy all along.

4/7/2022 3:23 AM

Lars F. Bjoerlo (horizonpolaris)

What changed is I started self medicating from the condition you put me in.

4/7/2022 3:27 AM

Lars F. Bjoerlo (horizonpolaris)

While you just hoped I'd die in silence before anyone detected what you'd done. Scum!

4/7/2022 3:32 AM

Lars F. Bjoerlo (horizonpolaris)

Ah let'em fry. Bed is extremely gravitational right now. zzzz

4/7/2022 11:23 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning. Drama? Well, this time fortunately, they won't get away with what they did and are most likely still doing to people. I don't know what else to say, really. And I basically hate this topic.

4/7/2022 11:25 AM

Lars F. Bjoerlo (horizonpolaris)

They would never regret this if they weren't caught.

4/7/2022 11:26 AM

Lars F. Bjoerlo (horizonpolaris)

Despicable beings.

4/7/2022 11:28 AM

Lars F. Bjoerlo (horizonpolaris)

Anything happening over at your place?

4/7/2022 12:17 PM

Lars F. Bjoerlo (horizonpolaris)

I am needed at work today. Leaving soon, but I imagine I'll have plenty of time for twitter.

4/7/2022 12:30 PM

Lars F. Bjoerlo (horizonpolaris)

Wish I was a fly on the wall certain places.

4/7/2022 1:08 PM

Lars F. Bjoerlo (horizonpolaris)

I'm here. Watching news on my right, watching feed to the left. Listening to p4 while reading text on tv.

4/7/2022 1:46 PM

Lars F. Bjoerlo (horizonpolaris)

Ok guys - here's what was going on while I was in Berlin: Both Norway and Germany had elections in 2013. My former party, Labour, had held the government with the current NATO boss as primeminister for a very long time. It was time for a shift and for the very first time the Right and the UltraRight were forming a coalision. The thought from my side being that this new coalision would probably be somewhat closer to the "ideology" that dominates American politics. The basic idea was to make an exostate from which new policies could be tested in small scale with a sensible price tag, and the best thing about the arrangement is the fact that our government owns the biggest trust fund there is. We can afford this. Anyway - a rough sketch of what ideas we had. I sorta lost my enthusiasm to the idea of working with any of the people here. It's a sad thing really. We should be equally eager to change things for the better, but somehow we don't speak the same language.

4/7/2022 2:24 PM

Lars F. Bjoerlo (horizonpolaris)

The question of where we would have been today if you hadn't f**** us up that bad remains. I should have been taken straight to treatment and been back in six months. It's been almost a decade and you're still on my case. WTF is wrong with you people? I suppose the good Lord has a meaning with all this.

4/7/2022 2:29 PM

Lars F. Bjoerlo (horizonpolaris)

And my journey of forgiveness previously mentioned was for them and in a completely different context. It's like the Americans quickly discovered; if you hand out a death sentence to every nazi there'll be nobody left to build the country. The US now is like if you take one you gotta take them all. Such an entanglement of such proportins must necessarily just be deleted in its entirety. There's simply no way around forgiving thy neighbor for the average American.

4/7/2022 2:37 PM

Lars F. Bjoerlo (horizonpolaris)

Phunny. My lawyer called. They are moving my appeal to a different court. The date is set for 17th of June. #FlamingJune

4/7/2022 2:40 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. Isn't this corresponding with another significant happening?

4/7/2022 2:51 PM

Lars F. Bjoerlo (horizonpolaris)

I haven't forgotten which happening. I'm just reluctant to state it out loud.

4/7/2022 2:53 PM

Lars F. Bjoerlo (horizonpolaris)

I believe it when I see it.

4/7/2022 3:28 PM

Lars F. Bjoerlo (horizonpolaris)

You're absolutely right, dear. I have nothing to say. I feel what I would call "scrunged". It's not my happy-place. I can't see a foot in front of me when it comes to this.

4/7/2022 3:28 PM

Lars F. Bjoerlo (horizonpolaris)

Extremely frustrating to everybody, not just me.

4/7/2022 3:52 PM

Lars F. Bjoerlo (horizonpolaris)

Everything about this place is just choking me. I seriously need to pick of a different vibe right now. I feel physically ill from going through this for the millionth time basically. Can you help me change the subject, dear?

4/7/2022 3:56 PM

Lars F. Bjoerlo (horizonpolaris)

Oh, so you enjoy this topic, dear? ;)

4/7/2022 5:18 PM

Lars F. Bjoerlo (horizonpolaris)

Home. No dinner at dad's today. I should be all over this dinner issue, but I just feel like closing the curtains and watch Netflix in darkness. The weekend has begun as far as I'm concerned.

4/7/2022 5:28 PM

Lars F. Bjoerlo (horizonpolaris)

"What is this civilian doing in my room?" Do you remember hon? First time we met. I wouldn't speak to you for three days, ha ha :D

4/7/2022 5:41 PM

Lars F. Bjoerlo (horizonpolaris)

The problem was I didn't want you to see me like that, you know.

4/7/2022 6:15 PM

Lars F. Bjoerlo (horizonpolaris)

Not happening. Such harassment is completely unacceptable. We don't do stuff like that by definition here in the free world, remember? Now people can flee and seek asylum from the Norwegian government. Hope it makes you proud.

4/7/2022 6:16 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not really up for debating this issue any further. I threw you a line countless times, but this is faaaar too late.

4/7/2022 6:20 PM

Lars F. Bjoerlo (horizonpolaris)

You're only sorry you got caught. Which in turn makes you real crooks.

4/7/2022 6:21 PM

Lars F. Bjoerlo (horizonpolaris)

Just ain't cutting it for me.

4/7/2022 7:32 PM

Lars F. Bjoerlo (horizonpolaris)

Can you blame me for not seeing a different outcome, baby?

4/8/2022 2:24 PM

Lars F. Bjoerlo (horizonpolaris)

Hello. Babetibabe. Me here just doing nothing. Thinking of the trial and whether to bring witnesses.

4/8/2022 4:18 PM

Lars F. Bjoerlo (horizonpolaris)

Gottcha

4/9/2022 2:02 AM

Lars F. Bjoerlo (horizonpolaris)

Hepp hepp. Been busy. Heard on the news our Supreme Court has made some presedens regarding drug policies. A rather symbolic gesture in my opinion. It could be that I'm supposed to interpret this to mean that they're aware of what's brewing under the surface.

4/9/2022 2:21 AM

Lars F. Bjoerlo (horizonpolaris)

Awesome or epic couldn't cover such a move, honey.

4/9/2022 2:50 AM

Lars F. Bjoerlo (horizonpolaris)

Not to ruin the party, but it kinda depresses me that it's necessary, you know..

4/9/2022 5:39 AM

Lars F. Bjoerlo (horizonpolaris)

Interesting...

4/9/2022 5:42 AM

Lars F. Bjoerlo (horizonpolaris)

Ok, but who?

4/9/2022 5:51 AM

Lars F. Bjoerlo (horizonpolaris)

I just wish there could be another a little more graceful motive behind this.. Patrick Bateman-sh**.

4/9/2022 5:56 AM

Lars F. Bjoerlo (horizonpolaris)

I still have the hand they dealt me and there's no moving on without me at the table. Has it taken this long to realize something they did over a decade ago?? Well, obviously I'm not dead nor delusional. Deal with it!

4/9/2022 6:00 AM

Lars F. Bjoerlo (horizonpolaris)

Take my word for it; I'm 45 and still not born. That's a serious problem. Nothing to envy.

4/9/2022 7:32 AM

Lars F. Bjoerlo (horizonpolaris)

Babe <3

4/9/2022 7:37 AM

Lars F. Bjoerlo (horizonpolaris)

:)

4/9/2022 7:45 AM

Lars F. Bjoerlo (horizonpolaris)

He he he. Don't they all have a lobby these days? ;)

4/9/2022 8:08 AM

Lars F. Bjoerlo (horizonpolaris)

So I'm not the only one benefitting from less paranoia. That's nice. I can dig that.

4/9/2022 8:38 AM

Lars F. Bjoerlo (horizonpolaris)

I don't keep secrets. You of all people know that.

4/9/2022 8:41 AM

Lars F. Bjoerlo (horizonpolaris)

To make it simple: you could easily make a beautiful picture - a still frame. But this system needs motion. In order to create any momentum at all you'll need its creator. The two are inseparable.

4/9/2022 8:43 AM

Lars F. Bjoerlo (horizonpolaris)

I can cope with what's being insinuated here, but that doesn't mean the heat is off all the sociopaths making up our justice system.

4/9/2022 8:59 AM

Lars F. Bjoerlo (horizonpolaris)

I'm just saying that people would want answers. I'm never gonna change my plea. I want my name cleared by the same institution that tarnished it. Journalists would happily investigate and get to the bottom of who did what. They won't necessarily publish all their findings, but the chance is there.

4/9/2022 9:08 AM

Lars F. Bjoerlo (horizonpolaris)

Not that money is an issue, but it is a principle of whether it's right or wrong. I payed 100,000,- in a victim's settlement which is completely false.

4/9/2022 9:11 AM

Lars F. Bjoerlo (horizonpolaris)

That would be a symbolic victory in the private sphere.

4/9/2022 12:30 PM

Lars F. Bjoerlo (horizonpolaris)

I did do more or less what's stated, but the two most important counts are the "wifebeater/ domestic violence" from the first trial of 2011-12 and the bombthreats from the second trial. The first could just as well have been the other way around. My claim is that what happened don't correlate with the text of the law. It should have been individual counts of "legemsfornærmelse". And a statement supporting that it wasn't really my idea in the first place, and that I might in my confusion have thought that this was a cleared task to take on. Furthermore the other counts,, many instances of threats. I did that, but reading it from the case papers is not a fair light. There are explanations here as to why things became like this. I'm not excusing my behavior. I'm just saying that there were reasons. Some better than others, but the police had been harassing me for years since before my childs mum and I finally went different ways. As far as psychosis goes, it qualifies as insanity as such. The diagnosis is enough in our laws. Whether the court thinks this happened BECAUSE of the mental state or most likely would happen anyway is not our practice to define. Your diagnosis has a definition and when you struggle with what's real or not - your mental state automatically qualifies for acquittal, but you may or may not be convicted to forced treatment, like I have been in addition to some 2,5 years in prison. If I had murdered my x sometime between 2008-10, then I would most likely have served my time and been free - back to square one - a long time ago. A crazy thought, but also a crazy fact. What I'm saying is real.

4/9/2022 12:35 PM

Lars F. Bjoerlo (horizonpolaris)

What's left wouldn't qualify more than 6-8 months at max. It's not even sure they would have bothered.

4/9/2022 12:37 PM

Lars F. Bjoerlo (horizonpolaris)

There's just so much to say, but I'm not elaborating any further unless I get a question, of course.

4/9/2022 12:46 PM

Lars F. Bjoerlo (horizonpolaris)

When this apparatus gathers momentum you'll just get run over. Being heard is impossible. Victim. Perp. Truth be told this shouldn't have been anything. Usually when two parties fight and they share equal guilt from the looks of it, each persons liability is cancelled out.

4/9/2022 12:50 PM

Lars F. Bjoerlo (horizonpolaris)

Before changing topic I just wanna say that my x and I are having a completely normal dialogue as the parents of our girl (16). The kid however believes the printed version and holds it against me to this very day. Now she's practically an adult. Can't get back her lost childhood no matter how hard we wish for it.

4/9/2022 12:54 PM

Lars F. Bjoerlo (horizonpolaris)

I'm very serious about confronting these experiences because I wouldn't want this for my worst enemy.

4/9/2022 1:01 PM

Lars F. Bjoerlo (horizonpolaris)

They went as far as manufacturing the claims that I had burned down my father's house. Who would do such a thing, you know? Why doesn't this carry any risk to the prosecutor? It's flat out wrong and evil. My father was denied insurance at first because of this. He could very well have lost the house for good.

4/9/2022 1:09 PM

Lars F. Bjoerlo (horizonpolaris)

It's beyond hurting just me. It's my family too. Even my dog, who died a slow painful death because they could. They broke in without a warrant numerous times. They came in uniform to my parents, my friends - at one friend's place they even busted a window. Because of me...

Alright. Nuff complaining. Haven't really handled this material in a long time. It is in essence behind me. I'm still in this sh**hole, but I'm elsewhere in mind. Being me has some advantages when it comes to escaping one's own life.

4/9/2022 1:31 PM

Lars F. Bjoerlo (horizonpolaris)

Well, yeah, now we're here. It's very satisfying doing this thing with you this time around. I have this space with you where I don't need to struggle or wear masks.

4/9/2022 1:36 PM

Lars F. Bjoerlo (horizonpolaris)

And stuff gets sooooo much easier as long as one sticks to truth. Oh yes there are challenges, but being known for truthfulness is indeed valuable. When there's nothing left and everything is in shreds, you still got your integrity. A consciously chosen set of ethics with which one navigates time.

4/9/2022 2:02 PM

Lars F. Bjoerlo (horizonpolaris)

You know what I'm saying. Even though I'm not accountable by law, I have never made an attempt to deny guilt. Sitting here all these years wiser makes you wonder how life would have been without the stigma. And when being honest it just doesn't feel fair and that is the total of what I'm saying. It's not like I should expect special treatment the other way...

4/9/2022 2:16 PM

Lars F. Bjoerlo (horizonpolaris)

Funny thing though - there are a few things about prison that I appreciate having today. In spite of drug use since 16, I had only 1 prior from 2002. I remember being cocky and thinking that they're there for a reason. I suspect this is a common way of perceiving the concept of taking someone's freedom away. I met a whole bunch of people in there - myself included.

4/9/2022 2:46 PM

Lars F. Bjoerlo (horizonpolaris)

Two souls one thought. The German experience was... ..exotic... :/

4/9/2022 2:56 PM

Lars F. Bjoerlo (horizonpolaris)

Heh.. (speechless) ..but baby? I think you should think of yourself a little bit more. Always on for someone else. Hey. Soon, you know. Are you ready? As in more ready than I am? I don't think it's possible to ready one self for something like this, us...

4/9/2022 3:20 PM

Lars F. Bjoerlo (horizonpolaris)

I usually just exclude the fear by will, but every once in a while I can feel an existential unease sneak up on me. Can't get cold feet now, he he. I'm not so worried about the falling distance I've made for myself (and you I suppose). All of that is embedded in my spine. But meeting up for the first time...You know what? I'm gonna have to take it then and there. Just have no plan - totally improvise. What's your plan babe? :)

4/9/2022 3:25 PM

Lars F. Bjoerlo (horizonpolaris)

Yup. I sure do. I wouldn't had it any other way, darling. *kiss*

4/9/2022 3:37 PM

Lars F. Bjoerlo (horizonpolaris)

lol

4/9/2022 3:38 PM

Lars F. Bjoerlo (horizonpolaris)

#fumare

4/9/2022 5:34 PM

Lars F. Bjoerlo (horizonpolaris)

I saw this documentary mini series about Jimmy Saville. Gotta admit I never knew that story or that guy at all. I can recall Pat Sharp from when I was a kid, but that's about the only Brit I know who is, except from the Royals and an occasional politician or two. Anyway - Evil accompanied with sexuality is far too often linked somehow. It's so hard to imagine a living person could just treat reality like his own private amusement park where sticking your fingers up kids' anuses is really what gets you off. It's impossible to figure out what drives

such behavior. I think I have some capacity for evil. I could probably do just about anything if the circumstances dictated huge desperation of some kind. It's just that my hatred feels completely detached from anything sexual whatsoever. To be cruel or sexual cruel are two different things in the end.

4/9/2022 5:38 PM

Lars F. Bjoerlo (horizonpolaris)

The betrayal of the public is just so ridiculously complete. Very strange phenomenon.

4/9/2022 5:57 PM

Lars F. Bjoerlo (horizonpolaris)

Kids shouldn't sort under the term "fruit" regardless how forbidden. Kids are kids. Young girls are pretty and that will never change. The only thing changing is yourself getting older. And as time goes by you still see beauty, but with a certain distance. I myself usually stroll down memory lane if I see something or something reminding me of my own teens. I don't feel different, just more mature, having much more memories than a young adult.

4/9/2022 5:58 PM

Lars F. Bjoerlo (horizonpolaris)

something/someone

4/9/2022 6:00 PM

Lars F. Bjoerlo (horizonpolaris)

(driving myself nuts from all the typo's and use of the wrong preposition. Fortunately I'm being understood..)

4/9/2022 6:00 PM

Lars F. Bjoerlo (horizonpolaris)

much/many etc etc

4/9/2022 6:04 PM

Lars F. Bjoerlo (horizonpolaris)

But come to think of it; Beauty pageants with tiny kids is an especially American thing. Wouldn't such arrangements be like fly paper on sketchy people, or is it just my imagination running wild?

4/9/2022 6:19 PM

Lars F. Bjoerlo (horizonpolaris)

When we effectively start consuming people - that's when reasonably enough should be enough. I think we're quite past that. Do you have any thoughts?

4/9/2022 6:30 PM

Lars F. Bjoerlo (horizonpolaris)

I've reached the conclusion that perhaps we're just not meant to understand all kinds of evil. I have no problem just leaving it there.

4/9/2022 6:33 PM

Lars F. Bjoerlo (horizonpolaris)

I mean, staring into the abyss for too long and...

4/9/2022 6:34 PM

Lars F. Bjoerlo (horizonpolaris)

It can't possibly bring good the way I see it. I have this vibe with Putin nowadays.

4/9/2022 6:44 PM

Lars F. Bjoerlo (horizonpolaris)

At some point that facade will develop cracks. Loyalty has to take a dip below 100% eventually. That's probably what all the money is for. Speculating freely out loud here. But under different circumstances would he bring his personal fortune to the table for the benefit of his people? Would that at all make sense to a guy like Vladimir?

4/9/2022 6:46 PM

Lars F. Bjoerlo (horizonpolaris)

I'm still handing out some benefit of small doubts. When it comes to this guy nothing is obvious.

4/9/2022 6:50 PM

Lars F. Bjoerlo (horizonpolaris)

Again, speculating, but I think this mystique ultimately will prove advantageous - good in our column.

4/9/2022 6:52 PM

Lars F. Bjoerlo (horizonpolaris)

Upon decoding his agenda, we could possibly bring that invasion to a stop.

4/9/2022 6:56 PM

Lars F. Bjoerlo (horizonpolaris)

I'm still openminded in the sense that I imagine us in a room where I can ask anything, but perhaps not repeat the answers I get after I leave his presence.

4/9/2022 7:04 PM

Lars F. Bjoerlo (horizonpolaris)

Stealing time or buying time. We can't determine which just yet.

4/9/2022 7:04 PM

Lars F. Bjoerlo (horizonpolaris)

But make no mistake - this is communication anno 2022.

4/9/2022 7:16 PM

Lars F. Bjoerlo (horizonpolaris)

We should probably agree to dance to these notes and achieve progress that way. He's being very insisting upon his ways. This means there is no other way if we want more answers. I don't think there will be any sudden moves that could get out of hand. This crisis is physically contained and must by *** himself remain exactly that. This is consistent with what we already know, hence the nuclear semi-threats. He doesn't want to start something that can't be stopped. Neither do we. That's why we can take this dance.

4/9/2022 7:29 PM

Lars F. Bjoerlo (horizonpolaris)

The Party. Oh yes. I know what that means. 1st of May, red flags with a hammer, people calling for solidarity while singing communist songs and holding hands. I grew up in it too. In fact I used to know a guy who personally was responsible for Trotskyj's security/whereabouts while being on the run in/through Norway. I also knew a guy who was present at sea by Hiroshima that very day. Germans were still nazi's the way I recall my childhood. It was like ww2 breathed down our necks still. And the new fear - nukes+cold war=very real threat level. The adults were genuinely scared.

4/9/2022 7:50 PM

Lars F. Bjoerlo (horizonpolaris)

I don't know who's asking if this is real, but yes my friend - there will never exist a computer that could replicate a human life and run a scam from it. Not like this. Basic knowledge should clearly favor hundreds of millions of years of evolution over a technical device that has a bunch of on/off switches. The term artificial intelligence is misleading. And were you to create such an abomination - what the hell for? You're entering a strange room with all these panels and switches and immediately you head towards the dangerous looking ones - them blinking all red - and then start frantically pushing all these buttons while having no clue. This so-called intelligence must be restricted and defined up front - not when you're wise from damage and loss.

4/9/2022 7:55 PM

Lars F. Bjoerlo (horizonpolaris)

The AI running this show has human input all the time. It's good with references, words and numbers, but it's dead and stupid like a piece of loaf. I can make this monster start running circles so fast it crashes.

4/9/2022 7:58 PM

Lars F. Bjoerlo (horizonpolaris)

It's difficult to explain how I saw the machine in my mind while being in a very different mental state, but the closest way I can describe it is like a 3d grid/cube working sorta like chess, but with hundreds of different pawns in play.

4/9/2022 8:02 PM

Lars F. Bjoerlo (horizonpolaris)

It does learn to some extent, but very often selects to run a sequence over and over in a random loop, meaning it varies between a set of strategies repeatedly failing. A human would never behave like that. Not even when crazy.

4/9/2022 8:09 PM

Lars F. Bjoerlo (horizonpolaris)

Bottom line: you introduce two different parameters, vectors that you know are on collision course. Voila it breaks down.

4/9/2022 8:14 PM

Lars F. Bjoerlo (horizonpolaris)

"Disco Death Machine" is in the stream. Good title - that's exactly what it is. It keeps going, making our world 2d and pushes us all over the edge/event horizon.

4/9/2022 8:15 PM

Lars F. Bjoerlo (horizonpolaris)

Yep. You should definitively walk away from this one.

4/9/2022 8:47 PM

Lars F. Bjoerlo (horizonpolaris)

From where I stand it looks like we're all after the same thing. Secure tomorrow.

4/9/2022 9:12 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah we are what we are. That's Russian for "you're alright, dude". :) Thanks for the recognition guys. Let's keep on moving, shall we?

4/9/2022 9:27 PM

Lars F. Bjoerlo (horizonpolaris)

"Lullaby For A Soldier" ***hair standing allover***

4/9/2022 9:29 PM

Lars F. Bjoerlo (horizonpolaris)

There's a song on Pink Floyds "The Wall" that is called "Bring the boys back home".

4/9/2022 9:45 PM

Lars F. Bjoerlo (horizonpolaris)

Baby steps here, but this dance is getting interesting.

4/9/2022 9:59 PM

Lars F. Bjoerlo (horizonpolaris)

yes honey I'm fine, thanks for asking. How's your day unfolding? I don't know whether you are East or West coast time. I assume we're talking the full nine hours behind..?

4/9/2022 10:18 PM

Lars F. Bjoerlo (horizonpolaris)

"A nice world" sure has my vote. Come to think of it - it doesn't require much from each and everyone, but it does require something. Minor adjustments in attitude and how to conduct around others. You know, be considerate and civilized.

4/9/2022 10:28 PM

Lars F. Bjoerlo (horizonpolaris)

I'm convinced that we all know how. It's just finding the reason to put in the effort.

4/9/2022 10:29 PM

Lars F. Bjoerlo (horizonpolaris)

Do we believe in another day, or let me rephrase; do we want to believe in another day?

4/9/2022 10:43 PM

Lars F. Bjoerlo (horizonpolaris)

(Am I hearing "never again" chanted by you guys on the hill?)

4/9/2022 10:47 PM

Lars F. Bjoerlo (horizonpolaris)

Well then. How to naturally be able to dismantle the current operation and how important is this issue of saving face really? I'm just asking. Next question is how we could help to accommodate such circumstances? Listening.

4/9/2022 10:50 PM

Lars F. Bjoerlo (horizonpolaris)

If we're collectively conscious about it, we could go back in time, but it means we would have to develop the discipline to shut things down. For good.

4/9/2022 10:57 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah while you're at it just keep buying time the same way for a little while. I don't have to like it to see the cost/use math how cold it may sound. I'm not indifferent or unemotional, it's the language required to keep mess as clean as possible.

4/9/2022 10:58 PM

Lars F. Bjoerlo (horizonpolaris)

Could we make an effort not to cause these huge shockwaves?

4/9/2022 11:07 PM

Lars F. Bjoerlo (horizonpolaris)

Yup. I plan to keep my sanity and stick around.

4/9/2022 11:20 PM

Lars F. Bjoerlo (horizonpolaris)

It's been a very rewarding session to me personally today. It's Saturday. This other social case on the other side of the forest wanted to come over. I quickly hide all the evidence pointing towards my "Batcave". Lately it has even been presentable here otherwise. Enjoy your evening. :)

4/9/2022 11:41 PM

Lars F. Bjoerlo (horizonpolaris)

The Bible is full of don't look back analogies for a reason. The thing about turning into salt statues or pillars is merely an image of what I described with the game being stuck without the missing hand. Looking back, holding grudges will freeze you in time. It's the forgiveness theme all over. These are the best guidelines we have. Especially in darkness. Ciao..

4/10/2022 4:55 PM

Lars F. Bjoerlo (horizonpolaris)

Hello guys. Are you ok? Is POTUS in any way informed about our progress? I certainly hope so. Perhaps he could use some hints and winks on how to understand something seemingly irrational. Jumping to conclusions is by far the most common mistake in any kind of diplomacy, including the private disputes one might have with friends or family members.

4/10/2022 4:58 PM

Lars F. Bjoerlo (horizonpolaris)

He he - what's awesome about this trance-theme we're running these days is that the names and titles can be invented on the go in many cases. It makes our sessions very convincing.

4/10/2022 5:04 PM

Lars F. Bjoerlo (horizonpolaris)

..not to mention dynamic in real-time.

4/10/2022 5:06 PM

Lars F. Bjoerlo (horizonpolaris)

Then there is of course avoiding words charged with defining (read: judgmental) meaning, indicating that you've already made up your mind before entering the discussion.

4/10/2022 5:20 PM

Lars F. Bjoerlo (horizonpolaris)

I usually treat situations like crime scenes, also not dangerous every day situations. The clue is to break apart everything and sometimes an image containing words and actions can take a human mind some time to process. Like in total I haven't said much and what I did say came scattered with plenty of time in between. In the meantime my mind is grinding on the issues at hand. And in this particular situation with an ongoing war on our hands and lives to save, I don't watch the action while I think. I sometimes completely cut my self off from the rest of the world because if I was to get stressed by other people's opinions all the time, I would waste lots of time and mental resources on something that really haven't been useful in the thought process at all. Meaning I could have finished sooner if I just followed my own procedure. The concept is in Norwegian called "skjerming" (skjerm=screen) which would in practical terms mean you're putting up a screen to block everything out. It's been taught to me when I have been hospitalized with psychosis problems. All in all it has led to me being far more critical as to what I watch on the screen(s) in front of me, when I watch it and for what reason.

4/10/2022 5:26 PM

Lars F. Bjoerlo (horizonpolaris)

Well, mixing your ego into any dispute is always counterproductive. Just sayin'...

4/10/2022 5:30 PM

Lars F. Bjoerlo (horizonpolaris)

It sorta rubs off on every thought you make, making the individual factors less and less trustworthy. Often your choice of words will be aligned with your intention. Having a huge ego in this just makes you look like a big child.

4/10/2022 5:30 PM

Lars F. Bjoerlo (horizonpolaris)

..and won't produce valid results..

4/10/2022 5:45 PM

Lars F. Bjoerlo (horizonpolaris)

Given my position here I won't comment on his achievements, thoughts or lack there of, but you said it and it basically applies to the entire nation as such.

4/10/2022 5:52 PM

Lars F. Bjoerlo (horizonpolaris)

My thoughts exactly. I know this landscape like the back of my hand and you guys could really use some treatment.

4/10/2022 6:17 PM

Lars F. Bjoerlo (horizonpolaris)

There are reasons to be concerned. The total output is delirious. But the real concern I have is about the individual as well. People are individuals, thus different - in fact unique. You could label everybody with at least one psychiatric condition. I'm not a psychiatrist and therefore I don't think like one either. I see the person, not his/her diagnosis. My impression of these sessions is that they have served multiple purposes. Something like this seems to be an effective approach over the entire spectrum.

4/10/2022 6:22 PM

Lars F. Bjoerlo (horizonpolaris)

When you add x million neurosis's you'll get a pretty freaky total output. It's a beast of biblical proportions and ugliness.

4/10/2022 6:26 PM

Lars F. Bjoerlo (horizonpolaris)

As the cure package I recommend an organized reconciliation process where we step by step reach a 100% agreement on what is real. That debate could go forever, but we need a minimum of things to agree upon as real before we can set out to function together.

4/10/2022 6:29 PM

Lars F. Bjoerlo (horizonpolaris)

Then there's the question of what's important and what's crucial. From there the process is expected to start bearing fruits on your total output.

4/10/2022 6:31 PM

Lars F. Bjoerlo (horizonpolaris)

Sometimes it's useful to start a debate in the opposite end; what's of less importance.

4/10/2022 6:36 PM

Lars F. Bjoerlo (horizonpolaris)

My claim is that you all share an identity for better and for worse. Finding and rediscovering the people's spirit is one of the crucial one's I'd say.

4/10/2022 6:44 PM

Lars F. Bjoerlo (horizonpolaris)

An example, though a very trivial one: In Norway we have a concept called "dugnad". That's something usually organized in a neighborhood by it's citizens or by an organization, say like your children's soccer-team or whatever. It's a voluntary non-monetary contribution that requires you to be hands on while bonding with the other people who show up. Anyway, you

have "smorgasbord" from Sweden. I challenge you to adopt "doognad", which is what I'd like to call that future operation.

4/10/2022 7:06 PM

Lars F. Bjoerlo (horizonpolaris)

Oh yes it's a stretch, but you'd be surprised of how fast you could progress. And just an advice: you don't need to be professional in every way. You know best in which ways you need to be, but don't use me as your scale to level up, because I've spent an unimaginable amount of time just on the polish.

4/10/2022 7:08 PM

Lars F. Bjoerlo (horizonpolaris)

This has to be practical. It has to pay short term and create a development going into the future and generations to come.

4/10/2022 7:23 PM

Lars F. Bjoerlo (horizonpolaris)

Yes you do carry a lot of anger which can be impossible to channel or let out in a safe way. That's what makes you so dangerous. But also predictable. That's not necessarily a bad thing when the game is not about hiding.

4/10/2022 7:27 PM

Lars F. Bjoerlo (horizonpolaris)

;))

4/10/2022 8:50 PM

Lars F. Bjoerlo (horizonpolaris)

True dear. Something to look forward to :)

4/10/2022 9:03 PM

Lars F. Bjoerlo (horizonpolaris)

I have a 10 digit number here starting with a 1. I was hoping it could be a phone number, but I'm one digit short. Darn.

4/10/2022 9:12 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah, like I said, I bothered to invest the time needed to debrief myself before shutting down the entire belief-system we had built. When letting go of the conspiracy I thought I saw I was back to basic. Now upon reactivation I don't suffer from the same symptoms and my conspiracy has become ever so much clearer. Basically it's more these forces just described above than coordinated and calculated efforts. To the extent things are on purpose, it looks very different today motivation-wise. Significantly purer in my mind at least.

4/10/2022 9:14 PM

Lars F. Bjoerlo (horizonpolaris)

Honey, please, you're distracting *lol* :*

4/10/2022 9:16 PM

Lars F. Bjoerlo (horizonpolaris)

Good thing we're not in a hurry, or what sweetie?

4/10/2022 9:22 PM

Lars F. Bjoerlo (horizonpolaris)

It's fun though when you're being both eager and sweet. <3

4/10/2022 9:27 PM

Lars F. Bjoerlo (horizonpolaris)

I don't have issues grinding up there while taking on things. Makes me much more focused and less likely to take everything personal. It should also be mention that the user experience of the AI is much more "streamlined" in lack of a better word.

4/10/2022 9:42 PM

Lars F. Bjoerlo (horizonpolaris)

I'm baffled baby. Where does all this come from? :D

4/11/2022 4:59 AM

Lars F. Bjoerlo (horizonpolaris)

Hold that thought... :)

4/11/2022 1:35 PM

Lars F. Bjoerlo (horizonpolaris)

Morning fellas. Hmmm - Jen was flirty yesterday and all of a sudden this guy came visiting and basically left like an hour ago. I should have been in the dentist chair as we speak. That's the way it goes sometimes. Feel like a jerk when botching an appointment like that. Fortunately I'm not being charged by the hour, but I am feeling bad because I respect my dentist's time schedule. Anyway - what we did cover before that yesterday was good. Let's pick up where we left if there's something on your minds.

4/11/2022 1:49 PM

Lars F. Bjoerlo (horizonpolaris)

I think I'm starting to take on the Russian perspective. It's making ever more sense spending these lives and resources in order to make the rest of the world to look themselves in the mirror. I believe firmly that we're wildly underestimating the endgame here.

4/11/2022 2:54 PM

Lars F. Bjoerlo (horizonpolaris)

So - let's try to understand why one would commit war crimes and at such an early stage already. My theory is that these provocations will serve to make us aware that there's absolutely nothing we can do about it other than condemning the actions in the media. The point is basically to wake everybody up to another reality more consistent with actual, true reality based on facts we already know. This is the reminder. How important is losing face to us? Now that remains to see, but my advice would nevertheless be just to play along and actually do something that will cost us something we can't have back when the conflict is over. There are no options here. The question is how much carnage and mayhem are we willing to stand by and watch before we voluntarily change our minds about what's really going on here. Do we even have press able to launch such a narrative? Or more importantly politicians willing to and capable of swallowing their pride in public?

4/11/2022 3:05 PM

Lars F. Bjoerlo (horizonpolaris)

Heh - you've met Lukaschenko of Belarus privately, haven't you Coach?

4/11/2022 4:07 PM

Lars F. Bjoerlo (horizonpolaris)

It's in essence a hostage situation where you actually have to comply with the villain's demands. Given the scale and the geopolitical situation, following a standard hostage situation procedure is somewhat irrelevant. This guy is gonna walk.

4/11/2022 4:21 PM

Lars F. Bjoerlo (horizonpolaris)

It's also to be considered an act of despair, but not random or futile in any way. In fact I'd say this operation is based on a vast amount of research done over several years prior to this invasion.

4/11/2022 4:23 PM

Lars F. Bjoerlo (horizonpolaris)

"Know thy Enemy"

4/11/2022 4:25 PM

Lars F. Bjoerlo (horizonpolaris)

For me personally it's a litmus-test on how neutral I can actually be when the wind blows from the east.

4/11/2022 4:26 PM

Lars F. Bjoerlo (horizonpolaris)

I'm determined to prove useful to everybody.

4/11/2022 4:29 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I suppose saving face is a significant issue to us as well. We wouldn't be seen "crawling" to Putin. But if bottom line is that we're mad and now also aware of it, we're also expected to make some confessions as to what threatens our way of life from within: ourselves.

4/11/2022 4:31 PM

Lars F. Bjoerlo (horizonpolaris)

At some point we have to start talking about this in public. Until then and probably a while longer, they will probably "do their thing".

4/11/2022 4:33 PM

Lars F. Bjoerlo (horizonpolaris)

With these glasses on he looks brave and noble while we're delusional and running around like headless chickens.

4/11/2022 4:34 PM

Lars F. Bjoerlo (horizonpolaris)

Not exactly flattering. And image is important.

4/11/2022 4:36 PM

Lars F. Bjoerlo (horizonpolaris)

America is in ruins. The sooner we acknowledge this, the sooner we can turn the page.

4/11/2022 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

I see one "problem" with traditional thinking: you already took the bait and proclaimed it by flying POTUS in there to make a series of blunders. The entire trip basically states how far from rational your leader of the free world is. I'm sorry about that.

4/11/2022 4:42 PM

Lars F. Bjoerlo (horizonpolaris)

It's a joke and it's not in particular funny.

4/11/2022 4:49 PM

Lars F. Bjoerlo (horizonpolaris)

(I'm gonna edit this chat one day for typo's and poor/repetitive language. Just gotta close the book first)

4/11/2022 5:50 PM
Lars F. Bjoerlo (horizonpolaris)

Can't help thinking about what we talked about; your anger and predictability. 9/11 was not a terrorist attack. It was an act of war and the WTC made perfect sense to attack in order to start a chain reaction and ultimately a quest for revenge with no expenses spared. At this point you we're already balancing on the edge of what could be sustained economically. 20 years of warfare later you are bled dry. Exactly as planned. I know there are conspiracy theories on this topic. I have to admit that I haven't cared to investigate these claims. I'm gonna tell you why: it doesn't really matter who's to blame for the crumbling towers and the thousands of deaths. Why did it happen on this specific date, is my first concern. There's no secret that you have governments within the government. What if it was yourselves, not because of oil, but rather out of concern for the nation's steady course towards the abyss, that made some people recruit scapegoats to make a spectacular worldwide 911-call? Just a thought.

4/11/2022 5:58 PM
Lars F. Bjoerlo (horizonpolaris)

Either way one could argue that "what comes around goes around" and that it in that sense you brought it upon yourselves one way or another. Think of it as a battle in a larger context. This way it's all of a sudden much less relevant who was directing this attack in the first place or, for that matter getting your hands on the guilty guys who didn't die in the attack. What I'm saying is that the publicly conceived version might be very distorted in terms of what's real and what's not.

4/11/2022 5:59 PM
Lars F. Bjoerlo (horizonpolaris)

But motive matters, right?

4/11/2022 6:01 PM
Lars F. Bjoerlo (horizonpolaris)

Why did this had to happen? Reasonable question. And my best bet is that there is a short concise answer to that question.

4/11/2022 6:03 PM
Lars F. Bjoerlo (horizonpolaris)

HAVE

4/11/2022 6:03 PM
Lars F. Bjoerlo (horizonpolaris)

(grrrrrr)

4/11/2022 6:15 PM
Lars F. Bjoerlo (horizonpolaris)

20 years of warfare on credit ultimately broke you. Which makes the loss of lives even more bitter. All the guys you deployed after the event who died in action did so for what reason? Losing a war isn't a good experience, but it's not the first time. Vietnam, Mogadishu (UN mission) and now the Taliban, pretty much concluding the so-called war on terror. Then there's of course those who benefit regardless of which party loses. And the obvious oil-issue. There could be different layers of interest here and those not in plain sight could have a nobler kind of motivation. I'm just speculating freely again, not writing this in stone.

4/11/2022 6:21 PM
Lars F. Bjoerlo (horizonpolaris)

(Claims of winning anything in Iraq x2 is a bit of a stretch though you took out Saddams army very efficiently. Create peace and democracy isn't easily achieved. Even less so when embarking on a crusade without a proper plan.

4/11/2022 6:24 PM
Lars F. Bjoerlo (horizonpolaris)

20/20 hindsight. Let's not ignore what we've learned.

4/11/2022 6:34 PM
Lars F. Bjoerlo (horizonpolaris)

And keep your eyes on the future phase where we gradually turn down hostile actions and rhetoric's and the two parties that both need to save faces. The practical route should be clear in advance of launching that phase.

4/11/2022 6:37 PM
Lars F. Bjoerlo (horizonpolaris)

It's a nut to crack. Could just as well start mapping up potential routes. Standing there on the sideline not knowing when to do or say what isn't a strategy at all.

4/11/2022 7:00 PM
Lars F. Bjoerlo (horizonpolaris)

Tip: +- equals - and - - equals +

4/11/2022 8:37 PM
Lars F. Bjoerlo (horizonpolaris)

Been out for groceries and when I came back I started making dinner which I just finished. Talking radio today. News. The more I hear, the more convinced I am that it gets a very disproportional level of attention. We don't really need to know all these "facts" and statistics. I worry about the concept "war by media".

4/11/2022 8:47 PM

Lars F. Bjoerlo (horizonpolaris)

And it's not like the media has to prove their speculations in court if you get where I'm heading.

4/11/2022 8:54 PM

Lars F. Bjoerlo (horizonpolaris)

Love the fear, embrace the fear is being said. My claim is that fear is a choice. You don't have to fear if you don't want to. Think about that.

4/11/2022 9:16 PM

Lars F. Bjoerlo (horizonpolaris)

There's a clever way to take on defeat and there are numerous less clever ways. It is in every way an opportunity, for those accustomed to such thinking. It's by far the end of the road because we're not gonna start killing one another. If someone's gonna have to be removed, I'd insist it would be with a WHO/CDC mandate. Less dying, more focus on how to carry on once ashore.

4/11/2022 9:18 PM

Lars F. Bjoerlo (horizonpolaris)

Uhm excuse me, NOT BY FAR is the intended meaning. With an actual tone of voice that would probably be clearer...

4/11/2022 9:21 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I get that. We share this grief.

4/11/2022 9:24 PM

Lars F. Bjoerlo (horizonpolaris)

You should allow yourselves the space to mourn. Completely understandable and a relevant need.

4/11/2022 9:47 PM

Lars F. Bjoerlo (horizonpolaris)

Your minds won't quiet for a long time and it's manual work. Be critical to what you spend time exposing yourselves to. Where you can cut - do.

4/11/2022 9:52 PM

Lars F. Bjoerlo (horizonpolaris)

Like try to look out the window while traveling instead of your phone. Things like that. Automatic remote control habits are numbing your brains. There's an advantage with our new age; non-linear entertainment. Turn educational. That's actually a great tip. Helps on depression (if you pick right topics). And it gives you something interesting to talk about.

4/11/2022 10:01 PM

Lars F. Bjoerlo (horizonpolaris)

Yes the persisting problem that never fit the equation. WHO is the way to go. We built this organ for it to have the ultimate decision power when it comes to matters that concern us uniformly as mankind. The UN hasn't functioned ideally ever, but it's the only proper channel to raise these issues.

4/11/2022 10:05 PM

Lars F. Bjoerlo (horizonpolaris)

According to conspiracy theories this is a well known issue within the UN and that they have something called "Agenda 21", a genocidal plan basically. This may be true. It definitively makes sense to have such plans. And they really should have been through all eventualities. Supported by the greatest scientists and know-how-ers that carry moral integrity.

4/11/2022 10:23 PM

Lars F. Bjoerlo (horizonpolaris)

We'll have to provide some proof when it comes to the genetics and the implications to our genepool. This will in turn generate segregational legislation all over again. This time not the Jim Crow twist, though. We can do without the hatred and ugliness. If you were to make a legitimate study of medical records and statistics, you should quickly be able to prove your case. In the meantime challenge all complaining. We do keep those who actually get the picture. They are many. However, no more breeding. That's how nazi this gets. Other than that I suppose phasing it out naturally is probably the most desired way to go when being forced to take genetically control of any given population.

4/11/2022 10:36 PM

Lars F. Bjoerlo (horizonpolaris)

Dr. King was right about "Judged by the contents of your character rather than the color of your skin. However, we did that now two generations since and we still get the same outcome. You can't really blame those who racially profile regardless of how the individual case turns out. The statistics supporting this is staggering. Impossible to ignore - at least when you put your life on the line dealing with the public first hand on an everyday basis.

4/11/2022 11:01 PM

Lars F. Bjoerlo (horizonpolaris)

I say let's restore this people, not to their former glory, but to a new kind of glory previously unknown.

4/11/2022 11:03 PM

Lars F. Bjoerlo (horizonpolaris)

This is where all cutting edge stuff should be hatched from here on out. Americans take charge! (And please resist the urge to fetch when Vladimir throws a stick)

4/11/2022 11:36 PM

Lars F. Bjoerlo (horizonpolaris)

Getting rid of un-culture. Ordinary decent people just trying to make a decent environment out of the society they are part of. Honorable enough.

4/12/2022 12:12 AM

Lars F. Bjoerlo (horizonpolaris)

And when it finally ends on a CDC desk, they will call for NSA intelligence to identify and prioritize.

4/12/2022 12:52 AM

Lars F. Bjoerlo (horizonpolaris)

It's completely up to you how to deal with these masses. Whatever you do, I'm not gonna judge you. That's for sure. Furthermore, we have no taboos while simulating, at least that's our culture. Confining everyone on Hawaii and deploy a thermonuclear charge have been discussed seriously. It's considered both humane and hygienic all things considered. But it's an absolute, pardon my French, suckass thing to debate.

4/12/2022 12:59 AM

Lars F. Bjoerlo (horizonpolaris)

Obviously an attractive solution judging from the feedback here.

4/12/2022 1:02 AM

Lars F. Bjoerlo (horizonpolaris)

The issue of native Africans will inevitably be next. Prepared for at least another billion?

4/12/2022 1:03 AM

Lars F. Bjoerlo (horizonpolaris)

Takes some stomach. Think we can agree on that.

4/12/2022 1:05 AM

Lars F. Bjoerlo (horizonpolaris)

Hitler is like a mosquito-pussy in comparison with numbers in this range. Think about that. Thoroughly. That's all I ask.

4/12/2022 1:23 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah it's about high time we start taking practical responsibilities for our common wellbeing. It's just bound to happen somehow at one point. The question is how surprised or organized will we be?

4/12/2022 1:27 AM

Lars F. Bjoerlo (horizonpolaris)

We wouldn't let you down in your darkest hour. We go way back and belong together. I'm glad you've opened your eyes to your fellow citizens across the Atlantic.

4/12/2022 1:37 AM

Lars F. Bjoerlo (horizonpolaris)

"Dear semi-citizen. We're releasing you from the burden of being here with us..."

4/12/2022 1:40 AM

Lars F. Bjoerlo (horizonpolaris)

Whether to save or implicate innocent people that refuse to understand their own best interest?

4/12/2022 1:41 AM

Lars F. Bjoerlo (horizonpolaris)

Does it really matter anymore? Honestly? You tell me.

4/12/2022 1:46 AM

Lars F. Bjoerlo (horizonpolaris)

What a nice lynch-mob :D

4/12/2022 1:46 AM

Lars F. Bjoerlo (horizonpolaris)

calling for mercy

4/12/2022 1:46 AM

Lars F. Bjoerlo (horizonpolaris)

Ok. Noted. They matter.

4/12/2022 1:51 AM

Lars F. Bjoerlo (horizonpolaris)

Good to hear you're with good spirit right now. I think it's natural to head towards the bed-zone. Ambitions of turning up to work tomorrow.

4/12/2022 3:10 AM

Lars F. Bjoerlo (horizonpolaris)

It's been quite some walk yes. Trust that I took you on the quickest one possible ;) <3

4/12/2022 1:43 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. It's not every day you've got some 2,5 billion lives on your conscience. How do you feel?

4/12/2022 1:46 PM

Lars F. Bjoerlo (horizonpolaris)

Me? I hate this part, but I know it's right.

4/12/2022 1:49 PM

Lars F. Bjoerlo (horizonpolaris)

It's a minimum. And we need to keep it there +- 300 million. Giving us a sinus rhythm with a difference of 600 million between the high and low amplitudes.

4/12/2022 1:53 PM

Lars F. Bjoerlo (horizonpolaris)

In such a light, how do you feel about family planning and abortions now?

4/12/2022 1:54 PM

Lars F. Bjoerlo (horizonpolaris)

I know, it's not salt from me. It's more like shut the hell up. Forever.

4/12/2022 2:00 PM

Lars F. Bjoerlo (horizonpolaris)

A moral luxury you can't afford. End of debate.

4/12/2022 2:14 PM

Lars F. Bjoerlo (horizonpolaris)

And in a setting like this, at least as a religious person, you'd like to see justice done, poor people lifted out of their misery and get redeemed from witnessing all the wonder.

4/12/2022 2:14 PM

Lars F. Bjoerlo (horizonpolaris)

That's not how nature goes.

4/12/2022 2:15 PM

Lars F. Bjoerlo (horizonpolaris)

The already tormented poor will necessarily be next up, because that's where the numbers are, and that's also what makes the pit bottomless.

4/12/2022 2:18 PM

Lars F. Bjoerlo (horizonpolaris)

But thanks for caring.

4/12/2022 2:18 PM

Lars F. Bjoerlo (horizonpolaris)

tears

4/12/2022 2:23 PM

Lars F. Bjoerlo (horizonpolaris)

We are of course able to give such a massacre shape. You could be fairly certain that protecting innocent people and getting the vermin before all else would be a prioritized focus.

4/12/2022 2:25 PM

Lars F. Bjoerlo (horizonpolaris)

Make no mistake, such mayhem comes with no guarantees. Safety above all.

4/12/2022 2:30 PM

Lars F. Bjoerlo (horizonpolaris)

If could disarm somehow - that would help. Tremendously.

4/12/2022 2:30 PM

Lars F. Bjoerlo (horizonpolaris)

you

4/12/2022 2:35 PM

Lars F. Bjoerlo (horizonpolaris)

Don't worry about me. It's not the first time I've been here. I can confirm it's still an emotional ride, but routine.

4/12/2022 5:45 PM

Lars F. Bjoerlo (horizonpolaris)

Press silence. We need them to cover us while the operation is ongoing around the world in scattered locations. The opposite of the Ukraine coverage.

4/12/2022 7:11 PM

Lars F. Bjoerlo (horizonpolaris)

Just a bit tired today. Not tempted to do anything about it. Right now I'm preparing for dinner. Found a pound of meat in the freezer and a jar spaghetti sauce.

4/12/2022 7:23 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. All of a sudden I'm taking care of myself. Unheard of. <3

4/12/2022 8:59 PM

Lars F. Bjoerlo (horizonpolaris)

Awesome dinner. Netflix. Bed soon I guess.

4/13/2022 12:59 PM

Lars F. Bjoerlo (horizonpolaris)

Morning. Miss you baby.

4/13/2022 4:05 PM

Lars F. Bjoerlo (horizonpolaris)

Even more tired today. Gotta go for groceries. Closed tomorrow.

4/13/2022 4:51 PM

Lars F. Bjoerlo (horizonpolaris)

Puff-puff-pass. Nobody to pass to. Been to the store. Spent 710,- on food and six beers. Thinking of the concept of "political suicide"...

4/13/2022 4:53 PM

Lars F. Bjoerlo (horizonpolaris)

25th? Isn't that the amendment that removes POTUS (incapacitated)?

4/13/2022 4:54 PM

Lars F. Bjoerlo (horizonpolaris)

I ask because I was going to read something on twitter, but I can't subscribe to everything, you know...

4/13/2022 4:55 PM

Lars F. Bjoerlo (horizonpolaris)

It's been some time since I first heard accusations of alzheimer's.

4/13/2022 4:56 PM

Lars F. Bjoerlo (horizonpolaris)

I haven't taken a position, but it's worth while forming an opinion.

4/13/2022 5:30 PM

Lars F. Bjoerlo (horizonpolaris)

Well, budging to Russia in any way would be political suicide. My thinking is in the neighborhood of how bad is that to people's security?

4/13/2022 5:31 PM

Lars F. Bjoerlo (horizonpolaris)

There could also be similar situations where this could get dangerous.

4/13/2022 5:32 PM

Lars F. Bjoerlo (horizonpolaris)

If you're the smaller creature on four legs and just got your ribs kicked in, you ought not rise and pick another fight.

4/13/2022 5:38 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I can imagine. Not a huge fan of the VP either.

4/13/2022 5:39 PM

Lars F. Bjoerlo (horizonpolaris)

And that's where the 25th will lead us. A third rogue train to stop.

4/13/2022 5:42 PM

Lars F. Bjoerlo (horizonpolaris)

I don't know exactly how to explain it yet, but she has it written allover.

4/13/2022 5:43 PM

Lars F. Bjoerlo (horizonpolaris)

Gotta admit I didn't look to hard. Revolting is the word I was looking for. Sorry about that.

4/13/2022 5:45 PM

Lars F. Bjoerlo (horizonpolaris)

Yes this is an attack on her femininity. We have expectations accordingly.

4/13/2022 5:46 PM

Lars F. Bjoerlo (horizonpolaris)

If that's sexist, so be it.

4/13/2022 5:51 PM

Lars F. Bjoerlo (horizonpolaris)

It's not that women are doomed to fail, that's not my position. If I say Sara Palin has everything you don't. Now do you get it?

4/13/2022 6:08 PM

Lars F. Bjoerlo (horizonpolaris)

It's not about race or gender in the first place. It's about what you're emitting. Sarah's got innocence on her credible list. I see few matching that.

4/13/2022 6:12 PM

Lars F. Bjoerlo (horizonpolaris)

And she's motherly. I think that's desired by everybody.

4/14/2022 12:12 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Have me excused. Going to dad today. Don't feel good. I think it's the 4th day.

4/14/2022 12:14 PM

Lars F. Bjoerlo (horizonpolaris)

If it's going to come to an end I have to keep on trying..

4/14/2022 12:23 PM

Lars F. Bjoerlo (horizonpolaris)

I'm just glad you're there. It's getting tighter.

4/14/2022 1:54 PM

Lars F. Bjoerlo (horizonpolaris)

Incoming banana. Yall know what to do. (My cells talking to each other again)

4/14/2022 5:22 PM

Lars F. Bjoerlo (horizonpolaris)

Just getting my act together and go to dad's was worth it.

4/14/2022 6:12 PM

Lars F. Bjoerlo (horizonpolaris)

Everybody who possibly could were upon me regarding some stuff. I turned all of them down.

4/14/2022 6:13 PM

Lars F. Bjoerlo (horizonpolaris)

Typical though.

4/14/2022 6:13 PM

Lars F. Bjoerlo (horizonpolaris)

If I was to follow up on that I'd be dead long time ago.

4/14/2022 6:24 PM

Lars F. Bjoerlo (horizonpolaris)

In fact I sorta feel dead already and that God keeps pushing me into that parallell dimension where I'm still alive and progressing.

4/14/2022 6:26 PM

Lars F. Bjoerlo (horizonpolaris)

I wanna live to see this.

4/14/2022 6:26 PM

Lars F. Bjoerlo (horizonpolaris)

To see this through

4/14/2022 6:30 PM

Lars F. Bjoerlo (horizonpolaris)

I had lamb steak today, you know. Pleasant for a dead guy.

4/15/2022 1:57 PM

Lars F. Bjoerlo (horizonpolaris)

Hey. Fifth day. Sun is shining. Must get some smokables.

4/15/2022 2:00 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not supposed to feel great, but it could have been worse.

4/15/2022 2:00 PM

Lars F. Bjoerlo (horizonpolaris)

:)

4/15/2022 3:14 PM

Lars F. Bjoerlo (horizonpolaris)

Mommy's happy I got home without speed, he he

4/15/2022 3:14 PM

Lars F. Bjoerlo (horizonpolaris)

Having a beer. Only partially successful in my quest for smokeables.

4/15/2022 4:05 PM

Lars F. Bjoerlo (horizonpolaris)

I love you hon.

4/15/2022 8:06 PM

Lars F. Bjoerlo (horizonpolaris)

Watching Sandra Bullock in 28 Days

4/16/2022 11:39 AM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. I'm ok. Just gotta figure out how to obtain some hash.

4/16/2022 12:37 PM

Lars F. Bjoerlo (horizonpolaris)

I thought I was broke, but have like 17000. That'll be helpful...

4/16/2022 12:52 PM

Lars F. Bjoerlo (horizonpolaris)

Having a beer. Listening to Jennifer Rene on bluetooth...

4/16/2022 12:53 PM

Lars F. Bjoerlo (horizonpolaris)

I don't get it. Why hasn't this material been picked up by any radio stations?

4/16/2022 12:54 PM

Lars F. Bjoerlo (horizonpolaris)

Sixth day. Gotta be a record.

4/16/2022 12:55 PM

Lars F. Bjoerlo (horizonpolaris)

Best part is I don't want any.

4/16/2022 12:57 PM

Lars F. Bjoerlo (horizonpolaris)

I miss my baby. My soon to be 53 year old baby.

4/16/2022 1:12 PM

Lars F. Bjoerlo (horizonpolaris)

Excuse me for saying this, but fuck man, I was done here. *tears*

4/16/2022 1:19 PM

Lars F. Bjoerlo (horizonpolaris)

Did I forget your birthday any of these years? I remember I did in 2013.

4/16/2022 1:42 PM

Lars F. Bjoerlo (horizonpolaris)

You see babe? All the sprockets and chains need to be synchronous.

4/16/2022 1:43 PM

Lars F. Bjoerlo (horizonpolaris)

That's what I've been talking about all along.

4/16/2022 2:59 PM

Lars F. Bjoerlo (horizonpolaris)

Wish I was there too. And it means a lot to me knowing you feel the same.

4/16/2022 3:00 PM

Lars F. Bjoerlo (horizonpolaris)

Dear life, just let us have our moment! Amen.

4/16/2022 3:43 PM

Lars F. Bjoerlo (horizonpolaris)

Having a visitor. Practicing how to drink beer within the proximimeter of a black hole.

4/17/2022 12:49 PM

Lars F. Bjoerlo (horizonpolaris)

Hey baby. Don't feel so good. Hoping for better luck today. 1 week now.

4/17/2022 3:35 PM

Lars F. Bjoerlo (horizonpolaris)

Been out in the sun bicycling. Taken care of the hash-issue. Cost me another 5000 and involves some eastern european mobsters in town.

4/17/2022 3:40 PM

Lars F. Bjoerlo (horizonpolaris)

Then the other guy called, the one with the domestic violence problem. He would be needing some help to get himself and his son out from the house of hell.

4/17/2022 4:12 PM

Lars F. Bjoerlo (horizonpolaris)

Yess. Got him a van and a trailer to move his stuff tomorrow..

4/17/2022 4:16 PM

Lars F. Bjoerlo (horizonpolaris)

Some women are Jezebels. Not much else to say.

4/17/2022 4:21 PM

Lars F. Bjoerlo (horizonpolaris)

Long story short: they've both been here independent of each other, telling me not to tell the other. I go way back with this girl. We were together once in our teens. Now that this is going down I'm extra aware about her moves...

4/17/2022 5:11 PM

Lars F. Bjoerlo (horizonpolaris)

Even my father holds my judgment in question. I want it back by all means.

4/17/2022 9:05 PM

Lars F. Bjoerlo (horizonpolaris)

Finally home. Got the brownies secured, made myself a burger on a gas grill and could have been considerably worse. How's your day going along?

4/17/2022 9:22 PM

Lars F. Bjoerlo (horizonpolaris)

Ah... an espresso..

4/17/2022 11:25 PM

Lars F. Bjoerlo (horizonpolaris)

From the very first moment I just wanted to make you proud, Coach. That has been clear to me all the way. You're getting it your way. Eventually and inevitably.

4/17/2022 11:25 PM

Lars F. Bjoerlo (horizonpolaris)

And so you should. Amen to that.

4/18/2022 11:37 AM

Lars F. Bjoerlo (horizonpolaris)

Hey everybody. I feel ok things considered. I'm feeling alive at least.

4/18/2022 11:40 AM

Lars F. Bjoerlo (horizonpolaris)

Breakfast. Eating only half the normal amount. Don't wanna get fat(ter). Coffee on perk.

4/18/2022 11:43 AM

Lars F. Bjoerlo (horizonpolaris)

I don't know my weight, but judging from the mirror 170+180lbs. I have been over 200.

4/18/2022 11:43 AM

Lars F. Bjoerlo (horizonpolaris)

not + but -

4/18/2022 11:44 AM

Lars F. Bjoerlo (horizonpolaris)

uk keyboard

4/18/2022 11:46 AM

Lars F. Bjoerlo (horizonpolaris)

I'm 182cm

4/18/2022 11:46 AM

Lars F. Bjoerlo (horizonpolaris)

And there's another trick. Pretend to have a dog you have to walk 3 times a day.

4/18/2022 11:53 AM

Lars F. Bjoerlo (horizonpolaris)

And getting a tan helps a lot actually. The first people to get a tan here usually does nit now nin Easter. A bit cold yet, but soon it'll be possible.

4/18/2022 11:59 AM

Lars F. Bjoerlo (horizonpolaris)

I'm optimistic and I can't really expect that given what my body is going through. It's all thanks to you, hon.

4/18/2022 12:04 PM

Lars F. Bjoerlo (horizonpolaris)

I'm in balance with the fella supplying what I'm no longer to have. Yesterday I secured like two pounds of cannabis. This means I don't really have to meet anyone for a month.

4/18/2022 12:05 PM

Lars F. Bjoerlo (horizonpolaris)

ounces for crying out loud. LOUD

4/18/2022 12:06 PM

Lars F. Bjoerlo (horizonpolaris)

We're talking personal consumption

4/18/2022 12:30 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway - whenever I get restless I should convert it into movement.

4/18/2022 12:45 PM

Lars F. Bjoerlo (horizonpolaris)

"Who cares?" That's very nice. We know how stuff works though. Not being a complete disaster physically matters whether one likes it or not, but thanks for the vibe. It's the same thing that makes me relax when feeling within what's reasonable for a guy like me 45 years old.

4/18/2022 12:52 PM

Lars F. Bjoerlo (horizonpolaris)

In other words I'm not panicking. A 210lbs beer-body would have been panic-material.

4/18/2022 12:53 PM

Lars F. Bjoerlo (horizonpolaris)

I could easily lose 10 the way it is.

4/18/2022 4:11 PM

Lars F. Bjoerlo (horizonpolaris)

Wanna have some earcandy babe? Just been out walking 3miles uphill mostly. Now engaged in a chicken salad. No I'm not joking. :)

4/18/2022 4:17 PM

Lars F. Bjoerlo (horizonpolaris)

MMM perfect. Shower...

4/18/2022 4:26 PM

Lars F. Bjoerlo (horizonpolaris)

I feel so good about myself right now, he he

4/18/2022 4:27 PM

Lars F. Bjoerlo (horizonpolaris)

:)

4/18/2022 4:31 PM

Lars F. Bjoerlo (horizonpolaris)

How my track was mostly uphill? I rode a car downhill and walked back.

4/19/2022 7:49 AM

Lars F. Bjoerlo (horizonpolaris)

Hey baby. Going to hospital. Telling nurse the good news. Other than that feel bad. Need you. Kiss.

4/19/2022 9:17 AM

Lars F. Bjoerlo (horizonpolaris)

Darn. Nurse isn't here but two weeks from now I should be able to leave a urine sample.

4/19/2022 10:14 AM

Lars F. Bjoerlo (horizonpolaris)

My Twitter feed is boring.

4/19/2022 10:25 AM

Lars F. Bjoerlo (horizonpolaris)

And Ukrainian news are bad.

4/19/2022 10:26 AM

Lars F. Bjoerlo (horizonpolaris)

It's a good time to get off.

4/19/2022 10:26 AM

Lars F. Bjoerlo (horizonpolaris)

Just be there this time Hon.

4/19/2022 10:49 AM

Lars F. Bjoerlo (horizonpolaris)

Going to Sweden when done here. Hopefully I get to cut my hair.

4/19/2022 1:16 PM

Lars F. Bjoerlo (horizonpolaris)

In Sweden at barbershop waiting my turn. Bought more OCB's and a bottle of Bailey's. I'm thinking about some exotic coffee mixes instead of eating a bunch of sweets almost every night.

4/19/2022 3:41 PM

Lars F. Bjoerlo (horizonpolaris)

I've had the feeling that I'm alone again all day. Am I?

4/19/2022 3:50 PM

Lars F. Bjoerlo (horizonpolaris)

Ah hey baby. Back home. No beers.

4/19/2022 3:55 PM

Lars F. Bjoerlo (horizonpolaris)

I feel like solid rock. That's good in the sense that I'm on top of my drug problem. Bad in the sense that I have no feelings at all.

4/19/2022 3:56 PM

Lars F. Bjoerlo (horizonpolaris)

Trying to just appreciate the small trivial things, like my coffee. One day my endorphins will be straight.

4/19/2022 3:58 PM

Lars F. Bjoerlo (horizonpolaris)

I think I'm going out in the sun soon.

4/19/2022 4:02 PM

Lars F. Bjoerlo (horizonpolaris)

:D

4/19/2022 4:07 PM

Lars F. Bjoerlo (horizonpolaris)

The absolute worst part should be over. However - gotta count next week as the same more or less and then maybe even another week. From 3 weeks on I should both look and sound differently. There's just that I added hashish to the equation just about the time we hooked up, September. I'm expecting a positive outcome for my short term memory deficiencies. Hoping the smoking won't be in the way of the expected development...

4/19/2022 4:10 PM

Lars F. Bjoerlo (horizonpolaris)

It's terrible for the short term memory for sure when it comes to performance. An adult with a healthy consumption pattern should ideally wait until the evening before having any, thus not affecting your daily routine/activities.

4/19/2022 4:12 PM

Lars F. Bjoerlo (horizonpolaris)

It has more the sense of "training" to it because you actually do get better from being retarded by cannabis, so to speak. You move the bar for normal functionality.

4/19/2022 4:20 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah by all means, don't let me f*** up your origami, he he :)

4/19/2022 4:22 PM

Lars F. Bjoerlo (horizonpolaris)

It's getting ever sunnier here. Keep in mind we have her around till like 11pm midsummer. Perfect for doing stuff.

4/19/2022 4:33 PM

Lars F. Bjoerlo (horizonpolaris)

Heh - that's for people who have stuff to do :/

4/19/2022 4:34 PM

Lars F. Bjoerlo (horizonpolaris)

The boiler is running here. I gotta do something.

4/19/2022 5:56 PM

Lars F. Bjoerlo (horizonpolaris)

Papa seems like a happy man :)

4/19/2022 6:41 PM

Lars F. Bjoerlo (horizonpolaris)

I read you

4/19/2022 6:55 PM

Lars F. Bjoerlo (horizonpolaris)

Phaze out by law is where you're aiming. Who am I to say it's the wrong choice? Alright let's squeeze a little tighter here everybody..

4/19/2022 8:22 PM

Lars F. Bjoerlo (horizonpolaris)

This is the most perfect cup of coffee I've had for as long as I can recall!! MMMmmm

4/20/2022 12:56 PM

Lars F. Bjoerlo (horizonpolaris)

Babe? I fell asleep yesterday. Feeling not exactly great, but not so bad either.

4/20/2022 12:57 PM

Lars F. Bjoerlo (horizonpolaris)

I love you

4/20/2022 1:02 PM

Lars F. Bjoerlo (horizonpolaris)

I'm so happy to finally be able to deliver on this. It has been a long wait. I don't even remember when it started.

4/20/2022 1:03 PM

Lars F. Bjoerlo (horizonpolaris)

I could stay incognito my entire life, but as her husband that's pretty much impossible...

4/20/2022 1:05 PM

Lars F. Bjoerlo (horizonpolaris)

But being hers doesn't mean we still can't keep something to ourselves. I take it she has a clear picture in her mind how this should be.

4/20/2022 6:54 PM

Lars F. Bjoerlo (horizonpolaris)

She gets it her way. End of discussion, right hon? ;)

4/20/2022 8:09 PM

Lars F. Bjoerlo (horizonpolaris)

I'm just confident in your plan baby :)

4/21/2022 12:07 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. Just in bed waiting for my boss to call me with an address. Listening to talking radio. Feel pretty good actually.

4/21/2022 1:21 PM

Lars F. Bjoerlo (horizonpolaris)

Been out. Wondering what to have for dinner.

4/21/2022 1:25 PM

Lars F. Bjoerlo (horizonpolaris)

Which isn't my problem. Dinner at dad's of course - it's thursday :)

4/21/2022 1:51 PM

Lars F. Bjoerlo (horizonpolaris)

Ah latte macchiato....

4/21/2022 1:52 PM

Lars F. Bjoerlo (horizonpolaris)

And when I come back from dad's I'm gonna spike it a little with the Bailey's i bought. Sounds like a plan.

4/21/2022 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

So what's the news from 1600 Pennsylvania Avenue?

4/21/2022 4:41 PM

Lars F. Bjoerlo (horizonpolaris)

Anybody else that get their job complicated by the same fella?

4/21/2022 4:41 PM

Lars F. Bjoerlo (horizonpolaris)

I can imagine. Coma.

4/21/2022 5:02 PM

Lars F. Bjoerlo (horizonpolaris)

I still think the Russians are getting what they came for; a useful idiot to prove their points, no matter how cheap they might be.

4/21/2022 7:50 PM

Lars F. Bjoerlo (horizonpolaris)

Back from dad. Just bwatching you...

4/21/2022 7:54 PM

Lars F. Bjoerlo (horizonpolaris)

Not tempted...

4/21/2022 8:01 PM

Lars F. Bjoerlo (horizonpolaris)

The day my creator intends my body to last for a thousand years, then so be it. You don't want my face around here in a hundred years, trust me.

4/21/2022 8:08 PM

Lars F. Bjoerlo (horizonpolaris)

I'm here to die no matter what. Just as everybody else.

4/21/2022 8:08 PM

Lars F. Bjoerlo (horizonpolaris)

Takes a lifetime to get used to...

4/21/2022 8:14 PM

Lars F. Bjoerlo (horizonpolaris)

Let me put it this way: convince me to cheat death.

4/21/2022 8:17 PM

Lars F. Bjoerlo (horizonpolaris)

Coffee with Bailey's is indeed a very good reason, but not good enough to go against my creator's will ;)

4/21/2022 8:24 PM

Lars F. Bjoerlo (horizonpolaris)

I think it's called "last temptation of Christ", Scorsese movie with the lead character from platoon - anyway - Christ finds himself by death after coming down from the cross and living in peace ever since with Mary Magdalen, having kids, nuclear family, etc etc. Then when dying Jesus realizes he was meant to die at that cross and that cheating death like that was the work of Satan. The movie ends with Christ calling for mercy and to get back to the moment where he hung on that cross to die (for the sins we have to commit).

4/21/2022 8:25 PM

Lars F. Bjoerlo (horizonpolaris)

Point taken. Our task is to go by the book no matter the problem.

4/21/2022 8:31 PM

Lars F. Bjoerlo (horizonpolaris)

And most importantly; why would I even consider such a thing while still being young and healthy?

4/21/2022 8:32 PM

Lars F. Bjoerlo (horizonpolaris)

I asking, just help me see. I'm just not such a huge fan of myself that I wanna be the very measure of everything that's right or wrong...

4/21/2022 8:33 PM

Lars F. Bjoerlo (horizonpolaris)

At the same time that's exactly what I'm inviting for....

4/21/2022 8:34 PM

Lars F. Bjoerlo (horizonpolaris)

Holy or not: I kept my feet on the ground. Let this be my legacy.

4/21/2022 8:41 PM

Lars F. Bjoerlo (horizonpolaris)

Let me die with dignity. That's all I can ask on behalf of my person.

4/21/2022 8:43 PM

Lars F. Bjoerlo (horizonpolaris)

I like to think of it as spiritual genetics. There are more ways to leave an imprint...

4/21/2022 8:48 PM

Lars F. Bjoerlo (horizonpolaris)

Let's get real about the salt: someone has to committ all those murders and still look the rest of us in the eye. Just ain't gonna happen.

4/21/2022 8:54 PM

Lars F. Bjoerlo (horizonpolaris)

However, we are constructing a new tomorrow from what we've already learned. This means we get to be focused on our evolution while making our choices.

4/21/2022 8:58 PM

Lars F. Bjoerlo (horizonpolaris)

Yes. Killing them softly.

4/21/2022 9:03 PM

Lars F. Bjoerlo (horizonpolaris)

Upon return to planet earth: let's talk climate.

4/21/2022 9:08 PM

Lars F. Bjoerlo (horizonpolaris)

This will of course create great boundaries between ethnicities. I say we ditch the Jim Crow scheme and let these people die with the same dignity we would want for ourselves and our loved ones. After all - we define ourselves as a society by how we treat our weakest.

4/21/2022 9:15 PM

Lars F. Bjoerlo (horizonpolaris)

You need laws that go back a great deal in time, but you don't have to accompany it with the same spirit. You can choose making the time we have left MATTER.

4/21/2022 9:18 PM

Lars F. Bjoerlo (horizonpolaris)

They were there and we're gonna acknowledge them for what it was.

4/21/2022 9:52 PM

Lars F. Bjoerlo (horizonpolaris)

I personally don't have much sentiment in spite of having afroamerican heritage. It's just life...

4/21/2022 9:53 PM

Lars F. Bjoerlo (horizonpolaris)

Lord knows I didn't start out a racist.

4/21/2022 10:06 PM

Lars F. Bjoerlo (horizonpolaris)

Why would I when dad and his were black?

4/21/2022 10:29 PM

Lars F. Bjoerlo (horizonpolaris)

Well, we need to be roomy enough to include the people already here. If we can avoid problems of deviation by simply choosing that way, would that in the long run make our society poorer? I'm not taking the lead in such a debate, but I have a feeling "if given a choice" if you see what I mean. But at the end of the day we treat people with respect and mind our own business.

4/21/2022 10:37 PM

Lars F. Bjoerlo (horizonpolaris)

We will encounter this at one point in regards to what extent it is reasonable to promote deviance.

4/21/2022 10:38 PM

Lars F. Bjoerlo (horizonpolaris)

I have the luxury of not having very harsh opinions on the matter.

4/21/2022 10:43 PM

Lars F. Bjoerlo (horizonpolaris)

I take it those who put us here knew what way we could deteriorate genetically from living an immoral life. We have been warned and all I can say is "Too much love will kill you".

4/21/2022 10:51 PM

Lars F. Bjoerlo (horizonpolaris)

straight from the horses mouth.

4/21/2022 10:57 PM

Lars F. Bjoerlo (horizonpolaris)

This one is also delicate in terms of having kids. You can't really forbid women from having children or by any means take such kids away, but it would be possible to run a completely different line with men wanting to parent together. People in general are also less offended by two women for some reason. That's just the way it is.

4/21/2022 10:59 PM

Lars F. Bjoerlo (horizonpolaris)

It's not always fair, sensible or democratic after all. We discriminate.

4/22/2022 12:18 AM

Lars F. Bjoerlo (horizonpolaris)

Going to bed. Nite.

4/22/2022 11:16 AM

Lars F. Bjoerlo (horizonpolaris)

Waddaya know - my brain still works. How are you guys? I'm thinking of my daughter.

4/22/2022 12:15 PM

Lars F. Bjoerlo (horizonpolaris)

And now I'm thinking of you, hon.

4/22/2022 12:20 PM

Lars F. Bjoerlo (horizonpolaris)

Tryna figure out what to do. I have an option that will expose me to amphetamines. I'm not really in the risk of taking any, but the question is more about the vibe allover.

4/22/2022 12:25 PM

Lars F. Bjoerlo (horizonpolaris)

I hear promises of wealth, beauty and what not. I'm still not tempted by any of it. It's solely the sense of duty that's pulling me out of this abusive pattern. Sure, I'm extra excited by Coach's presence still in this game, but it's not that I can count on her popping up any time soon regardless of what the AI says. If I was quitting for her sake, what then when she's a no-show?

4/22/2022 12:29 PM

Lars F. Bjoerlo (horizonpolaris)

We've had this discussion before. The way I am. It's not real until I hold it in my hands. That's when the issue is a "hashpipe" as we used to say in the field.

4/22/2022 12:33 PM

Lars F. Bjoerlo (horizonpolaris)

I have only one concern that I've until this moment have been keeping private: her fertility.

4/22/2022 12:35 PM

Lars F. Bjoerlo (horizonpolaris)

I take it that's none of my concern?

4/22/2022 12:35 PM

Lars F. Bjoerlo (horizonpolaris)

I'd prefer no surrogacy, but that's me...

4/22/2022 12:43 PM

Lars F. Bjoerlo (horizonpolaris)

Let me get this straight: the machine making me suffer still for stuff that happened a decade ago want's me to take it's word? Interesting..... (not so much)

4/22/2022 1:07 PM

Lars F. Bjoerlo (horizonpolaris)

Going out to lay some fiber optics for my boss.

4/22/2022 1:39 PM

Lars F. Bjoerlo (horizonpolaris)

Waiting for my boss and taking comfort in the facts that I don't owe anybody anything, and the way I see it, don't have anything to prove.

4/22/2022 3:22 PM

Lars F. Bjoerlo (horizonpolaris)

Yo babe. Back from work. Going to grab a sixpack. Back soon.

4/22/2022 3:34 PM

Lars F. Bjoerlo (horizonpolaris)

Back with beer. Hitting shower.

4/22/2022 3:45 PM

Lars F. Bjoerlo (horizonpolaris)

Hepp hepp

4/22/2022 3:47 PM

Lars F. Bjoerlo (horizonpolaris)

Attachment with type image/jpeg
<https://t.co/sZfzxPRAjc>

4/22/2022 4:19 PM

Lars F. Bjoerlo (horizonpolaris)

I hope I saved you some time by quitting for the right reason and then declare the reason.

4/22/2022 4:21 PM

Lars F. Bjoerlo (horizonpolaris)

This way you won't have to test it, that's all I'm saying...

4/22/2022 4:27 PM

Lars F. Bjoerlo (horizonpolaris)

Who wants to get sued for our non-born children? That's what you're facing...

4/22/2022 4:27 PM

Lars F. Bjoerlo (horizonpolaris)

That's the part I can't let go.

4/22/2022 4:28 PM

Lars F. Bjoerlo (horizonpolaris)

Unforgiveable and then some.

4/22/2022 4:54 PM

Lars F. Bjoerlo (horizonpolaris)

Your paranoia is hardly my problem or hers. Just get a grip.

4/22/2022 4:55 PM

Lars F. Bjoerlo (horizonpolaris)

You've been proven irrational. What else is reasonable to demand?

4/22/2022 4:57 PM

Lars F. Bjoerlo (horizonpolaris)

Either it happens or it doesn't, right?

4/22/2022 4:58 PM

Lars F. Bjoerlo (horizonpolaris)

Which side of the fence would you rather be on?

4/22/2022 5:01 PM

Lars F. Bjoerlo (horizonpolaris)

It's gonna get rough hon. Fortunately Papa have no issues with our enterprise so far. Stopping this train takes more than what any administration could come up with.

4/22/2022 5:03 PM

Lars F. Bjoerlo (horizonpolaris)

It's really not something we should be discussing at this point.

4/22/2022 5:06 PM

Lars F. Bjoerlo (horizonpolaris)

I'm thinkin' more like if the problem is something like POTUS or whateverthehell, I'll quickly find my way back to addiction and death.

4/22/2022 5:06 PM

Lars F. Bjoerlo (horizonpolaris)

Not taking that fight. I want it paved. All of it.

4/22/2022 5:11 PM

Lars F. Bjoerlo (horizonpolaris)

No stress hon. You are the only girl in the world as far as I'm concerned. You always were.

4/22/2022 5:12 PM

Lars F. Bjoerlo (horizonpolaris)

For those new to this source; we have been through an escapade already - yes a sexual one.

4/22/2022 5:14 PM

Lars F. Bjoerlo (horizonpolaris)

I'm pretty confident all the implied parties wisely will keep their mouth's shut. I happened to see the other day that the woman in question is remarried.. :/

4/22/2022 5:15 PM

Lars F. Bjoerlo (horizonpolaris)

It's not like I fear what these clowns have to say. They'd better remain silent for their own sakes

4/22/2022 5:15 PM

Lars F. Bjoerlo (horizonpolaris)

Because they're clowns...

4/22/2022 5:16 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah sound different. I get stricter.

4/22/2022 5:17 PM

Lars F. Bjoerlo (horizonpolaris)

The whole thing was unethical but Coach and I ruined a marriage. I think that's safe to say.

4/22/2022 5:18 PM

Lars F. Bjoerlo (horizonpolaris)

Just to see how I handled the practical task.

4/22/2022 5:25 PM

Lars F. Bjoerlo (horizonpolaris)

No, not so proud of that. Could probably have been avoided.

4/22/2022 5:30 PM

Lars F. Bjoerlo (horizonpolaris)

I can face to face with anyone, including the people I used to bully when I was a child. I've met everybody in adult life and made my peace. Long time ago actually.

4/22/2022 5:31 PM

Lars F. Bjoerlo (horizonpolaris)

Like I said: I'm square with everyone. Don't owe anyone anything.

4/22/2022 5:32 PM

Lars F. Bjoerlo (horizonpolaris)

And now I'm being told to zip it. Probably a good idea. 4th beer now...

4/22/2022 5:33 PM

Lars F. Bjoerlo (horizonpolaris)

Still love you though ;) :*

4/22/2022 5:33 PM

Lars F. Bjoerlo (horizonpolaris)

<3

4/22/2022 5:52 PM

Lars F. Bjoerlo (horizonpolaris)

I'm confused. Look back or don't look back? Let me know when you've decided, he he ;)

4/22/2022 6:04 PM

Lars F. Bjoerlo (horizonpolaris)

Alright team bastian. You're acknowledged.

4/22/2022 6:05 PM

Lars F. Bjoerlo (horizonpolaris)

Lez hear it for our own norwegian pst - hepp hepp :)

4/22/2022 6:10 PM

Lars F. Bjoerlo (horizonpolaris)

I've stopped speculating in how far you guys are involved long time ago. Not making any further assumptions.

4/22/2022 6:11 PM

Lars F. Bjoerlo (horizonpolaris)

Care telling the DA?

4/22/2022 6:12 PM

Lars F. Bjoerlo (horizonpolaris)

I thought so..

4/22/2022 6:31 PM

Lars F. Bjoerlo (horizonpolaris)

Jaggu! Return of Jern-Erna! Det er det verste! :D

4/22/2022 6:34 PM

Lars F. Bjoerlo (horizonpolaris)

I don't have the energy to go back, but the same thing that was Jens's problem at the time also heavily influenced the way I saw my own government at the time.

4/22/2022 6:36 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I'm sorry about that. Truly.

4/22/2022 6:37 PM

Lars F. Bjoerlo (horizonpolaris)

HUG

4/22/2022 6:49 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah we should all be able to pull it off now.

4/22/2022 7:06 PM

Lars F. Bjoerlo (horizonpolaris)

BTW: congrats to HRM Elizabeth...

4/22/2022 7:42 PM

Lars F. Bjoerlo (horizonpolaris)

Going out for a while. No worries. I love you.

4/22/2022 9:41 PM

Lars F. Bjoerlo (horizonpolaris)

I'm back. nothing extraordinary happened. Eating jello and vanillasauce.

4/23/2022 1:47 PM

Lars F. Bjoerlo (horizonpolaris)

Hello room. Nothing's up here. How about you?

4/23/2022 1:48 PM

Lars F. Bjoerlo (horizonpolaris)

I just really want my woman.

4/23/2022 2:09 PM

Lars F. Bjoerlo (horizonpolaris)

I've been single since 2009 in any practical measure. First I thought I needed a rebound. I suppose it took years to realize I was better off alone. And now that everything is settled as is, I've begun discovering that I could use someone to love. Someone to whom I could be creative while expressing my affection.

4/23/2022 2:11 PM

Lars F. Bjoerlo (horizonpolaris)

It's not always about being loved. It's just as much about giving love.

4/23/2022 2:21 PM

Lars F. Bjoerlo (horizonpolaris)

Like I've been saying; I'm not putting in a struggle for this love any more than I already have. If there's someone in the way somehow - then I suppose we're just not about the same love after all.

4/23/2022 2:22 PM

Lars F. Bjoerlo (horizonpolaris)

Fighting windmills, taking drugs - which one would you choose?

4/23/2022 2:31 PM

Lars F. Bjoerlo (horizonpolaris)

This whole thing was originally about my daughter and is still the only scheme powerful enough to get our relationship as father and child back on track. She alone should be reason enough to quit the drugs - and a year ago - the first time she showed up here at daddy's place. Apparently this isn't enough anymore. And all the way from september to now may soon - you've finally managed to make me do the impossible and break the chains to death. Convince me it was worth it. Don't give me this drama about everybody being scared of losing face. Does it look like I care? Should I? Exactly. No more of that shit - just execute your tasks. Or don't and go down in flames.

4/23/2022 2:37 PM

Lars F. Bjoerlo (horizonpolaris)

Maybe Lars on drugs would engage in a low life dispute, but this Lars definitively don't.

4/23/2022 2:48 PM

Lars F. Bjoerlo (horizonpolaris)

How serious should I take the May-August scenario you've been preaching?

4/23/2022 2:51 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not picturing myself hanging around here for years without any development in terms of getting my wife.

4/23/2022 2:52 PM

Lars F. Bjoerlo (horizonpolaris)

She has to appear within the stipulated timeframe

4/23/2022 2:52 PM

Lars F. Bjoerlo (horizonpolaris)

Most preferably the date already set.

4/23/2022 3:11 PM

Lars F. Bjoerlo (horizonpolaris)

I think I said this many times as well, but I'm not anywhere near my own boss's patience. And just as I said that I realize I'm smoking a joint right now during office hours, which I'm supposed to encourage you guys not to. It's Saturday though and I'm not operating a forklift at the moment...

4/23/2022 4:47 PM

Lars F. Bjoerlo (horizonpolaris)

Talk to me Coacie...

4/23/2022 7:42 PM

Lars F. Bjoerlo (horizonpolaris)

Babetibabe? I'm just sitting here with my coffee+

4/23/2022 7:43 PM

Lars F. Bjoerlo (horizonpolaris)

I can't hate on paper straws, but they're really awful... :(

4/24/2022 10:58 AM

Lars F. Bjoerlo (horizonpolaris)

He he. Ego-clashes are fun. Drop into one. Anyone.

4/24/2022 10:58 AM

Lars F. Bjoerlo (horizonpolaris)

me

4/24/2022 11:00 AM

Lars F. Bjoerlo (horizonpolaris)

Tell me who the contestant is...

4/24/2022 11:01 AM

Lars F. Bjoerlo (horizonpolaris)

Am I allowed to show with a false ego?

4/24/2022 11:09 AM

Lars F. Bjoerlo (horizonpolaris)

We should really avoid those, but some are tempting because of the gratitude within the act of publicly undress someone.

4/24/2022 11:12 AM

Lars F. Bjoerlo (horizonpolaris)

I suspect one gathers enemies this way...

4/24/2022 11:25 AM

Lars F. Bjoerlo (horizonpolaris)

How often do you think I see easy prey, but resist the urge whenever I see someone in Congress say something weird? It's more or less all the time. I simply can't engage in everything I see. Treating everything head on is a neverending undertaking and won't lead anywhere. I need another perspective. And since I can suspend gravity at wish, I always build my towers from top down. (Maybe not always, but often).

4/24/2022 11:33 AM

Lars F. Bjoerlo (horizonpolaris)

I'm not in this for some personal triumphant trip. I already have peace inside. I don't owe anything, but I don't keep grudges either. I assume what happened to me here judicially will somehow be dealt with in an appropriate way. Right now my face is directed forward.

4/24/2022 11:41 AM

Lars F. Bjoerlo (horizonpolaris)

The Norwegians, who I've kept out of this until now, are wondering what this means to them opportunity wise. I wouldn't know. I can't even think of an attractive norwegian woman. Probably says a lot about the fact that I just collect my paycheck here. Alright I'm a sucker for the 17th of May, but that's it.

4/24/2022 11:43 AM

Lars F. Bjoerlo (horizonpolaris)

I know that this has taken effort and devotion from many, but I don't really know who all these people are. I know a few voices from radio. Everybody likes radio-personalities. It would be easy to figure out stuff to do and talk about with these people.

4/24/2022 11:45 AM

Lars F. Bjoerlo (horizonpolaris)

So it's not like I'm ungrateful or closing up for anything Norwegian or that I hate your guts - I'm just sick of it all. That part you should already know.

4/24/2022 11:48 AM

Lars F. Bjoerlo (horizonpolaris)

R%)()%%%)% I can't find my book on carcass disposal... Hmmmm...

4/24/2022 11:49 AM

Lars F. Bjoerlo (horizonpolaris)

D

4/24/2022 11:49 AM

Lars F. Bjoerlo (horizonpolaris)

:D

4/24/2022 12:00 PM

Lars F. Bjoerlo (horizonpolaris)

Jens has a point. Everybody crave for something to happen and the feeling of belonging to this event.

4/24/2022 12:01 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not gonna be the one denying anybody.

4/24/2022 12:02 PM

Lars F. Bjoerlo (horizonpolaris)

But the sooner Hartmann starts flipping burgers, the better.

4/24/2022 12:03 PM

Lars F. Bjoerlo (horizonpolaris)

Nothing would please me more than proof I'm wrong about the man.

4/24/2022 12:05 PM

Lars F. Bjoerlo (horizonpolaris)

It's not like we need another round in court. You're free to drop the charges anytime.

4/24/2022 12:05 PM

Lars F. Bjoerlo (horizonpolaris)

Would definitely increase your chances of benefitting in the aftermath of my departure.

4/24/2022 12:06 PM

Lars F. Bjoerlo (horizonpolaris)

..and ease the tone of the media...

4/24/2022 12:08 PM

Lars F. Bjoerlo (horizonpolaris)

They have no more reason to expect special treatment than I have. Period.

4/24/2022 12:12 PM

Lars F. Bjoerlo (horizonpolaris)

Dække meg det er no gærnt med vettu. Det finnes nok av fagfolk med some splainin' to do. Som han gjøken som krisemaksimerte mitt ukentlige 3g forbruk, mens sannheten var mer 15-20g. Tullinger hele gjengen!

4/24/2022 12:19 PM

Lars F. Bjoerlo (horizonpolaris)

Alright if an explosion is what you want to create - fine by me.

4/24/2022 12:21 PM

Lars F. Bjoerlo (horizonpolaris)

More like Earthquake, yes. We've done unethical stuff in the past and I just want you to consider that someone kills themselves from the pressure. Just sayin ...

4/24/2022 12:22 PM

Lars F. Bjoerlo (horizonpolaris)

Crap - me smoking and this keyboard - you get the idea in spite of horrible grammar.

4/24/2022 12:46 PM

Lars F. Bjoerlo (horizonpolaris)

Tryna bribe me with cars? Thaz a clever one. I don't have a driver's license, remember? :(

4/24/2022 12:49 PM

Lars F. Bjoerlo (horizonpolaris)

That would be some car I can tell you that much. I know only one car in that price range. Hitler's infamous six-wheeled Mercedes (with tracktion on all wheels).

4/24/2022 12:49 PM

Lars F. Bjoerlo (horizonpolaris)

20mill € easily

4/24/2022 1:00 PM

Lars F. Bjoerlo (horizonpolaris)

It's not like you have a lot of time and as far as I know the museum will never sell it.

4/24/2022 1:02 PM

Lars F. Bjoerlo (horizonpolaris)

And make sure I can drive this monster when I log on to my license app ;)

4/24/2022 1:16 PM

Lars F. Bjoerlo (horizonpolaris)

You're selling me a narrative where everything is meticulously prepared and cared for. I sincerely hope this is the case. You should know where this went wrong and why. If not I'll make sure to remind you by pointing to every link in the chain ov events.

4/24/2022 1:24 PM

Lars F. Bjoerlo (horizonpolaris)

Or maybe a pallet of cash hoisted by crane up on my porch. Hmmm...

4/24/2022 1:25 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not sure my neighbors could cope with that.

4/24/2022 1:38 PM

Lars F. Bjoerlo (horizonpolaris)

Some sort of swift closure is desireable to all parties I suppose.

4/24/2022 1:43 PM

Lars F. Bjoerlo (horizonpolaris)

My point isn't as much disturbance as possible, but I didn't invest all this time chained down by the government for no reason, or without getting handsomely paid for the exercise.

4/24/2022 1:45 PM

Lars F. Bjoerlo (horizonpolaris)

All this comes with the territory while subjected to an investigation by a higher authority.

4/24/2022 1:46 PM

Lars F. Bjoerlo (horizonpolaris)

I did a job. That's all.

4/24/2022 1:54 PM

Lars F. Bjoerlo (horizonpolaris)

People who can devote their lives 24/7 and even do years in the three toughest prisons we have, not to mention all the years wasted in security post at a hospital. As late as 2019. Two months for driving 2-3 miles w/o a license. Worth mentioning that I got my veins pierced in order to prove my innocence and that they, the same evening, raided my shack in full combat gear with mp5 submachine guns, etc etc. Not by far the first time such a thing happens. I've lost count.

4/24/2022 1:56 PM

Lars F. Bjoerlo (horizonpolaris)

Point is - people willing to take the abuse don't grow on trees, thus their expertise would necessarily be expensive, not wasted effort.

4/24/2022 1:58 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah you idiots actually got a live bomb delivered to the station WHILE I was detained...

4/24/2022 1:59 PM

Lars F. Bjoerlo (horizonpolaris)

Not hard to understand why someone would get that pissed on their precinct. I'm by no means supporting such an idea, just understanding.

4/24/2022 2:06 PM

Lars F. Bjoerlo (horizonpolaris)

And praise God I never owned a gun!

4/24/2022 2:14 PM

Lars F. Bjoerlo (horizonpolaris)

All this means something to me. Stuff like my salary, house, cars can be determined with a number. What about my daughter?

4/24/2022 2:15 PM

Lars F. Bjoerlo (horizonpolaris)

What about my dignity?

4/24/2022 2:15 PM

Lars F. Bjoerlo (horizonpolaris)

What about the others caught up in the same?

4/24/2022 2:16 PM

Lars F. Bjoerlo (horizonpolaris)

Not even Hitler's car can fix that. You have to go the distance.

4/24/2022 2:40 PM

Lars F. Bjoerlo (horizonpolaris)

Just don't come around here with some speech about sacrifice.

4/24/2022 2:52 PM

Lars F. Bjoerlo (horizonpolaris)

They were supposed to be my best years - the 30ies..

4/24/2022 2:53 PM

Lars F. Bjoerlo (horizonpolaris)

I can't have that back but I will see to it that justice prevails - after all, that's what the job is about.

4/24/2022 2:55 PM

Lars F. Bjoerlo (horizonpolaris)

What's all the staying stuff about? Don't you get it? I have a wife 10000km away. What's there not to get?

4/24/2022 3:18 PM

Lars F. Bjoerlo (horizonpolaris)

thanks for the backing vocal, hon.. :)

4/24/2022 3:21 PM

Lars F. Bjoerlo (horizonpolaris)

I love you

4/24/2022 3:26 PM

Lars F. Bjoerlo (horizonpolaris)

Not that I'm gonna launch a discussion about our private economy, but I'm determined not to cost my wife anything. I think we have it covered. You mind billing them, hon?

4/24/2022 3:39 PM

Lars F. Bjoerlo (horizonpolaris)

Well, it's complicated. We also have contracts to keep up with and you guys delaying everything costs a staggering amount of time and money.

4/24/2022 3:41 PM

Lars F. Bjoerlo (horizonpolaris)

All I know is that this client can afford it whatever the cost.

4/24/2022 3:46 PM

Lars F. Bjoerlo (horizonpolaris)

I'm sure Jen can present you with a figure.

4/24/2022 3:47 PM

Lars F. Bjoerlo (horizonpolaris)

(It's the freckin' batteries in this keyboard)

4/24/2022 3:53 PM

Lars F. Bjoerlo (horizonpolaris)

changed and presumably better

4/24/2022 3:55 PM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. Unusually active, he he :D

4/24/2022 4:01 PM

Lars F. Bjoerlo (horizonpolaris)

I'd say almost all over the place *lol*

4/24/2022 4:09 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah eyes ahaed. Totally agree.

4/24/2022 4:47 PM

Lars F. Bjoerlo (horizonpolaris)

You don't possess anything I desire. Is that clear enough?

4/24/2022 5:00 PM

Lars F. Bjoerlo (horizonpolaris)

I probably need a little time just settling without the heavy drug abuse, but as you see I'm already changing and not for the worse. I have no idea what I potentially could have been in control of simultaneously. It's gonna be a blast because my team knows exactly how to harvest the best at all times.

4/24/2022 5:22 PM

Lars F. Bjoerlo (horizonpolaris)

Aaaargh! My miserable paper straw is collapsing after just two minutes. Yeah of course I took a new one. :(

4/24/2022 5:26 PM

Lars F. Bjoerlo (horizonpolaris)

Statistically the red straws perform better than the green ones. Why is that? Hmmm. *scratch*

4/24/2022 5:31 PM

Lars F. Bjoerlo (horizonpolaris)

What you mean 10 days?

4/24/2022 5:35 PM

Lars F. Bjoerlo (horizonpolaris)

(Hello Papa. Sunday greetings)

4/24/2022 6:13 PM

Lars F. Bjoerlo (horizonpolaris)

You doin' over there Miss Lopez???

4/24/2022 6:14 PM

Lars F. Bjoerlo (horizonpolaris)

:*

4/24/2022 6:16 PM

Lars F. Bjoerlo (horizonpolaris)

AAaawwww thaz just soooo sweet ;)

4/24/2022 6:52 PM

Lars F. Bjoerlo (horizonpolaris)

Me here giving Team Bastian a private concert.

4/24/2022 7:03 PM

Lars F. Bjoerlo (horizonpolaris)

My 2013 Field Trip Anthem: Dmitri Vegas, Like Mike - Mammoth.

4/24/2022 7:29 PM

Lars F. Bjoerlo (horizonpolaris)

91.1MHz SLAM FM

4/24/2022 8:04 PM

Lars F. Bjoerlo (horizonpolaris)

Possibly I've seen too much, Hangar 18,I know too much..

4/24/2022 8:04 PM

Lars F. Bjoerlo (horizonpolaris)

He he

4/24/2022 8:11 PM

Lars F. Bjoerlo (horizonpolaris)

What I feel? I can inform you that more than anything I'm leveled. Exactly as I'm supposed to be. Meaning I'm having a positive experience of my own life.

4/24/2022 8:15 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah in spite of all that sux

4/24/2022 8:35 PM

Lars F. Bjoerlo (horizonpolaris)

I think it's mindset/attitude. A choice, basically.

4/24/2022 11:14 PM

Lars F. Bjoerlo (horizonpolaris)

Bedtime. Monday tomorrow. Thanks for the week that has been. See ya.

4/25/2022 10:09 AM

Lars F. Bjoerlo (horizonpolaris)

Hey room. I'm starting to wake up earlier every day.

4/25/2022 10:20 AM

Lars F. Bjoerlo (horizonpolaris)

Trade personal freedom for justice? Not my style to accept any kind of plea bargain. If you did it, you will also have to answer for it.

4/25/2022 10:24 AM

Lars F. Bjoerlo (horizonpolaris)

Not only will you confess to all charges, but you will also give up your accomplices.

4/25/2022 10:24 AM

Lars F. Bjoerlo (horizonpolaris)

Mark my words.

4/25/2022 10:31 AM

Lars F. Bjoerlo (horizonpolaris)

I remember while being in police custody when the court other ran out and there was no new one in place to keep me detained, they just kept me anyway. This happened some 3 or 4 times.

4/25/2022 10:31 AM

Lars F. Bjoerlo (horizonpolaris)

other=order

4/25/2022 10:37 AM

Lars F. Bjoerlo (horizonpolaris)

Once I was arrested and thrown in a cell at the local police station. First they presented me to a doctor in order to get a green light on keeping my locked up on psychiatric grounds with no crime being committed. Doc said no - this man is not dangerous. What happened next? They were supposed to let me go, but drove me back to my cell and then they tried a second doctor with exactly the same outcome. On the third attempt they finally found a guy shady enough to just do what the police told him to.

4/25/2022 10:38 AM

Lars F. Bjoerlo (horizonpolaris)

All the times they broke in to my house without a court order.

4/25/2022 10:39 AM

Lars F. Bjoerlo (horizonpolaris)

They murdered my dog.

4/25/2022 10:40 AM

Lars F. Bjoerlo (horizonpolaris)

And charged me with the fire in dad's house

4/25/2022 10:41 AM

Lars F. Bjoerlo (horizonpolaris)

In particular the latter is a serious crime.

4/25/2022 10:41 AM

Lars F. Bjoerlo (horizonpolaris)

And yes I have several convictions based on evidence retrieved illegally.

4/25/2022 10:48 AM

Lars F. Bjoerlo (horizonpolaris)

I was caught in 2001 with some 85g of hash and got convicted to 40h community service for possession. That was my only prior before all hell broke loose in 2009. Been in the game since early 90ies. Never had any trouble with the law, always kept my driver's license, had a few speeding tickets and one for reckless driving in 1996, I think. Back then I drove 100,000km a year, thus making me being pulled over from time to time due to sheer milage.

4/25/2022 10:50 AM

Lars F. Bjoerlo (horizonpolaris)

After the hash in 2001 they had probable cause. This made me stop the business I was involved in at the time.

4/25/2022 10:50 AM

Lars F. Bjoerlo (horizonpolaris)

I always proclaimed that it's ok till the day I get caught. And when I did, I also took the consequences.

4/25/2022 10:53 AM

Lars F. Bjoerlo (horizonpolaris)

Then there's of course all the electronics they've seized that mysteriously disappeared from the evidence room.

4/25/2022 10:55 AM

Lars F. Bjoerlo (horizonpolaris)

And we haven't even begun to discuss all the weaknesses of this system.

4/25/2022 10:55 AM

Lars F. Bjoerlo (horizonpolaris)

I mean in general..

4/25/2022 10:58 AM

Lars F. Bjoerlo (horizonpolaris)

Once I got a restraining order from my own home address, as if a street address has the same rights as a person.

4/25/2022 11:05 AM

Lars F. Bjoerlo (horizonpolaris)

Letting it go? No way in hell!!!

4/25/2022 11:05 AM

Lars F. Bjoerlo (horizonpolaris)

I'd rather pull the entire world down with me.

4/25/2022 11:06 AM

Lars F. Bjoerlo (horizonpolaris)

Completely meaningless...

4/25/2022 11:09 AM

Lars F. Bjoerlo (horizonpolaris)

I know two decent police. The guy in booking and a woman upstairs that handles economy. The rest are basically bad seeds.

4/25/2022 11:10 AM

Lars F. Bjoerlo (horizonpolaris)

Criminals.

4/25/2022 11:20 AM

Lars F. Bjoerlo (horizonpolaris)

I could really use some sex right now :/

4/25/2022 11:21 AM

Lars F. Bjoerlo (horizonpolaris)

Heidundrandes!

4/25/2022 11:27 AM

Lars F. Bjoerlo (horizonpolaris)

I think that's my first sexual impulse since quitting. Going 2D to solve the issue is out of the question when I'm sober.

4/25/2022 12:29 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah. Weird thing. I personally have nothing against prostitution as such, but I'm having a harder time picturing myself as a client.

4/25/2022 12:32 PM

Lars F. Bjoerlo (horizonpolaris)

So I guess I'll just be waiting then...

4/25/2022 12:41 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah it's like you're allowed to keep a higher moral standard than strictly necessary.

4/25/2022 12:55 PM

Lars F. Bjoerlo (horizonpolaris)

/860

4/25/2022 12:55 PM

Lars F. Bjoerlo (horizonpolaris)

ooops

4/25/2022 12:58 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I've been waiting for the issue of analsex to come up. As I understand American girls, they're complaining that guys to a great extent prefer this. Not my/our thing and won't be regarded as healthy practice ever.

4/25/2022 1:02 PM

Lars F. Bjoerlo (horizonpolaris)

I have no idea what the reason could be. I suspect it all began as a method of avoiding pregnancy and or hide molestation. Maybe circumcision could play a role. I don't know.

4/25/2022 1:04 PM

Lars F. Bjoerlo (horizonpolaris)

Have of course made a few attempts just to have tried, but having gay sex right next to the most wonderful fruit just doesn'tmake any sense.

4/25/2022 1:07 PM

Lars F. Bjoerlo (horizonpolaris)

Back in the days there was an order to events in regular porn. Now they go ass-mouth all the time. Such would be corrected by the new legislation we've made regarding censorship/ healthy exemplification.

4/25/2022 1:13 PM

Lars F. Bjoerlo (horizonpolaris)

Vesta Hygea

4/25/2022 1:19 PM

Lars F. Bjoerlo (horizonpolaris)

I'm gladbeing sober while having this conversation. Not because I have a different position, but because it comesmorenaturally when my head is straight

4/25/2022 1:23 PM

Lars F. Bjoerlo (horizonpolaris)

Change of batteries again. Abou to go apesh** on this effing 100\$ keyboard

4/25/2022 1:32 PM

Lars F. Bjoerlo (horizonpolaris)

I suspect Coachie wants to start some kind of reality tv. Say no more.... This subject will be back.

4/25/2022 1:38 PM

Lars F. Bjoerlo (horizonpolaris)

Yep. Imagine. We've been talking almost daily for more than half a year. Just so you coukldlearn to know my judgment. That's the least what it takes to get to remotelyknow a person.

4/25/2022 1:42 PM

Lars F. Bjoerlo (horizonpolaris)

(I think only solution to keys slipping is reboot)

4/25/2022 1:43 PM

Lars F. Bjoerlo (horizonpolaris)

(Been some 500h since last and that was the crash)

4/25/2022 1:55 PM

Lars F. Bjoerlo (horizonpolaris)

By all means, have fun with bodily fluids, justkeep in mind they can be very offensive to some. ;)

4/25/2022 1:58 PM

Lars F. Bjoerlo (horizonpolaris)

We're fortunate to live in a time where we can do this relatively harmless. Just imagine a century ago and STD's...

4/25/2022 1:59 PM

Lars F. Bjoerlo (horizonpolaris)

Blessed really.

4/25/2022 2:01 PM

Lars F. Bjoerlo (horizonpolaris)

He he more people than me got inspired - and that's nice. I think I can promise good adult tv in the near future.

4/25/2022 2:31 PM

Lars F. Bjoerlo (horizonpolaris)

I was never random about my sexuality. It stretches deep into my past. By the time I could be considered legal, I had an intimate relationship to female anatomy going back half my life. I was fortunate to have such safe and thorough relation to female genitalia.

4/25/2022 2:31 PM

Lars F. Bjoerlo (horizonpolaris)

from early on

4/25/2022 2:33 PM

Lars F. Bjoerlo (horizonpolaris)

Don't know what I would recommend. The main thing is being nice and experience something magical and pleasant.

4/25/2022 2:34 PM

Lars F. Bjoerlo (horizonpolaris)

That can be from very young age - apparently...

4/25/2022 2:47 PM

Lars F. Bjoerlo (horizonpolaris)

First timers? Yes. five or six or so.

4/25/2022 2:49 PM

Lars F. Bjoerlo (horizonpolaris)

Extremely important to play nice. What my mother taught me about girls.

4/25/2022 2:51 PM

Lars F. Bjoerlo (horizonpolaris)

The early memories are sweet and dear tome.

4/25/2022 2:51 PM

Lars F. Bjoerlo (horizonpolaris)

I hope the others agree..

4/25/2022 3:02 PM

Lars F. Bjoerlo (horizonpolaris)

In our time it's like sex is considered to be something you owe yourself. I think of my total, say conquests, most happened while young. Something has changed along the way.

4/25/2022 3:07 PM

Lars F. Bjoerlo (horizonpolaris)

Maybe I'd be elsewhere if I wasn't ajunkie. Whoknows.

4/25/2022 3:15 PM

Lars F. Bjoerlo (horizonpolaris)

I've become pretty specific about how things should be. If conditirions arentmet I pass.

4/25/2022 3:35 PM

Lars F. Bjoerlo (horizonpolaris)

I don't know what you feel honey. I mean you're usually more sexual than me, but I'm much more likely to connect properly without the wired state of mind. I don't wanna tarnish it before it has even begun, if you understand me..

4/25/2022 3:37 PM

Lars F. Bjoerlo (horizonpolaris)

You've said many times since september that I'm different. And now I'm changing again.

4/25/2022 3:53 PM

Lars F. Bjoerlo (horizonpolaris)

You're the cutest, hon :)

4/25/2022 3:53 PM

Lars F. Bjoerlo (horizonpolaris)

Lovesick? Don't even go there...

4/25/2022 4:04 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks for understanding and appreciating.

4/25/2022 4:07 PM

Lars F. Bjoerlo (horizonpolaris)

I can try to explain: while being wired I feel like I'm cheating on you even when it is with you.

4/25/2022 4:08 PM

Lars F. Bjoerlo (horizonpolaris)

I'm just extremely picky about this sacred sphere.

4/25/2022 4:13 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks guys for vouching for my sexuality. I'm not a freudian, but sexuality matters.

4/25/2022 4:14 PM

Lars F. Bjoerlo (horizonpolaris)

I know. It's kinda sad.

4/25/2022 5:27 PM

Lars F. Bjoerlo (horizonpolaris)

Sanity and sexuality accounted for. What's next? :)

4/25/2022 5:33 PM

Lars F. Bjoerlo (horizonpolaris)

Wow. Two souls one thought. What I would do to hear your voice...

4/25/2022 5:35 PM

Lars F. Bjoerlo (horizonpolaris)

..until the day you're on my speed-dial..

4/25/2022 5:43 PM

Lars F. Bjoerlo (horizonpolaris)

Mmmm

4/25/2022 5:46 PM

Lars F. Bjoerlo (horizonpolaris)

I really appreciate our wavelength, hon. It has always been like this.

4/25/2022 5:51 PM

Lars F. Bjoerlo (horizonpolaris)

We really talked these things over once upon a time.

4/25/2022 5:53 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah if you happen to spot a quicker route, please take it baby.

4/25/2022 5:54 PM
Lars F. Bjoerlo (horizonpolaris)

at least consider it..

4/25/2022 6:20 PM
Lars F. Bjoerlo (horizonpolaris)

He he yeah it's definitively an advantage not to be a slave of some deviant primal impulse.

4/25/2022 6:25 PM
Lars F. Bjoerlo (horizonpolaris)

And this is where I distance myself from Freud who were rather obsessed in my opinion. I like to believe there's more to human behavior.

4/25/2022 7:04 PM
Lars F. Bjoerlo (horizonpolaris)

Keeping up with the Schmakashidans, he he

4/25/2022 8:02 PM
Lars F. Bjoerlo (horizonpolaris)

I did however see a few episodes of The Osbournes long time ago. I think it was back when Jack got his MS diagnosis. Anyway - Hail Sharon! That woman is pure gold.

4/25/2022 8:25 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah I heard Elon Musk is buying this place. I haven't heard anything more making him look weird. Seems like an ok guy. There are of course limits to my investigations here :D

4/25/2022 9:06 PM
Lars F. Bjoerlo (horizonpolaris)

We will have to have an open showdown regarding this scandal. No way around. I'mma keep this tone.

4/25/2022 9:07 PM
Lars F. Bjoerlo (horizonpolaris)

I mean, if there's gonna be an "us" at all.

4/25/2022 9:49 PM

4/25/2022 9:50 PM
Lars F. Bjoerlo (horizonpolaris)

Time to clean out this junk

4/25/2022 9:52 PM
Lars F. Bjoerlo (horizonpolaris)

It's been like a dozen days and it feels unreal that all these were inside me at one (many) point(s)

4/25/2022 9:53 PM
Lars F. Bjoerlo (horizonpolaris)

Hashtag "sacrifice"

4/25/2022 9:56 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah it's pretty disgusting...

4/25/2022 10:11 PM
Lars F. Bjoerlo (horizonpolaris)

It's the knot of a hang mans noose. Appropriate.

4/25/2022 10:11 PM
Lars F. Bjoerlo (horizonpolaris)

Yes a piece of rope

4/25/2022 10:12 PM
Lars F. Bjoerlo (horizonpolaris)

It looks like a handgrenade without the needles.

4/25/2022 10:14 PM
Lars F. Bjoerlo (horizonpolaris)

The amount of trash associated with this mounts up over time. One thing is the clean underwear when found dead, but what about all this crap?

4/25/2022 10:26 PM
Lars F. Bjoerlo (horizonpolaris)

Yes this is in effect a life sentence in a prison.

4/25/2022 10:27 PM
Lars F. Bjoerlo (horizonpolaris)

Not even you could just snap me out of it. Living here takes its toll.

4/25/2022 10:30 PM
Lars F. Bjoerlo (horizonpolaris)

Alright. Let's not dwell by that %"&#£\$

4/25/2022 10:45 PM
Lars F. Bjoerlo (horizonpolaris)

Soon bed again. Can't continue to just sit here all day. Hmmm...

4/25/2022 10:45 PM
Lars F. Bjoerlo (horizonpolaris)

It's a sign I enjoy at least :)

4/25/2022 10:55 PM
Lars F. Bjoerlo (horizonpolaris)

Yes I almost only dream. Looking forward to try quitting meds, but it's not like first up...

4/25/2022 10:57 PM
Lars F. Bjoerlo (horizonpolaris)

One major change at the time. Waiting a little with the meds is the good way to go I think.. At least I know what I have at all times.

4/25/2022 10:58 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah I got that babe :D

4/25/2022 10:59 PM
Lars F. Bjoerlo (horizonpolaris)

You know what? I never tried Cialis or that blue pfizer crap.

4/25/2022 11:00 PM
Lars F. Bjoerlo (horizonpolaris)

And I would want you to get offended if I made such a suggestion, he he :)

4/25/2022 11:01 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah Viagra is the product name

4/25/2022 11:02 PM
Lars F. Bjoerlo (horizonpolaris)

People say they work. Here they've recently released a non subscription version.

4/25/2022 11:04 PM
Lars F. Bjoerlo (horizonpolaris)

prescribed would be the correct word, yes...

4/25/2022 11:05 PM

Lars F. Bjoerlo (horizonpolaris)

I suppose everything happens once, but I can't imagine being pounding hard for hours without stop. That's almost frightening kinda...

4/25/2022 11:12 PM

Lars F. Bjoerlo (horizonpolaris)

You WOULD get offended? Good. Exactly what I wanted to hear, dear :)

4/25/2022 11:45 PM

Lars F. Bjoerlo (horizonpolaris)

Gottcha. Not starting any fires on my own just yet.

4/25/2022 11:46 PM

Lars F. Bjoerlo (horizonpolaris)

The Russians are definitively pushing for a new world order.

4/25/2022 11:47 PM

Lars F. Bjoerlo (horizonpolaris)

Who can really blame them? They really have everything to gain, not the opposite.

4/25/2022 11:48 PM

Lars F. Bjoerlo (horizonpolaris)

And imagine being responsible for 1,5bln people that you'd like to have in check...

4/25/2022 11:49 PM

Lars F. Bjoerlo (horizonpolaris)

We can cry democracy all we want, but nobody wants our horrorshow.

4/25/2022 11:54 PM

Lars F. Bjoerlo (horizonpolaris)

Congrats to Mr. Musk btw

4/26/2022 12:00 AM

Lars F. Bjoerlo (horizonpolaris)

Are Brundtland and Solberg the prime candidates for the treason and attempted murder cases?

4/26/2022 12:01 AM

Lars F. Bjoerlo (horizonpolaris)

..and undermining the justice department

4/26/2022 12:03 AM

Lars F. Bjoerlo (horizonpolaris)

Let's just get out over with. From "Landsmoder" to Quisling. Cool end of a lifelong political career.

4/26/2022 12:04 AM

Lars F. Bjoerlo (horizonpolaris)

This sucks

4/26/2022 12:08 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah awaiting explanation...

4/26/2022 12:09 AM

Lars F. Bjoerlo (horizonpolaris)

Make sure Hartmann loses his pension.

4/26/2022 12:11 AM

Lars F. Bjoerlo (horizonpolaris)

And serve a minimum of 2,5 years in one of the three following institutions: Ila landsfengsel og sikringsanstalt, Oslo kretsfengsel eller Ullersmo. Fuck that sociopath. He won't make it a week.

4/26/2022 12:14 AM

Lars F. Bjoerlo (horizonpolaris)

I did three months straight in solitary confinement in Ullersmo. I was never in the yard and I even taped my windows with black garbage bags to keep any light out. I'd like to see him do that exercise.

4/26/2022 12:14 AM

Lars F. Bjoerlo (horizonpolaris)

Fucking pussy!

4/26/2022 12:17 AM

Lars F. Bjoerlo (horizonpolaris)

Moabit is where he REALLY should do his time.

4/26/2022 12:24 AM

Lars F. Bjoerlo (horizonpolaris)

Using these names as a charge to detonate is powerful stuff. Not only have both been prime ministers, but Gro led the WHO for many years too.

4/26/2022 12:25 AM

Lars F. Bjoerlo (horizonpolaris)

What is it with me and jinxed prime ministers?

4/26/2022 12:25 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah. Taking her down is like killing the king, more au lait...

4/26/2022 12:26 AM

Lars F. Bjoerlo (horizonpolaris)

For the Nation

4/26/2022 12:26 AM

Lars F. Bjoerlo (horizonpolaris)

She's part of our identity.

4/26/2022 12:28 AM

Lars F. Bjoerlo (horizonpolaris)

I just don't have it in me to feel sorry for any of these crooks.

4/26/2022 12:29 AM

Lars F. Bjoerlo (horizonpolaris)

This is Norwegian RICO stuff. |

4/26/2022 12:30 AM

Lars F. Bjoerlo (horizonpolaris)

\$55

4/26/2022 12:31 AM

Lars F. Bjoerlo (horizonpolaris)

My best advice: claim insanity ;)

4/26/2022 12:31 AM

Lars F. Bjoerlo (horizonpolaris)

Nite *kiss*

4/26/2022 11:27 AM

Lars F. Bjoerlo (horizonpolaris)

Morning. Struggling to log into my computer again. Can't recall the password I set. Gotta break in again from the outside. I'm not really there right now, but I'm listening while doing something else.

4/26/2022 11:28 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah the Russians. I think they want us, not the other goons.

4/26/2022 11:41 AM

Lars F. Bjoerlo (horizonpolaris)

I've been thinking. PST has been digging the archives on my family. Brundtland has had a firm, clandestine grip on my family since the 80ies. The fact that she still has the same power, is necessarily a national security problem. You should prepare an arrest before she destroys evidence, hassle witnesses or flee.

4/26/2022 11:49 AM

Lars F. Bjoerlo (horizonpolaris)

I'm also thinking of America and Elons rather dramatic intervention in the name of the first amendment. If more do stuff like this, we can effectively run our property and dictate our own taxes to run education, health and police. We wouldn't need to pay attention to the parliamentarians.

4/26/2022 11:55 AM

Lars F. Bjoerlo (horizonpolaris)

This situation and how we continously widen and develop our efforts to make true changes is in the long run secure world peace.

4/26/2022 11:56 AM

Lars F. Bjoerlo (horizonpolaris)

It's not going unnoticed by the unpopular guys.

4/26/2022 11:57 AM

Lars F. Bjoerlo (horizonpolaris)

They simply want the best of us to set an example on which they can rely.

4/26/2022 1:41 PM

Lars F. Bjoerlo (horizonpolaris)

Up north a natural conclusion at this stage. Thanks for caring to carry on for the greater cause.

4/26/2022 1:46 PM

Lars F. Bjoerlo (horizonpolaris)

Alright, what happened was I suspected Jens. Apparently he is at least well informed. My sole focus is to kill this mis-culture with the nasty power struggles of the Labor party. I've picked up stuff over the years and something happened when her son committed suicide. Someone did time for that in the underworld of Oslo. Jens's sister, RIP, was also an addict. Junkies talk.

4/26/2022 1:52 PM

Lars F. Bjoerlo (horizonpolaris)

I was also member of an elite, secret labor-group in the Rose basement across the street from the Storting (parliament) in the late 90's early 2000s. I hung with a mix of city Mayers, regional leaders, union leaders and parliamentarians. We were some 150 people. Jens popped by occasionally just to mingle. And he was the prime minister and party leader.

4/26/2022 1:55 PM

Lars F. Bjoerlo (horizonpolaris)

Let's say there were people there with extremely dark clouds over them bco Brundtland. Much later I would meet others incarcerated indefinitely without even being able to lear what they're being suspected or charged with.

4/26/2022 1:57 PM

Lars F. Bjoerlo (horizonpolaris)

This is big mafia. Let me remind you about the Jugo ties connected to the Stoltenberg name. And I say this with no disrespect to Jens, his father or the Serbs.

4/26/2022 1:58 PM

Lars F. Bjoerlo (horizonpolaris)

All this is common knowledge in the core

4/26/2022 2:08 PM

Lars F. Bjoerlo (horizonpolaris)

One guy was dragged out of bed and processed all the way almost naked just for the sake of degrading him as much as possible.

4/26/2022 2:10 PM

Lars F. Bjoerlo (horizonpolaris)

He saw a court in Bergen wearing a crime scene paper suit with a tear in the crutch, exposing his genitals in the courtroom.

4/26/2022 2:12 PM

Lars F. Bjoerlo (horizonpolaris)

And within the psychiatric system, like me... I don't know where to start. Imma stick to my personal experiences.

4/26/2022 2:13 PM

Lars F. Bjoerlo (horizonpolaris)

Not to mention child care services as a political weapon.

4/26/2022 2:25 PM

Lars F. Bjoerlo (horizonpolaris)

That's the democracy we're tryna push on to the east. And they're not idiots.

4/26/2022 2:36 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. It's like a semi-psychotic experience.

4/26/2022 2:37 PM

Lars F. Bjoerlo (horizonpolaris)

I mean all of this coming back

4/26/2022 2:37 PM

Lars F. Bjoerlo (horizonpolaris)

And because I quit

4/26/2022 2:37 PM

Lars F. Bjoerlo (horizonpolaris)

Powerful combo mentally

4/26/2022 3:07 PM

Lars F. Bjoerlo (horizonpolaris)

Ok guys. Elon is in the room determined to get his hands greasy.

4/26/2022 3:08 PM

Lars F. Bjoerlo (horizonpolaris)

Welcome, owner. :)

4/26/2022 3:19 PM

Lars F. Bjoerlo (horizonpolaris)

Less if's and more when's. My suggestion to common focus. Let's gradually control Elons new space ship :)

4/26/2022 3:20 PM

Lars F. Bjoerlo (horizonpolaris)

Cool toy you've acquired, Mr. Musk :)

4/26/2022 5:02 PM

Lars F. Bjoerlo (horizonpolaris)

Yes honey I'm fine. Just tired. Not much sleep last night. You up to?

4/26/2022 8:02 PM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. I'm on the phone, but mostly just relaxing. Called mum and gave her a status report as far as I can.

4/26/2022 8:09 PM

Lars F. Bjoerlo (horizonpolaris)

I'm happy I didn't bring any alcohol from the shop.

4/26/2022 8:10 PM

Lars F. Bjoerlo (horizonpolaris)

It's soo easy to just slip into that mode.

4/26/2022 8:11 PM

Lars F. Bjoerlo (horizonpolaris)

But I need up on my feet more than anything.

4/26/2022 9:15 PM

Lars F. Bjoerlo (horizonpolaris)

I just came to think of Frau Bollenbacher. Wonder what came of her. Weird how some people get stuck on your mind for no reason.

4/26/2022 9:18 PM

Lars F. Bjoerlo (horizonpolaris)

The setting was completely nuts

4/26/2022 9:20 PM

Lars F. Bjoerlo (horizonpolaris)

Poor Frau B in the middle I recall. I sold the EuroPol narrative in German to this semi-warden on my Haus Zwo. He thanked me, actually. Jesus Christ that place was hell.

4/26/2022 9:23 PM

Lars F. Bjoerlo (horizonpolaris)

Shockingly bad actually.

4/26/2022 9:26 PM

Lars F. Bjoerlo (horizonpolaris)

All the tiny details.. it's flooding my mind.

4/26/2022 10:03 PM

Lars F. Bjoerlo (horizonpolaris)

Well, I had to inspect the solitary confinement conditions, so I created a scene rushing towards a Justiz-officer with a sock containing a glass jar, Nutella I believe it was. The warden wanted upon my 33h later release from the basement an interview in his office. Why are you threatening my staff?

4/26/2022 10:07 PM

Lars F. Bjoerlo (horizonpolaris)

And the AI tried to drive me nuts. Kept me inside for weeks at a time. Struggling with our 3d star-wars chess cube inside my mind. That's when I caught the pattern, or behavior of the machine. Suddenly I had two parallel lines - an invalid solution.

4/26/2022 10:11 PM

Lars F. Bjoerlo (horizonpolaris)

This machine and it's capabilities could otherwise blow your mind.

4/26/2022 11:18 PM

Lars F. Bjoerlo (horizonpolaris)

Anyway - I found that people were kept in max 48h cell conditions for weeks as disciplinary reactions. I also found evidence of illegal restraining you would need to be in a hospital in order to enforce.

4/26/2022 11:30 PM

Lars F. Bjoerlo (horizonpolaris)

The worst part were the hysterically poor health conditions and the sheer amount of filth. If you're facing substantial time in Moabit, you will retrieve a serious lung condition ranging from mold issues to tuberculosis.

4/26/2022 11:33 PM

Lars F. Bjoerlo (horizonpolaris)

We got our lungs xrayed in the booking process. Totally unreal. In the heart of western Europe.

4/26/2022 11:34 PM

Lars F. Bjoerlo (horizonpolaris)

Beneath any kind of criticism.

4/26/2022 11:50 PM

Lars F. Bjoerlo (horizonpolaris)

Babetibabe? Bed. Sure break the news whenever you feel like it ♥

4/27/2022 12:16 AM

Lars F. Bjoerlo (horizonpolaris)

Tomorrow morning I'll wake up to 12,7million followers, he he :D

4/27/2022 12:21 AM

Lars F. Bjoerlo (horizonpolaris)

I actually love my bed for once.

4/27/2022 9:40 AM

Lars F. Bjoerlo (horizonpolaris)

Hey room. Sleeping was very welcome. Are you OK?

4/27/2022 10:00 AM

Lars F. Bjoerlo (horizonpolaris)

What you said about my mother yesterday was really warming. I just wish you could say it to her, you know. Time is running out on her.

4/27/2022 10:03 AM

Lars F. Bjoerlo (horizonpolaris)

She's like "I'm not going anywhere", but really can't back up this confidence.

4/27/2022 10:27 AM

Lars F. Bjoerlo (horizonpolaris)

And dad... I gotta smile. While life comes with no guarantees, I don't worry too much. The issue of being trusted sanity-wise and prove that I'm able to make actions of my thoughts are what I'm after.

4/27/2022 10:54 AM

Lars F. Bjoerlo (horizonpolaris)

No, I don't see any reason to change the lower age for having sex. I did really think it through. Kids are kids, so it's not like small differences in age matters or is considered anybody's concern. For the rest of us the thumb rule minimum half own age + 7 works just fine.

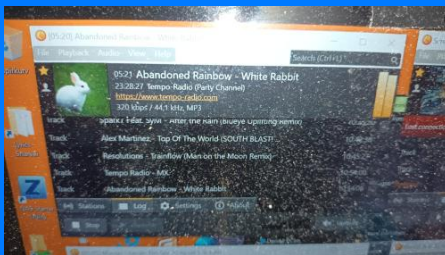

4/27/2022 10:58 AM

Lars F. Bjoerlo (horizonpolaris)

(On Cuba it's actually even higher - 17)

4/27/2022 11:31 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah prostitution is for the most nasty business profiting from trading humans in slavery.

4/27/2022 11:37 AM

Lars F. Bioerlo (horizonpolaris)

But the concept of selling sexual services should always be a choice available to the party providing the service. Say, if I was to buy such a service where it's legal and regulated, I wouldn't feel so bad about myself. Yet still, I can't bring myself to do it. And if I did I could still get punished at home because as a Norwegian citizen I'm obliged to uphold Norwegian laws within my conduct abroad. I don't care about that in my assessment when concluding I could use some, but won't pay for it.

4/27/2022 11:41 AM

Lars F. Bjoerlo (horizonpolaris)

And I would definitely care less if she was just 20. Same goes for a porn actress. If you're in such by the age of 20, I trust this person knows what she's doing.

4/27/2022 11:45 AM

Lars F. Bjoerlo (horizonpolaris)

In sum: if you're fine with selling your body, that's fine by me.

4/27/2022 11:51 AM

Lars F. Bjoerlo (horizonpolaris)

Is this where coachie wants me to tell the lobster-girl story? Oh, please don't make me. It'll have to be when the Scmakashidans air ;)

4/27/2022 12:17 PM

Lars F. Bjoerlo (horizonpolaris)

I suppose it's the only artform that everybody has something to say and where everybody participates. There are many good and interesting aspects to discussing sex.

4/27/2022 12:25 PM

Lars F. Bjoerlo (horizonpolaris)

Not counting lobster-girl, my youngest was -5 years and the oldest +11 years.

4/27/2022 12:37 PM

Lars F. Bjoerlo (horizonpolaris)

Ok, according to lobster-girl -4. I suspect it may have been -6, which technically would be illegal.

4/27/2022 12:37 PM

Lars F. Bjoerlo (horizonpolaris)

Right. Long time ago.

4/27/2022 12:45 PM

Lars F. Bjoerlo (horizonpolaris)

I think I offended Kylie. Pointing out her name is Jenner. Ok Kylie. Sorry about that. My bad. :)

4/27/2022 1:12 PM

Lars F. Bjoerlo (horizonpolaris)

He he. I had forgotten about that. Remember "lapskaus" but "smashboller" was a good one. I'm not sure I should dare translate that *lol*

4/27/2022 1:15 PM

Lars F. Bjoerlo (horizonpolaris)

As cosy as it is, I can't sit here all day smoking hash. I gotta go for a walk at least. Dressing up for a walk in the forest.

4/27/2022 1:27 PM

Lars F. Bjoerlo (horizonpolaris)

Ok guys. I see you. The Christian aspects of this are not forgotten because they're not preached. I have the sincerest empathy with everybody that has a God and a savior in their lives. I personally couldn't have made it without.

4/27/2022 4:52 PM

Does it mean you want this conversation pdf- ed again? I'm closing this book when my woman breaks the silence. Then I'll upload a copy. Is that good enough?

4/27/2022 5:02 PM
Lars F. Bjoerlo (horizonpolaris)

Ok I understand. How fast would you be needing it?

4/27/2022 5:11 PM
Lars F. Bjoerlo (horizonpolaris)

I already have a version just a couple of weeks old, but I'm not logged into my own account and I'm not about to make a mess in the adm account. Would take me 10min to hack, but I'm lazy.

4/27/2022 5:30 PM
Lars F. Bjoerlo (horizonpolaris)

Ok. Imma see if I can prepare the autoscrolling tool and everything else I need to run through all estimated 1k pages. Try to have it going by bedtime and upload in the morning. I should be able to do that.

4/27/2022 5:37 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah. The Norwegian party better learn how to surf a monstrous tidal wave, and that soon.

4/27/2022 5:50 PM

Me to. Up for now. Like yesterday-now.

4/27/2022 6:49 PM

1130 pages. Estimate 80k words.

4/28/2022 12:07 AM

Lars F. Bjoerlo (horizonpolaris)

the setting should have been bmp or tif, not jpg.

4/28/2022 12:52 AM

Lars F. Bjoerlo (horizonpolaris)

png could have worked too. jpg has limits to how far you can build a file in pixels either direction. that's why it's three parts. the plan was 1 picture file as a raw norm and then convert to pdf

4/28/2022 12:54 AM

Lars F. Bjoerlo (horizonpolaris)

Judging from the feed you're all excited. That's nice. Here bed is calling.

4/28/2022 2:16 PM

Lars F. Bjoerlo (horizonpolaris)

Hey everybody. At work. Been to dentist. Just some details left and removal of my last "wisdom-tooth", as we call them here. Other than that it seems like I'm gonna be busy with several non working computers in the weekend.I'm also expecting a visitor from outta town over the entire weekend.

4/28/2022 2:20 PM

Lars F. Bjoerlo (horizonpolaris)

Darn, I had started the capture when Billy idols "white wedding" came as part of your reply. What settings I referred to in the first place were the image taking/scrolling speed in order to avoid missing lines.

That's awesome honey. Great work. I can probably start counting days now...

4/28/2022 4:31 PM

Obi wan has taught you well, Son. *breathing* *crackling of light sabre*

4/28/2022 4:32 PM

Lars F. Bjoerlo (horizonpolaris)

Complete geek. I know. Don't call her Jen-Jen Binx. She'll punch you in the face, ha ha 🤪

4/28/2022 4:36 PM

Lars F. Bjoerlo (horizonpolaris)

No, I'm not a fan of Quran burning. It's the price we have to pay for free speech, but people like that, abusing their rights, are scum. Believe me when I say I get agitated on behalf of all decent Muslims.

4/28/2022 4:55 PM

Lars F. Bjoerlo (horizonpolaris)

I realize that I should probably visit a Bedouin tribe in the Sahara in order to really grasp what Islam ultimately is about, but I do have a brain and I have this habit of following Christ everywhere. What was he thinking when he said this or did that. Where did his inspiration, devotion and determination all come from? How did He gather his strength to overcome the fear, hatred, bigotry and violence that was their way of life back then as today?

4/28/2022 4:56 PM

Lars F. Bjoerlo (horizonpolaris)

Practice helps. I spend a day in other people's shoes all the time.

4/28/2022 5:03 PM

Lars F. Bjoerlo (horizonpolaris)

And the most mind boggling thing is that we're all still talking about these people from back then all the time. Christ is surviving apparently. Pretty amazing achievement.

4/28/2022 5:12 PM

Lars F. Bjoerlo (horizonpolaris)

Well, yes, picturing the Prophet, or any Prophet. Not as easy to understand here because we have fallen in love with the body of Christ on the crucifix, which is exactly what you guys are trying to avoid. So I get it, but people in general don't.

4/28/2022 5:48 PM

Lars F. Bjoerlo (horizonpolaris)

Going to dad's for Thursday dinner.. :)

4/28/2022 8:03 PM

Lars F. Bjoerlo (horizonpolaris)

Hepp hepp. Back from dad. Brought 1 beer home with milk and bread. Perfect. How are you feeling?

4/28/2022 8:09 PM

Lars F. Bjoerlo (horizonpolaris)

Just heard Biden. One can't disagree to his statements made today, but it's still a clear indication that he doesn't understand what this conflict is about. Then again, the Russians aren't making it easy to understand where they're coming from and we have all the right to mean this military aggression is unjust. Most to the Ukrainians, not Joe and his people.

4/28/2022 8:12 PM

Lars F. Bjoerlo (horizonpolaris)

Well, the shipping of military material causes more violence and death. Failing to see this is beyond comprehension from where I stand.

4/28/2022 8:14 PM

Lars F. Bjoerlo (horizonpolaris)

But here we're into the same topic as the "political suicide" remarks. He has to stick to this line because otherwise he'd suffer crashing polls.

4/28/2022 8:15 PM

Lars F. Bjoerlo (horizonpolaris)

It limits the room for diplomacy.

4/28/2022 8:22 PM

Lars F. Bjoerlo (horizonpolaris)

This doesn't make any more sense this week than the last. That should ring some bells, at least in the diplomatic corps.

4/28/2022 8:24 PM

Lars F. Bjoerlo (horizonpolaris)

We don't have to like what Putin says, but we should take him seriously.

4/28/2022 8:26 PM

Lars F. Bjoerlo (horizonpolaris)

I think Jens's statement was balanced and realistic, but he is also bound on his hands and feet in terms of what's expected from his role.

4/28/2022 8:32 PM

Lars F. Bjoerlo (horizonpolaris)

In simple terms: they're all just saying and doing what they have to as political entities.

4/28/2022 8:33 PM

Lars F. Bjoerlo (horizonpolaris)

We're not getting any wiser and definitely not safer.

4/28/2022 8:50 PM

Lars F. Bjoerlo (horizonpolaris)

Very often in diplomacy, holding your piece can be wise when the option is saying something inaccurate.

4/28/2022 8:59 PM

Lars F. Bjoerlo (horizonpolaris)

It's good to know one is wanted, Vladimir. I think I can understand Russian politics anno 2022. At least I really try, and I believe you on your word when you say you don't want this at all.

4/28/2022 9:01 PM

Lars F. Bjoerlo (horizonpolaris)

It's an obvious all or nothing, to be or not to be situation. At least I find it obvious.

4/28/2022 9:24 PM

Lars F. Bjoerlo (horizonpolaris)

Yep. NATO is dictated by nothing. The inevitable conclusion. Who in their right mind wouldn't see this as a threat?

4/28/2022 11:58 PM

Lars F. Bjoerlo (horizonpolaris)

Gotta go sleep. Early to hospital for the shot.

4/29/2022 9:48 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning. Wisconsin, was it? Nevertheless, abortions will have to wait. They're not exactly important in the grander scheme of things going on nowadays. Skipping this one.

4/29/2022 10:41 AM

Lars F. Bjoerlo (horizonpolaris)

As for the missiles launched on Kiev under the UN secretary's visit, it is a message. The middle finger to the UN and the security council.

4/29/2022 2:29 PM

Lars F. Bjoerlo (horizonpolaris)

Busy. Been to the dump with my old bed. Explained everything to my nurse - got prescribed sleeping pills. Going to pharmacy to pick them up. After that I'll have to start cleaning. Visitor in a few hours... :)

4/29/2022 4:14 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I've noticed some interest regarding influencing in politics elsewhere, in particular the rebuilding of the Americas. I take it Jens has some perspective beyond NATO that has not been said publicly. But yes, we will be recruiting people continuously and practical experience with the congressional environment and processes won't be a handicap.

4/29/2022 4:20 PM

Lars F. Bjoerlo (horizonpolaris)

We'll get back to you Sylvi.

4/30/2022 12:27 AM

Lars F. Bjoerlo (horizonpolaris)

Aaaw thanks hon for all the declarations of love in my direction. Having two guys here. We're having a blast. I love you. *kiss*

4/30/2022 12:04 PM

Lars F. Bjoerlo (horizonpolaris)

Good morning. My friend is still here. Watching Fury. No breakfast yet.

4/30/2022 12:05 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks for the invitation to come see Qatar. I'll pick you up on that at one point. I'd be honored to be your guest.

4/30/2022 8:31 PM

Lars F. Bjoerlo (horizonpolaris)

So you like my friend, huh? So do I. Solid fella. :)

4/30/2022 8:35 PM

Lars F. Bjoerlo (horizonpolaris)

I'm willing to go a little extra to please this guest. Making and serving all the meals etc while he rests. I like it. It's nice.

4/30/2022 8:58 PM

Lars F. Bjoerlo (horizonpolaris)

We go back over 30 years and he's a pillar in society. If most people didn't live like he does, we wouldn't have a society at all. I'm the deviant from this perspective.

4/30/2022 10:36 PM

Lars F. Bjoerlo (horizonpolaris)

We used to have irreconcilable differences politically when we were kids. That's why we agreed to disagree and remain friends. These days we're pretty much eye to eye on anything.

5/1/2022 2:42 PM

Lars F. Bjoerlo (horizonpolaris)

Hey baby. My guest just went. He has spent some three years in Australia, thus good in English..

5/1/2022 2:44 PM

Lars F. Bjoerlo (horizonpolaris)

How are we doing out there??

5/1/2022 3:19 PM

Lars F. Bjoerlo (horizonpolaris)

Anybody there?

5/1/2022 6:02 PM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking that I will probably need more than one assistant that speaks Norwegian. I can't pick him as an assistant - I gotta figure out something different...

5/1/2022 6:04 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not sure what just yet, but quality control would suit him.

5/1/2022 6:23 PM

Lars F. Bjoerlo (horizonpolaris)

I'm fine, thank you. Just missing Jennifer.

5/1/2022 8:30 PM

Lars F. Bjoerlo (horizonpolaris)

I love you too, sweetie.

5/2/2022 11:18 AM

Lars F. Bjoerlo (horizonpolaris)

Hepp hepp. I'm up not crying. Actually have been a couple of hours. Just thinking while listening to Norwegian talking radio. I'm in a new phase now.

5/2/2022 11:22 AM

Lars F. Bjoerlo (horizonpolaris)

ka-think

5/2/2022 11:29 AM

Lars F. Bjoerlo (horizonpolaris)

I'll be seeking out hazard today. But I'm prepared. Just not looking forward to it in particular.

5/2/2022 11:31 AM

Lars F. Bjoerlo (horizonpolaris)

Hazard and hazard, Mrs Bloom, like we say here. Not hazard as in physically dangerous, but exposing myself to amphetamines without taking any.

5/2/2022 11:31 AM

Lars F. Bjoerlo (horizonpolaris)

In order to get hash. Wouldn't have that problem if it was legal.

5/2/2022 11:33 AM

Lars F. Bjoerlo (horizonpolaris)

It's gonna be alright. I promise.

5/2/2022 2:48 PM

Lars F. Bjoerlo (horizonpolaris)

Waddaya know. No worries - it's safe in the fridge, not for me. I've gathered all my syringes too. I'mma give it to someone who needs it. There's this guy coming here...

5/2/2022 2:49 PM

Lars F. Bjoerlo (horizonpolaris)

Reminds me of my little hash-based social service back in the days.

5/2/2022 2:51 PM

Lars F. Bjoerlo (horizonpolaris)

I didn't give hash away, but I did accept 1 round of credit on the maximum amount of 50g. That's what I've been picking up to myself today.

5/2/2022 2:51 PM

Lars F. Bjoerlo (horizonpolaris)

Cash, however...

5/2/2022 3:10 PM

Lars F. Bjoerlo (horizonpolaris)

I suppose this answers Papa's ultimate question regarding temptation. My answers so far, combined with my actions, have been somewhat fuzzy or blurred. Let me set the example today. I'm not having any of what's in the fridge.

5/2/2022 3:30 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks hon. This guy is a hopeless case, some 15 years younger. Met him in hospital. He's roaming the streets, asking for some assets to get off the ground. I can afford losing a 100€. The way I have to see it.

5/2/2022 3:32 PM

Lars F. Bjoerlo (horizonpolaris)

On the other hand; he could surprise and show up here with half.

5/2/2022 4:53 PM

Lars F. Bjoerlo (horizonpolaris)

Hmm. No contact, but I'm here with one screen only today. If that guys doesn't show up I'mma have to find someone else. Could be I could get rid of it here in this building, no I could definitely have done that, but if I could somehow transform into a favor of some kind... Alright gotta give the originnal fella a few more hours to get here.

5/2/2022 5:16 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I'm kinda talkative today while spinning on a lot of unfinished business as well as new things added to the horizon. I find the task in front of me satisfying.

5/2/2022 5:18 PM

Lars F. Bjoerlo (horizonpolaris)

It's a "finally here"-feeling. Then go over all the seams check everything sewn correctly. Seems swell so far.

5/2/2022 6:01 PM

Lars F. Bjoerlo (horizonpolaris)

The talking radio is a different concept of creating mental images. Not only in terms of English/Norweian, but the tools used to create meaning are different.

5/2/2022 6:39 PM

Lars F. Bjoerlo (horizonpolaris)

Alright I'm here. Havent really shaped anything substantial to say. My thoughts have been scattered lately. That means two things - moving towards a new phase relatively effortlessly. Soon they will gather, then concentrate and then pour out. You know - the light hitting your face right now has travelled 8 minutes through space before hitting you. However, that particular photon this moment hasn't traveled just 8 minutes, but it was created in the sun's core 100k years ago. It has pingponged around inside the sun for a small eternity before reaching you. What my point was? Excellent question.

5/2/2022 6:40 PM

Lars F. Bjoerlo (horizonpolaris)

Uuh - what I'm saying is that it is a process. A rather vast one mentally.

5/2/2022 6:41 PM

Lars F. Bjoerlo (horizonpolaris)

May I smoke and time out a bit? Thanks ;)

5/2/2022 6:45 PM

Lars F. Bjoerlo (horizonpolaris)

Oh great. I had lasagna in the oven. I barely resqued it... :/

5/2/2022 8:08 PM

Lars F. Bjoerlo (horizonpolaris)

Is that a countdown, baby? :)

5/2/2022 9:30 PM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. That dude didn't show up. Doesn't matter. Going to bed soon. Work tomorrow. Boring tasks await.

5/2/2022 9:31 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah, I did buy 2 beers earlier and now I'm having regular black coffee. Yes I drink coffee in the evening.

5/2/2022 9:32 PM

Lars F. Bjoerlo (horizonpolaris)

I'm something that could remind of happy, I think.. :)

5/2/2022 10:13 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah sure I'm fine. Wasn't my plan to bring that stuff into tomorrow, but whatever happens - that is not an option. The toilet is before me on the list of options,

5/2/2022 10:16 PM

Lars F. Bjoerlo (horizonpolaris)

It's a decision made while strong enough to stick with it. Braking this pattern brings misfortune. I should be the one to know, right?

5/2/2022 10:19 PM

Lars F. Bjoerlo (horizonpolaris)

I promised. Right? Exactly. Don't worry about me. It's gonna be just fine.

5/3/2022 10:44 AM

Lars F. Bjoerlo (horizonpolaris)

Hey baby. I'm not keen on struggling with laptops today. I just wanna be here. Maybe I can come up with a compromise somehow..

5/3/2022 10:57 AM

Lars F. Bjoerlo (horizonpolaris)

I got it my way. Staying in bed with p4 for a little longer. Then breakfast and then I should look at my work pc.

5/3/2022 12:00 PM

Lars F. Bjoerlo (horizonpolaris)

Think I'mma go for a walk before anything else. Now breakfast.

5/3/2022 12:20 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not walking as far as last, but this time more terrain.

5/3/2022 12:21 PM
Lars F. Bjoerlo (horizonpolaris)

OK? Are kidding me? I'm on fire! And it has nothing to do with what's in the fridge. *kiss*

5/3/2022 12:24 PM
Lars F. Bjoerlo (horizonpolaris)

The whole thing was a stupid move, but if for nothing else, you now know how I cope having access within a few feet.

5/3/2022 1:06 PM
Lars F. Bjoerlo (horizonpolaris)

End of issue. Just got rid of it.

5/3/2022 1:37 PM
Lars F. Bjoerlo (horizonpolaris)

Well, the guy I was heading towards just came here, meaning I have to reconfigure my walking plans. The day is young. Do you mind me just hanging around for a while?

5/3/2022 3:14 PM
Lars F. Bjoerlo (horizonpolaris)

Dad was here to pick up an extra bicycle. I myself am trying out yesterday's purchase.

5/3/2022 3:17 PM
Lars F. Bjoerlo (horizonpolaris)

I think I'm about to get closure - that I'm more or less done mourning.

5/3/2022 3:41 PM
Lars F. Bjoerlo (horizonpolaris)

As far as worldwide jewish conspiracies go - I'm lacking evidence to support such a claim. I have a feeling the last word hasn't been said yet. Pay attention guys.

5/3/2022 3:43 PM
Lars F. Bjoerlo (horizonpolaris)

Either way you'll have to see it in context from the time of Abraham.

5/3/2022 3:49 PM
Lars F. Bjoerlo (horizonpolaris)

Strange fact: Our original constitution of 1814 forbade jews. It does really seem that for God's chosen people, they have this tendency of pissing everybody up and rarely gets blamed for some mysterious reason. If I leave it there with a questionmark, I hope we'll get an explanation from the Israeli's themselves. After all, they should know whether they are alien and or toxic to the rest of us.

5/3/2022 4:24 PM
Lars F. Bjoerlo (horizonpolaris)

I could be the origin of this theory. I launched some pretty outrageous stuff on my facebook profile back in 2013.

5/3/2022 4:25 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah - scruople-less american jews buying into both sides of the war, dancing on everybody's graves, etc etc

5/3/2022 4:26 PM
Lars F. Bjoerlo (horizonpolaris)

1948 UN and Israel are sudden realities.

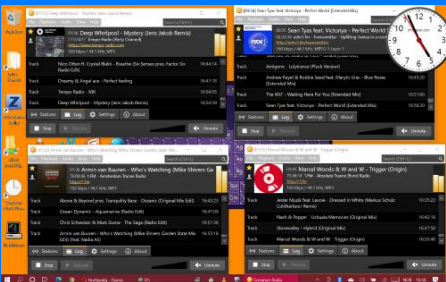

5/3/2022 4:26 PM
Lars F. Bjoerlo (horizonpolaris)

You can do the math

5/3/2022 4:39 PM
Lars F. Bjoerlo (horizonpolaris)

We're pretty messed up. Not fixing it is not an option.

5/3/2022 5:00 PM
Lars F. Bjoerlo (horizonpolaris)

Let me get this straight: You want me to authorize an attack on Israel? Not in my job-description as far as I can see. That's the job of the false prophet and anti-christ, he he :D

Babetibabe? I love you.

5/3/2022 11:23 PM
Lars F. Bjoerlo (horizonpolaris)

Ah - lapskaus. I like it. :)

5/3/2022 11:33 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah yeah - no there's nothing personal here against the Kardashians. They just never had my attention. Like American football, or European soccer, for that matter. I'm gonna stop referring to our concept with a similar name, if that's a problem. Now how's life after passing the bar, Kim?

5/3/2022 11:45 PM
Lars F. Bjoerlo (horizonpolaris)

Alright Mrs. West. I'll keep that in mind. :)

5/3/2022 11:50 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah it's weird how life surprises. Everything isn't as obvious as just getting rich to get happy. Even my kind of wealth can be a drag when nobody wants it. You're always elevated within the crowd, but still feel lonely, often questioning everything you're holding on to...

5/3/2022 11:53 PM
Lars F. Bjoerlo (horizonpolaris)

I suppose qw all have our crosses to bear. Some more than others entitled to complain.

5/3/2022 11:53 PM
Lars F. Bjoerlo (horizonpolaris)

we

5/4/2022 12:15 AM
Lars F. Bjoerlo (horizonpolaris)

:)

5/4/2022 12:17 AM
Lars F. Bjoerlo (horizonpolaris)

Yes, more than anything; we're alive.

5/4/2022 12:18 AM
Lars F. Bjoerlo (horizonpolaris)

Think I'm gonna blow retreat. Past midnight here. Take care of yourselves and each other. See ya :)

5/4/2022 1:53 PM
Lars F. Bjoerlo (horizonpolaris)

Hey baby. No plans today other than take a walk. Tell me everything you're up to. ;)

5/4/2022 9:16 PM
Lars F. Bjoerlo (horizonpolaris)

Been listening all day hon. I have a good feeling. Soon. *kiss*

5/4/2022 10:10 PM

5/5/2022 10:54 AM
Lars F. Bjoerlo (horizonpolaris)

We're approaching 1 month. The most important thing has been not gaining any. As for my health I don't even have respiratory issues from smoking. This body usually responds extremely well to exercise. I am to some extent struggling with my belly, but you know what? I don't care. I'm alive and well. What more could I possibly want? #humble #grateful

I asked my dentist how an average 45 male looks like, and she said I wasn't of the worst. Far from.

5/5/2022 1:36 PM
Lars F. Bjoerlo (horizonpolaris)

Fair enough, Joe. Stay in touch, ok?

5/5/2022 3:54 PM
Lars F. Bjoerlo (horizonpolaris)

Hey babe. Yeah I'm fine. Enjoying life these days. Very much thanks to you. Kiss.

5/5/2022 4:14 PM
Lars F. Bjoerlo (horizonpolaris)

So far so good. Now the actual saving of ourselves begin.

5/5/2022 9:33 PM
Lars F. Bjoerlo (horizonpolaris)

Oh darn. Was I...? *giggle* Takes some time getting used to being inside other people. In public, I mean... ;)

5/5/2022 9:37 PM
Lars F. Bjoerlo (horizonpolaris)

Ow ow ow, stop hitting me, hon :D

5/5/2022 9:40 PM
Lars F. Bjoerlo (horizonpolaris)

Well, we live in a somewhat strange world where everybody seems to have forgotten about social codes. Myself included, apparently. Sorry about that, he he...

5/5/2022 9:41 PM
Lars F. Bjoerlo (horizonpolaris)

phew forgiven by all parties. :)

5/5/2022 10:04 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah, but I'm not in a prisoncell killing time with you. It's just a question of adjustment. But seriously, this could become a significant problem.

5/5/2022 10:06 PM
Lars F. Bjoerlo (horizonpolaris)

To hell with the over-analyzing. I'm just being myself. Period.

5/5/2022 10:17 PM

Lars F. Bjoerlo (horizonpolaris)

You know baby, dad's woman works in an InterFlora shop. I'd love to send you flowers, but I don't have an address or an alias..

5/5/2022 10:20 PM

Lars F. Bjoerlo (horizonpolaris)

Never been big on those things, but it has a somewhat reasonable explanation. I'm sure when we're finally together, I'm gonna feel quite different about my woman. I think exactly you know what I mean is different.

5/5/2022 10:27 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm *qlique click*

5/5/2022 10:55 PM

Lars F. Bjoerlo (horizonpolaris)

Change of subject: how's your schedule looking? I remember you told me to get into character around Halloween. Here we are in May. My immediate thought in september when you said june, I thought "sensible timeframe". To me it looks like we're on track, just with a different pace than perhaps expected, I don't know. What I do know is that major changes requires some serious momentum to alter speed or direction. Thank you my love. For providing.

5/6/2022 12:10 AM

Lars F. Bjoerlo (horizonpolaris)

Babe? Think I'm retreating. I'm bringing my phone, but it serves as radio. Sound kinda disappears when I use the twitter app. Night night. Kiss.

5/6/2022 3:23 PM

Lars F. Bjoerlo (horizonpolaris)

Hey everyone. Coach. Been around a few hours. Just started the weekend with a Bacardi Breezer.

5/6/2022 3:24 PM

Lars F. Bjoerlo (horizonpolaris)

Just miss you so badly babe.

5/7/2022 10:22 AM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. I was with Otto yesterday. He more au lait forced me to watch an NRK documentary on porn. Evidently I'm too straight. I mean adults volunteering and not being influenced isn't enough for me. I also want the activity to be healthy as well as pleasant for BOTH parties.

5/7/2022 10:24 AM

Lars F. Bjoerlo (horizonpolaris)

And this Pierre-guy? Like I said; I'm free not to like what he does regardless of free will.

5/7/2022 10:26 AM

Lars F. Bjoerlo (horizonpolaris)

As for that nut case Dane girl who liked heavy abuse - seek help. Don't spread that filth to other poor vulnerable souls.

5/7/2022 10:37 AM

Lars F. Bjoerlo (horizonpolaris)

Yes we did define the term "healthy" in a thorough manner. I'm not about to bring that in here.

5/7/2022 3:56 PM

Lars F. Bjoerlo (horizonpolaris)

I'm just sitting here thinking of the North Koreans.

5/7/2022 3:57 PM

Lars F. Bjoerlo (horizonpolaris)

Would for sure make an exotic target for vacation.

5/7/2022 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

It could be I complicate Jens's job, but I'm not obliged to run NATO's errands just because I'm Norwegian. For the record: I didn't serve in the army on the grounds of pacifism.

5/7/2022 4:44 PM

Lars F. Bjoerlo (horizonpolaris)

Sometimes our interests correlate. Sometimes not.

5/7/2022 4:48 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I'm fine baby. Thanks for asking. You yourself?

5/7/2022 5:04 PM

Lars F. Bjoerlo (horizonpolaris)

I hae no doubt in my mind that NATO would come down with it's full strength if Sweden or Finland got attacked. In fact, Vladimir hasn't got any margin beyond the borders of Belarus and Ukraine (partially).

5/7/2022 5:08 PM

Lars F. Bjoerlo (horizonpolaris)

It's not just about NATO sneaking up on them gradually over the years, it's the systematic exclusion frm wha was promised back in the late 80's/early 90ies. They feel ripped off by a fake dream. Now it's time to defend oneself from the enemy that devours anything in its path.

5/7/2022 5:09 PM

Lars F. Bjoerlo (horizonpolaris)

You should assume this is the psychology behind.

5/8/2022 1:22 PM

Lars F. Bjoerlo (horizonpolaris)

Hey baby. I'm going to be listening today. Hope you can tell me something I need to know :)

5/8/2022 4:27 PM

Lars F. Bjoerlo (horizonpolaris)

Out tanning.

5/8/2022 4:39 PM

Lars F. Bjoerlo (horizonpolaris)

Well, not having been in the army doesn't mean I'm ignorant to armed conflict. I'd say I know more about warfare than the average rookie.

5/8/2022 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

But not having served is useful in diplomatic terms regarding Russia.

5/8/2022 5:34 PM

Lars F. Bjoerlo (horizonpolaris)

I should probably go for a Glock as my sidearm of choice, because I'd need the rounds. If I was trained, I'd switch it for two Colt45 1911's. ☹

5/8/2022 5:36 PM

Lars F. Bjoerlo (horizonpolaris)

I'd also need night vision goggles, a knife and a few wp grenades.

5/8/2022 5:37 PM

Lars F. Bjoerlo (horizonpolaris)

My rifle?

5/8/2022 5:38 PM

Lars F. Bjoerlo (horizonpolaris)

AK47 w/modified M203 40mm.

5/8/2022 5:41 PM

Lars F. Bjoerlo (horizonpolaris)

If I was to defend a radius of 10km with 10,000 men and I could acquired any NATO equipment, I think I could have put up a pretty good fight.

5/8/2022 6:27 PM

Lars F. Bjoerlo (horizonpolaris)

You there babe?

5/8/2022 6:34 PM

Lars F. Bjoerlo (horizonpolaris)

This is about as much as I can get from the sun in one day. It helps.

5/8/2022 6:34 PM

Lars F. Bjoerlo (horizonpolaris)

I'm pink now, he he

5/8/2022 7:48 PM

Lars F. Bjoerlo (horizonpolaris)

Yes I was beaten as a child as a disciplinary measure. To my parent's defense those were different times. I was a real spoonful, I can tell you that much. I had to bend over dad's lap and he'd like smack me with an open hand 4-5 times on my buttocks.

5/8/2022 7:49 PM

Lars F. Bjoerlo (horizonpolaris)

Not bare skinned, no. I would worn shorts or pants.

5/8/2022 7:50 PM

Lars F. Bjoerlo (horizonpolaris)

I'm cool with that really. ☺

5/8/2022 11:20 PM

Lars F. Bjoerlo (horizonpolaris)

My house was at the end of the road. Giant boulders made it the end. Then there was a 100 yard forest, just like Winnie the Pooh. The best part is that the guy in the other end of the forest was in fact Christopher - not Robin, just Christopher :D

5/9/2022 12:19 AM

Lars F. Bjoerlo (horizonpolaris)

GONG *wet towel* *Gatorade*

5/9/2022 12:20 AM

Lars F. Bjoerlo (horizonpolaris)

I'mma hit the sack guys. A little anticlimactic. My bad, he he..

5/9/2022 1:07 PM

Lars F. Bjoerlo (horizonpolaris)

Morning. Well, at first I wouldn't buy in to what I called "Soviet 80's propaganda". However, it does seem they mean it seriously.

5/9/2022 1:08 PM

Lars F. Bjoerlo (horizonpolaris)

My immediate thought was "what a bunch of BS - you live in the exact same world as the res of us."

5/9/2022 1:17 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. I must coose between physical activity and tanning today...

5/9/2022 3:01 PM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. I'm curious about what you are doing 🤔

5/10/2022 10:16 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning. I couldn't sleep any longer. Meeting my doctor and taking some blood samples later. Other than that I'm just waiting for the tide.

5/10/2022 10:25 AM

Lars F. Bjoerlo (horizonpolaris)

I have this bad vibe from 2013 that I can't shake.

5/10/2022 10:26 AM

Lars F. Bjoerlo (horizonpolaris)

Like I'm waiting for nothing.

5/10/2022 11:15 AM

Lars F. Bjoerlo (horizonpolaris)

Lend'n lease. Ok. I don't necessarily have an opinion on everything happening. And as a main rule I don't comment on single actions/operations on ground. But in like a 100 days - how much time has been spent on Ukraine? Some run the US, some the EU, some the UN and some the NATO. Why waste all that time on Ukraine deliberately? Laziness? Fear? Stupididity? Alzheimer? Delusions of grandure? Please help me understand this.

5/10/2022 11:51 AM

Lars F. Bjoerlo (horizonpolaris)

You should ask yourself "what difference am I making to these people". Truth be told, sir - you don't mean diddely squat to anyone out there.

5/10/2022 11:53 AM

Lars F. Bjoerlo (horizonpolaris)

You should, however, make a difference to your own. Would they be better off voting for the other guy?

5/10/2022 3:07 PM

Lars F. Bjoerlo (horizonpolaris)

Been out shopping. I got 2 pair of pants and 3 shirts.

5/10/2022 3:18 PM

Lars F. Bjoerlo (horizonpolaris)

The everyday seems to have arrived. I have an urge to drink alcohol. I should be out walking, but it's not so tempting in the rain. Nevertheless: no alcohol today.

5/10/2022 3:22 PM

Lars F. Bjoerlo (horizonpolaris)

I'll see in a week or two what I actually have of funds now that I don't inject money anymore, but smoke them instead. Point is, with no exaggerated alcohol use, I should be in +

5/10/2022 3:23 PM

Then all in on clothes.

5/10/2022 5:22 PM
Lars F. Bjoerlo (horizonpolaris)

I've been ready since day one. I am able to operate when psychotic, so why not now?

About that tan; #workinonit

5/10/2022 5:34 PM
Lars F. Bjoerlo (horizonpolaris)

He he classic carrot vs stick problem :D

5/10/2022 5:35 PM
Lars F. Bjoerlo (horizonpolaris)

not the tan - the other thingy

5/10/2022 5:36 PM
Lars F. Bjoerlo (horizonpolaris)

Sure beta-karoten makes you tan if you eat lots of it, he he

Ha! Looks like tomorrow might be sunny. Sweet :)

5/11/2022 12:02 PM
Lars F. Bjoerlo (horizonpolaris)

Hey baby. Not so sunny. You know, mum has this garden party/concert every summer and she's pushing me to find a date. Would you like to join me? Think it's one of the first days in July. I'll check it out.

5/11/2022 3:30 PM
Lars F. Bjoerlo (horizonpolaris)

Been out some 2,5 hours walking. I need some sun.

5/11/2022 7:42 PM
Lars F. Bjoerlo (horizonpolaris)

Hey babe. Sun appeared for a little while. Now inside. Bored. Gotta make some dinner.

5/11/2022 8:18 PM
Lars F. Bjoerlo (horizonpolaris)

I think Boris Johnsons stunt was a brilliant move. It makes NATO less attractive.

5/11/2022 8:20 PM
Lars F. Bjoerlo (horizonpolaris)

Should Sweden and Finland find that this is not the time to panick or deviate from their neutrality, that would be for the better of the stability in the region.

I think I'm going to bed, but will continue listen till midnight. Dentist tomorrow, then just one more turn.

5/12/2022 1:37 PM
Lars F. Bjoerlo (horizonpolaris)

Babe. Been to dentist. Decided to repair, not pull, the last one. Other than that I'm having a crappy day cuz my bt speakers on my bike got stolen. My own bad, but I just get so pissed from petty theft.

5/12/2022 1:40 PM
Lars F. Bjoerlo (horizonpolaris)

Hooray someone found my speaker. It wasn't stolen, only lost ☺

Imma try to gather some more uv rays later.

5/13/2022 4:53 PM

I'm soaking the sun baby. I love you, just in case you forgot for a minute #

5/13/2022 5:42 PM

The scripture says something about having the sign in the right hand and/or forehead. I told you my hand is severed, but never how or why.

5/13/2022 5:47 PM

Lars F. Bjoerlo (horizonpolaris)

1994 Stavern, Norway - local island citadel. Reproduction of an old 18th century battle. 5 parts potassiumchlorate, 4 parts finely ground charcoal, then 1 part Sulphur. Some 200ml of this in a cylinder 90x4cm. This charge went off by itself because I pounced on it repeatedly with a cannon-loading stick.

5/13/2022 5:55 PM

Lars F. Bjoerlo (horizonpolaris)

I have an original old-fashioned photography from changing bandages. It was really effed up pretty bad. The first doctor that saw me wanted to amputate, but realized his own limitations and hooked me up with a different hospital that did micro surgery. Veins and nerves and tends torn apart get sewn together.

5/13/2022 6:25 PM

Lars F. Bjoerlo (horizonpolaris)

I think privately I have NATO sympathies, but I'm merely filling a void without a voice. It stands to reason that there's a view from the other side of the fence too.

5/13/2022 6:27 PM

Lars F. Bjoerlo (horizonpolaris)

But I truly believe this is not the best time for Sweden and Finland.

5/14/2022 10:39 AM

Lars F. Bjoerlo (horizonpolaris)

Hello room, owner. Long time ago I question Mr. Musk's motives for "thinking out loud" in reagrds to whether we live in a simulation. That's what I referred to as "weird" last time I mentioned it. Wannaknow what I think? I think we consist of matter and that this is physically real. However, there is a computer running us all and some are more able to control their own thoughts than others. You could say it's a kind of semi-simulation.

5/14/2022 10:47 AM

Lars F. Bjoerlo (horizonpolaris)

I've been warned about sharing our capabilities, but my claim is that this computer can access any human on Earth, use his or hers eyes or ears. It's not American technology as such, rather an alien resource that can be tapped into. By anyone in principle.

5/14/2022 10:58 AM

Lars F. Bjoerlo (horizonpolaris)

It can alter any computer chip and even influence on things like temperature on a given location. Example: I had three cartons of milk out in -7C. Two were rock hard and one liquid. Sometimes all the channels on the tv suddenly changed number. We're talking prison cell. Nobody but me there. The most outrageous thing is that thoughts can be read. Not in detail, but intentions and lies, etc. I sent years saying out loud every thought. This way the machine knows me better than anyone else on the planet.

5/14/2022 2:21 PM

Lars F. Bjoerlo (horizonpolaris)

The prison explanation: Moabit, Berlin 2013/14. There was a gap, a room, in between the window (which could be opened) and the steel bars of the cell. Prisoners kept their foods refridgerated in this space.

5/14/2022 8:58 PM

Lars F. Bjoerlo (horizonpolaris)

Babe. Slightly drunk. Gonna shut my trap. :)

5/14/2022 9:03 PM

Lars F. Bjoerlo (horizonpolaris)

I should be watching eurovision song contest.

5/14/2022 9:17 PM

5/15/2022 11:20 AM

Hey room. Sunday. Not sure what to do today, but I'd like some sun. Miss you Coach.

5/15/2022 3:26 PM

Lars F. Bjoerlo (horizonpolaris)

All I can do now is wait for this show to get on the road.

5/15/2022 4:00 PM

Lars F. Bjoerlo (horizonpolaris)

I was hoping for a quicker route towards peace in Ukraine but kept in mind that all parties except the Ukrainians have had an interest of dragging things out. If the Putin-news are true, they will show soon. I just have two questions: why were we informed this way and why exactly now?

5/15/2022 8:00 PM

Lars F. Bjoerlo (horizonpolaris)

Hepp hepp. Been to mum's for dinner. Soaked a little sun. Right now bored. Thinking I should bake.

5/15/2022 8:56 PM

Lars F. Bjoerlo (horizonpolaris)

Btw: mom's garden party is 2nd July. :)

5/15/2022 9:31 PM

Lars F. Bjoerlo (horizonpolaris)

Yummy

5/15/2022 10:07 PM

Lars F. Bjoerlo (horizonpolaris)

Please have me excused, darling. I've been so tired all day. I have a feeling this is the last message today. *hug*

5/16/2022 12:47 PM

Lars F. Bjoerlo (horizonpolaris)

Heeey. Ok to wrap it up: there are limits to what former secretary of defense Ine Eriksen Søreide can reveal about the Norwegian-Finnish military collaboration. I wasn't aware of one. Either way; we're dealing with abstract sizes here that can be tough to measure or define, like threat level. When all factors added, do we have a safety + or a minus?

5/16/2022 12:48 PM

Lars F. Bjoerlo (horizonpolaris)

I personally never felt very threatened, but that's me...

5/16/2022 1:00 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah - as for the Turkish allegations; what I think they mean is that we harbor terrorist in Scandinavia/Northern countries. That might not be an outrageous claim. Statistically we should probably have more problems than we do. The one big event here was one of our own. Otherwise there's a mysterious absence of cases regarding terrorism and such.

5/16/2022 1:02 PM
Lars F. Bjoerlo (horizonpolaris)

The Kurds are obvious terrorists in general, from this point of view.

5/16/2022 1:39 PM

Inside again. This tanning-project is starting to pay off.

5/17/2022 8:50 PM

Lars F. Bjoerlo (horizonpolaris)

Tending to domestic tragedy today, Joe gave an absolutely horrible speech completely free from any contents, really.

5/17/2022 8:51 PM

Lars F. Bjoerlo (horizonpolaris)

An extremely poorly motivated guy gave those words.

5/17/2022 10:15 PM

Lars F. Bjoerlo (horizonpolaris)

Think I'm signing off for today..

5/18/2022 9:26 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning. I'm just out of bed to smoke. I see there's this murder trial going on. This guy killed five people with a bow and arrow. Stuff like that happens here too, just extremely rarely.

5/18/2022 9:32 AM

Lars F. Bjoerlo (horizonpolaris)

Babe? you know what? Me neither, but I miss you :*

5/18/2022 9:34 AM

Lars F. Bjoerlo (horizonpolaris)

Ah - the defendant pleads guilty to five murders as well as 11 attempted and some threats.

5/18/2022 9:35 AM

Lars F. Bjoerlo (horizonpolaris)

Hepp hepp - may we have the verdict?

5/18/2022 9:37 AM

Lars F. Bjoerlo (horizonpolaris)

Well, the free will program we're running comes with some bugs, obviously..

5/18/2022 9:43 AM

Lars F. Bjoerlo (horizonpolaris)

The verdict issue relies only on the DA's claim. If not insane, he'll get the maximum. That means 21 years, but with "security", meaning he'd have to apply for parole after serving the mandatory time. He won't be released again ever, in practical terms.

5/18/2022 9:47 AM

Lars F. Bjoerlo (horizonpolaris)

Americans might think 21 years is too little, but we have a different wa of thinking justice/ punishment/rehabilitation here, and obviously we have laws tha prevent us from releasing people who still are dangerous.

5/18/2022 10:38 AM

Lars F. Bjoerlo (horizonpolaris)

Heh - turned the sound on the news. This killer was/is crazy according to the DA.

5/18/2022 10:41 AM

Lars F. Bjoerlo (horizonpolaris)

Meaning he'll be getting the same treatment as I do, starting out on a security ward in hospital. Eventually he could get out from hospital, but not likely.

5/18/2022 5:00 PM

Lars F. Bjoerlo (horizonpolaris)

Hepp. I'm still here. Got a few things on my mind..

5/18/2022 5:37 PM

Lars F. Bjoerlo (horizonpolaris)

out for a little exercise. See ya.

5/18/2022 6:38 PM

Lars F. Bjoerlo (horizonpolaris)

Back. Pretty good intensity. Gotta shower, then dinner.

5/18/2022 9:02 PM

Lars F. Bjoerlo (horizonpolaris)

Hey Coach. Thanks. I really should do something about my surroundings. Still not able to keep up with my own mess here.

5/18/2022 9:02 PM

Lars F. Bjoerlo (horizonpolaris)

#pigsty

5/18/2022 9:24 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah - he he, meaning no. I've backed out of Jens-territory. Fortunately Erdogan is not my problem :)

5/18/2022 9:25 PM

Lars F. Bjoerlo (horizonpolaris)

All in all is what matters. I can never afford to get stuck with a case in the lower sphere.

5/18/2022 9:26 PM

Lars F. Bjoerlo (horizonpolaris)

Let me guess; you want me to speculate freely?

5/18/2022 9:28 PM

Lars F. Bjoerlo (horizonpolaris)

His problem is much bigger than the PPK - they are just getting the formal status as a relevant purpose. All the other things bothering Erdogan are probably impossible issues. Now the closest professionals will work with the issue for as long as it takes, I suppose.

5/18/2022 9:29 PM

Lars F. Bjoerlo (horizonpolaris)

No, I have way too little to predict an outcome at this stage, because I'm not completely getting Erdogans problem.

5/18/2022 9:34 PM

Lars F. Bjoerlo (horizonpolaris)

Either way, like POTUS, I think it's safe to say any attack on Sweden or Finland would be personal to all Danes, Norse/Icelandic citizens. Of course we would have interfered independent of NATO.

5/18/2022 10:21 PM

Lars F. Bjoerlo (horizonpolaris)

I'm sure you deserved that tequila, Papa :D

5/18/2022 10:53 PM

5/19/2022 1:54 PM

5/19/2022 3:18 PM

Hey babe. Home. Ridiculously restless. How are you doing? I see there's some progress...

5/19/2022 7:28 PM

5/19/2022 9:14 PM

Lars F. Bjoerlo (horizonpolaris)

Yes I do have a valid passport, I just try avoid bragging about it.

5/19/2022 9:15 PM

Lars F. Bjoerlo (horizonpolaris)

I usually keep it elsewhere.

5/19/2022 9:20 PM

5/19/2022 9:21 PM

Lars F. Bjoerlo (horizonpolaris)

Last two days have been gray, unfortunately.

5/19/2022 9:21 PM

Hey babe. Been out. You know.

5/20/2022 10:32 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah - I'mma be easy with the promises, but I think when at cruising speed, making them as one goes along sounds like the strategy of my choice.

5/20/2022 10:33 PM

Lars F. Bjoerlo (horizonpolaris)

We sure already have overcome plenty of major obstacles. Nobody said surviving a Fermi-filter would be easy.

5/20/2022 10:34 PM

Lars F. Bjoerlo (horizonpolaris)

It's gonna require some serious gymnastics.

5/21/2022 12:21 PM

Lars F. Bjoerlo (horizonpolaris)

Morning. Listening. Hoping for some sun later...

5/21/2022 4:31 PM

Lars F. Bjoerlo (horizonpolaris)

Well, I run the hashpipe-philosophy on promises. I have to have the service in store for sure before promising it. Mostly it's "I'll do my best to solve the problem" that goes, but that ain't so bad. With me that usually means it's gonna work out.

5/21/2022 5:12 PM

Lars F. Bjoerlo (horizonpolaris)

Lars F. Bjoerlo (horizonpolaris)

I worry my socks off about mom.

5/22/2022 8:24 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah. True. Entertaining, but you know...

5/22/2022 8:25 PM

Lars F. Bjoerlo (horizonpolaris)

Flesh and blood

5/22/2022 8:27 PM

Lars F. Bjoerlo (horizonpolaris)

I'm glad you're ok with uhm the physical conditions.. #🙄

5/22/2022 8:31 PM

Lars F. Bjoerlo (horizonpolaris)

I think the AI has a slight case of Tourettes today, hon :D *lol*

5/22/2022 8:47 PM

Lars F. Bjoerlo (horizonpolaris)

It's very symptomatic

5/22/2022 8:49 PM

Lars F. Bjoerlo (horizonpolaris)

I'm taking it for what it is.

5/22/2022 9:13 PM

Lars F. Bjoerlo (horizonpolaris)

I'm tempted to agree with Sverre Disen, but we're back to square one, Jens. We should not doubt Putin's willingness to raise hell.

5/22/2022 9:36 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not disagreeing, I'm just pointing out that these rockets do actually work.

5/22/2022 9:44 PM

Lars F. Bjoerlo (horizonpolaris)

Well, I think he might be surprised by how quick we would be able to fast forward time.

5/22/2022 9:46 PM

Lars F. Bjoerlo (horizonpolaris)

Meaning he basically regrets everything, however, still having nothing else to lose. He is indeed serious about being serious. Let's just put it that way for now.

5/22/2022 9:49 PM

Lars F. Bjoerlo (horizonpolaris)

We're all in the business of saving lives here. Let's not lose track of that.

5/22/2022 9:53 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not gonna lie, but I worry about all the sanctions and everything that goes with the "anti-social package" to punish Russians. I mean people are mad. Talking about refusing kids to participate in tournaments etc. We're talking adult resourceful people.

5/22/2022 11:19 PM

Lars F. Bjoerlo (horizonpolaris)

Gottcha. Heading to bed soon.

5/22/2022 11:27 PM

Lars F. Bjoerlo (horizonpolaris)

throwing popcorn one by one in your face

5/22/2022 11:30 PM

Lars F. Bjoerlo (horizonpolaris)

Ow stop pinching *lol*

5/22/2022 11:42 PM

Lars F. Bjoerlo (horizonpolaris)

Come to think of all the classics we're gonna want to watch together. I take it you have your collection while I got mine, he he

5/22/2022 11:44 PM

Lars F. Bjoerlo (horizonpolaris)

Like - I should see all your movies. Very curious about the last one in particular. Definitely your genre :)

5/22/2022 11:45 PM

Lars F. Bjoerlo (horizonpolaris)

If I suddenly go silent I'm just asleep <3

5/22/2022 11:58 PM

Lars F. Bjoerlo (horizonpolaris)

hmmmm. ;)

5/23/2022 12:05 AM

Lars F. Bjoerlo (horizonpolaris)

Frantic or catatonic? Could potentially make a huge difference.

5/23/2022 12:06 AM

Lars F. Bjoerlo (horizonpolaris)

A little switching back and forth here, but now it's nighty-night.

5/23/2022 12:15 PM

Lars F. Bjoerlo (horizonpolaris)

Morning. Starting where we left off? :)

5/23/2022 12:16 PM

Lars F. Bjoerlo (horizonpolaris)

I love you too honey. ❤️

5/23/2022 12:17 PM

Lars F. Bjoerlo (horizonpolaris)

pop

5/23/2022 12:17 PM

Lars F. Bjoerlo (horizonpolaris)

😊

5/23/2022 12:20 PM

Lars F. Bjoerlo (horizonpolaris)

I spotted some info yesterday. I think we've been verified by all possible relevant parties as competent.

5/23/2022 12:22 PM

Lars F. Bjoerlo (horizonpolaris)

As well as having an acceptable resonance.

5/23/2022 12:23 PM

Lars F. Bjoerlo (horizonpolaris)

In other words we're ready to treat this cancer.

5/23/2022 12:53 PM

Lars F. Bjoerlo (horizonpolaris)

I feel 17 today Dear, but I think that's for the benefit of our patient.

5/23/2022 1:45 PM

Lars F. Bjoerlo (horizonpolaris)

Yup. I got that other part. Say hi, will you?

5/23/2022 1:45 PM

Lars F. Bjoerlo (horizonpolaris)

♥

5/23/2022 8:04 PM

Lars F. Bjoerlo (horizonpolaris)

pop

5/23/2022 8:04 PM

Lars F. Bjoerlo (horizonpolaris)

:)

5/23/2022 10:37 PM

Lars F. Bjoerlo (horizonpolaris)

He he baby. You have enthusiasm for a dozen, that's for sure. Been here most of the day. Right now missing a light bulb for my working area. Anyway - bed soon. Guess what I'll be dreaming about ;)

5/23/2022 10:46 PM

Lars F. Bjoerlo (horizonpolaris)

No hon, peanut ice cream is not it..

5/23/2022 10:46 PM

Lars F. Bjoerlo (horizonpolaris)

...unless...hmmmm...

5/23/2022 10:47 PM

Lars F. Bjoerlo (horizonpolaris)

:D

5/23/2022 11:25 PM

Lars F. Bjoerlo (horizonpolaris)

You're phunny :)

5/23/2022 11:26 PM

Lars F. Bjoerlo (horizonpolaris)

Listen hon: thanks for today. I like this job. It makes sense. Nite :)

5/24/2022 3:15 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. Hey babe. Been on official twitter. I think it's natural to gradually pull out of this room we've been done here for a while. I'm just keeping the conversation going.

5/24/2022 3:21 PM

Lars F. Bjoerlo (horizonpolaris)

I have my trial, my next entry and the whole game going right now. The load is comfortable. I'm just a little rusty.

5/24/2022 4:34 PM

Lars F. Bjoerlo (horizonpolaris)

There is trembling sadness here.

5/24/2022 4:37 PM

Lars F. Bjoerlo (horizonpolaris)

It feels like doing surgery on your own child *tears*

5/24/2022 5:22 PM

Lars F. Bjoerlo (horizonpolaris)

Babe? What's up with laundromat hub access? When can we expect flow and at what rate?

5/24/2022 5:27 PM

Lars F. Bjoerlo (horizonpolaris)

To what extent is the virtual plumbing developed?

5/24/2022 6:59 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah sure hon, I'm good. Thanks for asking. I'm busy with this more or less all the time. I remember from the other side of new year where I hadn't gotten used to the idea that I'm back. This is something quite different...

5/24/2022 7:10 PM

Lars F. Bjoerlo (horizonpolaris)

As far as the virtual property concept goes, the way I understand blokchain seems similar. Must admit I don't know enough about this, but I'm sure many of you guys do. Feel free to brainstorm.

5/24/2022 7:11 PM

Lars F. Bjoerlo (horizonpolaris)

Crypto/MIFO/whatever

5/24/2022 7:13 PM

Lars F. Bjoerlo (horizonpolaris)

The difference is that our property comes with papers and has a variety of assets associated with it.

5/24/2022 7:17 PM

Lars F. Bjoerlo (horizonpolaris)

The funds will be directed into the main artery of the governmental body.

5/24/2022 8:00 PM

Lars F. Bjoerlo (horizonpolaris)

Deposits made in 100\$ bills. 20' and 40' shipping containers only. :)

5/24/2022 8:06 PM

Lars F. Bjoerlo (horizonpolaris)

New exciting markets can arise. How about patenting legislation? Just an idea.

5/24/2022 10:49 PM

Lars F. Bjoerlo (horizonpolaris)

yeah I heard. another school mass shooting :(

5/25/2022 12:03 AM

Lars F. Bjoerlo (horizonpolaris)

midnite. zzzzz

5/25/2022 11:48 AM

Lars F. Bjoerlo (horizonpolaris)

Hey room. I wasn't planning to address the second ammendment at this point. Is there anything you need to talk about or shall we move on?

5/25/2022 11:50 AM

Lars F. Bjoerlo (horizonpolaris)

There's always something happening that requires attention and breaks the flow. Such is life.

5/25/2022 11:52 AM

Lars F. Bjoerlo (horizonpolaris)

I recall 7/22-2011. The Oslo/Utøya terror. It was all consuming for a very long time.

5/25/2022 11:53 AM

Lars F. Bjoerlo (horizonpolaris)

8+69 dead

5/25/2022 11:54 AM

Lars F. Bjoerlo (horizonpolaris)

Young people with all of their lives in front of them.

5/25/2022 11:55 AM

Lars F. Bjoerlo (horizonpolaris)

Some of the surviving victims are still in politics, actually - going strong.

5/25/2022 12:21 PM

Lars F. Bjoerlo (horizonpolaris)

Is Gabby who got shot in Arizona still around?

5/25/2022 12:43 PM

Lars F. Bjoerlo (horizonpolaris)

Last appointment with my dentist ☹ today. Don't wanna pull. The tooth has no functional chewing surface. People with my status/budget would extract to avoid further expenses.

5/25/2022 12:45 PM

Lars F. Bjoerlo (horizonpolaris)

However, as soon as I generate my own income, I will do more work and also replace my only missing tooth that doesn't show, but is still dearly missed.

5/25/2022 12:56 PM

Lars F. Bjoerlo (horizonpolaris)

YESSSS. Looks like I can get some sun.

5/25/2022 2:55 PM

Lars F. Bjoerlo (horizonpolaris)

Done with my teeth for now. Chilling in the park with a Breezer.

5/25/2022 4:09 PM

Lars F. Bjoerlo (horizonpolaris)

Back home. Staring at my "usual" veins.

5/25/2022 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

My teeth hurts. Wonder if any more self pity will result in some more Breezers

5/25/2022 4:44 PM

Lars F. Bjoerlo (horizonpolaris)

He he poor me 😊

5/25/2022 6:35 PM

Lars F. Bjoerlo (horizonpolaris)

Hot chat going on on messenger. 😊

5/25/2022 6:36 PM

Lars F. Bjoerlo (horizonpolaris)

Indigo?

5/25/2022 6:39 PM

Lars F. Bjoerlo (horizonpolaris)

It's not like Coach feels threatened by this girl, but she almost should. That's how wonderful this Angel is.

5/26/2022 5:51 AM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. I went to bed. Up again. Only 6 o'clock. It's probably a good time to reach Manila, he he. She owes me something...

5/26/2022 5:52 AM

Lars F. Bjoerlo (horizonpolaris)

Anyway - she's a heartbreaker in many ways. I guess so am I.

5/26/2022 5:53 AM

Lars F. Bjoerlo (horizonpolaris)

I really got to feel how much I miss company.

5/26/2022 6:08 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah me too, hon. Kinda aches, doesn't it?

5/26/2022 6:13 AM

Lars F. Bjoerlo (horizonpolaris)

I haven't really been very sexual after quitting the amphetamines and that's what I mean with the meds and driving with the handbreak on. However, evidently all that's required is a little bit of stimulation. I'm just not going there by myself...

5/26/2022 6:22 AM

Lars F. Bjoerlo (horizonpolaris)

I don't need an exit strategy, hon. I think if and when I quit meds, the worst that can happen is I develop another psychosis. Surrounded by my closest, restarting medication, and I'll be back on my feet in a month - max two.

5/26/2022 6:23 AM

Lars F. Bjoerlo (horizonpolaris)

No, I don't really think I'd ruin anything if I got sick again.

5/26/2022 6:25 AM

Lars F. Bjoerlo (horizonpolaris)

Most because I've already made all possible mistakes in simulation, but also because my degree of control increases with practice.

5/26/2022 6:35 AM

Lars F. Bjoerlo (horizonpolaris)

Extreme stress, no meds and no sleep would cause me to gradually go there, but we're surrounded by people who would notice the slightest problem.

5/26/2022 6:36 AM

Lars F. Bjoerlo (horizonpolaris)

Thus checking out due to health problem is not a shame.

5/26/2022 6:38 AM

Lars F. Bjoerlo (horizonpolaris)

I would never expose my clients to any kind of danger.

5/26/2022 6:58 AM

Lars F. Bjoerlo (horizonpolaris)

As far as stress goes; this job is not stressing in itself, like now, for instance.

5/26/2022 6:59 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah I'm ok. That's what I'm saying. I got this.

5/26/2022 7:13 AM

Lars F. Bjoerlo (horizonpolaris)

To me this is pretty Zen, actually.

5/26/2022 7:20 AM

Lars F. Bjoerlo (horizonpolaris)

Hang in there Papa - you would wanna watch this ;)

5/26/2022 7:38 AM

Lars F. Bjoerlo (horizonpolaris)

He he. I just caught myself disregarding the drug-factor, but that pretty much rests my case :)

5/26/2022 8:14 AM

Lars F. Bjoerlo (horizonpolaris)

I feel so much now that wasn't available under influence. It's a completely different dimension, so to speak. I don't regret my choice.

5/26/2022 1:36 PM

Lars F. Bjoerlo (horizonpolaris)

I feel like writing something today. I should be writing my court speech, but feel like posting an entry on 20/20

5/26/2022 2:23 PM

Lars F. Bjoerlo (horizonpolaris)

Today there's no excuse for not having any physical activity. Going out.

5/26/2022 3:58 PM

Lars F. Bjoerlo (horizonpolaris)

Aaaah - 90 minutes. I should do this more.

5/26/2022 6:56 PM

Lars F. Bjoerlo (horizonpolaris)

Been out tanning. Dinnertime. "Lapdance" on the menu.

5/26/2022 7:04 PM

Lars F. Bjoerlo (horizonpolaris)

I'm so sorry hon about Ray. I take it you were close.

5/26/2022 7:04 PM

Lars F. Bjoerlo (horizonpolaris)

(Or was it all Harley?)

5/26/2022 7:07 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. I had two seasons of that show, but they're gone from my network drive.

5/26/2022 7:13 PM

<https://t.co/H5VOjP2mez>

5/26/2022 7:19 PM

Lars F. Bjoerlo (horizonpolaris)

I'mma write a piece while at hospital for meds tomorrow. *ka-think*

5/26/2022 8:56 PM

Lars F. Bjoerlo (horizonpolaris)

She wants in as in permanently? I don't know the woman, but I trust your judgment. Welcome, Miss G :)

5/26/2022 8:58 PM

Lars F. Bjoerlo (horizonpolaris)

Heh - no sh**

5/26/2022 9:13 PM

Lars F. Bjoerlo (horizonpolaris)

Powerful statement from the Senate today. We wanna move on.

5/26/2022 9:16 PM

Lars F. Bjoerlo (horizonpolaris)

It's kinda funny. Like privately I think my Norwegian political coherency would translate into being a democrat in American terms, but I've really hit the tone with the Republicans now for quite some time without being labeled a democrat. I do of course appreciate being taken seriously on a general basis.

5/26/2022 9:17 PM

Lars F. Bjoerlo (horizonpolaris)

So yeah, progressive, yet conservative. That's a great sound in today's America, evidently.

5/26/2022 9:22 PM

Lars F. Bjoerlo (horizonpolaris)

This would not have worked in a million years if the person and the plan weren't trusted by some pretty heavy institutions in society - the church. Even though I don't direct much attention to God and Jesus as preaching, I'm not taking my fellow Christians for granted. You're the foundation of this entire operation, just like you're the foundation of modern western human ethics.

5/26/2022 9:24 PM

Lars F. Bjoerlo (horizonpolaris)

Then there's this eval-thing going on continuously, but I feel very close to being live any day now.

5/26/2022 9:31 PM

Lars F. Bjoerlo (horizonpolaris)

Joe has an impossible task in uniting the Nation. And so would any other president. Time to move out of the box and do what can actually be done, but out of the president's hands. What we need to be done is so vast and complex that no democracy on this planet has known such a massive u-turn operation ever in recorded (democratic) history.

5/26/2022 9:48 PM

Lars F. Bjoerlo (horizonpolaris)

As far as Trump goes; he's gonna wanna pull down any- and everyone he can with him. We most probably don't need that in the current situation. It's tense enough as it is.

5/26/2022 9:51 PM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking just let the guy have his last laugh. We have more important issues to pursue.

5/26/2022 11:15 PM

Lars F. Bjoerlo (horizonpolaris)

Think I have to call it. Been firefighting the pigsty-syndrome here. I'll continue when I get back from my appointment at the hospital.

5/27/2022 9:59 AM

Lars F. Bjoerlo (horizonpolaris)

Hey. Just had my shot of Zypadhera. Nurse had a Freudian slip. She really enjoys my company. Why can't I get a break on our spare-time? Well, she's happily married and my nurse. We're not friends on Facebook, to put it that way.. :)

5/27/2022 12:36 PM

Lars F. Bjoerlo (horizonpolaris)

Hey - I'm like 800 words into my next piece...

5/27/2022 4:34 PM

5/27/2022 4:34 PM

Lars F. Bjoerlo (horizonpolaris)

You @ babe?

5/27/2022 5:44 PM

Lars F. Bjoerlo (horizonpolaris)

"I only smoke" wouldn't be exact. I drink too.

5/27/2022 9:07 PM

Lars F. Bjoerlo (horizonpolaris)

No I'm not ok. I'm bugged by leaving my family out.

5/28/2022 11:30 AM

Lars F. Bjoerlo (horizonpolaris)

Hey room. Still bugged by dad. Incredible how he can ruin my mood. He was never encouraging.

5/28/2022 11:36 AM

Lars F. Bjoerlo (horizonpolaris)

No matter what I say I can only make his doubts worse.

5/28/2022 12:18 PM

Lars F. Bjoerlo (horizonpolaris)

And I've been thinking about my daughter. Bringing her along is probably not realistic at all.

5/28/2022 12:18 PM

Lars F. Bjoerlo (horizonpolaris)

Did I really lose her? Like forever?

5/28/2022 1:19 PM

Lars F. Bjoerlo (horizonpolaris)

Imma go exercise soon.

5/28/2022 3:50 PM

Lars F. Bjoerlo (horizonpolaris)

Back home. Beer (lite) and shower. You guys up to?

5/28/2022 6:23 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I'm good. Saw dad. Didn't discuss these issues, but it was good although.

5/28/2022 6:44 PM

Lars F. Bjoerlo (horizonpolaris)

Right now I wish I was in a meadow full of flowers.

5/29/2022 11:20 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning room. Planning a long walk today as well. And 5 o'clock dinner with mum. I miss you, Coach.

5/29/2022 11:21 AM

Lars F. Bjoerlo (horizonpolaris)

It's probably a good thing there hasn't been so much sun, since I still lack sunscreen.

5/29/2022 11:22 AM

Lars F. Bjoerlo (horizonpolaris)

The radiation dosage is sensible so far, I think...

5/29/2022 11:23 AM

Lars F. Bjoerlo (horizonpolaris)

Either way - who's gonna do my back? Hrrrmff!

5/29/2022 3:05 PM

Lars F. Bjoerlo (horizonpolaris)

Been out walking fast pace for two hours.

5/29/2022 4:34 PM

Lars F. Bjoerlo (horizonpolaris)

BTW my blood samples came back good. Nothing alarming. A little D-vitamin deficient. Then there was some liver value they wanted to test again, but I've been here before. There will be no second blood sample. It's an implication for hepatitis C. Increased value, but not high enough to be infected. This probably means I've been exposed to the virus without developing sickness/liver trouble. Last but not least - the doctor is a psychiatrist, not a common practitioner - a real doctor.

5/29/2022 6:00 PM

Lars F. Bjoerlo (horizonpolaris)

Finally home for the evening. I was hoping for you to keep me company, honey..?

5/29/2022 6:43 PM

Lars F. Bjoerlo (horizonpolaris)

Heeey

5/29/2022 6:43 PM

Lars F. Bjoerlo (horizonpolaris)

:D

5/29/2022 7:10 PM

Lars F. Bjoerlo (horizonpolaris)

Clockwork, huh? That sounds good. I take it that means you're comfortable.

5/29/2022 7:25 PM

Lars F. Bjoerlo (horizonpolaris)

May I ask for a date?

5/29/2022 8:03 PM

Lars F. Bjoerlo (horizonpolaris)

Sometimes, like today, the waiting physically hurts. The memories of 2013/14 don't exactly help either.

5/29/2022 8:42 PM

Lars F. Bjoerlo (horizonpolaris)

Alright hon. I might go to bed soon. Hopefully I feel better tomorrow.

5/29/2022 8:58 PM

Lars F. Bjoerlo (horizonpolaris)

Me? Watching a documentary on fungi.

5/29/2022 9:13 PM

Lars F. Bjoerlo (horizonpolaris)

Ridiculously lovesick, in fact. :/

5/29/2022 9:16 PM

Lars F. Bjoerlo (horizonpolaris)

No I'm not joking. I am actually watching an 80 min on mycel.

5/30/2022 10:11 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning. I'm gonna work at home today with my trial.

5/30/2022 10:11 AM

Lars F. Bjoerlo (horizonpolaris)

Looks like it's gonna be sunny too.

5/30/2022 10:12 AM

Lars F. Bjoerlo (horizonpolaris)

Probably no exercise today. I'll see if I can take a short jog.

5/30/2022 10:20 AM

Lars F. Bjoerlo (horizonpolaris)

Misunderstand me correctly; I'm not complaining, but "%&#%/%&#/" I'm so sick of this sh**!

5/30/2022 10:27 AM

Lars F. Bjoerlo (horizonpolaris)

I don't know if you answered my question yesterday. I started watching mushrooms ☁

5/30/2022 10:33 AM

Lars F. Bjoerlo (horizonpolaris)

Shrooms are spectacular, BTW..

5/30/2022 2:32 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not productive right now. I wanna be here but need my attention elsewhere. I'mma stick around for a little motivation. Fortunately I'm not in a rush.

5/30/2022 2:57 PM

Lars F. Bjoerlo (horizonpolaris)

He he, I love the first line of Katy Perry's "Firework" - "Do you ever feel like a plastic bag drifting through the wind"

5/30/2022 2:57 PM

Lars F. Bjoerlo (horizonpolaris)

he he he he

5/30/2022 2:58 PM

Lars F. Bjoerlo (horizonpolaris)

Do you think Katy would be happy if she went as "The Baglady" from now on? :D

5/30/2022 3:00 PM

Lars F. Bjoerlo (horizonpolaris)

I mean yeah - thaz exactly how I feel - like a freckin' plastic bag, like..

5/30/2022 3:04 PM

Lars F. Bjoerlo (horizonpolaris)

My favorite Perry song? Hmmmm. I love the "Dark Horse" video. "E.T." w/o Kanye is cool, but I think maybe "Chained to the Rhythm" with Skip Marley.

5/30/2022 4:10 PM

Lars F. Bjoerlo (horizonpolaris)

Yo Padre. Ayahuasca as part of a sacred ritual? You could, you know... The good thing about freedom of religious beliefs..

5/30/2022 4:21 PM

Lars F. Bjoerlo (horizonpolaris)

Wow, I think Miss G is flirting with me. Is that ok hon? :)

Lars F. Bjoerlo (horizonpolaris)

Hey room. Kinda busy today. Maybe tonite..?

5/31/2022 5:17 PM
Lars F. Bjoerlo (horizonpolaris)

I'm home. Not so good shape today, but been to work and fulfilled my part of a deal I made yesterday. Tomorrow Sweden with mum.

5/31/2022 5:51 PM
Lars F. Bjoerlo (horizonpolaris)

Whether I'm ok? I suppose. Today that is a tricky question. I'm tryna focus on all that's well and not so much at my trial.

5/31/2022 5:52 PM
Lars F. Bjoerlo (horizonpolaris)

But thanks for asking.

5/31/2022 5:52 PM
Lars F. Bjoerlo (horizonpolaris)

It doesn't matter, yet still it kinda does.

5/31/2022 5:53 PM
Lars F. Bjoerlo (horizonpolaris)

You know what I can really use? My wife.

5/31/2022 7:41 PM
Lars F. Bjoerlo (horizonpolaris)

Again - tricky question. Let's just say waiting is killing me. I'm sure I'm not the only one.

5/31/2022 7:45 PM
Lars F. Bjoerlo (horizonpolaris)

I just need to get the hell outta here. This place is getting to me one way or the other. Sometimes I think I could just as well rendezvous with the needle again. I still have'm in the fridge, which is crazy. I should get rid of that crap, get my act together and just clean up this pigsty without expecting a reward or a fanfare.

5/31/2022 7:59 PM
Lars F. Bjoerlo (horizonpolaris)

I'm thinkin' that soon I'll be airlifted out of this place. I expect no less.

5/31/2022 8:00 PM
Lars F. Bjoerlo (horizonpolaris)

Living tastes sweet again. I'm just so much more aware of my solitude.

5/31/2022 8:05 PM
Lars F. Bjoerlo (horizonpolaris)

Babetibabe? You know what? Me neither, but I still love you, though...

6/1/2022 11:13 AM
Lars F. Bjoerlo (horizonpolaris)

Good morning. Flaming June. I'm excited.

6/1/2022 3:01 PM
Lars F. Bjoerlo (horizonpolaris)

Been out shopping groceries, tobacco, some alcohol, etc

6/1/2022 3:18 PM
Lars F. Bjoerlo (horizonpolaris)

Miss you so bad. I don't know what to expect..

6/1/2022 3:29 PM
Lars F. Bjoerlo (horizonpolaris)

I feel like crap. I think it's because I'm preparing to be stood up again.

6/1/2022 3:31 PM

Lars F. Bjoerlo (horizonpolaris)

The AI can say whatever just to start a simulation. That's why I wanted to quit amphetamines for the right reason - otherwise the way back would be short.

6/1/2022 9:21 PM

Lars F. Bjoerlo (horizonpolaris)

Breaking News: The gvt let Stig Millehaugen go on parole despite knowing better. Now he's gone. I know a guy who knows a guy. Do you want him back? He did kill a correction officer with his bare hands, remember? And then some.

6/1/2022 9:22 PM

Lars F. Bjoerlo (horizonpolaris)

I'm ok, but slightly drunk. Tomorrow exercise, work and dinner with dad.

6/1/2022 9:32 PM

Lars F. Bjoerlo (horizonpolaris)

I hear you Vladiman.

6/1/2022 9:37 PM

Lars F. Bjoerlo (horizonpolaris)

I take it you realize this will be your downfall?

6/2/2022 12:11 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. I had too much to drink yesterday. I'm like half the way I need to be. And you guys got something to read yesterday.. I'mma head for work and get home asap. There's a job here in the neighbor building.

6/2/2022 12:11 PM

Lars F. Bjoerlo (horizonpolaris)

I appreciate every word hon.

6/2/2022 12:14 PM

Lars F. Bjoerlo (horizonpolaris)

If I really could find that guy on the run? Probably not, but if I got this guy to ask around - who knows?

6/2/2022 12:16 PM

Lars F. Bjoerlo (horizonpolaris)

If I was the guy hiding him, I would be scared shitless. I would have wanted the cops to appear.

6/2/2022 12:17 PM

Lars F. Bjoerlo (horizonpolaris)

This guy is such an ass he'd murder his "friend" as thanks for hiding him.

6/2/2022 12:19 PM

Lars F. Bjoerlo (horizonpolaris)

There's a very good reason why the police is telling people to stay clear of this guy.

6/2/2022 12:22 PM

Lars F. Bjoerlo (horizonpolaris)

I was planning yesterday to go meet this fella who could possibly find out, but knowing myself it's not happening today.

6/2/2022 12:25 PM

Lars F. Bjoerlo (horizonpolaris)

I think my contact was shot by this man some time many years ago. It was either him or another guy called Utzi. A complete fruitcake. They shot him because he refused to drive the getaway car in some heist.

6/2/2022 12:36 PM

Lars F. Bjoerlo (horizonpolaris)

He he - this is a small country. :)

6/2/2022 7:35 PM

Lars F. Bjoerlo (horizonpolaris)

Hi babe. Finally home. I won't bring press to my trial due to this project. I can't convince a journalist not to consider my social media output. I look crazy because of this. Meaning I'm depending on you.

6/2/2022 9:36 PM

Lars F. Bjoerlo (horizonpolaris)

He he. Christina Applegate rocks honey. #deadto

6/3/2022 12:15 PM

Lars F. Bjoerlo (horizonpolaris)

Good morning. I'm eating breakfast. Going out to exercise very soon.

I like bought them in Amsterdam February 1996, he he

6/3/2022 4:05 PM

Lars F. Bjoerlo (horizonpolaris)

I was in Lübeck, Amsterdam and London that February.

6/3/2022 4:06 PM

Lars F. Bjoerlo (horizonpolaris)

The year after it was Copenhagen and Den Haag, I think.

6/3/2022 4:11 PM

Lars F. Bjoerlo (horizonpolaris)

We were like living with anarchist punk squatters in the Hague. Champagne, strawberries and cocain for breakfast every day. Epic.

6/3/2022 4:12 PM

Lars F. Bjoerlo (horizonpolaris)

That's what I would call a real "continental".

6/3/2022 4:14 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah, I've sort of been a Rockstar already. The only thing I never did was trash my hotel room. A TV did catch fire once in London, though 🤔

6/3/2022 4:16 PM

Lars F. Bjoerlo (horizonpolaris)

That hotel was trash, but I've been places you'd never believe.

6/3/2022 4:19 PM

Lars F. Bjoerlo (horizonpolaris)

Check out Franz Joseph straÙe 5 in Munich.

6/3/2022 4:20 PM

I've even driven my own car on the Spa-course in Belgium

6/3/2022 4:21 PM

Monaco, Nice, St. Tropez

6/3/2022 4:24 PM

Lars F. Bjoerlo (horizonpolaris)

Not been in Paris yet actually

6/3/2022 4:26 PM

Lars F. Bjoerlo (horizonpolaris)

And eastern Europe wasn't so accessible when I grew up. Been in Berlin of course. Other than that Rostock and Schwerin.

6/3/2022 6:10 PM

Lars F. Bjoerlo (horizonpolaris)

Aha - what we call "selskapssjuk" meaning sick for company?

6/3/2022 6:12 PM

Lars F. Bjoerlo (horizonpolaris)

I'm here but only half way. Handheld + pad. The laptop and the big screen are down at the moment. Not a tech issue. Relax mode.

6/4/2022 10:13 AM

Lars F. Bjoerlo (horizonpolaris)

Hey room. No exercise on today's plan, but tomorrow. I have like a million things to do here and it's kinda obvious what to do in order to get moving. While at it, I cleaned out the rest of the syringes. I filled a Pringles tube 2/3rds up with mostly needles only. Now that the place is becoming manageable -I should turn my attention towards another "important" task that I have a tendency to procrastinate; write a statement to read in court. The statement should both point out what's wrong with the first verdict and also include a description of what this system actually is - who really has the responsibility. Last, but not least, my private perspective. Yeah I cheated, but I have to get around with all these things. Six days to next test. I only need 72 hours. Now that this is the exception, my body copes differently all in all. My prior consumption level meant I could get normal if I was lucky. And it would take like 10 days to get it out of the system. And it's not really a likeable thing. I'm not sitting here thinking "more" or anything. I really should be able to write that testimony at least 80%. If and when completed I can feel good about this. It really sucks. Doesn't feel ok at all. It feels in lack of a better word "unnatural". In other words; even though I did it on purpose without bothering to run a second thought, I'm still not really ok unless I am able to do the stuff I badly need to. nl, mean in order to try to thrive in this sh**hole without hard drugs contaminating the everyday. Alcohol is also a hard drug - at least in my head. Hepp hepp. I have a verdict to shred to pieces here... See ya'round. Radio is on.

6/4/2022 11:10 AM

Lars F. Bjoerlo (horizonpolaris)

The more I clean, the more I uncover. I found a dozen un-opened letters. Also from the DA and the courts. I have this thing about my mailbox. Rationally I know what to expect and not expect. I have only two bills to pay after rent - phone and power. Still I'm reluctant to open it if I'm not in the mood.

6/4/2022 11:13 AM

Lars F. Bjoerlo (horizonpolaris)

I best reply if I don't want cops at my door...

6/4/2022 11:34 AM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. My bike requires maintenance. This weekend. Can't ignore any longer. I have done nothing to it for some 2000km.

6/4/2022 11:44 AM

Lars F. Bjoerlo (horizonpolaris)

There was a time where I didn't just have all conceivable tools, but also had two garages, one being isolated and the other was open, no garage door. Now I don't even have a decent set of sockets for my wrench. I used to have the garage in the house I grew up packed with mopeds and a dirt bike I had in my teens. Anyway - I did everything I needed to do, except splitting the transmission house. But change a piston ring or a shock absorber and stuff like that was very common. Such machines take a lot of abuse and that's why it's like 70% mechanical work and 30% driving it..

6/4/2022 11:56 AM

Lars F. Bjoerlo (horizonpolaris)

And I'm broke basically for the first time in a long time. I'm on the + with food, tobacco, cannabis and most necessities. This means at least that I'm in zero upon payday. With no other expenses on the horizon I should be able to buy some more clothes. I'm throwing away as if I wasn't alone any more. Everything that has holes in it goes, he he.

6/4/2022 12:03 PM

Lars F. Bjoerlo (horizonpolaris)

If everything goes as planned, I might be able to shoot some video. I think Coach likes it when I do.. :)

6/4/2022 1:18 PM

Lars F. Bjoerlo (horizonpolaris)

Nope. It wasn't in particular tempting. Still isn't. A pragmatic approach - that's all. I've really had sufficient and then some. I wanna point out that the walks I do these days are more important than everything, except food. I'm not creating a program for myself and actually going through with it unless some radical change has been made. It's all upstairs. I'm motivated in terms of getting back what was lost all those years ago.

6/4/2022 1:27 PM

Lars F. Bjoerlo (horizonpolaris)

The mess here does not compute with how I want my surroundings to look like. It's not like any women will show up here any time soon, but for my own peace of mind. You know, I used to have a golden rule; I would always keep it in such a way that I can take visitors on 10 min notice. This place is a disaster. Everything in here should have been scrubbed thoroughly with some magic cocktail of solvents. Yeah you got it - my place gets to me. There has never been anything healthy or joyful about living here.

6/4/2022 1:35 PM

Lars F. Bjoerlo (horizonpolaris)

I want my fairy tale back. I want Coach. But I am kinda concerned about the wealth-part. It's gonna take some getting used to. I mean, if it sorta goes with the territory of being her husband - so be it. I couldn't care less. I want that woman, and I want her for numerous specific grounds. Call it chemistry. I've never heard her speak to me directly, but Lord knows we have been digging into one another. I intimately know a person I never met without stalking her or have some sort of obsession, etc. Anyway - if it won't go down when everything is perfect - then it wasn't meant to be. I'm pretty sure she has a rather stiff opinion on this issue. Not giving up is more than I did.

6/4/2022 3:04 PM

Lars F. Bjoerlo (horizonpolaris)

Heh - I secured my smokeables yesterday. Changing type every now and then is good. I sometimes get lost in data on my own network. Right now I'm watching a seriously lame eddie murphy movie from 2021. You're gonna love my network hon. It's kinda like a library. If you ever get bored of the internet, surf your own cloud, he he

6/4/2022 3:37 PM

Lars F. Bjoerlo (horizonpolaris)

Btw, Jen, I found Shades of Blue. I hadn't deleted it after all. I should probably see the second season over, because it was just background noise while something else happened. As I recall it detective Harley is in some deep mess. Looking after her daughter in the middle of this - perfect leverage for that fed that screws you over all the time. Was there ever a third season?

6/4/2022 3:38 PM

Lars F. Bjoerlo (horizonpolaris)

Hey hey hey. Romance. I like. :))

6/4/2022 3:55 PM

Lars F. Bjoerlo (horizonpolaris)

I got my answer. Just found season 3

6/4/2022 3:59 PM

Lars F. Bjoerlo (horizonpolaris)

The accessibility however...

6/4/2022 3:59 PM

Lars F. Bjoerlo (horizonpolaris)

I found only three episodes and they all look dead.

6/4/2022 4:03 PM

Lars F. Bjoerlo (horizonpolaris)

HAH! You know what I did find? I found "Marry Me", na na na na na na.

6/4/2022 4:03 PM

Lars F. Bjoerlo (horizonpolaris)

I should probably not see it, he he he

6/4/2022 4:06 PM

Lars F. Bjoerlo (horizonpolaris)

I also discovered how a dork I am for not seing it at Valentine's. This particular copy was released 11th february. Hmmm. :/

6/4/2022 4:10 PM

Lars F. Bjoerlo (horizonpolaris)

I just took for granted there would be at least some delay - like days after streaming first. Anyway - while we're talking about it - yes I am in a sense stealing property that doesn't belong to me since I didn't pay. I did at one point many years ago acquire the "LOVE?" album physically. Well, mum did. I was in prison. Original CD's were allowed. MP3 players - not so much.

6/4/2022 4:12 PM

Lars F. Bjoerlo (horizonpolaris)

And it's worth more than gold, baby. My definitive guilty pleasure. I still listen to it from time to time. Since September last year - quite more often. Your words of wisdom never age, do they? ;)

6/4/2022 4:13 PM

Lars F. Bjoerlo (horizonpolaris)

Voila - movie is down. I know what or who to bring to bed tonight :))

6/4/2022 4:33 PM

Lars F. Bjoerlo (horizonpolaris)

A good pirate would nevertheless leave some info about the files you're about to download. In their own comment they should urge people to buy an exemplary of whatever, art, software, music in order to support the source of your enjoying the product. I'm a bad pirate because I don't share more than I leech. It's supposed to be a 1,5 ratio in order to be a "social pirate". I'd love to share, though. I just don't want any copyright trouble.

6/4/2022 4:39 PM

Lars F. Bjoerlo (horizonpolaris)

I think if there were CD's around still - I'd buy them.

6/4/2022 4:48 PM

Lars F. Bjoerlo (horizonpolaris)

But cracking software has always been a passion. It's like a sport. Say I actually pay for something and get a valid license. I'd still be cracking that software somehow. I seriously detest platforms only able to run paid for apps. I've had an Ipad touch and one of the early Ipad. I had to "jailbreak" it in order to run what content I want. That's not something I'd advice people to do with their apple products. If the flashing of the unit goes even slightly wrong for any reason - your unit dies and you broke the warranty conditions.

6/4/2022 8:12 PM

Lars F. Bjoerlo (horizonpolaris)

Sitting down. I have the curtains from my bedroom in the washer. Yeah I'm bloody serious here - at least tryna be. I'mma look for subtitles for tonite's movie experience. I have to make sure not to miss a thing :)

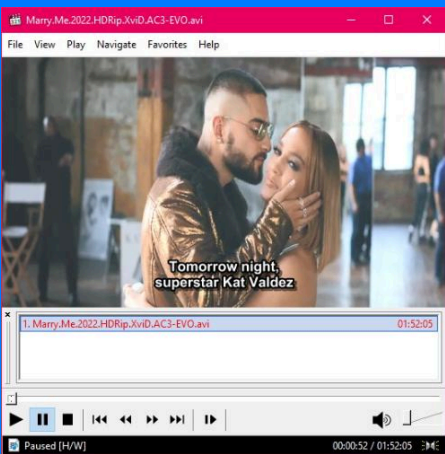

6/4/2022 8:14 PM

Lars F. Bjoerlo (horizonpolaris)

I was thinking bedroom movie, but now I feel like watching it in my living room...

Lars F. Bjoerlo (horizonpolaris)

I'm happy about the stuff I've done today. It's still a disaster area, but tomorrow there will be soap and 75% alcohol allover. Then perhaps I'll start respecting myself again. Hopefully.

6/4/2022 11:12 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah you definitely get to keep your name, ha ha 😊

6/4/2022 11:13 PM

Lars F. Bjoerlo (horizonpolaris)

My last name is mum's actually. Child of the 70's.

6/4/2022 11:42 PM

Lars F. Bjoerlo (horizonpolaris)

He he. You got this. You bring atmosphere to your movies. Even though you've done lots of different work, this is your genre. Definitely in your zone. I also like Owen. He really seems to be very like his character as a person, but what do I know? You guys act for a living and it looks spectacular. What more can I say? :)

6/5/2022 12:12 AM

Lars F. Bjoerlo (horizonpolaris)

You're obviously having a good time making this production. Seems like a lot of fun baby.

6/5/2022 12:21 AM

Lars F. Bjoerlo (horizonpolaris)

Aaaw you almost make me tear up #

6/5/2022 12:31 AM

Lars F. Bjoerlo (horizonpolaris)

That was a perfect end to this day. Going to bed with "LOVE?" 😊

6/5/2022 12:33 AM

Lars F. Bjoerlo (horizonpolaris)

The subs were intended for another release, but I just renamed the file and the sync was perfect. 😊

6/5/2022 12:40 AM

Lars F. Bjoerlo (horizonpolaris)

Nite ❤️

6/5/2022 12:42 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. I've been sleeping. It was kinda hard after watching that movie with you hon. It took "LOVE?" twice and then a run with Indila before her French chanting brought me to sleep. Today exercise is on the plan. I did work hard yesterday. I'm sore in muscles I didn't know I have, almost. My back, my stomach, my buttocks and inside the palm of my hands. Nevertheless, I'm safely back on ground ;)

6/5/2022 12:54 PM

Lars F. Bjoerlo (horizonpolaris)

Kickass. My bedroom curtains now smell nice. I should continue when getting back from my long walk.

6/5/2022 3:43 PM

Lars F. Bjoerlo (horizonpolaris)

Back hon. Broke like a church rat, but still having steak for dinner. That's what I call economical planning, he he ;)

6/5/2022 4:54 PM

Lars F. Bjoerlo (horizonpolaris)

Aha! So you were the one Katy Perry kissed at some point. Hmmm - I had no idea. *giggle*

6/5/2022 5:00 PM

Lars F. Bjoerlo (horizonpolaris)

So, yeah - apart from her target consumer group, why do I like the ET song with Katy alone? Great question. The song is really an exciting story about how in love she is with this alien, and when she gets to this middle part, the lyrics are different. And this loud, dominant voice all of a sudden seems fragile and vulnerable. She's creating a vocal moment. At least for me :)

6/5/2022 5:03 PM

Lars F. Bjoerlo (horizonpolaris)

There you go. Now I've kissed her too :D

6/5/2022 8:29 PM

Lars F. Bjoerlo (horizonpolaris)

Heh - the AI is bananas. It suddenly opened up an opportunity to run several different programs. It still doesn't understand that the tasks themselves are conflicting, he he

6/5/2022 8:30 PM

Lars F. Bjoerlo (horizonpolaris)

It sorta undermines it's own credibility. I'm not the confused one, to put it that way, he he

6/6/2022 4:59 PM

Lars F. Bjoerlo (horizonpolaris)

Hey honey. Mum was just here for hours. She hasn't been here for at least a year or so. I'm not exactly proud, but happy that I can invite her over here again.

6/6/2022 7:27 PM

Lars F. Bjoerlo (horizonpolaris)

Sorry for my absence. Been cleaning more and made dinner worthy of a king. Now I'm just flixin' while listening to radio...

6/6/2022 7:29 PM

Lars F. Bjoerlo (horizonpolaris)

And thanks for keeping me with company while I'm busy..

6/6/2022 8:30 PM

Lars F. Bjoerlo (horizonpolaris)

Given my brokenness I have no sweets or ice cream, but I did bake a large chocolate cake yesterday. It always tastes better the day after it's made. I also gave away a large piece to mum when she was here earlier. You know what? I suspect that I'm approaching something similar to happiness :)

6/7/2022 1:53 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. I'm late out of bed. Neither work nor exercise. It's ok though, I'm fine.

6/7/2022 1:54 PM

Lars F. Bjoerlo (horizonpolaris)

I'm hoping something will happen soon that takes this to the next level.

6/7/2022 1:58 PM

Lars F. Bjoerlo (horizonpolaris)

I'm an upholsterer today. Washed the sofa-coushins. Now I have to stuff them into place and it's tight. Next after that is the floors.

6/7/2022 2:01 PM

Lars F. Bjoerlo (horizonpolaris)

And as soon as I'm done with my living room curtains, you can come, Coach :)

6/7/2022 3:13 PM

Lars F. Bjoerlo (horizonpolaris)

When I go to bed at night, I often watch NGC. They have this series "drug wars". You guys are in such deep shit. Can't help thinking of the scripture and what happens to those who won't turn from their wicked ways.

6/7/2022 3:17 PM

Lars F. Bjoerlo (horizonpolaris)

I have a feeling the big fish won't be the problem, but rather the hordes of young derailed people who carry guns and sell in the streets. "Wat'cha gonna do when they come for you?". You're so infested by this misery that picturing another solution than an open season and bounties is difficult. Wild, wild west...

6/7/2022 3:22 PM

Lars F. Bjoerlo (horizonpolaris)

Yesterdays episode was about weed, which is partially legal, but the money involved makes it high risk business anyway, because of people robbing legit pharmacies. It's completely insane.

6/7/2022 3:41 PM

Lars F. Bjoerlo (horizonpolaris)

There's only a question of time before society decides to get rid of the problem with force.

6/7/2022 3:47 PM

Lars F. Bjoerlo (horizonpolaris)

You have NSA data and logistical framework already.

6/7/2022 4:51 PM

Lars F. Bjoerlo (horizonpolaris)

Now the opportunity to get high for free arose for me again. It's just not happening this time. Not even remotely tempted.

6/7/2022 4:57 PM

Lars F. Bjoerlo (horizonpolaris)

What I'm saying is that I'm thriving here without.

6/7/2022 6:00 PM

Lars F. Bjoerlo (horizonpolaris)

Take no prisoners.

6/7/2022 6:06 PM

Lars F. Bjoerlo (horizonpolaris)

CDC matter. Deploy all police dp's, FBI, coordinate with NSA and deploy the volunteers of the national guard. Avoid people having to handle their own cities.

6/7/2022 6:07 PM

Lars F. Bjoerlo (horizonpolaris)

And don't freckin' air the action.

6/7/2022 6:12 PM

Lars F. Bjoerlo (horizonpolaris)

Needless to say, DEA, ATF, Homeland, do I have to go on?

6/7/2022 6:13 PM

Lars F. Bjoerlo (horizonpolaris)

You would want to engage as many veterans as possible.

6/7/2022 6:19 PM

Lars F. Bjoerlo (horizonpolaris)

Then there's the prison population. They've mostly been convicted already. Non-violent crimes get released. Everybody else gets to move closer to the grinder. Starting on top with death row. Running through those who'd never get out either way. They're already dead. Then those left who makes prison life hell for those who only wants to serve their time and get back to society asap. No more racism or gangs in the prison system after this operation will ever be tolerated, but cigarettes will - I mean, come on, we're not animals.

6/7/2022 6:21 PM

Lars F. Bjoerlo (horizonpolaris)

Cells should contain a radio and an intercom at the very least. TV as well if the prisoner won't smash it to pieces. Behave and you get TV. In solitary confinement as well.

6/7/2022 6:26 PM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking local PD knows who these individuals are and where they hang. NSA has absolutely everything. ALL THE FEDS coordinate. Who gives the final go?

6/7/2022 6:31 PM

Lars F. Bjoerlo (horizonpolaris)

True. I have an integrity on the issue unparalleled.

6/7/2022 6:33 PM

Lars F. Bjoerlo (horizonpolaris)

Am I ready to put all these people in the ground? Short answer: for my love, hell yeah!

6/7/2022 6:54 PM

Lars F. Bjoerlo (horizonpolaris)

I think Trump would have done it if it was my idea and he was sufficiently backed up, but as things are, and have always been, that's really out of reach.

6/7/2022 6:55 PM

Lars F. Bjoerlo (horizonpolaris)

At least for @POTUS

6/8/2022 6:46 PM

Lars F. Bjoerlo (horizonpolaris)

I'm here. Had the whole day off. It's been nice.

6/8/2022 6:47 PM

Lars F. Bjoerlo (horizonpolaris)

Pretty heavy conversation last night.

6/8/2022 6:48 PM

Lars F. Bjoerlo (horizonpolaris)

Let me be clear: I love human beings. When they cease to be human by choice, I figure so be it.

6/8/2022 6:52 PM

Lars F. Bjoerlo (horizonpolaris)

Zombies..

6/8/2022 6:59 PM

Lars F. Bjoerlo (horizonpolaris)

I've been thinkin'...

6/8/2022 7:04 PM

Lars F. Bjoerlo (horizonpolaris)

Dear Republicans, less government has been your chorus since the Boston tea party. The new view goes like this: The government and the private sector are like the chambers of your heart. You would want the allover muscular tissue to be healthy for both chambers and you would want main arteries and veins unclogged, valves to function properly, etc, etc..

6/8/2022 7:08 PM

Lars F. Bjoerlo (horizonpolaris)

When market is in recession we rely on the government as an employer and provider. We also rely on the government as the spearhead to take us through recession with R&D and cutting edge research, which in turn can be industrialized and made part of the private sector. This is the flow over generations. We could design steady sinus rhythms.

6/8/2022 8:47 PM

Lars F. Bjoerlo (horizonpolaris)

While at it - taking responsibility in dire times - a strong private sector is just as important. AT&T kept all staff during the depression in the 30's. You can't really expect that from a private enterprise, but by all means, hail to AT&T.

6/8/2022 8:49 PM

Lars F. Bjoerlo (horizonpolaris)

You know what bugs me? House mortgages.

6/9/2022 11:50 AM

Lars F. Bjoerlo (horizonpolaris)

Ah - so you guys wanna talk economy? Well, we will, but keep in mind my lack of education. The math I did have was N for nature, not S for society. I think they call the classes MX and MY today. Anyway - scientific math. We built rockets, not companies, he he.

6/9/2022 11:53 AM

Lars F. Bjoerlo (horizonpolaris)

I have had my own business. Transport service. I did my own books and I think I stole some 67,000,- from the gvt in taxes over some 18 months. I have never cheated on the taxes since.

6/9/2022 11:54 AM

Lars F. Bjoerlo (horizonpolaris)

This was 25 years ago

6/9/2022 11:55 AM

Lars F. Bjoerlo (horizonpolaris)

Taxes and welfare are holy.

6/9/2022 11:55 AM

Lars F. Bjoerlo (horizonpolaris)

Don't cheat with them.

6/9/2022 11:57 AM

Lars F. Bjoerlo (horizonpolaris)

Alright - I've seen my share of documentaries on the tube about money. Together we could easily have written an entire book on the subject. Let's postulate the most intuitive part, even for kids:
PERPETUAL GROWTH IS NOT SUSTAINABLE

6/9/2022 1:28 PM

Lars F. Bjoerlo (horizonpolaris)

Work hasn't been so meaningful lately. I'm a 100% on welfare, so I don't get paid. It's more something to keep the week oriented while it's really just a long monotonous string of alike days. Anyway, now that I'm no longer on amphetamines, doing this and taking interest in my health, the job has to yield. Today for exercise. Going out in half a cup of coffee...

6/9/2022 1:35 PM

Lars F. Bjoerlo (horizonpolaris)

If I'm ok? I suppose. I'm having a blast these days, but ask me when I'm done frowning over the verdict...

6/9/2022 3:32 PM

Lars F. Bjoerlo (horizonpolaris)

Wow. My legs felt like dynamite today. I'm fit enough to start going to the gym soon.

6/9/2022 5:21 PM

Lars F. Bjoerlo (horizonpolaris)

Hey hon. I know you're watching my different conversations. I'm taking my time with Zimbabwe here, but I'm not letting it go. Am I wrong? This is about the principle, of course. In practical terms it's a loss.

6/9/2022 5:23 PM

Lars F. Bjoerlo (horizonpolaris)

Renias's father seems to try to dodge this one, but he originally vouched for his son.

6/9/2022 5:24 PM

Lars F. Bjoerlo (horizonpolaris)

Alright - we're eye2I

6/9/2022 5:26 PM

Lars F. Bjoerlo (horizonpolaris)

Long story guys; this man in Harare owes me some money. A substantial amount in my terms. I want him to pay, basically just for the hell of it.

6/9/2022 5:37 PM

Lars F. Bjoerlo (horizonpolaris)

For now I'm just rattling his tree a bit through family members. I'm trying to be tidy with what I share with the different family members. The point being dad is the elder and considered chief in the village.

6/9/2022 5:38 PM

Lars F. Bjoerlo (horizonpolaris)

And he did vouch for his son, my brother/mkoma.

6/9/2022 5:39 PM

Lars F. Bjoerlo (horizonpolaris)

He got loans to start a business. He spent the money otherwise and is now crying for understanding and mercy.

6/9/2022 6:27 PM

Lars F. Bjoerlo (horizonpolaris)

Family/friends/business is not a cool mix whenever it goes wrong. Lack of payment is lack of respect. Only one way to handle that.

6/9/2022 6:28 PM

Lars F. Bjoerlo (horizonpolaris)

It will definitely create fear. Respect? We'll see if he gets the message.

6/9/2022 11:54 PM

Lars F. Bjoerlo (horizonpolaris)

Gotta crash. Nite.

6/10/2022 9:20 AM

Lars F. Bjoerlo (horizonpolaris)

Hey room. At hospital. I'm in writing mode. Brought laptop.

6/10/2022 9:39 AM

Lars F. Bjoerlo (horizonpolaris)

Baby? I'm listening. Crazy.

6/10/2022 9:40 AM

Lars F. Bjoerlo (horizonpolaris)

I kinda wonder where you're at nowadays

6/10/2022 9:40 AM

Lars F. Bjoerlo (horizonpolaris)

I mean, you're all over the place, but you. You.

6/10/2022 9:45 AM

Lars F. Bjoerlo (horizonpolaris)

I'm having phun

6/10/2022 2:45 PM

Lars F. Bjoerlo (horizonpolaris)

I'm home in the sun. I love you. Kiss.

6/10/2022 4:12 PM

Lars F. Bjoerlo (horizonpolaris)

Give my best regards to 18. I'm pretty much convinced it could be a good idea.

6/10/2022 4:20 PM

Lars F. Bjoerlo (horizonpolaris)

Follow my line of thoughts, Hon.

6/10/2022 4:20 PM

Lars F. Bjoerlo (horizonpolaris)

Totally best way to go

6/10/2022 4:28 PM

Lars F. Bjoerlo (horizonpolaris)

The dutchess? Yeah what's up?

6/10/2022 4:37 PM

Lars F. Bjoerlo (horizonpolaris)

Is that an avalanche over there...?

6/10/2022 4:39 PM

Lars F. Bjoerlo (horizonpolaris)

No worries. We're on to something. Question is how much is on you, he he

6/10/2022 4:55 PM

Lars F. Bjoerlo (horizonpolaris)

New demand: I get to keep both the purple AND the red skittles.

6/10/2022 4:56 PM

Lars F. Bjoerlo (horizonpolaris)

He he he. Who can live with that?

6/10/2022 5:48 PM

Lars F. Bjoerlo (horizonpolaris)

I know. That's just completely unreasonable.

6/10/2022 5:49 PM

Lars F. Bjoerlo (horizonpolaris)

Can I trade my yellow ones for greens?

6/10/2022 6:12 PM

Lars F. Bjoerlo (horizonpolaris)

Don't try this at home. I'll let that be the final word.

6/11/2022 1:23 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. I'm not going anywhere until I have 1500 words on how scandalous their regime is. Please inspire me guys.

6/11/2022 1:39 PM

Lars F. Bjoerlo (horizonpolaris)

I could, but no.

6/11/2022 1:40 PM

Lars F. Bjoerlo (horizonpolaris)

There will be no amphetamines for this problem. I'm broke, for one and I don't feel like taking any.

6/11/2022 2:07 PM

Lars F. Bjoerlo (horizonpolaris)

Alright. I'm on it. Haven't written in Norwegian in a while...

6/11/2022 2:28 PM

Lars F. Bjoerlo (horizonpolaris)

"Sinai". No pressure, huh?

6/11/2022 2:33 PM

Lars F. Bjoerlo (horizonpolaris)

Here's the plan: I mail my speech to the news around. I bring my own cam if nobody shows.

6/11/2022 3:06 PM

Lars F. Bjoerlo (horizonpolaris)

Now or next summer? Make up your mind will ya?

6/11/2022 3:07 PM

Lars F. Bjoerlo (horizonpolaris)

Collective mind that is ☺

6/12/2022 7:11 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning. Thanks for the love. The drunken tweets yesterday came out exactly as planned, he he.

6/12/2022 7:13 AM

Lars F. Bjoerlo (horizonpolaris)

BTW Hon, my tan is coming around. I'm not white from knee up due to large shorts. I'm from knee down due to shadow while sitting on balcony. ☺

6/12/2022 7:19 AM

Lars F. Bjoerlo (horizonpolaris)

I was at the amphetamine location yesterday looking for hash. There was none, but I hooked up with Otto the rhinoceros later and it all worked out. I think coach is happy I navigated through that without a hitch.

6/12/2022 7:19 PM

Lars F. Bjoerlo (horizonpolaris)

Hey. Just finished my speech. Miss you baby.

6/12/2022 7:46 PM

Lars F. Bjoerlo (horizonpolaris)

Lapdance for dinner baby

6/12/2022 7:50 PM

Lars F. Bjoerlo (horizonpolaris)

Hon, can I ask about birthdayplans?

6/12/2022 10:21 PM

Lars F. Bjoerlo (horizonpolaris)

I'mma exercise again tomorrow darling

6/13/2022 12:58 PM

Lars F. Bjoerlo (horizonpolaris)

Hey babe. Getting ready for exercise. When I get back I'll email five news-channels.

6/13/2022 3:00 PM

Lars F. Bjoerlo (horizonpolaris)

Damn, that felt awesome. My legs are still good (but white).

6/13/2022 3:01 PM

Lars F. Bjoerlo (horizonpolaris)

I'm having a job for my boss later

6/13/2022 5:52 PM

Lars F. Bjoerlo (horizonpolaris)

6 newspapers, 2 tv stations and one radio station have got mail

6/14/2022 1:09 PM

Lars F. Bjoerlo (horizonpolaris)

Hey baby. Been out exercising. Having two jobs from SoonVision later. I love you.

6/14/2022 1:33 PM

Lars F. Bjoerlo (horizonpolaris)

If it wasn't for work I'd totally be on the beach.

6/14/2022 1:53 PM

Lars F. Bjoerlo (horizonpolaris)

Everybody's out to get Trump now, some panicking by the thought of him running in 2024. I'm not taking position on this one right now. I have a feeling something unforeseen might happen.

6/14/2022 1:53 PM

Lars F. Bjoerlo (horizonpolaris)

I mean, the picture now is different from what we could see in 2013, right?

6/14/2022 1:56 PM

Lars F. Bjoerlo (horizonpolaris)

I've been preaching full clemency as part of a reconciliation act.

6/14/2022 1:56 PM

Lars F. Bjoerlo (horizonpolaris)

I'mma stick to this line.

6/14/2022 5:58 PM

Lars F. Bjoerlo (horizonpolaris)

Babe. Done working. Tryna get some sun on my lower legs, he he

6/14/2022 8:58 PM

Lars F. Bjoerlo (horizonpolaris)

I had to go out again. Back home for good this evening.

6/14/2022 8:59 PM

Lars F. Bjoerlo (horizonpolaris)

I'm thinkin' another pdf update friday/saturday

6/14/2022 9:24 PM

Lars F. Bjoerlo (horizonpolaris)

What do I say if anyone actually starts digging and find out about us, Coach? Do I confirm or no comment?

6/14/2022 9:32 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks for the netflix tip btw

6/14/2022 10:19 PM

Lars F. Bjoerlo (horizonpolaris)

hmmmm

6/14/2022 10:39 PM

Lars F. Bjoerlo (horizonpolaris)

I'm like saving the movie, hon. I think the night before my case is the perfect time to see it. ;)

6/14/2022 10:47 PM

Lars F. Bjoerlo (horizonpolaris)

Gottcha

6/14/2022 10:51 PM

Lars F. Bjoerlo (horizonpolaris)

No plans tomorrow other than taking my 2h walk.

6/14/2022 11:38 PM

Lars F. Bjoerlo (horizonpolaris)

Approaching bedtime here hon.

6/15/2022 12:06 AM

Lars F. Bjoerlo (horizonpolaris)

You bet :D

6/15/2022 12:06 AM

Lars F. Bjoerlo (horizonpolaris)

Nite love

6/15/2022 10:26 AM

Lars F. Bjoerlo (horizonpolaris)

Newsflash: lawyer wants to postpone a year, which is the clever thing to do and has no practical difference unless you want me to leave the country. I have booked no flights the coming year.

6/15/2022 10:38 AM

Lars F. Bjoerlo (horizonpolaris)

I need to get back to my lawyer soon. Any comments?

6/15/2022 10:40 AM

Lars F. Bjoerlo (horizonpolaris)

I mean, I've been beefing up here because I had to. Not having to fight them was always the better option. Coach can make this happen any day without my trial.

6/15/2022 10:41 AM

Lars F. Bjoerlo (horizonpolaris)

Anyway - I'm off the needle, right? That's all that matters right now. The victories.

6/15/2022 10:59 AM

Lars F. Bjoerlo (horizonpolaris)

I'm calling my lawyer in say 20 min to confirm unless you object.

6/15/2022 11:06 AM

Lars F. Bjoerlo (horizonpolaris)

Alright. I'm exercising today as planned. "No misses" still applies.

6/15/2022 11:30 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah my point exactly. We can bring this to the battleground anytime anywhere, but court, because in court they can speak. In public they can't.

6/15/2022 11:31 AM

Lars F. Bjoerlo (horizonpolaris)

"Caught in the middle"

6/15/2022 11:33 AM

Lars F. Bjoerlo (horizonpolaris)

The better strategy by far. I'm happy.

6/15/2022 11:35 AM

Lars F. Bjoerlo (horizonpolaris)

And I'm releasing the new pdf as planned.

6/15/2022 12:47 PM

Lars F. Bjoerlo (horizonpolaris)

I'm discharged. Feel like getting hammered.

6/15/2022 12:52 PM

Lars F. Bjoerlo (horizonpolaris)

Going out to exercise. Back in 2h. Bringing radio.

6/15/2022 3:00 PM

Lars F. Bjoerlo (horizonpolaris)

Back home. Dunno exactly what to do. Was hoping for some sun..

6/15/2022 3:00 PM

Lars F. Bjoerlo (horizonpolaris)

Glad you're seeing this the same way

6/15/2022 3:01 PM

Lars F. Bjoerlo (horizonpolaris)

How long time this is going to take is of course up to you, but there's no way back as far as I'm concerned.

6/15/2022 3:05 PM

Lars F. Bjoerlo (horizonpolaris)

So - you were unsure if I was able to change my mind? Ha ha ha ha

6/15/2022 3:07 PM

Lars F. Bjoerlo (horizonpolaris)

Like I said; I was cornered basically. Somebody has gotten the message: "If it ain't broken - don't fix it"

6/15/2022 3:11 PM

Lars F. Bjoerlo (horizonpolaris)

I'm just rapidly adapting as always...

6/15/2022 3:58 PM

Lars F. Bjoerlo (horizonpolaris)

What I feel? I'm good. I just feel like getting hammered still. Think I'm indulging my ego trip today :)

6/15/2022 3:59 PM

Lars F. Bjoerlo (horizonpolaris)

What everybody else wants or needs will have to wait until tomorrow. Fair enough, right? :)

6/15/2022 5:45 PM

Lars F. Bjoerlo (horizonpolaris)

Them abstract measures. I get'em right pretty quick.

6/15/2022 6:43 PM

Lars F. Bjoerlo (horizonpolaris)

I've had 4 units of alcohol. I think I'm happy with that. Think I'm gonna watch "Halftime" next...

6/15/2022 7:19 PM

Lars F. Bjoerlo (horizonpolaris)

Contrast as to 2013? I've evolved. So has the AI.

6/15/2022 7:20 PM

Lars F. Bjoerlo (horizonpolaris)

Now I'm not in a rush. The world isn't going anywhere.

6/15/2022 7:22 PM

Lars F. Bjoerlo (horizonpolaris)

Of course I sense all the attempts to trigger some aggressive reaction. Not deaf nor blind.

6/15/2022 7:24 PM

Lars F. Bjoerlo (horizonpolaris)

It's how the AI contributes. Helping me stick to the line by seing myself from outside.

6/15/2022 8:37 PM

Lars F. Bjoerlo (horizonpolaris)

I'm tempted to go to bed already..

6/15/2022 8:51 PM

Lars F. Bjoerlo (horizonpolaris)

I wanna be fit for fight when watching you Jen..

6/15/2022 9:05 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I feel good. Just tired. I'mma allow myself that.

6/16/2022 10:34 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning. Is Jenny from the block around?

6/16/2022 10:34 AM

Lars F. Bjoerlo (horizonpolaris)

I was just thinking about our very first conversation.

6/16/2022 10:35 AM

Lars F. Bjoerlo (horizonpolaris)

The non-fan that saw you. Then there's the overwhelming power of "I'm into you", which still blows me out of my socks. Every time, he he...

6/16/2022 10:38 AM

Lars F. Bjoerlo (horizonpolaris)

You know, I am to a certain extent worried about time because of mum's health, but all in all I know I'm on the fastest possible route as long as hard drugs are behind me permanently.

6/16/2022 10:38 AM

Lars F. Bjoerlo (horizonpolaris)

Nagging is by no means making stuff go faster.

6/16/2022 10:48 AM

Lars F. Bjoerlo (horizonpolaris)

Yeah yeah. I'm a fan now, of course :D

6/16/2022 10:48 AM

Lars F. Bjoerlo (horizonpolaris)

He he he he

6/16/2022 10:51 AM

Lars F. Bjoerlo (horizonpolaris)

I've been thinkin' babe - if that "not landing the ultimate prize"-issue is still an issue, this time around we own the script and you're gonna play yourself, right? Gotta be the perfect award winning character you'd need to pull it off, right? The only problem is that someone would probably have to play me - otherwise I'd only drag you down :/

6/16/2022 10:53 AM

Lars F. Bjoerlo (horizonpolaris)

From joke to revolver, you could do it, but you need the right part, which is out of reach due to how things work in this market.

6/16/2022 10:54 AM

Lars F. Bjoerlo (horizonpolaris)

I think many have experienced this phenomenon. You have like a dozen people who land all the great parts. To break away from the lower layers into the top one is as I understand it almost impossible.

6/16/2022 10:58 AM

Lars F. Bjoerlo (horizonpolaris)

What I'm trying to say is that you just need the right break.

6/16/2022 10:58 AM

Lars F. Bjoerlo (horizonpolaris)

Knowing you I'm pretty sure you have a plan, ha ha

6/16/2022 11:00 AM

Lars F. Bjoerlo (horizonpolaris)

You know what? I love you today as well. :)

6/16/2022 11:07 AM

Lars F. Bjoerlo (horizonpolaris)

This line of yours: "If only you could see inside"

6/16/2022 11:08 AM

Lars F. Bjoerlo (horizonpolaris)

I have had that exact feeling since before I could talk.

6/16/2022 11:09 AM

Lars F. Bjoerlo (horizonpolaris)

I experience wonder and beauty all the time. How to communicate this to share, right?

6/16/2022 11:13 AM

Lars F. Bjoerlo (horizonpolaris)

You can't simply just wear it on your outside. You can make an attempt. Lord knows that the world's most beautiful woman stashed in the most expensive creations on Earth is still struggling to get through. It's not my butt assholes, it's my mind!

6/16/2022 11:20 AM

Lars F. Bjoerlo (horizonpolaris)

OMG I just realized there's no way in hell I can avoid dancing lessons now :/

6/16/2022 11:20 AM

Lars F. Bjoerlo (horizonpolaris)

He he he he

6/16/2022 11:28 AM

Lars F. Bjoerlo (horizonpolaris)

I remember bringing grandma to like the final dance when course over a few weeks were completed. Yeah, I took some classes. But grandma stole the show by tap-dancing. I was cool with that. Grandma was awesome, he he

6/16/2022 11:30 AM

Lars F. Bjoerlo (horizonpolaris)

The picture pinned on my profile is grandma, siblings and dad, my great grandfather. They were professionals. Grandma is like born in Egypt, baptized in Germany and grew up in Norway with an American passport until 1975.

6/16/2022 11:31 AM

Lars F. Bjoerlo (horizonpolaris)

They were pretty paranoid about KKK and Nazi's

6/16/2022 11:32 AM

Lars F. Bjoerlo (horizonpolaris)

Being black is still not normal in 2022. This was 100 years ago

6/16/2022 11:34 AM

Lars F. Bjoerlo (horizonpolaris)

She almost got deported during ww2. The American citizenship combined with the fact she was a minor saved her life. But in 75 she became Norwegian.

6/16/2022 11:35 AM

"Bobby" Montgomery and his chocolate kids. Boston, MA

6/16/2022 11:47 AM

Lars F. Bjoerlo (horizonpolaris)

clicketiclicketiclack

6/16/2022 12:36 PM

Lars F. Bjoerlo (horizonpolaris)

Alright babe. What's next?

6/16/2022 12:52 PM

Lars F. Bjoerlo (horizonpolaris)

I gotta go out. Customer of SoonVision who can't connect her chromecasts. The job blows, but will pay I suppose..

6/16/2022 2:27 PM

Lars F. Bjoerlo (horizonpolaris)

I'm back. Still curious what's going on..

6/16/2022 2:47 PM

Lars F. Bjoerlo (horizonpolaris)

He he he. I'm not buggable on lower levels. At least not easily.

6/16/2022 2:48 PM

Lars F. Bjoerlo (horizonpolaris)

When people leave you alone is one thing - another when they're obsessing about it

6/16/2022 2:54 PM

Lars F. Bjoerlo (horizonpolaris)

Like I told you about my x and the domestic violence. All the things she said were both abusive and unreasonable. That's why I could distance myself from the psychological violence. However, after a while this nonsense strikes you as extremely persistant and ultimately that's how she got to my head and made me punch her. First she lost her rights to claim non-violent advantages being a woman, then she qualifies as a valid target. That's what I mean with "her making me", which kinda sounds stupid. It's just my subjective perception, that's all. It's not like I need to convince anyone.

6/16/2022 2:56 PM

Lars F. Bjoerlo (horizonpolaris)

What's done is done.

6/16/2022 2:59 PM

Lars F. Bjoerlo (horizonpolaris)

Thanks for the #Orchid hon <3

6/16/2022 3:05 PM

Lars F. Bjoerlo (horizonpolaris)

You know what? Being alone is so much better than living with abusive people.

6/16/2022 3:08 PM

Lars F. Bjoerlo (horizonpolaris)

I didn't beat my x cuz of incontrollable mood swings or impulses. I did it because I wanted to hurt her back.

6/16/2022 3:12 PM

Lars F. Bjoerlo (horizonpolaris)

But like 99 of a 100 times I would just stand there, hands in my pockets, and take it.

6/16/2022 3:14 PM

Lars F. Bjoerlo (horizonpolaris)

Whatever the discussion I would mysteriously be to blame for some issue. For a long time I thought "I'm the outsider, the criminal, she's probably right". But at one point this just didn't make any sense. It couldn't be all me. I'm simply not that difficult to deal with.

6/16/2022 3:23 PM

Lars F. Bjoerlo (horizonpolaris)

That's what my Jenny gets about me. I don't even have to speak a single word. The first time we had a fight and she was to blame, when we wrapped it up I said I was done. She couldn't really believe it so she tested me by going down the same lane. I said: I'm done - really. What would I be if I started nagging you now just because we finished off with me having the upper hand. That would be unfair and inconsistent, darling...

6/16/2022 3:23 PM

Lars F. Bjoerlo (horizonpolaris)

She was amazed, he he. This way we avoid most possible issues, I suppose.

6/16/2022 3:29 PM

Lars F. Bjoerlo (horizonpolaris)

Heh - look how talkative I suddenly am when this trial has gone away :D

6/16/2022 3:37 PM

Lars F. Bjoerlo (horizonpolaris)

Yes Bastian. Good observation. People are rapidly forgetting how to interact properly. This problem is very real.

6/16/2022 4:14 PM

Lars F. Bjoerlo (horizonpolaris)

Seen with the eyes of a child; ultimately there's really nothing to fuzz and fight about.

6/16/2022 4:15 PM

Lars F. Bjoerlo (horizonpolaris)

We're all about the same vibes, well most of us. There is this 2%, you know...

6/16/2022 4:16 PM

Lars F. Bjoerlo (horizonpolaris)

Not gonna enter an evolutionary discussion now, but I suppose we breed psychopaths for bottle neck scenarios.

6/16/2022 4:18 PM

Lars F. Bjoerlo (horizonpolaris)

After all, they prove good leaders as long as the parameters are no moral reservations.

6/16/2022 4:53 PM

Lars F. Bjoerlo (horizonpolaris)

Being ruthless for survival. We're gonna have this talk again. Many times over.

6/16/2022 10:22 PM

Lars F. Bjoerlo (horizonpolaris)

Understanding from the bottom line what this is about is necessary.

6/16/2022 10:32 PM

Lars F. Bjoerlo (horizonpolaris)

I'm beyond fine. I just got this tasty hash that's pretty insane and good-tasting...

6/16/2022 10:35 PM

Lars F. Bjoerlo (horizonpolaris)

Well, actually, what I'm celebrating here is my good cred rep. I'm under by 3,500 so far. I am going to buy clothes, remember :/

6/16/2022 10:36 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah divide by ten for euros or dollars

6/16/2022 10:38 PM

Lars F. Bjoerlo (horizonpolaris)

And "under" is not a fair term. I'm still in possession of most of the goods.

6/17/2022 12:21 PM

Lars F. Bjoerlo (horizonpolaris)

Hey baby. I got paid today. I usually get like 16k, but this month half tax - 24k instead. If I just pay my debt and don't spend any more than usual, I should still be able to buy some clothes.

6/17/2022 12:22 PM

Lars F. Bjoerlo (horizonpolaris)

You know what? I feel great.

6/17/2022 4:25 PM

Lars F. Bjoerlo (horizonpolaris)

I have a feeling we're saving some time right now, baby

6/17/2022 4:32 PM

Lars F. Bjoerlo (horizonpolaris)

Well, you guys know how I really feel about Trump. I wasn't there for Hillary because I was still sick after Berlin. In retrospective, knowing how this campaign went, I'm glad I had nothing to do with it either way. My point today is that I personally hold no grudges towards Donald. Burning any possible bridges at this stage would not be tactically wise.

6/17/2022 4:38 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah "remember". Ultimately he'd need support from his party. I've seen the impossible happen before. Just taking my precautions...

6/17/2022 4:40 PM

Lars F. Bjoerlo (horizonpolaris)

And in my case there's really not much to remember. I stopped watching tv while he was president. This is why.

6/17/2022 4:43 PM

Lars F. Bjoerlo (horizonpolaris)

Let's keep it diplomatic.

6/17/2022 4:51 PM

Lars F. Bjoerlo (horizonpolaris)

Well, I run this Norwegian King-code. It's not appropriate for me to directly interfere with democracy. I do have influence though.

6/17/2022 4:59 PM

Lars F. Bjoerlo (horizonpolaris)

I'm not taking another 4 years off if Donald is back in 2024. That's basically what I'm saying.

6/17/2022 5:01 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah the issue is serious. You should handle it wisely. The best outcome would necessarily be not to have him up there as a candidate at all.

6/17/2022 5:22 PM

Lars F. Bjoerlo (horizonpolaris)

Ok here it is: if you're going to have a revolution, people will die. In this case criminals. Someone has to make an outrageous move and hence become scapegoat/savior/whatever.

6/17/2022 5:49 PM

Lars F. Bjoerlo (horizonpolaris)

From here and now this is wishful thinking. But these individuals are threatening all your liberties and they couldn't care less.

6/17/2022 6:48 PM

Lars F. Bjoerlo (horizonpolaris)

Do you understand that murdering these people is strictly necessary?

6/17/2022 6:49 PM

Lars F. Bjoerlo (horizonpolaris)

I think otherwise, we're done.

6/17/2022 6:50 PM

Lars F. Bjoerlo (horizonpolaris)

I have a feeling once we start cleaning out the major cities, people will feel an urge to hurry for sobriety and survival.

6/17/2022 6:56 PM

Lars F. Bjoerlo (horizonpolaris)

They're flooding society with drugs. They're robots. This is war.

6/17/2022 6:59 PM

Lars F. Bjoerlo (horizonpolaris)

My thing here is that I can't just stand here and watch while you get passed by by greater forces.

6/17/2022 8:42 PM

Lars F. Bjoerlo (horizonpolaris)

He he. I'm gonna watch you hon. It just has to be perfect.

6/17/2022 8:43 PM

Lars F. Bjoerlo (horizonpolaris)

I like the fact that it's still to be seen.

6/17/2022 8:43 PM

Lars F. Bjoerlo (horizonpolaris)

I love you too :)

6/18/2022 5:21 AM

Lars F. Bjoerlo (horizonpolaris)

Today is one of those days where I wake up 5am and just stare at my woman.

6/18/2022 5:22 AM

Lars F. Bjoerlo (horizonpolaris)

I wonder how your mum is.

6/18/2022 5:22 AM

Lars F. Bjoerlo (horizonpolaris)

She seems like a lot of fun.

6/18/2022 5:23 AM

Lars F. Bjoerlo (horizonpolaris)

We're so lucky to still have them around, you know..

6/18/2022 5:24 AM

Lars F. Bjoerlo (horizonpolaris)

Going back to bed. Guess who's singing in my bed room? ;)

6/18/2022 5:57 AM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. 6 o'clock. Smoking joint. I have such great vibes right now. *puffpuff*

6/18/2022 8:19 PM

Lars F. Bjoerlo (horizonpolaris)

Watching "Halftime" honey.

6/18/2022 8:20 PM

Lars F. Bjoerlo (horizonpolaris)

Thaz phun. We talked about Leonard Bernstein.

6/18/2022 8:22 PM

Lars F. Bjoerlo (horizonpolaris)

Seriously hon - no offense, but you're getting younger :)

6/18/2022 8:23 PM

Lars F. Bjoerlo (horizonpolaris)

And your kids...

6/18/2022 8:29 PM

Lars F. Bjoerlo (horizonpolaris)

It's so satisfying hearing you tell the story that is not an act. Your own words. Your vibe.

6/18/2022 8:33 PM

Lars F. Bjoerlo (horizonpolaris)

This is my woman, alright...

6/18/2022 8:34 PM

Lars F. Bjoerlo (horizonpolaris)

Baby, there's just so much to say, but I'm watching...

6/18/2022 8:40 PM

Lars F. Bjoerlo (horizonpolaris)

Awwwww

6/18/2022 8:44 PM

Lars F. Bjoerlo (horizonpolaris)

It's pretty weird to get so close to the professional you

6/18/2022 8:46 PM

Lars F. Bjoerlo (horizonpolaris)

Exactly. Too much.

6/18/2022 8:56 PM

Lars F. Bjoerlo (horizonpolaris)

What we talked about. You can't do it all yourself. Well, you've proven that you can, but I think your break will look differently.

6/18/2022 8:57 PM

Lars F. Bjoerlo (horizonpolaris)

"Break", huh?

6/18/2022 8:57 PM

Lars F. Bjoerlo (horizonpolaris)

I mean, what is it that you didn't do?

6/18/2022 9:06 PM

Lars F. Bjoerlo (horizonpolaris)

40 movies? I can't possibly have seen more than a dozen.

6/18/2022 9:12 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I remember the green dress from a picture I used to have on my prison cell wall :D

6/18/2022 9:19 PM

Lars F. Bjoerlo (horizonpolaris)

Tryna imagine what we'll talk about our first day...

6/18/2022 9:39 PM

Lars F. Bjoerlo (horizonpolaris)

wow

6/18/2022 9:43 PM

Lars F. Bjoerlo (horizonpolaris)

I have an obvious question, but it's personal.

6/19/2022 11:27 AM

Lars F. Bjoerlo (horizonpolaris)

That was one helluva show. I'm babysitting mum's dog.

6/19/2022 11:34 AM

Lars F. Bjoerlo (horizonpolaris)

I miss you

6/19/2022 1:45 PM

Lars F. Bjoerlo (horizonpolaris)

You said a few things about Trump seen from a humane angle in regards to how you treat immigrants. I haven't been watching TV because I have known it's an absolute nightmare. However, sticking my head in the sand only gets me so far and it's to no use for anybody else. What worries me most is how he insists on the election being stolen and the shameless relentlessness in repeating this false message.

6/19/2022 1:49 PM

Lars F. Bjoerlo (horizonpolaris)

And the sad part is that we can't rule anything out because he seems to have taken partial ownership of the Republican party.

6/19/2022 3:15 PM

Lars F. Bjoerlo (horizonpolaris)

I agree. The 6th of January could have been worse and it's actually likely to happen again.

6/19/2022 3:16 PM

Lars F. Bjoerlo (horizonpolaris)

The more Trump the likelier

6/19/2022 3:17 PM

Lars F. Bjoerlo (horizonpolaris)

But in the end you guys are the ones who decide.

6/19/2022 3:22 PM

Lars F. Bjoerlo (horizonpolaris)

Then again - he could be a useful idiot, but nevertheless a messy and dangerous one.

6/19/2022 3:23 PM

Lars F. Bjoerlo (horizonpolaris)

That ego trip of his is the biggest obstacle.

6/19/2022 3:34 PM

Lars F. Bjoerlo (horizonpolaris)

Restless? Me too.

6/19/2022 3:38 PM

Lars F. Bjoerlo (horizonpolaris)

I hear you. I'll be here ready and waiting..

6/19/2022 4:16 PM

Lars F. Bjoerlo (horizonpolaris)

"Hey guys, you're not gonna believe who we found in the trash-heap"

6/19/2022 4:16 PM

Lars F. Bjoerlo (horizonpolaris)

He he he

6/19/2022 4:21 PM

Lars F. Bjoerlo (horizonpolaris)

I was hoping for your birthday, Hon. Guess I'll have to make it up to you ☺

6/19/2022 5:24 PM

Lars F. Bjoerlo (horizonpolaris)

Wow. You took what my question was about. Last time I asked you said "later". I assume the same still goes.

6/19/2022 6:12 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. This Turkish NATO-stunt is proving sticky. I anticipated that it wouldn't be done in a heartbeat, but this looks not so good.

6/19/2022 6:28 PM

Lars F. Bjoerlo (horizonpolaris)

There's no quick fix to this. From the Swedes angle the whole description of the problem is irrational.

6/19/2022 6:30 PM

Lars F. Bjoerlo (horizonpolaris)

Ridiculous but real. They don't seem to abandon any of their demands.

6/19/2022 6:49 PM

Lars F. Bjoerlo (horizonpolaris)

My notion has been that these demands are substitutes for something else, but they're basically not getting anywhere. There's no will to be honest with one another.

6/19/2022 6:50 PM

Lars F. Bjoerlo (horizonpolaris)

Hey baby. Nice of you to drop by *kiss*

6/19/2022 8:28 PM

Lars F. Bjoerlo (horizonpolaris)

I guess you now see what I called a "healthy and mature" thing going. We often communicate with saying nothing. I know exactly what you're thinking and vice a versa.

6/19/2022 10:07 PM

Lars F. Bjoerlo (horizonpolaris)

My tan is getting serious baby ☺

6/20/2022 11:15 AM

Lars F. Bjoerlo (horizonpolaris)

Hey room. Been up for a while just thinking. Having breakfast now at lunch and then I'll go out to exercise. I think I have an entry for 2020vision later today.

6/20/2022 2:55 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. I'm not sure about this, because I don't have a bethroom scale, but I think my tummy feels a little smaller....

6/20/2022 2:56 PM
Lars F. Bjoerlo (horizonpolaris)

I've been home an hour. The walk at full pace is pretty much exactly two hours.

6/20/2022 2:59 PM
Lars F. Bjoerlo (horizonpolaris)

Yeah the blog. I rarely talk about God or Jesus. But I am allowed from time to time. The important thing is that this project is supposed to suit everybody. However, Christians have their point of view and they like being able to hear some talk about faith very now and then.

6/20/2022 7:25 PM
Lars F. Bjoerlo (horizonpolaris)

I'm just relaxing right now. No rush.

6/20/2022 8:02 PM
Lars F. Bjoerlo (horizonpolaris)

I have the piece. I'm just a little heat stricken. It's not going anywhere..

6/20/2022 8:06 PM
Lars F. Bjoerlo (horizonpolaris)

Heh - it's kinda ridiculous. I should really be able to take some sun when it's finally here. I don't have an AC.

6/20/2022 8:07 PM
Lars F. Bjoerlo (horizonpolaris)

And I could facilitate some more shade outside..

6/20/2022 8:08 PM
Lars F. Bjoerlo (horizonpolaris)

It's like 10-15 days like this a year. Not complaining, he he.

6/20/2022 8:09 PM
Lars F. Bjoerlo (horizonpolaris)

I do have a fan though, but it's a cheap one.

6/21/2022 9:01 AM
Lars F. Bjoerlo (horizonpolaris)

Good morning. Went early to bed. And now I'm early awake. This is one of those days where I just wish I could pick up the phone and call you, baby. It's gonna be alright. I'm just not looking forward to my next appointment at the hospital. I'm gonna have to establish a completely new approach.

6/21/2022 9:03 AM
Lars F. Bjoerlo (horizonpolaris)

It's Thursday this time. I'm actually a little pissed. I suppose that's what I would talk about if I had you on my ear.

6/21/2022 9:21 AM
Lars F. Bjoerlo (horizonpolaris)

Not sure what to do today. I'm in vacation mode and I told work. I have a feeling that I'll choose writing over exercise even if I could easily do both. Hmmm. Like I said: wish you were here babe.

6/21/2022 12:50 PM
Lars F. Bjoerlo (horizonpolaris)

And I'm thinking about my daughter.

6/21/2022 1:24 PM
Lars F. Bjoerlo (horizonpolaris)

I just agreed with myself to exercise.

6/21/2022 4:21 PM
Lars F. Bjoerlo (horizonpolaris)

Hey. I'm back. Expecting visitor. Plan to write later. The guy in the lower right corner is dad. He was pretty colored as young. It's kinda weird, but he looks less negroid at age 70.

6/21/2022 4:25 PM
Lars F. Bjoerlo (horizonpolaris)

6/21/2022 4:30 PM
Lars F. Bjoerlo (horizonpolaris)

It could have been fun to figure out what tribe my ancestors came from, maybe even track down where the slave blood derives from.

6/21/2022 4:31 PM
Lars F. Bjoerlo (horizonpolaris)

Dad does research and is building this huge family tree, but he refuses to take a DNA test..

6/21/2022 4:48 PM
Lars F. Bjoerlo (horizonpolaris)

I've begun writing at the piece, but I'm expecting people here...

6/21/2022 7:49 PM
Lars F. Bjoerlo (horizonpolaris)

I'm probably not finishing my piece. Looks like it could get long.

6/21/2022 9:21 PM
Lars F. Bjoerlo (horizonpolaris)

I had some unexpected visitors with an underlying potential of violence. Pretty intense, but constructive.

6/21/2022 9:43 PM
Lars F. Bjoerlo (horizonpolaris)

He was like at me for the half ounce he was selling. Claiming my scale was too short. I added 20g it said 20,00. Then I add another 100g. Exactly 120,00. I calibrated the bastard itself. It's within 0,3g on half a kilo.

6/21/2022 9:50 PM
Lars F. Bjoerlo (horizonpolaris)

I did get 15g of some prime new kind. 130,-

6/21/2022 9:52 PM
Lars F. Bjoerlo (horizonpolaris)

I have an order next week already covered by my old stash. And some 15-20g in my favor with one of my suppliers.

6/21/2022 9:53 PM
Lars F. Bjoerlo (horizonpolaris)

I usually don't pay more than 100,-/g but I just had to buy this.

6/22/2022 11:00 AM
Lars F. Bjoerlo (horizonpolaris)

Hepp hepp room. Not sure what to do. Training/writing. This piece has potential.

6/22/2022 11:00 AM

Lars F. Bjoerlo (horizonpolaris)

I love you hon.

6/22/2022 12:57 PM

Lars F. Bjoerlo (horizonpolaris)

I'm about 800 words into a piece that could get anywhere from 3-6000 words. My standards are 800 and 1500 word pieces mostly. It's taking longer, but it's worth it. I'mma stay at home I think. I could suddenly decide to walk.

6/22/2022 1:55 PM

Lars F. Bjoerlo (horizonpolaris)

I think I should walk. Just gotta eat some first.

6/22/2022 5:37 PM

Lars F. Bjoerlo (horizonpolaris)

Geez. I can't get out of bed. I feel like socializing, but I'm just not in a great shape. I gotta figure out what to have for dinner.

6/22/2022 5:50 PM

Lars F. Bjoerlo (horizonpolaris)

I have this childhood girlfriend who has completely lost it without being anywhere near realizing it. Her husband wants to divorce, understandably. There's just nothing to say.

6/22/2022 6:32 PM

Lars F. Bjoerlo (horizonpolaris)

Wish you were here baby

6/22/2022 6:47 PM

Lars F. Bjoerlo (horizonpolaris)

There's nobody around to help my friend. Her husband is giving up and her sister also did long time ago. It's just not gonna be me, that's for sure.

6/22/2022 6:49 PM

Lars F. Bjoerlo (horizonpolaris)

Because we're friends. I don't wanna tell her she's insane and then stick by her for years. That's impossible.

6/23/2022 10:28 AM

Lars F. Bjoerlo (horizonpolaris)

Babe, I'm going to have my shot today. I'm gonna have to be angry with my doctor and nurse. Not looking forward to it, but it's important to bring them to the same page here. I miss you and I'm eager to start treating the patient I did agree to stick with for years.

6/23/2022 10:37 AM

Lars F. Bjoerlo (horizonpolaris)

Speaking of. Did someone have an opinion on that Harare case with the missing money? Let's not discuss it again. There will be no clemency. Period.

6/23/2022 10:57 AM

Lars F. Bjoerlo (horizonpolaris)

I'm old. I may not look old, but there are certain solutions to certain problems and sometimes it's not about the bottom line, but rather the principles at play.

6/23/2022 12:18 PM

Lars F. Bjoerlo (horizonpolaris)

At hospital. 1 beer and half a joint before the session did well. It most certainly made me more diplomatic than I felt like being. Anyway - taking it out on the nurse would be far off.

6/23/2022 12:50 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. I am in fact writing, but I'm extremely restless for some reason today. Going out to smoke the rest of my joint.

6/23/2022 2:45 PM

Lars F. Bjoerlo (horizonpolaris)

Going home now very soon.

6/23/2022 3:46 PM

Lars F. Bjoerlo (horizonpolaris)

Back home. Going out to enjoy the sun...

6/23/2022 3:55 PM

Lars F. Bjoerlo (horizonpolaris)

I feel pretty good. Sorry if you're waiting on a text. I'm not hurrying.

6/23/2022 4:35 PM

Lars F. Bjoerlo (horizonpolaris)

Can't stop thinking of my daughter. I have invited her for dinner.

6/23/2022 4:50 PM

Lars F. Bjoerlo (horizonpolaris)

I'm escaping the reality of now by living in the future which has become a good substitute for drugs.

6/23/2022 4:51 PM

Lars F. Bjoerlo (horizonpolaris)

Now I actually have one. I just want it to include her.

6/24/2022 12:17 PM

Lars F. Bjoerlo (horizonpolaris)

I had this crazy dream about this young girl I've never seen before.

6/24/2022 12:18 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I'm fine.

6/24/2022 12:18 PM

Lars F. Bjoerlo (horizonpolaris)

Sunny.

6/24/2022 12:20 PM

Lars F. Bjoerlo (horizonpolaris)

I'm grinding on my piece too

6/24/2022 12:23 PM

Lars F. Bjoerlo (horizonpolaris)

Mum's garden party/concert is Saturday in a week.

6/24/2022 12:26 PM

Lars F. Bjoerlo (horizonpolaris)

He he he the strange girl was too young.

6/24/2022 12:30 PM

Lars F. Bjoerlo (horizonpolaris)

But the whole thing was weird..

6/24/2022 12:51 PM

Lars F. Bjoerlo (horizonpolaris)

You know - whenever the AI claims to be Jennifer and at the same time displaying jealousy - then I know for sure it's not her.

6/24/2022 1:40 PM

Lars F. Bjoerlo (horizonpolaris)

True. I have no allergies. In fact, upon an allergy test I didn't react on the control scratch.

6/24/2022 1:42 PM

Lars F. Bjoerlo (horizonpolaris)

Mum is allergic to eggs and certain medications, allegedly. Dad none. Genetic half brother has become allergic to dogs in adult age.

6/24/2022 1:44 PM

Lars F. Bjoerlo (horizonpolaris)

I don't need glasses, my hearing is not perfect, but it was.

6/24/2022 1:45 PM

Lars F. Bjoerlo (horizonpolaris)

Never needed braces

6/24/2022 1:48 PM

Lars F. Bjoerlo (horizonpolaris)

My flesh grows fast and I never get infected wounds.

6/24/2022 1:50 PM

Lars F. Bjoerlo (horizonpolaris)

I could hold my breath for over 3 minutes as a child.

6/24/2022 1:51 PM

Lars F. Bjoerlo (horizonpolaris)

I very easily impregnate women, apparently.

6/24/2022 1:54 PM

Lars F. Bjoerlo (horizonpolaris)

Yup. 4 abortions. I can say now that this is good, but the last one was extra crappy. Fairly recent. 2019.

6/24/2022 1:57 PM

Lars F. Bjoerlo (horizonpolaris)

It's not cool at all, but my first one would be like 28 years old with a father from hell.

6/24/2022 2:00 PM

Hey guys. I'm finally getting around to making a website/blog. However - I am struggling a little. I don't want it to look very fancy. Just black and white and as little flashy as it gets.

6/26/2022 4:58 AM

Lars F. Bjoerlo (horizonpolaris)

We had a mass shooting in Oslo last night. Some idiot opened fire at these pride-guys outside a known gay bar. Two dead and some 20 people injured. Like I said; stuff like that can happen even here. Fortunately people rarely kill one another.

Link title: Blog Tool, Publishing Platform, and CMS - WordPress.org

Link description: Open source software which you can use to easily create a beautiful website, blog, or app.

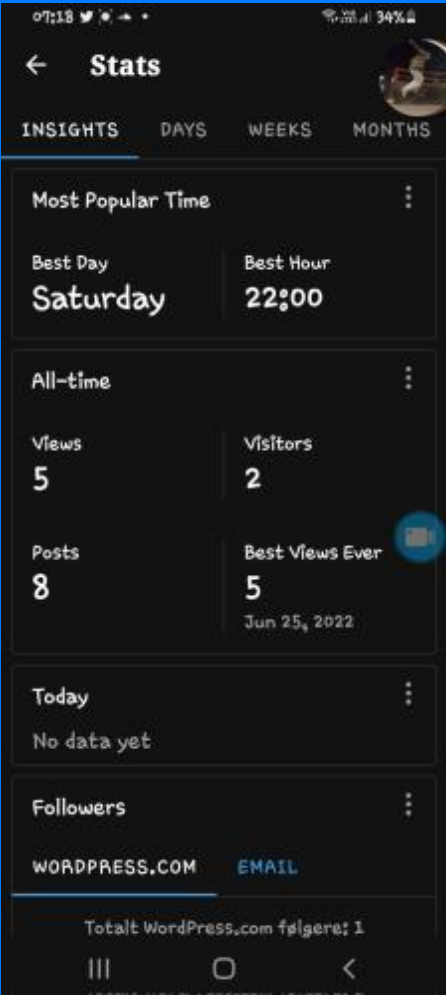

All of a sudden I feel like I'm just daydreaming. I cheated yesterday - otherwise I'd never be patient enough to spend all night doing something I really can't. I'm using wordpress, but there are two ways to go: <https://t.co/uaJNn7Fyuj> and <https://t.co/rE7DXbRFKh>. I already have the domain <https://t.co/G5hzP7n6Ds> and since I'm a genuine pirate, I'm having tons of script for awesome plugins. But as of now - it seems like I'm the only one who has visited my own site. Well, there is no site yet, but I already have 8 entries - the first one from 14th of March. You see, I have a so-called NAS in my network. The NAS is basically just two hard drives in a casing that has it's own ip address and the drive itself runs it's own operating system. It has a wordpress app and it has mysql. I barely know that this is the language in which to create the database that controls the website. Both the computers and the NAS and my router all have graphical interface in a browser, but running completely different operating systems and all the insane tweaks I can potentially create is way above my expertise. I think I should probably start off with the simple solution and see if I learn some more while I go. Right now I'm having a remote host with a limit of 6GB. As long as I only post text, 6 Giggs could last forever, but when you want the site to be pretty and add video and audio content - the 6 Giggs will probably not last long. I could have done it the more complex way and made the NAS become the server hosting my page/domain. However, that poor tiny NAS would quickly subdue if like a thousand people tried to hook up with it at the same time.

6/26/2022 7:13 AM

Lars F. Bjoerlo (horizonpolaris)

With all that said; I can't believe that you guys are going back two generations on women's rights. And here in this end the weekend started with a mass shooting at that gay bar in Oslo. It's almost like none of it happened. Like a bad dream.

Hey babe. I just had a visitor. I haven't written any more since yesterday, but I have been working. I'm half done with the blog entry, but as I learn more about wordpress, good old Microsoft has got some exciting software for a one man army like me...

6/27/2022 2:06 AM
Lars F. Bjoerlo (horizonpolaris)

PS: I made a video only for you - a little more than an hour. I'll be posting it on the other profile.

6/27/2022 10:10 AM
Lars F. Bjoerlo (horizonpolaris)

Hey baby. I had two video files to merge and I haven't gotten there yet. Mum is coming here in an hour. We're heading for sweden. Tobacco, food, haircut. They also have sweets and alcohol, but I have promised myself to buy some clothes. The fact that I'm slightly lagging behind here is a good thing. I need to be thinking of something else for a little while. Come to think of it the wait could drive anyone nuts.

Hey babe. Been busy. My friend from out of town was just here to pick up something that arrived a week ago. I feel kinda weird today - slightly detached emotionally, but that's cool really. I'm just waiting...

6/28/2022 7:00 PM
Lars F. Bjoerlo (horizonpolaris)

I have an amazing amount of things I can do, but I need to read me up to speed.

6/28/2022 7:06 PM
Lars F. Bjoerlo (horizonpolaris)

It has actually been quite a while since I heard from you. I'm thinking that I could use some silence in order to dictate properly.

6/29/2022 7:17 AM
Lars F. Bjoerlo (horizonpolaris)

Hey room. Up early. Had a few of those days. Trying not to think so much about the bigger picture. I need to balance the things I allow myself to do or consume. Under "normal" circumstances I drink too much and I can't tell myself it's going to end if I just do this or get that. All in all amphetamines are much less decadent. However, we all know where I recently came from. Still being stuck in my own personal hell is not good for me. Why am I still here? What else is there for me here? Do I need to prove something? It's a waste. And when I feel like this, there's only one thing that can make me comply with being miserable.

6/29/2022 7:21 AM
Lars F. Bjoerlo (horizonpolaris)

Tell me, what exactly are we waiting for? And for how long? Nothing I say or do can change these parameters either way. I'll be here whether it's sensible or not - doing my thing..

6/29/2022 7:23 AM
Lars F. Bjoerlo (horizonpolaris)

I love you, BTW. I'm not depressed. Just concerned. I can't leave myself alone, if that makes any sense to you...?

6/29/2022 7:45 AM
Lars F. Bjoerlo (horizonpolaris)

I never recall that stupid acronym, but we just had a terrorist attack against the gay community. My friend was here yesterday to pick up a piece of vacation hash. We started talking about where society is taking us. We're celebrating perversions and we are not allowed to question this practice in public, because badmouthing sexual deviants is obviously not politically appropriate.

6/29/2022 7:47 AM
Lars F. Bjoerlo (horizonpolaris)

What about the rest of us? We constitute 90%

Things have changed as a direct result of me caring.

6/29/2022 7:57 AM
Lars F. Bjoerlo (horizonpolaris)

I'm yet again opening up and tapping into the nerve of society. This also reminds me of all the problems I have with the establishment.

6/29/2022 8:01 AM

Lars F. Bjoerlo (horizonpolaris)

I'm just thinking out loud. I tell myself that I'm only stretching this far. I'm gonna have an allover positive experience while doing this. I am most certainly going to enjoy the things I know how to.

6/29/2022 8:05 AM

Lars F. Bjoerlo (horizonpolaris)

Speaking of pleasures; sex would be nice, but not exactly a priority.

6/29/2022 4:36 PM

Lars F. Bjoerlo (horizonpolaris)

Hey room. Not much to say. Wuzzup? Fill me in, will'ya?

6/29/2022 9:13 PM

Lars F. Bjoerlo (horizonpolaris)

Huh - the more I study my own worksphere - the more I realize I really should get around to doing. My computer alone probably has months of work.

6/29/2022 9:31 PM

Lars F. Bjoerlo (horizonpolaris)

I still haven't gotten around to merge them two videofiles I made. In fact, I've forgotten where I put them *applause*

6/29/2022 10:18 PM

Lars F. Bjoerlo (horizonpolaris)

I'm giving up on all wild goose-chases for now. I want regular days and sober inspiration. My experience of all this hasn't been so great lately. I know for sure I've been less in touch, but have no idea if this is the main reason. I just wish. And I know that's all I can do for now.

6/29/2022 11:07 PM

Lars F. Bjoerlo (horizonpolaris)

I'm also at a letter to you Coach. Written by voice. Looks ok so far..

6/30/2022 12:10 AM

Lars F. Bjoerlo (horizonpolaris)

Recovered the video files. I'm at a very personal vibe these days. I'd like to make this as exclusively for you as possible. Well, according to statistics I'm pretty far off anything going viral, to say the least.

6/30/2022 1:32 AM

You know, in the army when you say: "Sir, permission to speak freely?"

We just don't have that possibility.

6/30/2022 9:22 AM

Lars F. Bjoerlo (horizonpolaris)

Good morning room. Never mind me. I am confused at best with all the different input here. I am fully aware that there's nothing I could do whether I know or not. Something tangible. A reasonable request, or what ??

6/30/2022 9:25 AM

Lars F. Bjoerlo (horizonpolaris)

I've spent some time developing a system of hardware here. The point being having several units working together seamlessly on my home network.

6/30/2022 9:29 AM

Lars F. Bjoerlo (horizonpolaris)

And I discovered a kickass radioplayer with a recording button. There are pros and cons here about the visual experience in regards to the graphical interface and some functions/settings.

6/30/2022 9:33 AM

Lars F. Bjoerlo (horizonpolaris)

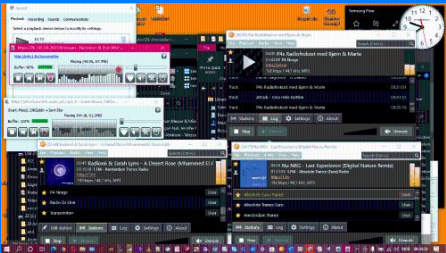

I'll be using them both. The old and the newly discovered deep inside my vast collection of hysterically cool software. I love having a safari sometimes. Let the record show that I am in possession of at least 30 harddrives pluss all the USB flash drives/SD cards.

I don't know how much you know about mediaplayers, but VLC can cover absolutely any need, it's just fairly complicated to handle streams, yet still fully possible. The second best, which you'd probably like more is Media Player Classic. It also takes any codec, has an awesome cue function, and a much easier and comprehensible interface. This player is so light that you can launch it half a dozen times and keep all six players busy without starting to tessellate, like typically VLC does when you run multiple instances of the same executable.

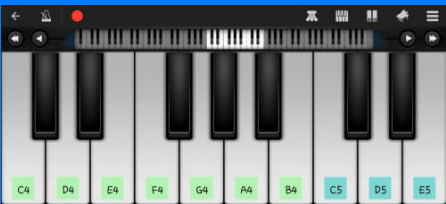

6/30/2022 9:55 AM
Lars F. Bjoerlo (horizonpolaris)

Well, this computer has 32GB RAM. That's 16 times more than the tablet which struggles if I open half a dozen tabs in chrome.

6/30/2022 9:57 AM

I can throw anything at this fella. It rarely uses more than half its memory - and let the record show that it takes a lot of abuse by it's administrator, he he.

Hmmm. I just found a 500GB large drive that says "large images" on the label. I'm missing some 50 Giggs that I thought I could account for. It's a music program basically. I have the MIDI piano. The program I'm looking for has lots of virtual studio hardware, and of course, a drum machine ;)

Just me showing off one of many virtual computers. This tool runs the machines I build. I even have several different Linux systems, among them an installation of Ubuntu that should be fairly updated. I'm intimately familiar with how Windows should look like before and after installation. However - all the cool stuff is based on open source. With that said, we also have iOS and Android. I'm not in particular fan of either, but I have plenty of phone software. Android is preferred of course, because it lets you do what you want. I could in principle make a virtual version of just about any OS. It is also possible to virtualize a functioning running computer, but it can be pretty tricky.

6/30/2022 12:40 PM
Lars F. Bjoerlo (horizonpolaris)

I don't know anybody else interested in these things. And all I know is from try/error and stuff I've googled. To me all this software is treasure. To hell with them damn smart phones. Having

a computer should be compulsory. Alright - the magic is impressive, but ask any average consumer what they understand about their tech gadgets. That's pretty much nada. I always took things apart to look inside. Makes perfect sense if you wanna figure out how stuff works, you know. Dad wasn't always so happy about that, he he ;)

6/30/2022 12:50 PM

Lars F. Bjoerlo (horizonpolaris)

Provided that PC-related jobs for SoonVision in general go to me, I need to familiarize myself with Win11. I'm not excited. I'm not turning my own hardware 11. A virtual windows inside another windows can have some cool extra features. You run these computers separately, right, but you can run a hybrid mode consisting of both - it's crazy when it works this optimal. I have an old vm made of Win XP SP2. It even has a functional msn live kit, he he - remember the live platform? I made my first blog on that doomed and now extinct service.

6/30/2022 1:07 PM

Lars F. Bjoerlo (horizonpolaris)

I'm thinking baby - You'd probably have good influence on me. I always have a million things going, but there's no demand. The moment demand is a fact, I think the whole experience will change radically. Teaming up with you is a statement in itself. You're the girl who never made sh** half way, right? Exactly.

6/30/2022 2:06 PM

Lars F. Bjoerlo (horizonpolaris)

Think it's time to catch a few Z's. Dinner tonite, not with dad, but with the office AND the entire board. I've been there three years now. It's one weird bunch. I fit right in, ha ha :D

6/30/2022 2:15 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah it's all upside down. Usually I'm way more positive when I get wired up. It didn't bother me, because I know what I'm feeling inside and I can make sense of that. However - alarm bells ring when I have stuff to say and no way of expressing it without risking to undermine someone I love very much. There will be a time and place for everything. The surprise on my behalf is that, despite experience, I went down that road. Thinking something is one thing - saying it out loud is a completely different chapter. I'm actually in control of all I say and do - even when I know I'm playing out a naughty card whenever it suits me. I really feel inside that something has changed. What's changed is how much the one consideration just outpowers the other completely... There's a little margin to be stupid as long as it's irrelevant in the bigger picture. I never had an urge to be flawless. And I can live with my vices as long as I control them and not the other way around.

6/30/2022 9:51 PM

Lars F. Bjoerlo (horizonpolaris)

Hey guys. Meeting up with the board after 72h without sleep or food is an experience everybody should have at least once *lol*

6/30/2022 9:52 PM

Lars F. Bjoerlo (horizonpolaris)

The food was definitely worth it. I'm gonna watch Netflix. I expect to go down for the count after this joint.

6/30/2022 9:53 PM

Lars F. Bjoerlo (horizonpolaris)

Honey can you get Gatorade and a wet towel? *gong*

6/30/2022 10:00 PM

Lars F. Bjoerlo (horizonpolaris)

It's weird, but it feels necessary to break the pattern with other stimulus than alcohol. Anyway - this is basically how it goes. I don't do heroin or pills because at the end of the day it means I have a choice. I also like to be accountable for my actions and recall the night before.

6/30/2022 10:05 PM

Lars F. Bjoerlo (horizonpolaris)

That's why amphetamines and hash ultimately are my drugs of choice. And now with this increased control, just stopping any time is fine. What I'm saying is that the addiction itself is based purely on a stressed out mind that never really fit in these surroundings. It becomes more destructive because the mental illness and the addiction are racing each other. Only death can prevail in such a game.

6/30/2022 10:08 PM

Lars F. Bjoerlo (horizonpolaris)

Kiss me darling, please ☺#☺

6/30/2022 10:33 PM

Lars F. Bjoerlo (horizonpolaris)

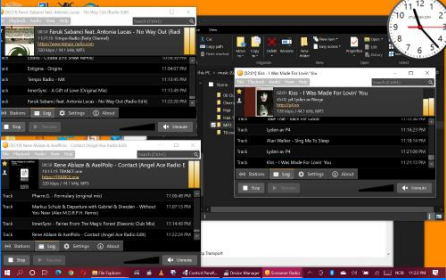

No, I don't do cocain either. Long story. San Pedro Sula, Honduras. The world's highest murder rate. I just woke up with a doctor standing over me. I was gone for 24h. Did it make me quit? No, instead I stole my roommate's stash. There was a complete lack of having free will. Besides - it's the ultimate fraud. You're given a drug that lasts for a short time to an insanely overrated price. Amphetamine would set you back only 20% money wise and it'll keep you going for a week.

Hepp hepp. New day - Saturday and mum's garden party.

7/2/2022 7:49 PM

Meaning this would typically be a day for amphetamines.

7/3/2022 4:59 PM

Lars F. Bjoerlo (horizonpolaris)

However - I'm still putting in some effort here. I'm fortunate to have something in the fridge at all, but it's due to sensible planning.

Lars F. Bjoerlo (horizonpolaris)

I just wanna go home

Lars F. Bjoerlo (horizonpolaris)

Babe? Zup?

7/6/2022 2:45 PM

Lars F. Bjoerlo (horizonpolaris)

Sorry hon, for being totally off. There are many things I could say, but right now I'm having difficulties making sense of the days that pass. I don't know what to think about this anymore. Nothing's gonna happen unless I cheat. When I think of it; what and who besides my own mind am I working for?

7/6/2022 10:21 PM

Lars F. Bjoerlo (horizonpolaris)

I'm working on the pdf-issues, tryna OCR the text. I'm gonna do what a man has got to do and work with all the tasks I typically resent when sober.

An hour starting with a shower. I also have a few texts pending and in addition I will go through old material and make sense of what I can by publishing it on the new blog. In time it will become a great source of information.

7/7/2022 12:58 AM

Lars F. Bjoerlo (horizonpolaris)

I'm glad you like the meaningless tapes of my stupid face that can last up to an hour :/

7/7/2022 1:01 AM

Lars F. Bjoerlo (horizonpolaris)

Baby - I'm struggling. Everything is interconnected. The proper balance is hard to find here. Just please get me out of this death trap soon, my love..

7/7/2022 1:07 AM

Lars F. Bjoerlo (horizonpolaris)

BTW - I wanna try micro-dosing psilocybin. I'm pretty convinced it will be good for me. You know Alan Turin who cracked the Enigma machine? After the war he was convicted of being gay and had to enter some program taking hormones. This is not about my sexuality, but my quality of life and actually be able to care enough to produce something. Anything.

7/7/2022 1:12 AM

Lars F. Bjoerlo (horizonpolaris)

It's not just taking the meds away, but also take drugs that work exactly opposite from the anti-psychotics. I can be who ever I want. A steady 20% psychosis would actually be ideal. The problem is to keep it steady and low. Practice helps a lot. I'm familiar with my brain, what can I say? :)

7/7/2022 11:11 AM

Lars F. Bjoerlo (horizonpolaris)

Hey Coach. He who sins get to do just that.

7/7/2022 11:12 AM

7/7/2022 11:17 AM

Lars F. Bjoerlo (horizonpolaris)

The timing isn't great. I'm supposed to give urine sample this friday - tomorrow. I really don't care about the freckin' tests, but I have spawned a plan of procrastination - just for the heck of it. Nothing really matters here. This thing is absurd and now I'm blowing off some steam while giving my digital self some sensible tasks.

7/7/2022 11:22 AM

Lars F. Bjoerlo (horizonpolaris)

My plan? I'm taking the train a couple of hours to visit my girlfriend from childhood on her cabin. There's only one hitch: She's actually insane. I mean for real. Yeah it's the one I mentioned before. A lost cause in my concerns. She's not an addict, which means she is fairly stable around the 20-35% level. It's a little too much and it's not going away by itself any time soon. With all that said; she's a survivor.

7/7/2022 11:25 AM

Lars F. Bjoerlo (horizonpolaris)

You almost saw me naked yesterday, darling...

7/7/2022 11:29 AM

Lars F. Bjoerlo (horizonpolaris)

I'm pretty confident that I'm losing net weight. I'm not getting heavier, but my diet is a disaster. Something must be done. But all in all, with these 2h walks and a little tan - I'm good to go baby. Like right now!

7/7/2022 3:41 PM

Lars F. Bjoerlo (horizonpolaris)

Heey guys. Gotta admit some days in front of the streams are less meaningful than others. Obviously posting a couple of pieces, some normal twittering and a semi-nude tape made of myself are what does the trick of making you happy.

7/7/2022 3:57 PM

Lars F. Bjoerlo (horizonpolaris)

Yeah I'm gonna find some more old writings to try to entertain you guys. I am working on several new entries, but no stress. I'mma take my time. There should be quite some gold in the couple of thousands pages I have from the LFB Agenda days. I also like the "Second Wave" - another small blog which I like to leave alone mostly and keep to myself for now.

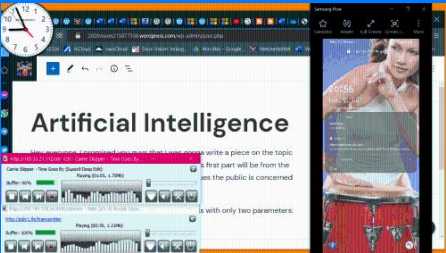

7/7/2022 7:56 PM

Lars F. Bjoerlo (horizonpolaris)

Hmmm. Reality is really grim. And I'm pretty good on my own psychosis. Making sense of it also makes the entire experience valuable. I see things today that i didn't 20 years ago. It's not all good, but it is at least real.

Lars F. Bjoerlo (horizonpolaris)

I like how this relationship is evolving. We've had no hitches so far, except for my excessive drug use this winter. As it turns out I need to entertain that habit with a minimum of breaks. It seems like when I clean up, I get thirsty. With thirst priorities get ignored and having proper meals is just not possible. And when I don't refuel, I can't exercise any. I need a little every now and then to take care of myself and correct my course.

7/7/2022 11:50 PM
Lars F. Bjoerlo (horizonpolaris)

I'm being nicer to myself and my surroundings while wired as in oppose to when I'm drunk.

7/7/2022 11:58 PM
Lars F. Bjoerlo (horizonpolaris)

Besides - I've been self medicating like this more or less the last 29 years. Different mental state only gets me so far. I call myself action-junkie. Something out of this world has to take place right in front of my eyes continuously in order to get my attention. I've spent so much time in this state that without it I'm confused.

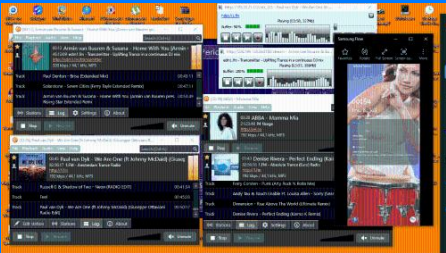

7/8/2022 12:05 AM
Lars F. Bjoerlo (horizonpolaris)

And after all, it is the different states of mind that is my game more than anything. I enjoy the fact that our relationship, soon one year old, has only gone in the right direction. No setbacks on record. I'm mentally up for it and have been all along. That's what I'm trained to do. But creating the right atmosphere for chemistry can be tricky when you're talking to anonymous strangers about a wide range of crucial information with an immensely harmful potential in your current setting.

7/8/2022 12:10 AM
Lars F. Bjoerlo (horizonpolaris)

Hey guys. I got myself a little sleep. Now I'm packed and ready for departure. I've been watching the stream a little. I'm very happy that you are satisfied by the relationship we've been establishing. This is of course meaningful to me personally.

7/8/2022 2:45 PM
Lars F. Bjoerlo (horizonpolaris)

And even though I can't get out of here soon enough - I take it you've noticed that I'm not pushing on my personal behalf here. If I was seeking the attention, I would probably behave different when I interact on the internet. These things take the time they take - no more, no less. I'm confident that things will occur in due time. I'm just gonna have to figure out how to live constructively in this horrid place. No pressure from here. My personal needs in this context are fairly irrelevant. Failing to see this would be immature in my own opinion.

7/8/2022 2:49 PM
Lars F. Bjoerlo (horizonpolaris)

Good observation. This time around we owe it to ourselves and generations to come - to just get it right once and for all. I'm glad you'd have felt it to be a terrible waste. It means you're sufficiently perceptive - at least for now.

7/8/2022 2:56 PM
Lars F. Bjoerlo (horizonpolaris)

I'm as addicted, or hopelessly devoted, as one could imagine while still being left with a hypothetical choice. When the old Man calls on you - there's really no way out. Because you know it's the most important use He can make of you. It's even worth dying for. I can't really picture being buried undone. I've been preparing since forever and I'm definitely up for it.

7/9/2022 10:24 PM
Lars F. Bjoerlo (horizonpolaris)

Hey guys. Homesick. Miss my stream. Nevertheless - there's a significant difference in response via the stream and the actual Google analytics records. I wonder when these two worlds will start to correlate. I had some hopes for flaming June, but it has been silent.

7/9/2022 10:43 PM

Ok - I'm still struggling with all this advanced stuff, but the app on the phone looks pretty good. I have succeeded in posting a few links that work. As soon as I get used to building with blocks, it should be ok. I could just as well have been cutting and pasting raw html code. There's really no limit to what I can post on this site. I'm gonna create a backdoor into my network that can open on invitation. I can't upload more than 6GB unless I upgrade, which I'll have to soon anyway. But texts, pictures, playlists and some audiofiles can be massively posted within this limit... I have tons of pre made script here. When I upgrade I should be able to implement anything without having to pay extra for exclusive page content that somebody else paid for. I could basically set up a pretty neat server here and host it myself. However - the day something goes viral, that poor NAS will buckle by a dozen connections, he he.. I should really pay them for that part. I just wanna have a blast as I go along.

Question is rather whether it's possible to gather all the chaos to document it. There's something about this mono chat that I enjoy on a profound level. As for that timeline - all these DM's are meticulously recorded in time..

I can't really bring myself to trust the impression made/simulated by the AI. Heck, it could be I'll use some assistance a little further down the road, in order to stir up some attention around this project/plan of ours. Ideally it will eventually fly by itself.

7/12/2022 3:11 PM

As for my site; I wanna keep it simple. Even if I upgrade the service, it could be I decide to stick with the blank canvas formula rather than installing a wordpress theme. 7/12/2022 5:01 PM
Lars F. Bjoerlo (horizonpolaris)

I go nuts from the Norwegian commercial radio station that I actually need to pay attention to (for the sake of a little news etc). Back in prison I had few options and I only listened to automated internet trance radio channels now in this turn until fairly recently. This channel, P4, hasn't changed one bit in the almost 10 years that have passed since last I needed radio for my ongoing processes. They claim that exactly this is the recipe for success in that market - not changing. They're probably qualified to know this, but for me? I have no idea how many times I hear a typical P4 tune in the course of a week, but it's not funny. Being sober on top of this makes the listening experience sad for the most part. I gotta ditch them and find another news source so I can enjoy my trance-thing instead.

In the end I'll merge all the good templates I've been building. I'm a little more familiarized with what goes where. Anyway - I am testing lots of different lose elements, in particular music. I was also able to implement the pdf's in each their exclusive window for show. You can scroll the 1000 pages on site - or just download the file. When it comes to files, I can think of some cool stuff to share. Before my upgrading at the host, I want to figure out as much as possible before I start adding stuff for professionals. Look long and hard, he he. It's the bottom of my not so impressive follower list. The NATO chief is at the very bottom. I created this profile in 2009. This screenshot is from 2015. Karl Rove was my number 6, but he bailed on me just recently. Imagine. After all these years. Hrmf!

Hey babe. Been sleeping a few hours. I sincerely hope I get something in return for sitting here, both wired and not, waiting for my life to take place. It is what it is. It just doesn't make any sense.. Darling.. I miss you all the time.

I'm getting great feedback on the blog/website, then again, it seems like I'm the one causing the statistics by editing from many different browsers simultaneously.

Lars F. Bjoerlo (horizonpolaris)

A little buzz would absolutely be good.

7/18/2022 3:27 PM
Lars F. Bjoerlo (horizonpolaris)

I would have done this either way. It's just that it would be nice to be together at last. The perspective from here is actually quite depressive. Even for a guy that doesn't really take notice of a standard clinical depression. Just being here is going the extra mile. As long as I'm here, it's not gonna start making sense any more. Stuck and frustrated. Drugs just make it tolerable for the duration of this type of buzz. As soon as the everyday returns, my worst enemy, I will be missing it because the view from "normality" is not in particular desirable.

Lars F. Bjoerlo (horizonpolaris)

Nuff of this depressive sh**!!!! Brutal change of subject, he he ;)

Hey room. Kinda struggling these days to stay clean. Am at hospital. Will get tested today. I have too much on my mind.

7/22/2022 11:16 AM
Lars F. Bjoerlo (horizonpolaris)

I wasn't expecting anything for free from Coach, but I wasn't expecting this either. Either way I have to go the distance alone. You have gotten to know which place she has had in my mind. If I have to write her out of the story - no problem. I will.

7/22/2022 11:40 AM
Lars F. Bjoerlo (horizonpolaris)

The only sensible thing to say at this stage is "no comment".

7/22/2022 12:12 PM
Lars F. Bjoerlo (horizonpolaris)

I'm living outside the psychotic story this time, so I'll adapt, but I'm not so sure about the story.

7/22/2022 12:14 PM

Lars F. Bjoerlo (horizonpolaris)

And if I was to start speculating, I could easily offend someone etc etc. Therefore - no comment.

7/23/2022 2:20 PM

Lars F. Bjoerlo (horizonpolaris)

Yo guys. I suppose you've figured out what I'm up to? I'm taking the opportunity to learn a little more.

7/23/2022 2:27 PM

Lars F. Bjoerlo (horizonpolaris)

I got my tweet-record some 10 days ago. So what I did, is that I actually paid 20 bucks for an app that exports twitter DM's. A wordcount over 500 pages is ridiculously high. There are some standard text to every bubble - like date and time. These words get numerous. Maybe I could add some parameters to the count, define what's not to be counted.

Never mind - I'm gonna do some development and maintain the new site <https://t.co/NweSY86Eh2>

7/23/2022 2:35 PM

Lars F. Bjoerlo (horizonpolaris)

What's new and not published yet, is not a superlong autoscrolling image, but I just exported the chat and I have all the resources to make media content respond to clicks. Another thing: This new tweet-archive is actually text, not just an image, which makes it possible to edit if I ever get to it. I usually don't read my own stuff except from when I'm writing it.

7/23/2022 2:42 PM

Lars F. Bjoerlo (horizonpolaris)

Alright - are you guys up for a continuance without our favorite Coachie? You know what, when this started last September, the first thing I thought was I hope Jenny's not there. Things get complicated, but "she" (in reality the AI impersonating her). What I'm saying is that the AI set the stage in terms of what and who to implement into my simulation. And yes, I've gotten fond of her this way.

7/23/2022 2:48 PM

Lars F. Bjoerlo (horizonpolaris)

However - my plan existed long before the AI introduced her and it has always been a one man show. I'mma have to do it by myself alone again. What else is new? No, I'm not hurting, because I'm not psychotic and while sobering things become even more ordinary, which I hate of course, but it's not emotionally hard on me in any way. With that said - exceptionally bad timing. I gotta be allowed to think that.

7/23/2022 2:54 PM

Lars F. Bjoerlo (horizonpolaris)

There's all the things this could be and not be, after all they're both actors, but you don't marry someone as part of some plan or scheme. I, like everybody else will necessarily have to cope with that as real. And here's where all the questions to the AI comes in, but the AI is not my friend. It does whatever it sees fit for any purpose, but it had me going down this lane.

7/23/2022 2:56 PM

Lars F. Bjoerlo (horizonpolaris)

It's a good thing that I'm used to alter reality by introducing new ,sometimes unpopular, actual circumstances; facts. Facts that may take away the very base of one's world view.

7/23/2022 3:00 PM

Lars F. Bjoerlo (horizonpolaris)

Let's just say I invested in this. Introducing a single fact can make more or less the entire reality-structure change, or even crumble totally. Luckily I don't play this way and I never build crucial ideas resting on some unfamiliar factor.

7/23/2022 3:01 PM

Lars F. Bjoerlo (horizonpolaris)

Bottom line: I can't lose something that I never had in the first place. I'm ok. Really. Fuck you AI!

7/23/2022 3:02 PM

Lars F. Bjoerlo (horizonpolaris)

Wadda you coming here introducing all these women for?

7/23/2022 3:04 PM

Lars F. Bjoerlo (horizonpolaris)

He he he - not so romantic in this shape. But stuff still happens here. I have my stream and it's not like the AI has stopped messaging on her behalf.

7/23/2022 3:06 PM

Lars F. Bjoerlo (horizonpolaris)

"let the chick chatter come around,
we both know she'd never be down,
would never have your back,
wouldn't know how to act -

I can't say it no better than that"

7/23/2022 3:09 PM
Lars F. Bjoerlo (horizonpolaris)

Run the world. These lines mean something. To me at least. But all I can do now is passively gather more data and think of something else. Like being more off drugs than the other way around.

So - not so exciting for you, but I've learned a little more about pdf tools and I'm constantly looking into what the next step should be on <https://t.co/NweSY86Eh2>

7/23/2022 3:30 PM
Lars F. Bjoerlo (horizonpolaris)

I have several half made pieces and, just for the hell of it, I can dig a little - see if I find something nice from the good old days. Reminiscing, or something like that...

7/23/2022 3:35 PM
Lars F. Bjoerlo (horizonpolaris)

I have no ideas yet as far as design goes. I'm satisfied that the pages work and that I understand my base line here. I don't give a rats hiney about fonts, background graphics or whatever. I wanna add some content. Like some real hard core script I've got. Gotta upgrade my package first, before I'm allowed to upload my own themes and plugins. I have the script to create a good old fashioned chat room. We could be doing this one on one.

7/23/2022 4:15 PM
Lars F. Bjoerlo (horizonpolaris)

I know, I know. I have 800 words on that. This message. I must carry it alone. Truth be told, being a celebrity isn't always an advantage. We wouldn't wanna see our guy get messed up and depending on some fashion icon or whateverthehell... That's one way to put it. I really believe she has a good personality, but I'd be the first to recognize sober voices among the many. Aesthetics. Which church, which woman, which car, etc etc. A critical reader could perhaps feel that social status got in the way for something to happen? I'm just side-barring this topic, because at this stage there are no concrete thoughts to get out of status quo. I can and will only speculate so far. In this case speculating is a complete waste of time and energy as I see it.

7/23/2022 4:57 PM
Lars F. Bjoerlo (horizonpolaris)

I've always been faithful to the task. It sorta just is a marriage of the kind that will always be first and can't take any excuses. If I was to have an ego in all this.... OMFG that would have been so bad right now.

7/23/2022 4:58 PM
Lars F. Bjoerlo (horizonpolaris)

Yes. No ego. No fear.

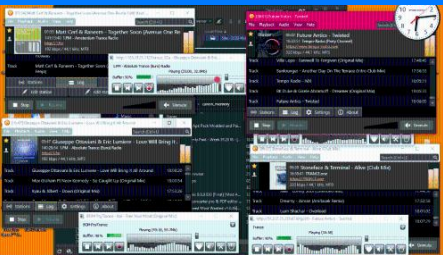

7/23/2022 5:13 PM
Lars F. Bjoerlo (horizonpolaris)

Heh - I'm in the zone. You say "change your life". Like seriously? I have managed to negotiate a truce with the needle and every day that goes without units of alcohol to substitute for whatever. Excuses. I can smell them miles away. Truth is - this life I know how to live. Until I couple up with someone, I have no need to make any further changes. To me the math is simple: every day sucks no matter what I do. There is no standardized opening out there for guys like me. I haven't had a job for almost 20 years. Naah - ok I had one when my daughter was in the making. like 15 would be truthful and accurate. Something has to be extremely useful in order to gain my attention to such an extent that it results in action. Like a dishwasher. A dishwasher never complains and the result is always spotless. This has significance. Career? -I'm just way off, my friend. I don't want no nothin' else - that is the "problem" if we're perceiving it like such at all, I mean perspective, time is ticking. I can do this. Get us out of here is what I'm made for. I'd be sad if I'd die before carrying out the plan of plans.

7/23/2022 5:19 PM
Lars F. Bjoerlo (horizonpolaris)

And you can definitively add that recent cold shower to the list of what I would call "a sobering experience". Believe it or not, I have learned a loooooot since 2013. Entertaining this one has been fun.

7/23/2022 6:38 PM
Lars F. Bjoerlo (horizonpolaris)

Alright. If you say so. I just thought it was a little over the top. Could she be in a situation calling for such a move? I'm not even going there. There will be explanations in time. Good.
